(c) In the case of a sale for a small cash payment with the balance amortized over a term of not exceeding fifteen years and where the sale is made under an installment or land contract or other similar instrument, the balance due the Corporation shall bear interest at the rate of 5% per annum and shall be payable in even monthly payments at the rate of at least 1% per month of the original amount represented by such contract and such payments shall be applied first to interest and the balance to principal. Upon the payment of at least 25% of the purchase price, a deed may be delivered to the purchaser and a note or bond on approved form secured by an approved security instrument taken back for the balance of the purchase price. Such note or bond shall bear interest at the rate of 5% per annum and shall be amortized in even monthly payments and shall be for a term not exceeding fifteen years from the date of the execution of the installment or land contract or other similar instrument. All payments under the note or bond shall be applied first to interest and the balance to principal.

SEC. 311. Rental prices and schedules shall, subject to the restrictions set forth in this paragraph, be set by the Regional Manager. During the period in which the property is offered for rent, efforts should be directed toward obtaining the maximum amount possible. Month to month tenancies are deemed to be more desirable. All leases other than month to month tenancies shall be submitted to the Property Committee in Washington for approval, except where the Deputy General Manager in Charge authorizes the Regional Manager to effect leases in behalf of the Corporation.

SEC. 312. Contracts, deeds, leases, or any instrument necessary or appropriate in connection with the sale or rental of any property under the jurisdiction of the Property Management Division may be executed by such officers as are authorized by the resolution of the Board of Directors adopted September 13, 1935, or as may be authorized by subsequent resolutions similarly adopted. Except for the sale of real properties, contracts and other instruments effecting the management of properties may be executed in behalf of the Corporation under procedure prepared by the Deputy General Manager in Charge and approved by the General Manager and the General Counsel or an Associate General Counsel.

SEC. 313. Upon approval by the Regional Manager of any expenses of any nature whatsoever made or incurred in the performance of any of the functions or duties required or authorized to be done by this resolution or by the Manual of Rules and Regulations, the Regional Treasurer shall make such expenditures from the Regional Working Fund and such account shall be reimbursed from such source as the Comptroller of the Corporation may determine, provided that payroll, travel, and any other expenditures for which there is an established procedure requiring payment from the Home Office in Washington, and any compensation of any fee attorney, shall not be included in this authorization and shall continue to be paid as heretofore. The Regional Manager is authorized to determine the necessity for such expenditures and the amounts thereof.

The State Manager may incur or approve charges in behalf of the Corporation for expenses made or incurred in the performance of any of the functions or duties required or authorized to be done by the Property Management Chapter of the Manual in any case where the amount thereof does not exceed $300.00, provided that where such amount exceeds $300.00 the approval of the Regional Manager shall first be obtained. The District Manager may incur or approve such charges in any case where the amount thereof does not exceed $100.00, provided that where the amount exceeds $100.00, the approval of the Regional Manager shall first be obtained. The State and District Managers are authorized, within the limitations above stated, to determine the necessity for such expenditures and the amounts thereof. Charges and bills incurred or approved by the State or District Manager shall be paid by vouchers through the regular procedure provided therefor except in those cases where disbursements are authorized to be made by brokers out of funds in the possession of the broker received from the income of the particular property. Any authority hereinabove vested in the State Manager and the District Manager may also be exercised by any Assistant to the State Manager in Charge of Property Management, or by any Assistant to the District Manager in Charge of Property Management, or any District Property Management Supervisor, when duly deputized for such purpose with the approval of the General Manager or a Deputy General Manager.

Contract Management Brokers and Contract Sales Brokers may incur charges in behalf of the Corporation, and may expend, out of revenues from properties listed with them, monies for expenses made or incurred in the performance of any of the functions or duties required or authorized to be done by this resolution or procedure promulgated thereunder, or by the Manual, provided that if the amount to be expended exceeds $25.00 on any particular property during any monthly account period, the approval of the District Manager shall first be obtained, except in cases requiring emergency repairs for which the broker may incur charges not exceeding $100.00. It is further provided that if the amount to be expended exceeds 33⅓% of the latest appraised value of the property appraised "as is" prior to reconditioning, or $1,500.00, and provided also the amount exceeds $500.00, the approval of the Property Committee in the Home Office shall first be obtained. In no event, however, shall the Contract Management Broker pay any bills or charges incurred in connection with any particular property which cannot be paid out of funds in possession of the Broker, received from the income of that particular property. If the funds in possession of the Broker from any particular property are not of sufficient amount to pay the charges or bills incurred, then same shall be paid only by voucher through the regular procedure provided therefor. An Accounting shall be made by such Brokers for each and every item of expense incurred hereunder and payment therefor shall be supported by proper receipts and releases

as the case may be. All expenditures authorized hereunder shall be made under such instructions and procedure as the Deputy General Manager in Charge of Property Management, subject to the approval of the General Manager, may from time to time prescribe.

The authorization for the payment of expenses provided for in this section, shall apply to both recurring and non-recurring items.

SEC. 314. The General Manager, upon the recommendation of the Regional Manager, may authorize the establishment of compensation of not to exceed two dollars per report to credit agencies for credit reports on individuals, corporations, and firms required by the regulations relating to Property Management, in localities where such reports may not be obtained at a lower cost. The General Manager shall file with the Auditor a schedule of fees in excess of one dollar per report which are authorized for any localities.

SEC. 315. The Deputy General Manager in Charge shall cause a report to be prepared each month showing changes in status of properties within the jurisdiction of the Division and showing the amounts spent and received for the account of the Corporation, monthly and cumulatively, on such properties, together with his recommendations, and shall submit the same to the General Manager for presentation to the Board. The General Manager shall consider such reports and from time to time, make recommendations to the Board as to the policy to be pursued by the Property Management Division and the Board will give such direction, from time to time, as may appear to it to be appropriate.

SEC. 316. The advice of the General Counsel or an Associate General Counsel or the appropriate Division of the Legal Department shall be secured before action is taken on any matter arising within the Property Management Division which affects the legal position of the Corporation.

SEC. 317. All previously issued regulations or restrictions which are in conflict herewith or with regulations issued by the Deputy General Manager in Charge and approved by the General Manager and the General Counsel or an Associate General Counsel under authority granted in this resolution are hereby superseded and repealed.

Adopted by the Federal Home Loan Bank Board on January 22, 1937.

[Manual Amendment]

BIDDING AT FORECLOSURE SALES

DEFICIENCY JUDGMENTS

DEEDS IN LIEU OF FORECLOSURE

Be it resolved, That pursuant to the authority vested in the Board of Home Owners' Loan Act of 1933 (48 Stat. 128, 129) as amended by Sections 1 and 13 of the Act of April 27, 1934 (48 Stat. 643-647) and particularly by Sections 4-a and 4-k of said Act as amended, Section 605 of Chapter VI of the Consolidated Manual be amended to read as follows:

SEC. 605 (a) After all efforts to collect the debt owing to the Corporation have been made, as is provided by the rules and regulations, and all efforts to assist the borrower have been exhausted and it becomes necessary to protect the taxpayers, foreclosure shall be ordered. When foreclosure is ordered, it shall be determined whether or not a deficiency claim shall be retained on the books of the Corporation if the value of the security is less than the amount of the debt. Upon making such determination, the Corporation will proceed on the following basis:

(1) If it is found that there is not a wilful default and that there is no reasonable prospect of realizing on a judgment against the maker or makers or, in either case, that the expense incident to obtaining judgment and servicing it is not justified, it shall be directed that after the security is subjected to the lien and after the expiration of any redemption period the remainder of the claim shall be written off the books as a bad debt.

(2) If it is found that there is wilful default or that there is a reasonable prospect of realizing on a deficiency claim and, in either case, the expense incident to obtaining judgment and servicing it is justified, the property shall be appraised, if practicable, and after the security is subjected to the lien, and if there is any redemption period, after such redemption period has expired, the deficiency claim, if any, shall be reduced to the difference between such appraised value and the debt owing to the Corporation on account of such loan (if it exceeds such amount) and any excess over such amount shall be written off as a bad debt. If appraisal is impracticable before foreclosure, then such appraisal shall be made after foreclosure, and after foreclosure and if there is any redemption period, after the expiration of such period, the deficiency claim or judgment shall be reduced to the difference between such appraisal and the debt foreclosed.

(3) In the event the maker or makers have any credits with the Corporation the same shall be applied before claims are written off as bad debts as herein provided.

(b) At the time of foreclosure, specific instructions shall be given as to bidding, and, where required, a representative of the Corporation shall attend the sale. The amount of the minimum bid shall be fixed in conformity with the practice, custom and law of the jurisdiction where the foreclosure is held. The maximum bid shall not be more than the amount owing to the Corporation and costs, provided that in any case the property may be appraised and the Corporation may bid up to such appraisal but not in excess of the debt owing to the Corporation and costs.

(c) If the Corporation is the final bidder at the foreclosure sale title to the property shall be conveyed to the Corporation.

(d) In cases where judgments are taken before sale, the same shall be taken in the usual course, as is herein provided, but shall be written off as bad debts or reduced as herein provided after the sale and the expiration of any redemption period. In cases where judgments are taken in the usual course after foreclosure sale but before the expiration of the redemption period, the same shall be written off as bad debts, as herein provided, or reduced, as herein provided, after the expiration of the redemption period. In cases where judgments are taken after foreclosure sale where there is no redemption period, the claim shall be written off, as herein provided, as a bad debt, or written down, or judgment shall be taken as herein provided. In all such cases and in cases where judgments are not taken as a matter of course in foreclosure proceedings or in the usual process of such proceedings, diligent efforts to collect deficiency claims and judgments on the basis herein provided shall be made.

(e) Deficiency judgments or judgments arising out of deficiency claims on the basis herein stated may be levied against any of the assets of the obligor which may be amenable to such process. If the property levied upon is required to be sold to the highest bidder the same shall be appraised prior to such sale and the Corporation shall bid up to the full value of such property, less any tax or other lien against the same, but not in excess of the amount of the Corporation's judgment and costs. If the Corporation buys such property at such sale, title shall be taken in the name of the Corporation.

(f) In foreclosure cases disposed of on a basis other than that stated in this manual amendment, the same shall be promptly reviewed and all outstanding deficiency claims and deficiency judgments shall be adjusted on the basis herein stated.

(g) In cases requiring appraisal, as is herein provided, the same shall be appraised, if practicable, before the case is referred to the Legal Department for foreclosure and the cost of such appraisal shall be paid upon voucher approved by the Regional Manager. The appraisal shall be made for a sum which may be reasonably expected to be realized from the sale of the property in the ordinary course of business, on a basis of 10 per cent or more cash and the balance to be paid on an amortized basis over a period of not exceeding fifteen years with interest on the unpaid balance at 5 per centum per annum.

(h) The General Manager, with the approval of the General Counsel is authorized by administrative order to make exceptions in any particular cases or in any particular jurisdiction to the procedure herein outlined, and to prescribe procedure in his discretion in such cases or jurisdiction.

(i) The General Manager, with the approval of the General Counsel, is authorized to compromise and settle, after foreclosure is completed, any deficiency claim or judgment held by the Corporation growing out of the mortgage debt, or to write off such claim or judgment as a bad debt and, if in judgment form, to take such action as may be necessary to cancel the same on the record if, in his judgment, such course is to the best interest of the Corporation. Such authority may be exercised also by the Regional Manager, with the approval of the Regional Counsel, subject to procedure and limitations prescribed by the General Manager, with the approval of the General Counsel.

(j) Deeds in lieu of foreclosure may be accepted from owners of mortgaged properties in settlement of the indebtedness owing to the Corporation, and in connection with such acceptance each Regional Manager is authorized, in his discretion and with the approval of the Regional Counsel, to expend funds to satisfy, remove, release or acquire intervening liens or rights. No sum shall be paid to satisfy any owner of the property, but as a part of the consideration for such deed an owner may be permitted to continue in possession of the premises for a limited time within the discretion of the Regional Manager under advice of the Regional Counsel. The General Counsel, with the approval of the General Manager, may prescribe the procedure and limitations governing the acceptance of such deeds and the expenditure of such funds.

(k) Officials of the Corporation in the field are authorized to take the action herein provided, including the power to adjust claims and write off bad debts, as is herein provided, as designated by the General Manager, with the approval of the General Counsel and under procedure prescribed by them.

Adopted by the Federal Home Loan Bank Board on February 10, 1937.

## SECURITIES AND EXCHANGE COMMISSION.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 2nd day of March A. D. 1937.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE SHELL-MARDIS FARM, FILED ON FEBRUARY 15, 1937, BY JAMES R. HAYNES, RESPONDENT

ORDER FOR HEARING (UNDER RULE 340 (B)) AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein contains an untrue statement of a material fact, or omits to state a material fact which is required to be stated therein (for the omission of which no sufficient reason is given in the offering sheet) and which is necessary to make the statements therein not misleading, to wit:

In that the offering sheet under Division II, Item 16 (a) (iii), is non-responsive and fails to disclose the percentage of water now being produced;

It is ordered, pursuant to Rule 340 (b) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be misleading, and whether the effectiveness of the filing of the said offering sheet shall be suspended; and

It is further ordered that Charles S. Lobingier, an officer of the Commission be, and hereby is, designated as Trial Examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendment to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 17th day of March, 1937, at 10:00 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said Examiner may designate.

Upon the completion of testimony in this matter the Examiner is directed to close the hearing and make his report to the Commission.

By the Commission.

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 2nd day of March A. D. 1937.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE BRITISH-AMERICAN-MCNABB PARK COMMUNITY FARM, FILED ON FEBRUARY 23, 1937, BY W. E. COOK, RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)), AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that in Division II, Item 2 (f) states that there is only one lessee of record when it appears that there are two lessees of record;

(2) In that it appears that title to portions of every block described in Exhibit B is involved in litigation as a result of which the royalty payments relating to those portions of said blocks involved in such litigation are being currently impounded and the offering sheet does not disclose such litigation or whether the interests offered by said offering sheet are, or are not, involved in or affected by such litigation;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 1st day of April 1937; that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Charles S. Lobingier, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witneses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 17th day of March 1937, at 11:30 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE GULF-CARTER-WALKER FARM, FILED ON FEBRUARY 23, 1937, BY GENERAL INDUSTRIES CORP., LTD., RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)), AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that the statement made in the last paragraph of Division II, Item 13, properly belongs in Division III, Item 3, of Schedule A;

(2) In that Division II, Item 13, does not state the "present indications" and might, therefore, be misleading;

(3) In that Exhibit A might be misleading because it is incomplete and does not state that the figure referring to the number 4 well of the Continental-McConnel lease represents the initial potential as of a particular date and not the present production of the well, nor the amount of oil actually produced during any twenty-four hour period;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 1st day of April, 1937, that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Charles S. Lobingier, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 17th day of March 1937, at 11:00 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE POWDER RIVER-STREY-LEWIS ET AL. FARM, FILED ON FEBRUARY 23, 1937, BY POWDER RIVER BASIN ROYALTY CO., RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)), AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that the type of interest offered should be identified as being either a non-producing landowner's royalty interest *or* a non-producing mineral owner's royalty interest;

Reference is made to the several types of interests as defined in Rule 300 of Regulation B in the Commission's General Rules and Regulations;

(2) In that the expiration date upon which the information contained in the offering sheet will expire is not correctly set forth in Division I, paragraph 6;

(3) In that in Division II, Item 1, the portion of the gross production to which the smallest fractional interest will be entitled appears to be incorrectly computed;

Reference is made to the instructional note which requires that the smallest fractional interest offered be stated in terms of a single fraction;

In that it appears that the interests involving several non-contiguous tracts are proposed to be offered by means of a single offering sheet;

Reference is made to Rule 335 in Regulation B of the Commission's General Rules and Regulations, which prohibits such practice except in certain instances;

(4) In that Division II, Item 2, contains certain information, particularly with reference to certain mortgages, which should properly be included in Division II, Item 11;

Reference is made to the instructional note inserted at the head of each Schedule B which provides in effect that the information required shall appear in the offering sheet in the order prescribed by the appropriate schedule;

(5) In that on page 2 of the offering sheet in the fifth legal description given under Division II, Item 2, the area of the Oran C. Cooper tract in terms of acres is omitted;

(6) In that the royalty interests referred to in the offering sheet appear to be offered by G. J. Sherin and W. R. Weir, whereas G. J. Sherin is represented as being the sole royalty owner of record;

(7) In that the text of Division II, Item 3, is omitted from the offering sheet as filed;

(8) In that Division II, Item 3 (a), refers to Division II for certain information particularly with reference to lease dates, etc., which information is required to be disclosed under Division II, Item 3;

(9) In that the reply to Division II, Item 3 (b), fails to disclose the number of *lessees* of record. The offering sheet discloses the number of *leases;*

(10) In that the answers to Division II, Item 11, are neither complete nor accurate, and the information required should not be incorporated by reference to other parts of the offering sheet;

(11) In that the note included in Division II, Item 11, indicates that a well is proposed to be drilled on the property covered by the offering sheet, whereas the plat attached to the offering sheet indicates that the proposed well is being drilled on property other than that covered by the offering sheet;

(12) In that Division II, Item 12, does not indicate definitely by whom the wells are to be drilled or by whom the well now drilling is being drilled;

(13) In that the purported offering sheet as filed is not responsive to a substantial number of the items contained in Schedule B, and does not disclose the required information in the sequence or order prescribed by said Schedule B;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 1st day of April 1937, that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Charles S. Lobingier, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 17th day of March, 1937, at 10:30 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

## WAR DEPARTMENT.

RELIEF OF UNEMPLOYMENT, CIVILIAN CONSERVATION CORPS

REGULATIONS AMENDED

[Changes No. 63]

FEBRUARY 24, 1937.

War Department Regulations—Relief of Unemployment, Civilian Conservation Corps, May 15, 1935, is changed as follows:

*37. Death and injuries.*

* * * * *

*d.* When a member who is discharged for any reason is at the time of discharge totally or partially disabled as a result of a traumatic injury received in the performance of duty at any time during his enrollment, he should be advised of his right to file a claim for compensation and be provided with Form CA-4 for that purpose. In every such case a notice will be sent to the United States Employees' Compensation Commission showing the date of discharge, the reason for discharge, the member's physical condition at the time of discharge, the date when Form CA 2-C reporting the injury was forwarded to the commission, whether a report of termination of disability (return to duty) was forwarded to the commission and if so on what date, and what action has been taken with respect to Form CA-4. This notice to the commission should be accompanied by true copies of C. C. C. Form Nos. 1 and 1A, and a brief summary of any clinical record of treatment, with diagnosis and prognosis, or the original clinical record (see pars. 31*a* (1), (3), and (4) and 97*b*). When practicable the member's completed claim on Form CA-4 should be forwarded to the commission at the same time. *In all cases where claim for compensation has been made for injury to the eye or eyes involving a permanent loss of vision, either total or partial, the claimant will be examined at the time of discharge by an eye specialist, who will make report of such examination on Form U. S.-205 (Physician's Report on Permanent Eye Disabilities). This report will be in addition to other reports required.* In the preparation of claims for compensation on account of injury (Form CA-4), the cash wage of members will be shown as the actual amount earned by such member including allotment, and the value of the allowance as $45.

(A. G. 324.5 (12-24-36).)

1937 AGRICULTURAL CONSERVATION PROGRAM—NORTHEAST REGION

BULLETIN NO. 101—NEW YORK—SUPPLEMENT (1)

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, Bulletin No. 101—New York is hereby amended as follows:

I

The following is added at the end of the matter relating to Practice Number 1.

Pulverized limestone is ground limestone which will analyze at least 80 percent carbonates, 90 percent of which will pass through a 20-mesh sieve and 50 percent of which will pass through a 100-mesh sieve.

The equivalent of 2000 pounds of pulverized limestone is either (1) 2000 pounds of ground marl which will analyze at least 80 percent carbonates, 90 percent of which will pass through a 20-mesh sieve, and from which none of the fine material has been removed, or (2) 1500 pounds of hydrated lime, or (3) 1000 pounds of ground burned lime, or (4) other approved material.

II

The following is added after the matter appearing under the heading "Liming" between Practice Number 7 and Practice Number 8:

SUPERPHOSPHATE APPLIED IN PREPARATION FOR SEEDING LEGUMES

Applying, between July 15, 1937, and October 31, 1937, from 300 to 600 pounds of 20 percent superphosphate or its equivalent per acre, to crop land if the county committee determines that such application is made in preparation for seeding such crop land in the spring of 1938 to legumes or to a grass and legume mixture. In all cases payment will be made only on the quantity of 20 percent superphosphate which is in excess of 160 pounds per acre.

III

The following is added after the matter appearing under the heading *"Fertilizing Green-Manure Crops"* between Practice Number 7 and Practice Number 8:

Applying to the same land from 2000 to 4000 pounds of pulverized limestone and from 300 to 600 pounds of 20 percent

superphosphate per acre to any of the crops specified in Practice 8 or 9 below.

IV

The following shall be entered as the first paragraph under Practice Number 9:

On Long Island, on land normally devoted to the commercial production of potatoes, pearl millet, Japanese millet or Sudan grass which is sown between May 15 and August 15 and plowed under after attaining at least 30 inches' growth, and which replaces a commercial vegetable crop, may be substituted for the biennial or perennial legumes in Practice 9.

V

In order to correct a clerical error, the present third paragraph under Practice Number 9 is amended to read as follows:

When annual grains are clipped green and left on land normally devoted to commercial vegetables from which no crop is removed in 1937, and followed by legume crops specified in Practice 9 which occupy such land throughout the remainder of the 1937 growing season, such clipping of the small grains may be substituted for the plowing or disking under in practice 8 and such leaving of legume crops on the land may be substituted for the plowing or disking under in Practice 9, and the provisions of the last preceding paragraph shall be applicable.

VI

Practice Number 18 is amended by striking out the matter now appearing under that heading and inserting in lieu thereof the following:

18. Establishing and maintaining strips of sod on fields devoted to intertilled crops. This practice shall be carried out according to plans approved in advance by the county committee based upon the recommendation of the Soil Conservaton Service or the Extension Service of the State College of Agriculture.
Payment, $2.00 per acre of such sod strips.

VII

Part V, "Definitions", is amended by adding at the end thereof the following:

As used herein as an adjective the term "approved" means, unless the context otherwise requires, found by the county committee to be recognized as conforming to good farming practice under the circumstances, in instructions issued by the State committee, based upon (a) recommendations contained in the most recent official reports or bulletins issued by the United States Department of Agriculture, the State Department of Agriculture, the State agricultural experiment station, or the State agricultural college, or (b) a finding of facts made by the State committee after a study of the material pertinent to the subject matter.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the city of Washington, District of Columbia, this 4th day of March, 1937.

IN THE MATTER OF AN OFFRING SHEET OF AN OVERRIDING ROYALTY INTEREST IN THE ROYAL-SCHENDEL (40-ACRE) TRACT FARM, FILED ON FEBRUARY 25, 1937, BY ROYAL PETROLEUM COMPANY, RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)), AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that the farm name is omitted from the heading preceding Division I. Reference is made to the instructional note at the head of Schedule F requiring that the information shall appear in the order given, etc. From the information disclosed by the plat it appears that the farm name of the property should be "Schendel 40-acre tract";

(2) In that under Division II, Items 10 (b), 10 (c) and 10 (d), the names of the oil pipe line, gas pipe line and railroad have been omitted;

(3) In that the name of the offering company is not inserted in the place provided following Division II, Item 20;

(4) In that the plat attached as Exhibit A to the offering sheet is not dated as required by Exhibit A (d);

(5) In that the information disclosed by Exhibit A is not correct. Reference is made to the statement contained in Division II, Item 9;

It is ordered, pursuant to Rule 340(a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 3rd day of April, 1937; that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Charles S. Lobingier, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 19th day of March, 1937, at 2:30 o'clock in the afternoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

By the Commission.

## TREASURY DEPARTMENT.

### Public Debt Service.

[1937—Department Circular No. 574]

UNITED STATES OF AMERICA 2½ PERCENT TREASURY BONDS OF 1949-53

REDEEMABLE AT THE OPTION OF THE UNITED STATES AT PAR AND ACCRUED INTEREST ON AND AFTER DECEMBER 15, 1949

*Additional Issue*

MARCH 8, 1937.

I. OFFERING OF BONDS

1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, approved September 24, 1917, as amended, invites subscriptions, at par and accrued interest from December 15, 1936, from the people of the United States for 2½ percent bonds of the United States, designated Treasury Bonds of 1949-53, in payment of which only Treasury Notes of Series B-1937, maturing April 15, 1937, may be tendered. The amount of the offering under this circular will be limited to the amount of Treasury Notes of Series B-1937 tendered and accepted.

II. DESCRIPTION OF BONDS

1. The bonds now offered will be an addition to and will form a part of the series of 2½ percent Treasury Bonds of 1949-53 issued pursuant to Department Circular No. 572, dated December 7, 1936, will be freely interchangeable therewith, are identical in all respects therewith, and are described in the following quotation from Department Circular No. 572:

1. The bonds will be dated December 15, 1936, and will bear interest from that date at the rate of 2½ percent per annum, payable semiannually on June 15 and December 15 in each year until the principal amount becomes payable. They will mature December 15, 1953, but may be redeemed at the option of the United States on and after December 15, 1949, in whole or in part, at par and accrued interest, on any interest day or days, on 4 months' notice of redemption given in such manner as the Secretary of the Treasury shall prescribe. In case of partial redemption the bonds to be redeemed will be determined by such method as may be prescribed by the Secretary of the Treasury. From the date of redemption designated in any such notice, interest on the bonds called for redemption shall cease.

2. The bonds shall be exempt, both as to principal and interest, from all taxation now or hereafter imposed by the United States, any State, or any of the possessions of the United States, or by any local taxing authority, except (a) estate or inheritance taxes, or gift taxes, and (b) graduated additional income taxes, commonly known as surtaxes, and excess-profits and war-profits taxes, now or hereafter imposed by the United States, upon the income or profits of individuals, partnerships, associations, or corporations. The interest on an amount of bonds authorized by the Second Liberty Bond Act, approved September 24, 1917, as amended, the principal of which does not exceed in the aggregate $5,000, owned by any individual, partnership, association, or corporation, shall be exempt from the taxes provided for in clause (b) above.

3. The bonds will be acceptable to secure deposits of public moneys, but will not bear the circulation privilege and will not be entitled to any privilege of conversion.

4. Bearer bonds with interest coupons attached, and bonds registered as to principal and interest, will be issued in denominations of $50, $100, $500, $1,000, $5,000, $10,000 and $100,000. Provision will be made for the interchange of bonds of different denominations and of coupon and registered bonds, and for the transfer of registered bonds, under rules and regulations prescribed by the Secretary of the Treasury.

5. The bonds will be subject to the general regulations of the Treasury Department, now or hereafter prescribed, governing United States bonds.

III. SUBSCRIPTION AND ALLOTMENT

1. Subscriptions will be received at the Federal Reserve banks and branches and at the Treasury Department, Washington. Banking institutions generally may submit subscriptions for account of customers, but only the Federal Reserve banks and the Treasury Department are authorized to act as official agencies. The Secretary of the Treasury reserves the right to close the books as to any or all subscriptions or classes of subscriptions at any time without notice.

2. The Secretary of the Treasury reserves the right to reject any subscription, in whole or in part, to allot less than the amount of bonds applied for, to make allotments in full upon applications for smaller amounts and to make reduced allotments upon, or to reject, applications for larger amounts, or to adopt any or all of said methods or such other methods of allotment and classification of allotments as shall be deemed by him to be in the public interest; and his action in any or all of these respects shall be final. Subject to these reservations, all subscriptions will be allotted in full. Allotment notices will be sent out promptly upon allotment.

IV. PAYMENT

1. Payment at par and accrued interest for bonds allotted must be made or completed on or before March 15, 1937, or on later allotment, and may be made only through surrender of an equal face amount of Treasury Notes of Series B-1937, which will be accepted at par and should accompany the subscription. Coupons dated April 15, 1937, must be attached to the notes when surrendered, and subscribers will be credited with accrued interest thereon from October 15, 1936, to March 15, 1937, ($12.445055 per $1,000); they will be charged with accrued interest on the bonds from December 15, 1936, to March 15, 1937, ($6.181319 per $1,000); and the net adjustment ($6.263736 per $1,000) will be paid to them following acceptance of the notes.

V. GENERAL PROVISIONS

1. As fiscal agents of the United States, Federal Reserve banks are authorized and requested to receive subscriptions, to make allotments on the basis and up to the amounts indicated by the Secretary of the Treasury to the Federal Reserve banks of the respective districts, to issue allotment notices, to receive payment for bonds allotted, to make delivery of bonds on full-paid subscriptions allotted, and they may issue interim receipts pending delivery of the definitive bonds.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve banks.

JOINT REGULATIONS OF THE SECRETARIES OF THE INTERIOR AND AGRICULTURE RELATING TO THE PROTECTION AND ADMINISTRATION OF GAME RANGES, OR WILDLIFE REFUGES, ESTABLISHED IN CONJUNCTION WITH THE ORGANIZATION OF GRAZING DISTRICTS UNDER THE TAYLOR GRAZING ACT

By virtue of authority vested in the Secretary of the Interior by the Act of June 28, 1934 (48 Stat. 1229), and in the Secretary of Agriculture by section 10 of the Migratory Bird Conservation Act of February 18, 1929 (45 Stat. 1222), and section 84 of the Penal Code of the United States as amended by the act of April 15, 1924 (43 Stat. 98), and pursuant to Executive Order No. 7373, of May 20, 1936,[2]

[1] Act of June 17, 1902, 32 Stat., 388, as amended or supplemented.

[2] 1 F. R. 427.

establishing the Desert Game Range, and like orders heretofore or hereafter made, establishing such game ranges, or wildlife refuges, the following regulations for the protection of wildlife, the regulation of grazing, and the administration of game ranges, or wildlife refuges, established in conjunction with the organization of grazing districts under the terms of the Act of June 28, 1934, commonly known as the Taylor Grazing Act, are hereby prescribed and shall be effective from March 1, 1937:

REGULATION 1. PROTECTION OF WILDLIFE

It is not permitted to hunt, trap, catch, disturb, or kill, or attempt to hunt, trap, catch, disturb, or kill any wild bird or other animal, or to take or molest the nests or eggs of such birds, on any such game ranges, or wildlife refuges, except when authorized by permit issued by or under the authority of the Secretary of Agriculture: *Provided*, That duly authorized grazing permittees and employees of the Departments of Agriculture and the Interior engaged in the control of predatory animals and rodents may trap or otherwise take such rodents, predatory animals, or predacious birds when in the opinion of the Chief, Bureau of Biological Survey, control measures are necessary to reduce the numbers of such animals or birds in order to safeguard the perpetuation of other species of wildlife, to protect livestock, or to conserve grazing resources, or to retard soil erosion.

REGULATION 2. ACTS NOT PERMITTED ON GAME RANGES, OR WILDLIFE REFUGES

The following acts are not permitted on lands of the United States within such game ranges, or wildlife refuges:

*a*. Setting on fire, or causing to be set on fire, any timber, brush, or grass, except as authorized by the resident officer in charge of such area.

*b*. Building a camp fire in leaves, rotten wood, or other places where it is likely to spread; against large or hollow logs or stumps where it is difficult to extinguish it completely; or in any other dangerous place, or during windy weather, without confining it to holes or cleared spaces from which all vegetation or other inflammable material has been removed.

*c*. Leaving a camp fire unattended or not completely extinguished.

*d*. Disturbing, molesting, or interfering, by intimidation, threat, assault, or otherwise, with any person engaged in the management of wildlife or livestock on such ranges, or refuges, or the prevention of trespass thereon.

*e*. Unless authorized by permit from the resident officer in charge, the carrying of a firearm, except by authorized Federal or State officers.

*f*. Throwing or placing a burning cigarette, match, pipe heel, firecracker, or any ignited substance in any place where it may start a fire; or discharging any kind of fireworks on any part of such ranges, or refuges.

*g*. The destruction, injury, defacement, removal, or disturbance in any manner, of any building, notice, sign, signboard, equipment, fence, post, road, trail, dike, dike embankment, dam, bridge, or other structure, or of any other public property of any kind on such ranges, or refuges.

*h*. Entering, occupying, or using, without permission from the officer in charge, any building of the United States on such areas used for administration purposes by the Division of Grazing, of the Department of the Interior, or by the Bureau of Biological Survey, of the Department of Agriculture, except in case of emergency to prevent human suffering.

*i*. The entering or being upon such land with intent to destroy, molest, disturb, or injure property used, or acquired for use, by the United States, in the administration of such areas.

*j*. The dumping of garbage, or other refuse or debris, or the draining or dumping of oil, acids or poisons in, or otherwise polluting any waters, waterholes, or streams within any such ranges, or refuges.

REGULATION 3. GRAZING

No cattle, sheep, horses, or other livestock are permitted to graze on the public lands within the exterior boundaries of such game ranges, or refuges, except under permit of the Secretary of the Interior and in accordance with such conditions as he may prescribe therein, and no grazing is permitted on lands within the exterior boundaries of such game ranges, or refuges, which have been or which hereafter may be acquired by the United States for use of the Department of Agriculture for the conservation of migratory birds and other wildlife, except under permit of the Secretary of Agriculture and in accordance with such conditions as he may prescribe therein.

REGULATION 4. SPECIMENS FOR SCIENTIFIC, EXHIBITION, OR PROPAGATING PURPOSES

Specimens of plant and animal life or other natural objects on any range, or refuge, may be taken for scientific, exhibition, or propagating purposes, under special permit issued by the Secretary of Agriculture and countersigned by the Chief, Bureau of Biological Survey, but no such permit shall be deemed to authorize the taking, possession, transportation, or sale of any wildlife, or the nests or eggs of birds, contrary to State or Federal law.

REGULATION 5. SCIENTIFIC STUDIES

Any person may enter upon any such range, or refuge, for scientific study, the taking of photographs thereon, or for other like purposes, but must comply with these regulations, and the rules for the administration of grazing districts.

REGULATION 6. REMOVAL OF SURPLUS ANIMALS

Whenever it shall appear after investigation that the number of any species of game animal on any such range, or refuge, shall have increased beyond the numbers specified in the Executive order establishing the particular range, it shall be the duty of the Chief, Bureau of Biological Survey, Department of Agriculture, and the Director, Division of Grazing, Department of the Interior, jointly to determine the number of surplus animals it is desirable to remove from such range, or refuge, and upon such determination such surplus animals may be removed under such conditions and in the manner authorized or prescribed by the Chief, Bureau of Biological Survey.

REGULATION 7. ECONOMIC UTILIZATION OF RESOURCES

Permits to cut and remove timber or firewood, occupy or cultivate areas, use any material of commercial value, or make other like use of any lands within the exterior boundaries of such ranges, or refuges, which lands have been or may hereafter be acquired by the United States for the use of the Department of Agriculture for the conservation of migratory birds or other wildlife, not inconsistent with the objects for which such ranges, or refuges, were established, may be issued by the Chief, Bureau of Biological Survey, upon such terms and at such rates of charge, if any, as may be ascertained and determined by him to be commensurate with the value of the privilege given by such permits. Permits for like purposes as to other lands within such ranges, or refuges, may be issued in conformity with rules and regulations of the Department of the Interior covering such usage: *Provided*, That in order to safeguard the food and cover requirements for wildlife, permits to remove timber or firewood from the range, or refuge, shall not be issued until applications therefor have first been approved by the resident officer of the Bureau of Biological Survey and timber permittees shall make such disposition of brush, tops, lops, slashings, and other forest debris resulting from timber operations as such officer may prescribe.

REGULATION 8. FISHING

Any person may enter upon any range, or refuge, for the purpose of fishing in accordance with the laws of the State in which such range, or refuge, is located, but must comply with the provisions of these regulations, and the rules for the administration of grazing districts.

REGULATION 9. EXHIBITION AND REVOCATION OF PERMITS

Permits shall be exhibited for inspection at any reasonable time upon request of any officer or employee of the Department of the Interior or of the Department of Agriculture engaged in the administration of such ranges, or refuges, or in the enforcement of laws and regulations applicable to wildlife. Any permit may be terminated at any time by agreement between the issuing officer and the permittee; it may be revoked by the Chief, Division of Grazing, Department of the Interior, or his designated representative, if issued by or under his authority, or by the Chief, Bureau of Biological Survey, or his designated representative, if issued by or under his authority, for noncompliance with the terms thereof or of these regulations, for nonuse, or for violation of any law or regulation applicable to the game range, or wildlife refuge, or of any State or Federal law protecting wildlife or the nests or eggs of birds; and it is subject at all times to discretionary revocation by the Secretary under whose authority it was issued.

## DEPARTMENT OF AGRICULTURE.

### Agricultural Adjustment Administration.

PROCLAMATION OF SECRETARY OF AGRICULTURE MADE WITH RESPECT TO BASE PERIOD TO BE USED FOR PURPOSE OF MARKETING AGREEMENT AND ORDER REGULATING HANDLING OF ONIONS GROWN IN STATE OF TEXAS

By virtue of the authority vested in me by the Agricultural Adjustment Act, approved May 12, 1933, as amended, I, H. A. Wallace, Secretary of Agriculture of the United States, do hereby find and proclaim that in connection with the making of a marketing agreement and the issuance of an order regulating the handling of onions grown in the State of Texas, on which a public hearing was held in January 1937, the purchasing power of onions grown in the State of Texas during the period August 1909–July 1914 cannot be satisfactorily determined from available statistics of the Department of Agriculture, but that the purchasing power of such onions can be satisfactorily determined from available statistics of the Department of Agriculture for the entire post-war period, August 1919–July 1929. Therefore, the latter period, August 1919–July 1929, is hereby declared and proclaimed to be the base period for determining the purchasing power of such onions for the purposes of such marketing agreement and order.

In witness whereof I have executed this proclamation in duplicate and have hereunto set my hand and caused the seal of the Department of Agriculture to be affixed in Washington, District of Columbia, this 5th day of March, 1937.

NER—B-101—Massachusetts—Supp. Issued March 5, 1937

1937 AGRICULTURAL CONSERVATION PROGRAM—NORTHEAST REGION

BULLETIN NO. 101—MASSACHUSETTS—SUPPLEMENT (1)

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, Bulletin No. 101—Massachusetts is hereby amended as follows:

I

The following is added at the end of the matter relating to Practice Number 1:

Ground limestone is limestone which will analyze at least 80 percent carbonates, 90 percent of which will pass through a 20-mesh sieve and 50 percent of which will pass through a 100-mesh sieve.

The equivalent of 1,000 pounds of ground limestone is either (1) 750 pounds of burned lime or (2) other approved material.

II

The following is added at the end of the matter appearing under the heading *"Fertilizing Conserving Crops"* preceding the statement of the rate of payment for Practice Number 2:

The maximum application of available phosphoric acid or potash for which payment will be made is 120 pounds of each per acre. The maximum application of available nitrogen used on green-manure crops for which payment can be made is 16 pounds per acre.

III

Part VI, "Definitions", is amended by adding at the end thereof the following:

As used herein as an adjective the term "approved" means, unless the context otherwise requires, found by the County Committee to be recognized as conforming to good farming practice under the circumstances, in instructions issued by the State Committee, based upon (a) recommendations contained in the most recent official reports or bulletins issued by the United States Department of Agriculture, the State Department of Agriculture, the State agricultural experiment station, or the State agricultural college, or (b) a finding of facts made by the State Committee after a study of the material pertinent to the subject matter.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 5th day of March, 1937.

NER—B-101—Pennsylvania—Supplement (2) Issued March 5, 1937

1937 AGRICULTURAL CONSERVATION PROGRAM—NORTHEAST REGION

BULLETIN NO. 101—PENNSYLVANIA—SUPPLEMENT (2)

Pursuant to the authority vested in the Secretary of Agriculture under section 6 of the Soil Conservation and Domestic Allotment Act, Bulletin No. 101—Pennsylvania is hereby amended as follows:

I

Item (3) of footnote number 1 is amended by striking out the expression "1000 pounds of ground burned lime" and inserting in lieu thereof the expression "1400 pounds of ground burned lime".

II

The rate of payment per acre in Area B for Practice Number 39 is changed to read $3.50 in lieu of $3.00.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 5th day of March, 1937.

NER—B-101—Rhode Island—Supp. Issued March 5, 1937

1937 AGRICULTURAL CONSERVATION PROGRAM—NORTHEAST REGION

BULLETIN NO. 101—RHODE ISLAND—SUPPLEMENT (1)

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, Bulletin No. 101—Rhode Island is hereby amended as follows:

I

The following is added at the end of the matter relating to Practice Number 1:

Ground limestone is limestone which will analyze at least 80 percent carbonates, 90 percent of which will pass through a 20-mesh sieve and 50 percent of which will pass through a 100-mesh sieve.

The equivalent of 500 pounds of ground limestone is either (1) 350 pounds of hydrated lime, or (2) 500 pounds of pulverized oyster shell containing at least 80 percent carbonates, or (3) approved amounts of other approved material.

II

The following is added at the end of the matter appearing under the heading "*Fertilizing Soil-Conserving Crops*" relating to Practice Numbers 2, 3, and 4 and immediately before the statement of the rate of payment for Practice Number 2:

The limits on the quantities of fertilizer per acre for which payment is allowed are as follows:

| | Smallest amount | Largest amount |
|---|---|---|
| | *Pounds* | *Pounds* |
| 16 percent superphosphate or basic slag: | | |
| On pasture, hay land, green-manure crops, new seedings of grasses or legumes, or on sod in orchards provided the soil is limed and the entire interplanted crop in the orchard is left on the land | 200 | 50 |
| 50 percent Muriate of Potash: | | |
| On hay land, pasture, new seedings of grasses or legumes, green-manure crops, or in orchards provided the entire interplanted crop in the orchard is left on the land | 100 | 200 |
| 16 percent Nitrate of Soda: | | |
| On pasture, or on hay land, or in orchards provided the entire interplanted crop in the orchard is left on the land | 100 | 200 |
| On new seedings of legumes or grasses, or on green-manure crops | 100 | 150 |

When 16 percent superphosphate is added to farm manures, payment will be made for the application of not less than 20 pounds or more than 50 pounds per ton of manure.

The equivalent of 16 percent superphosphate, 50 percent muriate of potash, or 16 percent nitrate of soda, is a quantity of materials, other than manure, containing quantities of phosphoric acid, potash, or nitrogen, or combinations of these, equal in weight and quality to those contained in the specified amounts of 16 percent superphosphate, 50 percent muriate of potash, or 16 percent nitrate of soda.

III

Part V, "Definitions", is amended by adding at the end thereof the following:

As used herein as an adjective the term "approved" means, unless the context otherwise requires, found by the County Committee to be recognized as conforming to good farming practice under the circumstances, in instructions issued by the State Committee, based upon (a) recommendations contained in the most recent official reports or bulletins issued by the United States Department of Agriculture, the State Department of Agriculture, the State agricultural experiment station, or the State agricultural college, or (b) a finding of facts made by the State Committee after a study of the material pertinent to the subject matter.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the city of Washington, District of Columbia, this 5th day of March, 1937.

SR—B-101—Part VII

1937 AGRICULTURAL CONSERVATION PROGRAM

SOUTHERN REGION BULLETIN 101

*Part VII—Rice*

Southern Region Bulletin 101 is hereby supplemented by adding thereto the following Part VII.

The provisions contained in parts I, II, III, IV, V, and VI of Southern Region Bulletin 101 are applicable to all farms in the Southern Region on which rice is grown in 1937 unless the context thereof or of this part VII clearly indicates otherwise. In addition, the provisions contained in this part VII are applicable to rice producers in 1937.

SECTION 71. *Definitions.*—In addition to the definitions contained in part I, the following definitions shall apply to terms used herein and in all forms and documents relating to the 1937 program:

*Rice base acreage* means the acreage established for a rice producer as that normally used by him for the production of rice.

*Rice producer* means (1) a person who as owner operates a farm on which rice is produced; (2) a person who as share-tenant operates a farm on which rice is produced; (3) a person who as share-cropper works a producer unit on which rice is produced; (4) a person who as landlord leases to a share-tenant a farm on which rice is produced; or (5) a person who furnishes water or seed rice for the production of rice in 1937 on a share basis.

*Rice land* means any land adapted to the production of rice for which water for rice is readily available.

SECTION 72. *Soil-Building Allowance for Farms for Which a Rice Base is Established.*—The provisions of section 1 with respect to the soil-building allowance are applicable to farms for which there is a rice base and in addition the following is applicable:

(a) $1.00 for each acre of soil-conserving crops on the farm, other than idle or fallow cropland, which is in excess of the acreage required pursuant to section 17 and which is required to meet the minimum acreage of soil-conserving crops with respect to rice.

SECTION 73. *Rates and Conditions of Payment.*—Subject to the conditions set forth herein, a class I payment will be made to each rice producer in 1937 provided such producer has an acreage of soil-conserving crops [1] on rice land equal to 25 percent of his rice base acreage. Such acreage of soil-conserving crops shall be in addition to the requirements under section 17 and may be allocated either (1) to the same farm to which the rice producer makes an allocation of rice base acreage; or (2) to one or more other farms either owned or operated by such rice producer.

(a) If the acreage planted to rice by any rice producer in 1937 is not less than 85 percent or more than 100 percent of his rice base acreage, such payment will be made in the amount of 20 cents for each 100 pounds of his domestic consumption quota.

(b) If the acreage planted to rice by any rice producer in 1937 is less than 85 percent of his rice base acreage, such payment will be made at the rate specified in paragraph (a), above, on that percentage of his domestic consumption quota determined by dividing the number of acres planted to rice by him in 1937 by the number of acres equal to 85 percent of his rice base acreage.

(c) If the acreage planted to rice by any rice producer in 1937 is more than 100 percent of his rice base acreage, payment will be made at the rate specified in paragraph (a), above, on that portion of his domestic consumption quota which remains after deducting 4 percent for each 1 percent by which the 1937 rice acreage exceeds his rice base acreage.

(d) If the acreage planted to rice by any rice producer in 1937 exceeds 125 percent of his rice base acreage, a deduction from any payment which otherwise would be made to him pursuant to any of the provisions of any other part of this Bulletin 101 will be made for each acre of such excess acreage at a weighted average rate (fixed pursuant to section 15) for all farms on which he is participating in the production of rice in 1937.

(e) If the rice producer's acreage of soil-conserving crops with respect to rice on rice land in 1937 is less than 25 percent of his rice base acreage, there shall be deducted from the class I payment with respect to rice, which otherwise would be made to him, an amount obtained by multiplying $3.00 by the number of acres by which his total acreage of soil-conserving crops with respect to rice is less than 25 percent of his rice base acreage.

SECTION 74. *Rice Base Acreage and Rice Base Production.*—(a) *Establishment of Producer's Rice Base Acreage and Rice Base Production.*—The rice base acreage and the rice base production for any rice producer for 1937 shall be the rice base acreage and rice base production which was or could have been established under the 1936 Agricultural Conservation Program, subject to adjustments as indicated in this section 74.

(1) If a rice producer did not receive a rice base acreage and rice base production in 1936 and succeeds to the rice production interest [2] either in whole or in part of a rice producer who received a rice base acreage and rice base production in 1936, a rice base acreage and rice base production not in excess of such succession may be established in 1937 for such producer succeeding to the rice production interest.

(2) If a rice producer has participated in the production of rice and did not receive a rice base acreage and rice base production in 1936 and is participating in the production of rice in 1937, such producer may have a rice base acreage and rice base production established in 1937 provided he files the necessary information (including his history of rice production, acreage of rice-land available for rice production in 1937, capacity and facilities for growing and irrigating rice in 1937) on the prescribed form with the County Committee on or before the final date for receiving such forms as set by the State Committee and approved by the Director of the Southern Division.

(3) If an error was made in computing a rice producer's 1936 rice base acreage and rice base production, such error shall be corrected in 1937 after reviewing and checking all basic data in connection with such rice base acreage and rice base production.

(4) The 1936 rice base acreage and rice base production established in each State for all rice producers, irrespective of whether such rice producers participate in the 1937 program, shall after adjustment be deducted from the State rice base acreage and rice base production for 1937. The remainder after such deduction shall be available for the establishment of rice base acreage and rice base production for rice producers for whom a rice base acreage and rice base production was not established in 1936.

(b) *Adjustments.*—

(1) If either the rice base acreage or rice base production for any rice producer is greater or less than the rice base acreage or rice base production for other rice producers with similar rice-growing history on farms in the same community which are similar with respect to size, type of soil, topography, production facilities, type of farming, and farming practices, adjustments may be made that will result in a rice base acreage or rice base production for such rice producer which is equitable as compared with the rice base acreage or rice base production for other rice producers with similar rice-growing history on similar farms.

(2) If a rice producer did not participate in the production of rice in all of the years of the base period [3] and his rice base acreage and rice base production are materially less than the rice base acreage and rice base production for rice producers on farms in the same community which are similar with respect to size, type of soil, topography, production facilities, type of farming, and farming practices and which are operated by rice producers who did grow rice in all of the years of the base period, adjustments may be made that will result in a rice base acreage and rice base production which are equitable as compared with the rice base acreage and rice base production for other rice producers on similar farms.

(3) Adjustments shall be made where either the rice base acreage or rice base production established for a rice producer in 1936 was based on erroneous data, or was otherwise different from the rice base acreage or rice base production, which should have been established under the provisions of the 1936 program.

(4) If a rice producer's rice base acreage and rice base production are reduced because of the rotation of crops, the amount of each such reduction should be held in reserve and not given to other producers.

(c) *Adjustments of Bases, Other Than The Rice Base, on Rice Farms.*—If the sum of the rice base and the total soil-depleting base for any farm exceeds the cropland in the farm, the total soil-depleting base shall be adjusted downward to eliminate such excess.

(d) *Transfers.*—No transfer of rice base acreage or rice base production from one rice producer to another shall be approved except as hereinafter provided:

(1) If a rice producer voluntarily retires from the production of rice, dies, or is declared incompetent by a court of competent jurisdiction, his 1937 rice base acreage and rice base production shall be apportioned in whole or in part among the heirs, devisees, or members of the family

[1] Idle or fallow cropland on rice farms which is adapted to the production of rice and for which water for rice is readily available and from which no soil-depleting crop is harvested in 1937 may be substituted acre for acre for soil-conserving crops for the purposes of this section 73 but for no other purpose. Such soil-conserving acreage will not be included in determining the soil-building allowance for the farm.

[2] If the rice production interest consists of machinery and equipment normally used by a rice producer in the production of rice, such machinery and equipment must be in good working condition, must have been used in 1936, and must be used by the successor for the production of rice in 1937. If the rice production interest consists of a canal system, it must be a canal system which was in active operation in 1936 and which will be in active operation in 1937.

[3] The term "base period" in Arkansas and Louisiana means the years 1929–1933, inclusive, and in Texas the years 1931–1933, inclusive.

of such retired, deceased, or incompetent rice producer according to the extent to which they continue his farming operations, upon their furnishing satisfactory proof of such relationship and succession to his farming operations.

(2) If a rice producer through the voluntary sale of rice land voluntarily withdraws either in whole or in part from the production of rice, all or any part of his 1937 rice base acreage (not in excess of the acreage of rice land so transferred) and the corresponding rice base production may be transferred to the purchaser upon request of both the purchaser and seller of such land and upon satisfactory proof of such withdrawal and sale.

(3) Upon dissolution of a partnership, the rice producer's 1937 rice base acreage and rice base production shall be divided between the partners in such proportion as is agreed upon in writing by them and submitted to the County Committee.

(4) No person who has succeeded to the farming operations of any rice producer by reason of foreclosure, execution, or any forced sale shall be eligible to receive any rice base acreage or rice base production by virtue of such succession.

(5) If a rice producer had a rice base acreage and rice base production established in 1936 in any of the States of Arkansas, Louisiana, or Texas, and moves into another of such States and participates therein as a rice producer in 1937, such rice producer may have all or a part of such rice base acreage and rice base production transferred to the State to which he moved provided he notifies the State Committee therein. The State Committee for the State into which such producer has moved should request the State Committee of the State from which he moved to furnish it with a complete record of such producer's rice base acreage and rice base production in such State. However, no such transfers from one State to another may be made after a date designated by the Director of the Southern Division. After such date the Agricultural Adjustment Administration shall increase or decrease any such State's rice base acreage and rice base production to conform with the transfers made.

(e) *Rice Base Acreage and Rice Base Production.*—The State rice base acreage and rice base production shall be the rice base acreage and rice base production as was established for the State in 1936 subject to adjustments resulting from the transfer between States of rice producers' rice base acreage and rice base production during the years 1935, 1936, and 1937. The County Committee will recommend to the State Committee for approval by the Secretary a producer's rice base acreage and rice base production. The sum of the rice base acreages and rice base production for all rice producers in the State shall not exceed the State rice base acreage and rice base production.

Each rice producer's domestic consumption quota shall be 96.73 percent of his rice base production.

If a rice producer participates in the production of rice in more than one county in the State, his allocation of rice base acreage shall be reviewed by the State Committee to determine that the sum of such allocations does not exceed his rice base acreage.

SECTION 75. *Miscellaneous Provisions.*—(a) *Work Sheets.*—Each rice producer applying for payment with respect to rice will be required to show that work sheets have been filed covering all land owned or operated by him in 1937 in each county in the State in which he is participating as a rice producer.

(b) *Allocations of Rice Base Acreage.*—The total rice base acreage allocated to any farm by a rice producer may range from zero to that acreage which represents such producer's rice base acreage.

(c) *Application for Payment.*—An application for a class I payment with respect to rice shall include all the rice producer's interest as a rice producer in 1937 in all farms in the State.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 5th day of March, 1937.

[File No. 37-17]

IN THE MATTER OF AMERICAN SERVICE COMPANY

(Pursuant to Section 13 of the Public Utility Holding Company Act of 1935 and Rule 13-22)

ORDER PURSUANT TO RULE 13-22

American Service Company, a subsidiary company of American Utilities Service Corporation, a registered holding company, having filed with this Commission, pursuant to Section 13 (b) of the Public Utility Holding Company Act of 1935 and Rule 13-22 thereunder, a declaration with respect to its organization and conduct of business as a subsidiary service company; a hearing on said declaration having been duly held pursuant to appropriate notice; the record in this matter having been duly considered; and the Commission having filed its Findings herein;

It is found that Declarant is so organized and conducted as to meet the requirements of Section 13 (b) of said Act with respect to reasonable assurance of efficient and economical performance of the services described in such declaration, for the benefit of associate companies, at cost fairly and equitably allocated among them.

No finding is made with respect to the rendering of any services differing materially from those described by said declaration as the services which Declarant intends presently to render, nor with respect to construction contracts or contracts with respect to sales of goods.

It is so ordered.

By the Commission.

IN THE MATTER OF AN OFFERING SHEET OF A WORKING INTEREST IN THE MANNING-BRYSON-YORK ET AL. FARM, FILED ON JANUARY 28, 1937, BY R. H. MANNING & COMPANY, RESPONDENT

ORDER FOR CONTINUANCE

The Securities and Exchange Commission, having been requested by its counsel for a continuance of the hearing in the above entitled matter, which was last set to be heard at 10:00 o'clock in the forenoon on the 5th day of March, 1937, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and it appearing proper to grant the request;

It is ordered, pursuant to Rule VI of the Commission's Rules of Practice under the Securities Act of 1933, as amended, that the said hearing be continued to 11:00 o'clock in the forenoon on the 12th day of March, 1937, at the same place and before the same trial examiner.

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)) AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that the date set forth in Division I, paragraph 7, appears to be inaccurate by virtue of the fact that it exceeds 110 days from the date upon which other information is disclosed by the offering sheet;

(2) In that the answer to Division II, Item 10, is in contradiction of the answer to Division II, Item 12, and might, therefore, be misleading;

(3) In that Division II, Item 12, calls for factual data, whereas the answer given thereunder is based upon "opinion" and might, therefore, be misleading;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 5th day of April, 1937; that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Charles S. Lobingier, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 19th day of March, 1937, at 4:00 o'clock in the afternoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

IN THE MATTER OF AN OFFERING SHEET OF A WORKING INTEREST IN THE COSTADON-HILL FARM, FILED ON FEBRUARY 25, 1937, BY COSTADON OIL AND GAS COMPANY, INC., RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)), AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that the interests represented as being offered by the offering sheet and exhibits attached thereto do not appear to be interests as are defined under Regulation B, Rule 300, and the exemption provided by Regulation B does not, therefore, appear available for the following reasons:

(a) the securities offered do not appear to be fractional undivided interests in a leasehold estate;

(b) the "certificate of undivided beneficial interest" (Exhibit B) apparently does not provide for the conveyance of title to a specifically described undivided fractional interest in the leasehold;

(c) "Contract for purchase of undivided beneficial interest in leasehold" (Exhibit B (1)) apparently provides for the substitution of other properties in lieu of the leasehold specifically described in the offering sheet;

(d) the securities represented as being offered appear to also involve an offering of stock in the offeror's corporation, in that under certain conditions said securities represented to be offered under this offering sheet may be exchanged for stock in the offering corporation (Exhibit B (2)). Therefore, such stock must be registered under the Securities Act of 1933, as amended, unless an exemption is available therefor. Regulation B does not provide such exemption;

(2) In that in Division I the text which provides for "name of offeror" and "address of offeror" is omitted;

(3) In that the answer given to Division II, Item 5, is incomplete and misleading by reason of the fact that it does not fully set forth the drilling requirements;

(4) In that Division II, Item 7, is non-responsive and inaccurate by reason of the fact that no answer is made to the question except by reference;

(5) In that Division II, Item 8, is non-responsive and inaccurate by reason of the fact that no answer is made to the question except by reference;

(6) In that under Division II, Item 12, the text is omitted, as is also the required statement;

(7) In that the reply made to the question under Division II, Item 19, is apparently in conflict with the information given in Division II, Item 10;

(8) In that Division II, Item 21, is apparently in conflict with the statement made in Division II, Item 13;

(9) In that the information disclosed under Division II, Item 11, is apparently in conflict with Exhibit A by reason of the fact that the plat shows eight wells within one-eighth of a mile of the tract, whereas only three wells are discussed under this item. Further, that the data relative to each well does not give the required information for each horizon as specified in Division II, Item 10;

(10) In that Division II, Item 12, is incomplete and misleading by reason of the fact that the engineer's recovery report is for the King Knob oil and gas field and not for the tract in which the interests are offered; also that the report is based upon too little factual data and is, therefore, misleading when used in connection with an offering on this particular tract;

(11) In that Exhibit A is incomplete and inaccurate by reason of the fact that the numbers and total depths are shown for only three wells;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 3rd day of April, 1937; that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Charles S. Lobingier, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 19th day of March, 1937, at 3:30 o'clock in the afternoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

PURCHASE AND USE OF STRIP STAMPS IN PUERTO RICO

*To Collectors of Internal Revenue, District Supervisors, Collectors of Customs, and Others Concerned:*

Pursuant to the authority conferred by Section 205 of Title II of the Liquor Taxing Act of 1934 (U. S. C., 1934 ed., Title 26, Sec. 1152e) strip stamps to be attached to bottles of distilled spirits to be shipped from Puerto Rico to the United States, Hawaii, or Alaska, shall be obtained and affixed in accordance with the following regulations:

1. The distiller, rectifier, or bottler, or his duly authorized agent, in Puerto Rico shall make a requisition on internal revenue Form 428, in triplicate, for the purchase of strip stamps, and shall attach thereto a statement, under oath in the following form:

Port of _____

I solemnly swear (or affirm) that the stamps requested on the Form 428 to which this statement is attached, are required, and will be used, for the quantities of the brands and kinds of distilled spirits listed below, which will be shipped to the United States,

Hawaii, or Alaska, to supply existing orders and/or anticipated requirements within ninety days from this date.

| No. of bottles | Size of bottles | Brands | Kinds |

---
(Distiller, Rectifier, or Bottler)
F. A. A. Permit Number----------
Subscribed and sworn to before me this ------- day of ----------, 193----.
---
---

The Form 428, in triplicate, together with a sworn statement, shall be submitted to the Collector of Customs in Puerto Rico for approval.

2. The Collector of Customs shall approve Form 428 if he is satisfied that the stamps are required for distilled spirits to be shipped to the United States, Hawaii, or Alaska, to supply existing orders and/or anticipated requirements within 90 days from the date of the requisition. He shall retain a copy of Form 428 and the sworn statement for his files.

3. The distiller, rectifier, or bottler, or his duly authorized agent, shall submit the original, with one copy, of the approved Form 428 to the Internal Revenue Stamp Deputy in Puerto Rico, who shall sell the stamps requisitioned and approved. The Stamp Deputy shall enter the serial numbers of the strip stamps on the original and copy of Form 428. He shall give the strip stamps with the copy of Form 428 to the purchaser and retain the original Form 428 for his files. The Stamp Deputy shall maintain a record on Form 19, "Collector's Office Record of Bottle Strip Stamps for Distilled Spirits Requisitioned on Form 428", of strip stamps sold and also a card or ledger record for each purchaser showing the date of each sale and the quantity and denominations of the strip stamps sold.

4. The distiller, rectifier, or bottler shall, at his expense, have each of the strip stamps overprinted, with his name and address and the brand and kind of distilled spirits, and submit the stamps to the Collector of Customs for verification.

5. The Collector of Customs shall verify the overprinting and enter on his copy of Form 428 the serial numbers of the strip stamps and return them to the purchaser.

6. The distiller, rectifier, or bottler shall plainly and legibly mark on each case containing bottles of spirits to which strip stamps are attached, the following legend:

The stamps required by the United States Liquor Taxing Act of 1934 are affixed to the bottles contained in this case, consisting of ---------- bottles, each containing ----------
(number) (net contents of bottles)
---
(Distiller, Rectifier, or Bottler)

7. Any breach of these regulations, or failure to use the strip stamps within a reasonable time for the purpose for which they were procured, not satisfactorily explained to the Collector of Customs, will be grounds for denial of approval of further requisitions for purchase of strip stamps for affixing under these regulations.

8. The Collector of Customs in Puerto Rico shall maintain a record of the Forms 428 approved, and shall check all outgoing shipments of bottled distilled spirits and credit the respective distiller, rectifier, or bottler with the strip stamps used, as evidenced by the legend on the cases. The Collector shall furnish the Bureau of Customs on April 1, July 1, October 1, and January 1 of each year a consolidated report in duplicate showing the name of the purchaser in Puerto Rico, the number of stamps, and the denominations of stamps purchased on requisition on Form 428 approved by the Collector of Customs, not used within 90 days from the date of approval. The Bureau of Customs shall forward the copy of such report to the Commissioner of Internal Revenue.

IN THE MATTER OF THE APPLICATION OF KANSAS GAS AND ELECTRIC COMPANY FOR REHEARING

ORDER GRANTING REHEARING AND DENYING INTERLOCUTORY ORDER

Upon application filed January 28, 1937 by Kansas Gas and Electric Company for rehearing in the "Matter of the Application of Kansas Gas and Electric Company for Approval of Maintenance of Permanent Connections for Emergency Use Only," Docket IT-5023, which original application was dismissed by Commission order of December 31, 1936; and for an interlocutory order granting the approval prayed for in said original application pending final disposition thereof; and

It appearing to the Commission:

That a rehearing is desirable and appropriate for further considering the specifications contained in said application for rehearing and for receiving such additional evidence as the Commission may deem pertinent to such specifications;

The Commission orders:

(1) That a rehearing for the purposes above stated be and the same is hereby granted in said "Matter of the Application of Kansas Gas and Electric Company for Approval of Maintenance of Permanent Connections for Emergency Use Only" and that said rehearing be held at the Commission's hearing room in Washington, D. ## PRESIDENT OF THE UNITED STATES.

THE WHITE HOUSE,
*Washington, February 20, 1937.*

THE HONORABLE, THE SECRETARY OF THE TREASURY,

MY DEAR MR. SECRETARY:

By authority of subdivision (f) of section 337 of the Tariff Act of 1930, you were, on November 9, 1936,[1] requested to forbid entry into the United States, except under bond provided for in said section 337 (f), of cigar lighters patented in United States Letters Patent Nos. 1986384, 2002845, and Des. 96639. This order was predicated on the recommendation of the Tariff Commission. Since that time the Tariff Commission has conducted a hearing[2] in the investigation, during which hearing it was disclosed that Design Patent No. 96639 is the subject of pending litigation, and that, in ruling on a motion for a preliminary injunction concerning such patent, the United States District Court for the Southern District of New York denied the motion and expressed the view that the patent did not meet "the test of invention indicated by the more recent authorities."

In view of the serious doubt concerning the validity of such design patent, it does not appear equitable to continue in force that section of the exclusion order predicated upon it. I accordingly modify the above-mentioned exclusion order of November 9, 1936, and request that pending completion of the investigation you continue to forbid entry into the United States of cigar lighters patented in United States Letters Patent Nos. 1986384 and 2002845. Imports of such lighters will, of course, be entitled to entry under bond prescribed by you in accordance with section 337 (f) of the Tariff Act of 1930.

Very sincerely yours,

[SEAL] FRANKLIN D ROOSEVELT

## FARM CREDIT ADMINISTRATION.

[FCA 31]

LOANS TO DIRECTORS, OFFICERS, EMPLOYEES, AND AGENTS OF THE FARM CREDIT ADMINISTRATION, THE PRODUCTION CREDIT CORPORATION AND THE PRODUCTION CREDIT ASSOCIATION

AMENDMENT OF SECTION 218 OF THE RULES AND REGULATIONS FOR PRODUCTION CREDIT ASSOCIATIONS

Pursuant to the authority conferred upon the Governor of the Farm Credit Administration by the Farm Credit Act of 1933, particularly section 20 thereof, the first paragraph of section 218 of the Rules and Regulations for Production Credit Associations is hereby amended to read as follows:

Subject to the prior approval of the Production Credit Commissioner, loans that are otherwise eligible may be made by the association to a director, officer, employee, or agent of the corporation, or to an officer (as distinguished from an employee) of the Farm Credit Administration, or to a member of the immediate family of any of the aforesaid persons, who is otherwise eligible, on the same terms and conditions as to other borrowers. Such prior approval must likewise be obtained: (a) Where the proceeds of a loan, if made by the association to a person, partnership, or corporation, otherwise eligible, are to be used in connection with property in which any of the aforesaid persons has a present legal or equitable interest; or (b) where any of the aforesaid persons is a member of a partnership or a stockholder in a corporation to which the association desires to make a loan. Loans to an employee of the Farm Credit Administration who is not an officer thereof, or to a member of his immediate family, may be made without the approval of the Production Credit Commissioner.

## FEDERAL HOME LOAN BANK BOARD.

AMENDMENT TO BANK RULES AND REGULATIONS

Be it resolved, That pursuant to authority vested in the Federal Home Loan Bank Board by Section 17 of the Federal Home Loan Bank Act (12 U. S. C. 1437), Exhibit E to the Rules and Regulations for Federal Home Loan Banks, effective February 15, 1936, is hereby amended by inserting a new paragraph numbered 6 reading as follows, and renumbering as paragraph numbered 7 the former paragraph numbered 6:

If this institution is admitted to membership, the Federal Home Loan Bank Board and said bank are authorized to make available to any State or Federal regulatory authority or officer exercising supervisory authority over this institution, any information furnished to, or obtained by, said Board or said bank regarding this institution or its affairs, and all or any part of any report of any examination of this institution made by said Board or said bank or by any regulatory or public authority or officer.

Adopted by the Federal Home Loan Bank Board on March 8, 1937.

### Home Owners' Loan Corporation.

[Manual Amendment]

INTEREST AFTER DEFAULT, ON JUDGMENTS AND DURING REDEMPTION PERIODS

Be it resolved, That pursuant to authorty vested in this Board by the Home Owners' Loan Act of 1933 (48 Stat. 128, 129) as amended by Sections 1 and 13 of the Act of April 27, 1934 (48 Stat. 643-647), and particularly by Sections 4 (a) and 4 (k) of said Act, as amended, Section 800 (c) of the Consolidated Manual (the Accounting Chapter) is hereby amended to read as follows:

In every instance where calculation of interest is based on rights vested under the terms of the Corporation's mortgage or other security instrument heretofore or hereafter executed or on the laws of the States, Territories or the District of Columbia, the rate governing before default shall be applied, and any provision in the Corporation's lien instrument or of any local laws for a higher rate of interest after default, or on judgments or in cases of redemption shall be disregarded to the extent of such excess, unless in the opinion of the Regional Counsel the waiving of such excess interest in any particular state or jurisdiction might involve the Corporation in legal complications and the Corporation might not have full protection.

Adopted by the Federal Home Loan Bank Board on March 9, 1937.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE STANOLIND-DEBORD "A" FARM, FILED ON JANUARY 29, 1937, BY ROBERT L. KINKAID, INC., RESPONDENT

ORDER FOR HEARING (UNDER RULE 340(B)) AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein contains an untrue statement of a material fact, or omits to state a material fact which is required to be stated therein (for the omission of which no sufficient reason is given in the offering sheet) and which is necessary to make the statements therein not misleading, to wit:

In that the statements made under Division II, Item 13, appear to be improper by virtue of the fact that the answer as given is based upon supposition and surmise, whereas the required statement should include only factual data;

It is ordered, pursuant to Rule 340 (b) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be misleading, and whether the effectiveness of the filing of the said offering sheet shall be suspended; and

It is further ordered that Charles S. Lobingier, an officer of the Commission be, and hereby is, designated as Trial Examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 24th day of March, 1937, at 10:00 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said Examiner may designate.

Upon the completion of testimony in this matter the Examiner is directed to close the hearing and make his report to the Commission.

## DEPARTMENT OF AGRICULTURE.

### Agricultural Adjustment Administration.

ECR—B-101—Guilford County, North Carolina March 1937

1937 AGRICULTURAL CONSERVATION PROGRAM—EAST CENTRAL REGION

BULLETIN 101—GUILFORD COUNTY, NORTH CAROLINA

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, as amended, payments will be made in connection with the effectuation of the purposes of section 7 (a) of said Act for 1937, in accordance with the provisions of the bulletins for the respective States of the East Central Region and such modifications or other provisions as may hereafter be made.

The 1937 Agricultural Conservation Program has been developed in accordance with the provisions of sections 6, 15, and 16 of the Soil Conservation and Domestic Allotment Act, but the payment of any benefits pursuant to the provisions of this bulletin is contingent upon such appropriation, if any, as the Congress of the United States may hereafter make for such purpose, and the amounts of such payments will be finally determined by such appropriation and the extent of participation in the program. The payments set forth herein are computed upon the basis of an appropriation of $500,000,000 for the 1937 program and 85 percent participation by farmers in all regions. The payments calculated in accordance with the provisions of part I of this bulletin may be increased or decreased depending upon the extent of participation, but any such variation will not be in excess of 10 percent.

*Part I. Payments*

Payment will be made in connection with the utilization in 1937 of the land on any farm in Guilford County, North Carolina, in the amounts and subject to the conditions hereinafter set forth.

SECTION 1. *Farm Allowance.*—A farm allowance representing the maximum payment which can be earned will be established for each farm. The farm allowance for each farm will be the sum of the following:

(a) *Cotton.*—5 cents per pound of the base yield per acre of cotton for the farm for each acre of the difference between the allotted cotton acreage and the cotton soil-depleting base for the farm. The allotted cotton acreage for all farms in the county having a cotton soil-depleting base of more than 5.7 acres shall not be less in the aggregate than 65 percent of the cotton soil-depleting bases for such farms. The allotted cotton acreage for any farm having a cotton soil-depleting base of 5.7 acres or less may be as much as two acres less than the base.

(b) *Tobacco—Flue-Cured.*—5 cents per pound of the base yield per acre of tobacco for the farm for each acre of the difference between the allotted tobacco acreage and the tobacco soil-depleting base for the farm. The allotted tobacco acreage for all farms in the county shall not be less in the aggregate than 75 percent of the tobacco soil-depleting bases for such farms.

(c) *General Soil-Depleting Crops.*—An average of $7.10 per acre for the entire county, varied according to the productivity of land used for general soil-depleting crops on the farms in the county (rounded to the nearest ten cents for each farm) on a number of acres equal to the difference between the allotted acreage of general soil-depleting crops and the general soil-depleting base for the farm. For farms on which crops in the general soil-depleting base normally are grown in excess of the home-consumption needs of the farm on an acreage equal to 15 percent or more of such base, the allotted acreage of general soil-depleting crops shall not be less in the aggregate than 85 percent of the general soil-depleting bases for such farms. On other farms, the allotted acreage of general soil-depleting crops shall be not less than the general soil-depleting base for the farm. The allotted acreage of general soil-depleting crops on any farm may be larger than the general soil-depleting base, if the County Committee finds that such allotted acreage is required to produce food and feed crops needed for home consumption on the farm or to replace a shortage of feed on the farm caused by drouth or other unfavorable weather conditions in 1936 or 1937.

(d) *Soil-Conserving Crops.*—

(1) For farms having a cotton or tobacco soil-depleting base, or on which the allotted acreage of general crops is less than the general soil-depleting base, $1.00 for each acre of soil-conserving crops specified in the farming plan established for the farm, provided that this part of the allowance for any such farm shall not be less than $10.00.

(2) For farms having no cotton or tobacco soil-depleting base, and having a general soil-depleting base of 20 acres or less and on which the allotted acreage of general soil-depleting crops is as large as the general soil-depleting base for the farm, 75 cents per acre of cropland in the farm; provided that this part of the allowance for any such farm shall not be less than $20.00.

(e) *Commercial Vegetables.*—$1.00 for each acre on which only one crop of commercial vegetables was grown in 1936. $2.00 for each acre on which two or more crops of commercial vegetables were grown in 1936.

(f) *Food and Feed Production to Meet Home Consumption Needs.*—$10.00 for any farm on which the County Committee finds that there normally has not been made provision for a garden and a milk cow to produce sufficient products for home consumption needs of the family of any producer on such farm and for which the established farming plan makes provision for garden and livestock products for such home consumption needs.

The acreages used in establishing the farm allowance for farms in the county shall not exceed such acreages as shall be established for the county by the Agricultural Adjustment Administration.

SECTION 2. *Establishment of Farming Plan.*—A farming plan will be established for each farm for 1937 upon the recommendation of the County Committee under the supervision and direction of the East Central Division. Such plan will include the following, provided that the provisions of paragraph (d) may be omitted from the plan for any farm:

(a) Growing an acreage of cotton, tobacco, and general soil-depleting crops, respectively, not in excess of the respective allotted acreage for each such crop.

(b) Growing not less than a specified acreage of soil-conserving crops.

(c) Carrying out specified soil-building practices.

(d) Producing food and feed to meet home consumption needs.

The specified acreage of soil-conserving crops and the specified soil-building practices shall be such as will most effectively meet the needs of the farm for soil restoration and conservation and prevention of erosion, taking into consideration the past production of crops, the size of the farm, type of soil, topography, and farming practices.

SECTION 3. *Payment for Carrying Out Established Farming Plan.*—The payment for each farm will be the farm allowance, except that if the farming plan is only partially carried out the payment will be the farm allowance decreased by $1.00 for each point by which the County Committee under the supervision and direction of the East Central Division determines that the farming plan for the farm has not been carried out, and by which any of the soil-building practices specified in the farming plan has been carried out with labor, seed or other materials furnished in whole or in part by any State or Federal agency. For the purpose of determining the number of points by which the farming plan for any farm has not been carried out, each of the following items shall have the value in points shown therefor:

(a) For each acre (or fraction thereof to the nearest tenth acre) of tobacco in excess of the allotted acreage of tobacco for the farm: 40 points.

(b) For each acre (rounded to the nearest whole acre) of cotton or of general soil-depleting crops in excess of the allotted acreage of cotton or general soil-depleting crops, respectively, for the farm: 8 points.

(c) For each acre (rounded to the nearest whole acre) by which the acreage of soil-conserving crops on the farm in 1937 falls below the acreage of soil-conserving crops specified in the farming plan, and for each acre (rounded to the nearest whole acre) on which the seeding of legumes or perennial grasses, growing of green manure crops or cover crops, or subsoiling was specified in the farming plan but on which such practice was not carried out: 2 points.

(d) For each ton of ground limestone (rounded to the nearest ton), for each 400 pounds of 16 percent superphosphate (rounded to the nearest 400 pounds), for each 200 pounds of 50 percent muriate of potash (rounded to the nearest 200 pounds), or their respective equivalents, or for each 500 feet of terrace (rounded to the nearest 500 feet) specified as a soil-building practice in the farming plan for the farm but not carried out: 2 points.

SECTION 4. *Association Expenses.*—There shall be deducted pro rata from the payments made to members of the Guilford County Agricultural Conservation Association all or

such part, as the Secretary may prescribe, of the estimated administrative expenses incurred or to be incurred by such association in cooperating in carrying out the Soil Conservation and Domestic Allotment Act.

There shall be credited to the Guilford County Agricultural Conservation Association for the payment of administrative expenses the sum of $2.00 per application for the number of applications submitted by members of such association under which it is estimated by the Agricultural Adjustment Administration the total payment (prior to deduction of any administrative expenses) will be $20.00 or less.

SECTION 5. *Payments Restricted to Effectuation of Purposes.*—All or any part of any payment which otherwise would be made to any person may be withheld if any practice is adopted by such person, which the Secretary determines tends to defeat the purposes of the 1937 program.

SECTION 6. *Division of Payments.*—The payment with respect to any farm included under an application shall be divided as stated below.

(a) 15 percent to the producer who furnished the land.

(b) 15 percent to the producer who furnished the workstock and equipment, and

(c) 70 percent to be divided among the producers who are parties to the lease or operating agreement in the proportion that such producers are entitled to share in the crops grown on the farm in 1937, or the proceeds thereof.

If the County Committee finds that the payment to each producer on the farm which would result from the above method does not accurately measure the contribution of such producer toward carrying out the farming plan, the payment with respect to the farm may be divided upon the basis of agreement of all producers on the farm.

SECTION 7. *Applicability to Farms Under Other Special Programs.*—On any farm where a program is carried out in cooperation with the Soil Conservation Service or the Resettlement Administration payment will be made only for such diversion and for carrying out such soil-building practices as are, prior to performance, approved for the farm by the County Committee in accordance with instructions issued by the Secretary.

*Part II. Classification of Crops*

Farm land, when devoted to the crops and used as indicated hereinafter, shall be classified in the manner set forth in this Part II.

SECTION 1. *Soil-Depleting Crops.*—Land on which any of the following crops is grown shall be regarded as used for the production of a soil-depleting crop for the year in which such crop is normally harvested. The acreage of land which is devoted to two or more soil-depleting crops in the same year shall be counted as soil-depleting only once.

(a) Corn (field corn, sweet corn, and popcorn).

(b) Cotton.

(c) Tobacco.

(d) Peanuts harvested for nuts.

(e) Broom corn.

(f) Truck and vegetable crops, including also melons, strawberries, potatoes, and sweet potatoes.

(g) Sorghum, when harvested.

(h) Small grains; wheat, oats, barley, rye, buckwheat, and grain mixtures; cut for hay or grain.

(i) Annual grasses; Sudan, millet, and Italian rye grass, harvested for hay or seed.

(j) Bulbs and flowers.

SECTION 2. *Soil-Conserving Crops.*—Land devoted to any of the following crops and not used in the same year for the growing of any soil-depleting crop, as defined in section 1 of this Part II, shall be regarded as used for the production of a soil-conserving crop, except as otherwise provided in section 3 below. Cropland from which no crop is harvested during 1937 and which is planted in 1937 not later than October 31 to any crop listed below (other than small grains seeded alone in the fall) shall be considered as soil-conserving. If two or more soil-conserving crops are grown on the same land during any year the acreage of such land counted as soil-conserving shall not exceed the acreage on which such crops are grown.

(a) Biennial and perennial legumes: Sweet, red, alsike, white, and mammoth clovers; alfalfa; kudzu; and sericea.

(b) Summer legumes: Soybeans, velvet beans, field peas, and cowpeas.

(c) Miscellaneous legumes: Vetch, Austrian winter peas; bur clover and crimson clover; annual varieties of lespedeza; crotalaria.

(d) Peanuts, when pastured.

(e) Perennial grasses: Bluegrass, Dallis, redtop, timothy, orchard grass, Bermuda, carpet grass, and mixtures of these.

(f) Annual grasses: Sudan, millet, and Italian ryegrass, not harvested for hay or seed.

(g) Small grains: Rye, oats, barley, wheat, buckwheat, and grain mixtures, when not cut for grain or hay, provided a good growth is left on the land.

(h) Forest trees, planted on cropland since January 1, 1934.

SECTION 3. *Soil-Conserving Crops Grown on Land Used for the Production of a Soil-Depleting Crop.*—Land devoted to any of the combinations of soil-conserving and soil-depleting crops listed below shall be classified as follows:

(a) Acreage on which summer legumes are interplanted or grown in combination with soil-depleting row crops. The entire acreage shall be classified as soil-depleting, and one-half of the acreage also shall be classified as soil-conserving provided the legume occupies at least one-half of the land and attains a good growth.

(b) Acreage on which mixtures of legumes and soil-depleting crops (winter legumes and small grains, or summer legumes and annual grasses) are harvested together. The entire acreage shall be classified as soil-depleting, and one-half of the acreage also shall be classified as soil-conserving provided not less than 50 percent of the total growth harvested consists of such legumes.

(c) Acreage of legumes or of a legume and perennial grass following a soil-depleting crop harvested in the same year (whether seeded in or following such crop). The entire acreage shall be classified as soil-depleting, and one-half of the acreage also shall be classified as soil-conserving, except that if the legume is an annual winter legume (crimson clover, vetch, or Austrian winter peas) the entire acreage also shall be classified as soil-conserving.

(d) Acreage of the crops listed in subsection (b) of section 4 of part I plowed under as green manure after having attained at least two months' normal growth on land from which a commercial vegetable crop is harvested in the same year. The entire acreage of commercial vegetables shall be classified as soil-depleting and the entire acreage also shall be classified as soil-conserving.

SECTION 4. *Neutral Uses.*—Land devoted to the following uses shall be regarded as not used for the production of a soil-depleting crop or a soil-conserving crop:

(a) Vineyards, tree fruits, small fruits, bush fruits, nut trees, and nursery stock not interplanted (any portion of the area which is interplanted shall carry the classification and actual acreage of such interplanted crop).

(b) Idle cropland.

(c) Cultivated fallow land.

(d) Waste land, roads, lanes, lots, yards, and other similar non-crop land.

(e) Woodland, other than cropland planted to forest trees since January 1, 1934.

*Part III. Establishment of Bases*

SECTION 1. *Recommendation of Bases.—Soil-depleting* bases for cotton, tobacco, and general soil-depleting crops and a base yield per acre for cotton and tobacco and a rate of payment for diversion from the general soil-depleting base for each farm shall be recommended by the County Committee. The County Committee shall make a recommendation for each farm which is fair and reasonable for such farm as compared with other farms in the county which are similar with respect to the past production of crops, size, type of soil, production facilities, and farming practices. The committee, in making its recommendations, shall take into consideration the bases previously established for such farms under commodity adjustment programs and under the 1936 Agricultural Conservation Program, and shall, insofar as possible, recommend such bases as will result in systems of farming consistent with soil conservation, erosion control, and economic use of farm land and other soil resources.

SECTION 2. *Limits of Bases.*—The general soil-depleting bases, the cotton soil-depleting bases, and the tobacco soil-depleting bases, respectively, established for all farms participating in the 1937 Program in Guilford County shall not exceed the acreage for each such soil-depleting base which is established for such farms in the county by the Agricultural Adjustment Administration.

The total of the cotton or tobacco bases established in 1937 for farms on which such bases were not established in 1936, or on which no cotton or tobacco base acreage was established under a commodity adjustment program in 1935, shall not exceed such acreage in the county as shall be obtained by downward adjustment of the respective soil-depleting bases or base acreages previously established for other farms in the county except as approved by the Agricultural Adjustment Administration.

The weighted average of the rate per acre for diversion from the general soil-depleting base and the weighted average base yield of cotton and tobacco for all farms for which soil-depleting bases are established in Guilford County shall not exceed the respective rate per acre or base yield established for such crop(s) for the county by the Agricultural Adjustment Administration.

*Part IV. Miscellaneous Provisions*

SECTION 1. *Land To Be Included Under Application.*—An application may be submitted with respect to any farm or with respect to any two or more farms operated by the same person.

SECTION 2. *Application and Eligibility for Payment.*—(a) Payment will be made only upon applications submitted through the county office. The Secretary reserves the right to withhold payment to any person who fails to file any form or furnish any information required with respect to any farm in which he is interested as owner or operator and to refuse to accept any application for payment if such application or any other form or information required is not submitted to the county office within the time fixed by the Director of the East Central Division.

(b) An application for payment may be made by any person who as owner, operator, share-tenant, or sharecropper is entitled to receive a share or all of the crops produced on the farm in 1937 or of the proceeds therefrom.

(c) A farm shall be regarded as being in Guilford County if the principal dwelling on such farm is located in such county, or, in case there is no dwelling on such farm, if the major portion of the farm is located in such county.

(d) Any person who files an application for payment in Guilford County shall file an application with respect to each farm owned or operated by such person in the county. Upon request by the State Committee such person shall also file an application with respect to any farm owned or operated by him in any other county.

SECTION 3. *Membership in Association.*—Any person having an interest in the crops produced on any farm in Guilford County, or the proceeds thereof, who is not a member of the County Agricultural Conservation Association, shall become a member of such association whenever any form or information required in connection with the 1937 Program is submitted for such farm. Any person shall cease to be a member of the association if an application for payment is not filed by him within the time specified by the Director of the East Central Division for the filing of applications.

SECTION 4. *Multiple Farm Holdings.*—If a person who has made application for a payment with respect to any farm or farms has an interest as owner or operator in another farm or farms in the county on which the acreage used for the production of crops included in any soil-depleting base exceeds such base and such other farm or farms have not been included in an application under which a payment can be made, the payment to be made to such person shall be decreased by an amount equal to such person's share of the net deductions with respect to such other farm or farms.

The provisions of this section may be extended to include farms in one or more other counties in the State in which any person as owner or operator is entitled to receive a share of the crops produced thereon, or the proceeds thereof, if the acreage used for the production of any soil-depleting crop(s) on any such farm has been increased to such an extent as to tend to defeat the purposes of the 1937 Program.

*Part V. Definitions*

As used herein and in all forms and documents relating to the 1937 Agricultural Conservation Program (herein referred to as the 1937 Program) in Guilford County, the following terms shall have the following meanings:

*Secretary* means the Secretary of Agriculture of the United States.

*East Central Region* means the area included in the States of Delaware, Maryland, Virginia, West Virginia, North Carolina, Kentucky, and Tennessee.

*East Central Division* means the division of the Agricultural Adjustment Administration in charge of the 1937 Program in the East Central Region.

*Guilford County* means the area included in Guilford County, North Carolina, designated to operate under Special Program as provided in section 8, part I of ECR—B–101, North Carolina.

*State Committee, State Agricultural Conservation Committee, or State Office* means the group of persons designated for the State of North Carolina to assist in the administration of the 1937 Program.

*County Committee, County Agricultural Conservation Committee, or County Office* means the group of persons designated for Guilford County to assist in the administration of the 1937 Program.

*Person* means an individual, partnership, association, corporation, estate, or trust, and wherever applicable, a State, a political subdivision of a State, or any agency thereof, or any other government agency that may be designated by the Secretary.

*Operator* means any person who as owner or share-tenant actively supervises and directs the farming activities throughout the 1937 farming season.

*Owner* means a person who owns land which is not rented to another for cash or a fixed commodity payment; and shall include a person who rents land from another for cash or a fixed commodity payment or who is purchasing land for cash or fixed commodity payments.

*Sharecropper* means a person who works a farm in whole or in part under general supervision of the operator and is entitled to receive for his labor a proportionate share of the crops worked by him or the proceeds thereof.

*Share-tenant* means a person, other than an owner or share-cropper, who is working a part or the whole of a farm and is entitled to receive a portion of the crops produced thereon or the proceeds thereof.

*Producer* means an owner, operator, share-tenant or sharecropper, who, under the terms of his lease or operating agreement, is entitled to share in the crops grown on the farm in 1937 or the proceeds thereof.

*Cropland* means all farm land which is tillable and on which at least one crop other than wild hay was harvested or planted for harvest between January 1, 1930, and January 1, 1937, and any other farm land devoted on January 1, 1937, to orchards or vineyards other than those abandoned.

*Cotton soil-depleting base* means the number of acres established for the farm as the acreage normally used for the production of cotton.

*Tobacco soil-depleting base* means the number of acres established for the farm as the acreage normally used for the production of tobacco.

*General soil-depleting base* means the number of acres established for the farm as the acreage normally used for the production of all soil-depleting crops other than cotton and tobacco.

*Allotted acreage* means that acreage of cotton, tobacco, or general soil-depleting crops, respectively, recommended by the County Committee, for any farm in connection with the 1937 Program.

*Farm* means all land which is farmed by an operator in 1937 as a single unit with workstock, farm machinery, and labor substantially separate from that for any other land; provided that any such unit shall not be considered a farm unless the County Committee finds, from a consideration of such factors as size of unit, amount of labor applied, nature of farming operations, and practices carried out, that the participation of such unit in the 1937 Program would tend to promote the economic use and conservation of the land and preserve and improve its fertility for agricultural purposes.

*Commercial vegetables* means any acreage of vegetables or truck crops (including also potatoes, sweet potatoes, sweet corn, melons, cantaloupes, and strawberries, but excluding sweet corn for canning and peas for canning), from which the principal part of the production was sold off the farm in 1936.

*Farm allowance* means the amount for any farm that may be obtained by carrying out the farm plan recommended by the County Committee.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 10th day of March, 1937.

[SEAL] H. A. WALLACE,

## FEDERAL POWER COMMISSION.

Commissioners: Frank R. McNinch, Chairman; Basil Manly, Vice Chairman; Herbert J. Drane, Claude L. Draper, Clyde L. Seavey.

[Project No. 16]

IN RE LICENSE ISSUED TO THE NIAGARA FALLS POWER COMPANY

ORDER POSTPONING AND ENLARGING REHEARING

The following order was adopted:

Upon further consideration of the pending application of The Niagara Falls Power Company for amendment of license for project No. 16 so as to include the diversion and use of 275 c. f. s. of water through said project,

It is ordered:

(1) That the purpose of the hearing set by the order of the Commission adopted February 9, 1937, be enlarged to include the investigation of the following questions: (a) Whether or not the plans of the applicant for the use of the 275 c. f. s. of water applied for through existing licensed project works and in connection with its use of 19,725 c. f. s. already under license are best adapted to the most comprehensive plan for improving or developing the Niagara River for the use or benefit of interstate or foreign commerce and for the improvement and utilization of water power development of that river, and for other beneficial public uses, including recreational purposes; (b) Whether or not said plans are best adapted to develop, conserve, and utilize in the public interest the navigation and water-power resources of the region; (c) The bearing on (a) and (b), above, of the applicant's stock ownership, intercorporate relationships, and affiliations; and, (d) Such other matters as may be necessary to enable the Commission to pass upon said application for amendment;

(2) That said hearing be postponed from March 17th to Tuesday, May 11, 1937.

Adopted by the Commission on March 9, 1937.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 10th day of March, A. D., 1937.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE PHILLIPS-HAUCH FARM, FILED ON MARCH 4, 1937, BY JAMES H. HILT, RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)), AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is complete or inaccurate in the following material respects, to wit:

(1) In that the farm name is omitted from the heading of the schedule;

(2) In that the words "or disapproved" are not included in Division I, paragraph 2;

(3) In that the answer to Division II, Item 3 (c) (iv), does not disclose the place where the rental is payable;

(4) In that the statement made under Division II, Item 9, is not responsive to the question and is, therefore, inaccurate by virtue of the fact that the copy of case-drill structure map is not included;

(5) In that the name of the railroad is omitted from the information required by Division II, Item 10 (d);

(6) In that the text required to be set forth following Division II, Item 11, is omitted;

(7) In that the information required by the question asked under Division II, Item 15, is nonresponsive. It is, therefore, inaccurate and might be misleading;

(8) In that Division II, Item 18 (b), does not clearly set forth the terms and conditions under which the funds are to be impounded and might, therefore, be misleading;

(9) In that the plat attached to the offering sheet, which should be designated "Exhibit A", is inaccurate in the following particulars:

(a) lease boundaries not clearly designated;
(b) operators' names omitted;
(c) area surrounding lease boundaries to ⅛ of a mile is not shown in detail;

(10) In that a proposed instrument of conveyance, required by Exhibit B, is omitted;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 9th day of April, 1937; that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Richard Townsend, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 25th day of March, 1937, at 10:00 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 9th day of April, 1937; that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Richard Townsend, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 25th day of March, 1937, at 10:00 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

By the Commission.

### Agricultural Adjustment Administration.

[Docket No. A-45 O-45]

NOTICE OF HEARING WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND ORDER REGULATING HANDLING OF TOMATOES GROWN IN COUNTIES OF HIDALGO, CAMERON, AND WILLACY IN STATE OF TEXAS

Whereas, under the Agricultural Adjustment Act, as amended, notice of hearing is required in connection with a proposed marketing agreement or a proposed order, and the General Regulations, Series A, No. 1, as amended, of the Agricultural Adjustment Administration provide for such notice; and

Whereas, the Secretary of Agriculture has reason to believe that the execution of a marketing agreement and the issuance of an order will tend to effectuate the declared policy of Title I of the Agricultural Adjustment Act, as amended, with respect to tomatoes grown in the State of Texas;

Now, therefore, pursuant to the said act and said general regulations, notice is hereby given of a hearing on a proposed marketing agreement and a proposed order regulating the handling of tomatoes grown in the counties of Hidalgo, Cameron, and Willacy in the State of Texas to be held in the Chamber of Commerce Building, Mercedes, Texas, on March 23, 1937 at 9:30 a. m.

The proposed marketing agreement and order provide for the regulation of the handling of tomatoes produced in the area stated, and, among other things, provision is made for: (a) the establishment of a Control Board, (b) the regulation of shipments of tomatoes by grades and sizes, (c) prohibition of shipments of tomatoes for limited periods, and (d) assessments for expenses of administration.

This public hearing is for the purpose of receiving evidence as to the general economic conditions which may necessitate regulation in order to effectuate the declared policy of the act and as to the specific provisions which a marketing agreement and order should contain.

It is hereby declared that an emergency exists in the handling of tomatoes in the aforesaid area, which requires a shorter period of notice than fifteen (15) days; and it is hereby determined that the period of notice given is reasonable under the circumstances.

Copies of the proposed marketing agreement and the proposed order may be inspected in or procured from the office of the Hearing Clerk, Room 4725, South Building, United States Department of Agriculture, Washington, D. C.

### Bureau of Lighthouses.

REGULATIONS FOR LIGHTING BRIDGES OVER NAVIGABLE WATERS; ALSO FOR LIGHTS ON SHEER BOOMS, PIERS, DAMS, AND SIMILAR OBSTRUCTIONS TO NAVIGATION

FEBRUARY 25, 1937.

The regulations published herewith supersede all previous editions.

1. *Law requiring lighting of bridges.*—All parties owning, occupying, or operating bridges over any navigable river shall maintain at their own expense, from sunset to sunrise, throughout the year, such lights on their bridges as may be required by the Commissioner of Lighthouses for the security of navigation; and, in addition thereto, all persons owning, occupying, or operating any bridge over any navigable river, shall, in any event, maintain all lights on their bridge that may be necessary for the security of navigation. (Act Aug. 7, 1882, 22 Stat. 309; Sec. 6, Act June 17, 1910, 36 Stat. 538.)

2. *Congressional authority for construction of bridges.*—That it shall not be lawful to construct or commence the construction of any bridge, dam, dike, or causeway over or in any port, roadstead, haven, harbor, canal, navigable river, or other navigable water of the United States until the consent of Congress to the building of such structures shall have been obtained and until the plans for the same shall have been submitted to and approved by the Chief of Engineers and by the Secretary of War: *Provided*, That such structures may be built under authority of the legislature of a State across rivers and other waterways the navigable portions of which lie wholly within the limits of a single State, provided the location and plans thereof are submitted to and approved by the Chief of Engineers and by the Secretary of War before construction is commenced: * * *. (Act of Mar. 3, 1899, sec. 9, 30 Stat. 1151.)

Lights on bridges under construction are prescribed by the Chief of Engineers; after completion these regulations prescribed by the Commissioner of Lighthouses will apply.

3. *Secretary of Commerce to prescribe lights.*—That when, hereafter, authority is granted by Congress to any persons to construct and maintain a bridge across or over any of the navigable waters of the United States, * * * the persons owning or operating any such bridge shall maintain, at their own expense, such lights and other signals thereon as the Secretary of Commerce shall prescribe. * * *. (Act of Mar. 23, 1906, 34 Stat. 84 and 85.)

4. *Penalty for failure to maintain lights.*—Any person, firm, company, or corporation required by law to maintain a light or lights upon any bridge or abutments over or in any navigable waters who shall fail or refuse to maintain such light or lights, or to obey any of the lawful rules and regulations relating to the same, shall be deemed guilty of a misdemeanor and be subject to a fine not exceeding the sum of *one hundred dollars* for each offense, and each day during which such violation shall continue shall be considered as a new offense. (Act May 14, 1908, sec. 5, 35 Stat. 162.)

5. *Interference with bridge lights.*—Any person willfully obstructing or interfering with any of the lights covered by these regulations is subject to the fine provided by section 6 of the act of May 14, 1908, of not exceeding the sum of *five hundred dollars* for each offense, and each day during which such violation shall continue shall be considered as a new offense.

6. *Law requiring lighting of dams, etc.*—Persons owning or operating any dam or accessory works across navigable waters shall maintain at their own expense such lights and other signals thereon as the Secretary of Commerce shall prescribe, and for failure so to do in any respect shall be deemed guilty of a misdemeanor and subject to a fine of not less than five hundred dollars, and each month of such failure shall constitute a separate offense and subject such persons to additional penalties therefor. (Substance of act June 23, 1910, 36 Stat. 594.)

7. These regulations apply also to bridges over artificially made waterways, such as canals, constructed in accordance with the provisions of the act of March 23, 1906. (34 Stat. 84 and 85.)

8. When the Engineer Department of the War Department has issued a regulation to the effect that owners or tenders of bridges shall toll a bell or operate some other approved sounding device as a signal to vessels during fog that the draw span is open, the Superintendent of Lighthouses shall pass upon the size, weight, tone, and characteristic of the bell, or the efficiency and characteristic of any other prescribed signal.

9. *All bridge lights* required by these regulations shall be securely attached, and shall be visible on a dark night with a clear atmosphere at least 1 nautical mile, or about 2,000 yards and shall be located as prescribed by the Commissioner of Lighthouses with colors and arcs of illumination as specified, using oil or other suitable lamps except on electrically lighted bridges, where electric lights shall be used. All lights are to be of such power as, in the opinion of the Commissioner of Lighthouses is required for the safety of navigation and in no case less than furnished by a pressed Fresnel lens, 6⅞ inches inside diameter by 6½ inches clear height of opening with a one inch flat wick for oil lamps, or with a 50-watt clear electric lamp bulb. The color characteristic must be imparted to the light in such manner as not to unduly diminish the light transmitted, as compared with the best practice.

10. *Mid-channel lights* on fixed spans shall be green, shown from a green lens or a white lens with a green panel, and channel side lights shall be red.

11. *Draw-span lanterns* of drawbridges shall be constructed with a 360° white lens, using red disks or panels to be set in two opposite sides and green disks or panels to be set in the intermediate sides, or with red and green lenses instead of the foregoing. The light from each disk, panel, or lens is to cover approximately 60 degrees of the horizon and not more.

12. *Lift-bridge lanterns* shall be constructed either with a white lens, using red and green panels or with red and green lenses, in such manner as each case may require. In the case of lanterns with both red and green lenses the angular width of the lens shall be approximately 60 degrees but not more.

13. *Pier lights* on all bridges shall be shown from a red 180-degree (half-round) lens. The arc of illumination shall be 180 degrees, or one-half of the horizon. Protection piers or dolphins shall be lighted where necessary.

14. *Lights on sheer booms*, isolated piers, dams, and obstructions shall be shown from red 360-degree lenses. The arc of illumination shall be 360 degrees. As many lights shall be used as may be deemed necessary by the Superintendent of Lighthouses, with the approval of the Commissioner of Lighthouses.

15. *Obstructions to aviation.*—Where, in the opinion of the Commissioner of Lighthouses, the bridge superstructure is such as to constitute an obstruction to aerial navigation, special lighting of obstructions may be required. The Commissioner of Lighthouses will determine and advise the nature of lighting required in each such case.

16. *Seasons of navigation.*—In cases of closed seasons of navigation, lights on bridges and other structures must be exhibited from sunset to sunrise at all times when vessels can enter ports or are navigating in the vicinity.

17. *Bridges infrequently used, and unusual cases.*—Draw and lift bridges over minor streams which are not opened more frequently than four times between sunset and sunrise in any one week, and fixed bridges over such streams, may, on the recommendation of the proper Superintendent of Lighthouses, with the approval of the Commissioner of Lighthouses, be exempted from the other provisions of these regulations, provided that all persons owning, occupying, or operating any such bridges shall maintain such lights on their bridges as may, in the opinion of the Superintendent of Lighthouses be necessary for the security of navigation. The manner of lighting structures not covered by the foregoing rules shall be referred to the Commissioner of Lighthouses through the proper Superintendent of Lighthouses. In special or unusual cases the Commissioner of Lighthouses may, in his discretion, if satisfied that the safety of navigation is adequately protected, waive or modify these regulations, or exempt bridges from their operation.

18. *Bridges crossing channels obliquely.*—Bridges crossing a body of water at an angle other than 90 degrees with the axis of the channel must be lighted in accordance with these regulations, with such modifications as are necessary in each particular case.

19. *Stops for draws.*—The attention of the owners or operators of drawbridges is called to the importance of providing stops to prevent draws from rotating beyond the proper point, thus obstructing the opening and endangering the safety of navigation.

20. *Enforcing Officers.*—The Superintendents of Lighthouses have immediate authority over lighting of structures in their respective districts and are charged with the enforcement of these regulations.

A copy of these regulations will be sent free of charge to any shipmaster, pilot, or bridge owner on application to the Division of Publications, Department of Commerce, Washington, D. C.

## FEDERAL COMMUNICATIONS COMMISSION.

EXEMPTIONS FROM COMPLIANCE WITH RADIOTELEGRAPH INSTALLATION REQUIREMENT OF SAFETY OF LIFE AT SEA CONVENTION

In a regular meeting of the Telegraph Division of the Federal Communications Commission, on March 9, 1937:

*Whereas*, There has been filed with the Federal Communications Commission an application by the Puget Sound Navigation Company for exemption, pursuant to the provisions of Article 28 of the Safety of Life at Sea Convention, from the requirement of a radiotelegraph installation as specified in Article 27 of the Convention, for the following vessels and voyages:

1. The S. S. *Iroquois* and S. S. *Olympic* for international voyages between Seattle, Washington, and Victoria, B. C., via Port Townsend and Port Angeles.

2. The S. S. *Quilcene*, S. S. *City of Angeles*, and S. S. *Rosario* for international voyages between Anacortes, Washington and Sydney, B. C., via Friday Harbor, San Juan Island, and Orcas, Orcas Island; and

*Whereas*, The voyages in question are within the class of voyages for which an exemption from the requirement for a radiotelegraph installation, as specified in Article 27 of the Safety of Life at Sea Convention, may be granted under Article 28 of the Convention; and

*Whereas*, Although from the facts stated in the application and the preliminary investigation of the Commission, it appears that the requirement of a radiotelegraph installation would be unreasonable and unnecessary in so far as the voyages in question are concerned, nevertheless the Commission desires to further consider the matter and to afford an opportunity for any person having information bearing upon the route or conditions of the said voyages to present that information to the Commission; and

*It further appearing* that it is in the public interest that voyages on the route in question should not be interrupted and that the applicant would be subjected to undue hardship if it were required to install radiotelegraph installations pending final determination of the issues involved, the Commission finds that to require the vessels concerned to be equipped with radiotelegraph installations pending final determination by the Commission of the character of the route and conditions of the voyages in question, would be unreasonable and unnecessary.

*It is ordered*, That the vessels concerned shall be exempt from compliance with the radiotelegraph installation requirement of Article 27 of the Safety of Life at Sea Convention pending further order of the Commission and in any event for a period not exceeding 60 days from the date of this order.

Dated this 9th day of March, 1937.

By order of the Commission, Telegraph Division.

NOTICE

POSTING OF TARIFFS, SCHEDULES OF MINIMUM CHARGES, AND CONTRACTS

MARCH 9, 1937.

*To All Motor Carriers Subject to Sections 217 and 218 of the Motor Carrier Act, 1935:*

Numerous complaints have been made that motor carriers do not post and keep their tariffs, schedules of minimum charges, or copies of contracts stating rates and charges open to public inspection as required by Sections 217 and 218 of the Motor Carrier Act, 1935, and the Commission's regulations issued under the authority of those sections.

It is unlawful to withhold posting a publication until its published effective date.

Each such publication must be posted at each point required by Rule 6 of the tariff circular in time to give the notice required by the law. For example, if a carrier files a tariff or supplement thereto with the Commission, which tariff or supplement is to take effect on thirty days' notice, copy of that tariff or supplement must be posted and kept open to public inspection at least thirty days prior to the effective date. The publications referred to above should be placed in the custody of an authorized employee of the carrier who must keep them in a complete and readily accessible form so that anyone (competitors, shippers and others) may examine them without assigning any reason for so doing.

Carriers whose tariffs are issued by tariff publishing agents or by other carriers must see to it that they are furnished copies of such tariffs and all supplements thereto in time to permit the posting thereof in accordance with the requirements of the law.

Carriers failing to comply with the requirements of the Motor Carrier Act, 1935, and the Commission's regulations as to posting and keeping their publications open to public inspection will be subject to prosecution.

## SECURITIES AND EXCHANGE COMMISSION.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 11th day of March, A. D. 1937.

IN THE MATTER OF WASHINGTON GAS AND ELECTRIC COMPANY

[File No. 46-35]

NOTICE OF AND ORDER FOR HEARING

An application having been duly filed with this Commission by Washington Gas and Electric Company, a registered holding company and a subsidiary of the North American Gas and Electric Company, a registered holding company, pursuant to Section 10 (a) (1) of the Public Utility Holding Company Act of 1935, for approval of the acquisition of 860 shares of common stock, being 100% of all stock issued and outstanding of the Columbia Electric Development Company, owned by Longview Fibre Company; said applicant being lessee of the property of the issuer of the securities in question;

It is ordered that a hearing on such matter be held on March 30, 1937, at ten o'clock in the forenoon of that day at Room 1101, Securities and Exchange Building, 1778 Pennsylvania Avenue NW., Washington, D. C.; and

Notice of such hearing is hereby given to said party and to any interested State, State commission, State securities commission, municipality, and any other political subdivision of a State, and to any representative of interested consumers or security holders, and any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before March 25, 1937.

It is further ordered that Richard Townsend, an officer of the Commission, be and he hereby is designated to preside at such hearing, and authorized to adjourn said hearing from time to time, to administer oaths and affirmations, subpena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda, contracts, agreements, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

Upon the completion of the taking of testimony in this matter, the officer conducting said hearing is directed to close the hearing and make his report to the Commission.

## PRESIDENT OF THE UNITED STATES.

EXECUTIVE ORDER

LIMITING THE IMPORTATION OF RED CEDAR SHINGLES FROM CANADA

WHEREAS section 811 of the Revenue Act of 1936 (49 Stat. 1746) provides, in part, as follows:

"Whenever any organization or association representing the producers of more than 75 per centum of the red cedar shingles produced in the United States during the previous half-year period shall request the President to limit the importation of red cedar shingles from Canada under paragraph 1760 of the reciprocal trade agreement entered into with the Dominion of Canada under date of November 15, 1935, and the President finds from available statistics that the total quantity of red cedar shingles produced in the Dominion of Canada which is entered, or withdrawn from warehouse, for consumption in the United States, during any given half of any calendar year exceeds or will exceed 25 per centum of the combined total of the shipments of red cedar shingles by producers in the United States and the imports during the preceding half year, the President shall issue an order limiting for the six months immediately following the half of the calendar year in which said excess occurred, the quantity of red cedar shingles to be imported from Canada to 25 per centum of the combined total of the shipments and imports of red cedar shingles for such preceding half calendar year.";

WHEREAS the United States Red Cedar Shingle Industry, Inc., has requested me to limit the importation of red cedar shingles from Canada in accordance with the foregoing statutory provision;

WHEREAS I find that the United States Red Cedar Shingle Industry, Inc., represents the producers of more than 75 per centum of the red cedar shingles produced in the United States during the last six months of the calendar year 1936;

AND WHEREAS I find from available statistics that the total quantity of red cedar shingles produced in the Dominion of Canada which was entered, or withdrawn from warehouse, for consumption in the United States during the last six months of the calendar year 1936 exceeded 25 per centum of the combined total of the shipments of red cedar shingles by producers in the United States and the imports during the first six months of the calendar year 1936:

NOW, THEREFORE, by virtue of and pursuant to the authority vested in me by the aforementioned statutory provision it is hereby ordered that the quantity of red cedar shingles imported from Canada which may be admitted to entry during the first six months of the calendar year 1937 shall be limited to 1,048,262 squares, which quantity is equivalent to 25 per centum of the combined total of the shipments and imports of red cedar shingles for the last six months of the calendar year 1936.

CUSTOMS FRAUDS—EXECUTIVE AGREEMENT

AGREEMENT BETWEEN THE UNITED STATES AND FRANCE CONCERNING THE SUPPRESSION OF CUSTOMS FRAUDS

MARCH 11, 1937.

*Collectors of Customs and Others Concerned:*

By exchange of notes effected at Paris on December 12, 1936, the United States and France entered into the following reciprocal agreement concerning cooperation between the Customs Services of the respective countries, to become effective December 15, 1936:

ARTICLE I. The Customs Administration of the United States of America and the French Customs Administration shall promptly communicate to each other all information at any time in their possession concerning imports and exports which might facilitate the suppression of smuggling or fraud in the other country.

ARTICLE II. Concerning direct or indirect shipments of merchandise between the United States of America or its possessions and France or its possessions, each of the Administrations concerned shall send directly to the other, upon the latter's written request, all information which may be gathered from documents in its possession (entries, registration records, declarations, and other customs documents). Such documents, or duly authenticated or certified copies thereof, may be used as evidence in proceedings or prosecutions in the courts.

ARTICLE III. The appropriate officers of the Governments of the United States of America and France, respectively, shall furnish upon request to duly authorized officers of the other Government information concerning clearances of vessels or the transportation of cargoes, when the importation or exportation of any of the cargo carried is prohibited, restricted, or subject to the payment of duties or other exactions, or when the requesting officers suspect that the owners or persons in possession of any of the cargo intend to violate the laws of the requesting Government in respect of such cargo.

ARTICLE IV. It is agreed that the customs and other administrative officials of the Government of the United States of America and France, respectively, shall upon request of the competent authorities of one Government made of the competent authorities of the other Government, be directed to attend as witnesses and to produce such available records and files, or duly authenticated or certified copies thereof, as may be considered essential to the trial of civil or criminal cases in the courts of the country on whose behalf the request was made, and as may be produced compatibly with the public interest of the country of which the request was made.

The cost of transcripts of records, depositions, certificates and letters rogatory in civil or criminal cases, and the cost of first-class transportation both ways, maintenance and other proper expenses involved in the attendance of such witnesses shall be paid by the Government requesting their attendance not later than at the time of their discharge by the court from further attendance at such trial. Letters rogatory and commissions shall be executed with all possible despatch and copies of official records or documents shall be authenticated or certified promptly by the appropriate officials in accordance with the provisions of the laws of the respective countries.

Any matter arising in connection with this agreement shall be promptly referred to the Bureau of Customs for such action as may be appropriate.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE AMERADA-TRANSWESTERN-SUENRAM FARM, FILED ON FEBRUARY 2, 1937, BY S. LEROY ESTES, RESPONDENT

ORDER FOR HEARING (UNDER RULE 340 (B)) AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein contains an untrue statement of a material fact, or omits to state a material fact which is required to be stated therein (for the omission of which no sufficient reason is given in the offering sheet) and which is necessary to make the statements therein not misleading, to wit:

In that the amount or percentage of water produced or being produced with the oil on the lease may not be correctly set forth;

It is ordered, pursuant to Rule 340 (b) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be misleading, and whether the effectiveness of the filing of the said offering sheet shall be suspended; and

It is further ordered that Richard Townsend, an officer of the Commission be, and hereby is, designated as Trial Examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 26th day of March, 1937, at 10:00 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said Examiner may designate.

IN THE MATTER OF INTERNATIONAL PAPER AND POWER COMPANY

NOTICE OF AND ORDER FOR HEARING

International Paper and Power Company has filed with this Commission a Plan for Change in Capitalization whereby its existing preferred and common stocks would be changed into varying amounts of other stocks and stock purchase warrants to be issued by such company having other and different rights and privileges. The principal changes provided by such plan are as follows:

Each share of outstanding Cumulative 7% Preferred Stock to be changed into one share of 5% preferred stock and one share of common stock:

Each share of outstanding Cumulative 6% Preferred Stock to be changed into one share of 5% preferred stock and 3/4ths of a share of common stock;

Each share of outstanding Class A Common Stock to be changed into 8/20ths of a share of common stock and a common stock purchase warrant for 12/20ths of a share of common stock;

Each share of outstanding Class B Common Stock to be changed into 6/20ths of a share of common stock and a common stock purchase warrant for 9/20ths of a share of common stock;

Each share of outstanding Class C Common Stock to changed into 3/20ths of a share of common stock and a common stock purchase warrant for 9/40ths of a share of common stock.

The preferred stock provided for by such changes will be 5% cumulative preferred having a par value of $100 per share, redeemable at $105 per share and accrued dividends and convertible after October 15, 1937 into 2 1/2 shares of common stock. The changes will have the effect of eliminating all rights to accrued dividends on preferred stocks which are now outstanding. The common stock provided for by such changes will have a par value of $15 per share. The stock purchase warrants mentioned above will entitle the holder to purchase the amounts of common stock specified therein at a price of $25 per share at any time between October 15, 1937 and May 15, 1942.

The plan is to be submitted for approval of the shareholders of the company at their annual meeting to be held during the month of May, 1937. It provides that if the holders of the outstanding cumulative 6% preferred stock shall not consent, the plan may be consummated without affecting the present rights of such holders.

Said company claims exemption from the provisions of the Public Utility Holding Company Act of 1935 by virtue of certain applications filed with the Commission. However, it is recognized that such applications might be denied prior to the exercise of the conversion privileges attaching to the new preferred stock or the proposed stock purchase warrants, in which event doubts might exist as to said company's right to issue such further common stock as would be required for such purposes. Said company has therefore requested the Commission to make a report on said plan and to give the same consideration to the new securities proposed to be issued as it would give if the company were a registered holding company. If the Commission shall find that such plan and securities conform with the requirements of the Act, the company asks for exemption from the provisions of Sections 4 (a) and 6 (a) insofar as the same apply to the changes in rights of shareholders involved in the proposed plan or the issue, distribution, sale or exchange by the company of securities to be issued, distributed, sold or exchanged in accordance with its provisions.

It is therefore ordered that a hearing on such plan for change in capitalization, the securities proposed to be issued thereunder and the changes in rights of shareholders involved in such transactions, be held on March 29, 1937, at 10:00 o'clock in the forenoon of that day, at Room 1101, Securities and Exchange Building, 1778 Pennsylvania Avenue, N. W., Washington, D. C.

Notice of such hearing is hereby given to said party and to any interested State, State commission, State securities commission, municipality, and any other political subdivision of a State. Opportunity to present any relevant testimony or argument will also be given to any representative of interested consumers or security holders, and any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers.

It is further ordered that Richard Townsend, an officer of the Commission, be and he hereby is designated to preside at such hearing, and authorized to adjourn said hearing from time to time, to administer oaths and affirmations, subpena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda, contracts, agreements or other records deemed relevant or material to the inquiry and to perform all other duties in connection therewith authorized by law.

Upon completion of the taking of testimony in these matters, the officer conducting said hearing is directed to close the hearing and make his report to the Commission.

By the Commission.

IN THE MATTER OF PARMER & CO., 30 BROAD STREET, NEW YORK, NEW YORK

ORDER REVOKING REGISTRATION PURSUANT TO SECTION 15 (B), OF THE SECURITIES EXCHANGE ACT OF 1934, AS AMENDED

Parmer & Co., hereinafter called the registrant, having filed with the Commission on June 1, 1935, an application for registration on Form 1–M pursuant to Rule MA2 of the Commission's rules then governing over-the-counter markets; and the said registration having become effective on January 1, 1936, in accordance with the Commission's rules and regulations; and

The said registrant having become registered under Section 15 (b) of the Securities Exchange Act of 1934, as amended, by virtue of the provisions of Section 10 of the Act of Congress approved May 27, 1936, providing for the registration of over-the-counter brokers and dealers; and

The Commission having reasonable grounds to believe that

(a) The said registrant is presently enjoined from engaging in and continuing certain practices in connection with the sale of securities by an order of the Supreme Court of the State of New York entered on October 26, 1936;

(b) The said registrant has wilfully violated Rule MB2 adopted by the Commission pursuant to Sections 15 (b), 17 (a) and 23 (a) of the Securities Exchange Act of 1934, as amended, by reason of the said registrant having wilfully failed to report on Form 6–M the fact of the injunction referred to in (a) above within ten days after the entry thereof which rendered the information stated under Item 21 of the application aforesaid no longer accurate; and

the Commission having ordered that a hearing be held for the purpose of determining whether grounds exist for the revocation of the said registration under Section 15 (b) of the Securities Exchange Act of 1934, as amended; and the said registrant after due notice and opportunity for hearing having consented to the revocation thereof; and the Commission having duly considered the matter and being fully advised in the premises;

It is ordered pursuant to Section 15 (b) of the Securities Exchange Act of 1934, as amended, that the registration of Parmer & Co. as a broker or dealer transacting business on over-the-counter markets be and the same is hereby revoked.

ORDER REVOKING REGISTRATION PURSUANT TO SECTION 15 (B) OF THE SECURITIES EXCHANGE ACT OF 1934, AS AMENDED

Loren Albert Ward, doing business as Independent Brokerage Service and hereinafter called the registrant, having filed with the Commission on June 10, 1935, an application for registration on Form 1–M pursuant to Rule MA2 of the Commission's rules then governing over-the-counter markets; and the said registration having become effective on January 1, 1936, in accordance with the Commission's rules and regulations; and

The said registrant having become registered under Section 15 (b) of the Securities Exchange Act of 1934, as amended, by virtue of the provisions of Section 10 of the Act of Congress approved May 27, 1936, providing for the registration of over-the-counter brokers and dealers; and

The Commission having reasonable grounds to believe that the said registrant was convicted on November 9, 1936, by the District Court of the United States for the Northern District of Texas, Fort Worth Division, of a felony involving the sale of securities; and having ordered that a hearing be held for the purpose of determining whether grounds exist for the revocation of the said registration under Section 15 (b) of the Securities Exchange Act of 1934, as amended; and the said registrant after due notice and opportunity for hearing having consented to the revocation thereof; and the Commission having duly considered the matter and being fully advised in the premises;

It is ordered pursuant to Section 15 (b) of the Securities Exchange Act of 1934, as amended, that the registration of Loren Albert Ward, doing business as Independent Brokerage Service, as a broker or dealer transacting business on over-the-counter markets be and the same is hereby revoked.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 15th day of March, A. D., 1937.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE STANOLIND-AMERADA-BIERSCHENK FARM, FILED ON MARCH 8, 1937, BY S. LEROY ESTES, RESPONDENT

ORDER FOR HEARING (UNDER RULE 340 (B)) AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein contains an untrue statement of a material fact, or omits to state a material fact which is required to be stated therein (for the omission of which no sufficient reason is given in the offering sheet) and which is necessary to make the statements therein not misleading, to wit:

In that the amount or percentage of water produced or being produced with the oil on the lease may not be correctly set forth;

It is ordered, pursuant to Rule 340 (b) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be misleading, and whether the effectiveness of the filing of the said offering sheet shall be suspended; and

It is further ordered that Robert P. Reeder, an officer of the Commission be, and hereby is, designated as Trial Examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 30th day of March, 1937, at 11:00 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said Examiner may designate.

Upon the completion of testimony in this matter the Examiner is directed to close the hearing and make his report to the Commission.

[No. 36]

SUNNYSIDE DIVISION—YAKIMA PROJECT

PUBLIC NOTICE OF ANNUAL OPERATION AND MAINTENANCE CHARGES

[Act of June 17, 1902, 32 Stat., 388, as amended or supplemented]

MARCH 4, 1937.

1. *Operation and Maintenance Charges for Project Lands.*—For the purpose of equitably determining operation and maintenance charges for the lands of the Sunnyside Division, Yakima project, Washington, notice is hereby given that for the irrigation season of 1937, and thereafter until further notice, each acre of irrigable land subject to public notice rates in said division, whether water is used or not, shall be charged with a minimum operation and maintenance charge of one dollar and seventy-five cents ($1.75), which will permit delivery of not more than the amounts per irrigable acre to which such lands are entitled under notice and regulations of the Secretary dated October 17, 1930, and in accordance with the following schedule per irrigable acre:

*Monthly Schedule of Deliveries*

| | Percent |
|---|---|
| April | 13.3 |
| May | 15.0 |
| June | 18.3 |
| July | 18.3 |
| August | 16.7 |
| September | 11.7 |
| October | 6.7 |

The above deliveries will be contingent on beneficial use, as determined by the project superintendent.

2. *Charges for Water Rental for Lands Subject to Public Notice.*—The major portion of the lands of the Sunnyside Division, Yakima project, Washington, under Public Notice, has been divided by the Sunnyside Valley Irrigation District into three classes, according to water requirements, namely, (a), (b), and (c), and a map showing such classification is on file in the office of the project superintendent and in the office of the irrigation district. For additional water (if available from either storage or natural flow) delivered during the months of June, July and August in excess of the monthly schedule of the preceding paragraph, the rental charge, as provided in Notice of October 17, 1930, will be as follows:

| | Per acre-foot |
|---|---|
| Class A | $1.50 |
| Class B | .75 |
| Class C | .50 |

When available, water in excess of this schedule will be delivered during the other months of the season without extra charge.

3. *Charges for Water Rental for Lands Under Supplemental Water-Right Contracts.*—For lands receiving water under said division of said project, by virtue of certain supplemental water-right contracts with the United States, under the provisions of which a minimum operation and maintenance charge is fixed which permits the delivery of amounts of water determined in accordance with the public notice of October 17, 1930, a rental charge of one dollar and fifty cents ($1.50) per acre-foot for additional water (if available from storage or natural flow) delivered during each of the months of June, July, and August in excess of the said determined amounts will be made. When available, water in excess of the determined amounts will be delivered during the other months of the season without extra charge.

4. *Charges for Water Rental for Other Lands.*—Public Notice, Supplemental and Warren Act lands of the division not classified and not covered by paragraphs two (2) and three (3), may be delivered additional water during the months of June, July, and August in excess of the amounts allowed to like lands of the division at the same rates announced in said paragraphs.

5. *Water Rental Charges for Lands Outside the Project.*—For water which may be furnished lands outside the limits of the said division of said project, the charge shall be one dollar ($1) per acre-foot for the irrigation season of 1937, and thereafter until further notice, due and payable in advance of the delivery of water.

6. *Water-rights secured with lands, the title to which has passed to the several irrigation districts* and the farming of which is now abandoned, may be used upon types or classes of land specified by the irrigation districts, under approved rules and regulations, where the same is not now covered by district contract, such designation to be made within thirty (30) days after date of this public notice.

7. *Time of Payment.*—All water charges announced herein are due and payable on December 31 following the irrigation season, except as provided in paragraph 5.

IN THE MATTER OF AN OFFERING SHEET OF AN OVERRIDING ROYALTY INTEREST IN THE EAGLE ROCK-DARLING-ENGSTROM-HULTBERG-SWORD ET AL. FARM. FILED ON MARCH 9, 1937, BY SUPREME OIL INC., RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)), AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that the information disclosed by the answer to Division II, Item 2 (a), may not be correct, and appears to be in conflict with the data given in the plat marked "Exhibit A";

(2) In that the information given in the answer to Division II, Item 3 (c), may not be correct, and conflicts with the answer made under Division II, Item 5;

(3) In that under Division II, Item 5 (a), the name of the person to whom the ⅛th overriding royalty interest has been conveyed is omitted;

(4) In that the information given under Division II, Item 19 (c), is non-responsive, insufficient, and fails to disclose enough data to determine the responsibility of the party, or parties, as required by the question, and might therefore be misleading;

(5) In that Exhibit A omits the following information required by Schedule F:

(a) lease boundaries;
(b) operators' names;
(c) numbers and depths of wells;
(d) legend incomplete;
(e) tract boundaries not clearly defined;

(6) In that the legal description of the property is not included in Exhibit B;

(7) In that the smallest fractional interest, as set forth in Division II, Item 1, is not in agreement with the smallest fractional interest as disclosed by the "agreement" attached to the offering sheet as "Exhibit D" and might, therefore, be misleading;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 15th day of April, 1937; that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Charles S. Lobingier, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 31st day of March, 1937, at 10:00 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

### Agricultural Adjustment Administration.

NORTH CENTRAL DIVISION

ORDER WITH RESPECT TO ADAPTED ALFALFA AND RED CLOVER SEED UNDER THE 1937 AGRICULTURAL CONSERVATION PROGRAM IN THE NORTH CENTRAL REGION

Whereas under the provisions of Section 13, Part IV of North Central Region Bulletin 101, as Amended, the eligibility of an applicant to receive a soil-building payment is dependent upon his carrying out soil-building practices in a manner and with such materials and with such kinds and quantities of *adapted seed* as conform with good farming practice; and

Whereas alfalfa and red clover seed produced in certain localities are unadapted for use in other localities; and

Whereas for many year studies have been conducted by the various agricultural colleges located in the North Central Region for the purpose of determining the alfalfa and red clover seeds which are adapted in the States where such colleges are located; and

Whereas the State agricultural conservation committees, after due consideration of this problem have submitted recommendations based on practical experience and information received from farmers in their States, setting forth the alfalfa and red clover seeds which are considered adapted in their States;

Now therefore, I, H. A. Wallace, Secretary of Agriculture, pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, as Amended, do hereby determine that—

Red clover seed and alfalfa seed grown in Canada and grown in the following States in the United States, namely, Colorado, Connecticut, Delaware, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, Montana, Nebraska, New Hampshire, New Jersey, New York, North Dakota, Ohio, Pennsylvania, Rhode Island, South Dakota, Utah, Vermont, Virginia, West Virginia, Wisconsin, and Wyoming, shall be regarded as adapted in connection with the 1937 Agricultural Conservation Program in the entire North Central Region.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 18th day of March, 1937.

ECR—B-101—White County, Tennessee Issued March 18, 1937

## 1937 AGRICULTURAL CONSERVATION PROGRAM

### EAST CENTRAL REGION BULLETIN 101—WHITE COUNTY, TENNESSEE

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, as amended, payments will be made, in connection with the effectuation of the purposes of section 7 (a) of said Act for 1937, in accordance with the provisions of this East Central Region Bulletin 101, White County, Tennessee and such modifications or other provisions as may hereafter be made.

The 1937 Agricultural Conservation Program has been developed in accordance with the provisions of section 8, 15, and 16 of the Soil Conservation and Domestic Allotment Act, but the payment of any benefits pursuant to the provisions of this bulletin is contingent upon such appropriation, if any, as the Congress of the United States may hereafter make for such purpose, and the amounts of such payments will be finally determined by such appropriation and the extent of participation in the program. The rates of payment and the soil-building allowance set forth herein are computed upon the basis of an appropriation of $500,000,000 for the 1937 program for the Nation and 85 percent participation by farmers. The payments calculated in accordance with the provisions of Part I of this Bulletin 101 may be increased or decreased depending upon the extent of participation in the East Central Region, but any such variation will not be in excess of 10 percent.

*Part I. Rates and Conditions of Payment*

Payment will be made in connection with the utilization in 1937 of the land on any farm in White County, Tennessee, in the amounts and subject to the conditions hereinafter set forth.

SECTION 1. *Payment for Diversion from Cotton and Tobacco Soil-Depleting Bases.*—For each acre diverted from any cotton or tobacco soil-depleting base for the farm, payment will be made as follows:

(a) *Cotton.*—5 cents per pound of the base yield per acre of cotton for the farm, for each acre (rounded to the nearest whole acre) diverted not in excess of 35 percent of the cotton soil-depleting base, except that, if such base is 5.7 acres or less, payment may be made for diverting all or any part of such base not to exceed 2 acres.

(b) *Tobacco.*—5 cents per pound of the base yield per acre of tobacco for the farm, for each acre (or fraction thereof rounded to the nearest tenth acre) diverted not in excess of 25 percent of the tobacco soil-depleting base.

SECTION 2. *General Farm Allowance.*—The general farm allowance for the farm is the maximum amount for which payment may be made for carrying out soil-building practices and for diversion from the general soil-depleting base.

This allowance shall be $1.00 for each acre of cropland; *provided*, that in no event will the general farm allowance for any farm be less than $20.00.

SECTION 3. *Payment for Soil-Building Practices.*—Payment will be made, within the limit of the general farm allowance determined for the farm in accordance with section 2 above, for carrying out in connection with the 1937 Agricultural Conservation Program not later than October 31, 1937, any of the soil-building practices listed herein, upon the conditions and at the rates herein specified; *provided*, that the practice is carried out by such methods and with such kinds and quantities of seeds, trees, and other materials as conform to good farming practices, and that no part of the labor, seed, trees, or other materials used in connection with such practice is furnished in whole or in part by any State or Federal agency.

(a) *Seeding Legumes and Perennial Grasses.*—For seeding approved seeds of any of the following crops, payment will be made for each acre (rounded to the nearest whole acre) at the rate set forth below:

(1) Alfalfa: $2.50.

(2) Red clover; mammoth clover; or bluegrass; or any mixture containing 50 percent or more by weight of legumes listed in paragraphs (1) or (2) of this subsection (a): $2.00.

(3) Crimson clover; alsike clover; sweet clover; annual lespedeza; orchard grass; or any mixture containing 50 percent or more by weight of grasses or of legumes listed in paragraphs (1), (2), or (3) of this subsection (a): $1.50.

(4) White clover; redtop; timothy; or any mixture of grasses or legumes listed in this subsection (a): $1.00.

(b) *Growing Green Manure Crops and Cover Crops.*—Plowing or discing under as green manure any of the crops named below after the crop has attained a normal growth of at least two months. Payment will be made for each acre (rounded to the nearest whole acre) at the rate specified for each such crop.

(1) Soybeans, velvet beans, or cowpeas, plowed or disced under:[1] $2.00.

(2) Crimson clover, plowed or disced under; rye, barley, wheat, Italian ryegrass, or oats, or mixtures of these, plowed or disced under; Sudan grass, millet, or sorghum, plowed or disced under: $1.00.

(c) *Planting Forest Trees.*—Planting forest trees, including post-producing species. Payment will be made for each acre (rounded to the nearest whole acre) at the rate of $7.50 when planted on cropland or at the rate of $5.00 when planted on other land.

(d) *Improving Stands of Forest Trees.*—Upon prior approval by the County Committee, improving the stand of forest trees by thinning or pruning trees on woodland from which grazing is excluded, to develop approximately 100 potential timber trees of desirable species, well distributed over an acre of woodland. Payment will be made for each acre (rounded to the nearest whole acre) at the rate of $2.50.

(e) *Improving Land by the Use of Ground Limestone.*—Applying not less than 1,000 pounds per acre of ground limestone, or its equivalent,[2] on cropland or non-crop pasture land or not less than 500 pounds per acre if the application is made by drilling with the seed of any legume or perennial grass listed in subsection (a) of this section 3. Payment will be made on a quantity not exceeding 2½ tons per acre for each ton (rounded to the nearest ton) at the rate of $1.50.

(f) *Improving Land by the Use of Superphosphate.*—Applying not less than 100 pounds per acre of 16 percent superphosphate, or its equivalent,[3] on any permanent pasture, or in connection with seeding or maintaining any legume or perennial grass listed in subsection (a) of this section 3, or in connection with any green manure crop plowed or disced under as provided in subsection (b) of this section 3. Payment will be made for each 100 pounds (rounded to the nearest 100 pounds) on a quantity not exceeding 500 pounds per acre at the rate of 60 cents; or, if the superphosphate is applied in connection with a legume or perennial grass listed in subsection (a) of this section 3 seeded in connection with a soil-depleting crop, at the rate of 30 cents.

In connection with this practice, the Agricultural Adjustment Administration will make available at Sheffield, Alabama, a supply of triple superphosphate (approximately 43 percent $P_2O_5$) which, within the limit of such supply, may, upon requests filed at the county office, be obtained for application on the farm in accordance with the foregoing provisions of this subsection (f). If triple superphosphate is so obtained, 60 cents for each 16 pounds of available $P_2O_5$ contained therein shall, in accordance with instructions by the Agricultural Adjustment Administration, be deducted from any payment (including payment for carrying out this practice) which otherwise would be made to any person(s) eligible to receive payments with respect to the farm; *provided*, however, that such deduction will first be made from payments with respect to the farm which otherwise would be made to the person(s) carrying out this practice.

(g) *Control of Erosion by Terracing.*—Terracing cropland or non-crop pasture land which the County Committee finds is in need of terracing, with a sufficient amount of properly constructed terrace to give adequate protection against erosion. Payment will be made for each 100 feet (rounded to the nearest 100 feet) at the rate of 40 cents.

(h) *Provision for Products for Home Consumption.*—Inclusion in the farming program of provision for a home garden and a milk cow to produce sufficient products for home consumption needs of the family of any producer on the farm and for which the County Committee finds that provision has not normally been made for such home consumption needs. Payment will be made for provision with respect to each such producer in the amount of $10.00.

SECTION 4. *Payment for Diversion from the General Soil-Depleting Base.*—Payment will be made, within the limit of the general farm allowance determined for the farm in accordance with section 2 above, for each acre diverted (rounded to the nearest acre) from the general soil-depleting base for the farm, not in excess of 15 percent of such base at a rate which will average $6.30 per acre for the County, varied among farms according to relative productivity of cropland used for the production of crops in the general soil-depleting base; *provided*, that payment will not be made for diversion from the general soil-depleting base for a farm unless crops in such base are normally grown in excess of the home consumption needs of the farm on an acreage not less than 15 percent of such base.

SECTION 5. *1937 Acreage of Soil-Conserving Crops.*—If the 1937 acreage of soil-conserving crops on the farm is less than the minimum acreage of soil-conserving crops (that is, the number of acres in the soil-conserving base plus the number of acres diverted from soil-depleting bases in 1937 upon which payment will be made), a deduction will be made from the payment which otherwise would be made with respect to the farm at the rate of $3.00 per acre of such deficiency.

Diversion payment will in no event be made with respect to a greater number of acres than the 1937 acreage of soil-conserving crops on the farm.

SECTION 6. *Increase in Acreage of Soil-Depleting Crops.*—If the 1937 acreage of cotton, tobacco, or general soil-depleting crops, respectively, on the farm is in excess of the soil-depleting base therefor, deduction will be made from any payment which otherwise would be made with respect to the farm as provided below.

(a) For each acre of cotton or tobacco in excess of the soil-depleting base, a deduction at the rate of payment for diversion for such crop.

(b) For each acre of general soil-depleting crops in excess of the general soil-depleting base, a deduction at the rate of payment for diversion for such crops; *provided*, that no deduction will be made for general soil-depleting crops in excess of the base if such crops are required for home consumption on the farm or if the County Committee finds that such crops are grown in order to replace a shortage of feed crops on the farm caused by flood, drouth or other unfavorable weather conditions in 1936 or 1937.

SECTION 7. *Association Expenses.*—There shall be deducted pro rata from the payments made to members of the White County Agricultural Conservation Association all or such part, as the Secretary may prescribe, of the estimated administrative expenses incurred or to be incurred by such association in cooperating in carrying out the Soil Conservation and Domestic Allotment Act.

There shall be credited to the White County Agricultural Conservation Association for the payment of administrative expenses the sum of $2.00 per application for that number of applications submitted by members of the association under which it is estimated by the Agricultural Adjustment Administration the total payment (prior to deduction of any administrative expenses) will be $20.00 or less.

SECTION 8. *Applicability to Farms under Special Programs.*—On any farm where a program is carried out in cooperation with the Soil Conservation Service or the Resettlement Administration payment will be made only for such diversion and for carrying out such soil-building practices as are, prior to performance, approved for the farm by the County Committee in accordance with instructions issued by the Secretary.

SECTION 9. *Payments Restricted to Effectuation of Purposes.*—All or any part of any payment which otherwise would be made to any person may be withheld if any practice is adopted by such person, which the Secretary determines tends to defeat the purposes of the 1937 Agricultural Conservation Program.

SECTION 10. *Calculation of Payments.*—The payments to any person under this program shall be calculated to the nearest whole dollar. Fractions of 50 cents or less will be dropped and fractions of more than 50 cents will be considered as $1.00.

*Part II. Classification of Crops*

Farm land, when devoted to the crops and uses indicated hereinafter, shall be classified in the manner set forth in this Part II.

[1] If the soybeans, velvet beans, or cowpeas are interplanted or grown in combination with a soil-depleting row crop, one-half the acreage shall be counted for this practice.

[2] Equivalent quantities of other materials may be substituted for ground limestone; *provided*, that the quantities of other materials so substituted contain not less than the quantities, by weight, of calcium or magnesium oxide contained in the quantities of ground limestone specified. For purposes of this section 3 (e) 100 pounds of ground oyster shell, 70 pounds of hydrated lime, or 50 pounds of burned lime, shall be considered, respectively, to be equivalent to 100 pounds of ground limestone.

[3] Equivalent quantities of other materials may be substituted for 16 percent superphosphate; *provided*, that the quantities of other materials so substituted contain not less than the quantities, by weight, of available $P_2O_5$ contained in 16 percent superphosphate, except that if ground rock phosphate is substituted the quantity of ground rock phosphate so substituted shall be not less than 1½ times the quantity or 16 percent superphosphate.

SECTION 1. *Soil-Depleting Crops.*—Land on which any of the following crops is grown shall be regarded as used for the production of a soil-depleting crop for the year in which such crop is normally harvested. The acreage of land which is devoted to two or more soil-depleting crops in the same year shall be counted as soil-depleting only once.

(a) Corn (field, sweet, and popcorn).
(b) Cotton.
(c) Tobacco.
(d) Peanuts harvested for nuts.
(e) Broom corn.
(f) Truck and vegetable crops, including also melons, strawberries, potatoes, and sweet potatoes.
(g) Sorghum, when harvested.
(h) Small grains: Wheat, oats, barley, rye, buckwheat, and grain mixtures; cut for hay or grain.
(i) Annual grasses: Sudan, millet, and Italian ryegrass, harvested for hay or seed.
(j) Bulbs and flowers.

SECTION 2. *Soil-Conserving Crops.*—Land devoted to any of the following crops and not used in the same year for the growing of any soil-depleting crop, as defined in section 1 of this Part II, shall be regarded as used for the production of a soil-conserving crop, except as otherwise provided in section 3 below. Cropland from which no crop is harvested during 1937 and which is planted in 1937 not later than October 31 to any crop listed below (other than small grains seeded alone in the fall) shall be considered as soil-conserving. If two or more soil-conserving crops are grown on the same land during any year the acreage of such land counted as soil-conserving shall not exceed the acreage on which such crops are grown.

(a) Biennial and perennial legumes: Sweet, red, alsike, white, and mammoth clovers; alfalfa; kudzu; and sericea.
(b) Miscellaneous legumes: Vetch, Austrian winter peas; bur clover and crimson clover; annual varieties of lespedeza; cretalaria.
(c) Summer legumes: Soybeans, velvet beans, field peas, and cowpeas.
(d) Peanuts, when pastured.
(e) Annual grasses: Sudan, millet, and Italian ryegrass, not harvested for hay or seed.
(f) Perennial grasses: Bluegrass, Dallis, redtop, timothy, orchard grass, Bermuda, carpet grass, and mixtures of these.
(g) Small grains: Rye, oats, barley, wheat, buckwheat, and grain mixtures, when not cut for grain or hay, provided a good growth is left on the land. (If plowed under or if a good growth is not left on the land the crop shall be disregarded in classfying the land on which grown except as otherwise provided).
(h) Forest trees, planted on cropland since January 1, 1934.
(i) Sweet sorghums, not harvested.

SECTION 3. *Soil-Conserving Crops Grown on Land Used for the Production of a Soil-Depleting Crop.*—Land devoted to any of the combinations of soil-conserving and soil-depleting crops listed below shall be classified as follows:

(a) Acreage on which summer legumes are interplanted or grown in combination with soil-depleting row crops. The entire acreage shall be classified as soil-depleting, and one-half of the acreage also shall be classified as soil-conserving, provided the legume occupies at least one-half of the land and attains a good growth.

(b) Acreage on which mixtures of legumes and soil-depleting crops (winter legumes and small grains, or summer legumes and annual grasses) are harvested together. The entire acreage shall be classified as soil-depleting, and one-half of the acreage also shall be classified as soil-conserving, provided not less than 50 percent of the total growth harvested consists of such legumes.

(c) Acreage of legumes classified as soil-conserving or of such a legume and perennial grass following a soil-depleting crop harvested in the same year (whether seeded in or following such soil-depleting crop). The entire acreage shall be classified as soil-depleting, and one-half of the acreage also shall be classified as soil-conserving, except that if the legume is an annual winter legume (crimson clover, vetch, or Austrian winter peas) the entire acreage also shall be classified as soil-conserving.

SECTION 4. *Neutral Uses.*—Land devoted to the following uses shall be regarded as not used for the production of a soil-depleting crop or a soil-conserving crop:

(a) Vineyards, tree fruits, small fruits, bush fruits, nut trees, and nursery stock not interplanted. Any portion of the area which is interplanted shall carry the classification and actual acreage of such interplanted crop.
(b) Idle cropland.
(c) Cultivated fallow land.
(d) Waste land, roads, lanes, lots, yards, and other similar non-crop land.
(e) Woodland, other than cropland planted to forest trees since January 1, 1934.

*Part III. Establishment of Bases*

The County Committee will recommend for approval by the Secretary a general soil-depleting base, a cotton soil-depleting base, a tobacco soil-depleting base, and a soil-conserving base for each farm participating in the 1937 Agricultural Conservation Program. Such bases shall represent the acreage normally used for the production of general soil-depleting crops, cotton, tobacco, and soil-conserving crops, respectively, on such farm. The County Committee also will recommend for each farm a base yield per acre for cotton and tobacco and a rate of payment for diversion from the general soil-depleting base for the farm.

SECTION 1. *Farms for Which Soil-Depleting Bases Were Established Under the 1936 Program.*—The soil-depleting bases established for farms under the 1936 Agricultural Conservation Program, together with the accompanying base yields or rates of payment per acre, shall be used as a basis for determining the soil-depleting bases, base yields, or rates per acre for such farms in 1937, with adjustment as provided in section 3 of this Part III.

SECTION 2. *Farms for Which Soil-Depleting Bases Were Not Established Under the 1936 Program.*—On farms for which bases were not established under the 1936 Agricultural Conservation Program, the bases and yields or rates per acre shall, subject to adjustment as provided hereinafter, be determined as follows:

(a) *Cotton Base and Yield.*—A cotton soil-depleting base may be established for a farm:

(1) If one acre or more of cotton was planted on the farm in 1935 or 1936, or
(2) If the entire base cotton acreage for the farm was retired in 1935 under a cotton acreage reduction contract, or
(3) If the County Committee determines that cotton was not planted in either 1935 or 1936 because of unusual weather conditions.

The cotton soil-depleting base and base yield for a farm will be determined upon the basis of the base established under the 1935 cotton acreage reduction program, or, if no such base was established, upon the basis of the acreage grown and yield obtained on the farm in the year 1936.

(b) *Tobacco Base and Yield.*—A tobacco soil-depleting base may be established for any farm on which tobacco was grown in either 1935 or 1936, and for other farms on which the County Committee determines that tobacco was not planted in 1935 or 1936 because of unusual weather conditions.

The tobacco soil-depleting base and base yield for a farm shall be determined upon the basis of the base established for the farm under the 1936–39 tobacco production adjustment program, or, if no such base was established, upon the basis of the acreage grown and yield obtained on the farm in the year 1936.

(c) *General Soil-Depleting Base and Rate Per Acre.*—A general soil-depleting base may be established for any farm if soil-depleting crops other than cotton or tobacco were produced thereon in the year 1935 or 1936, and for such other farms as the County Committee determines, in accordance with instructions, are eligible upon the basis of the past production on the farm or by the operator.

The general soil-depleting base for a farm shall be determined upon the basis of the acreage of general soil-depleting crops grown on the farm in 1936. The rate of payment per acre shall be determined upon the basis of the estimated yield per acre for the farm of the crop used under the 1936 program in determining the rate of payment per acre for other farms in the locality.

SECTION 3. *Adjustment in Soil-Depleting Bases* (a) *Inequitable Bases.*—The soil-depleting bases, the base yields, or the rate of payment per acre determined for each farm in accordance with the provisions of this Part III shall be adjusted upward or downward whenever necessary so as to be equitable for such farm as compared with farms in the same locality which are similar with respect to the past production of crops, size, type of soil, topography, production facilities, and farming practices.

(b) *Unused Bases.*—If the acreage of cotton or tobacco, or of crops in the general soil-depleting base planted on a farm in the years 1935 and 1936 has been substantially less than the acreage which could have been planted on the farm in such years with maximum payments with respect to such crops, under the 1935 programs of the Agricultural Adjustment Administration or under the 1936 Agricultural Conservation Program, and such deficiency was not caused by unusual weather conditions, the base shall be adjusted by the County Committee so as to reflect the plantings on the farm in 1935 and 1936 and so as to be equitable as compared with other farms in the locality which are similar with respect to past production of crops, size, type of soil, topography, production facilities, and farming practices.

(c) *Changes in Crop Classification.*—The acreage of small grains harvested for grain or hay, and the acreage of corn interplanted with legumes, classified as soil-conserving in establishing the general soil-depleting base for 1936 for any farm shall be added to such 1936 base in determining the general soil-depleting base for 1937.

(d) *Rate of Payment per Acre.*—The rate of payment for diversion from the general soil-depleting base for each farm for which such a rate was established in 1936 shall be adjusted so as to conform to the adjustment in the average rate of such payment for the United States and shall in each case reflect the relative productivity of cropland used for the production of crops in the general soil-depleting base.

SECTION 4. *Limits of Soil-Depleting Bases.*—The general soil-depleting bases, the cotton soil-depleting bases, and the tobacco soil-depleting bases, respectively, established for all farms participating in the 1937 Agricultural Conservation Program in White County, shall not exceed the acreage for each soil-depleting base which is established for such farms in the county by the Agricultural Adjustment Administration.

The total of the cotton or tobacco soil-depleting bases, respectively, established in 1937 for farms on which such bases were not established in 1936, or on which no cotton or tobacco base acreage was established under a commodity adjustment program in 1935, shall not exceed such acreage in the county as shall be obtained by downward adjustment of the respective soil-depleting bases or base acreages, previously established for other farms in the county, except as approved by the Agricultural Adjustment Administration.

The weighted average of the rate per acre for diversion from the general soil-depleting base and the weighted average base yield of cotton and tobacco for all farms for which soil-depleting bases are established in White County shall not exceed the respective rate per acre or base yield established for such crop(s) for the county by the Agricultural Adjustment Administration.

SECTION 5. *Soil-Conserving Base.*—The soil-conserving base for a farm will be determined upon the basis of the 1936 acreage of soil-conserving crops on the farm, with such adjustment as is necessary to correct abnormally small or large acreages caused by unusual weather conditions or any increase in the acreage of such crops under the 1936 Agricultural Conservation Program. Such acreage shall, if necessary, be further adjusted for each farm so as to represent an acreage of soil-conserving crops which is fair and equitable for the farm as compared with other farms in the locality which are similar with respect to the past production of crops, size, and farming practices, and shall in no event be less than the total acreage of cropland minus the sum of the soil-depleting bases and the normal acreage of neutral cropland on the farm.

The total of the soil-conserving bases for farms in White County shall not be greater than the maximum or less than the minimum acreage established for such bases in the county by the Agricultural Adjustment Administration.

*Part IV. Miscellaneous Provisions*

SECTION 1. *Land to be Included Under Application.*—An application may be submitted with respect to any farm or with respect to any two or more farms operated by the same person.

SECTION 2. *Application and Eligibility for Payment.*—(a) Payment will be made only upon application submitted through the county office. The Secretary reserves the right to withhold payment to any person who fails to file any form or furnish any information required with respect to any farm in which he is interested as owner or operator and to refuse to accept any application for payment if such application or any other form or information required is not submitted to the county office within the time fixed by the Director of the East Central Division.

(b) An application for payment may be made by any person who as owner, share-tenant or sharecropper is entitled to receive a share or all of the crops produced on the farm in 1937 or the proceeds therefrom or who rents the land to a producer for cash or for a fixed commodity payment and who incurs any part or all of the expense of carrying out a soil-building practice on the farm.

(c) In the event of the death or legal incompetency of an applicant for payment, any payment which has not been received by such applicant prior to his death or incompetency and which would otherwise be made to such applicant, shall be made to the person who, under rules prescribed by the Secretary, is determined to be eligible to receive such payment.

(d) A farm shall be regarded as being in White County if the principal dwelling on such farm is located in such county, or, if there is no dwelling on such farm, if the major portion of the farm is located in such county.

(e) Any person who files an application for payment in White County shall file an application with respect to each farm owned or operated by such person in the county. Upon request by the State Committee such person shall also file an application with respect to any farm owned or operated by him in any other county.

SECTION 3. *Membership in Association.*—Any person having an interest in the crops produced on any farm in White County, or the proceeds thereof, who is not a member of the White County Agricultural Conservation Association shall become a member of such association whenever any form or information required in connection with the 1937 Agricultural Conservation Program is submitted for such farm. Any person shall cease to be a member of the association if an application for payment is not filed by him within the time specified by the Director of the East Central Division for the filing of applications.

SECTION 4. *Division of Payments.*—Payments with respect to any farm included under an application shall be divided as follows:

(a) *Diversion Payment With Respect to Cotton, Tobacco, and General Soil-Depleting Crops.*—

(1) 15 percent to the producer who furnished the land,
(2) 15 percent to the producer who furnished the workstock and equipment, and
(3) 70 percent to be divided among the producers who are parties to the lease or operating agreement in the proportion that such producers are entitled to share in the cotton, tobacco or in the general soil-depleting crops, respectively, grown on the farm in 1937, or the proceeds thereof.

(b) *Payment With Respect to Soil-Building Practices.*—The soil-building payment with respect to the acreage on which any approved soil-building practice is carried out on any farm shall be made to the producer, or the person who rents the land to the producer for cash or for a fixed commodity payment, who the County Committee determines, under instructions issued by the Agricultural Adjustment Administration, has incurred the expense of carrying out such soil-building practice; if the County Committee determines that two or more such persons have incurred the expense of carrying out such practice on the farm, the soil-building payment calculated for the particular acreage with respect to which such persons shared in such expense shall be divided equally among them.

(c) *Computation of Shares of Payments.*—Any share of payments shall be computed without regard to questions of title under State law, without deduction of claims for advances, and without regard to any claim or lien against the crop or proceeds thereof in favor of any creditor.

(d) *Division of Diversion Payment Under Specified Conditions on Farms Where There Are Two or More Producers.*—

(1) If the 1937 acreage of the crop(s) in any soil-depleting base is zero, or, because of partial crop failure is substantially smaller than the acreage which, but for such failure, would have been grown in 1937, the portion of the diversion payment with respect to the crop which is to be divided on the basis of the shares in the crop shall be divided among the producers who remain entitled to share in any crop actually grown on the farm in 1937 in proportion to the share of each such producer in the crop as it was intended to be grown.

(2) In cases where the County Committee finds that the share of one or more producers in the acreage diverted in 1937 from any soil-depleting base differs materially from the share of such producer(s) in the 1937 acreage of the crops in such base, that portion of the diversion payment with respect to such base to be divided on the basis of the shares in the crop, shall be divided on the basis of the shares in the acreage diverted by such producers. The acreage diverted by each producer may be determined by agreement of all producers on the farm by appearing before at least two members of the County Committee and indicating their agreement. In any such case there shall be submitted to the State Office at the time of submission of the application for the farm, a certification signed by each producer in the presence of and approved by at least two members of the County Committee that the agreement has been reached voluntarily in accordance with the foregoing provisions. Where agreement of all producers is not obtained, the County Committee may recommend, subject to the approval of the State Committee and the Director of the East Central Division, their determination of the acreage diverted by each producer, such recommendation to be accompanied by a complete statement of all of the facts upon which the recommendation is based.

SECTION 5. *Changes in Leasing or Cropping Agreement and Other Devices.*—If it shall appear from an investigation made by the State Committee that any person who has made an application for a payment pursuant to the provisions of the 1936 or the 1937 Agricultural Conservation Program has made any change in the normal leasing or cropping agreement for the farm or has employed or participated in any other scheme or device whatsoever the effect of which would be or has been to deprive any other person of any payment or share therein to which such other person would normally be entitled, the Secretary may withhold from the person participating in or employing such a scheme or device, or require such person to refund, in whole or in part the amount of any payment which had been or would otherwise be made to such person for performance in connection with the 1937 Agricultural Conservation Program.

SECTION 6. *Multiple Farm Holdings.*—If a person who has made application for a payment with respect to a farm or farms in White County has an interest as owner or operator in another farm or farms in the county on which the acreage used for the production of crops included in any soil-depleting base exceeds such base and such other farm or farms have not been included in an application under which a payment can be made, the payment to be made to such person shall be decreased by an amount equal to such person's share of the net deductions with respect to such other farm or farms.

The provisions of this section may be extended to include farms in two or more counties in the State in which any person as owner or operator is entitled to receive a share of the crops produced thereon, or the proceeds thereof, if the acreage used for the production of any soil-depleting crop(s) on any such farm has been increased to such an extent as to tend to defeat the purposes of the 1937 Agricultural Conservation Program.

*Part V. Definitions*

As used herein and in all forms and documents relating to the 1937 Agricultural Conservation Program in the East Central Region, the following terms shall have the following meanings:

*Secretary* means the Secretary of Agriculture of the United States.

*East Central Region* means the area included in the States of Delaware, Maryland, Virginia, West Virginia, North Carolina, Kentucky, and Tennessee.

*White County* means the area included in White County, Tennessee.

*East Central Division* means the division in the Agricultural Adjustment Administration in charge of the 1937 Agricultural Conservation Program in the East Central Region.

*State Committee, State Agricultural Conservation Committee,* or *State Office* means the group of persons designated for Tennessee to assist in the administration of the 1937 Agricultural Conservation Program in the State.

*County Committee, County Agricultural Conservation Committee, or County Office,* means the group of persons designated for White County to assist in the administration of the 1937 Agricultural Conservation Program in the county.

*Person* means an individual, partnership, association, corporation, estate, or trust, and, wherever applicable, a State, a political subdivision of a State, or any agency thereof, or any other government agency that may be designated by the Secretary.

*Operator* means any person who as owner or sharetenant actively supervises and directs the farming activities throughout the 1937 farming season.

*Owner* means a person who owns land which is not rented to another for cash or for a fixed commodity payment; and shall include a person who rents land from another for cash or for a fixed commodity payment or who is purchasing land for cash or fixed commodity payments.

*Sharecropper* means a person who works a farm in whole or in part under general supervision of the operator and is entitled to receive for his labor a proportionate share of the crops produced on such farm or of the proceeds thereof.

*Share-tenant* means a person, other than an owner or sharecropper, who is working a part or the whole of a farm and is entitled to receive a portion of the crops produced thereon or the proceeds thereof.

*Producer* means an owner, a share-tenant, or sharecropper, who, under the terms of his lease or operating agreement, is entitled to share in the crops grown on the farm in 1937 or the proceeds thereof.

*Cropland* means all farm land which is tillable and on which at least one crop other than wild hay was harvested or planted for harvest between January 1, 1930, and January 1, 1937, and any other farm land devoted on January 1, 1937, to orchards or vineyards other than those abandoned.

*Cotton soil-depleting base* means the number of acres established for the farm as the acreage normally used for the production of cotton.

*Tobacco soil-depleting base* means the number of acres established for the farm as the acreage normally used for the production of tobacco.

*General soil-depleting base* means the number of acres established for the farm as the acreage normally used for the production of all soil-depleting crops other than cotton and tobacco.

*Soil-conserving base* means the number of acres established for the farm as the acreage of soil-conserving crops normally grown on the farm.

*Minimum acreage of soil-conserving crops* means the soil-conserving base for the farm plus the number of acres diverted from soil-depleting bases in 1937 for which payment can be made.

*Diversion payment* means a payment for the diversion of acreage from any soil-depleting base.

*Soil-building payment* means a payment for the carrying out of any approved soil-building practice.

*General farm allowance* means the largest amount for any farm that may be obtained as a payment for carrying out soil-building practices and for diversion from the general soil-depleting base.

*Farm* means all land which is farmed by an operator in 1937 as a single unit with work stock, farm machinery, and labor substantially separate from that for any other land; provided, that any such unit shall not be considered a farm unless the County Committee finds, from a consideration of such factors as size of unit, amount of labor applied, nature of farming operations, and practices carried out, that the participation of such unit in the 1937 Agricultural Conservation Program would tend to promote the economic use and conservation of the land and preserve and improve its fertility for agricultural purposes.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 18th day of March, 1937.

1936 AGRICULTURAL CONSERVATION PROGRAM

INSULAR REGION

*Supplement C to Bulletin No. 1*

FIELD EXPERIMENTS WITH RESPECT TO PINEAPPLES UNDER PRACTICE 7 (B)

Pursuant to authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, section 7 (b) of Part IV of Bulletin No. 1, 1936 Agricultural Conservation Program, Insular Region is hereby amended by adding thereto the following:

Such plots in the case of experiments with respect to the production of pineapples may be one-eightieth of an acre or more.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the city of Washington, District of Columbia, this 18th day of March, 1937.

1937 AGRICULTURAL CONSERVATION PROGRAM—NORTHEAST REGION

BULLETIN NO. 101—RHODE ISLAND—SUPPLEMENT (2)

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, Bulletin No. 101—Rhode Island, as amended by Supplement (1), is hereby amended as follows:

I

The figure representing the "Smallest amount" with reference to the application of 50 percent muriate of potash, in the schedule under the heading "Fertilizing Soil-Conserving Crops", is changed from 100 to 50. This reference will now read:

| | *50 percent Muriate of Potash* | |
|---|---|---|
| On hay land, pasture, new seedings of grasses or legumes, green-manure crops, or in orchards provided the entire interplanted crop in the orchard is left on the land | 50 | 200 |

II

The following paragraph is added at the end of subsection (a) of section 4, "Division of Payments", under Part IV:

In the case of a farm which is rented for cash or for a fixed commodity payment, the owner shall be considered a producer and shall be eligible to share in the soil-building payment as provided in the preceding paragraph, provided a request for such a division of payment between owner and tenant(s) is filed with the County Committee on the prescribed form and such form is signed by the tenant(s) and the owner.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 18th day of March, 1937.

1937 NAVAL STORES CONSERVATION PROGRAM

Bulletin No. 1, setting forth the terms and conditions of the 1937 Naval Stores Conservation Program, approved by the Secretary of Agriculture on December 28, 1936, and amended by Supplement No. 1 to Bulletin No. 1, by action of the Secretary of Agriculture on January 12, 1937, is hereby further amended, as follows:

I. Following paragraph (2) (c) under "Rates of Payment", add the following:

(d) In order to qualify for the payment of four cents per face for the removal from operation of trees less than nine inches d. b. h., participating producers will not be required to operate the remaining faces in a drift, crop or place if it is not economical to do so; *provided* that the Forest Service may require, within a specified time limit, that all cups be removed from such remaining faces on trees nine inches d. b. h. or larger and that such cups be kept removed until after the final inspection in the Fall of 1937.

II. Under the heading "Application and eligibility for payment" and sub-heading "(a) Filing of work sheet and application" the last sentence is changed to read:

An application for payment may be made by (1) any producer who is actively engaged in the production of gum naval stores in the period from February 1, 1937 to November 15, 1937, or by any person who was so engaged during 1936, on land owned, leased or otherwise controlled by him; or (2) such other persons as may be designated by the Secretary.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official

seal of the Department of Agriculture to be affixed in the city of Washington, District of Columbia, this 18th day of March, 1937.

ORDER AMENDING THE OFFICIAL GRAIN STANDARDS OF THE UNITED STATES FOR BARLEY

By virtue of the authority vested in the Secretary of Agriculture by the United States Grain Standards Act, approved August 11, 1916 (U. S. Code, Title 7, Ch. 3, Sec. 74), I, M. L. Wilson, Acting Secretary of Agriculture, do hereby fix, establish, promulgate, and give public notice of, the following amendments, which shall become effective on the first day of July 1937, to the official grain standards of the United States for barley as heretofore promulgated by the Secretary of Agriculture.

Strike out the entire section entitled "Dockage" and insert in lieu thereof the following:

DOCKAGE

Dockage includes weed seeds, weed stems, chaff, straw, grain other than barley, sand, dirt, and any material other than barley, which can be removed readily from the barley by the use of a metal scalper riddle sieve with slotted perforations 9/64 inch wide by ¾ inch long and by the use of a 20-gage metal sieve with equilateral triangular perforations the inscribed circles of which are 5/64 inch in diameters; also undeveloped, shriveled, and small pieces of barley kernels removed in properly sparating the foreign material and which cannot be recovered by properly rescreening or recleaning with the sieve having equilateral triangular perforations the inscribed circles of which are 5/64 inch in diameter.

The quantity of dockage shall be calculated in terms of percentage based on the total weight of the grain including the dockage. The percentage of dockage, so calculated, when equal to 1 percent or more, shall be stated in terms of whole percent, and when less than 1 percent shall not be stated. A fraction of a percent shall be disregarded. The word "Dockage", together with the percentage thereof, shall be added to the grade designation.

In the section entitled "Definitions" strike out the paragraph "Basis of Grade Determinations" and insert in lieu thereof the following:

*Basis of Grade Determinations.*—Each determination of dockage, temperature, odor, garlic, and live weevils or other insects injurious to stored grain shall be upon the basis of the grain as a whole. Each determination of heat damaged kernels and of mellow barley kernels shall be upon the basis of the pearled dockage-free grain. All other determinations shall be upon the basis of the grain when free from dockage.

Immediately following the paragraph entitled "Sound Barley", insert a new paragraph to read as follows:

*Damaged Barley.*—Damaged barley shall be kernels and pieces of kernels of barley which are damaged or materially discolored by blight and/or mold, or which are heat damaged, sprouted frosted, badly ground damaged, badly weather damaged, or otherwise materially damaged.

In testimony whereof I have hereunto set my hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington this 17th day of March 1937.

ORDER AMENDING THE OFFICIAL GRAIN STANDARDS OF THE UNITED STATES FOR OATS

By virtue of the authority vested in the Secretary of Agriculture by the United States Grain Standards Act, approved August 11, 1916 (U. S. Code, Title 7, Ch. 3, Sec. 74), I, M. L. Wilson, Acting Secretary of Agriculture, do hereby fix, establish, promulgate, and give public notice of, the following amendment, which shall become effective on the first day of July 1937, to the official grain standards of the United States for oats as heretofore promulgated by the Secretary of Agriculture.

Strike out the word "cereal" wherever it appears in the section entitled "Cereal Oats" and insert in lieu thereof the word "Thin".

In testimony whereof I have hereunto set my hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington this 17th day of March 1937.

ORDER AMENDING THE OFFICIAL GRAIN STANDARDS OF THE UNITED STATES FOR WHEAT

By virtue of the autority vested in the Secretary of Agriculture by the United States Grain Standards Act, approved August 11, 1916 (U. S. Code, Title 7, Ch. 3, Sec. 74), I, M. L. Wilson, Acting Secretary of Agriculture, do hereby fix, establish, promulgate, and give public notice of, the following amendments, which shall become effective on the first day of October 1937, to the official grain standards of the United States for wheat as heretofore promulgated by the Secretary of Agriculture.

In the table of grade requirements for Class I, Hard Red Spring Wheat, strike out the footnote reference [a] at grade No. 4 and the footnote [a].

In the table of grade requirements for Class I, Hard Red Spring Wheat, add a footnote reference [2] at grades No. 1 Heavy, No. 1, and No. 2 and add the following footnote to the table:

[2] The wheat in grades No. 1 Heavy and No. 1 of this class may contain not more than 7 percent, and the wheat in grade No. 2 of this class may contain not more than 10 percent, of shrunken and/or broken kernels of grain and other matter that will pass through a 20-gage metal sieve with slotted perforations 0.064 inch wide by ⅜ inch long.

In the table of grade requirements for Class II, Durum Wheat and Class III, Red Durum Wheat, strike out the footnote reference [a] at grade No. 4 and the footnote [a].

In the table of grade requirements for Class II, Durum Wheat and Class III, Red Durum Wheat, add a footnote reference [3] at grades No. 1, No. 2, and No. 3 and add the following footnote to the table:

[3] The wheat in grades No. 1 and No. 2 of each of these classes may contain not more than either (a) 7 percent of shrunken and/or broken kernels of grain and other matter that will pass through a 20-gage metal sieve with slotted perforations 0.064 inch wide by ⅜ inch long, or (b) 10 percent of all such material that will pass through said sieve together with the broken kernels of grain of any size which remain on said sieve; and the wheat in grade No. 3 of each of these classes may contain not more than either (a) 10 percent of shrunken and/or broken kernels of grain and other matter that will pass through said sieve, or (b) 15 percent of all such material that will pass through said sieve together with the broken kernels of grain of any size which remain on said sieve.

In each of the tables of grade requirements for Class IV, Hard Red Winter Wheat; Class V, Soft Red Winter Wheat; and Class VI, White Wheat; strike out the footnote reference [a] at grade No. 4 and the footnote [a].

In each of the tables of grade requirements for Class IV, Hard Red Winter Wheat; Class V, Soft Red Winter Wheat; and Class VI, White Wheat; add a footnote reference (1) at grades No. 1, No. 2, and No. 3 and add the following footnote to each of the tables:

[1] The wheat in grades No. 1 and No. 2 of this class may contain not more than 7 percent, and the wheat in grade No. 3 of this class may contain not more than 10 percent, of shrunken and/or broken kernels of grain and other matter that will pass through a 20-gage metal sieve with slotted perforations 0.064 inch wide by ⅜ inch long.

In testimony whereof I have hereunto set my hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington this 17th day of March 1937.

EMERGENCY RULES AND REGULATIONS TO GOVERN THE NAVIGATION THROUGH THE REACH OF THE ATCHAFALAYA RIVER IN THE VICINITY OF THE SOUTHERN PACIFIC RAILROAD BRIDGE AT MORGAN CITY, LOUISIANA

THE LAW

Section 7 of the River and Harbor Act of August 8, 1917, provides as follows:

That section four of the river and harbor Act of August eighteenth, eighteen hundred and ninety-four, as amended by section eleven of the river and harbor Act of June thirteenth, nineteen hundred and two, be, and is hereby, amended so as to read as follows:

"SEC. 4. That it shall be the duty of the Secretary of War to prescribe such regulations for the use, administration, and navigation of the navigable waters of the United States as in his judgment the public necessity may require for the protection of life and property, or of operations of the United States in channel improvement, covering all matters not specifically delegated by law to some other executive department. Such regulations shall be posted, in conspicuous and appropriate places, for the information of the public; and every person and every corporation which shall violate such regulations shall be deemed guilty of a misdemeanor and, on conviction thereof in any district court of the United States within whose territorial jurisdiction such offense may have been committed, shall be published by a fine not exceeding $500, or by imprisonment (in the case of a natural person) not exceeding six months, in the discretion of the court."

THE REGULATIONS

In pursuance of the law quoted above the following emergency regulations are prescribed to govern the use, administration, and navigation through the reach of the Atchafalaya River in the vicinity of the Southern Railroad Bridge at Morgan City, Louisiana, during periods of high water:

1. Whenever gauge heights in the Atchafalaya River at Morgan City, Louisiana, exceed three feet Mean Low Gulf, tows moving downstream through the railroad bridge at Morgan City, Louisiana, shall not exceed one barge and tug. In passing the bridge the tows shall be drifted through the draw at a speed not to exceed five miles per hour with a tug in the rear.

2. All tows shall be adequately powered, properly assembled and equipped with necessary devices and crew to assure safe handling.

3. These regulations shall take effect and be in force on and after the date of approval hereof and may be revoked upon thirty days notice by the Secretary of War whenever in his judgment the interests of navigation so warrant.

Approved, March 2, 1937.

ANCHORAGE, ALASKA, *February 24, 1937.*

*To All Concerned:*

During the 1937 season one river steamer, the Steamer *Nenana* will be operated between Nenana, Holy Cross, Marshall and intermediate points as follows:

Leave Nenana at 7:00 p. m. for Marshall on Sunday, May 16, June 6, 20, July 4, 18, August 1, 15, 29, September 12.

Returning from Marshall steamer will leave that point for Nenana as soon as freight and passengers are discharged but not earlier than 6:00 a. m. May 25, June 11, 25, July 9, 23, August 6, 20, September 3, 17. Departure from Holy Cross will be not earlier than 6:00 p. m. on date shown following departure from Marshall.

A barge will be handled by steamer leaving Nenana on sailings May 16th, June 6, July 4, August 1, 29, Sept. 12. No barge will be handled by steamer sailing from Nenana on June 20, July 18, August 15, unless there is on hand at Nenana sufficient tonnage, in excess of carrying capacity of the steamer itself, to warrant the handling of a barge.

Inflammable liquids and explosives, which includes gasoline, fuel oil distillate, kerosene, are prohibited for transportation on the steamer itself and must be transported or loaded on a barge towed by the steamer. Therefore shippers of these commodities should arrange their orders so that shipments will connect at Nenana with steamer handling barge, on dates indicated above.

Connections are made at Holy Cross with steamer of Ira Wood and Day Navigation Company for points on the Innoko River and Iditarod.

Connections are made at Marshall, with each sailing, with launches of Northern Commercial Company for Saint Michael and Nome.

Train connections with Steamer *Nenana* at Nenana, for Marshall are made with Train No. 12 from Seward, also motor car leaving Fairbanks Sunday at 4:00 p. m. for Nenana. Steamer *Nenana* arriving Nenana connects with train No. 11 for Seward and motor car for Fairbanks.

Local Passenger Tariff No. 6-A and Local Freight Tariff No. 6-A name passenger and freight rates between all points Nenana to Marshall.

This circular cancels Freight Circular No. 69-F, Passenger Circular No. 127-F of February 21, 1936.

NER—B-101—Maine—Supplement (2) Issued March 18, 1937

1937 AGRICULTURAL CONSERVATION PROGRAM—NORTHEAST REGION

BULLETIN NO. 101—MAINE—SUPPLEMENT (2)

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, Bulletin No. 101—Maine, as amended by Supplement (1), is hereby amended as follows:

I

In the schedule under the heading "Fertilizing Conserving Crops", the figure representing the "Smallest amount" of potash, with or without manure, for which payment will be made when applied as top-dressing on hay land, pasture or orchard sods, is changed from 50 to 35. The line affected by this change will read:

| | | |
|---|---|---|
| Potash with or without manure | 35 | 80 |

II

The following paragraph is added at the end of subsection (a), section 4, of Part VII:

In the case of a farm which is rented for cash or for a fixed commodity payment, the owner shall be considered a producer and shall be eligible to share in the soil-building payment as provided in the preceding paragraph, provided a request for such a division of payment between owner and tenant(s) is filed with the County Committee on the prescribed form and such form is signed by the tenant(s) and the owner.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 18th day of March, 1937.

1937 AGRICULTURAL CONSERVATION PROGRAM—NORTHEAST REGION

BULLETIN NO. 101—PENNSYLVANIA—SUPPLEMENT (3)

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, Bulletin No. 101—Pennsylvania, as amended by Supplements (1) and (2) thereto, is hereby amended as follows:

I

The definition of "Soil-conserving base" included in Part IX, "Definitions", is amended to read as follows:

*Soil-conserving base* means the acreage represented by the difference between (1) the sum of the total crop land (excluding commercial orchards and idle crop land) and the 1936 acreage of soil-conserving crops as described in Part VI, section 3 (legumes or perennial grasses following a soil-depleting crop in 1936, or green-manure crops plowed under in 1936 following commercial vegetables), and (2) the sum of the 1937 tobacco soil-depleting base (if any) and the 1937 general soil-depleting base which is or could be established for the farm.

The following paragraph is added at the end of subsection (a), section 4 of Part VIII:

In the case of a farm which is rented for cash or for a fixed commodity payment, the owner shall be considered a producer and shall be eligible to share in the soil-building payment as provided in the preceding paragraph, provided a request for such a division of payment between owner and tenant(s) is filed with the County Committee on the prescribed form and such form is signed by the tenant(s) and the owner.

III

The definition of "Tobacco soil-depleting base" included in Part IX, "Definitions", is amended to read as follows:

*Tobacco soil-depleting base* means the number of acres established for the farm as the acreage normally used for the production of tobacco.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 18th day of March, 1937.

SR—B-101—Kemper County, Mississippi

1937 AGRICULTURAL CONSERVATION PROGRAM—SOUTHERN REGION

BULLETIN 101—KEMPER COUNTY, MISSISSIPPI

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil-Conservation and Domestic Allotment Act, as amended, payments will be made, in connection with the effectuation of the purposes of section 7 (a) of said Act for 1937, in accordance with provisions of this Southern Region Bulletin 101—Kemper County, Mississippi, and such modifications or other provisions as may hereafter be made.

The 1937 Agricultural Conservation Program has been developed in accordance with the provisions of sections 8, 15, and 16 of the Soil Conservation and Domestic Allotment Act,

but the payment of any benefits pursuant to the provisions of this bulletin is contingent upon such appropriation, if any, as the Congress of the United States may hereafter make for such purpose, and the amounts of such payments will be finally determined by such appropriation and the extent of participation in the program. The rates of payment and the soil-building allowance herein set forth are computed upon the basis of an appropriation of $500,000,000 for the 1937 program and 85 percent participation by farmers in all regions. Such rates of payment, deductions, and the soil-building allowance may be increased or decreased, depending upon the extent of participation, but such variations will not be in excess of 10 percent.

*Part I. Definitions*

As used herein and in all forms and documents relating to the 1937 Agricultural Conservation Program (hereinafter referred to as the 1937 program) in Kemper County, the term—

*Secretary* means the Secretary of Agriculture of the United States.

*Southern region* means the area included in the States of Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, Oklahoma, South Carolina, and Texas.

*Southern division* means the division of the Agricultural Adjustment Administration in charge of the 1937 program in the Southern Region.

*State agricultural conservation committee*, hereinafter referred to as State Committee, means the group of persons designated to assist the Secretary in the administration of the 1937 program in the State of Mississippi.

*Kemper County* means the area in the State of Mississippi embraced in the county of Kemper. Kemper County is one of several areas in the Southern Region designated to operate under "Special Programs" as provided for in section 66 of Southern Region Bulletin 101.

*County agricultural conservation association*, hereinafter referred to as county association, means the association of producers in Kemper County authorized by the Secretary to assist in the administration of the 1937 program in that county.

*County agricultural conservation committee*, hereinafter referred to as County Committee, means the group of persons designated to assist the Secretary in the administration of the 1937 program in Kemper County.

*Community agricultural conservation committee*, hereinafter referred to as Community Committee, means the group of persons designated for a community within Kemper County to assist the Secretary in the administration of the 1937 program in such community.

*Person* means an individual, firm, partnership, association, corporation, estate, or trust, and, wherever applicable, a State, a political subdivision of a State, or any agency thereof, or any other governmental agency that may be designated by the Secretary.

*Owner* means a person who (1) owns land which is not rented to another for cash or a fixed commodity payment, or (2) rents land from another for cash or a fixed commodity payment, or (3) is purchasing land on installments of cash or one or more commodities.

*Operator* means a person who as owner is operating a farm and is entitled to receive all or a portion of the crops produced thereon or of the proceeds of such crops, or who as share-tenant is operating a whole farm and is entitled under a written or oral lease or agreement to receive a portion of the crops produced thereon or of the proceeds of such crops.

*Share-tenant* means a person other than an owner or share-cropper who is working a farm in whole or in part and is entitled under a written or oral lease or agreement to receive a portion of the crops produced thereon or of the proceeds of such crops.

*Share-cropper* means a person who works a producer unit under the supervision of an operator and is entitled under a written or oral agreement or State law to receive for his labor a share of any or all of the crops produced thereon or of the proceeds of such crops.

*Producer* means an owner, share-tenant, or share-cropper.

*Farm* means *all* land which in 1937 is operated by a person with labor, workstock, and farm machinery substantially separate from that for any other land except that the parts of such land having separate owners shall be considered as separate farms.

*Producer unit* means any tract of land (whether a whole farm or a subdivision thereof) on which in 1937 one or more crops are planted or grown and which is farmed by (1) an owner with his own or his family's labor or with hired labor other than one or more share-croppers, or (2) a share-tenant with his own or his family's labor or with hired labor other than one or more share-croppers, or (3) a share-cropper.

*Cropland* means all farm land which is tillable and on which at least one crop of any kind other than wild hay was harvested or planted for harvest at some time between January 1, 1930, and January 1, 1937, and all other farm land devoted on January 1, 1937, to bearing or non-bearing orchards or vineyards other than those abandoned.

*Total soil-depleting base* means the acreage established for the farm as that normally used thereon for the production of all soil-depleting crops.

*Cotton soil-depleting base*, hereinafter referred to as cotton base, means the acreage established for the farm as that normally used thereon for the production of cotton.

*General soil-depleting base*, hereinafter referred to as general base, means the acreage established for the farm as that normally used thereon for the production of all soil-depleting crops except cotton.

*Class I payment* means the payment for diversion of acreage from any soil-depleting base.

*Class II payment* means the payment for carrying out any soil-building practice approved by the Secretary.

*Soil-building allowance* for any farm means the largest amount of money that will be paid as a class II payment for the farm.

*Part II. Soil-Building Allowance*

SECTION 1. *Soil-Building Allowance for Farms Which May Earn a Class I Payment.*—On any farm for which a cotton base is or can be established or on which the general base exceeds the home consumption needs for the farm, the soil-building allowance will be the sum of the following items or $10.00, whichever is the greater:

(a) $0.75 for each acre of soil-conserving crops grown on cropland in 1937; and

(b) $2.00 for each acre of land terraced in 1937 in accordance with approved terracing practices for the land.

SEC. 2. *Soil-Building Allowance for Farms Which May Not Earn a Class I Payment.*—On any farm for which no cotton base can be established and on which the acreage of food and feed crops for home consumption needs is as great or greater than the general base which is or can be established for the farm, the soil-building allowance will be the sum of the following items or $20.00, whichever is the greater:

(a) $0.50 for each acre of cropland or $0.75 for each acre of soil-conserving crops, grown on cropland in 1937, whichever is the greater; and

(b) $2.00 for each acre of land terraced in 1937 in accordance with approved terracing practices for the land.

SEC. 3. *County Limit for Soil-Building Allowances.*—If the total soil-building allowance established for participating farms in Kemper County in 1937 is in excess of the total soil-building allowance which could have been established for all farms in Kemper County under the provisions outlined in SR–B–101, part II, as estimated by the Agricultural Adjustment Administration, the Secretary reserves the right to decrease the allowance pro rata to the extent of such excess.

*Part III. Rates and Conditions of Payment*

Payments will be made in connection with the utilization in 1937 of the land on any farm in Kemper County, Mississippi, at the rates and subject to the conditions set forth herein, provided that no payment will be made for any change in the use of such land which involves the destruction in 1937 of any food, fiber, or feed grain.

SECTION 11. *Cotton.*—(a) A class I payment will be made for each acre diverted from the cotton base on any farm in 1937 at the rate of 5 cents for each pound of the normal per acre cotton yield as adjusted for the farm on an acreage not to exceed 35 percent of such base, except that if such base is 5.7 acres or less payment may be made for diverting all or any part of such base not to exceed two acres.

(b) But if the acreage of cotton on any farm in 1937 exceeds the cotton base for such farm a deduction will be made in an amount equal to the result obtained by multiplying the number of such excess acres by the rate per acre determined for the farm under subsection (a) of this section 11.

SEC. 12. *General Soil-Depleting Base.*—(a) A class I payment will be made for each acre diverted from the general base on any farm in 1937, subject to the following provisions:

(1) Such payment will be made for diverting such part of such base as is in excess of the home consumption needs for the farm but in no case will such payment be made on an acreage in excess of 15 percent of such base.

(2) The rate of such payment per acre shall be $9.00 on the average for the United States, varying among States, counties, and individual farms as the productivity of the cropland used for the production of the crops in such base varies from the average productivity of all such cropland in the United States.

(b) If the 1937 acreage of crops in the general base for any farm exceeds such base or the acreage of such crops needed to meet home consumption needs for the farm, whichever is the greater, a deduction will be made in an amount equal to the result obtained by multiplying the number of such excess acres by the rate per acre established for the farm pursuant to subsection (a) of this section 12.

SEC. 13. *Soil-Building Practices.*—A class II payment will be made for carrying out any one or more of the following soil-building practices in 1937 at the rates and upon the conditions listed in this section 13, *provided* (1) in no event will the total of the class II payments respecting any farm exceed the soil-building allowance for the farm; (2) none of the labor, seeds, or materials for such practice is furnished or paid for by any Federal or State agency; and (3) the practice is carried out by such methods and with such kinds and quantities of adapted seed, trees, and other materials as conform to good farming practice.

*Practice Number—Practices and Conditions—Rate of Payment*

1. Lespedeza, Austrian winter peas, vetch, or other locally adapted winter legume, or legume mixture[1] seeded on cropland in 1937: $1.50.

2. Soybeans, velvet beans, cowpeas, crotalaria, beggar weed, lespedeza, or other locally adapted summer legumes, grown on cropland in 1937 and vines or stalks left on land or turned under: $1.00.

3. Crimson or bur clover, Austrian winter peas, vetch, or other locally adapted winter legume plowed under in 1937, provided a reasonably good growth is attained: $1.00.

4. Establishment of permanent pasture of perennial grasses or any pasture grass and legume mixture, on cropland or non-crop open pasture land in 1937: $3.00.

5. Forest trees, including post-producing species planted on cropland in 1937: $5.00.

6. Ground limestone or its equivalent[2] applied on soil-conserving crops or pastures in 1937, but payment will not be made on an amount in excess of 4,000 pounds per acre, or less than 500 pounds per acre if applied in rows or less than 1,000 pounds per acre if applied broadcast (per 100 pounds): $0.07.

7. Sixteen percent superphosphate or its equivalent[3] applied in 1937 on soil-conserving crops or pastures (excluding soybeans, cowpeas, velvet beans, and peanuts) but payment will not be made on an amount less than 100 pounds or in excess of 400 pounds per acre (per 100 pounds): $0.50.

8. Basic slag applied in 1937 on soil-conserving crops or pastures (excluding soybeans, cowpeas, velvet beans, and peanuts), but payment will not be made on an amount less than 100 pounds or in excess of 600 pounds per acre (per 100 pounds): $0.35.

9. Terracing land in 1937 in accordance with approved terracing practices for the land (per 100 feet): $0.40.

SEC. 14. *Minimum Acreage of Soil-Conserving Crops.*—If the sum of the acreage of soil-conserving crops on cropland and the acreage terraced in 1937 in accordance with approved terracing practices for the land on any farm does not equal or exceed the sum of the acres diverted for payment, a deduction will be made in an amount obtained by multiplying the rate per acre determined for the farm under subsection (a) of section 11 by the number of acres by which the total acres of soil-conserving crops (including terraced acres) on the farm in 1937 is less than such sum.

SEC. 15. *Division of Payments.*—Class I and class II payments made with respect to any farm shall be divided as follows:

(a) *Class I Payment.*—The class I payment except as indicated in the remaining subsections of this section 15 shall be divided—

(1) Thirty-seven and one-half (37½) percent to the producer who furnishes the land;

(2) Twelve and one-half (12½) percent to the producer who furnishes the workstock and equipment; and

(3) Fifty (50) percent to be divided among the producers who are parties to the lease or operating agreement in the proportion that such producers are entitled to share in 1937 in those soil-depleting crops, or the proceeds of such crops, in connection with which the class I payment is made.

(b) *Class II Payment.*—The class II payment with respect to the acreage on which any approved soil-building practice is carried out on any farm shall be made to the eligible producer who the County Committee determines under instructions issued by the Secretary has incurred the expense in 1937 of carrying out such soil-building practice; if the County Committee determines that two or more producers have shared in the expense incurred in carrying out such practice on the farm, the class II payment calculated for the particular acreage with respect to which such producers shared in such expense shall be divided equally among them.

(c) *Reckoning Payments Without Regard to Claims.*—Any share of the class I or class II payments shall be computed and paid without regard to questions of title under State law, without deductions of claims for advances, and without regard to any claim or lien against the crop or proceeds thereof in favor of the owner or any other creditor.

(d) *Changes in Leasing or Cropping Arrangement.*—If the Secretary, upon the basis of an investigation by the State Committee, finds that any person has for 1937 made any change from the 1936 leasing or cropping arrangement for the farm or has adopted any other device for the purpose of, or which would have the effect of, diverting to such person any payment to which tenants or share-croppers would be entitled if the 1936 leasing or cropping arrangement were in effect for 1937, the amount of any payment which otherwise would be made to such person may be withheld in whole or in part.

(e) *Division of Class I Payment Where Diversion Was Not Made Ratably.*—On farms where there are two or more producers, that portion of the class I payment made with respect to any soil-depleting base which is to be divided among producers on a crop-share basis shall be divided among the producers entitled to share in the soil-depleting crop(s) in such base in the proportion that the acreage share

[1] Mixtures of legumes listed in practice No. 1 and non-legumes will be eligible for a payment of $1.50 per acre, provided such legumes are seeded at a rate equal to at least fifty (50) percent of the normal rate for such legumes.

[2] For example, five hundred pounds of burnt lime or 700 pounds of hydrated lime is the equivalent of 1,000 pounds of ground limestone.

[3] For example, one hundred pounds of 48 percent superphosphate is the equivalent of 300 pounds of 16 percent superphosphate.

of each such producer bears to the total acreage of such crop(s) grown on the farm in 1937; except that if no acreage of the crop(s) in any such base was planted in 1937 or if the County Committee finds (such finding shall be indicated by approval of the application for payment setting forth one of the methods of division of payment provided below) that diversion has not been made ratably by all producers on the farm, such portion of such payment to be made to any such producer shall be—

(1) in that proportion which his contribution to the difference between such base and the 1937 acreage of crop(s) in such base bears to the total difference between such base and the 1937 acreage of crop(s) in such base; or

(2) in that proportion which his acreage share of the soil-depleting base with respect to which such payment is made bears to such base for the farm.

The County Committee shall recommend, subject to the approval of the State Committee and the Director of the Southern Division, as each such person's share of such payment that portion computed in accordance with paragraph (1) or paragraph (2) of this subsection (e), whichever is found to be the more equitable, and support its recommendation by an accompanying letter setting forth fully the facts upon which such recommendation is based.

(f) *Abandonment, Foreclosure, Death, Etc.*—If prior to harvest a producer voluntarily ceases to cultivate, sells, abandons, or through his own fault or neglect loses control of any soil-depleting crop in connection with which a class I payment may be made, such producer shall not be entitled to such payment or any share therein and whoever succeeds him and as such successor is entitled to such crop or to share in it or its proceeds shall be entitled to such payment or to share therein, as the case may be, provided that by agreement of such producer and such successor person or persons (such agreement to be indicated or confirmed by their signatures on the application for payment) the acreage of such crop may be divided between them and such payment may be divided between them accordingly. In no case shall any person who as a result of attachment, foreclosure, or other legal process comes into possession of any soil-depleting crop in connection with which a class I payment may be made or the land on which such crop was planted be entitled to any share in such class I payment if the producer previously entitled to such crop or to share in it or its proceeds did not voluntarily abandon such crop, and the producer so dispossessed shall be entitled to such payment or to share therein, as the case may be. In case of the death or incompetency of a producer occurring during the period of performance under the 1937 program, class I and class II payments shall be made or withheld in accordance with rules to be prescribed by the Secretary.

(g) *Lease or Operating Agreement Expiring During Growing Season.*—No person who, upon the expiration of a lease or operating agreement which expires in 1937 after the season for planting begins and before harvest, succeeds to the land or crop covered by the lease or operating agreement shall be entitled to any class I payment or share thereof respecting such land or crop, except that, if the County Committee finds that both the producer who farmed under such lease or operating agreement and his successor have contributed to performance in 1937 and they have agreed upon a division between them of the acreage which otherwise would go to the producer who farmed under such lease or operating agreement, such acreage shall be divided between them according to such agreement (indicated or confirmed by their signatures on the application of payment) and the County Committee's finding shall be evidenced by its approval of the application setting forth such division.

SEC. 16. *Payments Restricted to Effectuation of Purposes of the Program.*—No person shall be entitled to receive or retain any part of any payment if such person has adopted any practice which the Secretary determines tends to defeat the purposes of the 1937 program.

*Part IV. Classification of Land Use and Crops*

Farm land when devoted to the crops and uses indicated below shall, except for such additions or modifications as may be approved by the Secretary, be classified as follows:

SECTION 31. *Soil-depleting.*—Land on which any of the following crops are harvested shall, except as provided in section 33 below, be regarded as devoted to the production of soil-depleting crops for the year in which such crops are harvested. In establishing soil-depleting bases and in the checking of performance the acreage of land which is devoted to two or more soil-depleting crops shall be counted only once.

(a) Corn (field, sweet corn, or popcorn).

(b) Cotton.

(c) Potatoes (Irish or sweet).

(d) Sugarcane.

(e) Truck and vegetable crops, including melons and strawberries.

(f) Peanuts harvested for nuts.

(g) Grain sorghums, sweet sorghums, millets, broomcorn, or Sudan grass, harvested for grain, seed, or forage.

(h) Small grains harvested for grain or hay (wheat, oats, barley, rye, buckwheat, or any mixture of any of these).

SEC. 32. *Soil conserving.*—Land devoted to any of the following crops or uses shall be regarded as used for the production of a soil-conserving crop except that any land from which a soil-depleting crop is harvested in the same year shall be regarded as used for the production of a soil-depleting crop in such year, except as provided in section 33 below. Any acre on which two or more soil-conserving crops are grown in the same year shall not be counted as more than one acre of soil-conserving crops, except that any acre that is terraced in 1937 in accordance with approved terracing practices for the land and on which a soil-conserving crop is grown in 1937 may be allowed to count as two acres of soil-conserving crops.

(a) *Legumes,* including vetch, winter peas, clovers, alfalfa, kudzu, lespedeza, soybeans, velvet beans, crotalaria, and cowpeas.

(b) *Peanuts,* if pastured.

(c) *Grasses,* including Dallis, Natal, rye grass, timothy, orchard, Bermuda, and carpet, or grass mixtures.

(d) *Grain sorghum* (seeded solid), sweet sorghums, millets, or Sudan grass, not harvested for grain, seed, or forage, or grain sorghums planted in rows and plowed under.

(e) *Cover crops,* including rye, barley, oats, wheat, and grain mixtures, not cut for grain or hay, provided a reasonably good growth is left on the land or plowed under.

(f) *Forest trees,* planted on cropland since January 1, 1934.

(g) Terracing land in 1937 in accordance with good terracing practices for the land (except that the acreage terraced in 1937 shall not be regarded as used for the production of soil-conserving crops in connection with item (a) in sections 1 and 2).

SEC. 33. *Soil-Conserving Crops Grown in Combination With or Following Soil-Depleting Crops.*—Land devoted to soil-conserving crops grown in combination with or following soil-depleting crops shall be classified as follows:

(a) All the acreage of soil-depleting row crops interplanted or grown in combination with summer legumes (classified in section 32 above as soil-conserving) shall be classified as soil-depleting, and

(1) one-half (½) of the acreage shall also be classified as soil-conserving, provided the legume occupies at least one-half (½) of the land and attains a reasonably good growth, or

(2) one-third (⅓) of the acreage shall also be classed as soil-conserving, provided the legume occupies at least one-third (⅓) but less than one-half (½) of the land and attains a reasonably good growth.

(b) All the land from which a soil-depleting crop is harvested in 1937 and followed by legumes (classified in section 32 above as soil-conserving) or perennial grasses (whether seeded in or following such crop) shall, in addition to being classified as soil-depleting, be classified as soil-conserving.

(c) All the land on which green manure crops are seeded following commercial vegetable crops and plowed under as green manure after having attained at least two months' growth shall, in addition to being classified as soil-depleting, be classified as soil-conserving.

(d) All land from which a soil-depleting crop is harvested in 1937 and on which terraces are constructed according to good terracing practices for the land shall, in addition to being classified as soil-depleting, be classified as soil-conserving (except that the acreage terraced in 1937 shall not be regarded as used for the production of soil-conserving crops in connection with item (a) in sections 1 and 2).

SEC. 34. *Neutral Uses.*—Land devoted to the following uses shall be regarded as not used for the production of a soil-depleting crop or a soil-conserving crop unless otherwise provided:

(a) Cropland.—

(1) Vineyards, tree fruits, bush fruits, and nut trees (any portion of such land which is interplanted shall carry the classification and actual acreage of such interplanted crop).

(2) Idle cropland.

(b) Non-cropland.—

(1) Non-crop pasture and range land.

(2) Waste land, roads, lanes, lots, yards, and other similar non-cropland.

(3) Woodland other than cropland planted to forest trees since January 1, 1934.

*Part V. Determination of Cropland and Establishment of Bases*

SECTION 41. *County Limits and Quotas.*—For the county a ratio of the total acreage in soil-depleting crops to all cropland will be established by the Agricultural Adjustment Administration from available statistics, such ratio to be referred to as the county limit. The ratio of the aggregate of the total soil-depleting bases established in the county to all cropland in the farms for which such bases are established shall not exceed the county limit unless a variation therefrom is recommended by the State Committee and approved by the Administrator of the Agricultural Adjustment Administration. County quotas of acreage and production for cotton will be established by the Agricultural Adjustment Administration from available statistics, and in addition an acreage quota of soil-conserving crops will be so established.

SEC. 42. *Recommendation of Bases.*—For each farm for which a work sheet is filed in 1937 the County Committee will recommend to the State Committee, for approval by the Secretary, the total acreage of cropland and a total soil-depleting base. As a part of the total soil-depleting base the County Committee will recommend a general base and also wherever applicable a cotton base.

SEC. 43. *Total Cropland.*—(a) If the total acreage of cropland for the farm was established by accurate measurement in 1936, such acreage will be the 1937 acreage of cropland for the farm. If the total acreage of cropland for the farm was not so established in 1936, such acreage for the farm shall be established either by measurement in 1937 or on a basis which will result in an acreage of cropland comparable with that for farms on which such land was established by measurement.

(b) If the total acreage of cropland established for the farm in 1937 as provided in subsection (a) of this section 43 varies from the cropland reported for the farm on the work sheet submitted for such farm in connection with the 1936 Agricultural Conservation Program or varies from the cropland reported for the farm on the work sheet submitted for such farm for the first time in connection with the 1937 program, adjustments shall be made in accordance with this section 43, and the total acreage in soil-depleting crops, soil-conserving crops, and the acreage of cropland classed as neutral shall be adjusted on a pro rata basis to conform with the adjustments made in the total cropland.

SEC. 44. *1937 Total Soil-Depleting Base.*—(a) *Farms for Which a Total Soil-Depleting Base Was Established in 1936.*—The County Committee will recommend to the State Committee, for approval by the Secretary, a total soil-depleting base for each farm covered by a work sheet in 1937 and for which a total soil-depleting base was established in 1936. Such base shall be the 1936 total soil-depleting base for the farm subject to the adjustments set forth in section 43 above and in accordance with the following:

(1) Necessary adjustments shall be made based on land measurements made in connection with the 1936 and 1937 Agricultural Conservation Program and other available information.

(2) There shall be included in the total soil-depleting base for the farm for 1937 the acreage of small grains for grain or hay followed by legumes; the acreage of corn interplanted with legumes classed as soil-conserving; and the acreage of Sudan grass harvested for seed or forage and classed as soil-conserving in establishing the total soil-depleting base for the farm for 1936.

(3) If the total soil-depleting base for any farm is materially greater or less than such bases for farms in the same community which are similar with respect to size, type of soil, topography, production facilities, type of farming, and farming practices, adjustments shall be made that will result in a total soil-depleting base for the farm which is comparable with the total soil-depleting bases for other similar farms.

(b) *Farms For Which a Total Soil-Depleting Base Was Not Established in 1936.*—The County Committee will recommend to the State Committee, for approval by the Secretary, a total soil-depleting base for each farm covered by a work sheet in 1937 and for which a total soil-depleting base was not established in 1936. Such base shall be the planted acreage of all soil-depleting crops for harvest in 1936 for the farm subject to the adjustments set forth in section 43 above and in accordance with the following:

(1) To the acreage of all soil-depleting crops planted in 1936 there shall be added the acreage diverted for payment under the 1936 Agricultural Conservation Program, provided that no soil-depleting crop was planted on such diverted acreage.

(2) Necessary acreage adjustments shall be made based on land measurements made in connection with the 1936 and 1937 Agricultural Conservation Programs and other available information.

(3) If, because of flood, drought, or other abnormal weather conditions, the number of acres of soil-depleting crops planted in 1936 was greater or less than the acreage of such crops usually planted on the farm, such number of acres shall be adjusted to an acreage which is comparable with the acreage of such crops planted on the farm under normal conditions.

(4) If the total soil-depleting base for any farm is materially greater or less than such bases for farms in the same community which are similar with respect to size, type of soil, topography, production facilities, type of farming, and farming practices, adjustments shall be made that will result in a total soil-depleting base for the farm which is comparable with the total soil-depleting bases for other similar farms.

SEC. 45. *Cotton Base and Yield Per Acre.*—(a) *Cotton Base.*—

(1) The cotton base for the farm in 1937 shall be the cotton base which was or could have been established for the farm under the 1936 Agricultural Conservation Program, subject to necessary acreage adjustments based on land measurements made in connection with the 1936 and 1937 Agricultural Conservation Programs and further adjustments that will result in a cotton base for the farm which is comparable with cotton bases for other farms in

the same community which are similar with respect to size, type of soil, topography, production facilities, type of farming, and farming practices.

(2) If, for causes other than flood, drought, or other abnormal weather conditions or because of substantial changes in the base acreage by the County Committee in 1936 after planting time, the acreage planted to cotton on the farm in 1936 was less than 50 percent of the cotton base for the farm in 1936, the cotton base for 1937 shall be adjusted downward by the County Committee but not lower than 154 percent of the 1936 planted acreage.

(3) For farms on which cotton was grown in 1936 for the first time since 1933, a cotton base may be established on the basis of the acreage planted to cotton in 1936 subject to necessary adjustments based on land measurements made in connection with the 1936 and 1937 Agricultural Conservation Programs and further adjustments that will result in a cotton base for the farm which is comparable with cotton bases for other farms in the same community which are similar with respect to size, type of soil, topography, production facilities, type of farming, and farming practices.

(4) The sum of the cotton bases for the farms covered by work sheets in the county shall not exceed their proportionate share of the quota of cotton acreage established for the county by the Agricultural Adjustment Administration.

(b) *Determination of Yield Per Acre.*—

(1) The yield per acre of lint cotton for the farm shall be designated by the appropriate Community Committee, subject to such adjustment by the County Committee as is necessary in order that the sum of the base cotton production for farms covered by work sheets in 1937 in the county shall not exceed their proportionate share of the quota of cotton production established for the county by the Agricultural Adjustment Administration.

(2) Each farm covered by a work sheet will have been inspected by at least one member of the Community Committee, serving for the community in which the farm is located, who shall report the facts to the Community Committee before the yield is designated for the farm.

(3) The yield designated for any farm shall be that yield, subject to adjustments indicated in this subsection (b), which the Community Committee finds from all available facts to be the yield which could reasonably be expected from the land devoted to the production of cotton on the farm. In designating the yield due consideration shall be given by such Committee to the trend of yield per acre as well as to the type of soil, drainage, erosion, production practices, and general fertility of the land. Other facts bearing on the yield which might reasonably be expected, including abnormal weather conditions, shall also be given due consideration. Such findings shall be examined by the County Committee in the light of all available facts and approved or modified by it accordingly.

SEC. 46. *General Base and Productivity Index.—(a) Farms For Which A General Base was Established in 1936.*—

(1) The general base for the farm in 1937 shall be the general base which was established for the farm under the 1936 Agricultural Conservation Program, subject to necessary acreage adjustments based on land measurements made in connection with the 1936 and 1937 Agricultural Conservation Programs and further adjustments that will result in a general base for the farm which is comparable with general bases for other farms in the same community which are similar with respect to size, type of soil, topography, production facilities, type of farming, and farming practices.

(2) There shall also be included in the general base for 1937—

i. The normal acreage of small grains for grain or hay followed by legumes and classed as soil-conserving in establishing the general base for 1936;

ii. The normal acreage of corn interplanted with legumes and classed as soil-conserving in establishing the general base for 1936;

iii. The acreage of Sudan grass harvested for seed or forage and classed as soil-conserving in establishing the general base for 1936; and

iv. The normal acreage of peanuts harvested for nuts, if grown for home use only.

(b) *Farms For Which a General Base Was Not Established in 1936.*—The general base for the farm in 1937 shall be the planted acreage of all crops in the general base for harvest in 1936, less such part of this acreage as was diverted in 1936 for payment from bases other than the general base, subject to necessary acreage adjustments based on land measurements made in connection with the 1936 and 1937 Agricultural Conservation Programs and further adjustments that will result in a general base for the farm which is comparable with general bases for other farms in the same community which are similar with respect to size, type of soil, topography, production facilities, type of farming, and farming practices.

(c) *Individual Farm Adjustments.*—In making adjustments in the general base for individual farms, such base cannot be adjusted below the farm's proportionate share of the total general base acreage for all farms in the county.

(d) *Productivity Index.*—The productivity index for the farm shall be determined upon the basis of the yield per acre established for the farm in 1937 for the crop(s) used in the county for this purpose under the 1936 Agricultural Conservation Program. The weighted average of the productivity indices for all farms diverting from the general base in the county shall not exceed 100, unless a variation therefrom is recommended by the State Committee and approved by the Director of the Southern Division.

SEC. 47. *Other Provisions.*—No Community or County Committeeman shall have a voice in designating or approving any acreage or yield for any farm which he owns, operates, or controls; which is owned, operated, or controlled by his brother, sister, parent, child, or other near relative; or upon which he has a loan or other financial interest.

*Part VI. Miscellaneous Provisions*

SECTION 61. *Persons Who May Make Application For Payment.*—(a) An application for payment may be made by (1) an owner, (2) an operator, and (3) such other persons as may be designated by the Secretary.

(b) Payment will only be made upon an application filed with the County Committee within the prescribed time. Each person applying for payment will be required to show that work sheets have been filed with the County Committee covering all land in the county owned or operated by him in 1937. Any person applying for payment who owns or operates farms in more than one county in Mississippi may be required to file with the State Committee a list of all such farms.

(c) A time limit for filing work sheets and applications for payment in the county will be designated by the State Committee subject to the approval of the Director of the Southern Division, and when so approved at least two weeks' public notice shall be given in advance of the expiration of such time limit.

SEC. 62. *Land Which May Be Covered by a Work Sheet and Application for Payment.*—(a) A work sheet shall cover all of one farm only, except as provided in the following subsections of this section 62.

(b) If two or more farms in the county are under the same ownership and are operated by the same person, such farms may be covered by one work sheet.

(c) If two or more tracts of land in the county are under different ownerships, even though they are operated by the same person, each such separately owned tract shall be covered by a separate work sheet.

(d) Tracts of land under the same ownership located in two or more adjoining counties and operated as a single farm in 1937 shall be regarded as located in the county in which the principal dwelling on such farm is located, or, if there is no dwelling on such farm, as located in the county in which the major portion of such farm is located.

(e) Except as provided in subsection (f) of this section 62 the land covered by an application for payment shall be the land covered by a single work sheet. The application for payment filed with respect to any land shall show the name and the extent of the interest of each person entitled to share in the payment with respect to such land. The amount of payment to any person with respect to the land covered by the application for payment shall, subject to the provisions of section 63 below, be determined by the performance on such land.

(f) If any person operates more than one farm in the county, such person may, subject to the conditions of this subsection (f), make one application for payment with respect to all such farms or several applications each covering one or more of such farms.

(1) An application for payment covering two or more farms in the county which are operated by the same person may be made only with the consent (indicated by signatures on the application for payment) of all persons who, as owner, share-tenant, or share-cropper, have an interest in the crops (or the proceeds thereof) grown in 1937 on any farm covered by the application; except that the signature of any person shall not be required in order to permit a grouping of such farms if such person would not receive a payment if each such farm were covered by a separate application for payment.

(2) In making determinations with respect to the amount of payment to be made under such application (in accordance with the provisions of this subsection (f)), all farms covered by an application for payment shall be considered as one farm.

SEC. 63. *Multiple Farm Holdings.*—If any person making application for payment in the county has an interest as owner or operator in one or more farms in the county which is not covered by an application for payment under which payment may be made, such person is required to furnish the County Committee a showing as to the acreage of soil-depleting crops grown in 1937 on each such farm. If the County Committee finds from evidence submitted to it and such measurement of such farms as is deemed necessary that any such person has materially increased the 1937 acreage of crops in any soil-depleting base above such bases on any such farm, performance shall be checked on all such farms. The procedure shall be as follows:

(a) For each such farm multiply the 1937 acreage of cotton and crops in the general base by the respective rate per acre (determined pursuant to sections 11 and 12, part III) and multiply each such result by the percentage (determined pursuant to the provisions of section 15, part III) due such person. Total the results thus obtained.

(b) For each such farm multiply the cotton and general bases by the respective rate per acre (determined pursuant to sections 11 and 12, part III) and multiply each such result by the percentage (determined pursuant to the provisions of section 15, part III) due such person. Total the results thus obtained.

(c) If the total obtained under subsection (a) of this section 63 exceeds the total obtained under subsection (b) of this section 63, such excess shall be deducted first from any payment which otherwise would be made to such person with respect to farms in the county covered by an application for payment.

(d) The procedure outlined in this section 63 shall at the option of the Secretary be applied to all farms owned or operated by the same person in the State.

SEC. 64. *Appeals.*—Any person who has reason to believe that any recommendation of the County Committee concerning his farm is not equitable may request the County Committee to reconsider its recommendation. If such person fails to agree with the final recommendation of the County Committee, such person may take an appeal, in accordance with the provisions of amendment 4 to Southern Region Bulletin 101.

SEC. 65. *Deductions for Expenses.*—There shall be deducted pro rata from the payment to any person with respect to a farm or farms all or such part as the Secretary shall prescribe of the estimated administrative expenses incurred and to be incurred in the field in carrying out the 1937 program.

There shall be credited for the payment of administrative expenses the sum of $2.00 for each application for a farm on which the total payment (prior to deduction of any administrative expenses) as estimated by the Agricultural Adjustment Administration will be $20.00 or less.

SEC. 66. *Applicability to Farms Under Other Special Programs.*—On any farm where a program is carried out in cooperation with the Soil Conservation Service or the Resettlement Administration payment will be made only for such diversion and for carrying out such soil-building practices as are approved for the farm prior to performance by the County Committee in accordance with instructions issued by the Secretary.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, as hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 19th day of March, 1937.

## FEDERAL COMMUNICATIONS COMMISSION.

### AMENDMENT OF RULES GOVERNING ISSUANCE OF TELEGRAPH FRANKS

The Telegraph Division at its regular meeting on March 9, 1937, adopted the following Order:

ORDER NO. 14-B

The Telegraph Division having under consideration the Rules Governing the Issuance of Telegraph Franks adopted by the Telegraph Division on February 13, 1935; and

*Whereas,* It appears that the provisions of paragraph 8 of said rules, with regard to the posting of lists of frank holders, and the provisions of paragraphs 9 and 10 of said rules, requiring a filing of special quarterly reports, may be modified so as to save expense and inconvenience to the carriers without injury to the interests of the public;

*It is ordered,* That said rules be and the same are hereby amended as of January 1, 1937, by striking out paragraphs 8, 9 and 10 thereof;

*It is further ordered,* That said rules be, and the same are, hereby further amended as of January 1, 1937, by adding thereto a new paragraph numbered 7-A, to read as follows:

7-A. Each year, on or before the 31st day of March, every telegraph carrier subject to the Communications Act of 1934 shall file with this Commission, in duplicate, a statement, for the last preceding calendar year, showing the name and address of every person holding a telegraph frank at any time during that period, the office, employment or relationship held by each such person entitling him to the frank, the number of franked messages sent under each frank during such period, and the aggregate charges in dollars which would have accrued to the carrier for all the franked messages sent under each frank during such period if the messages had been paid for at the full published charges; and an additional copy of such statement shall, not later than the date above mentioned, be made available, and thereafter kept available, in the principal office of the carrier for public inspection upon request.

By the Commission, Telegraph Division.

AMENDMENT OF RULE 330A

The Telegraph Division at its regular meeting on March 9, 1937, amended Rule 330a, to read as follows:

RULE 330a. In the event that the amount of power allocated above is insufficient to afford reliable coverage over the desired service area, the Commission may authorize the use of additional stations of the same or less power, or upon proper showing being made, may authorize such additional power as may be necessary but not to exceed 500 watts, provided, however, that municipal police stations authorized to serve an entire county under the provisions of Rule 331, may be licensed to employ a maximum power of 1,000 watts between one hour after local sunrise and one hour before local sunset, on condition that the applicant files with the application an agreement, entered into with other licensees operating on the same frequency and in the same area to which the frequency is assigned, including a statement giving their consent to the use of such increased power.

IN THE MATTER OF PROPOSED TRADE PRACTICE RULES FOR THE CARBON DIOXIDE MANUFACTURING INDUSTRY

NOTICE OF OPPORTUNITY TO OFFER SUGGESTIONS OR OBJECTIONS

This matter now being before the Federal Trade Commission under its Trade Practice Conference procedure, in pursuance of the Act of Congress approved September 26, 1914 (38 Stat. 717);

Opportunity is hereby extended by the Federal Trade Commission to any and all persons affected by or having an interest in the proposed trade practice rules for the Carbon Dioxide Manufacturing Industry, to present to the Commission their views upon the same, including suggestions or objections, if any. For this purpose they may, upon application to the Commission, obtain copies of the proposed rules. Communications of such views should be made to the Commission not later than April 6, 1937, which communications will be for the public record. After giving due consideration to such suggestions or objections as may be received concerning the proposed rules, the Commission will proceed to their final consideration.

By direction of the Commission.

(c) Cylinders are authorized for liquefied petroleum gas when made under specification 3, 3A, 3B, 3E, 4, 4A, 4B, 25, 26, or 38. (See par. 226.)

Amending par. 218, order May 12, 1930, as follows (*packing compressed gases*):

(Add) Cylinders complying with specification 3E are also authorized subject to paragraph 214.

*Shipping Container Specifications*

Superseding and amending *specification 5C*, order Jan. 13, 1934, as follows:

2. In place of paragraph 2, the following:

(a) All sheet metal, welding rod, closing devices and samples taken from the welded portion of the finished container must be of 18 chrome 8 nickel alloy with 0.07 per cent carbon maximum, 17-20 per cent chromium, 7-11 per cent nickel, and be capable of resisting the action of nitric acid as follows:
(b) In that the limit of inches per month penetration in accordance with corrosion test as used in American Society of Testing Materials Committee A-10-1933 collaboration testing program shall be 0.0015 inch for 18 per cent chrome and 8 per cent nickel chrome iron, this figure to be an average of five 48-hour-period tests.

4. Paragraph canceled.

Superseding and amending par. 2, *specification 5G*, order Oct. 14, 1932, to read as follows:

2. In place of paragraph 2, the following:

The use of an austenitic 18 and 8 chrome nickel alloy steel with carbon content not over 0.12 per cent is required, except for rolling hoops, in the manufacture of these containers.

Superseding and amending par. 5 (a), *specification 8*, order May 12, 1930, to read as follows:

5. (a) Cylinders must be made seamless or from a seamless drawn body with one or both heads secured in place by welding, except as follows: Side seams made by forge lapweld and brazing of heads by dipping process are authorized; circumferential body seams made by fusion or electric resistance welding are authorized provided cylinder has no longitudinal body seam.

Amending *specification 23B*, order May 12, 1930, as follows:

(Add) 4. One-piece containers complying with all provisions of this specification, except as follows, are authorized for motion-picture film in inside metal cans only; each can to contain not over 1,000 feet (approximate) of film; gross weight of package not over 65 pounds:
(a) Board must be at least 350-pound test; flanged liner and pads not required.
(b) Adequate bracing must be supplied, at all 4 corners of box, to hold inside containers in center of package; this to be made of 175-pound test doublefaced corrugated fiberboard extending full depth of package.
(c) Closure of flaps by stitching not authorized.

*It is further ordered*, That compliance with the aforesaid amendments made effective by this order is hereby authorized on and after the date of approval and publication thereof;

*It is further ordered*, That the aforesaid regulations as further amended herein shall be and remain in force on and after June 17, 1937, and shall be observed until further order of the Commission;

*And it is further ordered*, That copies of this order be served upon all the respondents herein, and that notice to the public be given by posting in the office of the Secretary of the Commission at Washington, D. C.

Dated at Washington, D. C., this 10th day of March, 1937.

By the Commission, Commissioner McManamy.

## SECURITIES AND EXCHANGE COMMISSION.

SECURITIES EXCHANGE ACT OF 1934

AMENDMENT NO. 1 TO FORM 23

The Securities and Exchange Commission, finding

(a) that the information required by Form 23 for applications for registration of securities of Successor Issuers, as such information is more specifically defined in the Instruction Book for Form 23 as hereinbelow amended, is necessary and appropriate in the public interest and for the protection of investors; and to insure fair dealing in the securities; and

(b) that insofar as such information is not within the provisions of Section 12 (b) of the Act, it is of character comparable to the information provided for therein and is applicable to the class of issuers by which Form 23 is to be used,

pursuant to power conferred upon it by the Securities Exchange Act of 1934, particularly Sections 12 and 23 (a), the Commission hereby amends the Instruction Book for Form 23 as follows:

The instructions to Item 19, under the caption "Financial Statements Required To Be Filed" are amended as follows:

I. By deleting subdivision (A) of paragraph I-2 (a) (1) and inserting the following in lieu thereof:

(A) There shall be filed, as of the close of the most recent fiscal year or as of a more recent date, a certified balance sheet for each constituent person.

II. By deleting the second sentence of paragraph I-2 (c) (1) and inserting the following in lieu thereof:

These statements shall be filed for the fiscal year preceding the date of the related balance sheet and for the period, if any, between the close of such fiscal year and the date of such related balance sheet.

Paragraph I-2 (c) (1), as hereby amended, reads as follows:

(1) There shall be filed a certified profit and loss statement, related to each individual or combined balance sheet filed for the constituent persons pursuant to paragraph (a) (1) above. These statements shall be filed for the fiscal year preceding the date of the related balance sheet and for the period, if any, between the close of such fiscal year and the date of such related balance sheet.

III. By deleting from paragraph I-2 (c) (2) the words "covering the interim period" and inserting the following in lieu thereof:

for each fiscal year or portion thereof from the close of the fiscal year for which statements were filed pursuant to paragraph (1)

Paragraph I-2 (c) (2), as hereby amended, reads as follows:

(2) There shall be filed, at the time of filing the balance sheets prescribed in paragraph (a) (3) above, additional certified profit and loss statements for each person for which profit and loss statements are filed pursuant to paragraph (1) for each fiscal year or portion thereof from the close of the fiscal year for which statements were filed pursuant to paragraph (1) up to the date of the balance sheets filed with the amendment.

IV. By deleting the period at the end of the second sentence in subdivision (1) of paragraph II-2 (a) and adding the following:

or, if the succession has not occurred, as of the date of the certified balance sheets filed pursuant to paragraph I-2 (a) above.

Subdivision (1) of paragraph II-2 (a), as hereby amended, reads as follows:

(1) There shall be filed for each such person a certified balance sheet as of its latest fiscal year closing date preceding the date of succession. Such statements may, however, at the option of the registrant, be as of the date of the certified balance sheet of the registrant showing the status after the transfer of accounts, or if the succession has not occurred, as of the date of the certified balance sheets filed pursuant to paragraph I-2 (a) above.

The foregoing amendment shall be effective immediately upon publication.

By the Commission.

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 18th day of March, A. D., 1937.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE OHIO-DAHL FARM, FILED ON MARCH 11, 1937, BY T. G. WYLIE & CO., INC., RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)), AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that the answer set forth under Division III, Item 3, is incomplete and might, therefore, be misleading by reason of the fact that

(a) it is not fully explained how each factor used was determined for the particular tract;

(b) the reasons for the use of each particular factor in combination with each of the other factors are not fully explained;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 17th day of April, 1937; that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Charles S. Lobingier, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 2nd day of April, 1937, at 10:00 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

YUMA IRRIGATION PROJECT

PUBLIC NOTICE OF ANNUAL WATER CHARGES

[No. 47]

[Act of June 17, 1902, 32 Stat., 388, as amended or supplemented]

MARCH 5, 1937.

1. *Annual Operation and Maintenance Charges for Lands under Public Notice, Reservation Division.*—The annual operation and maintenance charge for the irrigation season of 1937, and thereafter until further notice, against all lands of the Reservation division of the Yuma irrigation project, Arizona-California, under public notice, shall be a minimum of two dollars and fifteen cents ($2.15) per irrigable acre, whether water is used or not, which charge shall permit the delivery of not to exceed 5 acre-feet of water per acre on certain sandy areas shown on the list attached to public notices No. 31 dated April 14, 1931, No. 40, dated March 1, 1935, and No. 43, dated February 17, 1936, and as amended by the list attached to this public notice, and of not to exceed 4 acre-feet of water per acre on all other lands of this division; additional water shall be furnished at the rate of one dollar ($1.00) per acre-foot. Where, in the opinion of the superintendent, it may be done without interference with other project requirements, upon written request filed in advance by the water users, water for reclaiming lands by the washing out of alkali, either by the usual leach methods or by growing rice or similar crop, will be furnished free of charge; and water in excess of the minimum amount herein provided, which is to be used for the growing of fertilizer crops of no commercial value or which is to be used for the purpose of depositing silt upon the land, shall be furnished free of charge. All lands for which free water was served during the year 1936 will not again be served free water for the same area until evidence satisfactory to the project superintendent has been made that the water so granted free of charge during the year 1936 was applied to the land in sufficient quantities over a period of not less than 3 months, in which event water shall again be served free of charge provided the results accomplished during the preceding irrigation season were not satisfactory. All operation and maintenance charges shall be due and payable on March 1 of each year for the preceding irrigation season to the Agent-Cashier, Bureau of Reclamation, Yuma, Arizona.

2. *Annual Water Rental Charges for other Lands, Reservation Division.*—Lands not under public notice that can be irrigated from the present distribution system without further construction expense by the Bureau may secure irrigation water during the irrigation season of 1937 and thereafter until further notice under water rental contracts at a rate of two dollars and fifteen cents ($2.15) per irrigable acre, which charge will permit the delivery of not to exceed 4 acre-feet of water per acre, and additional water will be furnished at the rate of one dollar ($1.00) per acre-foot. All charges due under water rental contracts are payable in advance of the delivery of water. The minimum charge as specified shall be paid before any water is delivered during the current or subsequent seasons and all additional or excess water over the minimum of 4 acre-feet shall be paid for when ordered and prior to delivery. Refund will be made for excess water paid for but not used.

3. *Annual Water Rental Charge for Lands in the Valley Division not under Public Notice.*—Lands in the Valley division not under public notice which can be irrigated from the present distribution system without further construction expense by the United States may secure irrigation water during the calendar year 1937 and until further notice under water rental contracts at a rate of three dollars ($3.00) per irrigable acre, which charge will permit the delivery of four acre-feet per acre. Additional water furnished will be charged for at the rate of one dollar ($1.00) per acre-foot, payable in advance of delivery. All town lots that can be served under the present system may secure water under annual water rental contracts at the rate of five dollars ($5.00) a lot and one dollar ($1.00) for each additional lot in the same ownership, considering the maximum lot to be not over sixty (60) feet in width.

4. All payments under water rental contracts are due and payable in advance of the delivery of water to the Agent-Cashier, Bureau of Reclamation, Yuma, Arizona.

LEASING OF SEGREGATED COAL AND ASPHALT DEPOSITS IN CHOCTAW AND CHICKASAW NATIONS, OKLAHOMA.

Amendment to Section 5 of the Regulations Governing the Leasing of the Segregated Coal and Asphalt Deposits in the Choctaw and Chickasaw Nations, in Oklahoma, the adding of additional acreage to existing leases, and for an extension of time within which purchasers of such deposits may complete payments.

Section 5 of said regulations promulgated under authority of the Act of April 21, 1932 (47 Stat. 88), is hereby amended to read as follows:

All lessees shall be required to pay royalties under each lease as follows: On the production of all the mines developed and operated under each lease the sum of ten cents per ton of two thousand pounds on mine-run, or coal as it is taken from the mines, including that commonly called "slack". All royalties on coal mined in any month shall be due and payable on or before the 25th day of the month succeeding that in which the coal was mined.

Approved effective February 1, 1937.

## FEDERAL COMMUNICATIONS COMMISSION.

[AMENDMENT OF RULE 101.7]

PRACTICE BY ATTORNEYS AFTER SEPARATION FROM SERVICE OF COMMISSION

The Commission, at a General Session, held on March 17, 1937, amended Rule 101.7 to read as follows:

101.7. No person serving as an attorney at law in the Federal Communications Commission on or after July 1, 1935, shall be permitted to practice, appear, or act as an attorney in any case, claim, contest, or other proceeding before the Commission or before any Division or agency thereof until two years shall have elapsed after the separation of the said person from the said service. The provisions of this rule shall not apply to any person practicing, appearing or acting as an attorney in behalf of any municipality, or State or the Federal Government in any case, claim, contest, or other proceeding before the Commission or before any division or agency thereof. The term "attorney at law" includes attorney-examiner. Nothing herein shall be construed to prevent any former officer or employee of the Federal Communications Commission from appearing as a witness in any hearing, investigation, or other proceeding before it.

[ORDER No. 28]

AUTOMATIC ALARM DEVICES, AMENDMENTS TO SHIP RADIOTELEGRAPH SAFETY INSTRUCTIONS

The Telegraph Division, at a special meeting, held on March 10, 1937, adopted the Report of the Commission in Docket No. 4409, in the matter of the Approval or Disapproval of certain Automatic Alarm Devices, identified as Model A and Model B, together with attached Telegraph Division Order No. 28, and also approved certain amendments to Ship Radiotelegraph Safety Instructions.

JOHN B. REYNOLDS,
*Acting Secretary.*

It is hereby ordered that, effective the 10th day of July, 1937, automatic alarm devices described as Radiomarine Corporation of America "Model AR-8600 Auto Alarm" and "Mackey Radio and Telegraph Company Auto Alarm Type 101-A manufactured by Federal Telegraph Company" be, and the same are hereby approved unless the Commission within sixty days of the date hereof finds that the following conditions or any of them have not been met:

1. The manufacturer of each auto alarm shall furnish the Commission with two copies of a complete description including technical details and circuit diagrams of the production models of the approved alarms. No change shall be made in said auto alarms except after submission of such changes together with a description of all technical details to the Commission and approval by the Commission of such changes.

2. Each manufacturer shall furnish the Commission for its approval written instructions, for the use of the ship station radio operator and ship's officers, relative to the functioning of the auto alarm. (See paragraph 17 of the Ship Radiotelegraph Safety Instructions, as amended.)

3. The Radiomarine Corporation of America "Model AR-8600 Auto Alarm" shall meet the following requirements:

(a) An arrangement shall be provided to energize the audible alarms if and when the voltage of the 6-volt storage battery decreases to 4 volts and when this voltage fails altogether at the point where the battery circuit enters the auto alarm unit.

(b) An arrangement shall be provided to energize the audible alarms if and when the voltage of the 110-volt direct-current power supply decreases to 100 volts or less, or in lieu of energizing the audible alarms, the auto alarm may be automatically connected to a comparable substitute source of power supply producing a voltage of not less than 100 volts.

4. "Mackay Radio & Telegraph Company Auto Alarm type 101-A manufactured by Federal Telegraph Company" shall meet the following requirements.

(a) An arrangement shall be provided to energize the audible alarms if and when the voltage of the 24-volt storage battery fails altogether at the point where the battery circuit enters the auto alarm unit.

(b) The type of 90-volt direct current power supply utilized to operate the auto alarm receiver unit is optional. In cases where the 90-volt power supply is obtained from a source other than dry batteries, an arrangement shall be provided to energize the audible alarms if and when the voltage decreases to 65 volts or less, or in lieu of energizing the audible alarms, the auto alarm receiver may be automatically connected to a comparable substitute source of power supply producing a voltage of not less than 65 volts.

*Provided, however*, nothing contained herein shall constitute approval of these devices beyond the period ending December 31, 1938, unless prior to that time the Commission shall issue a supplemental order made in the light of experience in the use of the devices, and as a result of its studies as to what further requirements, if any, must be met in order to warrant approval of these devices for an additional period.

Should it be determined at any time that the requirements of the Commission as set forth in the specifications of October 1, 1935, as construed by the Commission's opinion or the requirements of this order, have been violated, the approval of the type of automatic alarm involved may be cancelled by the Commission.

The automatic alarm devices hereinabove referred to are approved pursuant to the provisions of Article 29-2 (c) of the International Convention for Safety of Life at Sea, London, 1929, and are approved, subject to the requirements of the Ship Radiotelegraph Safety Instructions issued by this Commission as amended by Change No. 1, dated March 10, 1937, for use on voyages, other than on the Great Lakes, only on cargo vessels of 5500 gross tons; or over; provided, however, that either of said automatic alarm devices may be installed on any ship for use on any voyage in addition to any operator requirements.

Neither the type approval by the Commission of these automatic alarms nor the installation of an auto alarm on a vessel of the United States is to be construed as relieving any ship subject to the "Act to Require Apparatus and Operators for Radiocommunication on Certain Ocean Steamers" approved June 24, 1910, as amended by an act approved June 23, 1912 (commonly referred to as the "Ship Act") from full compliance therewith.

By the Commission, Telegraph Division.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE BRITISH-AMERICAN-MCNABB PARK, BLOCK #9, FARM, FILED ON MARCH 15, 1937, BY R. E. PITTS, RESPONDENT

SUSPENSION ORDER, ORDER FOR REHEARING (UNDER RULE 340 (A)), AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that it appears that title to portions of the block described in Exhibit B is involved in litigation as a result of which the royalty payments relating to those portions of said block involved in such litigation are being currently impounded and the offering sheet does not disclose such litigation or whether the interests offered by said offering sheet are, or are not, involved in or affected by such litigation;

(2) In that in Exhibit A the legend is incomplete by reason of the fact that the symbol for an abandoned well is omitted;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 18th day of April, 1937; that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Charles S. Lobingier, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 2nd day of April 1937 at 11:00 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 19th day of March, A. D. 1937.

IN THE MATTER OF AN OFFERING SHEET OF A WORKING INTEREST IN THE WILLIAMS-SANTA FE-PACIFIC R. R. FARM, FILED ON MARCH 15, 1937, BY H. L. WILLIAMS, RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)), AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that the number of barrels of oil in which the smallest fractional interest proposed to be offered will be entitled to participate is not correctly figured;

(2) In that Item 3 (b) omits the size of the interest of the lessee;

(3) In that the statement made under Division II, Item 16 (b), disagrees with the information disclosed in Exhibit B;

(4) In that the statement following Item 16 (b) does not coincide with the language provided for such statement in Schedule D;

(5) In that the figure set forth for the approximate cost of drilling and completing the well under Division II, Item 21, is not in accord with the information given under Division II, Item 13; nor can the statement made under Division II, Item 13, be reconciled with the information set forth under Division II, Item 23;

(6) In that the information given under Division II, Item 24 (b), is incomplete and might, therefore, be misleading;

(7) In that the answer to Division II, Item 24 (c), is incomplete by reason of the fact that it does not set forth sufficient information to comply with the requirements of Schedule D;

(8) In that the statement made in Division II, Item 25, may be inaccurate and misleading by reason of the fact that the word "none" prefaces the answer to the question;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 18th day of April, 1937; that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Charles S. Lobingier, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 2nd day of April, 1937, at 10:30 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

By the Commission.

## UNITED STATES MARITIME COMMISSION.

[General Order No. 7]

REGULATIONS FOR FILING APPLICATIONS UNDER TITLE V, MERCHANT MARINE ACT, 1936, FOR CONSTRUCTION-DIFFERENTIAL SUBSIDIES

The United States Maritime Commission, acting pursuant to the authority conferred upon it by the Merchant Marine Act of 1936, particularly Title V thereof, and finding that Regulations for filing applications for construction-differential subsidies are necessary and appropriate to carry out the provisions of said Title V of said Act, hereby adopts the Regulations for filing applications under Title V of the Act, which have been promulgated this day.

By order of the United States Maritime Commission.

TELFAIR KNIGHT, *Secretary.*

MARCH 19, 1937.

REGULATIONS

By virtue of the authority vested in the United States Maritime Commission by the act entitled, "An Act to further the development and maintenance of an adequate and well-balanced American merchant marine, to promote the commerce of the United States, to aid in the national defense, to repeal certain former legislation, and for other purposes" (Act of June 29, 1936. Public No. 835, 74th Cong.), and in order to establish uniform procedure under Title V of said Act, particularly with reference to applications for construction-differential subsidies to aid in the construction of new vessels for operation in the foreign commerce of the United States, the following regulations are hereby prescribed:

*Note 1.*—These regulations supersede the former "Information For Applicants For Construction Loans" and the former "Standard Instructions".

*Note 2.*—These regulations do not apply to applications for construction-differential subsidies to aid in the reconstruction or reconditioning of vessels pursuant to the provisions of sec. 501 (c), Title V of said Act, or for financial aid in the construction of new vessels to be operated in the domestic trade pursuant to sec. 509 of the Act.

ARTICLE I. DEFINITIONS

(a) Citizen of the United States. For the purposes of these regulations, no corporation, partnership, or association shall be deemed a citizen of the United States unless it is a citizen of the United States within the meaning of sec. 2, Shipping Act, 1916, as amended (U. S. C., Title 46, sec. 802).

(b) The Act. The Merchant Marine Act, 1936.

(c) The Commission. United States Maritime Commission.

ARTICLE II. PROCEDURE

SEC. 1. *Application.*—The Commission will consider the application of any citizen of the United States for a construction-differential subsidy in accordance with the provisions of Title V of the Act when submitted in compliance with the requirements of these regulations.

SEC. 2. *General nature of information to be furnished.*—The purpose of the information requested in these regulations is to enable the Commission to determine (1) that the applicant is a citizen of the United States; (2) that the service, route, or line operated or proposed to be operated by the applicant is essential for the promotion, development, expansion, and maintenance of the foreign commerce of the United States; (3) that the service, route, or line requires a new vessel of modern and economical design to meet foreign-flag competition and to promote the foreign commerce of the United States; (4) that the plans and specifications call for a new vessel which will meet the needs of the service, route, or line and the requirements of commerce; (5) that the applicant possesses the ability, experience, financial resources, and other qualifications necessary to enable it to operate and maintain the proposed new vessel in such service or on such route or line, and to maintain and continue adequate service on said route or line, including replacement of worn-out or obsolete tonnage with new and modern ships; (6) and that the granting of the aid applied for is reasonably calculated to carry out effectively the purposes and policy of the Act.

SEC. 3. The Commission may require the applicant to furnish information other than that hereinafter required, and when submitted such information shall be deemed part of the original application.

SEC. 4. *General Instructions.*—(a) Applications shall be addressed to the United States Maritime Commission, Washington, D. C., and shall bear a title substantially as follows: "Application of (Name of Applicant) for a construction-differential subsidy for the construction of a new vessel in accordance with the provisions of Title V, Merchant Marine Act, 1936." Six copies of each application shall be filed with the Secretary of the Commission at Washington, D. C.

(b) Each application shall be submitted over the signature of a responsible officer of the applicant, whose title is indicated, and shall close with the following statement sworn to by such officer on behalf of the applicant:

That the applicant is a citizen of the United States within the meaning of the Shipping Act, 1916, as amended (U. S. C., Title 46, sec. 802), and that this application is made for the purpose of inducing the United States Maritime Commission to grant to the applicant a construction-differential subsidy for the construction of a new vessel in accordance with the provisions of Title V, Merchant Marine Act, 1936; that the facts, statements, and representations contained in this application were either prepared by me or prepared at my direction and under my supervision for and on behalf of applicant and are full and complete, accurate and true, to the best of my knowledge, information and belief.

(c) The applicant shall furnish the information required by these regulations set out in the order provided herein and the information required should be tabulated whenever possible. For the purpose of such tabulation, information requested under separate subsections of these regulations may be combined, provided reference is made to the combined subsections.

The applicant shall report in detail all material changes in any of the facts set out in its application occurring while such application is pending before the Commission.

(d) Approval of any application shall not be construed as binding the Commission or the United States to grant to the applicant a construction-differential subsidy.

(e) The filing of an application for a construction-differential subsidy pursuant to these regulations shall be construed as authorizing the Commission to examine and audit the books, records, papers, and documents of the applicant, and of its holding, affiliated, or subsidiary companies, for the purposes of verifying or amplifying any of the facts, statements, or representations submitted in the application so filed.

ARTICLE III. CITIZENSHIP, IDENTIFICATION, AND FINANCIAL STATEMENTS

State or furnish the following particulars:

SEC. 1. *Citizenship and identification.*—(a) Full business name of applicant.

(b) State of incorporation. If applicant is an individual, firm, or partnership, give state of organization.

(c) Date of incorporation or organization.

(d) Location and address of principal place of business.

(e) Location and address of branch offices.

(f) Attach to the application a certified copy of the articles of incorporation and by-laws with all amendments thereto. If applicant is a partnership, attach certified copy of partnership agreement, as amended.

(g) Name, address, and nationality of all officers and directors, giving title of each and amounts of stock in each class owned by each. If applicant is a partnership, the name, address, and nationality of all partners, including limited partners.

(h) A list of all stockholders of record, showing the name and address of each stockholder and the number of shares of stock in each class owned by each stockholder.

(i) The terms of all voting agreements, voting trusts, or any arrangement whereby the voting rights in any stock of the applicant are owned, controlled, or exercised, or whereby the control of the applicant is in any way exercised by any person, firm, partnership, corporation, or association not the holder of legal title to such stock. Give the name, address, nationality, and business of any such person, firm, partnership, corporation, or association.

(j) A chart showing in full the holding, subsidiary, affiliated, and associate companies of the applicant, listing the directors, officers, and persons holding a majority of the stock in each of such companies.

SEC. 2. *Financial Statements.*—(a) State the capital stock of applicant, authorized and outstanding. Segregate according to class and give in full the incidents of each class.

(b) Furnish a balance sheet as of the end of the calendar year immediately preceding date of application of the applicant and of each holding, subsidiary, and affiliated company on appropriate exhibits and supporting schedules as included in the annual report and general financial statement prescribed by the Commission for that year.

(c) Furnish a surplus statement of the applicant for each of the four calendar years immediately preceding the year for which information is prepared under subsection (b) above on the regular surplus schedule as prescribed by the Commission in the aforesaid annual report and financial statement.

(d) Furnish an income statement of the applicant for the five calendar years immediately preceding the date of application on appropriate exhibit and all supporting schedules as included in the aforesaid annual report and financial statement prescribed by the Commission.

(e) Furnish for the calendar year during which application is filed a monthly income statement accumulated to the end of the month immediately preceding the date of the application and indicate the adjustments to surplus, if any, made during such period.

(f) All balance sheets and financial statements required by this section shall be duly certified by the principal finance or accounting officer of the applicant.

(g) State whether applicant has gone through any reorganization within ten years prior to date of application. If so, give full details as to the circumstances thereof.

(h) If applicant proposes to pay the Commission a sum equal to 25 per centum of the construction cost of the vessel to be paid to the Commission (excluding cost of national-defense features), pursuant to the provisions of sec. 502 (c) of the Act, state whether the amount of such cash payment is to be made from current assets or through issuance and sale of capital stock, and if the latter, give full particulars.

(i) If applicant proposes to finance the construction of the proposed vessel pursuant to the provisions of sec. 504 of the Act, state whether such proposed financing is to be borne by applicant from current assets or through issuance and sale of capital stock, and if the latter, give full particulars.

ARTICLE IV. SERVICES, ROUTES, OR LINES—ABILITY AND EXPERIENCE

(Wherever in this article the applicant is required to give the size of a vessel, the gross, net, and deadweight tonnage whenever possible should be stated)

SEC. 1. *Existing Services, Routes, or Lines.*—If applicant owns or operates vessels on a service, route, or line on which the proposed new vessel is to be operated, state the following information:

(a) Full details concerning the services, routes, or lines on which the applicant now owns or operates vessels including ports of call, terminal and dock facilities at all such ports, frequency of sailings per year, description of services and voyages, and number, name, age, size, type, speed, and registry of the vessels segregated according to services, routes, or lines.

(b) Type and kind of cargo now carried in the trade so served, and any information the applicant may have as to how the service or line may be developed for carrying additional types and kinds of cargo, and any factors, domestic or foreign, influencing cargo expectations for the future.

(c) If applicant proposes to replace a vessel now operated exclusively on a service, route, or line with said proposed new vessel, state:

(1) Name of the vessel proposed to be replaced and reasons for considering that such vessel is obsolete or inadequate for successful operation in such trade.

(2) Whether or not the applicant proposes to offer such vessel for sale to the Commission pursuant to the provisions of sec. 507 of the Act.

(d) State the changes, if any, in existing services, routes, or lines applicant contemplates effecting through the proposed construction of a new vessel and the reasons therefor.

SEC. 2. *Ability and Experience.*—State the periods of time with approximate dates that the applicant and its officers and employees have been engaged in executive capacity in the operation of vessels on services, routes, or lines in foreign commerce. Give statement of operating experience of applicant and such officers and employees.

SEC. 3. *Competing Services.*—(a) State whether or not other American or foreign owned vessels are now being operated in competition with applicant on the service, route, or line in foreign commerce on which the proposed new vessel is to be operated, and if so, state the name of the line and the owner and operator thereof, ports of call, frequency of sailings per year, description of services and voyages, and the name, age, size, type, speed, and registry of each vessel so operated.

(b) State any information the applicant has concerning proposed vessel construction or replacement by such foreign owners or operators.

SEC. 4. *New Services, Routes, or Lines.*—If applicant proposes to establish a new service, route, or line, state the following information:

(a) Full details concerning the proposed service, route, or line to be established, including ports of call, terminal and dock facilities at all such ports, frequency of sailings per year, description of proposed service and voyages, and the number, age, size, type, and speed of vessels to be operated on such service, route, or line.

(b) Type and kind of cargo expected to be carried, and any factors, domestic and foreign, influencing cargo expectations and pertinent information in respect to the potentialities of the trade.

ARTICLE V. GENERAL CHARACTERISTICS OF THE VESSEL

SEC. 1. The applicant shall furnish the general characteristics of the proposed new vessel including principal dimensions; gross and deadweight tonnage; bale and grain capacities of all cargo holds; capacities of all tanks, storage spaces, refrigerator cargo spaces and separately chilled cargo spaces; number and classes of passenger accommodations; type and power, and in case of steam machinery, the gauge pressure, total temperature, and vacuum expected of propulsive machinery; kind of fuel to be burned; and sustained sea speed at designed load draft.

SEC. 2. A comprehensive general description of the vessel shall be furnished, including a statement, by reference to and illustration from, the plans and specifications to be furnished, how the proposed construction will result in a vessel which will meet the needs of the service, route, or line for which intended, and the requirements of commerce with emphasis on the following factors—

(a) Cargo accommodations—cargo space and fittings and appliances for handling and stowing cargo.

(b) Passenger accommodations.

(c) Construction and design.

(d) Accommodations for officers and crews.

SEC. 3. *Furnish plans showing.*—

Outboard profile.
Inboard profile.
General arrangement of all decks and holds.
Midship section.
General arrangement of machinery, including the refrigerating machinery and any other special machinery as well as propulsive machinery.

ARTICLE VI. ADDITIONAL VESSEL DATA

After the foregoing information required under Articles I to V, inclusive, has been received and considered by the Commission, the applicant shall, when requested by the Commission, furnish the following information or data with respect to the vessel. Such information or data when so requested and furnished shall become a part of the application.

SEC. 1. *Hull Specifications.*—These specifications are to be in sufficient detail to cover fully the construction of the hull and shall include the following data:

Dimensions.
Block, prismatic and other coefficients.
Designed drafts, light and loaded.
Metacentric heights at full load, ⅔ cargo, ⅓ cargo, and at light condition.
Sustained sea speed at designed load draft (to be demonstrated as hereinafter required).
Radius of action at sustained sea speed at designed load draft.
Standard of subdivision adopted.
Bale and grain capacities of all cargo holds. Capacities of all tanks, store spaces, refrigerated cargo spaces, and chilled cargo spaces, in cubic feet.
Estimated deadweight and gross tonnage.
Total displacement.

SEC. 2. *Hull Plans.*—

Midship section, approved by Classification Society acceptable to the Commission.
Outboard profile, general arrangement.
Inboard profile, general arrangement.
General arrangement of all decks and holds.
Fire screen diagram, inboard profile.
Fire screen diagram, all decks.
Lines.
Hydrostatic curves.
Power curves, model tank experimental run shall be made at the designed load draft.
Floodable length curves, together with basic supporting data therefor, worked out by the method used by Bureau of Marine Inspection & Navigation, Department of Commerce.

Stability data and curves, showing the effect of damage resulting in flooding, in alternate locations, a compartment or group of adjacent compartments corresponding to the number of such compartments for which the ship is basically designed. The data presented should cover the effect of damage at drafts ranging from the departure condition to the arrival condition, with full cargo, ⅔ cargo and ⅓ cargo, and should show loss of metacentric height at such drafts due to damage, the metacentric height available before damage, and the amount of ballast, liquid or otherwise, required if necessary to insure positive residual stability in the event of damage.

SEC. 3. *Machinery Specifications.*—These are to be in sufficient detail to include the following data:

Type of main propelling machinery.
Shaft horsepower and propeller revolutions.
Percentage of propelling power in excess of normal power requirements.
Engine revolutions per minute for normal power.
Astern power in percentage of normal ahead power.
Steam pressure and total temperature at superheater outlet or, when no superheat is used, the steam pressure at boiler outlet.
Steam pressure and total temperature in high pressure steam chest.
Vacuum and the temperature of sea water.
Water rate, straight condensing (prime mover only).
Heat balance diagram.

The rate of fuel consumption per shaft horsepower per hour for all purposes, for average climatic conditions under which the vessel will normally operate, for either steam or diesel installation, as the case may be, shall be the result obtained by dividing the total weight in pounds of fuel consumed per hour by the shaft horsepower transmitted to the propeller shaft, when the main propelling machinery is developing the shaft horsepower specified for sustained sea speed. The shaft horsepower specified for sustained sea speed is the normal shaft horsepower, i. e., without any overload.

The characteristics of the fuel on which the fuel rate is based shall be submitted with the fuel rate. The applicant shall state the average temperature of the outside air and sea water in degrees Fahrenheit, representing average climatic conditions, upon which is based the computation of the rate of fuel consumption.

Diameter and pitch of propeller.
Type of drive and principal characteristics.
Particulars of all auxiliary machinery, including water rates of steam driven units.

SEC. 4. *Machinery Plans.*—

Arrangement of main propelling and auxiliary machinery.
Electrical generating plant.
Refrigerating plant.

SEC. 5. *Communication Facilities.*—

Data are required covering facilities for communication by radio, searchlight, sound or other means.

SEC. 6. *Particular Requirements Affecting Design.*—(a) The standard to be followed in regard to all types of vessels shall be as required by the report of the Committee on Commerce (United States Senate) made pursuant to Senate Resolution No. 7—74th Congress.

(b) The vessel must be entitled to receive from the American Bureau of Shipping certificates evidencing highest ratings or classifications in all particulars.

(c) Cargo vessels shall be at least one compartment ships.

(d) Provision for fuel and reserve feed water shall be sufficient to insure a radius of action of not less than six thousand (6,000) nautical miles at designed load draft and at the specified sustained sea speed, unless it can be shown that such a requirement will constitute a definite handicap.

(e) The stem is to be so designed as to make it suitable for the installation of paravane gear of the sliding shoe type.

(f) Necessary stiffening of deck shall be provided during construction of the vessel, suitable for mounting such guns as may be specified by the Navy Department after consideration of the plans.

(g) The specifications and plans must represent a vessel which in all her parts, appurtenances, equipment, and outfit will comply with all the laws of the United States applicable thereto, including the requirements of the Bureau of Marine Inspection & Navigation, Commerce Department, the Navy Department, and the United States Public Health Service, and all laws of all foreign countries whose ports will be visited by the vessel in the course of its regular operation.

By order of the United States Maritime Commission.

### EXECUTIVE ORDER

### AMENDING THE INSTRUCTIONS TO DIPLOMATIC OFFICERS AND THE CONSULAR REGULATIONS

By virtue of and pursuant to the authority vested in me by section 1752 of the Revised Statutes (U. S. C., title 22, sec. 132), it is ordered that section XV–4 of the Instructions to Diplomatic Officers and section 451 of the Consular Regulations be, and they are hereby, amended to read as follows:

*"Presents and testimonials.*—No diplomatic or consular officer shall ask or accept for himself or any other person, any present, emolument, office, or title of any kind from any king, prince, or foreign state. (U. S. Const., Art. I, sec. 9, cl. 8, U. S. C., title 22, § 126.) Any present, decoration, order, or testimonial in acknowledgment of services rendered to the citizens or governments of foreign states, or other thing, which shall be conferred on or presented by any foreign government to any officer of the United States, shall be tendered through the Department of State, and not to the individual in person, but such present, decoration, or other thing shall not be delivered by the Department of State unless so authorized by act of Congress. (5 U. S. C., § 115.)

"Thorough consideration was given by the Committee on Foreign Affairs of the House of Representatives in 1934 to the question whether the Congress should consent to the acceptance of presents, decorations, orders, medals, testimonials, or other things. It resulted in the enactment of the joint resolution approved June 27, 1934 (48 Stat. 1267), which authorized only certain *retired* officers and employees therein named to accept such decorations, orders, medals, or presents as had been tendered to them by foreign governments. Hence it appears to be the settled policy of the Congress to decline to authorize the acceptance by civilian officers of the Government in active service of presents, decorations, medals, orders, testimonials, or other things, when presented to or conferred on such officers by any king, prince, or foreign state. Furthermore, it is contrary to the policy of the Government to tender or to award presents, decorations, medals, orders, testimonials, or other things to representatives of foreign governments. In view of the attitude of the Congress and the policy of the Government, American diplomatic and consular officers are hereby *prohibited* from accepting in *any circumstances* any present, decoration, medal, order, testimonial, *or other thing* that may be tendered to them by any foreign king, prince, or foreign state."

### EXCLUDING CERTAIN TRACTS OF LAND FROM TONGASS NATIONAL FOREST AND RESTORING THEM TO ENTRY

*Alaska*

By virtue of and pursuant to the authority vested in me by the act of June 4, 1897, 30 Stat. 11, 36 (U. S. C., title 16, sec. 473), and upon the recommendation of the Secretary of Agriculture, it is ordered that the following-described tracts of land in Alaska, occupied as homesites and identified by elimination surveys, plats and field notes of which are on file in the General Land Office, Washington, D. C., be, and they are hereby, excluded from the Tongass National Forest and restored to entry under the applicable public-land laws:

Homesite No. 243, lot "I", Auke Lake group, Glacier Highway, in the vicinity of Juneau, 4.55 acres; approximate latitude 58°23'30" N., longitude 134°37'40" W.;

Homesite No. 368, lot "F", Triangle group, Glacier Highway, in the vicinity of Juneau, 4.82 acres; approximate latitude 58°22'40" N., longitude 134°38'10" W.;

## TREASURY DEPARTMENT.

### Bureau of Internal Revenue.

[T. D. 4729]

### ESTATE TAX

### REGULATIONS 80 AMENDED

*To Collectors of Internal Revenue and Others Concerned:*

Regulations 80, relating to the estate tax and approved November 7, 1934, are amended as set forth herein.

There is inserted immediately preceding article 15 the following statutory provision:

SECTION 805. (Revenue Act of 1936) *Revocable Transfers.*—(a) Section 302 (d) (1) of the Revenue Act of 1926, as amended, is amended to read as follows:

(d) (1) To the extent of any interest therein of which the decedent has at any time made a transfer (except in case of a bona-fide sale for an adequate and full consideration in money or money's worth), by trust or otherwise, where the enjoyment thereof was subject at the date of his death to any change through the exercise of a power (in whatever capacity exercisable) by the decedent alone or by the decedent in conjunction with any other person (without regard to when or from what source the decedent acquired such power), to alter, amend, revoke, or terminate, or where any such power is relinquished in contemplation of decedent's death.

(b) Except in the case of transfers made after the date of the enactment of this Act, no interest of the decedent of which he has made a transfer shall be included in the gross estate under such section 302 (d) (1) unless it was includible under such section before its amendment by this section.

The first, second and third paragraphs of article 15 are amended to read as follows:

ART. 15. *Transfers during life.*—The following classes of transfers made by the decedent prior to his death, whether in trust or otherwise, if not constituting bona fide sales for an adequate and full consideration in money or money's worth, are subject to the tax: (1) transfers in contemplation of death (see article 16); (2) transfers to the extent that title remained in the decedent at the time of his death and the passing thereof was conditioned upon his death (see article 17); (3) transfers under which the decedent reserved or retained (in whole or in part) the use, possession, rents, or other income or enjoyment of the transferred property, for his life, or for a period not ascertainable without reference to his death, or for a period of such duration as to evidence an intention that it should extend to his death; including also the reservation or retention of the use, possession, rents, or other income, the actual enjoyment of which was to await the termination of a transferred precedent interest or estate (see article 18); (4) transfers under which the decedent retained the right, either alone or in conjunction with another person or persons, to designate who should possess or enjoy the property or the income therefrom (see article 19); and (5) transfers under which the enjoyment of the transferred property was subject at decedent's death to a change through the exercise, either by the decedent alone or in conjunction with another person or persons, of a power to alter, amend, revoke, or terminate, or such a power was relinquished in contemplation of decedent's death (see articles 20 and 21).

The value of transferred property includible in the gross estate is the value thereof at the date of decedent's death, or if the executor has duly elected pursuant to the provisions of section 202 of the Revenue Act of 1935 (by which section subdivision (j) was added to section 302 of the Revenue Act of 1926, as amended) to have the value of the gross estate determined as of the dates therein prescribed, then the value will be that as of the applicable date or dates so prescribed (see article 13½ added to Regulations 80 by Treasury Decision 4699, approved September 25, 1936, I. R. B. XV–40–8340). If a portion only of the property was so transferred as to come within the terms of the statute, only a corresponding proportion of the value of the property should be included in ascertaining the value of the gross estate. If the transferee has made additions to the property, or betterments, the enhanced value of the property due thereto should not be included.

To constitute a bona fide sale for an adequate and full consideration in money or money's worth the transfer must have been made in good faith, and the price must have been an adequate and full equivalent reducible to a money value. If the price was less than such a consideration, only the excess of the fair market value of the property (as of the date of decedent's death, or as of the applicable date under such an election as is mentioned in the last preceding paragraph) over the price received by the decedent should be included in ascertaining the value of the gross estate. For the purposes of the tax a relinquishment or promised relinquishment of dower, curtesy, or of a statutory estate created in lieu of dower or curtesy, or of other marital rights in decedent's property or estate, is not to any extent a consideration in money or money's worth.

Article 17 is amended to read as follows:

ART. 17. *Transfers conditioned upon survivorship.*—The statutory phrase, "a transfer * * * intended to take effect in possession or enjoyment at or after his death", includes a transfer by the decedent (other than a bona fide sale for an adequate and full consideration in money or money's worth) whereby and to the extent that the beneficial title to the property (if the transfer was in trust), or the legal title thereto (if the transfer was otherwise than in trust), remained in the decedent at the time of his death and the passing thereof was subject to the condition precedent of his death. If the tax applies, it does so without regard to the time of the transfer, whether before or after the enactment of the Revenue Act of 1916.

On the other hand, if, as a result of the transfer, there remained in the decedent at the time of his death no title or interest in the transferred property, then no part of the property is to be included in the gross estate merely by reason of a provision in the instrument of transfer to the effect that the property was to revert to the decedent upon the predecease of some other person or persons or the happening of some other event.

Subdivision (a) of article 18 is amended to read as follows:

ART. 18. *Transfers with possession or enjoyment retained.*—(a) *Transfers included.*—The statutory phrase, "a transfer * * * intended to take effect in possession or enjoyment at or after his death," includes a transfer, whether in trust or otherwise, made subject to the reservation or retention by the decedent of the use, or the possession, or the rents or other income or enjoyment of the transferred property, or any part thereof, for his life, or for a period not ascertainable without reference to his death, or for such a period as to evidence his intention that it should extend at least for the duration of his life; including also the reservation or retention of the use, possession, rents, or other income the actual enjoyment of which, by the decedent, was to be postponed until the termination of a transferred precedent interest or estate. (See article 15.)

If for any such period the use, possession, rents or other income (in whole or in part) were to be disposed of in discharge of a legal obligation of the decedent or otherwise for his pecuniary benefit, then to that extent the use, possession, rents or other income will be treated as having been reserved to or retained by the decedent.

Article 19 is amended to read as follows:

ART. 19. *Transfers with right retained to designate who shall possess or enjoy.*—(a) *Transfers included.*—The statutory phrase, "a transfer * * * intended to take effect in possession or enjoyment at or after his death", includes a transfer, by trust or otherwise, in connection with which the decedent reserved or retained, either to himself alone or in conjunction with any other person or persons, the right during his life, or for a period not ascertainable without reference to his death, or for such a period as to evidence an intention that the right should continue for at least the duration of his life, to designate the person or persons who should possess or enjoy the transferred property (in whole or in part), or any of the income thereof. (See article 15.)

(b) *Taxability.*—If the transfer was not a bona fide sale for an adequate and full consideration in money or money's worth, the property or the interest or interests therein so transferred shall be included in the gross estate if falling within any one of the following paragraphs:

(1) Regardless of when the transfer was made, if decedent died after the enactment of the Revenue Act of 1916 (September 8, 1916), and the right to so designate was reserved at the time of the transfer and was subject to such an exercise as would determine the ultimate disposition of the property or of an interest or interests therein, and such right was exercisable by the decedent alone or in conjunction with a person or persons having no substantial adverse interest or interests in the property, or if exercisable in conjunction with a person having a substantial adverse interest or with several persons some or all of whom held such an adverse interest, then to the extent of any interest or interests held by a person or persons not required to join in the exercise of the right and any adverse interest which was not substantial.

(2) When the transfer was made after the enactment of the Revenue Act of 1916 (September 8, 1916) and the decedent died after the enactment of the Revenue Act of 1932 (5 p. m., eastern standard time, June 6, 1932), or the transfer was made and the decedent died after 10.30 p. m., eastern standard time, March 3, 1931, and the right to so designate was reserved at the time of the transfer and was not subject to such an exercise as would determine the ultimate disposition of the property or of an interest or interests therein, but was limited to a designation of the person or persons who should possess or enjoy the property or the income therefrom (in whole or in part) for the period of decedent's life, or for a period not ascertainable without reference to his death, or for a period of such duration as to evidence an intent that it should extend for the remainder of decedent's life, and such right was

exercisable by the decedent alone or in conjunction with a person or persons having no substantial adverse interest or interests in the transferred property, or if exercisable in conjunction with a person having a substantial adverse interest or with several persons some or all of whom held such an adverse interest, then to the extent of any interest or interests held by a person or persons not required to join in the exercise of the right and of any adverse interest which was not substantial.

(3) When the transfer was made and decedent died after the enactment of the Revenue Act of 1932 (5 p. m., eastern standard time, June 6, 1932) and the right to so designate was reserved at the time of the transfer, whether exercisable by decedent alone or in conjunction with a person or persons having or not having a substantial adverse interest or interests in the transferred property, or in conjunction with persons one or more of whom had and one or more of whom had not such an adverse interest.

As used in this article, the expression, "reserved at the time of the transfer", includes any understanding, expressed or implied, had in connection with the making of the transfer that the right to designate the person or persons who should possess or enjoy the property or the income therefrom should later be created or conferred.

Article 20 is amended to read as follows:

ART. 20. Transfers with power to change the enjoyment.—(a) *Transfers included.*—Subdivision (d) of section 302 of the Revenue Act of 1926, as amended, embraces a transfer by trust or otherwise (if not amounting to a bona fide sale for an adequate and full consideration in money or money's worth) when at the time of decedent's death the enjoyment of the transferred property, or some part thereof or interest therein, was subject to any change through a power exercisable either by the decedent alone, or by him in conjunction with some other person or persons, to alter, or amend, or revoke, or terminate. (See article 15.)

The addition to the subdivision, by section 805 of the Revenue Act of 1936, of the phrase to the effect that it is not material in what capacity the power was subject to exercise by the decedent or by the other person or persons in conjunction with the decedent, is considered as merely declaratory of the meaning of the subdivision prior to the addition of the phrase.

The second phrase added by amendment in 1936 (namely, "without regard to when or from what source the decedent acquired such power") is not considered declaratory of the meaning of the subdivision prior to the amendment in a case in which no one of the powers enumerated in the subdivision was reserved at the time of the making of the transfer, but one or more thereof was conferred subsequent thereto (whatever the source from which conferred) without any understanding, expressed or implied, had in connection with the making of the transfer that such power or powers should be later conferred.

The third change made in the subdivision by the Revenue Act of 1936 consisted of the addition of the words "or terminate" following the words "to alter, amend, revoke." Such addition is considered but declaratory of the meaning of the subdivision prior to the amendment. A power to terminate capable of being so exercised as to revest in the decedent the ownership of the transferred property or an interest therein, or as otherwise to enure to his benefit or the benefit of his estate, is, to that extent, the equivalent of a power to "revoke", and when otherwise so exercisable as to effect a change in the enjoyment, is the equivalent of a power to "alter."

(b) *Taxability.*—The property or the interest or interests therein so transferred shall be included in the gross estate if coming within any one of the following paragraphs:

(1) Regardless of when the transfer was made, if the decedent died after the enactment of the Revenue Act of 1916 (September 8, 1916), and the power was reserved at the time of the transfer and was exercisable by the decedent alone or in conjunction with a person or persons having no substantial adverse interest or interests in the transferred property, or if exercisable in conjunction with a person having a substantial adverse interest or with several persons some or all of whom held such an adverse interest, then to the extent of any interest or interests held by a person or persons not required to join in the exercise of the power and any adverse interest which was not substantial.

(2) When the transfer was made after the enactment of the Revenue Act of 1924 (4.01 p. m., eastern standard time, June 2, 1924) and before the amendment of the subdivision by the Revenue Act of 1936 became effective (June 23, 1936), and the decedent's death occurred at any time subsequent to the transfer, and the power was reserved at the time of the transfer and was exercisable by the decedent alone or in conjunction with a person or persons either having or not having a substantial adverse interest or interests in the transferred property, or in conjunction with persons one or more of whom had and one or more of whom had not such an adverse interest.

(3) When the transfer was made and the decedent died after June 22, 1936 (the date of the enactment of the Revenue Act of 1936), and the power was either reserved at the time of the transfer or later created or conferred, without regard to the source from which the power was acquired, and whether exercisable by the decedent alone or in conjunction with a person or persons either having or not having a substantial adverse interest or interests in the transferred property, or in conjunction with persons one or more of whom had and one or more of whom had not such an adverse interest.

As used in this and in the next succeeding article, the expression, "reserved at the time of the transfer", refers to a power which, having been reserved when the transfer was made, continued to the date of decedent's death (see the paragraph next following as to the conditions under which the power will be considered as existent at decedent's death) to be exercisable by decedent alone or by him in conjunction with some other person or persons, and includes any understanding, expressed or implied, had in connection with the making of the transfer that the power should later be created or conferred.

The power to alter, amend, revoke, or terminate will be considered to have existed on the date of the decedent's death though the exercise of the power was subject to a precedent giving of notice, or though the alteration, amendment, revocation, or termination would take effect only on the expiration of a stated period after the exercise of the power, whether or not on or before the date of the decedent's death notice had been given or the power had been exercised, or though the exercise of the power was restricted to a particular time or the happening of a particular event which had not arrived or occurred at decedent's death. When determining the value of the gross estate in such cases the full value of the property transferred subject to the power should be discounted for the period required to elapse between the date of decedent's death and the date upon which the alteration, amendment, revocation, or termination could take effect. (See article 13 (10).)

The provisions of this article do not apply to a transfer when the power may be exercised only with the consent of all parties having an interest, vested or contingent, in the transferred property, and the power adds nothing to the rights of the parties as conferred by the applicable local law.

Article 21 is amended to read as follows:

ART. 21. Power relinquished in contemplation of death.—If the decedent had previously held, either alone or in conjunction with another person or persons, a power to alter, or amend, or revoke, or terminate a transfer made by him, and the power was subsequently relinquished in contemplation of the decedent's death (the relinquishment not amounting to a bona fide sale for an adequate and full consideration in money or money's worth), then to the extent that the transferred property or any interest therein had been subject to such relinquished power it is to be included in the gross estate if coming within any one of the following paragraphs:

(1) Regardless of when the transfer was made, if the power was reserved at the time of the transfer and was relinquished and the decedent died after the enactment of the Revenue Act of 1916 (September 8, 1916), and the power was exercisable by the decedent alone or in conjunction with a person or persons having no substantial adverse interest or interests in the transferred property, or if exercisable in conjunction with a person having a substantial adverse interest or with several persons some or all of whom held such an adverse interest, then to the extent of any interest or interests held by a person or persons not required to join in the exercise of the power and any adverse interest which was not substantial.

(2) When the transfer was made after the enactment of the Revenue Act of 1924 (4.01 p. m., eastern standard time, June 2, 1924) and before the amendment of the subdivision by the Revenue Act of 1936 became effective (June 23, 1936), and the power was reserved at the time of the transfer and its relinquishment and the decedent's death subsequently occurred, and the power was exercisable by the decedent alone or in conjunction with a person or persons either having or not having a substantial adverse interest or interests in the transferred property, or in conjunction with persons one or more of whom had and one or more of whom had not such an adverse interest.

(3) When the transfer was made after June 22, 1936 (the date of the enactment of the Revenue Act of 1936), and the relinquishment of the power and the decedent's death subsequently occurred, and the power was either reserved at the time of the transfer or later created or conferred, without regard to the source from which the power was acquired, and whether exercisable by the decedent alone or in conjunction with a person or persons either having or not having a substantial adverse interest or interests in the transferred property, or in conjunction with persons one or more of whom had and one or more of whom had not such an adverse interest.

Within the meaning of this article, it is essential to a relinquishment of a power which is exercisable by the decedent in conjunction with another person or persons that the relinquishment by such other person or persons operates as a complete relinquishment of the power.

If the relinquishment be not admitted or shown to have been in contemplation of decedent's death, but occurred within two years prior to such death, and affected the interest or interests (whether arising from one or more transfers or the creation of one or more trusts) of any one beneficiary of a value or aggregate value in excess of $5,000 (as of the date of decedent's death, or as of the applicable date under such an election as is referred to in the second paragraph of article 15) then, to the extent of such excess, the relinquishment will be deemed, unless shown to the contrary, to have been in contemplation of decedent's death. (See article 15.)

Article 25 is amended by striking out the second sentence of the second paragraph, and inserting in lieu thereof the following:

Insurance is considered to have been taken out by the decedent, whether or not he made the application, if he acquired the ownership of, or any legal incident thereof in, the policy; but in the case of a decedent dying before November 7, 1934 (the date of the approval of Regulations 80), the provisions of the second paragraph of article 25 of Regulations 70 (1929 edition) will continue to apply.

Article 25 is further amended by striking out the last sentence thereof.

Article 36 is amended to read as follows:

ART. 36. *Claims against the estate.*—The amounts that may be deducted under this heading are such only as represent personal obligations of the decedent existing at the time of his death, whether or not then matured, and interest thereon which had accrued at the time of death. If, as authorized by subdivision (j) of section 302 of the Revenue Act of 1926, as amended (such subdivision having been added by section 202 of the Revenue Act of 1935), the executor has duly elected to have the value of the gross estate determined as of a date or dates prescribed in such subdivision, then the deduction on account of interest will be limited to the amount thereof accrued and unpaid at decedent's death, plus the interest earned between death and a date one year thereafter, unless the claim is sooner paid, in which case the amount of interest deductible will be the amount accrued to date of such payment. The deduction will include payments made of any interest accrued at decedent's death and payments of interest earned between death and one year thereafter, or between death and the date on which the claim was paid. Only claims enforceable against the decedent's estate may be deducted. If the claim is founded upon a promise or agreement, the deduction therefor is limited to the extent that the liability was contracted bona fide and for an adequate and full consideration in money or money's worth. Thus, a pledge or a subscription, evidenced by a promissory note or otherwise, even though enforceable against the estate, is deductible only to the extent that liability therefor was contracted bona fide and for an adequate and full consideration in cash or its equivalent. Liabilities imposed by law or arising out of torts are deductible. See Article 29 as to the relinquishment or promised relinquishment of dower and other marital interests.

Article 38 is amended to read as follows:

ART. 38. *Unpaid mortgages.*—Deduction is allowed of the full unpaid amount of a mortgage upon, or of an indebtedness in respect to, any property of the gross estate, including interest which had accrued thereon at the time of death, provided the value of the property, undiminished by the amount of the mortgage or indebtedness, is returned as part of the value of the gross estate. If decedent's estate is liable for the amount of the mortgage or indebtedness, the full value of the property subject to the mortgage or indebtedness must be included as part of the value of the gross estate; the amount of the mortgage or indebtedness being in such case allowed as a deduction. But if decedent's estate is not so liable, only the value of the equity of redemption (or value of the property, less the indebtedness) need be returned as part of the value of the gross estate. In no case may the deduction on account of the mortgage or indebtedness exceed the liability therefor contracted bona fide and for an adequate and full consideration in money or money's worth. If the executor has made the election referred to in the second sentence of article 36, the deduction on account of interest upon the mortgage or indebtedness will be limited to the amount thereof accrued and unpaid at decedent's death, plus the interest earned between death and a date one year thereafter, unless the mortgage or indebtedness is sooner paid or the property subject to the mortgage or indebtedness is sooner distributed, sold, exchanged or otherwise disposed of, the deduction in any such case being limited to the amount of interest accrued to the date of such payment, distribution, sale, exchange or other disposition. The deduction will include payments made of any interest accrued at decedent's death and payments of interest earned between death and one year thereafter, or between death and the date of payment of the mortgage or indebtedness, or the date on which the property subject thereto was distributed, sold, exchanged or otherwise disposed of. Real property, situated outside of the United States does not form a part of the gross estate, and no deduction may be taken of any mortgage thereon or any indebtedness in respect thereto.

Article 67 is amended to read as follows:

ART. 67. *Examination of return and determination of tax by the Commissioner.*—As soon as practical after returns are filed, they will be examined and the amount of the tax determined by the Commissioner under such procedure as he may from time to time prescribe.

If the executor makes written application to the Commissioner for a determination of the tax and discharge from personal liability therefor, the Commissioner will, within one year after receipt of such application, or if the application is made before the return is filed then within one year after the return is filed, notify the executor of the amount of the tax, and upon payment thereof, the executor will be discharged from personal liability for any deficiency in the tax thereafter found to be due. (See section 313 (b) and (c).)

Article 72 is amended to read as follows:

ART. 72. *Returns confidential.*—All estate tax returns and notices are treated as privileged communications and may not be exhibited, or the contents thereof divulged, to any person other than the executor or his duly authorized attorney or agent, except as prescribed in rules and regulations which may be separately issued upon the subject. This confidential treatment extends to records in possession of the Bureau of Internal Revenue, whether on file with the Commissioner, collector, or revenue agent, including information submitted or obtained in connection with a return. Internal revenue officers are not prohibited from disclosing the returned value of any item or the amount of any deduction, if such disclosure is necessary in order to arrive at the correct determination of the tax, but such right of disclosure does not extend to such information as the amount of the estate, the amount of tax, or other general data. If a copy of the return is desired because no copy was retained by the executor, or the retained copy has been lost or destroyed, or for other satisfactory reason, a copy may be furnished by the Commissioner to the executor, or to his authorized attorney or agent, upon payment of the fee prescribed.

Article 73 is amended by striking out the first and second paragraphs thereof.

This Treasury Decision is prescribed pursuant to the authority contained in section 1101 of the Revenue Act of 1926, 44 Stat. 111.

*Commissioner of Internal Revenue.*

2. That the allotments fixed herein shall not be assigned or transferred without the approval of the Secretary, or his duly appointed agent.

3. That where surplus stocks of sugar have been processed from growers' surplus sugarcane, and settlement with growers has been made in terms of sugar, such growers' surplus sugar shall share in the allotment herein made to the processors on a pro rata basis.

4. That whenever any person is aggrieved because of any allotment made to him, or to any other person, or because he has received no allotment, or because of any provision herein, he may make application in writing under oath to the Secretary for the adjustment of any allotment, or for the issuance of an allotment, or for the modification of any provision herein, which application shall fully set forth his complaint and the facts in support thereof. If upon the basis of such application, the Secretary has reason to believe that the complaint is well founded, he will give due notice and opportunity for the interested persons to be heard on such application. Upon the basis of the record obtained at such hearing, the Secretary may grant or deny, in whole or in part, said application.

If any provision herein is declared invalid, in whole or in part, the validity of the remaining provisions shall not be affected thereby, and if any provision is declared inapplicable to any person or circumstance, the applicability of such provision to any other person or circumstance shall not be affected thereby.

The Chief, or the Acting Chief, of the Sugar Section of the Agricultural Adjustment Administration, and the Officer in Charge of the San Juan office of the Sugar Section of the Agricultural Adjustment Administration, or the Acting Officer in Charge thereof, are hereby designated to act, jointly or severally, as agents of the Secretary of Agriculture in administering the provisions of this order.

In testimony whereof, Harry L. Brown, Acting Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the city of Washington, District of Columbia, this 22nd day of March 1937.

## FARM CREDIT ADMINISTRATION.

[FCA 33]

PARTICIPATION OF THE HOLDERS OF IMPAIRED CLASS B STOCK IN THE PROCEEDS OF LIQUIDATION OF A PRODUCTION CREDIT ASSOCIATION

AMENDMENT OF SECTION 104-1 OF THE RULES AND REGULATIONS FOR PRODUCTION CREDIT ASSOCIATIONS

Pursuant to the authority conferred upon the Governor of the Farm Credit Administration by the Farm Credit Act of 1933, particularly section 20 thereof, and pursuant to section 65 of said Act, the fifth (final) paragraph of section 104-1 is hereby amended to read as follows:

In case an association is liquidated, voluntarily or otherwise, while an impairment exists in the par value of any of its outstanding class B stock, its respective class B stockholders shall be entitled to participate in the net assets available for distribution among class B stockholders, to the extent only of the fair book value(s) of their respective shares at the time of such distribution. In the determination of such fair book value(s), the basis shall be the fair book value(s) last previously established by the board of directors which was (were) followed by the issuance of new shares of class B stock at par. If, upon liquidation, the amount of the net assets available for distribution among class B stockholders is found to be less than the aggregate of such basic fair book values, the resulting deficiency shall be treated as an impairment (or further impairment) of such basic fair book value(s). If, upon liquidation, the amount of the net assets available for distribution among class B stockholders is found to be greater than the aggregate of such basic fair book values, the resulting surplus shall be applicable, first, to the elimination (restoration) of any impairments reflected in such basic fair book value(s) and, second, to increasing the fair book value of all shares of class A and class B stock outstanding to an equal value per share above par.

## FEDERAL HOME LOAN BANK BOARD.

**Home Owners' Loan Corporation.**

[Manual Amendment]

AUTHORIZING REGIONAL ACCOUNTANT TO USE CORPORATION'S SEAL

*Be it resolved,* That pursuant to the authority vested in the Board by Home Owners' Loan Act of 1933 (48 Stat 128, 129) as amended by Sections 1 and 13 of the Act of April 27, 1934 (48 Stat. 643-647) and particularly by Sections 4-a and 4-k of said Act as amended, Section 800 of the Consolidated Manual is hereby amended by adding a new paragraph, designated (m) to read as follows:

The Regional Accountant, or his deputy authorized to sign statements of account, is vested with the authority to affix the official seal of the Corporation whenever required upon statements of account in connection with his authentications thereof, and is authorized to have access to the seal of the Corporation for that purpose.

Adopted by the Federal Home Loan Bank Board on March 22, 1937.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE TEXAS-BLACK FARM, FILED ON MARCH 15, 1937, BY JOHN G. ELLINGHAUSEN, RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)), AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the

respondent named therein is incomplete or inaccurate in the following material respects, to wit:

In that in Division III under the heading "Saturation" it is stated that "in this calculation a saturation factor of 70% is used", whereas in the actual calculation the figure "75%" is used;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 21st day of April, 1937; that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Charles S. Lobingier, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 6th day of April, 1937, at 10:00 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)), AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that the offering sheet is not properly signed by reason of the fact that the signature of the offeror is omitted, as is also the date;

(2) In that Exhibit A is incomplete in the following particulars:

(a) date omitted;
(b) scale omitted;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 21st day of April, 1937; that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

IN THE MATTER OF AN OFFERING SHEET OF A WORKING INTEREST IN THE H. C. DRILLING CORPORATION-VAN SCOY-MALLORY FARM, FILED ON MARCH 17, 1937, BY HAROLD C. STAYSA, RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)) AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that the offering sheet appears to affect interests in four non-contiguous tracts, which interests are not believed to be those as are described under Rule 335, Regulation B, of the General Rules and Regulations;

(2) In that the date set forth in Division I, paragraph 7, may not be correct;

(3) In that many of the sub-titles are not designated as required by Schedule D;

(4) In that the statement made under Division II, Item 3 (d), is apparently in conflict with the answer to the question under Division II, Item 3 (f);

(5) In that the statement is made in Division II, Item 7, that "the purchaser does not become a party to any management or operating contract", whereas it appears from an examination of Exhibit B that said statement may not be correct; further, that the information disclosed under Division II, Item 9, also appears to be in conflict with the statement above quoted;

(6) In that the statement made in Division II, Item 16 (a) (ii), may not be correct as it appears such answer should properly read "*excluding* income taxes";

(7) In that it appears from the information disclosed under Division II, Item 9, that the statement made in Division II, Item 25, may be incomplete and therefore misleading;

(8) In that the signature of the offeror affixed to the offering sheet is not dated;

(9) In that the legal descriptions of the properties involved, as disclosed by Exhibit A, Exhibit B and the attorney's opinion, do not agree by reason of the fact that Exhibit B appears to cover portions of lots 13, 15, 4 and 32, whereas Exhibit A appears to cover portions of lots 13, 15, 4 and 2 and the attorney's opinion seems to affect lots 11, 13, 4, 5 and 15;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 21st day of April, 1937; that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Charles S. Lobingier, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 6th day of April, 1937, at 10:30 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

### Agricultural Adjustment Administration.

SR—B-101—Amendment 7

1937 AGRICULTURAL CONSERVATION PROGRAM

SOUTHERN REGION BULLETIN 101

*Amendment 7*

Part VI of Southern Region Bulletin 101 is hereby amended by adding at the end thereof the following new section:

SECTION 67. The Agricultural Adjustment Administration will make available at Sheffield, Alabama, a supply of triple superphosphate (approximately 43 percent superphosphate) which, within the limit of such supply, may, upon request filed with the County Agent on Form SR–123, be obtained for application on the farm in accordance with the provisions of practice number 11. If triple superphosphate is so obtained a deduction of 50 cents for each 16 pounds of available phosphoric acid contained therein shall be made from the soil-building allowance for the farm, and no payment will be made for carrying out practice number 11 with the use of such triple superphosphate.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 24th day of March, 1937.

## FEDERAL HOME LOAN BANK BOARD.

ISSUANCE OF CONSOLIDATED FEDERAL HOME LOAN BANK DEBENTURES

AMENDMENT TO RULES AND REGULATIONS

*Be it resolved*, That pursuant to the authority vested in the Board by the Federal Home Loan Bank Act (47 Stat. 725, 727, et seq.) and (47 Stat. 725, 733, 734) as amended by Section 503 of the National Housing Act (48 Stat. 1246, 1261), and particularly by sections 17 and 26 of the Federal Home Loan Bank Act and section 11 (b) thereof as amended by section 503 of the National Housing Act, section 32 (j) of the Rules and Regulations for Federal home loan banks is hereby amended to read as follows:

SEC. 32 (j) *Consolidated Debentures.*—(1) *Act.*—The board may issue consolidated Federal Home Loan Bank debentures which shall be the joint and several obligations of all Federal Home Loan Banks organized and existing under this Act, in order to provide funds for any such bank or banks, and such debentures shall be issued upon such terms and conditions as the board may prescribe. No such debentures shall be issued at any time if any of the assets of any Federal Home Loan Bank are pledged to secure any debts or subject to any lien, and neither the Board nor any Federal Home Loan Bank shall have power to pledge any of the assets of any Federal Home Loan Bank, or voluntarily to permit any lien to attach to the same while any of such debentures so issued are outstanding. The debentures issued under this section and outstanding shall at no time exceed five times the total paid-in capital of all the Federal Home Loan Banks as of the time of the issue of such debentures. It shall be the duty of the board not to issue debentures under this section in excess of the notes or obligations of member institutions held and secured under section 10 (a) of this Act by all the Federal Home Loan Banks.

SEC. 11 (b) The Federal Home Loan Bank Act as Amended.

(2) *Regulations—Issuance of Debentures.*—The Board shall determine the amount of all consolidated debentures to be issued, dates of issue, maturities, rates of interest, terms and conditions thereof and the manner in which the debentures shall be issued. When in the opinion of the Board it is desirable to issue consolidated debentures, the Board may direct the Governor to submit, after such communication with the several banks as may be practicable, recommendations as to the particulars of such issue, or may direct the Governor to convene the Bank Presidents' Council or submit such question to the Federal Savings & Loan Advisory Council for the purpose of making such recommendations. In any event the Governor shall inform the several banks of the final determination of the Board with respect to debentures, the issue and disposition thereof. The Board will thereafter authorize the issuance and disposition of the debentures provided for and the distribution of any proceeds thereof among the several banks. Subject to the provisions of the Federal Home Loan Bank Act, the Board, by limiting the issuance of debentures or, if and as required to give effect to this provision, by retiring debentures when permitted by the redemption provisions, will limit the aggregate obligations, including outstanding debentures, of all the Federal home loan banks (except obligations of one Federal home loan bank to another Federal home loan bank) to an amount not exceeding at any time five times the total paid-in capital, reserves, and surplus of all of the Federal home loan banks. And, furthermore, debentures having maturities of one year or less from date of issue will not be issued in an amount which, together with the amount of any such debentures then outstanding and other obligations maturing

within one year (except obligations of one Federal home loan bank to another Federal home loan bank) shall exceed, at the time of issue, the aggregate amount then invested in obligations of or guaranteed by the United States, deposits in banks or trust companies (except deposits by one Federal home loan bank in another Federal home loan bank), advances with a maturity of not exceeding one year, sums due within one year as amortization of principal of advances, and securities legal for trust funds except obligations issued under the Federal Home Loan Bank Act.

(3) *Regulations—Form of Debentures.*—The consolidated debentures shall be issued in series and all the debentures of the same series shall be of like date, tenor and effect except as to denominations, which shall be any or all of the following: $100, $500, $1,000, $5,000, $10,000, and $100,000. The form of registered debenture, of coupon debenture and of coupon shall be as set out in Exhibits G, H and I, annexed to the Rules and Regulations, provided that the Board may make in such forms such changes as are deemed expedient, and provided further that the Board may in its discretion from time to time issue interim receipts temporarily in lieu of definitive debentures in such forms and such manner as it may determine. The consolidated debentures shall be executed in the name of the Federal Home Loan Bank Board and authenticated by the facsimile signature of its Chairman and the seal of the Federal Home Loan Bank Board shall be affixed, attested by the Secretary of the Federal Home Loan Bank Board by facsimile signature. The debentures shall be payable at any Federal home loan bank or at such agency or agencies as the Federal Home Loan Bank Board may designate from time to time. A coupon debenture shall be payable to bearer and shall have attached interest coupons representing interest payable semi-annually, such coupons being signed by the Federal Home Loan Bank Board by the facsimile signature of its Comptroller. A registered debenture shall be payable to the person registered as owner whose name is inscribed thereon, or his registered assigns. The registration books are maintained on behalf of the Federal Home Loan Bank Board in the Division of Loans and Currency of the United States Treasury Department.

(4) *Regulations—Transactions (Transfers, exchanges, redemptions, etc.).*—The general regulations of the Treasury Department governing transactions in Treasury bonds and notes of the United States, as are now or may hereafter be prescribed from time to time by the Secretary of the Treasury, are hereby adopted as the regulations of the Federal Home Loan Bank Board for similar transactions in the consolidated debentures, so far as applicable.

(5) *Regulations—Redemption prior to maturity.*—The terms and conditions prescribed by the Board, with respect to any series of debentures and set forth in the text thereof, may include provisions for the redemption on any interest day or days, at any time prior to maturity, of any or all debentures of that series at such price not less than par as the Board may determine, and accrued interest. Two months' notice of redemption shall be given by publication in the Federal Register, or in a newspaper printed in the English language, published and of general circulation in the District of Columbia. In case of partial redemption the debentures to be redeemed will be determined by such method as may be prescried by the Board.

(6) *Regulations—Lost, Stolen, or Destroyed Debentures and Interim Receipts.*—The Statutes of the United States now or hereafter in force governing relief on account of the loss, theft, destruction, or mutilation of United States bonds, and the regulations of the Treasury Department, now or hereafter in force, governing the issuance of duplicates or the payment of lost, stolen, destroyed or mutilated bonds of the United States, so far as applicable, are hereby adopted as the regulations of the Federal Home Loan Bank Board for the issuance of duplicates or the payment of lost, stolen, destroyed, or mutilated consolidated debentures and interim receipts of the Federal home loan banks. The Secretary of the Treasury, or the Acting Secretary of the Treasury, is hereby authorized and empowered, on behalf of the Federal Home Loan Bank Board and the Federal home loan banks, to approve applications for relief and bonds of indemnity, and to issue duplicates or make payment of consolidated debentures and interim receipts of the Federal home loan banks. The Secretary, the Under Secretary, or any Assistant Secretary of the Treasury is hereby authorized to waive such regulations of the Federal Home Loan Bank Board on behalf of the Federal Home Loan Bank Board at his discretion in any particular case where a similar waiver would be allowed with respect to United States bonds; and the Secretary of the Treasury, or the Acting Secretary of the Treasury, is hereby authorized and empowered, as the agent of the Federal Home Loan Bank Board and the Federal home loan banks, to administer the foregoing provisions for relief and the regulations with respect thereto, and to delegate such authority at his discretion, to other officers and employees of the United States Treasury Department: *Provided*, That such delegation of authority shall not extend to powers herein expressly conferred upon the Secretary, Acting Secretary, Under Secretary, or Assistant Secretaries of the Treasury.

(7) *Regulations—Default.*—If any Federal Home Loan Bank shall fail to pay its proportion of interest or principal, determined by the extent of its participation, the Board will immediately call upon the other Federal home loan banks to make deposit of the amount necessary to meet said payment, the deposit to be made in such manner and in such amount as the Board may determine. Upon default of any obligations, a Federal home loan bank may be liquidated or reorganized by the Board.

(8) *Regulations—Amendments.*—The Federal Home Loan Bank Board reserves the right, at any time or from time to time, to revoke or amend these regulations, or to prescribe, and issue supplemental or amendatory rules and regulations governing consolidated Federal home loan bank debentures.

Adopted by the Federal Home Loan Bank Board on March 23, 1937.

EFFECTIVE PERIOD OF CARRIERS TAXING ACT EXTENDED

REGULATIONS 93, AMENDED

*To Collectors of Internal Revenue and Others Concerned:*

Public Resolution No. 9, Seventy-fifth Congress, approved February 27, 1937, entitled "Joint Resolution To amend the Act entitled 'An Act to levy an excise tax upon carriers and an income tax upon their employees, and for other purposes', approved August 29, 1935"[1] provides as follows:

That section 12 of the Act entitled "An Act to levy an excise tax upon carriers and an income tax upon their employees, and for other purposes", approved August 29, 1935, is amended by striking out "February 28, 1937" and inserting in lieu thereof "June 30, 1938".

To give effect to the foregoing provision of law, Regulations 93, approved March 11, 1936 are amended as follows:

(1) Article 1 (a) is amended by inserting after the parenthetical phrase therein, the words "as amended by Public Resolution No. 9, Seventy-fifth Congress, approved February 27, 1937".

(2) Articles 201, 301, 402, 501 and 609 are amended by striking out "February 28, 1937" wherever appearing therein and by inserting in lieu thereof "June 30, 1938".

(3) Article 401 is amended to read as follows:

ART. 401. *Quarterly returns of employees' tax and carriers' tax* — For the period beginning March 2, 1936, and ending May 31, 1936, and for each subsequent period of three calendar months ending on August 31, November 30, the last day of February, and May 31, each carrier shall prepare a return, in quadruplicate, on the prescribed form.

(4) The first sentence of the first paragraph of article 504 is amended to read as follows:

For the period beginning March 2, 1936, and ending May 31, 1936, and for each subsequent period of three calendar months ending on August 31, November 30, the last day of February, and May 31, each representative shall prepare a return, in quadruplicate, on the prescribed form.

(5) The following is inserted immediately preceding article 609:

Public Resolution No. 9,
Seventy-fifth Congress
Approved February 27, 1937.

That section 12 of the Act entitled "An Act to levy an excise tax upon carriers and an income tax upon their employees, and for other purposes", approved August 29, 1935, is amended by striking out "February 28, 1937" and inserting in lieu thereof "June 30, 1938."

This Treasurer Decision is prescribed under the authority contained in section 1101 of the Revenue Act of 1926, made applicable by section 8 (c) of the Act entitled "An Act to levy an excise tax upon carriers and an income tax upon their employees, and for other purposes", as amended.

OWYHEE PROJECT—OREGON-IDAHO

PUBLIC NOTICE OF ANNUAL WATER RENTAL CHARGES[1]

MARCH 10, 1937.

Announcement is hereby made that water will be furnished during the irrigation season of 1937 (from April 15, to October 15, inclusive) for the irrigation of project lands, hereinafter described, upon a water rental basis, at rates and upon terms following:

For privately-owned lands in the Owyhee Irrigation District under the Kingman and Mitchell Butte laterals, and under the North Canal in the following sections:

Sections 2, 3, 4, 5, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, and N½ Sec. 22, Township 21 South, Range 46 East;
Sections 1, 2, 3, E½ of 4, 8, 9, 10, 11, 14, 15, 16, 17, 19, 20, 21, 22, 23, 26, 27, 28, 29, 30, 33, and 34, Township 20 South, Range 46 East, W. M.;
Sections 33, 34, and 35, Township 19 South, Range 46 East, W. M.;

A minimum charge of one dollar ($1.00) per acre for each irrigable acre whether irrigated or not, payable by the district in advance of delivery of water, for which amount two and six-seventh (2⅞) acre-feet of water per acre will be furnished. Thirty-five cents ($0.35) per acre-foot will be charged for any additional water furnished to any tract or farm unit in excess of two and six-sevenths acre-feet per irrigable acre, payable by the district December 1, 1937.

For other lands under the North Canal in the Owyhee Irrigation District:

A minimum charge of $1.00 per acre for the lands actually irrigated for two and six-sevenths acre-feet per acre per annum and payable by the district in advance of delivery of water. Thirty-five cents ($0.35) per acre-foot for any additional water furnished, payable by the district December 1, 1937.

Water for the Owyhee Irrigation District will be delivered and measured at the nearest tap and weir to the individual farm.

For lands in the Kingman Colony Irrigation District:

A minimum charge of $1.00 per irrigable acre for two and six-sevenths acre-feet per acre per annum, payable by the district for each irrigable acre contained therein, in advance of the delivery of water. Thirty-five cents ($0.35) per acre-foot for any additional water furnished, payable by the district on December 1, 1937.

Water for the Kingman Colony Irrigation District will be measured and considered to be furnished to the district where delivered into the canal system of the district.

For lands in the Advancement Irrigation District:

A minimum charge of $1.00 per irrigable acre for two and six-sevenths acre-feet per acre per annum, payable by the district for each irrigable acre contained therein, in advance of the delivery of water. Thirty-five cents ($0.35) per acre-foot for any additional water furnished, payable by the district on December 1, 1937.

Water for the Advancement Irrigation District to be measured at the outlets of the North and South Advancement pumps.

For lands in the Ontario-Nyssa Irrigation District:

A minimum charge of three thousand one hundred fifty dollars ($3,150) for nine thousand (9,000) acre-feet of water, payable by the district in advance of delivery of water. Thirty-five cents ($0.35) per acre-foot for any additional water furnished, payable by the district on December 1, 1937.

Water for the Ontario-Nyssa Irrigation District will be delivered and measured into the Ontario-Nyssa canal at the head and at a feeder near the oil well and at other points mutually agreed on by the district and the Reclamation Bureau.

For lands in the Gem Irrigation District:

For old lands in the district, a minimum charge of three thousand five hundred dollars ($3,500) for ten thousand (10,000) acre-feet, payable by the district in advance of delivery of water. Thirty-five cents ($0.35) per acre-foot for any additional water furnished, payable by the district on December 1, 1937.

For new lands in the district, water may be furnished if and when available, depending on the progress of construction;

Thirty-five cents ($0.35) per acre-foot for water furnished, payable by the district when ordered, with a minimum payment of ten dollars ($10.00).

Water for the old lands of the Gem Irrigation District will be delivered into the A canal at the head and at the feeder near Jump Creek and measured at these points.

Water for the new lands will be delivered and measured at the nearest tap and weir to the individual farms.

For lands in the Payette-Oregon Slope, Bench and Crystal Irrigation Districts:

A minimum charge of one dollar ($1.00) per irrigable acre for two and six-sevenths (2⅞) acre-feet per acre per annum, payable by the respective districts for each irrigable acre contained therein in advance of delivery of water. Thirty-five cents ($0.35) per acre-foot for any additional water furnished, payable by the respective districts on December 1, 1937.

Water for the Payette-Oregon Slope, Bench and Crystal Irrigation Districts will be delivered and measured at the nearest tap and weir to the individual farms.

In determining the amount of water delivered on which rental charges will be based, in the case of the Kingman Colony, Advancement, Ontario-Nyssa, and the old lands of the Gem Irrigation District, deduction of ten percent (10%) will be made from the amounts measured at points of delivery to the respective districts as an allowance for losses in the district canals.

Applications for water on the basis of this public notice will be received at the office of the United States Bureau of Reclamation at Boise, Idaho, P. O. Box 937, and payments shall be made to that office.

DEPARTMENT OF AGRICULTURE.

**Agricultural Adjustment Administration.**

ECR—B-101—Johnson County, Tennessee Issued March 24, 1937

1937 AGRICULTURAL CONSERVATION PROGRAM—EAST CENTRAL REGION

BULLETIN 101—JOHNSON COUNTY, TENNESSEE

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, as amended, payments will be made, in connection with the effectuation of the purposes of section 7 (a) of said Act for 1937, in accordance with the provisions of this East Central Region Bulletin 101—Johnson County, Tennessee, and such modifications or other provisions as may hereafter be made.

The 1937 Agricultural Conservation Program has been developed in accordance with the provisions of sections 8, 15, and 16 of the Soil Conservation and Domestic Allotment Act, but the payment of any benefits pursuant to the provisions of this bulletin is contingent upon such appropriation, if any, as the Congress of the United States may hereafter make for such purpose, and the amounts of such payments will be finally determined by such appropriation and the extent of participation in the program. The rates of payment and the general farm allowance set forth herein are computed upon the basis of an appropriation of $500,000,000 for the 1937 program for the Nation and 85 percent participation by farmers. The payments calculated in accordance with the provisions of part I of this Bulletin 101 may be increased or decreased depending upon the extent of participation in the East Central Region, but any such variation will not be in excess of 10 percent.

*Part I. Rates and Conditions of Payment*

Payment will be made in connection with the utilization in 1937 of the land on any farm in Johnson County, Tennessee, in the amounts and subject to the conditions hereinafter set forth.

SECTION 1. *Payment for Diversion from Tobacco Soil-Depleting Bases.*—Payment will be made, at the rate of 5 cents per pound of the base yield per acre of tobacco for the farm, for each acre (or fraction thereof rounded to the nearest tenth of an acre) diverted from the tobacco soil-depleting base, not in excess of 25 percent of such base. Such diversion shall be in conjunction with the carrying out of the farming program established for the farm in accordance with Section 3 below.

SECTION 2. *General Farm Allowance.*—The general farm allowance is the maximum payment which can be earned for carrying out the farming program established for the farm. This allowance will be $1.00 for each acre of cropland in the farm, *provided* that in no event will the general farm allowance for any farm be less than $20.00.

SECTION 3. *Establishment of Farming Program.*—A farming program will be established for the farm for 1937, upon submission by the operator and approval by the County Committee acting under the supervision and direction of the East Central Division. Such program will include the following:

(a) Growing an acreage of tobacco not in excess of the tobacco soil-depleting base for the farm. (If the 1937 acreage of tobacco on the farm is less than the tobacco soil-depleting base, the provisions of Section 1 above will be applicable.)

(b) Growing an acreage of general soil-depleting crops not in excess of the general soil-depleting base for the farm.

(c) Growing not less than the minimum acreage of soil-conserving crops specified for the farm.

(d) Carrying out such of the soil-building practices listed in section 4 below as are specified for the farm.

The specified minimum acreage of soil-conserving crops and the specified soil-building practices will be recommended by the operator and the County Committee and shall be such as will best tend to meet the needs of the farm for soil restoration and conservation and prevention of erosion, taking into consideration the past production of crops, the size of the farm, type of soil, topography, and farming practices.

SECTION 4. *Soil-Building Practices.*—Any of the soil-building practices listed in this section 4 carried out by such methods and with such kinds and quantities of seeds, trees, and other materials as conform to good farming practice may be specified as a soil-building practice in the farming program.

(a) *Seeding Legumes or Perennial Grasses.*—Seeding approved seeds of any of the following crops: Alfalfa, red clover, mammoth clover, sericea, bluegrass, Austrian winter peas, vetch; crimson clover, alsike clover, sweet clover, annual lespedeza, orchard grass, white clover, redtop, timothy, or any mixture of grasses or legumes listed in this subsection (a).

(b) *Growing Green Manure and Cover Crops.*—Plowing or discing under as green manure any of the crops named in this subsection (b) after the crop has attained a normal growth of at least two months, or leaving on the land any of these crops grown in 1937: soybeans, velvet beans, cowpeas, crimson clover, Austrian winter peas, vetch, rye, barley, wheat, buckwheat, Italian ryegrass, oats, small grain mixtures, Sudan grass, millet, or sorghum, plowed or disced under; lespedeza, soybeans, velvet beans, or cowpeas, not grazed or pastured, when all of the forage is left on the land.

(c) *Planting Forest Trees.*—Planting forest trees, including post-producing species.

(d) *Improving Stands of Forest Trees.*—Improving the stand of forest trees by thinning or pruning trees on woodland from which grazing is excluded, to develop approximately 100 potential timber trees of desirable species, well distributed over an acre of woodland.

(e) *Improving Land by the Use of Ground Limestone.*—Applying not less than 1,000 pounds per acre of ground limestone or its equivalent [1] on cropland or non-crop pasture land, or not less than 500 pounds per acre, if the application is made by drilling with the seed of any legume or perennial grass listed in subsection (a) of this section 4.

(f) *Improving Land by Use of Superphosphate.*—Applying not less than 100 pounds per acre of 16 percent superphosphate or its equivalent,[2] on any permanent pasture or in connection with seeding or maintaining any legume or perennial grass listed in subsection (a) of this section 4, or in connection with any green manure crop plowed or disced under as provided in subsection (b) of this section 4.

If the superphosphate is to be applied in connection with a legume or perennial grass listed in subsection (a) of this section 4 seeded in connection with a soil-depleting crop, only one-half the number of pounds so applied will be considered as being used in carrying out this practice.

In connection with this practice the Agricultural Adjustment Administration will make available at Sheffield, Alabama, a supply of triple superphosphate (approximately 43 percent available $P_2O_5$) which, within the limit of such supply, may, upon request filed at the County Office, be obtained for application on the farm in accordance with the foregoing provisions of this subsection (f). If triple superphosphate is so obtained, deduction will be made, from any payments which otherwise would be made with respect to the farm, as provided in subsection (h) of section 5 of this Part I.

(g) *Control of Erosion by Terracing.*—Terracing cropland or non-crop pasture land which the County Committee finds is in need of terracing, with a sufficient amount of properly constructed terrace to give adequate protection against erosion.

SECTION 5. *Payment for Carrying Out Farming Program.*—The payment for carrying out the farming program established for the farm will be the general farm allowance, except that if the farming program is only partially carried out the payments which otherwise would be made with respect to the farm will be decreased by one dollar for each point by which the County Committee, acting under the supervision of the East Central Division, finds that the farming program has not been carried out in accordance with good farming practice; *provided*, however, that such deduction shall first be made from the payment for carrying out the farming program. Any soil-building practice (except that involving the use of triple superphosphate) which has been carried out with labor, seed, or other materials furnished in whole or in part by any State or Federal agency shall be treated as if it had not been carried out. For the purpose of determining the number of points for which deductions will be made each of the following items shall have the value in points shown therefor:

(a) Each acre (or fraction thereof rounded to the nearest tenth of an acre) of tobacco in excess of the base tobacco acreage for the farm: 50 points.

(b) Each acre (rounded to the nearest whole acre) of general soil-depleting crops in excess of the general soil-depleting base for the farm: 8 points; *provided* that no deduction will be made for general soil-depleting crops in excess of the base if such crops are required for home consumption on the farm or if the County Committee finds that such crops are grown in order to replace a shortage of feed crops on the farm caused by drouth, flood, or other unfavorable weather conditions in 1936 or 1937.

(c) Each acre (rounded to the nearest whole acre) by which the acreage of soil-conserving crops on the farm in 1937 falls below the specified minimum acreage of soil-conserving crops: 3 points.

(d) Each acre (rounded to the nearest whole acre) on which the secding of legumes or perennial grasses, or the growing of green manure crops or cover crops, was specified as a soil-building practice but on which such practice was not carried out: 2 points.

(e) Each acre on which the planting of forest trees was specified as a soil-building practice but on which such practice was not carried out: 5 points.

(f) Each acre on which the improvement of the stand of forest trees was specified as a soil-building practice but on which such practice was not carried out: 2 points.

(g) Each ton of ground limestone (rounded to the nearest ton), each 250 pounds of 16 percent superphosphate (rounded to the nearest 250 pounds), or their respective equivalents, or each 400 feet of terrace (rounded to the nearest 400 feet), specified as a soil-building practice but which was not carried out: 1½ points.

(h) Each 100 pounds of triple superphosphate obtained through the Agricultural Adjustment Administration in accordance with subsection (f) of section 4: 1½ points.

SECTION 6. *Association Expenses.*—There shall be deducted pro rata from the payments made to members of the Johnson County Agricultural Conservation Association all or such part, as the Secretary may prescribe, of the estimated administrative expenses incurred or to be incurred by such association in cooperating in carrying out the Soil Conservation and Domestic Allotment Act.

There shall be credited to the Johnson County Agricultural Conservation Association for the payment of administrative expenses the sum of $2.00 per application for that number of applications submitted by members of the association under which it is estimated by the Agricultural

[1] Equivalent quantities of other materials may be substituted for ground limestone *provided* that the quantities of other materials so substituted contain not less than the quantities, by weight, of calcium or magnesium oxide contained in the quantities of ground limestone specified. For purposes of this section 4 (e) 100 pounds of ground oyster shell, 70 pounds of hydrated lime, or 50 pounds of burned lime, shall be considered, respectively, to be equivalent to 100 pounds of ground limestone.

[2] Equivalent quantities of other materials may be substituted for 16 percent superphosphate *provided* that the quantities of other materials so substituted contain not less than the quantities, by weight, of phosphoric acid contained in 16 percent superphosphate, except that if ground rock phosphate is substituted the quantity of ground rock phosphate so substituted shall be not less than 1½ times the quantity of 16 percent superphosphate.

Adjustment Administration the total payment (prior to deduction of any administrative expenses) will be $20.00 or less.

There shall also be credited to the Johnson County Agricultural Conservation Association for the payment of administrative expenses the amount, estimated by the Agricultural Adjustment Administration, of any extra administrative expenses incurred by the association in connection with this special Johnson County program not to exceed $1.00 for each application submitted in 1937.

SECTION 7. *Payments Restricted to Effectuation of Purposes.*—All or any part of any payment which otherwise would be made to any person may be withheld if any practice is adopted by such person which the Secretary determines tends to defeat the purposes of the 1937 Agricultural Conservation Program.

SECTION 8. *Calculation of Payments.*—The payments to any person under this program shall be calculated to the nearest whole dollar. Fractions of 50 cents or less will be dropped and fractions of more than 50 cents will be considered as $1.00.

*Part II. Classification of Crops*

Farm land, when devoted to the crops and uses indicated hereinafter, shall be classified in the manner set forth in this Part II.

SECTION 1. *Soil-Depleting Crops.*—Land on which any of the following crops is grown shall be regarded as used for the production of a soil-depleting crop for the year in which such crop is normally harvested. The acreage of land which is devoted to two or more soil-depleting crops in the same year shall be counted as soil-depleting only once.

(a) Corn (field corn, sweet corn, and popcorn).
(b) Cotton.
(c) Tobacco.
(d) Peanuts harvested for nuts.
(e) Broom corn.
(f) Truck and vegetable crops, including also melons, strawberries, potatoes, and sweet potatoes.
(g Sorghum, when harvested.
(h) Small grains: Wheat, oats, barley, rye, buckwheat, and grain mixtures; cut for hay or grain.
(i) Annual grasses: Sudan, millet, and Italian ryegrass, harvested for hay or seed.
(j) Bulbs and flowers.

SECTION 2. *Soil-Conserving Crops.*—Land devoted to any of the following crops and not used in the same year for the growing of any soil-depleting crop, as defined in section 1 of this Part II, shall be regarded as used for the production of a soil-conserving crop. Cropland from which no crop is harvested during 1937 and which is planted in 1937 not later than October 31 to any crop listed below (other than small grains seeded alone in the fall) shall be considered as soil-conserving. If two or more soil-conserving crops are grown on the same land during any year the acreage of such land counted as soil-conserving shall not exceed the acreage on which such crops are grown.

(a) Biennial and perennial legumes: Sweet, red, alsike, white, and mammoth clovers; alfalfa; kudzu; and sericea.
(b) Miscellaneous legumes: Vetch, Austrian winter peas; bur clover and crimson clover; annual varities of lespedeza; crotalaria.
(c) Summer legumes: Soybeans, velvet beans, field peas, and cowpeas.
(d) Peanuts, when pastured.
(e) Annual grasses: Sudan, millet, and Italian ryegrass, not harvested for hay or seed.
(f) Perennial grasses: Bluegrass, Dallis, redtop, timothy, orchard grass, Bermuda, carpet grass, and mixtures of these.
(g) Small grains: Rye, oats, barley, wheat, buckwheat, and grain mixtures, when not cut for grain or hay, provided a good growth is left on the land. (If plowed under or if a good growth is not left on the land the crop shall be disregarded in classifying the land on which grown except as otherwise provided.)
(h) Forest trees, planted on cropland since January 1, 1934.
(i) Sweet sorghums, not harvested.

SECTION 3. *Neutral Uses.*—Land devoted to the following uses shall be regarded as not used for the production of a soil-depleting crop or a soil-conserving crop:

(a) Vineyards, tree fruits, small fruits, bush fruits, nut trees, and nursery stock not interplanted. Any portion of the area which is interplanted shall carry the classification and actual acreage of such interplanted crop.
(b) Idle cropland.
(c) Cultivated fallow land.
(d) Waste land, roads, lanes, lots, yards, and other similar non-crop land.
(e) Woodland, other than cropland planted to forest trees since January 1, 1934.

*Part III. Establishment of Bases*

The County Committee will recommend for approval by the Secretary a general soil-depleting base and a tobacco soil-depleting base for each farm participating in the 1937 Agricultural Conservation Program. Such bases shall represent the acreage normally used for the production of general soil-depleting crops and tobacco, respectively, on such farm. The County Committee also will recommend for each farm a base yield per acre for tobacco.

SECTION 1. *Farms for Which Soil-Depleting Bases Were Established Under the 1936 Program.*—The soil-depleting bases established for farms under the 1936 Agricultural Conservation Program, together with the accompanying base yields, shall be used as a basis for determining the soil-depleting bases and base yields per acre for such farms in 1937, with adjustment as provided in section 3 of this Part III.

SECTION 2. *Farms for Which Soil-Depleting Bases Were Not Established Under the 1936 Program.*—On farms for which bases were not established under the 1936 Agricultural Conservation Program, the bases and yields per acre shall, subject to adjustment as provided hereinafter, be determined as follows:

(a) *Tobacco Base and Yield.*—A tobacco soil-depleting base may be established for any farm on which tobacco was grown in either 1935 or 1936, and for other farms on which the County Committee determines that tobacco was not planted in 1935 or 1936 because of unusual weather conditions.

The tobacco soil-depleting base and base yield for a farm shall be determined upon the basis of the base established for the farm under the 1936–39 tobacco production adjustment program, or, if no such base was established, upon the basis of the acreage grown and yield obtained on the farm in the year 1936.

(b) *General Soil-Depleting Base.*—A general soil-depleting base may be established for any farm if soil-depleting crops other than tobacco were produced thereon in the year 1935 or 1936, and for such other farms as the County Committee determines, in accordance with instructions, are eligible upon the basis of the past production on the farm or by the operator.

The general soil-depleting base for a farm shall be determined upon the basis of the acreage of general soil-depleting crops grown on the farm in 1936.

SECTION 3. *Adjustment in Soil Depleting Bases.*—(a) *Inequitable Bases.*—The soil-depleting bases and the base yields determined for each farm in accordance with the provisions of this Part III shall be adjusted upward or downward wherever necessary so as to be equitable for such farm as compared with farms in the same locality which are similar with respect to the past production of crops, size, type of soil, topography, production facilities, and farming practices.

(b) *Unused Bases.*—If the acreage of tobacco or of crops in the general soil-depleting base planted on a farm in the years 1935 and 1936 has been substantially less than the acreage which could have been planted on the farm in such years with maximum payments with respect to such crops, under the 1935 programs of the Agricultural Adjustment Administration or under the 1936 Agricultural Conservation Program, and such deficiency was not caused by unusual weather conditions, the base shall be adjusted by the County Committee so as to reflect the plantings on the farm in 1935 and 1936 and so as to be equitable as compared with other farms in the locality which are similar with respect to size, type of soil, topography, production facilities, and farming practices.

(c) *Changes in Crop Classification.*—The acreage of small grains harvested for grain or hay, and the acreage of corn interplanted with legumes, classified as soil-conserving in establishing the general soil-depleting base for 1936 for any farm shall be added to such 1936 base in determining the general soil-depleting bases for 1937.

SECTION 4. *Limits of Soil-Depleting Bases.*—The general soil-depleting bases and the tobacco soil-depleting bases, respectively, established for all farms participating in the 1937 Agricultural Conservation Program in Johnson County, shall not exceed the acreage for each soil-depleting base which is established for such farms in the county by the Agricultural Adjustment Administration.

The total of the tobacco soil-depleting bases established in 1937 for farms on which such bases were not established in 1936, or on which no tobacco base acreage was established under a commodity adjustment program in 1935, shall not exceed such acreage in the county as shall be obtained by downward adjustment of the respective soil-depleting bases or base acreages, previously established for other farms in the county, except as approved by the Agricultural Adjustment Administration.

The weighted average base yield of tobacco for all farms for which soil-depleting bases are established in Johnson County shall not exceed the base yield established for the county by the Agricultural Adjustment Administration.

*Part IV. Miscellaneous Provisions*

SECTION 1. *Land to be Included Under Application.*—An application may be submitted with respect to any farm or with respect to any two or more farms operated by the same person.

SECTION 2. *Application and Eligibility for Payment.*—(a) Payment will be made only upon applications submitted through the county office. The Secretary reserves the right to withhold payment to any person who fails to file any form or furnish any information required with respect to any farm in which he is interested as owner or operator and to refuse to accept any application for payment if such application or any other form or information required is not submitted to the county office within the time fixed by the Director of the East Central Division.

(b) An application for payment may be made by any person who as owner, share-tenant, or sharecropper is entitled to receive a share or all of the crops produced on the farm in 1937 or the proceeds therefrom or who rents the land to a producer for cash or for a fixed commodity payment and who incurs any part or all of the expense of carrying out the farming program established for the farm.

(c) In the event of the death or legal incompetency of an applicant for payment, any payment which has not been received by such applicant prior to his death or incompetency and which would otherwise be made to such applicant shall be made to the person who, under rules prescribed by the Secretary, is determined to be eligible to receive such payment.

(d) A farm shall be regarded as being in Johnson County if the principal dwelling on the farm is located in said county, or, if there is no dwelling on the farm, if the major portion of the farm is located in said county.

(e) Any person who files an application for payment in Johnson County shall file an application with respect to each farm owned or operated by such person in the county. Upon request by the State Committee such person shall also file an application with respect to any farm owned or operated by him in any other county.

SECTION 3. *Membership in Association.*—Any person having an interest in the crops produced on any farm in Johnson County, or the proceeds thereof, who is not a member of the Johnson County Agricultural Conservation Association shall become a member of such association whenever any form or information required in connection with the 1937 Agricultural Conservation Program is submitted for such farm. Any person shall cease to be a member of the association if an application for payment is not filed by him within the time specified by the Director of the East Central Division for the filing of applications.

SECTION 4. *Division of Payments.*—Payments with respect to any farm included under an application shall be divided as follows:

(a) *Diversion Payment with Respect to Tobacco.*—

15 percent to the producer who furnished the land,
15 percent to the producer who furnished the workstock and equipment,
70 percent to be divided among the producers who are parties to the lease or operating agreement in the proportion that such producers are entitled to share in the tobacco grown on the farm in 1937, or the proceeds thereof.

If the 1937 acreage of tobacco is zero, or, because of partial crop failure, is substantially smaller than the acreage which, but for such failure, would have been grown in 1937, the diversion payment with respect to tobacco shall be divided among the producers who remain entitled to share in any crop actually grown on the farm in 1937 in proportion to the share of each such producer in the tobacco crop as it was intended to be grown.

(b) *Payment for Carrying Out Farming Program.*—The payment for carrying out the farming program established for the farm shall be made to the producer, or the person who rents the land to the producer for cash or for a fixed commodity payment, who the County Committee determines, under instructions issued by the Agricultural Adjustment Administration, has incurred the expense of carrying out the farming program.

In cases where the County Committee finds that two or more persons have incurred the expense of carrying out the farming program established for the farm, the share of each such person in the payment shall be determined by agreement of all producers on the farm. Where agreement of all producers is not obtained, the County Committee may recommend, subject to approval by the State Committee and the Director of the East Central Division, their determination of the share of each such person, such determination to be accompanied by a complete statement of the facts upon which the recommendation is based.

(c) *Computation of Shares of Payments.*—Any share of payments shall be computed without regard to questions of title under State law, without deduction of claims for advances, and without regard to any claim or lien against the crop or proceeds thereof in favor of any creditor.

SECTION 5. *Changes in Leasing or Cropping Agreement and Other Devices.*—If it shall appear from an investigation made by the State Committee that any person who has made an application for payment pursuant to the provisions of the 1936 or the 1937 Agricultural Conservation Program has made any change in the normal leasing or cropping agreement for the farm or has employed or participated in any other scheme or device whatsoever the effect of which would be or has been to deprive any other person of any payment or share therein to which such other person would normally be entitled, the Secretary may withhold from the person participating in or employing such a scheme or device, or require such person to refund, in whole or in part the amount of any payment which had been or would otherwise be made to such person for performance in connection with the 1937 Agricultural Conservation Program.

SECTION 6. *Multiple Farm Holdings.*—If a person who has made application for a payment with respect to a farm or farms in Johnson County has an interest as owner or oper-

ator in another farm or farms in the county on which the acreage used for the production of crops included in any soil-depleting base exceeds such base and such other farm or farms have not been included in an application under which a payment can be made, the payment to be made to such person shall be decreased by an amount equal to such person's share of the net deductions with respect to such other farm or farms.

The provisions of this section may be extended to include farms in two or more counties in the State in which any person as owner or operator is entitled to receive a share of the crops produced thereon, or the proceeds thereof, if the acreage used for the production of any soil-depleting crop(s) on any such farm had been increased to such an extent as to tend to defeat the purposes of the 1937 Agricultural Conservation Program.

*Part V. Definitions*

As used herein and in all forms and documents relating to the 1937 Agricultural Conservation Program in the East Central Region, the following terms shall have the following meanings:

*Secretary* means the Secretary of Agriculture of the United States.

*East Central Region* means the area included in the States of Delaware, Maryland, Virginia, West Virginia, North Carolina, Kentucky, and Tennessee.

*Johnson County* means the area included in Johnson County, Tennessee.

*East Central Division* means the division in the Agricultural Adjustment Administration in charge of the 1937 Agricultural Conservation Program in the East Central Region.

*State Committee, State Agricultural Conservation Committee, or State Office* means the group of persons designated for Tennessee to assist in the administration of the 1937 Agricultural Conservation Program in the State.

*County Committee, County Agricultural Conservation Committee, or County Office* means the group of persons designated for Johnson County to assist in the administration of the 1937 Agricultural Conservation Program in the County.

*Person* means an individual, partnership, association, corporation, estate, or trust, and, wherever applicable, a State, a political subdivision of a State, or any agency thereof, or any other government agency that may be designated by the Secretary.

*Operator* means any person who as owner or share-tenant actively supervises and directs the farming activities throughout the 1937 farming season.

*Owner* means a person who owns land which is not rented to another for cash or for a fixed commodity payment; and shall include a person who rents land from another for cash or for a fixed commodity payment or who is purchasing land for cash or fixed commodity payments.

*Sharecropper* means a person who works a farm in whole or in part under general supervision of the operator and is entitled to receive for his labor a proportionate share of the crops produced on such farm or the proceeds thereof.

*Share-tenant* means a person, other than an owner or sharecropper, who is working a part or the whole of a farm and is entitled to receive a portion of the crops produced thereon or the proceeds thereof.

*Producer* means an owner, a share-tenant, or sharecropper, who, under the terms of his lease or operating agreement, is entitled to share in the crops grown on the farm in 1937 or the proceeds thereof.

*Cropland* means all farm land which is tillable and on which at least one crop other than wild hay was harvested or planted for harvest between January 1, 1930, and January 1, 1937, and any other farm land devoted on January 1, 1937, to orchards or vineyards other than those abandoned.

*Tobacco soil-depleting base* means the number of acres established for the farm as the acreage normally used for the production of tobacco.

*General soil-depleting base* means the number of acres established for the farm as the acreage normally used for the production of all soil-depleting crops other than tobacco.

*Minimum acreage of soil-conserving crops* means the number of acres of soil-conserving crops specified in the farming program to be grown on cropland on the farm in 1937.

*Diversion payment* means a payment for the diversion of acreage from the tobacco soil-depleting base.

*General farm allowance* means the largest amount for any farm that may be obtained as a payment for carrying out the farming program established for 1937 for the farm.

*Farm* means all land which is farmed by an operator in 1937 as a single unit with work stock, farm machinery, and labor substantially separate from that for any other land; *provided* that any such unit shall not be considered a farm unless the County Committee finds, from a consideration of such factors as size of unit, amount of labor applied, nature of farming operations, and practices carried out, that the participation of such unit in the 1937 Agricultural Conservation Program would tend to promote the economic use and conservation of the land and preserve and improve its fertility for agricultural purposes.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 24th day of March, 1937.

## FEDERAL COMMUNICATIONS COMMISSION.

MONTHLY REPORTS OF REVENUES, EXPENSES, AND CAPITAL CHANGES OF TELEPHONE CARRIERS

FEBRUARY 24, 1937.

*To All Class A and Class B Telephone Carriers:*

There are enclosed 18 copies of the form of the Monthly Report of Revenues, Expenses, and Capital Changes.[1] It is requested that you make these reports in triplicate on the forms furnished and forward two copies to the Federal Communications Commission, Washington, D. C. The reports should be mailed as promptly as possible after the end of each month.

These forms have been revised to meet the requirements of the "Uniform System of Accounts for Telephone Companies, Issue of June 19, 1935", which system, as amended by Telephone Division Order No. 7–D, became effective January 1, 1937. You are requested to destroy the blank forms sent to you under date of December 21, 1936, and use the enclosed forms commencing with January, 1937.

With reference to the returns in columns (a), (b), (e), and (f), you are requested to report the actual amounts shown on the respondent's books for the periods indicated and show in columns (c) and (g) the mathematical differences. The amounts of those portions of such differences resulting from the revision of the Uniform System of Accounts, Effective January 1, 1937, shall be explained under "Remarks" on the reverse side of the report.

The fourth ordering clause of Telephone Division Order No. 7–C has been construed as applying only to operating revenue, operating expense, and income accounts, and further construed as being complied with if the returns are shown on the basis of these instructions.

The amounts reported as items 25, 26, and 27, in columns (a) and (e) for January, 1937, should not include amounts transferred to accounts 100.1, 100.2, 100.3, and 100.4 under provisions of paragraph (D) of instruction 2 of the "Uniform System of Accounts for Telephone Companies, Issue of June 19, 1935." Data for items 25, 26, and 27, in columns (b) and (f) may be shown by bracketing these items and reporting the increase or decrease in account 100, "Telephone plant", during the comparable 1936 period.

[1] Copies of these forms have been filed with the Division of the Federal Register, The National Archives; copies are available upon application to the Federal Communications Commission.

It will be appreciated if the carriers which have been notified that they are subject only to Sections 201–5 of the Communications Act of 1934 will continue to file monthly reports for statistical purposes. While this letter is intended primarily for carriers filing monthly reports to the Commission (Carriers having annual revenues in excess of $250,000), a copy is also being forwarded to all other Class A and Class B telephone carriers, with the thought that the construction of the fourth ordering clause of Telephone Division Order No. 7–C appearing in the fourth paragraph of this letter will be of interest to such carriers.

No acknowledgment will be made of the receipt of these reports, but a record of the date of receipt of each report will be kept in the files of the Commission.

Your compliance in this matter will be appreciated.

Very truly yours,

JOHN B. REYNOLDS,
*Acting Secretary.*

IN THE MATTER OF AN OFFERING SHEET OF AN OIL PAYMENT IN THE JONES-LUCAS FARM, FILED ON MARCH 1, 1937, BY ALEX MACDONALD, RESPONDENT

ORDER FOR HEARING (UNDER RULE 340 (B)) AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein contains an untrue statement of a material fact, or omits to state a material fact which is required to be stated therein (for the omission of which no

sufficient reason is given in the offering sheet) and which is necessary to make the statements therein not misleading, to wit:

In that the gross production of water as disclosed by Division II, Item 16 (a) (ii), is not believed to be correct, and for that reason might prove misleading;

It is ordered, pursuant to Rule 340 (b) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be misleading, and whether the effectiveness of the filing of the said offering sheet shall be suspended; and

It is further ordered that Charles S. Lobingier, an officer of the Commission be, and hereby is, designated as Trial Examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 8th day of April, 1937, at 2:00 o'clock in the afternoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said Examiner may designate.

Upon the completion of testimony in this matter the Examiner is directed to close the hearing and make his report to the Commission.

By the Commission.

IN THE MATTER OF PUBLIC SERVICE COMPANY OF NEW HAMPSHIRE

[Public Utility Act of 1935]

ORDER APPROVING ACQUISITION OF SECURITIES PURSUANT TO SECTION 10 (A) (1)

Public Service Company of New Hampshire, a subsidiary of New England Public Service Company, a registered holding company, having filed an application, pursuant to Section 10 (a) (1) of the Public Utility Holding Company Act of 1935, for approval of the acquisition by it of 1000 shares of beneficial interest in Swans Falls Company (being all of the outstanding shares of such company) pursuant to the terms of a proposed tripartite contract between the applicant, New England Public Service Company which is now the owner of such shares, and Swans Falls Company under which contract the applicant will be obligated to make an annual payment of $10,000 forever to New England Public Service Company and to pay to Swans Falls Company the costs of operating its properties, including taxes, maintenance and $2,400 per year on account of depreciation; with an option to the applicant to terminate the obligation with respect to such annual payments to New England Public Service Company upon payment to it of a lump sum of $150,000, provided that such payment is approved by the Public Service Commission of New Hampshire;

Such application having been amended; a hearing thereon having been held after appropriate notice; the record in this matter having been duly considered; and the Commission having filed its findings herein;

It is ordered that the acquisition covered by the aforesaid application be and the same hereby is approved, *provided*, however, that no payments shall be made by the applicant under the proposed tripartite contract unless, within 10 days after the execution thereof, a true copy of such contract shall be duly filed with the Public Service Commission of New Hampshire; and *provided further* that the applicant shall not make any payment to New England Public Service Company or to any other person pursuant to the provisions of Paragraph 3 of such contract unless such payment shall first have been approved by said Public Service Commission of New Hampshire.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE GULF-CARTER-MILLER FARM, FILED ON MARCH 17, 1937, BY S. LEROY ESTES, RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340(A)) AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

In that the information set forth under Division II, Items 16 (c) and (d), is not believed to be correct and might, therefore, be misleading;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 23rd day of April, 1937; that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Robert P. Reeder, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)) AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that the statement made in Division II, Item 13, may not be correct by reason of the fact it is not believed that the field was discovered in December, 1930, nor is it believed that there are approximately 21,000 producing oil wells in the field at the present time;

(2) In that Division III, Item 3, is incomplete in the following particulars:

(a) the porosity figure used was not determined;

(b) it is not stated by whom the saturation and recovery factors were determined;

(c) it is not fully explained how the estimated recovery factor of 70% was determined;

(d) volumetric shrinkage cannot be considered merely "possible." It has been determined by the U. S. Bureau of Mines to be at least 20% for East Texas crude;

(3) In that under Division II, Item 2 (c), the area in acres is said to be 91.65, whereas Exhibit B describes only 89.03 acres;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 23rd day of April, 1937; that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Robert P. SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)), AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that the farm name preceding Division I is omitted;

(2) In that under Division II, Item 1, the smallest fractional interest proposed to be offered does not appear to be correctly stated;

(3) In that the party to whom the taxes are payable is omitted from the answer given under Division II, Item 12;

(4) In that under Division II, Item 16 (c), the figures for the months of May, 1936, and February, 1937, are not correctly stated;

(5) In that the information required to be stated relative to the gross production of water under Division II, Item 16 (a) (iii) is omitted;

(6) In that Exhibit B is not attached to or included in the offering sheet;

(7) In that the statement made under Division III, Item 3, is incomplete in the following particulars:

(a) it is not fully explained how the acre feet of Woodbine formation was determined;

(b) the calculation is not shown in two equations;

(8) In that Division III is not properly signed;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 23rd day of April, 1937; that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Robert P. ## VETERANS' ADMINISTRATION.

REVISION OF REGULATIONS

REVISION OF RATING BOARD DECISIONS

1009. (D) When the decision of a rating agency involves breaking of service connection (the burden of proof being on the Government), the claimant will be immediately notified in writing of the contemplated action and the detailed reasons therefor and will be given a reasonable period, not to exceed 60 days, from the date on which such notice is mailed to his last address of record, for the presentation of additional evidence pertinent to the question. This procedure is for application except (1) in case of fraud; (2) in case of a change in law; (3) in case of a change of interpretation of law specifically provided in a Veterans' Administration issue; or (4) where the evidence establishes the service connection to be clearly illegal. (March 25, 1937.)

(E). When a reduction of an award for a service connected disability is considered warranted by reason of a change in the physical condition, the claimant will be notified in writing of the proposed action and the detailed reasons therefor and will be informed that sixty days from the date on which such notice is mailed to him his case will be reviewed upon the basis of any evidence that he may desire to submit in the meantime as to why such reduction should not be effectuated. The claimant will also be given the opportunity to appear before the rating agency which reviews his case at the expiration of the sixty day period. The rating agency, after consideration of the representations made by the veteran at the hearing or of any additional evidence submitted, will take such action as may be indicated to develop the evidence further, if necessary, but if it is considered that the available evidence warrants a reduction, an appropriate rating will be rendered, and the provisions of Veterans Regulation No. 2 (a), Part I, Paragraph III (b), will be applied as to the effective date of reduction upon the basis of such rating. (March 25, 1937.) (Public No. 2 and Public No. 141, 73d Congress.)

REVISION OF REGULATIONS

MISCONDUCT

1065. (A) A disabling condition will be considered to be the result of misconduct for the purpose of all adjudications under Veterans Regulation No. 1 (a), when it is shown to have been incurred under conditions or in a manner set forth by Veterans Regulation No. 10, paragraph IX, without regard to any prior determinations respecting the manner of its incurrence. A finding in any case that a disabling condition is of misconduct nature, as defined by Veterans Regulation No. 10, paragraph IX, will bar any right to pension or compensation under Veterans Regulation No. 1 (a).

(B) 1. The words "willful misconduct" are used in Section 27 of Public No. 141, 73d Congress, and in all cases arising under this Section of that law, the term "willful misconduct" as defined by precedents under the World War Veterans' Act, 1924, as amended, will be applied.

2. For the purpose of adjudications under Section 28, Title III, Public No. 141, 73d Congress, the definition established by precedents under Section 200, World War Veterans Act, 1924, as amended, for willful misconduct will be applied, instead of the definition of misconduct set forth in Veterans Regulation No. 10, paragraph IX.

3. For the purpose of adjudications under Section 31, Title III, Public No. 141, 73d Congress, the definition established by precedents under Section 213, World War Veterans' Act, 1924, as amended, for misconduct will be applied.

(C) Gross negligence or gross carelessness, as referred to in Veterans Regulation No. 10, paragraph IX, is defined as the want of slight care. (A. D. 191-B and 296). (March 25, 1937.)

COLORADO RIVER INDIAN RESERVATION, CALIFORNIA AND ARIZONA

ORDER OF RESTORATION

MARCH 8, 1937.

Whereas, section 25 of the Act of April 21, 1904 (33 Stats. 224), as amended by section 3 of the Act of March 3, 1911 (36 Stats. 1063), provided for the reclamation and disposal of lands in the Colorado River Reservation, California and Arizona, and

Whereas, it apparently was intended that after reclamation a portion of such lands should become a part of the public domain and made available for settlement under the public land laws, and

Whereas, no reclamation project was undertaken on the Colorado River Reservation under the reclamation Act of June 17, 1902 (32 Stat. 388), authorized by section 25 of the Act of April 21, 1904, supra, and no part of the lands of said reservation (except a small area in the townsite of Parker), has been opened to settlement and sale or other form of disposition under any of the public land laws of the United States, and such lands have always been regarded as constituting a part of the Colorado River Reservation, and

Whereas, the Indians of the Colorado River Reservation, the Superintendent in charge of that jurisdiction, and the Commissioner of Indian Affairs have recommended that the status of the unallotted or surplus lands of the reservation, including vacant townsite areas, be definitely restored as a part of the tribal holdings of the Indians of the Colorado River Reservation.

Now, therefore, by virtue of the authority vested in the Secretary of the Interior by sections 3 and 7 of the Act of June 18, 1934 (48 Stats. 984), I hereby find that restoration to undoubted tribal ownership of all undisposed of lands within the Colorado River Indian Reservation, including any vacant townsite lots within said reservation, will be in the public interest, and the said lands are hereby restored to such tribal ownership and are added to and made a part of the existing Colorado River Indian Reservation, subject to any valid existing rights, for the use and benefit of the Indians of that reservation and such other Indians as may be entitled to rights thereon.

## DEPARTMENT OF AGRICULTURE.

### Agricultural Adjustment Administration.

ECR—B-101—Kent County, Maryland March, 1937

1937 AGRICULTURAL CONSERVATION PROGRAM—EAST CENTRAL REGION

BULLETIN 101—KENT COUNTY, MARYLAND

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, as amended, payments will be made, in connection with the effectuation of the purposes of section 7 (a) of said Act for 1937, in accordance with the provisions of this East Central Region Bulletin 101 for Kent County in the State of Maryland and such modification or other provisions as may hereafter be made.

The 1937 Agricultural Conservation Program has been developed in accordance with the provisions of sections 8, 15, and 16 of the Soil Conservation and Domestic Allotment Act, but the payment of any benefits pursuant to the provisions

of this bulletin is contingent upon such appropriation, if any, as the Congress of the United States may hereafter make for such purpose, and the amounts of such payments will be finally determined by such appropriation and the extent of participation in the program. The rates of payment and the soil-building allowance set forth herein are computed upon the basis of an appropriation of $500,000,000 for the 1937 program for the nation and 85 percent participation by farmers. The payments calculated in accordance with the provisions of Part I of this Bulletin 101 may be increased or decreased, depending upon the extent of participation in the East Central Region, but any such variation will not be in excess of 10 percent.

*Part I. Amount and Conditions of Payments*

SECTION 1. *Farm Allowance.*—A farm allowance representing the maximum payment which can be earned will be established for each farm. The farm allowance for each farm will be $1.60 for each acre of cropland in the farm varied according to the productivity of land used for the production of general soil-depleting crops on the farm and rounded to the nearest 10 cents. The index of productivity for each farm shall be the percentage which the normal yield of wheat for the farm is of the normal county average yield of wheat.

If, in accordance with section 3 below, the operator of any farm requests approval of a 1937 acreage of soil-depleting crops for the farm from 10 to 25 percent above the allotted acreage established for the farm, the farm allowance shall be one-half of the amount determined as provided above and rounded to the nearest dollar.

The acreage of cropland used in establishing the farm allowance for all farms in the county shall not exceed such acreage as shall be established for the county by the Agricultural Adjustment Administration.

SECTION 2. *Establishment of Farming Plan.*—A farming plan will be established for each farm in 1937 upon the recommendation of the County Committee under the supervision of the East Central Division. Such plan will include the following:

(a) Growing an acreage of soil-depleting crops not in excess of the allotted acreage for such crops, or not in excess of the approved acreage of such crops, whichever is applicable.

(b) Growing not less than a specified acreage of soil-conserving crops on land not used for soil-depleting crops in 1937.

(c) Carrying out specified soil-building practices.

The allotted acreage of soil-depleting crops established for farms shall, within the limits of the total acreage of soil-depleting crops established for all farms in the county by the Agricultural Adjustment Administration, be an acreage for each farm which is fair and reasonable for such farm, taking into consideration the following factors: the past production of crops; size, type of soil, production facilities, and farming practices; the allotted acreages established for similar farms in the county; and the soil-depleting bases established or which could have been established for such farm under the 1936 Agricultural Conservation Program.

The acreage of soil-conserving crops specified for each farm shall be that acreage which is obtained by subtracting from the total acreage of cropland in the farm the sum of the acreage of soil-depleting crops on the farm in 1937 and the normal acreage of idle cropland in the farm.

The soil-building practices specified for each farm shall be selected from the practices named in section 4 of Part II below and shall be such as will tend to meet the needs of the farm for soil restoration and conservation and result in economic use of the land in such farm.

SECTION 3. *Farms on which Operator Requests Approval of Soil-Depleting Acreage in Excess of the Allotted Acreage.*—The County Committee, at the request of the operator of the farm, shall approve (as requested by the operator) an acreage of soil-depleting crops for the farm for 1937 from 10 to 25 percent (both figures inclusive) above the allotted acreage for the farm. In such cases, the soil-building practices established for the farm shall have a value in points equal in number to not less than the number of dollars in the farm allowance established for the farm under section 1 above. For this purpose each soil-building practice shall have a value of 2 points per acre.

SECTION 4. *Payment.*—The payment for each farm will be the farm allowance, except that if the farming plan is only partially carried out the payment will be the farm allowance decreased by one dollar for each point by which the County Committee, under the supervision of the East Central Division, determines that the farming plan for the farm has not been carried out and by which any of the soil-building practices specified in the farming plan has been carried out with labor, seed, or other materials furnished in whole or in part by any State or Federal agency. For the purpose of determining the number of points by which the farm allowance will be decreased as provided above, each of the following items shall have a value in points as follows:

(a) For each acre (rounded to the nearest whole acre) of soil-depleting crops grown on the farm in 1937 in excess of the allotted acreage or in excess of the acreage approved for the farm, whichever is applicable: 10 points.

(b) For each acre by which the acreage of soil-conserving crops on the farm in 1937 falls below the acreage of soil-conserving crops established for the farm: 3 points.

(c) For each acre (rounded to the nearest whole acre) on which the carrying-out of a soil-building practice was specified but on which such practice was not carried out: 2 points.

SECTION 5. *Association Expenses.*—There shall be deducted pro rata from the payments made to members of the Kent County Agricultural Conservation Association all or such part, as the Secretary may prescribe, of the estimated administrative expenses incurred or to be incurred by the association in cooperating in carrying out the Soil Conservation and Domestic Allotment Act.

There shall be credited to the Kent County Agricultural Conservation Association for the payment of administrative expenses the sum of $2.00 per application for that number of applications submitted by members of the association under which it is estimated by the Agricultural Adjustment Administration the total payment (prior to deduction of any administrative expenses) will be $20.00 or less.

SECTION 6. *Payments Restricted to Effectuation of Purposes.*—All or any part of any payment which otherwise would be made to any person may be withheld if any practice is adopted by such person which the Secretary determines tends to defeat the purposes of the 1937 Agricultural Conservation Program.

SECTION 7. *Division and Calculation of Payments.*—The payment with respect to each farm will be divided among the producers who are parties to the lease or operating agreement in the proportion that such producers are entitled to share in the crops grown on the farm in 1937 or the proceeds thereof. If the County Committee finds that the payment which would be made to producers on the farm by dividing the payment for the farm on the basis of the shares of such producers in the crops grown on the farm in 1937 or the proceeds thereof would not accurately measure the contribution of the different producers toward carrying out the farming practices specified for the farm, the payment with respect to the farm may be divided upon the basis of an agreement of all producers on the farm.

Any share of payments shall be computed without regard to questions of title under State law, without deduction of claims for advances, and without regard to any claim or lien against the crop or proceeds thereof in favor of any creditor.

The payment to each producer shall be calculated to the nearest dollar. Fractions of 50 cents or less will be dropped and fractions of more than 50 cents will be considered as $1.00.

*Part II. Soil-Building Practices and Classification of Crops*

SECTION 1. *Soil-Depleting Crops.*—Land on which any of the following crops is grown shall be regarded as used for the production of a soil-depleting crop for the year in which such crop is normally harvested. The acreage of land which is devoted to two or more soil-depleting crops in the same year shall be counted as soil-depleting only once.

(a) Corn (field corn, sweet corn, and popcorn).

(b) Broom corn.

(c) Truck and vegetable crops, including also melons, strawberries, potatoes, and sweet potatoes.

(d) Sorghum, when harvested.

(e) Small grains: Wheat, oats, barley, rye, buckwheat, and grain mixtures; cut for hay or grain.

(f) Annual grasses: Sudan, millet, and Italian ryegrass, harvested for hay or seed.

(g) Summer legumes: Soybeans, velvet beans, field peas, and cowpeas, harvested for grain, hay or forage, except that for the year 1937 summer legumes grown as emergency hay crops on an acreage not in excess of that determined by the County Committee to be required to replace a shortage of feed on the farm caused by drouth in 1936 or 1937 may be disregarded in classifying the land on which such crops were grown.

(h) Bulbs and flowers.

SECTION 2. *Soil-Conserving Crops.*—Land devoted to any of the following crops and not used in the same year for the growing of any soil-depleting crop, as defined in section 1 of this Part II, shall be regarded as used for the production of a soil-conserving crop. Cropland from which no crop is harvested during 1937 and which is planted in 1937 not later than October 31 to any crop listed below (other than small grain seeded alone in the fall) shall be considered as soil-conserving. If two or more soil-conserving crops are grown on the same land during any year the acreage of such land counted as soil-conserving shall not exceed the acreage on which such crops are grown.

(a) Biennial and perennial legumes: Sweet, red, alsike, white, and mammoth clovers; alfalfa; kudzu; and sericea.

(b) Miscellaneous legumes: Vetch, Austrian winter peas; bur clover and crimson clover; annual varieties of lespedeza; crotalaria.

(c) Summer legumes: Soybeans, velvet beans, field peas, and cowpeas, when not harvested for grain, hay, or forage.

(d) Annual grasses: Sudan, millet, and Italian ryegrass, not harvested for hay or seed.

(e) Perennial grasses: Bluegrass, Dallis, redtop, timothy, orchard grass, Bermuda, carpet grass, and mixtures of these.

(f) Small grains: Rye, oats, barley, wheat, buckwheat, and grain mixtures, when not cut for grain or hay, provided a good growth is left on the land. (If plowed under or if a good growth is not left on the land the crop shall be disregarded in classifying the land on which grown except as otherwise provided.)

(g) Forest trees, planted on cropland since January 1, 1934.

(h) Sweet sorghums, not harvested.

SECTION 3. *Neutral Uses.*—Land devoted to the following uses shall be regarded as not used for the production of a soil-depleting crop or a soil-conserving crop:

(a) Vineyards, tree fruits, small fruits, bush fruits, nut trees, and nursery stock, not interplanted. Any portion of the area which is interplanted shall carry the classification and actual acreage of such interplanted crop.

(b) Idle cropland.

(c) Cultivated fallow land.

(d) Waste land, roads, lanes, lots, yards, and other similar noncrop land.

(e) Woodland, other than cropland planted to forest trees since January 1, 1934.

SECTION 4. *Soil-Building Practices.*—When carried out in accordance with good farming practices not later than October 1, 1937, the following shall be considered as soil-building practices:

(a) Seeding of approved seeds of any legume or perennial grass, with the exception of soybeans, velvet beans, field peas, or cowpeas.

(b) Plowing or discing under green-manure crops.

(c) Applying not less than 1,000 pounds per acre of ground limestone or ground oyster shell, or not less than 700 pounds per acre of hydrated lime, or not less than 500 pounds per acre of burned lime.

(d) Applying not less than 100 pounds per acre of 16 percent superphosphate or its equivalent in connection with the seeding or maintaining of any legume (with the exception of soybeans, velvet beans, field peas, and cowpeas) or perennial grass, or on permanent pasture, or on green-manure crops plowed or disced under.

(e) Applying not less than 30 pounds per acre of 50 percent muriate of potash or its equivalent on land on which superphosphate has been applied, as provided in paragraph (d) above.

(f) Control of erosion in accordance with methods approved by the East Central Division.

*Part III. Miscellaneous Provisions*

SECTION 1. *Land to be Included Under Application.*—An application for payment may be submitted with respect to any farm or with respect to any two or more farms operated by the same person.

SECTION 2. *Application and Eligibility for Payment.*—(a) Payment will be made only upon applications submitted through the county office. The Secretary reserves the right to withhold payment to any person who fails to file any form or furnish any information required with respect to any farm in which he is interested as owner or operator and to refuse to accept any application for payment if such application or any other form or information required is not submitted to the county office within the time fixed by the Director of the East Central Division.

(b) An application for payment may be made by any person who as owner, share-tenant, or sharecropper is entitled to receive a share or all of the crops produced on the farm in 1937 or the proceeds therefrom or who rents the land to a producer for cash or for a fixed commodity payment and who incurs any part or all of the expense of carrying out a soil-building practice specified for the farm.

(c) In the event of the death or legal incompetency of an applicant for payment, any payment which has not been received by such applicant prior to his death or incompetency and which would otherwise be made to such applicant shall be made to the person who, under rules prescribed by the Secretary, is determined to be eligible to receive such payment.

(d) A farm shall be regarded as being in Kent county if the principal dwelling on the farm is located in said county, or, in case there is no dwelling on the farm, if the major portion of the farm is located in said county.

(e) Any person who files an application for payment in a county shall file an application with respect to each farm owned or operated by such person in the county. Upon request by the State Committee such person also shall file an application with respect to any farm owned or operated by him in any other county.

SECTION 3. *Membership in Association.*—Any person having an interest in the crops produced on any farm (or the proceeds thereof) which is located in Kent County and who is not a member of the Kent County Agricultural Conservation Association shall become a member of the association whenever any form or information required in connection with the 1937 Agricultural Conservation Program is submitted for such farm. Any person shall cease to be a member of the association if an application for payment is not filed by him within the time specified by the Director of the East Central Division for the filing of applications.

SECTION 4. *Multiple Farm Holdings.*—If a person who has made application for a payment with respect to any farm or farms has an interest as owner or operator in another farm or farms in the county on which the acreage of soil-depleting crops in 1937 exceeds the allotted acreage of soil-depleting crops or the approved acreage of soil-depleting crops for the farm(s), whichever is applicable, and

such farm(s) have not been included in an application under which a payment can be made, the payment to be made to such person shall be decreased by an amount equal to such person's share of the net deductions with respect to such other farm or farms.

*Part IV. Definitions*

As used herein and in all forms and documents relating to the 1937 Agricultural Conservation Program in the East Central Region, the following terms shall have the following meanings:

*Secretary* means the Secretary of Agriculture of the United States.

*East Central Region* means the area included in the States of Delaware, Maryland, Virginia, West Virginia, North Carolina, Kentucky, and Tennessee.

*Kent County* means the area included in Kent County, Maryland.

*East Central Division* means the division in the Agricultural Adjustment Administration in charge of the 1937 Agricultural Conservation Program in the East Central Region.

*State Committee, State Agricultural Conservation Committee, or State Office* means the group of persons designated for Maryland to assist in the administration of the 1937 Agricultural Conservation Program in the State.

*County Committee, County Agricultural Conservation Committee, or County Office* means the group of persons designated for Kent County to assist in the administration of the 1937 Agricultural Conservation Program in that county.

*Person* means an individual, partnership, association, corporation, estate, or trust, and, wherever applicable, a State, a political subdivision of a State, or any agency thereof, or any other government agency that may be designated by the Secretary.

*Owner* means a person who owns land which is not rented to another for cash or for a fixed commodity payment; and shall include a person who rents land from another for cash or for a fixed commodity payment or who is purchasing land for cash or fixed commodity payments.

*Operator* means any person who as owner or share-tenant actively supervises and directs the farming activities throughout the 1937 farming season.

*Share-tenant* means a person, other than an owner or sharecropper, who is working a part or the whole of a farm and is entitled to receive a portion of the crops produced thereon or the proceeds thereof.

*Sharecropper* means a person who works a farm in whole or in part under general supervision of the operator and is entitled to receive for his labor a proportionate share of the crops produced on such farm, or of the proceeds thereof.

*Producer* means an owner, an operator, a share-tenant, or sharecropper, who, under the terms of his lease or operating agreement, is entitled to share in the crops grown on the farm in 1937 or the proceeds thereof.

*Cropland* means all farm land which is tillable and on which at least one crop other than wild hay was harvested or planted for harvest between January 1, 1930, and January 1, 1937, and any other farm land devoted on January 1, 1937, to orchards or vineyards other than those abandoned.

*Farm* means all land which is farmed by an operator in 1937 as a single unit with work stock, farm machinery, and labor substantially separate from that for any other land; provided that any such unit shall not be considered a farm unless the County Committee finds, from a consideration of such factors as size of unit, amount of labor applied, nature of farming operations, and practices carried out, that the participation of such unit in the 1937 Agricultural Conservation Program would tend to promote the economic use and conservation of the land and preserve and improve its fertility for agricultural purposes.

*Farm allowance* means the maximum amount for any farm that may be obtained as payment in 1937 for carrying out the farming plan established for such farm.

*Allotted acreage* means that acreage of general soil-depleting crops established for a farm for 1937 in accordance with section 2 of Part I of this bulletin.

*Approved acreage* means an acreage of soil-depleting crops which is larger than the allotted acreage and which has been approved for the farm in accordance with section 3 of Part I of this bulletin.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 26th day of March, 1937.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

RULES AND REGULATIONS FOR ISSUANCE OF THE CERTIFICATES OF SERVICE AND EFFICIENCY, CONTINUOUS DISCHARGE BOOKS, CERTIFICATES OF IDENTIFICATION AND CERTIFICATES OF DISCHARGE

By virtue of the authority prescribed by sections 1 and 7 of the act of June 25, 1936 (Public Law No. 808, 74th Congress, 49 Stat. p. 1930), and of section 1-f of the act of March 24, 1937 (Public Law No. 25, 75th Congress) the following rules and regulations are prescribed for the carrying out of the provisions of section 1 of the foregoing act of June 25, 1936, amending section 13 of the seamen's act of March 4, 1915 (38 Stat. p. 1169), relative to the issuance of certificates of service to able seaman, certificates of efficiency to lifeboat man, certificates of service to qualified member of the engine department and certificates of service to persons other than able seamen and qualified members of the engine department; and for carrying out of the provisions of the act of March 24, 1937 (Public Law No. 25) amending section 4551 R. S. as amended, relative to the issuance of continuous discharge books, certificates of identification and certificates of discharge.

SEC. 1. GENERAL

(a) An applicant for a certificate of service or efficiency, or for a continuous discharge book, or certificate of identification shall make written application, in duplicate, on Form 719-b, furnished by the Department of Commerce. The placing of finger or thumb prints on the application shall be optional with the seaman. This application may be for as many certificates or ratings for which the seaman believes he is qualified. In the case of a seaman applying for his first certificate of service or efficiency, the application shall include a request for a continuous discharge book or certificate of identification.

(b) An applicant for a certificate of service for a rating other than as able seaman or qualified member of the engine department shall take oath before one of the local inspectors or other officer authorized to give such oath, that he will faithfully and honestly perform all the duties required of him by law and carry out all lawful orders of his superior officers on shipboard.

(c) Every person employed on any merchant vessel of the United States of 100 tons gross and upward, except those navigating rivers exclusively and the smaller inland lakes, below the rank of licensed officer, shall have a certificate of service issued by a board of local inspectors.

(d) When the application is submitted for a continuous discharge book or certificate of identification, and one certificate of service, the seaman shall furnish four (4) unmounted dull finish photographs of passport type (1½ x 2 inches) taken within 1 year. The photograph shall show the full face at least 1 inch in height, and shall show the head uncovered.

(e) When the application is for a certificate of service only, three (3) such photographs shall be furnished. When additional certificates are requested, one (1) additional photograph is required for each additional certificate.

(f) The applicant shall produce with his application, discharges or affidavits as documentary evidence of his service, indicating the names of the vessels on which he has had service, in what capacity, and on what waters.

(g) All existing certificates of service as able seaman or certificates of efficiency as lifeboat man shall be surrendered, effective March 26, 1937. (Old form of certificates only.)

(h) All applicants for certificates of service or efficiency shall appear in person before a board of local inspectors or their assistant inspectors.

(i) If the applicant possesses a continuous discharge book or certificate of identification, it shall be exhibited to the board.

(j) The original copy of each application for a continuous discharge book or certificate of identification and/or certificate of service or efficiency shall be forwarded to the Bureau of Marine Inspection and Navigation at Washington. Such applications shall be accompanied by Form 719-f listing the names, continuous discharge book or certificate of identification numbers and/or certificates of service and efficiency numbers as shown on each application.

(k) An applicant claiming to be a citizen of the United States shall furnish satisfactory evidence of such citizenship to the issuing officer. Such evidence may be a birth certificate, Certificate of Naturalization, Marine License issued by the Bureau of Marine Inspection and Navigation, Seaman's Protection Certificate, old form of Seaman's Identification Certificate, Seaman's Passport, or an affidavit sworn to before a Notary Public by two persons who know he is an American citizen.

SEC. 2. CONTINUOUS DISCHARGE BOOKS AND CERTIFICATES OF IDENTIFICATION

[Act of March 24, 1937, amending sec. 4551 R. S. as amended]

(a) Every seaman employed on any merchant vessel of the United States of 100 gross tons or upward, except vessels employed exclusively in trade on the navigable rivers of the United States, shall be issued, at the option of the seaman, a continuous discharge book or certificate of identification upon application therefor, which shall be retained by him. This book or certificate of identification will bear a number, and this same number shall be shown on all certificates of service or efficiency issued to the holder of the book or certificate of identification. The term "navigable rivers" shall be held to include all waters over which a vessel inspected and certificated under the General Rules and Regulations prescribed by the Board of Supervising Inspectors for "Rivers" is permitted to be navigated.

(b) The shipping commissioner or, at ports where no shipping commissioner has been appointed, the collector or deputy collector of customs or United States local inspectors of steam vessels shall fill in the information required in the continuous discharge book or certificate of identification, which information shall be taken from the application, Form 719-B, and shall include the name of the seaman in full, his date of birth, personal description, statement of nationality, and home address. He shall also attach the seaman's photograph in the size and style herein required, impressing his official seal partly over same, and witness the seaman's signature, and shall have the seaman place his thumb print in the book or on the certificate of identification. Care must be taken that the above information is correctly entered.

(c) A monthly and yearly report shall be forwarded by all offices issuing continuous discharge books and certificates of identification to the Bureau of Marine Inspection and Navigation at Washington showing the total number of continuous discharge books and certificates of identification issued by their office.

(d) Every seaman, as referred to in subsection (a) of this section, shall produce a continuous discharge book or certificate of identification to the United States Shipping Commissioner before signing Articles of Agreement, and where the seamen are not signed on before a shipping commissioner the continuous discharge book or certificate of identification shall be exhibited to the master of the vessel at the time of his employment, as follows: As to vessels referred to in subsection (a) engaged in foreign and intercoastal voyages, immediately; and as to all other vessels referred to in subsection (a), on and after June 25, 1937. However, seamen who do not possess a continuous discharge book or certificate of identification may be employed at a foreign port or place provided that seamen so employed shall be furnished with either a continuous discharge book or certificate of identification at the first port of entry in the United States or its territories at which the vessel arrives after such seamen are employed.

(e) Only black ink shall be used in making entries in continuous discharge books, certificates of identification and certificates of discharge.

SEC. 3. ABLE SEAMAN

[Sec. 1 (a) act June 25, 1936, amending sec. 13, act March 4, 1915]

An applicant for a certificate of service as able seaman shall be at least 19 years of age and meet the following service requirements:

*High Seas and Inland Waters*

(a) Three years' service on deck at sea or on the Great Lakes on vessels of 100 gross tons or over to which sec. 1 (a) of the act of June 25, 1936, amending sec. 13 of the act of March 4, 1915, applies, including decked fishing vessels and vessels in the United States Government service of such tonnage.

(b) Graduates of school ships approved by and conducted under rules of the Secretary of Commerce who have served 12 months at sea following graduation.

(c) Twelve months on deck of such vessels at sea or on the Great Lakes.

*Great Lakes and Inland Waters*

(d) Eighteen months' service on deck at sea or on the Great Lakes, smaller lakes, bays or sounds on vessels of 100 gross tons or over to which sec. 1 (a) of the act of June 25, 1936, amending sec. 13 of the act of March 4, 1915, applies, including decked fishing vessels and vessels in United States Government service of such tonnage.

(e) No candidate for certificate of service as able seaman shall be examined until he presents an official certificate of a physician of the United States Public Health Service, or reputable physician acceptable to the local inspectors, that his eyesight, hearing and physical condition are such that he can perform the duties required of an able seaman, and that his color sense is normal.

(f) Before such a certificate is issued to any applicant, he shall prove to the satisfaction of the board of local inspectors, both by oral examination and by actual demonstration, that he has been trained in all the operations connected with the launching of lifeboats and life rafts, and the use of oars; that he is acquainted with the practical handling of the boats themselves; and, further, that he is capable of taking command of a boat's crew. If convenient to board and applicant, written examination may be given in lieu of oral examination.

(g) The examination shall consist of questions regarding lifeboats and life rafts, the names of their essential parts, and a description of the required equipment; the clearing away, swinging out, and lowering of boats and rafts, the handling of boats under oars, including questions relative to the proper handling of a boat in running before a heavy sea, in pulling into a sea, etc.; the construction and functions of gravity, radial, and quadrantal types of davits. There shall also be included questions concerning the applicant's knowledge of nautical terms; boxing the compass, either by degrees or points according to his experience; running lights, passing signals, fog signals for vessels on high seas, in inland waters, or on the Great Lakes depending upon the waters on which the applicant has had service; distress signals; knowledge of commands in handling the wheel by obeying orders passed to him as "wheelsman", and knowledge of the use of engine room telegraph or bell-pull signals.

(h) In the actual demonstration, the applicant shall show his ability by taking command of a boat and directing the

operation of clearing away, swinging out, lowering the boat into the water, and acting as coxswain in charge of the boat under oars. He shall demonstrate his ability to row by actually pulling an oar in the boat. He shall also demonstrate knowledge of a few of the principal knots, bends, splices, and hitches in common use by actually making them.

(i) All existing certificates of service as able seaman shall be surrendered, effective March 26, 1937 (old form of certificate only), and the above regulations for the issuance of certificates of service as able seaman, when affecting a person surrendering a bona fide certificate and applying for a new certificate in lieu thereof, shall be modified in the following respect:

No physical examination shall be required unless the applicant in the opinion of the local inspectors obviously suffers physical defects appearing to render him incapable of performing such duties; and no further examination shall be required if the local inspectors are satisfied—from the statements submitted by him in his affidavit and application, or from other evidence—that the applicant is qualified as an able seaman. The local inspectors shall also satisfy themselves that the applicant surrendering the certificate is the bona fide holder thereof before issuing a new certificate.

(j) Each certificate issued shall state the waters on which the holder is permitted to be employed as an able seaman.

Certificates issued to seamen under paragraph (a) and (b) of this section shall be issued for "any waters" and shall be green in color.

Certificates issued to seamen under paragraph (c) shall be for "any waters—12 months" and shall be blue in color. (Holders of certificates under this provision are limited to one-fourth of the number of able seamen required by law to be employed on a vessel.)

Certificates issued to seamen under paragraph (d) shall be for "Great Lakes—18 months service" and shall be blue in color. (Holders of certificates under this provision may comprise the required number of able seamen on vessels on the Great Lakes and on the smaller lakes, bays and sounds.) If the seaman possesses the requisite service for a certificate under paragraph (c), there shall be added "High Seas—12 months."

SEC. 4. LIFEBOAT MAN

[Sec. 1 (d) act June 25, 1936, amending sec. 13, act March 4, 1915]

(a) An applicant for a certificate of efficiency as lifeboat man shall have the qualifications and satisfactorily pass the examination prescribed by the existing rules and regulations of the Board of Supervising Inspectors The certificates shall be issued to successful applicants by the local inspectors.

(b) All existing certificates of efficiency as lifeboat man shall be surrendered, effective March 26, 1937, (old form of certificate only) and a new certificate will be issued in lieu thereof, upon application therefor. No further examination shall be required if the local inspectors are satisfied—from the statements submitted by him in his affidavit and application, or from other evidence—that the applicant is qualified as a lifeboat man. The local inspectors shall also satisfy themselves that the applicant surrendering the certificate is the bona fide holder thereof before issuing a new certificate.

SEC. 5. QUALIFIED MEMBER OF THE ENGINE DEPARTMENT

[Sec. 1 (e) act of June 25, 1936, amending sec. 13, act of March 4, 1915]

(a) A qualified member of the engine department is any person below the rating of licensed officer and above the rating of coal passer, or wiper, who holds a certificate of service as such qualified member of the engine department issued by a board of local inspectors of the Bureau of Marine Inspection and Navigation. An applicant for a certificate of service as qualified member of the engine department shall produce to such inspectors definite proof of at least six months' service at sea in a rating at least equal to that of coal passer or wiper in the engine department of vessels required to have such certificated men.

(b) No candidate for a certificate of service as a qualified member of the engine department shall be examined until he presents a certificate of a physician of the United States Public Health Service, or reputable physician acceptable to the local inspectors, attesting that his eyesight, hearing, and physical condition are such that he can perform the duties required of a qualified member of the engine department.

(c) Before such a certificate is issued to any applicant, he shall prove to the satisfaction of the board of local inspectors by an oral examination that he is trained in the duties required by his certificate. If convenient to board and applicant, written examination may be given in lieu of oral examination.

(d) Examinations shall consist of the following:

*Fireman.*—Applicant shall be examined on boiler operations, especially on oil burning systems and the hazards due to the accumulation of oil in the furnaces or bilges, or on fire room floors and tank tops. He shall have a good working knowledge of the use of water feeding devices, water indicators, pressure gages, safety valves, etc.

*Oiler.*—Applicant shall be given an examination on the operation of propelling units and lubricating systems and shall have a knowledge of the use of telegraphic or other maneuvering signals, also of the operation of auxiliaries.

*Water tender.*—The applicant shall be required to pass an examination on pumps, heaters, injectors, or other methods of feeding; also on burners and other equipment connected with fuel systems. He also shall be examined as to the maintenance of a safe water level in the boilers, the piping and connections used in the feed and blow-off systems, and the hazards incurred from low water. He shall also have a thorough knowledge of the engine and fire room fire-fighting equipment.

*Deck engineer.*—The applicant shall be examined as to his knowledge of auxiliary machinery, such as winches, anchor windlasses, steering gear, etc., also telemoters and fire extinguishng apparatus for cargo holds and confined spaces on deck.

*Refrigerating engineer.*—Applicant shall be examined as to his knowledge of the principles of refrigeration, the operation and maintenance of refrigerating machinery, and the hazards which prevail in the use of certain refrigerants, also as to his knowledge of how to act in any emergency, such as the accidental release of the refrigerant into the refrigerating space.

(e) An applicant holding a certificate of service for a particular rating as qualified member of the engine department and desiring certification for another rating covered by this same form of certificate, may, upon qualifying therefor, have endorsement made on the back of his certificate covering such certification.

(f) Personnel employed in the engine department of vessels covered by sec. 1 (e) of the act of June 25, 1936, amending sec. 13 of the act of March 4, 1915, and having the required sea service of 6 months on the effective date of these regulations need pass only the oral examination provided herein. No physical examination shall be required unless the applicant, in the opinion of the local inspectors, obviously suffers physical defects appearing to render him incapable of performing such duties.

SEC. 6. CERTIFICATES OF SERVICE FOR RATINGS OTHER THAN ABLE SEAMEN OR QUALIFIED MEMBER OF THE ENGINE DEPARTMENT

[Sec. 1 (g) act June 25, 1936, amending sec. 13, act March 4, 1915]

(a) Certificates of service shall be issued to applicants for ratings other than able seamen or qualified members of the engine department, which certificates shall authorize the holders thereof to serve in the capacity specified therein. The applicant, however, shall produce satisfactory evidence to the local inspectors of his ability to perform the duties of the position for which he desires to be certificated.

(b) An applicant for a certificate of service as radio operator shall produce to the local inspectors his unexpired license to act in that capacity from the Federal Communications Commission.

(c) No examination will be required for such certificates of service except that applicants for ratings contemplating the handling of food, shall produce a certificate from a physician of the U. S. Public Health Service, or reputable physician acceptable to the local inspectors, stating that he is free from communicable disease.

(d) An applicant for a certificate of service as deck boy shall produce a certificate from a physician of the U. S. Public Health Service, or reputable physician acceptable to the local inspectors, that he is qualified physically.

(e) No holder of a certificate of service as a deck boy may receive a certificate of service as ordinary seaman until he shall have had an aggregate of 6 months' service as deck boy.

(f) An applicant holding a certificate of service for a rating other than able seaman, or qualified member of the engine department, and desiring certification for another rating covered by this same form of certificate may have endorsement made on the back of his certificate covering such certification, without examination; except that, if the endorsement is for a rating contemplating the handling of food, the applicant shall produce a certificate from a physician of the U. S. Public Health Service, or reputable physician acceptable to the local inspectors, stating that he is free from communicable disease.

SEC. 7. RULES FOR PREPARATION AND ISSUE OF CERTIFICATES OF SERVICE AND EFFICIENCY

(a) Upon application of any person for a certificate of service or efficiency, it shall be the duty of the board of local inspectors to give the applicant the required examination as soon as practicable in every case where an examination is required, or have the assistant inspectors give such examination.

(b) Upon satisfactory completion of the prescribed examination, the board of local inspectors shall prepare an original of each certificate which shall be delivered to the applicant. The board shall complete one stub record to be forwarded to the Bureau in Washington, together with the original copy of the completed application. Another stub record shall be completed and retained in the local office.

(c) Before delivery of the original certificate, the inspectors shall place one of the photographs in the proper position upon the certificates, and the seaman shall affix his signature partly over his photograph on the certificate in such manner as not to deface or obscure any of the features, and shall likewise affix his signature to each of the stubs. The seaman may at his option impress his left thump print on the back of the certificate of service or efficiency and upon each of the stubs. When the seaman has no left thumb, the imprint of the right thumb may be used and that fact noted.

(d) Each certificate shall be impressed with the seal of the issuing board, placed partially over the signature and photograph of the applicant. Each member of the issuing board shall affix his signature. The name of the issuing port, date of issue, and other pertinent information required to be shown on the certificate, including the proper discharge book or certificate of identification number, shall be properly entered.

(e) Any applicant for a certificate of service or of efficiency who has been duly examined and a certificate is refused by a board of local inspectors will not be permitted to make application for reexamination until 30 days have elapsed.

(f) A certificate of service or of efficiency is subject to suspension or revocation if the holder thereof is found guilty of any act of incompetency or misconduct or any act in violation of the provisions of Title 52 of the Revised Statutes or of any of the regulations issued thereunder. Such suspension or revocation shall be in accordance with the provisions of 4450 R. S., as amended.

(g) If an applicant has had a certificate revoked and is seeking a new one, the local inspectors shall, before issuing a new certificate, forward to the Bureau a full report with reference thereto.

(h) Any person whose certificate of service or of efficiency has been stolen, lost, or destroyed, shall report that fact to a board of local inspectors as soon as possible, and if a duplicate certificate is desired, shall make affidavit in duplicate on Form 719-e, furnishing the same number of photographs as provided for in the case of an application for an original certificate. The board of local inspectors shall forthwith transmit the original copy of the affidavit and two photographs to the Director of the Bureau of Marine Inspection and Navigation, who shall thereupon cause to be prepared a certificate which shall be similar to the former certificate, bear the same book or certificate of identification number as the former certificate, and be marked "duplicate." The certificate shall then be forwarded to the proper board of local inspectors, who shall issue the duplicate certificate in the same manner as an original.

(i) Whenever a certificate of service or of efficiency is reported to a board of local inspectors as having been stolen, lost, or destroyed, the local inspectors shall immediately report the fact by letter to the Director of the Bureau of Marine Inspection and Navigation, giving all the facts incident to its loss or destruction. By the same procedure, they shall report the recovery of any certificate of service or of efficiency, together with all facts incident to its recovery, and shall forward the recovered certificate to the Director of the Bureau of Marine Inspection and Navigation. The Bulletin published monthly by the Bureau shall contain information of reported loss, theft, revocation, or suspension of certificates.

(j) A monthly and yearly report shall be forwarded by each Board of Local Inspectors to the Bureau of Marine Inspection and Navigation at Washington showing the total number of each form of certificates of service and efficiency issued by their office.

SEC. 8. RULES AND REGULATIONS COVERING DISCHARGE OF SEAMEN

(a) Upon the discharge of any seaman and payment of his wages, the shipping commissioner, or collector or deputy collector of customs at ports where no shipping commissioner has been appointed, shall enter in the continuous discharge book of such seaman, if the seaman carries such a book, the name and official number of the vessel, the nature of the voyage (foreign, intercoastal, or coastwise), the class to which the vessel belongs (steam, motor, sail, or barge), the date and place of the shipment and of the discharge of such seaman, the rating (capacity in which employed) then held by such seaman, and the signature of the person making such entries, and nothing more. In cases where the law does not require the seaman to be shipped and discharged before a shipping commissioner, the master of the vessel shall make the required entries in the continuous discharge book. All entries shall be made in black ink.

(b) Upon the discharge of any seaman who holds a certificate of identification issued by the Bureau of Marine Inspection and Navigation and payment of his wages, the shipping commissioner or collector or deputy collector of customs at ports where no shipping commissioner has been appointed shall issue to the seaman a certificate of discharge on Form 718-A, and make the required entries therein showing the name and citizenship of the seaman to whom it is issued, the serial number of his certificate of identification, the name and official number of the vessel, the nature of the voyage (foreign, intercoastal, or coastwise), the class to which the vessel belongs (steam, motor, sail, or barge), the date and place of the shipment and of the discharge of such seaman, and the rating (capacity in which employed) then held by such seaman. The certificate of discharge shall be signed by the seaman to whom it is issued and the master of the vessel and shall be witnessed by the shipping commissioner or, at ports where no shipping commissioner has been appointed, by the collector or deputy collector of customs. In cases where the law does not require the seaman to be shipped and discharged before a shipping commissioner, the master of the vessel shall issue such certificate

of discharge and make the required entries therein. All entries in certificates of discharge shall be made in black ink.

(c) Upon the discharge of any seaman in a foreign port the master shall make the proper entries in the continuous discharge book and on the ship's articles, and such entries shall be attested to by the consular officer. If the seaman possesses a certificate of identification the master of the vessel shall issue to the seaman a certificate of discharge on Form 718–A and make the required entries therein which shall be attested by the consular officer. If the seaman has lost his continuous discharge book or certificate of identification, the master shall furnish him with a temporary certificate of discharge (Form 719–A), attested to by the consular officer and note this fact on the articles.

(d) If a seaman loses his continuous discharge book, certificate of identification or certificate of discharge by shipwreck or other casualty, he shall be supplied with a duplicate of such book, certificate of identification, or certificate of discharge free of charge, upon application to a shipping commissioner or, at ports where no shipping commissioner has been appointed, to a collector or deputy collector of customs or United States local inspector of steam vessels. In other cases of loss, a charge shall be made for a duplicate of such book, certicate of identification or certificate of discharge in an amount equivalent to the cost thereof.

(e) The application for a duplicate continuous discharge book or certificate of identification shall be made in the form of an affidavit in duplicate on Form 719–e and three (3) photographs furnished. The shipping commissioner, collector or deputy collector of customs, or United States local inspectors of steam vessels shall transmit the original copy of the affidavit and two (2) photographs to the Director of the Bureau of Marine Inspection and Navigation, who shall thereupon cause to be prepared a continuous discharge book or certificate of identification bearing the same number as the former book or certificate of identification, and marked "duplicate." An affidavit for a duplicate certificate of discharge shall be made in the same manner as for a duplicate continuous discharge book or certificate of identification, except that it will not be necessary to furnish photographs for such certificates of discharge. Entries in duplicate continuous discharge books, certificates of identification, or certificates of discharge as taken from available records shall be made by the Central Records Section of the Bureau of Marine Inspection and Navigation. The duplicate continuous discharge book, certificate of identification or certificate of discharge shall then be forwarded to the proper shipping commissioner, collector or deputy collector of customs, or United States local inspectors of steam vessels, who shall issue the duplicate book or certificate of identification in the same manner as an original or, in the case of certificates of discharge shall deliver such certificates of discharge to the seaman.

(f) Whenever a continuous discharge book, certificate of identification or certificate of discharge is reported to a shipping commissioner, collector of customs or United States local inspector of steam vessels as having been stolen, lost, or destroyed, the shipping commissioner, collector of customs or United States local inspector of steam vessels shall immediately report the fact by letter to the Director of the Bureau of Marine Inspection and Navigation, giving all the facts incident to its loss or destruction. By the same procedure, he shall report the recovery of a continuous discharge book, certificate of identification or certificate of discharge with all the facts incident to its recovery, and shall forward the recovered book, certificate of identification or certificate of discharge to the Director of the Bureau of Marine Inspection and Navigation.

(g) Pending the issuance of a duplicate of the continuous discharge book or of the certificate of identification, the shipping commissioner, or collector or deputy collector of customs at ports where no shipping commissioner has been appointed, may furnish the seaman with a temporary certificate of discharge (Form 719–A) at the completion of the voyage, and this fact shall be noted on the articles. When the duplicate book has been issued, the record of shipment and discharge as shown on the temporary discharge will be entered in the book, and the temporary discharge shall be surrendered to the issuing officer; or when a duplicate of the certificate of identification has been issued, a certificate of discharge on Form 718–A, will be furnished the seaman and the temporary discharge surrendered to the issuing officer.

(h) To facilitate the keeping of a complete record of the entries made in the continuous discharge books and the certificates of discharge issued to seamen holding certificates of identification, the Shipping Articles have been revised to include the following items: On the front of the agreement the following information has been added: Name of ship; official number; port of registry; date of registry; registered tons; gross and net; horse power of engines; name and address of the registered managing owner or operator; number of seamen and apprentices for which accommodations are certified; and class of ship.

(i) Columns have been added to the articles under "Particulars of engagement" for entering the continuous discharge book number or certificate of identification number and serial number of license or certificate of service; and under "Particulars of discharge" columns have been added to show the place, date, and cause of leaving ship, or of death, also a column for mutual release.

(j) On the back of the Shipping Articles the following have been added:

A certification to the effect that such entries as are authorized by the act of March 24, 1937, amending section 4551 R. S., as amended, to be made in the continuous discharge books and on certificates of discharge, agree with those made on the articles, to be signed by the U. S. Shipping commissioner or other officer duly authorized to act as such.

A table showing citizenship requirements.

A recapitulation for showing the percentage of Americans on the articles and a certification as to the correctness of same to be signed by the U. S. Shipping Commissioner or other officer duly authorized to act as such.

A summary to show the different nationalities of the crew, segregated by departments.

Extracts from the laws for the information of masters.

(k) In the future, Shipping Articles shall be made out in triplicate. One of the copies shall be retained by the shipping commissioner, and the original and a copy given to the master who shall enter therein any changes made in the crew during the voyage. In case of the paying off of any members of the crew during voyage, they shall be required to sign the mutual release on both the original and the duplicate of the articles whether discharged before a shipping commissioner in an American port or before an American Consul in a foreign port. At the completion of the voyage, when the crew is paid off, the mutual release on both the original and the duplicate of the articles must be signed by all members of the crew; and the original copy, which must contain a complete record of the entries made in all continuous discharge books during the voyage, and the entries made in all certificates of discharge issued during the voyage to seamen holding certificates of identification, shall be forwarded to the Bureau at Washington, D. C. The duplicate copy shall be retained by the shipping commissioner.

(l) All columns on the Shipping Articles shall be properly filled in and the certifications on the back properly signed All entries made in the continuous discharge books during the voyage, and the entries made in all certificates of discharge issued during the voyage to seamen holding certificates of identification shall be shown on the ship's articles.

(m) Every seaman shall be required, when signing articles, to produce his continuous discharge book or certificate of identification, as well as his license or certificate of service, in order that the serial numbers may be entered on the articles.

(n) To further facilitate the keeping of a complete record of entries made in continuous discharge books and certificates of discharge, when seamen are not shipped and discharged before a shipping commissioner or collector or deputy collector of customs the master of the vessel shall make a report to the Bureau of Marine Inspection and Navigation, Washington, D. C., on Form 719–G, which must contain a complete record of the entries made in continuous discharge books and certificates of discharge, certified to by the master.

(o) Pending the preparation and distribution of permanent certificates of identification and permanent certificates of discharge there will be issued a temporary form of certificate of identification and temporary certificate of discharge in lieu thereof, which temporary certificates shall have the same force and effect as the permanent certificates of identification and certificates of discharge and shall be issued according to the regulations herein prescribed for permanent certificates of identification and permanent certificates of discharge except that the number of such temporary certificate of identification will not be placed on certificates of service and efficiency. The space provided on such certificate of service or efficiency for a book or certificate of identification number shall be left blank until the permanent certificate of identification is issued, at which time the number will be filled in. These temporary certificates of identification and temporary certificates of discharge shall be replaced by permanent certificates of identification and permanent certificates of discharge not later than June 25, 1937.

The foregoing supersedes any rules and regulations heretofore issued conflicting herewith.

Approved March 26, 1937.

## FEDERAL HOME LOAN BANK BOARD.

### Home Owners' Loan Corporation.

[Manual Amendment]

APPLICATION OF PARTIAL RELEASE PROCEEDS, ETC.—REAMORTIZATION OF ACCOUNTS

*Be it resolved*, That pursuant to authority vested in this Board by the Home Owners' Loan Act of 1933 (48 Stat. 128, 129) as amended by Sections 1 and 13 of the Act of April 27, 1934 (48 Stat. 643–647), and particularly by Sections 4 (a) and 4 (k) of said Act, as amended, it is hereby ordered that Section 800 (1) of the Consolidated Manual be amended to read as follows:

(1) Funds received by the Corporation for credit to its loan accounts or to accounts owing to it by reason of sales of acquired real property, from partial releases, grants of easements and flowage rights, insurance losses, mineral deeds, transactions affecting oil, gas or mineral interests, sales of timber, condemnation awards under decree or judgment of a Court or by agreement, substitution of security, additional security, other transactions which otherwise reduce or diminish the security held by the Corporation or the property sold by it and any other credits to borrowers' accounts other than repayments, are defined as "miscellaneous credits", and the net amount thereof shall be applied to the appropriate account (principal, interest, advances or other sums owing to the Corporation) in such manner, consistent with law and the provisions of the loan or sales contract as the General Manager and the General Counsel shall direct.

The authority vested in the General Manager by this subsection may be exercised also by the Regional Manager or an Assistant Regional Manager, and the authority so vested in the General Counsel may be exercised also by the Regional Counsel, all under procedure and limitations prescribed by the General Manager with the approval of the General Counsel. The Comptroller with the approval of the General Manager and the General Counsel may prescribe any necessary accounting procedure to effectuate the purpose of this sub-section; and

*Be it further resolved*, That all regulations, resolutions, administrative orders, bulletins and instructions or portions thereof, heretofore prescribed or promulgated, which are in conflict with the provisions of this section are hereby superseded and revoked; and

*Be it further resolved*, That pursuant to authority vested in this Board by the Home Owners' Loan Act of 1933 (48 Stat. 128, 129) as amended by Sections 1 and 13 of the Act of April 27, 1934 (48 Stat. 643–647), and particularly by Sections 4 (a) and 4 (k) of said Act, as amended, it is hereby ordered that the following be incorporated in Chapter II of the Consolidated Manual and be designated as Section 215;

SECTION 215. Upon the written request of the debtor, where necessary, the General Manager and the General Counsel may permit the payment of taxes, assessments, other governmental levies and charges, ground rents, attorneys' fees, cost of reconditioning or restoration, and such other items in connection with said transaction as they may deem proper, out of funds received from partial releases, grants of easements and flowage rights, insurance losses, mineral deeds, transactions affecting oil, gas or mineral interests, sales of timber, condemnation awards under decree or judgment of a Court or by agreement, substitution of security, additional security, other transactions which otherwise reduce or diminish the security held by the Corporation or the property sold by it, and from funds received as other credits to borrowers' accounts, except repayments, before directing the application of the net amount to the appropriate account, as provided in Section 800 (1) of Chapter VIII of the Consolidated Manual.

The General Manager with the approval of the General Counsel in connection with the application of the net amount of funds received from any of the foregoing transactions, as provided in said Section 800 (1), may direct that any loan account or any account owing to the Corporation by reason of the sale of real property may be reamortized, provided, however, that in case of loan accounts the period for repayment shall not exceed fifteen years from the date of the original loan, and in case of sales of acquired property such period shall not exceed fifteen years from the date of agreement of sale.

The authority vested in the General Manager by this section may be exercised also by the Regional Manager or an Assistant Regional Manager, and the authority so vested in the General Counsel may be exercised also by the Regional Counsel, all under procedure and limitations prescribed by the General Manager with the approval of the General Counsel; and

*Be it further resolved*, That all regulations, resolutions, administrative orders, bulletins, and instructions, and portions thereof, heretofore prescribed or promulgated which are in conflict with the provisions of this section, are hereby superseded and revoked; and

*Be it further resolved*, That the provisions of this resolution shall become effective 20 days after its adoption, Sundays and holidays excluded.

Adopted by the Federal Home Loan Bank Board on March 23, 1937.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C. on the 25th day of March, A. D., 1937.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE STANOLIND-AMERADA ET AL-GASSOWAY FARM, FILED ON MARCH 16, 1937, BY INDUSTRIAL INVESTMENT CORPORATION, RESPONDENT

ORDER FOR HEARING (UNDER RULE 340 (B)) AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein contains an untrue statement of a material fact, or omits to state a material fact which is required to be stated therein (for the omission of which no sufficient reason is given in the offering sheet) and which is necessary to make the statements therein not misleading, to wit:

In that the gross production of water, as disclosed by Division II, Item 16 (a) (iii), is not believed to be correct by reason of the fact that the Commission has information that water is being produced from the property involved, the amount of which is greatly in excess of that set forth in the offering sheet;

It is ordered, pursuant to Rule 340 (b) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be misleading, and whether the effectiveness of the filing of the said offering sheet shall be suspended; and

It is further ordered that Robert P. Reeder, an officer of the Commission be, and hereby is, designated as Trial Examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 9th day of April, 1937, at 11:00 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said Examiner may designate.

Upon the completion of testimony in this matter the Examiner is directed to close the hearing and make his report to the Commission.

By the Commission.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE STANOLIND-BRADLEY-MITCHELL FARM, FILED ON MARCH 19, 1937, BY R. A. COOK, RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)) AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that the statement made under Division II, Item 1, that the smallest fractional interest proposed to be offered is "equivalent to ¼ royalty acre" may not be correct by reason of the fact that a 1/1272 of the whole royalty interest appears to be equivalent to a ⅛ royalty acre if the tract involved contains 159 acres as stated in the answer to Division II, Item 2 (c);

(2) In that the number of barrels of oil produced, as set forth under Division II, Item 1, in which the smallest fractional interest proposed to be offered will be entitled to one barrel is not believed to be correct;

(3) In that the net production for ¼ royalty acre and the monthly pay off for ¼ royalty acre as disclosed by Division II, Item 16 (c) and (d) for the months enumerated are not believed to be correct.

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 24th day of April, 1937, that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Charles S. Lobingier, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 9th day of April, 1937, at 2:00 o'clock in the afternoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE BRITISH-AMERICAN-McNABB FARM, FILED ON MARCH 19, 1937, BY S. LEROY ESTES, RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)) AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that the Commission has information to the effect that Stanolind Oil Company may also be a purchaser of the oil from the tract involved, and, if so, the answer made under Division II, Item 5, is not correct;

(2) In that it is believed that the payments referred to under Division II, Item 8 (a), are not made directly to the interestholder but that the monies due the interestholder are first paid to British American, which, in turn, makes disbursement to the interestholders;

(3) In that Item 8 (d) (i) to (v), inclusive, is omitted.

(4) In that it appears that title to portions of every block described in Exhibit B is involved in litigation, as a result of which the royalty payments relating to those portions of said blocks involved in such litigation are being currently impounded, and the offering sheet does not disclose such litigation or whether the interests offered by said offering sheet are or are not involved in or affected by such litigation.

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 24th day of April, 1937, that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Charles S. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

IN THE MATTER OF AN OFFERING SHEET OF AN OVERRIDING ROYALTY INTEREST IN THE WESTERN STATES-HADDOCK FARM, FILED ON MARCH 18, 1937, BY ALEX MACDONALD, RESPONDENT.

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)) AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that Division II, Item 2 (c), states "137 acres", whereas it appears that the proper answer should be "1.37 acres";

(2) In that the statement made under Division II, Item 10 (a), does not appear to divulge the required information and for that reason might be misleading;

(3) In that the figures given under Division II, Item 26 (c) may not be correctly calculated;

(4) In that the smallest interest proposed to be offered, as set forth in Division II, paragraph 1, is said to be 1/96 of 1/8 overriding royalty interest, whereas Exhibit D provides for the conveyance of 1/48 of 1/8 interest;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 23rd day of April, 1937; that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Charles S. Lobingier, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 8th day of April, 1937, at 2:00 o'clock in the afternoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

## TREASURY DEPARTMENT.

### Bureau of Customs.

DUTY ON MANUFACTURES WHOLLY OR IN CHIEF VALUE OF WOOL

MARCH 4, 1937.

*The Collector of Customs, New York, N. Y.*

SIR: Under date of January 6, 1937, the Bureau advised the Bush Woolen Mills Company, Dresden, Ohio, domestic manufacturer of steamer rugs, automobile robes, and carriage robes, in response to its request under the provisions of section 516 (b) of the Tariff Act of 1930 (U. S. C., title 19, sec. 1516), that steamer rugs, automobile robes, and carriage robes, wholly or in chief value of wool, and having fringe consisting of a portion of the warp threads and made by dropping certain weft threads, are being assessed with duty at the rate of 50% ad valorem under paragraph 1120 of the Tariff Act of 1930 (U. S. C., title 19, sec. 1001, par. 1120), as manufactures wholly or in chief value of wool, not specially provided for.

In a complaint dated January 15, 1937, the domestic manufacturer referred to has taken exception to the practice above stated and claims that such articles should be classified under paragraph 1111 of the Tariff Act of 1930 (U. S. C., title 19, sec. 1001, par. 1111), and if not under that paragraph, then under paragraph 1529 (a) of the Tariff Act of 1930 (U. S. C., title 19, sec. 1001, par. 1529), or paragraph 1109 of the same act (U. S. C., title 19, sec. 1001, par. 1109).

The Bureau was advised that the articles in question are not made with a separate fringe, but that the fringe results from the dropping of the weft yarn in the material. In a decision published as (1935) T. D. 47633, the United States Court of Customs and Patent Appeals held that similar steamer rugs and automobile robes, woven directly from yarns on a loom with an attachment which after the cloth is woven to a given length automatically omits the weft threads for a fixed distance (the individual articles being separated from each other after the weaving process by cutting through the middle of the space from which the weft threads are omitted), were not made of "blanketing" within the meaning of that term as used in paragraph 1111 of the Tariff Act of 1930, but were dutiable as manufactures of wool, not specially provided for, under paragraph 1120 of the said act. Following this decision, the action of the collector of customs in excluding merchandise of the character described from classification under paragraph 1111 of the Tariff Act of 1930, is approved and as the articles are not made in part of separate fringe, they would not be dutiable under paragraph 1529 (a) of the Tariff Act of 1930, in view of the decision of the Board of United States General Appraisers (now the Customs Court), published in (1925) T. D. 41273. As the articles in question are not woven fabrics but are steamer rugs, automobile robes, and carriage robes, the provisions of paragraph 1109 of the Tariff Act of 1930, are not applicable.

In view of the foregoing, the Bureau approves the present practice of classifying articles of the character above described as manufactures wholly or in chief value of wool, not specially provided for, and of assessing them with duty at the rate of 50% ad valorem under paragraph 1120 of the Tariff Act of 1930. The Bush Woolen Mills Company has been so advised.

In accordance with the provisions of section 516 (b) of the Tariff Act of 1930, notice is hereby given that the classification of and the rate of duty on merchandise of the character described, imported, or withdrawn from warehouse after the expiration of 30 days after the publication of this letter in the weekly Treasury Decisions, will be subject to the decision of the United States Customs Court in the event that a protest is filed under the provisions of that subdivision.

Very truly yours,

[SEAL] J. H. MOYLE,
*Commissioner of Customs.*

Approved: March 4, 1937.

CUSTOMS REGULATIONS AMENDED—SPECIAL PERMITS FOR IMMEDIATE DELIVERY

*To Collectors of Customs and Others Concerned:*

Pursuant to the authority contained in sections 448 (b), 623, and 624 of the Tariff Act of 1930 (U. S. C., title 19, secs. 1448 (b), 1623, and 1624), the Customs Regulations of 1931 are hereby amended as follows:

Article 349, as amended by T. D. 45761, is amended to read as follows:

ART. 349. *Application—Entry—Procedure.*—(a) Tariff Act of 1930, section 448 (b):

The Secretary of the Treasury is authorized to provide by regulations for the issuing of special permits for delivery, prior to formal entry therefor, of perishable articles and other articles, the immediate delivery of which is necessary.

(b) "Articles, the immediate delivery of which is necessary" includes, in addition to perishable articles, any other articles in connection with which it is definitely established that delay in securing release would occasion unusual loss or inconvenience to the importer or to the carrier bringing the merchandise to the port.

(c) Special permits for the delivery of articles of a class referred to in paragraph (b) prior to formal entry shall be granted only in cases where the collector of customs shall be satisfied that such delivery can be permitted with safety to the revenue.

(d) Applications for special permits for the delivery of imported articles prior to formal entry therefor shall be made in triplicate on customs Form 3461 and shall be supported by evidence satisfactory to the collector of the right of the applicant to make entry for the articles with respect to which the application is filed. If the application is approved, one copy thereof shall be retained as an office record, one copy shall be executed as the permit, and the third copy shall be forwarded to the comptroller of customs. If the collector is satisfied that the conditions warrant such action, a special permit may be granted to cover the delivery prior to formal entry of a class or classes of articles particularly described in the application for such permit and imported during a period not to exceed one year. In such case the fact of release of the merchandise, together with such supplemental information as may be necessary to identify the shipment and determine its quantity and value, shall be noted on the manifest and initialed by the customs officer who releases the merchandise.

(e) Except as provided in paragraph (f) of this article, no permit for the delivery of imported articles prior to formal entry shall be issued until there has been filed in connection with the application therefor a special single entry bond on customs Form 7551-A, with approved corporate surety, in a sum equal to the value of the articles plus the estimated duties thereon, if any; or a special term bond on customs Form 7553-A, with approved corporate surety, in a sum which the collector deems sufficient, but not less than $10,000. The special term bond may be filed in connection with a single application to cover several importations during a period of not more than one year, or in connection with several applications to be filed during a period of not more than one year.

(f) If the merchandise has been imported and there is filed with the application for a special permit a proper entry in regular form, accompanied by the estimated duties and supported by the regular entry bond (customs Form 7551 or 7553), the special bond provided for in the preceding paragraph will not be required.

(g) No special permit will be required for the delivery of importations for which informal entry is permitted as provided for in article 339.

(h) In the case of articles of a class referred to in paragraph (b), except those entered in accordance with paragraph (g), arriving from Canada or Mexico when the customhouse is closed, and destined to places other than the port of arrival, the application and the evidence of the right to make entry may be submitted to the chief customs officer on duty and a special permit may be issued for their release, provided the person making application has on file in the customhouse a special term bond as described in paragraph (e).

(i) In cases where formal entry is not made and estimated duties deposited within 48 hours (exclusive of Sundays and holidays) after the release of the articles under special permit, the collector shall take immediate action to collect, as liquidated damages, the penal sum of the bond in the case of a single entry bond, or an amount equal to the value of the articles as to which there was default, plus the duties thereon, in the case of a term bond, and, unless the claim is promptly satisfied, shall discontinue allowing immediate delivery of articles imported by or for the account of the person in default.

(j) Except in the case of articles entered in accordance with paragraph (g) of this article, the collector shall give timely notice of the arrival of the vessel or vehicle to the appraiser, who shall promptly detail an officer to examine the merchandise, except that when the vessel or vehicle arrives at night or on a Sunday or holiday, and the articles consist of fruits or vegetables or other merchandise which it is practicable to appraise by means of samples, the discharging inspector shall take samples in such manner and in such quantities as the appraiser may direct, and retain the same for examination on the next business day. The discharging inspector shall not release the merchandise to the carrier until it shall have been examined, or adequate samples shall have been taken when appraisement is to be made by sample, and shall keep an accurate account of all releases made under the special permit, which he shall attach to his return of cargo discharged.

(k) In all other respects the procedure shall be the same as in the case of other imported merchandise.

Insert T. D. 45386 as marginal reference opposite paragraph (f).

Article 1240 (a), as amended by T. D. 48508, is further amended by renumbering from 11 to 26 the subdivisions now numbered from 9 to 24 and by adding new subdivisions 9 and 10 as follows:

(9) Immediate delivery single entry bond, customs Form 7551–A, in an amount equal to the value of the articles plus the estimated duties thereon, if any.

(10) Immediate delivery term bond, customs Form 7553–A, in an amount which the collector deems sufficient, but not less than $10,000.

Customs Form 3461 is being appropriately revised.

[SEAL] JAMES H. MOYLE,
*Commissioner of Customs.*

Approved: March 22, 1937.

### RETIREMENT OF CLASS A STOCK OF PRODUCTION CREDIT ASSOCIATIONS

AMENDMENT OF SECTION 104–K OF THE RULES AND REGULATIONS FOR PRODUCTION CREDIT ASSOCIATIONS

Pursuant to the authority conferred upon the Governor of the Farm Credit Administration by the Farm Credit Act of 1933, particularly section 20 thereof, the following paragraph is hereby added at the end of section 104–k of the Rules and Regulations for Production Credit Associations:

A registered holder of class A stock which has been held by him for not less than two years may list such class A stock with the association for retirement. The association upon recommendation of its board of directors and with the consent of the corporation, may retire and cancel at its fair book value (not to exceed par) such amount of class A stock so listed, in the order of listing, as may be approved by its stockholders at a regular meeting; provided that for each share of class A stock so retired and cancelled, a share held by the corporation shall also be retired and cancelled at the same time.

IN THE MATTER OF WISCONSIN POWER AND LIGHT COMPANY

NOTICE OF AND ORDER FOR HEARING

An application having been duly filed with this Commission, by Wisconsin Power and Light Company, a subsidiary of The Middle West Corporation, a registered holding company, pursuant to Section 6 (b) of the Public Utility Holding Company Act of 1935, for exemption from the provisions of Section 6 (a) of said Act of the issue and sale by applicant of $1,000,000 principal amount of its First Mortgage Bonds, Series A, 4%, dated June 1, 1936, due June 1, 1966, to be sold at private sale to The Equitable Life Assurance Society of the United States. The applicant states that proceeds from the sale of such bonds are to be used to reimburse the treasury of the applicant for expenditures made by the applicant since June 1, 1936 for property, plant and equipment, and to provide funds for properties to be contructed or acquired by the applicant prior to December 31, 1937; and that such expenditures, made or to be made, are largely for extending electric service to farmers in the territory served by the applicant. The applicant also states that the issue and sale of the aforesaid bonds will be expressly authorized by the Public Service Commission of Wisconsin.

It is ordered that a hearing on such matter be held on April 6, 1937, at 11 o'clock in the forenoon of that day at Room 726–C, Securities and Exchange Building, 1778 Pennsylvania Avenue NW., Washington, D. C.; and

Notice of such hearing is hereby given to said party and to any interested State, State commission, State securities commission, municipality, and any other political subdivision of a State, and to any representative of interested consumers or security holders, and any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before the fifth day of April, 1937.

It is further ordered that Charles S. Lobingier, an officer of the Commission, be and he hereby is designated to preside at such hearing, and authorized to adjourn said hearing from time to time, to administer oaths and affirmations, subpena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda, contracts, agreements, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

Upon the completion of the taking of testimony in this matter, the officer conducting said hearing is directed to close the hearing and make his report to the Commission.

ORDER REVOKING REGISTRATION PURSUANT TO SECTION 15 (B) OF THE SECURITIES EXCHANGE ACT OF 1934, AS AMENDED

Wm. V. Stenton & Company, a corporation organized under the laws of the State of Washington and hereinafter called the registrant, having filed with the Commission on July 10, 1935, an application for registration on Form 1-M pursuant to Rule MA2 of the Commission's rules then governing over-the-counter markets; and the said registration having become effective on January 1, 1936, in accordance with the Commission's rules and regulations; and

The said registrant having become registered under Section 15 (b) of the Securities Exchange Act of 1934, as amended, by virtue of the provisions of Section 10 of the Act of Congress approved May 27, 1936, providing for the registration of over-the-counter brokers and dealers; and

The Commission, on November 13, 1936, having authorized investigation and hearing on the question of revocation and/or suspension of registration of the said registrant, pursuant to Section 15 (b) of the Securities Exchange Act of 1934, as amended; and the said matter, after appropriate notice, having come on for hearing on December 4, 1936, in the City of Seattle, State of Washington; and the said registrant having consented to the revocation of its registration; and such consent, dated January 6, 1937, having been introduced as Commission's exhibit No. 149; and it appearing that the name of the said registrant, by amendment to its articles of incorporation in 1935, was changed from Wm. V. Stenton & Company to Fiscal Securities Company; and the Commission having duly considered the matter and being fully advised in the premises;

It is ordered, pursuant to Section 15 (b) of the Securities Exchange Act of 1934, as amended, that the registration of Wm. V. Stenton & Company, now known under the name of Fiscal Securities Company, as a broker or dealer transacting business on over-the-counter markets, be and the same is hereby revoked.

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)), AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that the statement made relative to the gross production of water under Division II, Item 16 (a) (iii) is not believed to be correct by reason of the fact that the Commission has information that the property involved is producing water in excess of the percentage stated in the offering sheet.

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 26th day of April, 1937, that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Charles S. Lobingier, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheets as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 9th day of April, 1937, at 3:00 o'clock in the afternoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. EXECUTIVE ORDER

RESTORING TO THE TERRITORY OF HAWAII A PORTION OF THE FORT SHAFTER MILITARY RESERVATION

By virtue of and pursuant to the authority vested in me by section 91 of the act of April 30, 1900, 31 Stat. 141, 159, as amended by section 7 of the act of May 27, 1910, 36 Stat. 443, 447, it is ordered that the following-described parcel of land, situate at Kahauiki, Oahu, Territory of Hawaii, be, and it is hereby, restored to its previous status for the use of the Territory of Hawaii in connection with the extension of Middle Street by the diversion of Kahauiki Stream, and to provide for road to Mokumoa Island:

Beginning at the west corner of the tract, on the seashore of Mokumoa Island, the coordinates of which, referred to Government Survey Triangulation Station "Salt Lake", are 9,435.9 feet south and 5,615.8 feet east (which corner is identical with the south corner of the tract described in Executive Order No. 5521, dated December 26, 1930); from this corner the azimuth (measured clockwise from true south) and distance to Pipe "Cyril", at the end of course 68 of Land Court Application 1074, is 312°17', 107.78 feet;

Thence from said initial point by true azimuths and distances as follows:

241°30', 15.0 feet, to a point;
206°47', 18.88 feet, to a point;
348°50', 57.55 feet, to a point on the seashore of Mokumoa Island;

Thence along the seashore of Mokumoa Island, which is the boundary between the lands of Kahauiki and Moanalua, the direct azimuth and distance being 134° 40', 46.17 feet to the point of beginning.

The direction of the lines refer to the true meridian, and all azimuths were measured clockwise from true south. The tract as described contains an area of 806 square feet and is shown on drawing C. F. S. No. 7316-7320 entitled: "Proposed Canal (50 feet wide) for Diversion of Kahauiki Stream in connection with Middle Street Extension Project (King Street to Dillingham Boulevard) Kahauiki and Moanalua, Honolulu, Oahu, T. SAN CARLOS PROJECT, ARIZONA

ORDER FIXING MAINTENANCE AND OPERATION CHARGES CALENDAR YEAR 1937

MARCH 23, 1937.

In compliance with the provisions of the Act of June 7, 1924 (43 Stat., 475-476) and acts supplementary thereto and the repayment contract of June 8, 1931, between the United States and the San Carlos Irrigation and Drainage District made pursuant to said act, the maintenance and operation charges assessable against the 50,000 acres of privately owned lands of the San Carlos project within the boundary of said San Carlos Irrigation and Drainage District for the calendar year 1937, based upon a total project area of 100,000 acres under constructed works, are hereby fixed as follows:

1. A fixed or basic charge of $1.80 per acre which shall entitle each acre in the District to have delivered for use thereon two acre feet of water per acre or its proportionate share of the available water supply. This fixed or basic charge shall be paid whether or not the land is in cultivation and whether or not the landowner uses any water.

2. Fifty cents per acre foot or fraction thereof for the first acre foot of water delivered in excess of the two acre feet provided for by the basic charge and one dollar per acre foot or fraction thereof for water delivered in excess of three (3) acre feet per acre, except such free water as may be delivered in accordance with the provisions of the repayment contract whenever such free water is available.

*Conditions*—The fixed or basic charge of $1.80 per acre shall be paid for each assessable acre within the San Carlos Irrigation and Drainage District on or before March 1, 1937.

Payments for excess water as herein provided for shall be made at the time of request for delivery thereof.

Payments made on account of the 50,000 acres of lands within the San Carlos Irrigation and Drainage District shall be paid to the Project Engineer of the Indian Irrigation Service, or other proper officer, by the San Carlos Irrigation and Drainage District.

The United States will make available for expenditure on account of the maintenance and operation of this project the $1.80 per acre fixed or basic charge for the 50,000 acres of Indian land in the project, and also the charge for excess water.

The per acre charges herein fixed are based upon the assessment of the entire area of 100,000 acres within the project under constructed works and the following estimated cost of maintaining and operating the works of the project exclusive of the maintenance and operation of the Project Power System which cost is payable from collections from the sale of power.

| | |
|---|---|
| Estimated Operation and Maintenance expenditures for the Calendar Year 1937, exclusive of Power System, Inventory Adjustments and Administrative Expense of District Office | $198,000 |
| Anticipated Collections for Excess Water | 18,000 |
| Balance | $180,000 |
| Appropriations requested for the Indian part | 90,000 |
| Payment required for District part | 90,000 |

Per acre cost for 100,000 acres, $1.80.

The San Carlos Irrigation and Drainage District upon request of its Board of Directors may continue for the period of this order to operate the canals serving lands in private and public ownership within its boundary, and in the event said District elects to continue such operation a credit of 70 cents per acre shall be allowed from the said basic charge for the area of district lands so operated and the basic charge to be paid to the Government by the District will accordingly be reduced to $1.10 per acre.

It should be understood that the provisions of this order requiring funds to be made available by the United States are dependent upon appropriations being made by Congress therefor; that the charges based upon the conditions defined shall apply to the calendar year 1937 only, and that nothing herein shall be construed as establishing a precedent for future years.

### Agricultural Adjustment Administration.

DETERMINATION OF THE SECRETARY OF AGRICULTURE WITH RESPECT TO A PROPOSED ORDER, AS AMENDED, REGULATING THE HANDLING OF MILK IN THE FALL RIVER, MASSACHUSETTS, MARKETING AREA

Whereas, the Secretary of Agriculture, pursuant to Sections 8b and 8c of Title I of the Agricultural Adjustment Act, approved May 12, 1933, as amended, hereinafter called the act, having reason to believe that the issuance of an amendment to a tentatively approved marketing agreement and an approved order with respect to the handling of milk in the Fall River, Massachusetts, Marketing Area would tend to effectuate the declared policy to establish and maintain such marketing conditions in the handling of milk in the aforesaid area as would reestablish prices of milk to producers of milk in said area at a level that would give such milk a purchasing power with respect to articles that such producers buy equivalent to the purchasing power of milk in the base period, August 1923–July 1929, gave, on the 5th day of February, 1937, notice of a hearing, which was held on the 11th day of February, 1937, at North Westport, Massachusetts, on a proposed amendment to the tentatively approved marketing agreement and approved order regulating the handling of milk in the Fall River, Massachusetts, Marketing Area, at which time and place all interested parties were afforded an opportunity to be heard on the proposed amendment; and

Whereas, after such hearing and after the tentative approval by the Secretary, on the 16th day of March, 1937, of an amendment to the tentatively approved marketing agreement, handlers of more than 50 per centum of the volume of milk covered by such order, as amended, which is produced or marketed within the Fall River, Massachusetts, Marketing Area refused or failed to sign such marketing agreement, as amended, relating to milk;

Now, therefore, the Secretary of Agriculture, by virtue of the authority vested in him by the act, does hereby determine:

1. That the refusal or failure of said handlers to sign the said marketing agreement, as amended, tends to prevent the effectuation of the declared policy to establish and maintain such marketing conditions in the handling of milk in the aforesaid area as will reestablish prices of milk to producers of milk in said area at a level that will give such milk a purchasing power with respect to articles that such producers buy equivalent to the purchasing power of such milk in the base period, August 1923–July 1929; and

2. That the issuance of the amendment to the order is the only practical means, pursuant to such policy, of advancing the interests of producers of milk in said area; and

3. That the issuance of the amendment to the order is approved or favored by over 79 per centum of the producers who, during the month of January 1937, said month being here and now determined by the Secretary to be a representative period, have been engaged in the production of milk for sale in the said area.

In witness whereof, I, H. A. Wallace, Secretary of Agriculture, have executed this determination and have hereunto set my hand and caused the official seal of the Department of Agriculture to be affixed in the city of Washington, District of Columbia, this 24th day of March, 1937.

AMENDMENT TO ORDER NO. 5, REGULATING THE HANDLING OF MILK IN THE FALL RIVER, MASSACHUSETTS, MARKETING AREA

Whereas, pursuant to Title I of the Agricultural Adjustment Act, approved May 12, 1933, as amended, hereinafter called the "act", the Secretary of Agriculture, hereinafter called the "Secretary", on April 3, 1936, tentatively approved a Marketing Agreement Regulating the Handling of Milk in the Fall River, Massachusetts, Marketing Area; and

Whereas, on April 15, 1936, the Secretary issued order No. 5, regulating the handling of milk in the Fall River, Massachusetts, Marketing Area, said order being effective 12:01 a. m., e. s. t., May 1, 1936; and

Whereas, the Secretary, having reason to believe that an amendment should be made to said tentatively approved marketing agreement and said approved order, gave, on the 5th day of February 1937, notice of a hearing to be held on the 11th day of February 1937, at North Westport, Massachusetts, on a proposed amendment to said tentatively approved marketing agreement and said approved order, and at said time and place conducted a public hearing at which all interested parties were afforded an opportunity to be heard on the proposed amendment to said tentatively approved marketing agreement and said approved order; and

Whereas, after such hearing and after the approval, on the 16th day of March 1937, by the Secretary of an amendment to said tentatively approved marketing agreement, handlers of more than 50 percentum of the volume of milk covered by such order, as amended, which is marketed within the Fall River, Massachusetts, Marketing Area, refused or failed to sign such tentatively approved marketing agreement, as amended, relating to milk; and

Whereas, the Secretary, determined on the 24th day of March, 1937, said determination being approved by the President of the United States on the 25th day of March 1937, that said refusal or failure tends to prevent the effectuation of the declared policy to establish and maintain such marketing conditions in the handling of milk in the aforesaid area as would reestablish prices of milk to producers of milk in said area at a level that would give such milk a purchasing power with respect to articles that such producers buy equivalent to the purchasing power of such milk in the base period, August 1923–July 1929, and that the issuance of this amendment to said order is the only practical means, pursuant to such policy, of advancing the interests of producers of milk in said area and is approved or favored by over 79 per centum of the producers who, during the month of January 1937, said month being determined by the Secretary to be a representative period, have been engaged in the production of milk for sale in the Fall River, Massachusetts, Marketing Area; and

Whereas, the Secretary finds, upon the evidence introduced at the hearing on such proposed amendment, said findings being in addition to the findings made upon the evidence introduced at the hearing on said order:

1. That the method of calculating the bases of producers as herein set forth is fair and reasonable;

2. That the order, as amended, regulates the handling of milk in the same manner as, and is applicable only to handlers specified in the tentatively approved marketing agreement, as amended, upon which hearings have been held; and

3. That the issuance of the amendment to the order and all the terms and conditions of the order, as amended, will tend to effectuate the declared policy to establish and maintain such marketing conditions in the handling of milk in the aforesaid area as will reestablish prices of milk to producers of milk in said area at a level that will give such milk a purchasing power with respect to articles that such producers buy equivalent to the purchasing power of milk in the base period, August 1923–July 1929;

Now, therefore, the Secretary of Agriculture, pursuant to the authority vested in him by the act, hereby orders that order No. 5, regulating the handling of milk in the Fall River, Massachusetts, Marketing Area, issued by the Secretary on April 15, 1936, be and it is hereby amended as follows:

Delete sections 4 and 5 of article VII and substitute therefor the following:

SEC. 4. *Bases.*—The base of each producer shall be a quantity of milk for each delivery period calculated in the following manner: Multiply the base rating, if any, in effect for such producer pursuant to section 5 of this article by the number of days on which such producer delivered milk during such delivery period.

SEC. 5. *Base-Ratings.*—For the purpose of calculating, pursuant to section 4 of this article, the bases of producers, the Market Administrator shall determine a base rating with respect to deliveries of milk in bulk to handlers from the farm currently (except as otherwise provided) operated by each producer as follows:

1. The rating in effect up to and including January 31, 1937, shall be such producer's average delivery per day during the calendar year 1935 or months thereof for which information is in the files of the Market Administrator;

2. The rating in effect for the months of February and March, 1937, shall be such producer's average delivery per day during that quarter of 1936 which is lowest of the three quarters beginning April 1, July 1, and October 1, 1936, respectively, or, at the option of such producer, 85 percent of his average delivery per day during the months of 1936 for which the information is in the files of the Market Administrator, exclusive of the month which immediately follows a month when such producer has the first tuberculin test of his herd;

3. The rating in effect for each calendar quarter subsequent to March 31, 1937, except as set forth in paragraph 5 of this section, shall be determined for each farm from which deliveries were made on not less than ten consecutive days of the first five delivery periods of the preceding calendar quarter, so that such new rating will be the rating which was in effect, or the average delivery per day for the days on which deliveries were made if less than the rating which was in effect during such five delivery periods, adjusted by a uniform quantity per farm which will bring the total of all such new ratings equal to 110–115 percent of the average daily Class I milk sold by handlers during the last calendar quarter of the preceding calendar year;

4. In the case of any producer who did not regularly sell milk for a period of 30 days prior to the effective date hereof to a handler or to persons within the Marketing Area, and who operates a farm for which no rating is in effect, the rating in effect until the next succeeding calendar quarter shall be the percentage of his average delivery per day, during the period of time when he receives the Class II price pursuant to paragraph 3 of section 1 of article VIII, computed by dividing the total deliveries, during such period of time, of all producers for whom ratings were in effect not in excess of their bases by the total deliveries of all such producers;

5. In the case of a producer who as a tenant moves his entire herd from one farm to another farm, the rating in effect for him during the remainder of the calendar quarter during which he moves may, at the option of such producer, be the rating for the farm previously operated by such producer instead of the rating, if any, which would otherwise be in effect for the newly occupied farm, in which event the rating for the previously operated farm shall cease to be in effect;

6. In the case of any producer for whom no rating is required to be in effect for any calendar quarter, pursuant to paragraphs 3, 4, or 5, the rating in effect for each delivery period during such calendar quarter shall be the percentage of his average delivery per day computed by dividing, for such delivery period, the total deliveries of all producers, for whom ratings are in effect pursuant to paragraphs 3, 4, and 5, not in excess of their bases by the total deliveries of all such producers.

In witness whereof, H. A. Wallace, Secretary of Agriculture, acting under the provisions of the Agricultural Adjustment Act, approved May 12, 1933, as amended, does hereby execute in duplicate and issue this amendment to the order regulating the handling of milk in the Fall River, Massachusetts, Marketing Area, issued on the 15th day of April, 1936, in the city of Washington, District of Columbia, on the 29th day of March 1937, and pursuant to the provisions hereof, declares this amendment to the said order to be effective on and after 12: 01 a. m., e. s. t., April 1, 1937.

DETERMINATION OF THE SECRETARY OF AGRICULTURE WITH RESPECT TO AN ORDER, AS AMENDED, REGULATING THE HANDLING OF MILK IN THE ST. LOUIS, MISSOURI, MARKETING AREA

Whereas, the Secretary of Agriculture, pursuant to Sections 8b and 8c of Title I of the Agricultural Adjustment Act, approved May 12, 1933, as amended, hereinafter called the act, having reason to believe that the issuance of an amendment to a tentatively approved marketing agreement and an approved order, as amended, with respect to the handling of milk in the St. Louis, Missouri, Marketing Area, would tend to effectuate the declared policy to establish and maintain such marketing conditions in the handling of milk in the aforesaid area as would reestablish prices of milk to producers of milk in the said area at a level that would give such milk a purchasing power with respect to articles that such producers buy equivalent to the purchasing power of milk in the base period, August 1919–July 1929, gave, on the 27th day of February 1937, notice of a hearing which was held on the 6th day of March 1937 at St. Louis, Missouri, on a proposed amendment to the tentatively approved marketing agreement, as amended, and the approved order, as amended, regulating the handling of milk in the St. Louis, Missouri, Marketing Area, at which time and place all interested parties were afforded an opportunity to be heard on the proposed amendment to the aforementioned marketing agreement and order; and

Whereas, after such hearing and after the tentative approval by the Secretary on March 16, 1937, of an amendment to the tentatively approved marketing agreement, as amended, handlers of more than 50 percentum of the volume of milk covered by the order, as amended, which is produced or marketed within the St. Louis, Missouri, Marketing Area, refused or failed to sign such tentatively approved marketing agreement, as amended, relating to milk;

Now, therefore, the Secretary of Agriculture, by virtue of the authority vested in him by the act, does hereby determine:

1. That the refusal or failure of said handlers to sign the said marketing agreement, as amended, tends to prevent the effectuation of the declared policy to establish and maintain such marketing conditions in the handling of milk in the aforesaid area as will reestablish prices of milk to producers of milk in said area at a level that will

give such milk a purchasing power with respect to articles that such producers buy equivalent to the purchasing power of such milk in the base period, August 1919–July 1929; and

2. That the issuance of the amendment to the order, as amended, is the only practical means, pursuant to such policy, of advancing the interests of producers of milk in said area; and

3. That the issuance of the amendment to the order, as amended, is approved or favored by over seventy-eight (78) percentum of the producers who, during the month of January 1937, said month being here and now determined by the Secretary to be a representative period, have been engaged in the production of milk for sale in the said area.

In witness whereof, I, H. A. Wallace, Secretary of Agriculture, have executed this determination and have hereunto set my hand and caused the official seal of the Department of Agriculture to be affixed in the city of Washington, District of Columbia, this 24th day of March 1937.

AMENDMENT TO ORDER NO. 3 REGULATING THE HANDLING OF MILK IN THE ST. LOUIS, MISSOURI, MARKETING AREA

Whereas, pursuant to Title I of the Agricultural Adjustment Act, approved May 12, 1933, as amended, hereinafter called the "act," the Secretary of Agriculture, hereinafter called the "Secretary," on December 10, 1935, tentatively approved a Marketing Agreement Regulating the Handling of Milk in the St. Louis, Missouri, Marketing Area, and on March 30, 1936, tentatively approved an amendment to said agreement; and

Whereas, on January 30, 1936, the Secretary issued order No. 3, regulating the handling of milk in the St. Louis, Missouri, Marketing Area, said order being effective 12:01 a. m., c. s. t., February 1, 1936, and on April 13, 1936, issued an amendment to said order No. 3, said amendment being effective 12:01 a. m., c. s. t., April 17, 1936; and

Whereas, the Secretary, having reason to believe that further amendment should be made to said tentatively approved marketing agreement, as amended, and said order, as amended, gave, on the 27th day of February 1937, notice of a hearing to be held on the 6th day of March 1937 at St. Louis, Missouri, on a proposed amendment to said agreement and said order, and at said time and place conducted a public hearing at which all interested parties were afforded an opportunity to be heard on the proposed amendment to said agreement and said order; and

Whereas, after such hearing and after the approval, on the 16th day of March 1937 by the Secretary of an amendment to said agreement, handlers of more than 50 per centum of the volume of milk covered by said order, as herein amended, which is marketed within the St. Louis, Missouri, Marketing Area, refused or failed to sign said agreement; and

Whereas, the Secretary determined on the 24th day of March 1937, said determination being approved by the President of the United States on the 25th day of March 1937, that said refusal or failure tends to prevent the effectuation of the declared policy to establish and maintain such marketing conditions in the handling of milk in the aforesaid area as would reestablish prices of milk to producers of milk in said area at a level that would give such milk a purchasing power with respect to articles that such producers buy equivalent to the purchasing power of such milk in the base period, August 1923–July 1929, and that the issuance of this amendment to said order is the only practical means, pursuant to such policy, of advancing the interests of producers of milk in said area and is approved or favored by over seventy-eight per centum of the producers who, during the month of January 1937, said month being determined by the Secretary to be a representative period, have been engaged in the production of milk for sale in the St. Louis, Missouri, Marketing Area; and

Whereas, the Secretary finds, upon the evidence introduced at the hearing on such proposed amendment, said findings being in addition to the findings made upon the evidence introduced at the hearing on said order:

1. That the St. Louis, Missouri, Marketing Area, as herein redefined in terms of presently existing townships to eliminate territory no longer necessary to be included, is the smallest area practicable for the application of the order, as amended;

2. That the prices set forth in the order, as amended, will, over a period of time, tend to give milk marketed in the said marketing area a purchasing power, with respect to articles that producers buy, equivalent to, but not above, the purchasing power of such milk in the base period;

3. That the order, as amended, regulates the handling of milk in the same manner as, and is applicable only to handlers specified in the tentatively approved marketing agreement, as amended, upon which hearings have been held; and

4. That the issuance of the amendment to the order and all the terms and conditions of the order, as amended, will tend to effectuate the declared policy to establish and maintain such marketing conditions in the handling of milk in the aforesaid area as will reestablish prices of milk to producers of milk in said area at a level that will give such milk a purchasing power with respect to articles that such producers buy equivalent to the purchasing power of milk in the base period, August 1923–July 1929;

Now, therefore, the Secretary of Agriculture, pursuant to the authority vested in him by the act, hereby orders that order No. 3, regulating the handling of milk in the St. Louis, Missouri, Marketing Area, issued by the Secretary on January 30, 1936, be and it is hereby amended as follows:

1. Delete in paragraph 3 of section 1 of article I the words "and Collinsville" and insert the word "and" before Granite City.

2. Delete section 3 of article IV and renumber sections 4 and 5 as sections 3 and 4.

In witness whereof, H. A. Wallace, Secretary of Agriculture, acting under the provisions of the Agricultural Adjustment Act, approved May 12, 1933, as amended, does hereby execute in duplicate and issue this amendment to the order regulating the handling of milk in the St. Louis, Missouri, Marketing Area, issued on the 30th day of January 1936, in the city of Washington, District of Columbia, on the 29th day of March 1937, and, pursuant to the provisions hereof, declares this amendment to the said order to be effective on and after 12:01 a. m., c. s. t., April 1, 1937.

## FEDERAL COMMUNICATIONS COMMISSION.

IN THE MATTER OF THE APPROVAL OR DISAPPROVAL OF CERTAIN AUTOMATIC ALARM DEVICES, IDENTIFIED AS MODEL A AND MODEL B

The Telegraph Division, at a special meeting, held on March 10, 1937, adopted the attached Report of the Commission in Docket No. 4409, in the matter of the Approval or Disapproval of certain Automatic Alarm Devices, identified as Model A and Model B.

[Docket No. 4409]

IN THE MATTER OF THE APPROVAL OR DISAPPROVAL OF CERTAIN AUTOMATIC ALARM DEVICES, IDENTIFIED AS MODEL A AND MODEL B

Submitted February 19, 1937. Decided March 10, 1937

*Headnotes*

Article 29 of the International Convention for Safety of Life at Sea, London, 1929, *held* to require approval of automatic alarm devices where it appears that the conditions set forth in the provisions of the Convention and of the General Radio Regulations annexed to the International Telecommunication Convention, Madrid, 1932, have been satisfactorily met.

Having regard for physical limitations fundamental in the conception of an automatic alarm as provided for by treaty, certain automatic alarm devices *held* to comply with the provisions of said Conventions and the Commission's specifications (requirements and type tests) of October 1, 1935 so as to warrant approval of such devices subject to certain conditions.

*Report of Commission*

By the Commission: Telegraph Division, Commissioners Stewart, Chairman, Case and Prall.

By its Order, dated October 1, 1935, the Telegraph Division approved specifications containing automatic alarm requirements and type tests as complying with the requirements set forth in Article 22, paragraph 21 (4) of the General Radio Regulations annexed to the International Telecommunication Convention, Madrid, 1932. Under the provisions of these specifications there were submitted to the Commission for approval certain automatic alarm devices. Thereafter, on January 26, 1937, the Telegraph Division, having under consideration the requests of several organizations to be heard on the question of the approval of these devices, directed that an informal public hearing be held in this matter. Appropriate notice of the time and place of the hearing and of the issues was published and copies of the notice were sent to all parties known to be interested. Pursuant to said notice and informal hearing was held before the Telegraph Division on February 19, 1937.

The International Convention for Safety of Life at Sea, London, 1929, which was ratified by the United States, effective November 7, 1936, provides (Article 29) that each ship required to be fitted with a radiotelegraph installation shall carry a qualified radio operator. Certain ships are further required under Article 29 of the Convention to maintain continuous watches by means of qualified operators, "if not fitted with an automatic alarm." It follows under this language that such a ship, if fitted with an automatic alarm meeting the provisions of the Convention, is exempt from the requirement of maintaining a continuous watch by qualified operators.

Article 29, paragraph 4, of the Safety Convention provides that by an automatic alarm is meant an automatic alarm receiver which complies with the requirements of Article 19, Section 21, of the General Radio Regulations annexed to the International Radiotelegraph Convention, Washington, 1927. The provisions of this article have been substantially carried forward into Article 22, Section 21, of the General Radio Regulations annexed to the International Telecommunication Convention, Madrid, 1932. Subparagraph 4 of Section 21 of this article discloses the technical requirements to be met and subparagraph 5 contemplates approval by the Administration concerned and a finding, that it is satisfied by practical tests that the apparatus complies with the regulations, is made a condition precedent to such approval. The duty of making that finding is imposed upon this Commission.

Since the Safety Convention confers the privilege of exemption provided certain conditions are met, and since one of those conditions is determination by this Commission of whether or not these auto alarms meet the requirements of the Convention, the parties are entitled to the determination of that question. That question being determined in the affirmative, the right to the exemption is absolute. The questions of policy involved in the substitution of auto alarms for qualified operators is not before the Commission. That question was settled by the ratification of the Safety Convention making it the supreme law of the land. The provisions of the treaty which delegate the power of approval or disapproval, also, in so far as this Commission is concerned, specify the limitations upon the exercise of that power. Consequently, the only question before this Commission is whether the auto alarms now before it meet the requirements of the Conventions.

The Safety of Life at Sea Convention became effective January 1, 1933, for ships of countries which had ratified the Convention at that time. Inquiries by the Federal Radio Commission were made of several manufacturing companies and it appeared that the Radiomarine Corporation of America and the Mackay Radio and Telegraph Company had automatic alarm devices under development which were designed in an effort to meet the requirements of the General Radio Regulations of Madrid.

The Radio Commission's studies of alarm systems continued until the creation of the Federal Communications Commission, and this Commission, in 1934 and 1935, proceeded with the formulation of the appropriate specifications. In February, 1935, the Commission released a proposed outline of type tests for this equipment. On May 23, 1935, a meeting was held with representatives of various communication and shipping agencies and representatives of other departments of the Government, to consider these proposed specifications. The organizations represented at that meeting and also participating in the hearing on this matter on February 19, 1937, were: American Radio Telegraphists Association; American Steamship Owners Association; Mackay Radio and Telegraph Company; Federal Telegraph Company; Radiomarine Corporation of America. Other interested organizations were also present.

The representatives of these organizations and others held a further meeting on June 20, 1935, at which time agreement was reached as to the principles which were included in the final draft of the specifications. Thereafter, on October 1, 1935, the Telegraph Division, by order, adopted its specifications, entitled "Auto Alarm Requirements and Type Tests", corresponding in substance to the draft prepared by this group. The provisions of Article 22, Sections 21 (1) and

21 (4) of the General Radio Regulations of Madrid were made a part of these specifications.

The specifications provide, in addition to the technical performance to be required of the apparatus, for laboratory tests, manufacturers' tests, and field tests. The auto alarm models were ready for submission for test soon after ratification of the Safety Convention on the part of the United States. The laboratory tests were conducted by the National Bureau of Standards, with a Commission engineering observer present, between September 28, 1936 and October 30, 1936.

The reports submitted by the Bureau of Standards to the Commission, disclose that these laboratory tests were conducted under the conditions stipulated in the specifications adopted October 1, 1935. The nature of the laboratory tests was that described in detail in the specifications, and the results of the tests were published in three reports of the National Bureau of Standards; namely, "Description and Type Tests of Auto Alarm", "Report on Auto Alarm, Mackay Radio and Telegraph Company", and "Report on Auto Alarm, Radiomarine Corporation of America."

The results of these laboratory tests, together with variations disclosed by the tests, were discussed in a report to the Commission entitled "Report of the Engineering Department on the Results of Marine Auto-Alarm Tests", dated January 22, 1937. This report was furnished all parties prior to the hearing. Both the tests and the reports were also made the subject of detailed testimony at the hearing. Aside from certain comparatively minor matters which were corrected by the manufacturers following the laboratory tests and before the field tests, these variations were also disclosed in the field tests and will be hereinafter considered.

As further required by the specifications, reports of manufacturers' tests covering the two automatic alarm devices, together with supporting data were filed with the Commission. These tests, which were also made a part of the record of the hearing, related primarily to matters other than actual performance and represented the data required under the terms of the specifications.

Beginning on November 24, 1936, and continuing for a period of thirty consecutive days, field tests, as stipulated by the Commission's specifications, were made of these devices. Certain variations between the letter of the specifications and the actual performance of the devices submitted for test became apparent. The nature of these variations requires a consideration of the conditions under which the tests were made, the location at which the tests were made, and also of the interpretation to be given to the General Radio Regulations of Madrid.

The Commission finds that certain fundamental physical limitations are inherent in any automatic alarm device designed to operate on the type of radio signal prescribed in the Regulations. These inherent limitations were known to exist at the time the Regulations were adopted and must be taken into consideration in the interpretation of the requirements. It will be observed that the specifications, paragraph 1, provide that the "auto alarm shall be capable of positive and reliable operation with an input to the antenna of 500 microvolts and with a noise-to-signal ratio of 2 to 1". The term "noise" as used herein means radio frequency energy of every character including atmospherics other than the alarm signal itself. This provision was based on the requirements of the General Radio Regulation of Madrid, Article 22, Section 21 (4)–1 and –3 which read:

> 1. They (the automatic instruments) must be set into operation by the alarm signal even when numerous stations are working and also when there is atmospheric interference.
>
> 3. They must possess a sensitivity equal to that of a crystal-detector receiver connected to the same antenna.

Such devices, from their very nature, cannot be constructed to give positive and reliable operation when the received noise is of a continuous nature and equal to or above the level of the received alarm signal. If, however, the noise is interrupted for a fraction of a second during the spaces between any consecutive four dashes of the twelve dashes composing the alarm signal, such devices properly constructed, will operate regardless of the ratio between noise and signal. This inherent limitation was unquestionably known when the treaty provisions were framed and when the specifications were drawn, and it is the opinion of the Commission that the treaty and specifications provisions must be considered and construed in the light of this and other similar physical limitations in the nature of such devices. Otherwise the provisions of the Convention are a nullity.

The record shows that the field tests provided for in the specifications were of a rigorous and exacting nature. They were conducted under the supervision of the U. S. Coast Guard with an engineer observer of the Commission present. The field test location was the United States Coast Guard Reservation near the western end of the Sandy Hook peninsula at Fort Hancock, N. J. Ambrose and Scotland Lightships are located not far distant and all vessels bound to and from New York Harbor pass close to the test location. In addition to interference caused by those vessels which were equipped with radiotelegraphy and engaged in communication using frequencies within the distress frequency band, strong interference was produced by coastal telegraph stations along the Atlantic seaboard. Both the intensity and the continuity of the interference, particularly at night, were well in excess of that likely to be encountered under actual working conditions while a vessel is under way in the open sea.

Although these tests were made on shore under favorable atmospheric conditions, and although it is recognized that during some seasons of the year and in some areas the alarm would be subjected to strong atmospherics, the Commission nevertheless finds that reliance may be placed upon the "noise" tests conducted by the Bureau of Standards which were used to simulate such atmospherics. These tests, of course, showed that the alarms would not operate when the noise was of a continuous nature and equal to or above the signal level; however, when the supply of noise was interrupted, as by telegraphic keying or by short regular telegraphic dashes, the automatic alarms operated satisfactorily. As has already been explained, this performance must be considered to meet the requirements of the Convention and the specifications in that respect.

With respect to the requirement that the devices shall not be made inoperative by any signal, groups of signals, or atmospherics, and must be designed to be set into operation by the alarm signal only, the Commission finds that the alarm will give adequate warning when it ceases to be operative by reason of such causes. In no case was the auto alarm actuated by incoming signals unaided by or unrelated to the local "alarm signal" test transmission.

Except in certain particulars which the Commission finds can be remedied without affecting the efficiency of the alarms, the tests disclose without question that the automatic alarm devices submitted are capable of proper operation within the prescribed audio and radio frequency band, with the types of emission specified; that they contain the prescribed testing devices and controls and equipment for regulating sensitivity, and for disconnecting the system from the regular receiving apparatus, and that they are provided with bells capable of giving a satisfactory audible alarm in the event of failure of important units or component parts. As the nature of the adjustments which must be made and the reasons therefor are more or less self-evident, it will be sufficient to say that in the attached order the Commission has made requirements for the necessary modifications.

There has been published a summary of operating data of the two auto alarms which was compiled from the records maintained during the field tests. These data disclose that a total of 1325 alarm signals were transmitted for testing the Model A alarm and 1246 for testing the Model B alarm. Thirty-two series of tests were conducted, of which in obtaining the percentage figure shown in Column R, thirteen were rejected for the reason that it appeared during these tests extraneous conditions not properly chargeable to either alarm affected the operation.

The following recapitulation represents the overall efficiency expressed in percentage for 1115 of the total of 1325 transmissions to the Model A alarm and 1115 of the total of 1246 test transmissions to the Model B alarm, and represents, as has been stated, the results of the nineteen field test series which were made under conditions regarded as fulfilling the requirements for field tests:

Model B sensitivity control settings:
45, 50, 60.

| A | B | F | L | M | Q | R |
|---|---|---|---|---|---|---|
| Identity of alarm under test | Total number of auto-alarm signals transmitted to each alarm during field test for purposes of official computation | Number of alarm signals which rang bell and were sent during interference | Number of alarm signals which failed to ring bell and were sent during interference | Number of alarm signals which failed to ring bell and were sent when no interference was observed | Number of alarm signals which failed to ring bell in *per cent of total* alarm signals transmitted | Number of alarm signals which rang bell in *per cent of total* alarm signals transmitted |
| Model A Alarm | 1,115 | 222 | 135 | 90 | 22 | 78.0 |
| Model B Alarm | 1,115 | 228 | 152 | 72 | 20.1 | 79.9 |

The Commission also made a recapitulation of the total of 32 test series, including the 13 rejected series, which shows a slight change in the percentage efficiency reflected in Column R, above. The percentage on a basis of 32 test series for the Model A alarm is 75.5% and for the Model B alarm is 78.7%.

Opposition to the approval of these devices was expressed by the American Radio Telegraphists Association. This opposition, so far as material to the issues, was based on three principal grounds; namely, that the automatic devices are not the full equivalent in the matter of efficiency of a human operator; that the approval of such devices, while no operator now employed would be deprived of his position, would preclude additional operators from obtaining employment in the future; and that the alarms, generally speaking, did not afford the positive and reliable operation contemplated in the specifications.

With regard to the first of these objections, the treaty does not require that these automatic instruments should be the equivalent of a human operator. It should be borne in mind here, as it unquestionably was in drafting the treaty, that a human operator would not be able to receive signals during exceptional periods when static and signal interference are of a high level and of a continuous nature, for this has a bearing on any consideration made in the light of the treaty of the capability of the devices to operate under adverse conditions.

Socially important as the future possibility of employment for operators may well be, there is nothing in the Convention or other legislation which has been called to our attention which permits the consideration of that element here. A contention was also introduced by steamship owners relating to the heavy burden which would be thrown upon them in the employment of additional operators if the alarms were not approved. Neither the cost to the steamship companies nor the possibility of employment for additional operators can be considered here because the law governing the Commission's action provides in substance that the automatic instruments shall be permitted if found to comply satisfactorily with the Madrid Regulations.

The third objection on the part of the operators raises the merits of the question before us.

The Regulations do not expressly require perfect performance. Indeed, in the light of knowledge of things fundamental in the radio art, perfect performance could not be expected of any device capable of receiving the international alarm signal which could be conceived either now or at the time the Regulations were adopted.

The Commission must further recognize as a basic engineering principle the fact that no auto alarm can be designed to function properly in accordance with the requirements of the Convention when the necessary spaces between the dashes prescribed for the international alarm signal are entirely obliterated by interference in the form of signal interference or "noise" of sufficient strength. No showing has been made nor has any information been submitted to refute this basic principle. By far the majority of failures of the alarm to respond to field test transmissions were due to this limitation, and consequently these failures cannot be attributed to the design, construction or installation of the alarms. It follows, therefore, that in a determination of the percentage of efficiency with which the alarms function these failures would be excluded under a reasonable interpretation of the requirements and the resulting efficiency of the field tests in that case would have been considerably higher. The overall efficiency of the alarms is shown to be 78% for the Model A alarm and 79.9% for the Model B alarm. In view of what has been stated, the percentage of failure may be said to indicate for the most part only the proportion of time in which such continuity of noise occurred at the location and under the conditions selected for the field tests. These alarms, considered from the point of view of world-wide use, would not ordinarily be required to operate in regions of heavy traffic atmospherics, and, therefore, their average performance efficiency would be higher in actual use than the records show for the tests.

Since the alarms cannot be expected to show a performance efficiency of 100% for actual use, it is necessary to arrive at a figure that can be accepted as satisfactory. The Commission is of the opinion that on the basis of technical performance the two alarms submitted for test represent the most efficient and practicable automatic distress alarms which it is possible for American engineering skill to produce at this time in accordance with the Madrid Regulations and the specifications of the Commission. Inasmuch as the decision must be based on the factors hereinabove considered and inasmuch as the Commission finds that the devices meet the standard of good engineering performance under the specifications and Regulations, the Commission finds that the overall efficiency of the alarms is satisfactory.

A collateral element enhancing safety not strictly necessary to be considered here is the fact that an auto alarm device, if approved, would be available as a most valuable supplement to continuous watch aboard ships not required to have either operators or alarms and as a supplement aboard passenger ships in addition to the operators required for continuous watch. It was testified that a number of vessels not required to carry radio apparatus would be voluntarily equipped with automatic alarms if such alarms were made available with government approval. There might not be a sufficient inducement to the manufacturing companies to manufacture alarms for such ships alone if the alarms were not approved. It was testified also that some of the larger passenger vessels would install voluntarily automatic alarms so that while the operator on watch was engaged in handling traffic on other frequencies a means would be provided for a continuous listening watch on the distress frequency.

The record contains a frank statement on the part of both manufacturers that a year's experience with these devices unquestionably will develop important means by which the devices may be improved. No radio-controlled device not subjected to actual use for an extended period can be

regarded as perfected to the point of highest attainable efficiency. Consequently it is proper to place such restrictions on approval as will insure improvement.

It further appeared that about four months time will be required to complete the manufacture and installation of these devices aboard ships.

From the facts and circumstances shown by the record in this matter and by the Commission's own investigation, the Commission is of the opinion and so finds that the automatic alarm devices submitted for approval, being Radiomarine Corporation of America "Model AR–8600 Auto Alarm" and "Mackay Radio and Telegraph Company Auto Alarm Type 101–A, manufactured by Federal Telegraph Company" should be approved, subject, however, to the conditions and limitations set forth in the attached Order:

The Order will provide further conditions with respect to reexamination of the alarms during the period ending December 31, 1938. The Commission's Order will be made effective July 10, 1937. Certain safeguards relating to the use of these alarms will be provided by modification of the Ship Radiotelegraph Safety Instructions.

## SECURITIES AND EXCHANGE COMMISSION.

### SECURITIES EXCHANGE ACT OF 1934

### AMENDMENT OF RULE AN21

The Securties and Exchange Commission, deeming it necessary and appropriate in the public interest and for the protection of investors so to do, pursuant to authority conferred upon it by the Securities Exchange Act of 1934, as amended, particularly Sections 3 (a) (12), 10 (b) and 23 (a) thereof, hereby amends paragraph (a) of Rule AN21 by deleting the words "three hundred and fifteenth" and inserting in lieu thereof the words "four hundred and sixth."

Paragraph (a), as amended, reads as follows:

(a) Evidences of indebtedness (1) which have been issued by any foreign state that is presently governed by an interim government which is holding office temporarily and which is to continue to hold such office only until the assumption thereof by a regular government which has been elected and (ii) as to which temporary exemption from the operation of Section 12 (a) shall expire pursuant to the terms of Rule AN7 on May 15, 1936, and as to which registration shall not be effective on that date, shall be exempt from the operation of said Section 12 (a) to and including the four hundred and sixth day following the assumption of office by such elected regular government.

The foregoing action shall be effective immediately upon publication.

## PRESIDENT OF THE UNITED STATES.

### ARMY DAY

By the President of the United States of America

A PROCLAMATION

WHEREAS Senate Concurrent Resolution 5, 75th Congress, 1st Session, provides:

"That April 6 of each year be recognized by the Senate and House of Representatives of the United States of America as Army Day, and that the President of the United States be requested, as Commander in Chief, to order military units throughout the United States to assist civil bodies in appropriate celebration to such extent as he may deem advisable; to issue a proclamation each year declaring April 6 as Army Day, and in such proclamations to invite the Governors of the various States to issue Army Day proclamations: *Provided*, That in the event April 6 falls on Sunday, the following Monday shall be recognized as Army Day."

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, pursuant to the above Concurrent Resolution, do hereby declare April 6, 1937, Army Day, and I invite the Governors of the several States to issue Army Day proclamations; and, acting under the authority vested in me as Commander in Chief, I order military units throughout the United States, its Territories and possessions, to assist civic bodies in the appropriate observance of that day.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

INDEMNITY NOT ORDINARILY PAYABLE ON ACCOUNT OF DAMAGE TO NEON SIGNS

MARCH 22, 1937.

Article 4, paragraph (h), page 166 of the July, 1936, Postal Guide, provides that indemnity will not be paid on account of damage to articles which are so fragile in their inherent nature as to prevent their safe carriage in the mails, regardless of the manner in which packed.

Owing to the extremely fragile nature of gaseous tubes for signs or outline lighting, commonly known as neon signs, indemnity will not be paid on account of damage which may occur to such articles shipped as domestic insured or C. O. D. mail, unless it is definitely established that the damage was due to rough treatment in the mails. In other words, favorable consideration will not be given to the payment of indemnity on account of damage to such articles merely because they are received in damaged condition by the addressee, unless the containers in which shipped were actually broken in the mails or it is otherwise definitely established that the parcels were mistreated while in the custody of the Postal Service. Postmasters are requested to appropriately advise patrons mailing articles of this character as insured or C. O. D. mail.

### Agricultural Adjustment Administration.

SR—B-101, Amendment 6

1937 AGRICULTURAL CONSERVATION PROGRAM—SOUTHERN REGION

BULLETIN 101

*Amendment 6*

Part III, Rates and Conditions of Payment, of Southern Region Bulletin 101, is hereby amended by adding the following new practices and conditions to section 16:

*Practice Number—Practices and Conditions—Rate*

15. Contour listing or furrowing pasture land, furrow channels to be not less than 8 inches in width and 4 inches in depth and not less than 3½ feet apart. (Payment will be made on the acreage occupied by the furrows computed on the basis of 3½ feet in width for each such furrow.) $0.70 per acre.

16. Ridging pasture land on slopes of two percent or greater, such narrow terraces or ridges to be at least 6 feet wide from bottom of furrow to bottom of furrow on the opposite side, at least 10 inches in height and not to exceed one-third of the regular terrace interval. $0.10 per 100 linear feet.

17. Cropland normally devoted to commercial vegetables but which in 1937 is either devoted continuously to a soil-conserving crop, or devoted to two or more soil-conserving crops, and from which no soil-depleting crop is harvested in 1937, *provided* that neither the seeding nor the disposition of the soil-conserving crops on such acreage shall be eligible for a class II payment under any other soil-building practice and, *provided further* that—

(a) for farms for which the general soil-depleting base was established in part by the growing of crops other than commercial vegetables, payment will not be made on an acreage in excess of the smaller of the following:

(1) the acreage determined by subtracting the acreage on the farm on which commercial vegetables are grown in 1937 from the acreage on the farm on which commercial vegetables were grown in 1936, or

(2) the acreage determined by subtracting the acreage on the farm on which general soil-depleting crops are grown in 1937 from the general soil-depleting base for the farm;

(b) for farms for which the general soil-depleting base was established by the growing of commercial vegetables only, payment will not be made on acreage in excess of the acreage determined by subtracting the acreage on the farm on which commercial vegetables are grown in 1937 from the general soil-depleting base for the farm. $8.00 per acre.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 30th day of March, 1937.

SR—B-101, Amendment 8, Southern Division March 30, 1937

1937 AGRICULTURAL CONSERVATION PROGRAM—SOUTHERN REGION

BULLETIN 101

*Amendment 8*

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Range-Building Practice 56, Section 85, Part VIII of Southern Region Bulletin 101, is hereby amended to read as follows:

*Practice Number—Practices and Conditions—Rate*

56. *Tanks and reservoirs.*—For constructing ponds or reservoirs with adequate spillways by building dams across natural cuts or ditches, creekbeds, or arroyos, in accordance with specifications of the State Agricultural Conservation Committee. (In the case of earthen dams payment will be made for the material used in the fill or dam and for the material excavated but not used in such fill or dam. If masonry dams are constructed in lieu of earthen dams, the cubic yards of earth which would have been required to construct an earthen dam of the length and depth required to hold the same depth of water on the same site shall be computed and payment will be made on the basis of such computed yardage.) $0.15 per cubic yard.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the city of Washington, District of Columbia, this 30th day of March, 1937.

## FEDERAL HOME LOAN BANK BOARD.

INTER-BANK DEPOSITS—FEDERAL HOME LOAN BANKS

AMENDMENT TO RULES AND REGULATIONS

*Be it resolved*, That pursuant to authority vested in the Federal Home Loan Bank Board by subsections (e) and (f) of Section 11 of the Federal Home Loan Bank Act (12 U. S. C. 1431 (e), (f)), paragraph (3) of subsection (f) of Section 32 of the Rules and Regulations for Federal Home Loan Banks is hereby amended by inserting at the end thereof the following:

So long as consolidated Federal home loan bank debentures are outstanding, no Bank shall make a deposit in another Bank except in connection with each issue of consolidated Federal home loan bank debentures unless there is mutual agreement for such deposit between the depositing Bank and the Bank which is to receive any such deposit, or unless the Governor shall order that any such deposit be made. Except at such times, no depositing Bank shall withdraw all or any part of any deposit from another Bank and no debtor Bank shall repay all or any part of any such deposit to the depositing Bank unless the depositing Bank and the debtor Bank mutually agree to such withdrawal or repayment or unless the Governor order such withdrawal or repayment. No Bank which has outstanding any deposit in another Bank shall obtain any of the proceeds of the sale of consolidated Federal home loan bank debentures unless, in accordance with the foregoing provisions, the withdrawal and repayment in full of such deposit is accomplished. No Bank having on deposit the funds of any other Bank may force the depositing Bank to accept payment thereof in part or in full at any time except in connection with each issue of consolidated Federal home loan bank debentures, and no such payment of any such deposit shall then be made without the consent of the depositing Bank if the Bank making such repayment is at that time applying for part of the proceeds from the sale of consolidated Federal home loan bank debentures. In the event no offering is made of consolidated Federal home loan bank debentures within each 90 day period after the date of the first such offering, adjustments of inter-bank deposits may be made at the end of each 90 day period on the initiative of either the depositing bank or a debtor bank. All transactions under this regulation shall be subject to such reasonable notices as the Governor may require and to instructions of the Governor.

Adopted by the Federal Home Loan Bank Board on March 30, 1937.

## Home Owners' Loan Corporation.

[Manual Amendment]

APPOINTMENT OF "NON-EXECUTIVE" EMPLOYEES

*Be it resolved*, That pursuant to the authority vested in the Board by Home Owners' Loan Act of 1933 (48 Stat. 128, 129), as amended by Sections 1 and 13 of the Act of April 27, 1934 (48 Stat. 643-647), and particularly by Sections 4-a and 4-k of said Act as amended, Chapter XI of the Consolidated Manual be amended as follows:

Section 1118 is amended to read:

SEC. 1118. Regional Managers, or Regional Counsel for employees of the Legal Department, may appoint or authorize the appointment of "non-executive" employees in Regional and Field Offices, and may fix the salaries of such employees at such rates as they may determine, within budget allotments and consistent with Board policy, and within the applicable salary schedules fixed by the Board of Directors. The Director of Personnel, with the approval of the General Manager and General Counsel, may prescribe procedure hereunder.

Sections 1119, 1120, 1127, 1129 and 1132 (a) (1) are revoked.

Section 1126 is amended by striking out the words "or position" in the first sentence.

Section 1132 (a) (2) and (3) is re-numbered as Section 1132 (a) (1) and (2).

Adopted by the Federal Home Loan Bank Board on March 30, 1937.

## SECURITIES AND EXCHANGE COMMISSION.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 30th day of March, A. D., 1937.

[File No. 20—377A1-1]

IN THE MATTER OF AN OFFERING SHEET OF LANDOWNER'S PRODUCING ROYALTY INTERESTS IN THE WINDSOR-CULBERTSON NO. 1 FARM, FILED ON AUGUST 29, 1936, BY L. D. GREENFIELD COMPANY, RESPONDENT

PERMANENT SUSPENSION ORDER

The Securities and Exchange Commission initiated this proceeding pursuant to the provisions of Rule 340 of the General Rules and Regulations promulgated by the Commission under the Securities Act of 1933, as amended, to determine whether or not an order should be entered suspending the effectiveness of the filing of an offering sheet of landowner's producing royalty interests in the Windsor-Culbertson No. 1 Farm, located in Orange County, California, which offering sheet was filed with the Commission on August 29, 1936, by L. D. Greenfield Company, of New York City, the respondent herein.

This matter having come on regularly for hearing before the Commission at Washington, D. C., on October 5, 1936, and due notice thereof having been given to the said respondent and the said respondent having failed to appear, and evidence both oral and documentary having been introduced, and the hearing having been closed, and the Commission having found upon the evidence that said offering sheet is incomplete and inaccurate in material respects, and

omits to state material facts required to be stated therein and fails to comply with certain material requirements of the Rules and Regulations of the Commission, all as more fully set forth in the Findings and Opinion of the Commission filed in this proceeding, and it appearing appropriate in the public interest so to do;

It is ordered, pursuant to Rule 340 (b) of the Commission's General Rules and Regulations promulgated under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be and the same hereby is permanently suspended.

By the Commission.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 30th day of March, A. D., 1937.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE PURE-TUNNELL #59 FARM, FILED ON MARCH 24, 1937, BY P. R. KNICKERBOCKER, RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)) AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that the farm name which by the form prescribed under Schedule A is required to be stated preceding Division I is omitted;

(2) In that under Division II, Item 12 (a), there is a failure to disclose to whom the taxes are payable;

(3) In that the figures stated for the months of September 1936 and February 1937 under Division II, Item 16, may not be correctly calculated, which statement might also be made relative to the figures set forth for the same months under Division II, Item 16 (d);

(4) In that it appears from the information disclosed by Exhibit B that there are 15 producing wells located upon the tract involved, which information, if correct, shows that the data required to be stated under Division II, Item 17 (b), is not complete. Reference is made to the instructional note under that number which provides that if the wells located on the particular tract involved number less than 15, the dates of completion of all of said wells must be stated;

(5) In that the text required to be stated by Schedule A under Division II, Item 18 (a) (viii) is omitted;

(6) In that it appears that the number of acres described in Exhibit B does not agree with the information given under Division II, Item 2 (c) and Division II, Item 17 (c);

(7) In that it appears from Exhibit B that the conveyance to be made will carry with it a ¼ of one acre mineral fee, which statement appears to disagree with the fraction given under Division II, Item 1, which provides that the smallest interest proposed to be offered is $^1/_8$ of one acre;

(8) In that the statement made under Division II, Item 19, does not appear to be such a statement as is required by the General Rules and Regulations of the Commission and might prove to be misleading.

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 29th day of April, 1937, that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Charles S. Lobingier, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 14th day of April, 1937, at 11:00 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

By the Commission.

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 30th day of March, A. D., 1937.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE MARGAY-BEMIS "A" FARM, FILED ON MARCH 24, 1937, BY LEO A. MCGRAIL & CO., RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)), AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that the number of barrels of oil which must be produced before the smallest fractional interest proposed to be offered will be entitled to receive one barrel does not appear to be correctly calculated in the statement made under Division II, Item 1;

(2) In that under Division II, Item 12 (a), the offering sheet fails to clearly state that the interest holder is liable for the payment of a proportionate share of the taxes to be deducted, and that the information disclosed therein may be misleading by reason of the fact that it appears there are six producing wells on the tract involved;

(3) In that the required information relative to the total production of oil from the tract required to be disclosed under Division II, Item 15, is omitted;

(4) In that the information relative to the gross production of water from the tract as set forth under Division II, Item 16 (a) (iii) may not be correct and might, therefore, be misleading;

(5) In that the figures set forth under Division II, Item 16 (d), may not be correct by reason of the fact that it appears that the proportionate amount payable for taxes has not been deducted;

(6) In that the proper form of statement preceding the signature on the offering sheet has apparently not been included. Reference is made to the form marked "1" immediately following Division II, Item 19, of Schedule A.

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 29th day of April, 1937, that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Charles S. Lobingier, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 14th day of April, 1937, at 10:30 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

By the Commission.

The Securities and Exchange Commission, finding that the offering sheet filed with the Commission, which is the subject of this proceeding, has been amended, so far as necessary, in accordance with the Suspension Order previously entered in this proceeding;

It is ordered, pursuant to Rule 341 (d) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the amendment received at the office of the Commission on March 29, 1937, be effective as of March 29, 1937; and

It is further ordered that the Suspension Order, Order for Hearing and Order Designating a Trial Examiner, heretofore entered in this proceeding, be and the same hereby are revoked and the said proceeding terminated.

By the Commission.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE MORRIS-SEIBEL-CLAYTON FARM FILED ON MARCH 26, 1937, BY JAMES R. HAYNES, RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)) AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

In that the representations made under Division II, Item 7, do not appear to be justified if the facts stated in Division II, Item 8, are taken into consideration;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 30th day of April, 1937; that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Charles S. Moore, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 15th day of April, 1937, at 11:00 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

IN THE MATTER OF AN OFFERING SHEET OF A WORKING INTEREST IN THE MANNING-BRYSON #1 FARM, FILED ON MARCH 26, 1937, BY R. H. MANNING & COMPANY, RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)) AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that the number of barrels of oil to be produced before the smallest fractional interest proposed to be offered will be entitled to one barrel, as set forth in Division II, Item 1, may not be correct;

(2) In that the area of the tract in acres, required to be stated under Division II, Item 2 (c), is not properly set forth;

(3) In that the plat attached to the offering sheet as Exhibit A appears to be deficient in the following particulars:

(a) depths and numbers of producing wells omitted;

(b) scale appears to be incorrectly stated;

(c) the tract involved appears to be inaccurately drawn by reason of the fact that the east line thereof should, according to the information disclosed by the offering sheet, be only one-half as long as the west line; whereas it appears that the east and west lines on the plat are of equal length;

(4) In that the statement made under Division II, Item 25, does not appear to clearly set forth the required information, and for that reason might be misleading;

(5) In that in the statement made under Division II, Item 12, it is not shown that the tract is "surrounded by producing wells";

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 30th day of April, 1937; that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

## VETERANS' ADMINISTRATION.

EMERGENCY OFFICERS RETIREMENT CLAIMS, REGULATIONS AMENDED

APPORTIONMENTS AUTHORIZED

R-1310. Disability pension, compensation, or emergency officers retirement pay, except that payable under the reenacted pension statutes or for service prior to April 21, 1898, amounting to more than $20.00 monthly, will be apportioned according to the table provided in R. & P. R-1311, except where otherwise authorized or provided herein—

(A) When the disabled person and his wife are not living together by reason of estrangement.

(B) Where the child or children are not in the custody of the disabled person.

(C) Where action is being effected toward the appointment of a fiduciary for an incompetent or insane beneficiary. (April 1, 1937.) (Public No. 141, 73d Congress.)

ADJUDICATION OF BENEFITS IN EMERGENCY OFFICERS RETIREMENT CLAIMS

R–1350. After a determination as to entitlement or nonentitlement is made by the board of veterans appeals, and after the approval of the necessary award action by the claims division, veterans claims service, claims for emergency officers retirement will be decentralized to the proper regional office or facility, except where jurisdiction is vested in central office as provided in R. & P. R–2050, and will thereafter be adjudicated by the adjudication division in the field offices for the purpose of awarding or apportioning emergency officers retirement payments, pension, or compensation; provided, that where denial is made by the board of veterans appeals in its capacity as a body of original jurisdiction in claims for emergency officers retirement pay, decentralization will be effected upon the expiration of a period of one year from the date on which notice of the decision is dispatched to the claimant, if in the meantime an appeal is not filed; and provided, further, that where denial is made by the board of veterans appeals on appeal, decentralization will be withheld for a period of six months from the date in which notice of the decision is sent to the claimant. Payment Card, Finance Form 1071, will be retained in central office. (April 1, 1937.) (Public No. 506, 70th Congress and Public No. 2, 73d Congress.)

SERVICE REQUIRED TO ESTABLISH TITLE TO EMERGENCY OFFICERS RETIREMENT PAY

R–1351. A person must have served as a commissioned officer in one of the branches of the service between April 6, 1917, and November 11, 1918, or if he served in Russia between April 6, 1917 and April 1, 1920, before he would be entitled to continue to receive retirement pay under Public No. 2, 73d Congress. (A. D. 117–A) (April 1, 1937.)

PROTECTION AFFORDED BENEFITS BEING PAID ON MARCH 20, 1933. PAYMENTS NOT LIMITED TO $275.00 PER MONTH

R–1352. The phrase "entitled to continue to receive retirement pay at the monthly rate now being paid him" contained in Section 10, Title I, Public No. 2, 73d Congress, and Veterans Regulation No. 5 does not include the additional allowance for nurse or attendant which was being paid the retired officer on March 20, 1933, since such allowance was not a part of the retirement pay. Section 28, Public No. 141, 73d Congress, was not intended nor designed to protect an award for a nurse or attendant to those retired officers who continued to receive retirement pay under Section 10, Title I, Public No. 2, 73d Congress. Any retired emergency officer in receipt of retired pay on March 20, 1933, will be deemed to have been in receipt of compensation or pension. That part of Public No. 2, 73d Congress, providing $275 as the maximum rate of pension or compensation which may be paid for disability, has no application to emergency officers retirement payments. (A. D. 158, 260.) (April 1, 1937.)

DISABILITY INCURRED WHILE SERVING AS ENLISTED MAN OR COMMISSIONED OFFICER

R–1353. Whether the disability was incurred while serving as an enlisted man or as a commissioned officer, an emergency officer, if otherwise eligible, is entitled to continue to receive retirement pay if he served as a commissioned officer between the dates specified in R. & P. R–1351 and the disability was incurred during an enlistment or enrollment entered into between such dates. (A. D. 117–A) (April 1, 1937.) (Public No. 506, 70th Congress.)

DIFFERENCE BETWEEN RETIREMENT PAY AND ACTIVE SERVICE PAY

R–1354. There may be paid to a retired emergency officer concurrently with active service pay, the difference between his retirement pay as such officer and his active service pay as a member of the armed forces. (A. D. 344.) (April 1, 1937.) (Public No. 506, 70th Congress.)

PHYSICAL EXAMINATIONS ON EMERGENCY OFFICERS RETIREMENT CLAIMS

R–1355. Physical examinations in connection with emergency officers retirement claims will be made only upon central office request initiated by the chairman, board of veterans appeals, and communicated to the field station concerned by the medical director; provided, that physical examinations for compensation or pension benefits will be authorized by the adjudication agency having jurisdiction of the claim. (April 1, 1937.) (Public No. 2, 73d Congress.)

SUBSEQUENT FINDINGS OF COMBAT INCURRENCE BY ADJUDICATING AGENCIES OF ORIGINAL JURISDICTION

R–1356. Where a claim for retirement has been allowed or denied by the board of veterans appeals, no other rating agency will thereafter make an initial finding in such claim that any disability was incurred in combat with an enemy of the United States. If a rating agency is of the opinion that the veteran has a disability which was incurred in combat, the claim will be transmitted to the board of veterans appeals with appropriate recommendation. The initial rating action taken by the board of veterans appeals in these cases will be subject to appeal within the time prescribed by regulations. (April 1, 1937.) (Public No. 506, 70th Congress.) (Public No. 2, 73d Congress.)

SUBSEQUENT FINDINGS OF THIRTY PER CENTUM OR MORE BY ADJUDICATING AGENCIES OF ORIGINAL JURISDICTION

R–1357. Where a claim for emergency officers retirement has been denied by the board of veterans appeals, no rating agency will thereafter make a rating of thirty per centum or more for a single disability or for a combination of disabilities effective on or before May 24, 1929, but if such rating is deemed to be indicated, the claim will be submitted to the board of veterans appeals with appropriate recommendation. (April 1, 1937.) (Public No. 506, 70th Congress.)

PUBLIC NO. 212, 72D CONGRESS

R–1358. (A) Public No. 212, 72d Congress, is permanent legislation, and, accordingly, the restrictions therein contained respecting payment of emergency officers retirement pay to Federal employees are for application. A finding by the board of veterans appeals that a disability is the direct result of the performance of military duty does not of itself meet the requirements of Public No. 212. There must be a specific finding of combat incurrence of a disability for which retirement was granted. The provisions of Paragraph X of Veterans Regulation No. 10 (c), permitting full pension or compensation to a Government employee for a disability due to the explosion of an instrumentality of war is not applicable to emergency officers retirement claims.

(B) A veteran whose emergency officers retirement pay was suspended by reason of this Act is entitled to benefits provided by Public No. 2 and No. 141, 73d Congress, without the necessity of filing a new claim, provided, however, that if he has rights to continuation of emergency officers retirement pay under Public No. 2, 73d Congress, he cannot receive other benefits without a specific election. (April 1, 1937.)

STATUTORY ALLOWANCE NOT PAYABLE

R–1359. Retired emergency officers and retired enlisted men and officers of the regular service are not entitled to the statutory allowances, including the additional allowance for a nurse or attendant, payable in addition to compensation. (April 1, 1937.) (Public No. 2, 73d Congress.)

SERVICE CONNECTION AND EVALUATION

JURISDICTION OF THE CENTRAL DISABILITY BOARD

R–2050. Within the jurisdiction of the central disability board, claims division, will be included claims for disability compensation and pension of the following classes:

(A) Those based upon all war and peace-time service prior to April 6, 1917.

(B) Those based upon service subsequent to July 2, 1921.

(C) Those based upon service between April 6, 1917, and July 2, 1921, when the person also has filed a claim based upon service during some other period.

(D) Those of veterans residing without the continental limits of the United States.

(E) Those of veterans residing within the territory in and adjacent to Washington, D. C., and not allocated to any other office.

(F) Those of persons in the unclassified service who have been employed by the Veterans' Administration for 90 days; and those of Veterans' Administration employees in the classified service. See R. & P. R–1012.

(G) Those in which rights under the World War Veterans Act, 1924, as amended, or under Section 15, Public No. 2, 73d Congress have been forfeited.

(H) Any other claims referred by competent authority. (April 1, 1937.) (Public No. 141, 73d Congress.)

(R–2225 canceled April 1, 1937.)

(R–2250 to 2263 canceled April 1, 1937.)

PERMANENT RATINGS, REGULATIONS AMENDED

DETERMINATION OF PERMANENCE

R–1144. (B) All disability ratings relating to impairments, the lesions and symptoms of which have persisted at approximately the same level of severity as shown by two or more examinations at least five years apart, unless material improvement in the near future may be anticipated on the basis of evidence pertinent to the individual case, will be placed on a permanent basis. Mere differences in descriptive and diagnostic terms, or in emphasis or absence of emphasis on successive examinations, will be disregarded in this connection. With a major disability rated on a permanent basis, minor disabilities will be placed on a permanent rating, without regard to fluctuations in the past, except as set forth below.

(C) In the case of diseases or injuries of fluctuating severity over the past five year period, where the conversion of the current temporary rating to a permanent rating of the same degree would not be justified, permanent ratings may be made on the basis of the average severity disclosed by examinations covering this five year period, including a recent examination, or an examination conducted under R. & P. R–1265 if necessary. In such cases the several examinations utilized will be individually cited with dates, in connection with the diagnoses in question.

(D) Nothing herein will prevent rating on a permanent basis the residuals of all healed injuries. (April 1, 1937.) (Vets. Reg. No. 3–Series.)

REEXAMINATIONS TO BE REQUESTED WHEN NECESSARY

R–1185. (A) Reexaminations will be requested in cases in which it is indicated by evidence of record that there has been a material decrease in disability since the last examination, and in cases where there is evidence, pertinent to the individual case, that the disability is likely to improve materially in the future.

(B) Reexaminations for compensation and pension ratings in service connected cases under Public No. 2 or Public No. 141 will not be requested in cases conforming to the standards of permanence set forth in R. & P. R–1144 (B), (C), or (D). When not conforming to these standards, reexamination will be requested once in thirty months. Examinations at shorter intervals in accordance with anticipated improvement in individual cases may be requested when necessary with service connected diseases and injuries of recent origin or acute exacerbations temporarily increasing the severity.

(C) In non-service connected cases under Part III, Veterans Regulation No. 1 (a), wherein a permanent total rating may be in effect, or be hereafter granted, based on other than obviously static disabilities, reexaminations will be conducted within thirty months of the date the permanent total rating was first granted, and again within five years of the same date. In cases in which the permanent total disability is confirmed by such examinations, or by examinations covering a five year period previously conducted, or generally with obviously static disabilities, future reexaminations will not be requested. (April 1, 1937.)

REDUCTION NOT AUTHORIZED WITHOUT REEXAMINATION

R–1265. The protection afforded by Section 28, Public No. 141, 73d Congress, will not be withdrawn and compensation or pension reduced or discontinued by reason of a new evaluation without physical examination, except that a physical examination will not be requested where there is on file a recent report that accurately reflects the current disability, is adequate for rating purposes, and meets the particular requirements of the applicable provisions of the rating schedules. A change in the combined rating incident to rerating from a temporary to a permanent basis (not involving change in the percentage evaluation of any disability) may be effected without reexamination. (April 1, 1937.)

### Agricultural Adjustment Administration.

TERMINATION OF LICENSE FOR MILK, GRAND RAPIDS, MICHIGAN, SALES AREA

Whereas, H. A. Wallace, Secretary of Agriculture of the United States of America, acting under the provisions of the Agricultural Adjustment Act, as amended, for the purposes and within the limitations therein contained and pursuant to the general regulations issued thereunder, on the 30th day of June 1934, issued under his hand and the official seal of the Department of Agriculture a license for milk—Grand Rapids, Michigan, Sales Area, effective the 1st day of July 1934, which license was subsequently amended on November 5, 1934, and December 5, 1934, and May 1, 1935, and suspended on August 31, 1936; and

Whereas, the Secretary of Agriculture has determined to terminate said license as amended;

Now, therefore, Harry L. Brown, Acting Secretary of Agriculture of the United States of America, acting under the authority vested in the Secretary of Agriculture by said Act, as amended, hereby terminates said license, as amended.

In witness whereof, Harry L. Brown, Acting Secretary of Agriculture of the United States of America, has executed this termination in duplicate and has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the city of Washington, District of Columbia, this 31st day of March 1937, and hereby declares that this termination shall be effective on and after 12: 01 A. Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, Bulletin No. 101 for Pennsylvania, as amended by Supplements (1), (2), and (3), is hereby amended as follows:

I

The matter in subsection (b) of section 4, Part VIII, reading as follows, is hereby stricken out:

The diversion payment with respect to a farm covered by an application for payment shall be divided among the producers concerned in the same proportion as the crops in the general soil-depleting base are divided under their lease or operating agreement.

In lieu of the matter stricken out the following is inserted:

(b) The general diversion payment with respect to a farm covered by an application for payment shall be divided among the producers concerned in the same proportion as the crops in the general soil-depleting base are divided under the lease or operating agreement.

The tobacco diversion payment for a farm covered by an application for payment shall be divided between the producers concerned in the proportion that each shares in the tobacco grown on that farm or the proceeds thereof.

In testimony whereof, Harry L. Brown, Acting Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 31st day of March, 1937.

WR—B-101—Arizona, Part XI Issued March 31, 1937

1937 AGRICULTURAL CONSERVATION PROGRAM—WESTERN REGION

BULLETIN NO. 101, ARIZONA, PART XI

Western Region Bulletin No. 101—Arizona is hereby supplemented by adding thereto the following part XI.

*Part XI. Multiple Farm Holdings*

SECTION 1. *Determination of Class I Payment for Diversion.*—The amount of class I payment to be made to any person for diversion from the cotton and general soil-depleting bases shall be computed on the basis of the performance on all diversion farms owned or operated by such person in the county as follows:

A. Compute for each such farm the applicant's share[1] of class I payment with respect to the decrease from the general soil-depleting bases and total the amounts thus obtained;

B. Compute for each such farm the applicant's share of deduction with respect to the 1937 acreage of all soil-depleting crops except cotton in excess of the general soil-depleting base, and total the amounts thus obtained;

C. Compute for each such farm the applicant's share of the maximum possible class I payment for diversion from the general soil-depleting base and total the amounts thus obtained;

D. Subtract the total obtained under subsection B from the total obtained under subsection A. The result, not in excess of the amount obtained under subsection C shall, subject to other applicable provisions of this part XI, be the class I payment to the applicant for diversion from the general soil-depleting base: *provided, however,* that, if the total obtained under subsection B is larger than the total obtained under subsection A, the difference shall be deducted from any payment other than a range-building payment which otherwise would be made to the applicant;

E. Compute for each such farm the applicant's share of the class I payment with respect to the decrease from the cotton soil-depleting base and total the amounts thus obtained;

F. Compute for each such farm the applicant's share of deduction with respect to the 1937 acreage of cotton in excess of the cotton soil-depleting base and total the amounts thus obtained;

G. Compute for each such farm the applicant's share of the maximum possible class I payment for diversion from the cotton soil-depleting base and total the amounts thus obtained;

H. Subtract the total obtained under subsection F from the total obtained under subsection E. The result, not in excess of the amount obtained under subsection G shall, subject to the applicable provisions of this part XI, be the class I payment to the applicant for diversion from the cotton soil-depleting base; *provided, however,* that, if the total obtained under subsection F is larger than that obtained under subsection E, the difference shall be deducted from any payment other than a range-building payment which otherwise would be made to the applicant.

SECTION 2. *Deductions for failure to have soil-conserving acreage required with respect to the cotton soil-depleting bases on all farms owned or operated by the applicant in the county.*—A. Determine the applicant's share[1] of the acreage of soil-conserving crops required with respect to the cotton soil-depleting bases as follows:

1. To the sum of the applicant's share of decreases from the cotton soil-depleting bases or the sum of the applicant's share of maximum diversion from the cotton soil-depleting bases, whichever sum is the smaller, add the sum of the applicant's share of the normal acreage of soil-conserving crops on each farm with a cotton soil-depleting base.

B. For each farm with a cotton soil-depleting base, compute the applicant's share[1] of the 1937 acreage of soil-conserving crops and total the amounts thus obtained.

C. If the applicant's share of the 1937 acres of soil-conserving crops obtained under subsection B of this section 2, is less than the applicant's share of the acreage of soil-conserving crops required with respect to the cotton soil-depleting bases obtained under subsection A of this section 2, a deduction shall be made from any payment other than a range-building payment which otherwise would be made to the applicant at the rate of $3.00 for each deficit acre.

SECTION 3. *Non-diversion Farms.*—A. The foregoing provisions of this part XI are not applicable to non-diversion farms; *provided, however,* that any non-diversion farm upon which there has been an increase in the 1937 acreage of soil-depleting crops in excess of the soil-depleting base or 20 acres, whichever is the larger, shall be classified as a diversion farm.

SECTION 4. *Determination of Class II Payments.*—The amount of class II payment to be made to any person for carrying out approved soil-building practices on all diversion and non-diversion farms owned or operated by such person in the county shall be computed as follows:

A. For each farm multiply the number of acres devoted to an approved soil-building practice by the rate specified for such practice; multiply this result by the percentage to which the applicant is entitled, and total the amounts thus obtained.

B. For each farm compute the applicant's share of the soil-building allowance (without regard to the minimum soil-building allowance) and total the amounts thus obtained.

C. The amount obtained under subsection A of this section 4, not in excess of the amount obtained under subsection B of this section 4 shall, subject to the applicable provisions of this part XI, be the amount of the class II payment to the applicant.

[1] The applicant's share of any payment, deduction, acreage, etc., shall be determined in accordance with the provisions of part V governing the applicant's share of payment.

SECTION 5. *Adjustment in Payments.*—In the event that any person who makes application for payment with respect to any diversion farm has an interest as owner or operator in another farm or farms in the same State upon which the aggregate 1937 acreage of soil-depleting crops exceeds the soil-depleting base acreage for such farm or farms, the applicant's share of any payment may, in the discretion of the Secretary, be adjusted to offset such increase in soil-depleting acreage.

In testimony whereof, Harry L. Brown, Acting Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the city of Washington, District of Columbia, this 31st day of March 1937.

BULLETIN NO. 101—KANSAS, PART XI

Western Region Bulletin No. 101—Kansas is hereby supplemented by adding thereto the following Part XI.

*Part XI. Multiple Farm Holdings*

SECTION 1. *Determination of Class I Payment for Diversion.*—The amount of class I payment to be made to any person for diversion from the cotton, tobacco and general soil-depleting bases shall be computed on the basis of the performance on all diversion farms owned or operated by such person in the county as follows:

A. Compute for each such farm the applicant's share[1] of class I payment with respect to the decrease from the general soil-depleting base and total the amounts thus obtained;

B. Compute for each such farm the applicant's share of deduction with respect to the 1937 acreage of all soil-depleting crops except cotton and tobacco in excess of the general soil-depleting base, and total the amounts thus obtained;

C. Compute for each such farm the applicant's share of the maximum possible class I payment for diversion from the general soil-depleting base and total the amounts thus obtained;

D. Subtract the total obtained under subsection B from the total obtained under subsection A. The result, not in excess of the amount obtained under subsection C shall, subject to other applicable provisions of this part XI, be the class I payment to the applicant for diversion from the general soil-depleting base; *provided, however*, that, if the total obtained under subsection B is larger than the total obtained under subsection A, the difference shall be deducted from any payment other than a range-building payment which otherwise would be made to the applicant;

E. Compute for each such farm the applicant's share of the class I payment with respect to the decrease from the cotton soil-depleting base and total the amounts thus obtained;

F. Compute for each such farm the applicant's share of deduction with respect to the 1937 acreage of cotton in excess of the cotton soil-depleting base and total the amounts thus obtained;

G. Compute for each such farm the applicant's share of the maximum possible class I payment for diversion from the cotton soil-depleting base and total the amounts thus obtained;

H. Subtract the total obtained under subsection F from the total obtained under subsection E. The result, not in excess of the amount obtained under subsection G shall, subject to the applicable provisions of this part XI, be the class I payment to the applicant for diversion from the cotton soil-depleting base; *provided, however*, that, if the total obtained under subsection F is larger than that obtained under subsection E, the difference shall be deducted from any payment other than a range-building payment which otherwise would be made to the applicant;

I. Compute for each such farm the applicant's share of the class I payment with respect to the decrease from the tobacco soil-depleting base and total the amounts thus obtained;

J. Compute for each such farm the applicant's share of deduction with respect to the 1937 acreage of tobacco in excess of the tobacco soil-depleting base and total the amounts thus obtained;

K. Compute for each such farm the applicant's share of the maximum possible class I payment for diversion from the tobacco soil-depleting base and total the amounts thus obtained;

L. Subtract the total obtained under subsection J from the total obtained under subsection I. The result, not in excess of the amount obtained under subsection K shall, subject to the applicable provisions of this part XI, be the class I payment to the applicant for diversion from the tobacco soil-depleting base; *provided, however*, that if the total obtained under subsection J is larger than that obtained under subsection I, the difference shall be deducted from any payment other than a range-building payment which otherwise would be made to the applicant.

SECTION 2. *Deductions for failure to have soil-conserving acreage required with respect to the cotton and tobacco soil-depleting bases on all farms owned or operated by the applicant in the county.*—A. Determine the applicant's share[1] of the acreage of soil-conserving crops with respect to the cotton and tobacco soil-depleting bases as follows:

1. To the sum of the applicant's share of the normal acreage of soil-conserving crops on each farm with a cotton or tobacco soil-depleting base add—

a. The sum of the applicant's share of decrease from the cotton soil-depleting bases or the sum of the applicant's share of maximum diversion from the cotton soil-depleting bases, whichever is smaller, and

b. The sum of the applicant's share of decrease from the tobacco soil-depleting bases or the sum of the applicant's share of maximum diversion from the tobacco soil-depleting bases, whichever is smaller.

B. For each farm with a cotton or tobacco soil-depleting base, compute the applicant's share[1] of the 1937 acreage of soil-conserving crops and total the amounts thus obtained.

C. If the applicant's share of the 1937 acres of soil-conserving crops obtained under subsection B of this section 2, is less than the applicant's share of the acreage of soil-conserving crops required with respect to the cotton and tobacco soil-depleting bases obtained under subsection A of this section 2, a deduction shall be made from any payment other than a range-building payment which otherwise would be made to the applicant at the rate of $3.00 for each deficit acre.

SECTION 3. *Non-diversion Farms.*—A. The foregoing provisions of this part XI are not applicable to non-diversion farms; *provided, however*, that any non-diversion farm upon which there has been an increase in the 1937 acreage of soil-depleting crops in excess of the soil-depleting base or 20 acres, whichever is the larger, shall be classified as a diversion farm.

*Part XI. Multiple Farm Holdings*

SECTION 1. *Determination of Class I Payment for Diversion.*—The amount of class I payment to be made to any person for diversion from the soil-depleting base shall be determined on the basis of the performance on all diversion farms owned or operated by such person in the county as follows:

A. Compute for each such farm the applicant's share[1] of class I payment with respect to the decrease from the soil-depleting base and total the amounts thus obtained;

B. Compute for each such farm the applicant's share of deduction with respect to the 1937 acreage of all soil-depleting crops in excess of the soil-depleting base, and total the amounts thus obtained;

C. Compute for each such farm the applicant's share of the maximum possible class I payment for diversion from the soil-depleting bases respectively and total the amounts thus obtained;

D. Subtract the total obtained under subsection B from the total obtained under subsection A. The result, not in excess of the amount obtained under subsection C shall, subject to other applicable provisions of this part XI, be the class I payment to the applicant for diversion from the soil-depleting base; *Provided, however*, that, if the total obtained under subsection B is larger than the total obtained under subsection A, the difference shall be deducted from any payment other than a range-building payment which otherwise would be made to the applicant.

SEC. 2. *Non-diversion Farms.*—A. The foregoing provisions of section 1 of this part XI are not applicable to non-diversion farms, *provided, however*, that any non-diversion farm upon which there has been an increase in the 1937 acreage of soil-depleting crops in excess of the soil-depleting base or 20 acres, whichever is the larger, shall be considered a diversion farm.

[1] The applicant's share of any payment, deduction, acreage, etc., shall be determined in accordance with the provisions of part V governing the applicant's share of payment.

[1] The applicant's share of any payment, deduction, acreage, etc., shall be determined in accordance with the provisions of part V governing the applicant's share of payment.

SEC. 3. *Determination of Class II Payments.*—The amount of class II payment to be made to any person for carrying out approved soil-building practices on all diversion and non-diversion farms owned or operated by such person in the county shall be computed as follows:

A. For each farm multiply the number of acres devoted to an approved soil-building practice by the rate specified for such practice; multiply this result by the percentage to which the applicant is entitled, and total the amounts thus obtained;

B. For each farm compute the applicant's share of the soil-building allowance (without regard to the minimum soil-building allowance) and total the amounts thus obtained;

C. The amount obtained under subsection A of this section 3, not in excess of the amount obtained under subsection B of this section 3 shall, subject to other applicable provisions of this part XI, be the amount of the class II payment to the applicant.

SEC. 4. *Adjustment in Payments.*—In the event that any person who makes application for payment with respect to any diversion farm has an interest as owner or operator in another farm or farms in the same State upon which the aggregate 1937 acreage of soil-depleting crops exceeds the soil-depleting base acreage for such farm or farms, the applicant's share of any payment may, in the discretion of the Secretary, be adjusted to offset such increase in soil-depleting acreage.

In testimony whereof, Harry L. Brown, Acting Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the city of Washington, District of Columbia, this 31st day of March, 1937.

WR—B-101—New Mexico, Part XI Issued March 31, 1937

1937 AGRICULTURAL CONSERVATION PROGRAM—WESTERN REGION

BULLETIN NO. 101, NEW MEXICO, PART XI

Western Region Bulletin No. 101—New Mexico is hereby supplemented by adding thereto the following part XI.

*Part XI. Multiple Farm Holdings*

SECTION 1. *Determination of Class I Payment for Diversion.*—The amount of class I payment to be made to any person for diversion from the cotton and general soil-depleting bases shall be computed on the basis of the performance on all diversion farms owned or operated by such person in the county as follows:

A. Compute for each such farm the applicant's share[1] of class I payment with respect to the decrease from the general soil-depleting bases and total the amounts thus obtained;

B. Compute for each such farm the applicant's share of deduction with respect to the 1937 acreage of all soil-depleting crops except cotton in excess of the general soil-depleting base, and total the amounts thus obtained;

C. Compute for each such farm the applicant's share of the maximum possible class I payment for diversion from the general soil-depleting base and total the amounts thus obtained;

D. Subtract the total obtained under subsection B from the total obtained under subsection A. The result, not in excess of the amount obtained under subsection C shall, subject to other applicable provisions of this part XI, be the class I payment to the applicant for diversion from the general soil-depleting base; *provided, however,* that if the total obtained under subsection B is larger than the total obtained under subsection A, the difference shall be deducted from any payment other than a range-building payment which otherwise would be made to the applicant;

E. Compute for each such farm the applicant's share of the class I payment with respect to the decrease from the cotton soil-depleting base and total the amounts thus obtained;

F. Compute for each such farm the applicant's share of deduction with respect to the 1937 acreage of cotton in excess of the cotton soil-depleting base and total the amounts thus obtained;

G. Compute for each such farm the applicant's share of the maximum possible class I payment for diversion from the cotton soil-depleting base and total the amounts thus obtained;

H. Subtract the total obtained under subsection F from the total obtained under subsection E. The result, not in excess of the amount obtained under subsection G shall, subject to the applicable provisions of this part XI, be the class I payment to the applicant for diversion from the cotton soil-depleting base; *provided, however,* that, if the total obtained under subsection F is larger than that obtained under subsection E, the difference shall be deducted from any payment other than a range-building payment which otherwise would be made to the applicant.

SECTION 2. *Deductions for failure to have soil-conserving acreage required with respect to the cotton soil-depleting bases on all farms owned or operated by the applicant in the county.*—A. Determine the applicant's share[2] of the acreage of soil-conserving crops required with respect to the cotton soil-depleting bases as follows:

1. To the sum of the applicant's share of decreases from the cotton soil-depleting bases or the sum of the applicant's share of maximum diversion from the cotton soil-depleting bases, whichever sum is the smaller, add the sum of the applicant's share of the normal acreage of soil-conserving crops on each farm with a cotton soil-depleting base.

B. For each farm with a cotton soil-depleting base, compute the applicant's share[1] of the 1937 acreage of soil-conserving crops and total the amounts thus obtained.

C. If the applicant's share of the 1937 acres of soil-conserving crops obtained under subsection B of this section 2, is less than the applicant's share of the acreage of soil-conserving crops required with respect to the cotton soil-depleting bases obtained under subsection A of this section 2, a deduction shall be made from any payment other than a range-building payment which otherwise would be made to the applicant at the rate of $3.00 for each deficit acre.

SECTION 3. *Non-diversion Farms.*—A. The foregoing provisions of this part XI are not applicable to non-diversion farms; *provided, however,* that any non-diversion farm upon which there has been an increase in the 1937 acreage of soil-depleting crops in excess of the soil-depleting base or 20 acres, whichever is the larger, shall be classified as a diversion farm.

SECTION 4. *Determination of Class II Payments.*—The amount of class II payment to be made to any person for carrying out approved soil-building practices on all diversion and non-diversion farms owned or operated by such person in the county shall be computed as follows:

A. For each farm multiply the number of acres devoted to an approved soil-building practice by the rate specified for such practice; multiply this result by the percentage to which the applicant is entitled, and total the amounts thus obtained.

B. For each farm compute the applicant's share of the soil-building allowance (without regard to the minimum soil-building allowance) and total the amounts thus obtained.

C. The amount obtained under subsection A of this section 4, not in excess of the amount obtained under subsection B of this section 4 shall, subject to the applicable provisions of this part XI, be the amount of the class II payment to the applicant.

[1] The applicant's share of any payment, deduction, acreage, etc., shall be determined in accordance with the provisions of Part V governing the applicant's share of payment.

SECTION 5. *Adjustment in Payments.*—In the event that any person who makes application for payment with respect to any diversion farm has an interest as owner or operator in another farm or farms in the same State upon which the aggregate 1937 acreage of soil-depleting crops exceeds the soil-depleting base acreage for such farm or farms, the applicant's share of any payment may, in the discretion of the Secretary, be adjusted to offset such increase in soil-depleting acreage.

In testimony whereof, Harry L. Brown, Acting Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the city of Washington, District of Columbia, this 31st day of March 1937.

## PRESIDENT OF THE UNITED STATES.

ENLARGING THE TONTO NATIONAL MONUMENT—ARIZONA

By the President of the United States of America

A PROCLAMATION

WHEREAS the area in the State of Arizona established as the Tonto National Monument by Proclamation of December 19, 1907, has situated thereon prehistoric ruins and ancient cliff dwellings which are of great ethnologic, scientific, and educational interest to the public; and

WHEREAS it appears that there are certain government-owned lands reserved by Proclamation of January 13, 1908, as a part of the Tonto National Forest, adjacent to the boundaries of the said monument, which are required for the proper care, management, and protection of the said historic ruins and ancient cliff dwellings:

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, under and by virtue of the authority vested in me by section 1 of the act of June 4, 1897, ch. 2, 30 Stat. 11, 36 (U. S. C., title 16, sec. 473), and section 2 of the act of June 8, 1906, ch. 3060, 34 Stat. 225 (U. S. C., title 16, sec. 431), do proclaim that, subject to all valid existing rights, the following-described lands in Arizona are hereby excluded from the Tonto National Forest and reserved from all forms of appropriation under the public-land laws and added to and made a part of the Tonto National Monument:

GILA AND SALT RIVER MERIDIAN

T. 4 N., R. 12 E., sec. 26, SW¼;
sec. 27, SE¼
sec. 35, NW¼ (unsurveyed), containing approximately 480 acres.

Warning is hereby expressly given to all unauthorized persons not to appropriate, injure, destroy, or remove any feature of this monument and not to locate or settle upon any of the lands thereof.

The Director of the National Park Service, under the direction of the Secretary of the Interior, shall have the supervision, management, and control of this monument as provided in the act of Congress entitled "An Act To establish a National Park Service, and for other purposes", approved August 25, 1916 (ch. 408, 39 Stat. 535, U. S. C., title 16, secs. 1 and 2), and acts supplementary thereto or amendatory thereof: *Provided*, That the administration of the monument shall be subject to the withdrawal for the Salt River Irrigation project, Arizona.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States to be affixed.

DONE at the City of Washington this first day of April in the year of our Lord nineteen hundred and
[SEAL] thirty-seven and of the Independence of the United States of America the one hundred and sixty-first.

FRANKLIN D ROOSEVELT

By the President:

CORDELL HULL,

TRADE AGREEMENT NEGOTIATIONS WITH ECUADOR

PUBLIC NOTICE

APRIL 5, 1937.

Pursuant to Section 4 of an Act of Congress approved June 12, 1934, entitled "An Act to Amend the Tariff Act of 1930", as amended, and Executive Order No. 6750 of June 27, 1934, I hereby give notice of intention to negotiate a trade agreement with the Government of Ecuador.

*Time and Place for Presentation of Written and Oral Statements.*—The Committee for Reciprocity Information has prescribed that all information and views in writing and all applications for supplemental oral presentation of views shall be submitted to the Committee for Reciprocity Information not later than twelve o'clock noon, May 3, 1937. They should be addressed to "Acting Chairman, Committee for Reciprocity Information, Old Land Office Building, 8th and E Streets, Northwest, Washington, D. C." Supplemental oral statements will be heard at a public hearing beginning at ten o'clock a. m., on May 17, 1937, before the Committee for Reciprocity Information, in the hearing room of the Tariff Commission in the Old Land Office Building.

*Form and Manner of Presentation.*—The Committee for Reciprocity Information has prescribed the following regulations governing the submission of written and oral statements:

Written statements must be either typewritten or printed. They must be submitted in sextuplicate and at least one copy must be sworn to. Such statements will be treated as confidential, for the use only of the interdepartmental trade agreements organization.

Oral statements may be made to the Committee at the public hearing only by persons who have filed written statements or briefs and who have, within the time prescribed, made written application for a hearing in order that a schedule of appearances may be arranged. Oral statements shall be under oath.

CORDELL HULL,
*Secretary of State.*

APRIL 5, 1937.

LIST OF PRODUCTS ON WHICH THE UNITED STATES WILL CONSIDER GRANTING CONCESSIONS TO ECUADOR

APRIL 5, 1937.

With reference to the public notice, issued today, of intention to negotiate a trade agreement with the Government of Ecuador, the Secretary of State announces that unless supplementary public announcement is made, concessions by the Government of the United States will be considered only with respect to the articles described below.

| United States Tariff Act of 1930 | Description of articles | Present rates of duty |
|---|---|---|
| Paragraph: 752 | (a) For possible duty reductions: Bananas, dried, desiccated, evaporated, or otherwise prepared or preserved, and not specially provided for. | 35% ad valorem. |

| Revenue Act of 1932 Section 601 (c) (6) | Balsa lumber, rough, or planed or dressed on one or more sides. | $1.50 per M feet, board m. |

If, as a result of presentations submitted by interested persons in accordance with the public notice issued today, or as a result of developments during the course of the negotiations, or for any other reason, it seems desirable to add to the above list of products, supplementary announcement will be made of the additions to the list. Such supplementary announcement will specify the dates for the presentation of written and oral statements in regard to any such additions.

PRESENTATION OF VIEWS TO THE COMMITTEE FOR RECIPROCITY INFORMATION WITH REFERENCE TO TRADE AGREEMENTS NEGOTIATIONS WITH ECUADOR

APRIL 5, 1937.

Notice was given today by this Government of intention to negotiate a trade agreement with Ecuador and of the time and place at which, and the manner in which, interested persons should present their views to the Committee for Reciprocity Information. With reference to this notice, an announcement was also made today of the list of products on which the United States will consider granting concessions to Ecuador. Although interested persons may present to the Committee for Reciprocity Information, in written or oral form, information or views regarding concessions on any article imported into the United States from Ecuador, or imported into Ecuador from the United States, concessions by the Government of the United States with respect to any article not included in the list referred to above, will not be considered unless a supplementary announcement is made.

The Committee for Reciprocity Information does not require that written statements submitted to it follow any particular outline. However, proper understanding of the views and desires of interested persons will be greatly facilitated if references are made to specific articles, rather than to general classes of articles, and if statements in regard to each article commence on a separate page. In the case of an export commodity, the information presented should include an accurate description of the article, together with the foreign tariff designation under which it is classified, the amount of the import duty and other charges imposed on or in connection with importation into the foreign country, and also data pertaining to prices, cost of packing and transportation, and net and gross weights.

Statements presented to the Committee for Reciprocity Information in accordance with the notice referred to above, together with digests thereof, are transmitted by that Committee to the appropriate committees of the interdepartmental trade agreements organization, which give them careful study before any recommendations are made. Statements regarding the proposed Ecuadoran agreement which cannot be submitted within the time specified in the notice referred to above will be given such consideration as may be possible at the time of receipt.

Statistics showing the products involved in the trade between the United States and Ecuador may be obtained from the Division of Foreign Trade Statistics of the Department of Commerce or from any district office of the Department of Commerce.

### Bureau of Internal Revenue.

(T. D. No. 4732)

AUTHORIZING INSPECTION BY STATE OFFICIALS OF ORIGINAL RETURNS FOR TAXABLE YEARS BEGINNING ON AND AFTER JANUARY 1, 1935

*To Collectors of Internal Revenue and Others Concerned:*

Regulations 86, as amended by Treasury Decision 4626, C. B. XV-1, page 61, approved February 18, 1936, and Regulations 94, are amended as follows:

A new article is added after article 55 (b)-4, designated "Art. 55 (b)-5", as follows:

ART. 55 (b)-5. Inspection of original returns.—In addition to the inspection of copies of returns provided for in article 55 (b)-3, any properly authorized official, body, or commission, lawfully charged with administration of any State tax law, or properly designated representatives of such official, body, or commission, may, in the discretion of the Commissioner, inspect original income returns for any taxable year beginning after December 31, 1934, for the purpose of such administration. For the purposes of this article the word "returns" shall include information returns, schedules, lists, and other written statements filed with the Commissioner designed to be supplemental to or to become a part of income returns. When permission to inspect original returns is requested, the application of the Governor of the State shall conform to the requirements specified in article 55 (b)-4.

In any case where inspection of the original return is authorized in accordance with the provisions of this article, the Commissioner may, in his discretion, permit inspection of other records and reports which contain information included or required by statute to be included in the return.

Article 55 (b)-1 is amended by striking the figure "4" in the phrase "articles 55 (b)-2 to 55 (b)-4" and substituting therefore the figure "5".

This Treasury decision is issued under the authority prescribed by section 55 (b) (1) of the Revenue Act of 1934 as amended by Act April 19, 1935, and by section 55 (b) (1) of the Revenue Act of 1936.

KLAMATH IRRIGATION PROJECT

PUBLIC NOTICE OF ANNUAL WATER CHARGES [1]

MARCH 17, 1937.

1. *Operation and Maintenance Charges.*—The annual operation and maintenance charge for the irrigation season of 1937, and thereafter until further notice, against all lands of the Main Division lying outside of the Klamath Irrigation District shall be a minimum charge of One dollar and ten cents ($1.10) per irrigable acre, whether water is used or not, which will entitle the water user to two and one-half (2½) acre-feet of water per irrigable acre. Additional water will be furnished at the rate of fifty cents ($0.50) per acre-foot.

2. The annual operation and maintenance charge for the irrigation season of 1937, and thereafter until further notice, against all lands of the Tule Lake Division remaining subject to public notice of September 29, 1922, lying outside of the Klamath Irrigation District, shall be a minimum charge of one dollar and eighty cents ($1.80) per irrigable acre, whether water is used or not, which will entitle the water user to two and one-half (2½) acre-feet of water per irrigable acre. Additional water will be furnished up to a limit of three and one-half (3½) acre-feet per irrigable acre at the rate of fifty cents ($0.50) per acre-foot and all further quantities for seventy-five cents ($0.75) per acre-foot.

3. The annual operation and maintenance charges for the irrigation season of 1937, and thereafter until further notice, against all lands under individual Warren Act contracts, shall be a minimum charge of sixty-three cents ($0.63) per irrigable acre, whether water is used or not, which will entitle the water user to two and one-half (2½) acre-feet of water per irrigable acre; provided that for those contracts which have not been amended so as to increase the allowance of water from 2 to 2½ acre-feet per annum, only 2 acre-feet will be furnished under the minimum charge. Additional water will be furnished at the rate of twenty-five cents ($0.25) per acre-foot.

4. *Water Rental Charges.*—The annual water rental charge for the irrigation season of 1937, and thereafter until further notice, against all lands of the Tule Lake Division lying outside of the Klamath Irrigation District and subject to Public Orders of January 22, 1927, March 30, 1928, February 6, 1929, September 10, 1930, and October 16, 1931, shall be a minimum charge of one dollar and eighty cents ($1.80) per irrigable acre, whether water is used or not, which will entitle the water users to two and one-half (2½) acre-feet of water per irrigable acre. Additional water will be furnished up to a limit of three and one-half (3½) acre-feet per irrigable acre at the rate of fifty cents ($0.50) per acre-foot and all further quantities for seventy-five cents ($0.75) per acre-foot.

5. For irrigation or waste water furnished Tule Lake leased lands, the charge, unless otherwise specified in the leases, shall be sixty-five cents ($0.65) per acre-foot for the season of 1937 and thereafter until further notice.

6. For water furnished lands not subject to the operation and maintenance or water-rental charges named above the charge shall be seventy-five cents ($0.75) per acre-foot for the season of 1937 and thereafter until further notice.

7. *Time of Payment.*—For lands of the Tule Lake Division under public notice or public order lying outside of the Klamath Irrigation District, the minimum charge of one dollar and eighty cents ($1.80) per irrigable acre stated above will be due and payable one-half before the delivery of water, if water is delivered before July 1, 1937, and one-half on or before July 1, 1937. If no water is delivered before July 1, 1937, then the entire charge shall become due and payable on that date. If the charge, or any part thereof, is unpaid on that date there will be added a penalty of one-half of one per centum (½%) and there will be added a like penalty of one-half of one per centum (½%) on the first day of each month thereafter so long as such default shall continue. Payment for water used in addition to the allowance under the minimum charge shall be made on or before December 1 of the season in which used, and if not paid on or before said due date, there will be added a penalty of one-half of one per centum (½%) and there will be added a like penalty of one-half of one per centum (½%) on the first day of each month thereafter so long as such default shall continue.

8. For all other lands referred to herein the minimum charges announced shall be due and payable before the delivery of water and in any event not later than May 1 of the current irrigation season. Payment for water used in addition to the allowance under the minimum charge shall be made on or before December 1 of the season in which used. On all payments not made on or before the due dates specified herein, there will be added a penalty of one-half of one per centum (½%) and there will be added a like penalty of one-half of one per centum (½%) on the first day of each month thereafter so long as such default shall continue.

9. Where water-rental application is made for public land entered under the reclamation law after June 15 and where water-rental application is made after August 1 for land in private ownership, no water-rental charge shall be made for water delivered during the remainder of the irrigation season in which water-rental application is made.

### Agricultural Adjustment Administration.

NER—B-101—New York, Supplement (2) Issued April 3, 1937

1937 AGRICULTURAL CONSERVATION PROGRAM—NORTHEAST REGION

BULLETIN NO. 101—NEW YORK, SUPPLEMENT (2)

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, Bulletin No. 101 for New York, as amended by Supplement (1), is hereby amended as follows:

I

The following paragraph is added at the end of subsection (a), section 4, of Part IV:

In the case of a farm which is rented for cash or for a fixed commodity payment, the owner shall be considered a producer and shall be eligible to share in the soil-building payment as provided in the preceding paragraph, provided a request for such a division of payment between owner and tenant(s) is filed with the County Committee on the prescribed form and such form is signed by the tenant(s) and the owner.

II

The following is added as Practice No. 21 under the heading "Controlling Soil Erosion".

21. Maintaining shrub windbreaks which are not over 10 years old and which have been planted in accordance with the provisions of practice 19. Maintenance shall include replacing dead shrubs, pruning or cutting back live shrubs as needed to secure sufficient thickness and vigor of growth to assure adequate protection against erosion, and other measures necessary to maintain a well kept, effective hedge. Payment will be made only if on inspection the windbreaks are found to be thick, well kept, and solidly planted with live shrubs.

Payment, 10 cents per linear rod of such windbreak.

III

The last paragraph under the heading "Green-Manure and Cover Crops", reading as follows, is hereby stricken out:

Leaving the entire crop on the land during the winter may be substituted for the plowing or disking under in practice 8 or 9 if the crop is one that is normally winter-killed.

In lieu of the matter stricken out the following is inserted:

Leaving the entire crop on the land during the winter may be substituted for the plowing or disking under in practice 8 or 9 if the crop is either one that is normally winter-killed, or is rye in orchards or on muck land.

In testimony whereof, Harry L. Brown, Acting Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 3rd day of April, 1937.

SR—B-101, Amendment 5 March 1937

1937 AGRICULTURAL CONSERVATION PROGRAM—SOUTHERN REGION

BULLETIN 101—AMENDMENT 5

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Part IX, Revised, of Southern Region Bulletin 101 is hereby amended by adding at the end thereof the following:

*D. Special Provisions for Wind Erosion Area*

SECTION 108. *Soil-Building Allowance.*—The provisions of this section 108 shall apply in addition to sections 1 and 2. On each farm in the wind erosion area qualifying therefor there may be established an additional soil-building allowance as follows:

(a) Seventy-five (75) cents for each acre of cropland on the farm, with respect to which cropland the County Committee determines that wheat has blown out in 1936 or 1937, that wheat or other crops have failed in 1936 or 1937, or that such land is abandoned because conditions have not been favorable to obtaining a natural or seeded vegetative cover, and that the vegetative cover and trash have disappeared to the extent that such land is susceptible to damage by wind erosion in 1937, provided such acreage does not include any acreage diverted for payment in 1937 and shall not exceed the total acreage of cropland on the farm less the sum of the acreage diverted for payment in 1937 and the soil-conserving base for such farm.

SECTION 109. *Soil-Building Practices.*—In addition to those practices listed in section 101, payment will be made for carrying out in 1937 any one or more of the following practices, upon the conditions listed in section 101 and at the following rates.

*Practice Number—Practices and Conditions—Rate Per Acre*

31. *Sorghums or Sudan grass*, seeded in 1937 in combination with or following listing or terracing, either solid in drills, or in rows not over 4 feet apart, on cropland of the type described in paragraph (a), section 108, provided a reasonably good growth is attained, only the heads of the sorghum or seed of the Sudan grass are removed and all the stalks are left on the land, and provided the producer's farming plan provides for such stalks to be left on the land until May 1, 1938, as a protection against wind erosion. (Payment will not be made under practice 28 in combination with this practice): $0.50.

32. *Sorghums or Sudan grass*, seeded in 1937, not in combination with listing or terracing, either solid in drills, or in rows not over 4 feet apart, on cropland of the type described in paragraph (a), section 108, provided a reasonably good growth is attained, only the heads of the sorghum or seed of the Sudan grass are removed and all the stalks are left on the land, and provided the producer's farming plan provides for such stalks to be left on the land until May 1, 1938, as a protection against wind erosion. (Payment will not be made under practice 28 in combination with this practice): $0.35.

33. *Basin listing*, when done on cropland in 1937 with approved basin lister which dams the lister furrows at regular intervals, provided the furrows are not more than 4 feet apart and not less than 4 inches in depth: [1] $0.20.

SECTION 110. *Deductions.*—No deductions will be made for an increase in the acreage of soil-depleting crops or for failure to have the minimum acreage of soil-conserving crops from the payment for carrying out one or more of the erosion-preventing soil-building practices numbered 21, 22, 23, 31, 32, and 33, if an additional soil-building allowance is computed in accordance with paragraph (a), section 108, but deductions will be made from such payments on a pro rata basis for administrative expenses of the program in accordance with section 65.

SECTION 111. *Preliminary Payment.*—On a preliminary application made on the prescribed form, any producer whose soil-building allowance has been established in accordance with section 108 may receive preliminary payment for carrying out one or more of the soil-building practices numbered 21, 22, 23, 31, 32, and 33 covered by such application which he has carried out before June 1, 1937, on land of the type described in paragraph (a), section 108. Such payment shall be 85 percent of the amount computed at the respective rate fixed in the statement of the soil-building practices. Only one such preliminary application may be submitted respecting any particular farm. The amount of such payment will be deducted from the total amount computed as due such producer under the complete and final application made by him for payment under the provisions of the 1937 Agricultural Conservation Program, which application shall be subject to all of the provisions of this Bulletin 101, and under such application the appropriate deduction shall be made for administrative expenses in connection with the producer's preliminary application.

In testimony whereof, Harry L. Brown, Acting Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the city of Washington, District of Columbia, this 3rd day of April 1937.

[SEAL] HARRY L. BROWN,
*Acting Secretary of Agriculture.*

[F. R. Doc. 37-997; Filed, April 5, 1937; 12:58 p. m.]

[1] Where basin listing is done on the contour and the furrows are not more than 4 feet nor less than 2 feet apart and not less than 8 inches in width and 4 inches in depth, such acreage shall be certified under practice 21.

WR—B-101—Colorado—Supplement 2 Issued April 3, 1937

1937 AGRICULTURAL CONSERVATION PROGRAM—WESTERN REGION

BULLETIN NO. 101—COLORADO—SUPPLEMENT 2

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101—Colorado, is hereby amended by this Supplement 2 as follows:

Part III, "Rates and Conditions of Soil-Building Payment", is supplemented by the addition of the following Section:

"SEC. 3. *Designation of Wind-Erosion Area and Special Provisions Applicable Thereto.*—The provisions of this Section 3 shall be applicable only to farms located in the counties of Baca, Bent, Cheyenne, Crowley, Kiowa, Las Animas, Otero, Prowers, and such additional counties or parts of counties, subject to wind erosion in 1937, as may be recommended by the State Committee and approved by the Director of the Western Division.

A. *Farm Acreage Subject to Active Wind-Erosion in 1937.*—The county committee shall determine for each farm in the wind-erosion area, upon which the operator intends to perform wind-erosion control practices in 1937, the acreage of cropland, excluding the maximum acreage which may be diverted for payment on such farm, subject in 1937, to active wind erosion. Such acreage shall be referred to as the "wind-erosion acreage."

B. *Additional Soil-Building Allowance.*—For each farm with respect to which the county committee has designated a wind-erosion acreage there will be added to the Soil-building allowance, computed in accordance with the provisions of Section 2 of this Part III, an additional amount of 75 cents for each acre of wind-erosion acreage. Such additional soil-building allowance may be earned only performing wind-erosion control practices.

C. *Wind-Erosion Control Practices.*—Payment will be made for carrying out on wind-erosion acreage in 1937, such of the following practices as are approved by the county committee for the farm, prior to their institution:

*Practices and Conditions—Rate of Payment*

P. *Contour Listing.*—For cultivation on the contour with a regular double mold-board lister, basin lister, or chisel; provided, that the furrows shall be not more than 4 feet nor less than 2 feet apart and shall, if listed, be not less than 8 inches in width and 6 inches in depth, or if chiseled, be not less than approximately 4 inches in width and 6 inches in depth: $0.25 per acre.

Q. *Listing or Furrowing.*—For cultivation at approximate right angles to the direction of prevailing winds with a regular double mold-board lister, basin lister, or chisel; provided, that the furrows shall be not more than 4 feet nor less than 2 feet apart and shall, if listed, be not less than 8 inches in width and 6 inches in depth, or if chiseled, be not less than approximately 4 inches in width and 6 inches in depth: $0.20 per acre.

R. *Strip Listing or Furrowing.*—For cultivation at approximate right angles to the direction of prevailing winds with a regular three-row or four row double mold-board lister, basin lister, chisel, or hole digger; provided, that the width between strips shall not exceed 30 feet. This practice may be performed more than once on the same acreage, if necessary, to assure effective control following rains or prolonged periods of soil drifting: $0.10 per acre for each cultivation, total payment not to exceed $0.20 per acre.

S. *Planting of Cover Crops.*—Sorghums, sudan grass or millets when planted in rows, not greater than 42 inches apart, or close drilled; provided, however, that a reasonably good growth is attained, that only the heads of the sorghum or seed of the sudan grass are removed, that all of the stalks are left on the ground where grown, and that the operator's farming plan provides that such stalks may be left standing on the land until late in the spring of 1938, as a protection, against wind erosion.

1. If seeded on the contour or in combination with basin listing: $0.50 per acre.
2. If not seeded on the contour or in combination with basin listing: $0.35 per acre.

(Payment may be made with respect to this practice, in addition to Practices K, P, Q, or R, if carried out on the same acreage.)

D. *Deductions.*—The payments provided for in this Section shall not be subject to any deduction for increase in soil-depleting crops. However, such payments shall be subject to deduction for administrative expenses in accordance with the provisions of Section 7 of Part VI.

E. *Eligibility for Payment.*—Notwithstanding the provisions of Part V, payment for any of the foregoing wind-erosion control practices shall be made to the 1937 owner or operator who the county committee determines has performed such practices.

F. *Preliminary Application for Payment.*—By preliminary application made on the prescribed form, any 1937 owner or operator, who has carried out before June 1, 1937, such wind-erosion control practices as are provided for in this Section, may receive a preliminary payment amounting to 85 percent of the amount of payment computed in accordance with the provisions of subsection C above. Such preliminary payment shall not be in excess of 85 percent of the additional soil-building allowance provided for in subsection B above. The amount of such preliminary payment will be deducted from the total amount computed as due such 1937 owner or operator under the complete and final application, appropriate deduction shall be made for administrative expenses.

In testimony whereof Harry L. Brown, Acting Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 3rd day of April, 1937.

WR—B-101—Kansas, Supplement 2 Issued April 3, 1937

1937 AGRICULTURAL CONSERVATION PROGRAM—WESTERN REGION

BULLETIN NO. 101—KANSAS, SUPPLEMENT 2

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101—Kansas, is hereby amended by this Supplement 2 as follows:

Part III, "Rates and Conditions of Soil-Building Payment", is supplemented by the addition of the following Section:

SEC. 4. *Designation of Wind-Erosion Area and Special Provisions Applicable Thereto.*—The provisions of this Section 4 shall be applicable only to farms located in the counties of Clark, Finney, Ford, Grant, Gray, Greeley, Hamilton, Haskell, Hodgeman, Kearny, Lane, Meade, Morton, Scott, Seward, Stanton, Stevens, Wichita, and such additional counties or parts of counties, subject to wind erosion in 1937, as may be recommended by the State Committee and approved by the Director of the Western Division.

A. *Farm Acreage Subject to Active Wind-Erosion in 1937.*—The county committee shall determine for each farm in the wind-erosion area, upon which the operator intends to perform wind-erosion control practices in 1937, the acreage of cropland, excluding the maximum acreage which may be diverted for payment on such farm, subject in 1937, to active wind erosion. Such acreage shall be referred to as the "wind-erosion acreage."

B. *Additional Soil-Building Allowance.*—For each farm with respect to which the county committee has designated a wind-erosion acreage there will be added to the soil-building allowance, computed in accordance with the provisions of Section 3 of this Part III, an additional amount of 75 cents for each acre of the wind-erosion acreage. Such additional soil-building allowance may be earned only by performing wind-erosion control practices.

C. *Wind-Erosion Control Practices.*—Payment will be made for carrying out on wind-erosion acreage in 1937, such of the following practices as are approved by the county committee for the farm, prior to their institution.

*Practices and Conditions—Rate of Payment*

U. *Contour Listing.*—For cultivation on the contour with a regular double mold-board lister, basin lister, or chisel; provided, that the furrows shall be not more than 4 feet nor less than 2 feet apart and shall, if listed, be not less than 8 inches in width and 6 inches in depth, or if chiseled, be not less than approximately 4 inches in width and 6 inches in depth: $0.25 per acre.

V. *Listing or Furrowing.*—For cultivation at approximate right angles to the direction of prevailing winds with a regular double moldboard lister, basin lister, or chisel; provided, that the furrows shall be not more than 4 feet nor less than 2 feet apart and shall, if listed, be not less than 8 inches in width and 6 inches in depth, or if chiseled, be not less than approximately 4 inches in width and 6 inches in depth: $0.20 per acre.

W. *Strip Listing or Furrowing.*—For cultivation at approximate right angles to the direction of prevailing winds with a regular three-row or four-row double mold-board lister, basin lister, chisel, or hole digger; provided, that the width between strips shall not exceed 30 feet. This practice may be performed more than once on the same acreage, if necessary to assure effective control following rains or prolonged periods of soil drifting: $0.10 per acre for each cultivation, total payment not to exceed $0.20 per acre.

X. *Planting of Cover Crops.*—Sorghums, sudan grass or millets when planted in rows, not greater than 42 inches apart, or close drilled; provided, however, that a reasonably good growth is attained, that only the heads of the sorghum or seed of the sudan grass are removed, that all of the stalks are left on the ground where grown, and that the operator's farming plan provides that such stalks may be left standing on the land until late in the spring of 1938, as a protection against wind erosion.

1. If seeded on the contour or in combination with basin listing: $0.50 per acre.
2. If not seeded on the contour or in combination with basin listing: $0.35 per acre.

(Payment may be made with respect to this practice, in addition to Practices N, O, U, V, or W, if carried out on the same acreage.)

D. *Deductions.*—The payments provided for in this Section shall not be subject to any deduction for increase in soil-depleting crops. However, such payment shall be subject to deduction for administrative expenses in accordance with the provisions of Section 7 of Part VI.

E. *Eligibility for Payment.*—Notwithstanding the provisions of Part V, payment for any of the foregoing wind-erosion control practices shall be made to the 1937 owner or operator who the county committee determines has performed such practices.

F. *Preliminary Application for Payment.*—By preliminary application made on the prescribed form, any 1937 owner or operator, who has carried out before June 1, 1937 such wind-erosion control practices as are provided for in this Section, may receive a preliminary payment amounting to 85 percent of the amount of payment computed in accordance with the provisions of subsection C above. Such preliminary payment shall not be in excess of 85 percent of the additional soil-building allowance provided for in subsection B above. The amount of such preliminary payment will be deducted from the total amount computed as due such 1937 owner or operator

under the complete and final application made by him for payment under the provisions of the 1937 Agricultural Conservation Program. In connection with such complete and final application, appropriate deductions shall be made for administrative expenses.

In testimony whereof Harry L. Brown, Acting Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 3rd day of April, 1937.

WR—B-101—New Mexico, Supplement 2 Issued April 3, 1937

## 1937 AGRICULTURAL CONSERVATION PROGRAM—WESTERN REGION

### BULLETIN NO. 101—NEW MEXICO, SUPPLEMENT 2

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101—New Mexico, is hereby amended by this Supplement 2 as follows:

Part III, "Rates and Conditions of Soil-Building Payment", is supplemented by the addition of the following section:

SEC. 3. *Designation of Wind-Erosion Area and Special Provisions Applicable Thereto.*—The provisions of this Section 3 shall be applicable only to farms located in the counties of De Baca, Colfax, Curry, Guadalupe, Harding, Mora, Quay, Roosevelt, San Miguel, Union, and such additional counties or parts of counties, subject to wind erosion in 1937, as may be recommended by the State committee and approved by the Director of the Western Division.

A. *Farm Acreage Subject to Active Wind Erosion in 1937.*—The county committee shall determine for each farm in the wind-erosion area, upon which the operator intends to perform wind erosion-control practices in 1937, the acreage of cropland, excluding the maximum acreage which may be diverted for payment on such farm, subject in 1937, to active wind erosion. Such acreage shall be referred to as the "wind-erosion acreage."

B. *Additional Soil-Building Allowance.*—For each farm with respect to which the county committee has designated a wind-erosion acreage there will be added to the soil-building allowance, computed in accordance with the provisions of Section 2 of this Part III, an additional amount of 75 cents for each acre of the wind-erosion acreage. Such additional soil-building allowance may be earned only by performing wind-erosion control practices.

C. *Wind-Erosion Control Practices.*—Payment will be made for carrying out on wind-erosion acreage in 1937, such of the following practices as are approved by the county committee for the farm, prior to their institution:

*Practices and Conditions—Rate of Payment*

Q. *Contour Listing.*—For cultivation on the contour with a regular double mold-board lister, basin lister, or chisel; provided, that the furrows shall be not more than 4 feet nor less than 2 feet apart and shall, if listed, be not less than 8 inches in width and 6 inches in depth, or if chiseled, be not less than approximately 4 inches in width and 6 inches in depth: $0.25 per acre.

R. *Listing or Furrowing.*—For cultivation at approximate right angles to the direction of prevailing winds with a regular double mold-board lister, basin lister, or chisel; provided, that the furrows shall be not more than 4 feet nor less than 2 feet apart and shall, if listed, be not less than 8 inches in width and 6 inches in depth, or if chiseled, be not less than approximately 4 inches in width and 6 inches in depth: $0.20 per acre.

S. *Strip Listing or Furrowing.*—For cultivation at approximate right angles to the direction of prevailing winds with a regular three-row or four-row double mold-board lister, basin lister, chisel, or hole digger; provided, that the width between strips shall not exceed 30 feet. This practice may be performed more than once on the same acreage, if necessary, to ensure effective control following rains or prolonged periods of soil drifting: $0.10 per acre for each cultivation, not to exceed $0.20 per Acre.

T. *Planting of Cover Crops.*—Sorghums, sudan grass or millets when planted in rows, not greater than 42 inches apart, or close drilled; provided, however, that a reasonably good growth is attained, that only the heads, of the sorghum or seed of the sudan grass are removed, that all of the stalks are left on the ground where grown, and that the operator's farming plan provides that such stalks may be left standing on the land until late in the spring of 1938, as a protection against wind erosion.

1. If seeded on the contour or in combination with basin listing: $0.50 per Acre.

2. If not seeded on the contour or in combination with basin listing: $0.35 per Acre.

(Payment may be made with respect to this practice, in addition to Practices I, Q, R, or S, if carried out on the same acreage.)

D. *Deductions.*—The payments provided for in this Section shall not be subject to any deduction for increase in soil-depleting crops or for failure to have sufficient acreage of soil-conserving crops. However, payment provided for in this Section shall be subject to deduction for administrative expenses in accordance with the provisions of Section 7 of Part VI.

E. *Eligibility for Payment.*—Notwithstanding the provisions of Part V, payment for any of the foregoing wind-erosion control practices shall be made to the 1937 owner or operator who, the county committee determines, has performed such practices.

F. *Preliminary Application for Payment.*—By preliminary application made on the prescribed form, any 1937 owner or operator, who has carried out before June 1, 1937 such wind-erosion control practices as are provided for in this Section, may receive a preliminary payment amounting to 85 percent of the amount of payment computed in accordance with the provisions of subsection C above. Such preliminary payment shall not be in excess of 85 percent of the additional soil-building allowance provided for in subsection B above. The amount of such preliminary payment will be deducted from the total amount computed as due such 1937 owner or operator under the complete and final application made by him for payment under the provisions of the 1937 Agricultural Conservation Program. In connection with such complete and final application, apropriate deductions shall be made for administrative expenses.

In testimony whereof Harry L. Brown, Acting Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 3rd day of April, 1937.

## FARM CREDIT ADMINISTRATION.

[FCA 35]

### METHOD OF CALLING FARM LOAN BONDS FOR PAYMENT

### AMENDMENT OF SECTION 22, RULES AND REGULATIONS OF THE LAND BANK COMMISSIONER

APRIL 5, 1937.

Pursuant to the authority provided in the Federal Farm Loan Act, as amended (39 Stat. 360), the Act of January 23, 1932 (47 Stat. 12), the Farm Credit Act of 1933 (48 Stat. 257), and Executive Order No. 6084 of the President of the United States, dated March 27, 1933; Section 22 of the Rules and Regulations as amended (Chap. II, Section 12, Federal Register Compilation), is hereby amended to read as follows:

(a) *Method of calling for redemption farm loan bonds issued by individual Federal land banks.*—Any Federal land bank desiring to call any bond or bonds issued by such bank (or of which the payment has been assumed by it), then callable according to the terms and tenor thereof, shall file with the Land Bank Commissioner, at least twenty days prior to the date on which the call is to become effective, a certified copy of the resolution(s) of its board of directors authorizing such call, and a formal notice of such call, describing by date of issue, date of maturity, call date, interest rate, and serial numbers (except in the case of a call of all the outstanding bonds, not theretofore called for redemption, of one or more issues) the bond or bonds so called for redemption, and designating the place or places where the same will be paid and the date on which payment will be made. A copy of said notice shall at the same time be mailed, postage prepaid, to each Federal reserve bank and this fact certified under the seal of the bank making the call and submitted with the notice of call filed with the Land Bank Commissioner. The Land Bank Commissioner shall, at least fifteen days prior to the date on which the call is to become effective, approve or disapprove the call and cause the Federal land bank concerned and the Federal reserve banks to be notified of his approval or disapproval. If the call is approved, the land bank calling such bonds for payment shall cause notice of such call to be published at least fifteen days prior to the effective date of the call, in such journals and newspapers as the Land Bank Commissioner may direct; and a certificate that the required publicity has been given shall be filed with the Land Bank Commissioner. Approval of the call, and publication of the notice, as herein required, shall be deemed a complete call; and thereupon the bank making same will be relieved from paying any interest on the bonds called, after the date of payment specified in such notice.

In any case in which it is desired to call for redemption less than all of the outstanding bonds of any issue or issues, the bonds to be so called shall be determined by said bank in such manner as the Land Bank Commissioner shall direct or approve.

(b) *Method of calling for redemption farm loan bonds issued by joint stock land banks.*—Any joint stock land bank desiring to call any bond or bonds issued by such bank (or of which the payment has been assumed by it), then callable according to the terms and tenor thereof, shall file with the Land Bank Commissioner, at least twenty days prior to the date on which the call is to become effective, a certified copy of the resolution(s) of its board of directors authorizing such call, and a formal notice of such call, describing by date of issue, date of maturity, call date, interest rate, and serial numbers (except in the case of a call of all the outstanding bonds, not theretofore called for redemption, of one or more issues) the bond or bonds so called for redemption, and designating the place or places where the same will be paid and the date on which payment will be made. The Land Bank Commissioner shall, at least fifteen days prior to the date on which the call is to become effective, approve or disapprove the call and cause the joint stock land bank concerned to be notified of his approval or disapproval. If the call is approved, the joint stock land bank calling such bonds for payment shall cause notice of such call to be published at least fifteen days prior to the effective date of the call, in such journals and newspapers as the Land Bank Commissioner may direct; and a certificate that the required publicity has been given shall be filed with the Land Bank Commissioner. Approval of the call and publication of the notice, as herein required, shall be deemed a complete call; and thereupon the bank making same will be relieved from paying any interest on the bonds called, after the date of payment specified in such notice.

In any case in which it is desired to call for redemption less than all of the outstanding bonds of any issue or issues, the bonds to be so called shall be determined by said bank in such manner as the Land Bank Commissioner shall direct or approve.

### IN THE MATTER OF NEPSCO APPLIANCE FINANCE CORPORATION

### NOTICE OF AND ORDER FOR HEARING

A declaration having been duly filed with this Commission, by Nepsco Appliance Finance Corporation, a mutual service company and a subsidiary of a registered holding company, pursuant to Section 7 of the Public Utility Holding Company Act of 1935, with respect to the issue and sale, from time to time, of Nepsco Appliance Finance Corporation 3% Deferred Debentures of December 1, 1936, in such amounts as not to exceed $350,000 aggregate principal amount outstanding at any one time; and with respect to the issue and sale to a bank or banks, from time to time, of its promissory notes in such amounts as not to exceed $1,000,000 aggregate principal amount outstanding at any one time. The declarant now has outstanding, in addition to its common stock, $345,000 aggregate principal amount of promissory notes and $120,000 aggregate principal amount of 4½% Deferred Debentures of August 1, 1934. The declarant states that part of the 3% Deferred Debentures covered by this declaration are to be sold to refund, par for par, the 4½% Deferred Debentures of the declarant now outstanding and that the other proceeds to be derived from the sale of the securities covered by this declaration are to provide necessary working capital for the conduct of its business of rendering appliance financing services to the various utility subsidiary companies of New England Public Service Company.

It is ordered that a hearing on such matter be held on April 22, 1937, at 10 o'clock in the forenoon of that day at Room 1101, Securities and Exchange Building, 1778 Pennsylvania Avenue NW., Washington, D. C.; and

Notice of such hearing is hereby given to said party and to any interested State, State commission, State securities commission, municipality, and any other political subdivision of a State, and to any representative of interested consumers or security holders, and any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before April 17, 1937.

It is further ordered that Charles S. Moore, an officer of the Commission, be and he hereby is designated to preside at such hearing, and authorized to adjourn said hearing from time to time, to administer oaths and affirmations, subpena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda, contracts, agreements, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

Upon the completion of the taking of testimony in this matter, the officer conducting said hearing is directed to close the hearing and make his report to the Commission.

By the Commission.

IN THE MATTER OF AN OFFERING SHEET OF LANDOWNER'S PRODUCING ROYALTY INTERESTS IN THE CARTER-SMITH LEASE, FILED ON AUGUST 8, 1936, BY GUY C. MCBRIDE, RESPONDENT

PERMANENT SUSPENSION ORDER

The Securities and Exchange Commission initiated this proceeding pursuant to the provisions of Rule 340 of the General Rules and Regulations promulgated by the Commission under the Securities Act of 1933, as amended, to determine whether or not an order should be entered suspending the effectiveness of the filing of an offering sheet of landowner's producing royalty interests in the Carter-Smith Lease, located in Pontotoc County, Oklahoma, which offering sheet was filed with the Commission on August 8, 1936, by Guy C. McBride of Los Angeles, California, the respondent herein.

This matter having come on regularly for hearing before the Commission at Washington, D. C., on September 14, 1936, and due notice thereof having been given to the said respondent, and the said respondent having failed to appear, and evidence both oral and documentary having been introduced, and the hearing having been closed, and the Commission having found upon the evidence that said offering sheet is incomplete and inaccurate in material respects, and omits to state material facts required to be stated therein and fails to comply with certain material requirements of the Rules and Regulations of the Commission, all as more fully set forth in the Findings and Opinion of the Commission filed in this proceeding, and it appearing appropriate in the public interest so to do;

It is ordered, pursuant to Rule 340 (b) of the Commission's General Rules and Regulations promulgated under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be and the same hereby is permanently suspended.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE BRITISH-AMERICAN-MCNABB PARK COMMUNITY FARM, FILED ON MARCH 27, 1937, BY W. E. COOK, RESPONDENT.

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)) AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

In that the number of barrels of oil which must be produced, as set forth in Division II, Item 1, before the smallest fractional interest proposed to be offered will be entitled to receive one barrel, may not be correctly calculated;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 2nd day of May, 1937; that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Charles S. Moore, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 16th day of April, 1937, at 10:30 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE CONTINENTAL-YOUNG FARM, FILED ON MARCH 27, 1937, BY ROYALTY INVESTMENTS CORPORATION, RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)), AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that the statement made in Division III, Item 3, that none of the wells on the tract are making any water is not believed to be true by reason of the fact that the Commission has information that two wells on the tract involved and two wells offsetting said tract on the west are producing water;

(2) In that the statement in Division III, Item 3, relative to the number of feet of saturated sand may not be correct, because it is believed that a reliable sub-surface structure map of the field will show that there is not either 130 feet or 120 feet of saturated sand above the water level;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 2nd day of May, 1937; that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that John H. Small, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said

hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 16th day of April, 1937, at 11:00 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. ## VETERANS' ADMINISTRATION.

### REVISION OF REGULATIONS

PAYMENT OF CLAIMS FOR THE COST OF MEDICAL, HOSPITAL, AND SURGICAL TREATMENT OF VETERANS ADMINISTRATION BENEFICIARIES AND TRAVEL EXPENSES INCIDENT TO SUCH MEDICAL CARE AND TREATMENT WHEN SERVICES ARE PERFORMED WITHOUT PRIOR WRITTEN VETERANS ADMINISTRATION AUTHORITY

*What Claims Included*

R–2680. (A) For the purpose of R. & P. R–2680 to R–2690, reimbursement of or payment for medical, hospital, and surgical treatment including travel expenses incident thereto, procured without prior written Veterans Administration authority, will, as to treatment rendered prior to March 20, 1933, be limited to those cases falling within the last proviso of section 202 (9), of the World War Veterans' Act, 1924; namely, (1) treatment must have been rendered or procured in an emergency, (2) when government facilities were not feasibly available, and (3) delay would have been hazardous,—all three elements named must be present and if any one is lacking payment will not be authorized,—provided that claim must have been duly filed with the Veterans Administration prior to March 20, 1933, as required by Public No. 307, 74th Congress, Act of August 23, 1935. As to claims for reimbursement of or payment for medical, hospital, and surgical treatment including travel expenses incident thereto, procured without prior written Veterans Administration authority, rendered subsequent to March 19, 1933, the entitlement criteria set forth herein will be followed, except as to World War Service limitations and time of filing claim. (26 Comp. Dec. 699) (April 5, 1937.)

*Adjudication in Central Office*

R–2686. All claims of this character filed will be adjudicated by the Central Office. Field stations receiving claims of this character whether filed under the provisions of Public No. 307, 74th Congress, or otherwise, will develop them, then forward with the case folder to the Central Office for consideration. (April 5, 1937.)

*Reimbursement for Treatment or Travel under Conditions not Authorized by Public No. 307, 74th Congress (Act of August 23, 1935)*

R–2690. Nothing in R. & P. R–2680 to R–2690, will be construed as permitting or authorizing reimbursement for emergency treatment or travel under conditions other than those specified therein. No authority exists to reimburse for cost of treatment procured through private sources merely in preference to treatment available through Government agencies. CUSTOMS REGULATIONS AMENDED—DECLARATION OF CONSIGNEE ON ENTRY—OWNER'S DECLARATION

*To Collectors of Customs and Others Concerned:*

Pursuant to the authority contained in section 251, Revised Statutes (U. S. C., title 19, sec. 66), and sections 485 and 624 of the Tariff Act of 1930 (U. S. C., title 19, secs. 1485 and 1624), article 295 (c) and (d) of the Customs Regulations of 1931, as amended by Treasury Decision 47052, is further amended to read as follows:

(c) (1) Tariff Act of 1930, section 485 (c):

In the event that an entry is made by an agent under the provisions of section 484 of this Act and such agent is not in possession of such declaration of the consignee, such agent shall give a bond to produce such declaration.

(2) Tariff Act of 1930, section 485 (*f*):

Whenever such merchandise is consigned to a deceased person, or to an insolvent person who has assigned the same for the benefit of his creditors, the executor or administrator, or the assignee of such person or receiver or trustee in bankruptcy, shall be considered as the consignee; when consigned to a partnership the declaration of one of the partners only shall be required, and when consigned to a corporation such declaration may be made by any officer of such corporation, or by any other person specifically authorized by any officer of such corporation to make the same.

(3) The agent referred to in section 485 (c) is a person, acting under written authority from the consignee (section 484 (a)), who makes entry in the name of the consignee. A nominal consignee who makes entry in his own name is not an agent within the purview of such section 485 (c). When entry is made by an agent, he should execute on the entry form as agent the declaration of the consignee applicable to the person for whom he acts as agent. An agent shall not execute the declaration of a nominal consignee unless he is acting as agent for a nominal consignee. If the consignee (whether the actual owner or a nominal consignee) is an individual or partnership and the agent is not in possession of the consignee's declaration on customs Form 3347–A at the time the agent makes entry, the bond required by section 485 (c) must be given on customs Form 7551 or other appropriate form and must be conditioned for the production of the consignee's declaration. When the consignee is an individual or a partnership, the consignee's declaration may be executed only by the individual (principal) or one of the partners, and may not be executed by an agent.

(4) In view of the specific provision in section 485 (f) that when the merchandise is consigned to a corporation the consignee's declaration may be made by any officer of the corporation or by any other person specifically authorized by any officer of the corporation to make the same, such officer or other person who executes the declaration on behalf of the corporation is not considered to be an agent within the purview of section 485 (c) and he is not required by such section 485 (c) to produce or give bond to produce any further declaration.

The second paragraph of article 295 (d), as amended by T. D. 47052, is further amended by deleting the third sentence in the paragraph and inserting the following sentence in lieu thereof:

The owner's declaration, if filed, shall be on customs Form 3347, and may be filed only by the nominal consignee or his duly authorized agent.

Paragraph (e) is deleted.

APRIL 5, 1937.

SECURITIES AND EXCHANGE COMMISSION,
*1778 Pennsylvania Avenue, N. W.,*
*Washington, D. C.*

GENTLEMEN: Paragraph 12 of Section 3 (a) of the Securities Exchange Act of 1934 provides in part that the term "exempted security" or "exempted securities" as used in such act shall include "such securities issued or guaranteed by corporations in which the United States has a direct or indirect interest as shall be designated for exemption by the Secretary of the Treasury as necessary or appropriate in the public interest or for the protection of investors."

In accordance with the provisions of this paragraph, I am designating for exemption securities issued by the Federal Home Loan Bank Board or the Federal Home Loan Banks under the authority of Section 11 of the Federal Home Loan Bank Act, as amended. This designation for exemption may be revoked, modified, or amended at any time with respect to securities not issued prior to such time.

### Bureau of Entomology and Plant Quarantine

BEPQ—Q–52 Revision of Regulation 3
Effective April 6, 1937

MODIFICATION OF PINK BOLLWORM QUARANTINE REGULATIONS

INTRODUCTORY NOTE

The following revision adds the County of Sierra in New Mexico and the Texas Counties of Crane, Loving, Upton, and Winkler to the lightly infested areas. While stock raising is the principal industry in these counties, a small amount of cotton is grown. This is carried into the present adjacent regulated areas for ginning. These counties are, therefore, included to authorize the movement of seed to farms and ranches therein for planting and feeding purposes. No other changes are made at this time.

AVERY S. HOYT,
*Acting Chief, Bureau of Entomology and Plant Quarantine.*

AMENDMENT NO. 2 TO REVISED RULES AND REGULATIONS SUPPLEMENTAL TO NOTICE OF QUARANTINE NO. 52

(Approved April 5th, 1937; effective April 6, 1937)

Under authority conferred by the Plant Quarantine Act of August 20, 1912 (37 Stat. 315), as amended by the act of Congress approved March 4, 1917 (39 Stat. 1134, 1165), it is ordered that regulation 3 of the revised rules and regulations supplemental to Notice of Quarantine No. 52, on account of the pink bollworm of cotton, which were promulgated on October 13, 1936, as amended effective December 1, 1936, be and the same is hereby further amended to read as follows:

REGULATION 3. REGULATED AREAS; HEAVILY AND LIGHTLY INFESTED AREAS

REGULATED AREAS

In accordance with the provisos to Notice of Quarantine No. 52 (revised), the Secretary of Agriculture designates as regulated areas, for the purpose of these regulations, the following counties in Arizona, New Mexico, and Texas, including all cities, districts, towns, townships, and other political subdivisions within their limits:

*Arizona area.*—Counties of Cochise, Graham, and Greenlee.

*New Mexico area.*—Counties of Chaves, Dona Ana, Eddy, Grant, Hidalgo, Lea, Luna, Otero, Roosevelt, and Sierra.

## SECURITIES AND EXCHANGE COMMISSION.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C. on the 5th day of April, A. D., 1937.

IN THE MATTER OF AN OFFERING SHEET OF A WORKING INTEREST IN THE CAPROCK-PARKS #1 FARM, FILED ON FEBRUARY 27, 1937, BY CAPROCK OIL COMPANY, RESPONDENT

ORDER FOR HEARING (UNDER RULE 340 (B)) AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein contains an untrue statement of a material fact, or omits to state a material fact which is required to be stated therein (for the omission of which no sufficient reason is given in the offering sheet) and which is necessary to make the statements therein not misleading, to wit:

In that the plat attached to the offering sheet, as amended, fails to disclose the fact that a well was drilled in the vicinity of the tract involved and on the property adjacent to the north; that said well failed to produce oil or gas and is, and always has been, what is commonly designated as a "dry hole";

It is ordered, pursuant to Rule 340 (b) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be misleading, and whether the effectiveness of the filing of the said offering sheet shall be suspended; and

It is further ordered that Charles S. Lobingier, an officer of the Commission be, and hereby is, designated as Trial Examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 19th day of April, 1937, at 2:00 o'clock in the afternoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said Examiner may designate.

Upon the completion of testimony in this matter the Examiner is directed to close the hearing and make his report to the Commission.

IN THE MATTER OF AN OFFERING SHEET OF LANDOWNER'S PRODUCING ROYALTY INTERESTS IN THE MAGNOLIA-SMITH LEASE FILED ON AUGUST 8, 1936 BY GUY C. MCBRIDE, RESPONDENT.

PERMANENT SUSPENSION ORDER

The Securities and Exchange Commission initiated this proceeding pursuant to the provisions of Rule 340 of the General Rules and Regulations promulgated by the Commission under the Securities Act of 1933, as amended, to determine whether or not an order should be entered suspending the effectiveness of the filing of an offering sheet of landowner's producing royalty interests in the Magnolia-Smith Lease, located in Pontotoc County, Oklahoma, which offering sheet was filed with the Commission on August 8, 1936, by Guy C. McBride of Los Angeles, California, the respondent herein.

This matter having come on regularly for hearing before the Commission at Washington, D. C., on September 14, 1936, and due notice thereof having been given to the said respondent, and the said respondent having failed to appear, and evidence both oral and documentary having been introduced, and the hearing having been closed, and the Commission having found upon the evidence that said offering sheet is incomplete and inaccurate in material respects, and omits to state material facts required to be stated herein and fails to comply with certain material requirements of the Rules and Regulations of the Commission, all as more fully set forth in the Findings and Opinion of the Commission filed in this proceeding, and it appearing appropriate in the public interest so to do;

It is ordered, pursuant to Rule 340 (b) of the Commission's General Rules and Regulations promulgated under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be and the same hereby is permanently suspended.

## SECURITIES AND EXCHANGE COMMISSION.

SECURITIES EXCHANGE ACT OF 1934

AMENDMENT OF RULE JB1, AMENDMENTS TO THE INSTRUCTION BOOKS FOR FORM 8-A AND FORM 23

The Securities and Exchange Commission, finding

(1) that the requirements of Form 8-A as more specifically defined in the Instruction Book accompanying that Form are necessary and appropriate in the public interest and for the protection of investors, and that insofar as the information required by such Form and Instruction Book is not within the provisions of Section 12 (b) of the Securities Exchange Act of 1934, it is of a character comparable to such information and is appli-

cable to the class of issuers and securities for which such Form is prescribed; and

(2) that the action herein taken is necessary and appropriate in the public interest and for the protection of investors;

pursuant to authority conferred upon it by the Securities Exchange Act of 1934, particularly Sections 12 and 23 (a) thereof, hereby takes the following action:

I. The paragraph of Rule JB1 under the caption "Form 8–A for Additional Securities" and the paragraph under the caption "Rule as to the Use of Form 8–A" at the beginning of the Instruction Book for such Form are amended as follows:

(a) By deleting the words "filed on or after March 7, 1936," and the word "or" between the figures 15 and 17; and

(b) By inserting after the figure 17 the words ", 22 or 23"; and

(c) By changing the period at the end of the Rule to a semicolon and adding the following:

provided that if Form 22 or 23 would be appropriate for original registration, this form shall be used only if securities of the registrant issued pursuant to the plan of reorganization or succession by reason of which Form 22 or 23 would be appropriate for original registration have been registered on such exchange pursuant to an application on such form.

The Rule as amended reads as follows:

This form shall be used for applications for registration of securities on an exchange on which other securities of the registrant, whether of the same or a different class, are registered pursuant to Section 12 (b) and (c) of the Act if Form 10, 11, 13, 15, 17, 22 or 23 would be the form appropriate for registration in case the registrant did not have securities so previously registered; provided that if Form 22 or 23 would be appropriate for original registration, this form shall be used only if securities of the registrant issued pursuant to the plan of reorganization or succession by reason of which Form 22 or 23 would be appropriate for original registration have been registered on such exchange pursuant to an application on such form.

II. The paragraph of Rule JB1 under the caption "Form 23 for Successor Issuers" and the paragraph under the caption "Rule as to the Use of Form 23" at the beginning of the Instruction Book for such Form are amended by inserting before the figure "8–B" the figure "8–A,".

The paragraph as amended reads as follows:

This form shall be used for applications for registration of securities of any issuer which has acquired, or is presently to acquire, directly or indirectly (through the acquisition of securities or otherwise) the major portion of its business and assets (other than cash) by acquiring all or a part of the business and assets of one or more other persons, and is continuing or is to continue, the business so acquired; provided, however, that this form shall not be used by issuers for which either Form 8–A, 8–B, 12, 12–A, 20, 21 or 22 is prescribed, or for applications filed with the exchange after the expiration of a full fiscal year of the issuer commencing on or after the date of succession.

The foregoing action shall be effective immediately upon publication, provided that for any application filed with the Commission on or before May 15, 1937, Form 22 or Form 23 may be used if appropriate prior to this action.

By the Commission.

## DEPARTMENT OF AGRICULTURE.

### Agricultural Adjustment Administration.

SR—B-101—Pulaski County, Arkansas

1937 AGRICULTURAL CONSERVATION PROGRAM—SOUTHERN REGION

BULLETIN 101—PULASKI COUNTY, ARKANSAS

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, as amended, payments will be made, in connection with the effectuation of the purposes of section 7 (a) of said Act for 1937 in Pulaski County, Arkansas, in accordance with the provisions of this Southern Region Bulletin 101—Pulaski County, Arkansas, and such modifications or other provisions as may hereafter be made.

The 1937 Agricultural Conservation Program has been developed in accordance with the provisions of sections 8, 15, and 16 of the Soil Conservation and Domestic Allotment Act, but the payment of any benefits pursuant to the provisions of this bulletin is contingent upon such appropriation, if any, as the Congress of the United States may hereafter make for such purpose, and the amounts of such payments will be finally determined by such appropriation and the extent of participation in the program. The rates of payment and the soil-building allowance herein set forth are computed upon the basis of an appropriation of $500,000,000 for the 1937 program and 85 percent participation by farmers in all regions. Such rates of payment, deductions, and the soil-building allowance may be increased or decreased, depending upon the extent of participation, but such variations will not be in excess of 10 percent.

Pulaski Program A applies only to those farms for which a cotton base in excess of five acres can be established in 1937.

Pulaski Program B applies only to those farms for which no cotton base can be established in 1937 or the cotton base which can be established in 1937 is not in excess of five acres.

*Part I. Pulaski Program A*

SECTION 1. *Soil-Building Allowance under Pulaski Program A.*—The soil-building allowance for each farm under Pulaski Program A shall be the amount by which the maximum class I payment that may be earned on the farm in 1937 is less than $20.00. Such allowance can be earned

by carrying out any of the practices approved under Pulaski Program B.

SEC. 2. *Rate of Class I Payment.*—On any farm for which a cotton base in excess of five acres can be established a payment will be made for each acre diverted from the cotton base for the farm in 1937, at the rate of 5.8 cents for each pound of the normal per acre cotton yield, as adjusted for the farm, on an acreage not to exceed 35 percent of such base, provided that for each acre diverted for payment one acre of soil-conserving crops must be grown on cropland or an acre of cropland must be properly terraced in 1937.

SEC. 3. *Division of the Class I Payment.*—The class I payment made with respect to any farm shall be divided as follows:

(a) Thirty-seven and one-half (37½) percent to the producer who furnishes the land;

(b) Twelve and one-half (12½) percent to the producer who furnishes the workstock and equipment;

(c) Fifty (50) percent to be divided among the producers who are parties to the lease or operating agreement in the proportion that such producers are entitled to share in 1937 in those soil-depleting crops, or the proceeds of such crops, in connection with which the class I payment is made.

SEC. 4. *Division of the Class I Payment Between Producers on a Farm.*—On any farm where there are two or more producers, the part of the class I payment to the farm which is divided on a crop-share basis shall be divided among the producers on the farm on the basis of each producer's contribution to the difference between the cotton base acreage and the 1937 cotton acreage on the farm. (The contribution of each producer shall be determined by agreement of all such producers as indicated by their signatures on the application for payment and the County Committee shall approve such agreement and indicate such approval by its certification on such application for payment, unless the Committee finds that one or more of such producers did not voluntarily enter into such agreement but were coerced into doing so.) In cases where all interested parties do not agree as to their respective contribution to the difference between the cotton base and the 1937 cotton acreage, the County Committee shall recommend the division of such acreage between such persons on the basis found by it to be in all the circumstances most fair and equitable.

*Part II. Pulaski Program B*

SECTION 11. *Deduction for Exceeding Cotton Base.*—If the acreage of cotton on any farm in 1937 exceeds the cotton base for 1937 for such farm, a deduction will be made in an amount equal to the result obtained by multiplying the number of such excess acres by the rate per acre determined for the farm under section 2, part I.

SEC. 12. *Soil-Building Allowance under Pulaski Program B.*—The soil-building allowance for each farm under Pulaski Program B shall be the sum of the items listed below or $20.00, whichever is the greater.

(a) Sixty-five cents (65¢) for each acre of cropland.

(b) $1.50 additional for each acre of cropland on which commercial vegetables were grown in 1936.

(c) $1.50 additional for each acre in commercial orchards on the farm on January 1, 1937.

SEC. 13. *Soil-Building Practices.*—The provisions of this section 13 are applicable *only* under Pulaski Program B *and* to farms under Pulaski Program A which may *not* earn a class I payment of as much as $20.00.

A class II payment will be made for carrying out any one or more of the following soil-building practices in 1937 at the rates and upon the conditions listed in this section 13, provided that

(a) in no event will the total of the class II payment respecting any farm exceed the soil-building allowance for the farm.

(b) none of the labor, seed, or materials for such practice is furnished or paid for by any Federal or State agency, and

(c) the practice is carried out by such methods and with such kinds and quantities of adapted seed, trees, and other material as conform to good farming practice.

*Practice Number—Practices and Conditions—Rate of Payment*

1. Alfalfa planted on cropland in 1937: $2.50 per acre.

2. Lespedeza, Austrian winter peas, vetch, or other locally adapted winter legume, or legume mixture[1] seeded on cropland in 1937: $1.50 per acre.

3. Soybeans, velvet beans, cowpeas, lespedeza, or other locally adapted summer legume, grown on cropland in 1937 and vines or stalks left on land or turned under: $1.00 per acre.

4. Bur clover, Austrian winter peas, vetch, or other locally adapted winter legume, plowed under in 1937, provided a reasonably good growth is attained: $1.00 per acre.

5. Establishment in 1937 of permanent pasture of perennial grasses or any pasture grass and legume mixture, on cropland or non-crop open pasture land on slopes of less than 5 percent: $3.00 per acre.

6. Establishment in 1937 of permanent pasture of perennial grasses or approved pasture grass and legume mixture, on cropland or non-crop open pasture land on slopes of 5 percent or greater, provided that:

(a) approximately one-third (⅓) and not less than one-fourth (¼) of each 100 feet of slope length shall be plowed (broken) on the approximate contour and planted to Bermuda grass,

(b) the intervening strips are seeded to perennial grasses or legumes and one or more grasses,

(c) the land is kept free of bushes and weeds, and

(d) the pasture is protected from excessive grazing: $3.50 per acre.

7. Forest trees, including post-producing species, planted on cropland in 1937: $5.00 per acre.

8. Establishing a winter cover crop on two acres or less by seeding fall oats or any other locally adapted small grains or mixtures of small grains and winter legumes, provided that:

(a) seeding is done not later than October 15, and

(b) seeding is done at the rate of at least two bushels of oats (or the equivalent thereof) per acre: $1.00 per acre.

9. Sixteen percent superphosphate or its equivalent[2] applied in 1937 on pastures or soil-conserving crops (excluding soybeans, cowpeas, velvet beans, and peanuts) but payment will not be made on an amount less than 100 pounds or in excess of 400 pounds per acre: $0.50 per 100 pounds.

10. Terracing land in 1937 in accordance with approved terracing practices for the land, including proper outlets: $0.40 per 100 feet.

SEC. 14. *Division of the Class II Payment.*—The class II payment with respect to the acreage on which any approved soil-building practice is carried out on any farm shall be made to the eligible producer who the County Committee determines under instructions issued by the Secretary has incurred the expense in 1937 of carrying out such soil-building practice; if the County Committee determines that two or more producers have shared in the expense incurred in carrying out such practice on the farm, the class II payment calculated for the particular acreage with respect to which such producers shared in such expense shall be divided equally among them.

*Part III. Establishment of Bases and Determination of Cropland applicable under programs A and B*

SECTION 21. *Cotton Base and Yield Per Acre.*—(a) *Cotton Base.*—

(1) The cotton base for the farm in 1937 shall be the cotton base which was or could have been established for the farm under the 1936 Agricultural Conservation Program, subject to necessary acreage adjustments based on land measurements made in connection with the 1936 and 1937 Agricultural Conservation Programs and further adjustments that will result in a cotton base for the farm which is comparable with cotton bases for other farms in the same community which are similar with respect to size, type of soil, topography, production facilities, type of farming, and farming practices.

(2) If, for causes other than flood, drought, or other abnormal weather conditions or because of substantial changes in the base acreage by the County Committee in 1936 after planting time, the acreage planted to cotton on the farm in 1936 was less than 50 percent of the cotton base for the farm in 1936, the cotton base for 1937 shall be

[1] Mixtures of legumes listed in practice number 2 and non-legumes will be eligible for a payment of $1.50 per acre, provided such legumes are seeded at a rate equal to at least fifty (50) percent of the normal rate for such legumes.

[2] For example, 100 pounds of 48 percent superphosphate is the equivalent of 300 pounds of 16 percent superphosphate.

adjusted downward by the County Committee but not lower than 154 percent of the 1936 planted acreage.

(3) For farms on which cotton was grown in 1936 for the first time since 1933, a cotton base may be established on the basis of the acreage planted to cotton in 1936 subject to necessary adjustments based on land measurements made in connection with the 1936 and 1937 Agricultural Conservation Programs and further adjustments that will result in a cotton base for the farm which is comparable with cotton bases for other farms in the same community which are similar with respect to size, type of soil, topography, production facilities, type of farming, and farming practices.

(4) The sum of the cotton bases for the farms covered by work sheets in Pulaski County shall not exceed their proportionate share of the quota of cotton acreage established for such county by the Agricultural Adjustment Administration.

(b) *Determination of Yield Per Acre.*—

(1) The yield per acre of lint cotton for the farm shall be designated by the appropriate Community Committee, subject to such adjustment by the County Committee, as is necessary in order that the sum of the base cotton production for farms covered by work sheets in 1937 in the county shall not exceed the proportionate share of the quota of cotton production established for the county by the Agricultural Adjustment Administration.

(2) Each farm covered by a work sheet will have been inspected by at least one member of the Community Committee, serving for the community in which the farm is located, who shall report the facts to the Community Committee before the yield is designated for the farm.

(3) The yield designated for any farm shall be that yield, subject to adjustments indicated in this subsection (b), which the Community Committee finds from all available facts to be the yield which could reasonably be expected from the land devoted to the production of cotton on the farm. In designating the yield due consideration shall be given by such Committee to the trend of yield per acre as well as to the type of soil, drainage, erosion, production practices, and general fertility of the land. Other facts bearing on the yield which might reasonably be expected, including abnormal weather conditions, shall also be given due consideration. Such findings shall be examined by the County Committee in the light of all available facts and approved or modified by it accordingly.

SEC. 22. *Total Cropland.*—If the total acreage of cropland for the farm was established by accurate measurement in 1936, such acreage will be the 1937 acreage of cropland for the farm. If the total acreage of cropland for the farm was not so established in 1936, such acreage for the farm shall be established either by measurement in 1937 or on a basis which will result in an acreage of cropland comparable with that for farms on which such land was established by measurement.

*Part IV. Miscellaneous Provisions Applicable Under Programs A and B*

SECTION 31. *Persons Who May Make Applications For Payment.*—(a) An application for payment may be made by (1) an owner, (2) an operator, and (3) such other persons as may be designated by the Secretary.

(b) Payment will be made only upon application filed with the County Committee within the prescribed time. Each person applying for payment will be required to show that work sheets have been filed with the County Committee covering all land in the county owned or operated by him in 1937. Any person applying for payment who owns or operates farms in more than one county in Arkansas may be required to file with the State Committee a list of all such farms.

(c) A time limit for filing work sheets and applications for payment in the county will be designated by the State Committee subject to the approval of the Director of the Southern Division, and when so approved at least two weeks' public notice shall be given in advance of the expiration of such time limit.

SEC. 32. *Land Which May Be Covered by a Work Sheet and Application For Payment.*—(a) A work sheet shall cover all of one farm only, except as provided in the following subsections of this section 32.

(b) If two or more farms in the county are under the same ownership and are operated by the same person, such farms may be covered by one work sheet.

(c) If two or more tracts of land in the county are under different ownerships, even though they are operated by the same person, each such separately owned tract shall be covered by a separate work sheet.

(d) Tracts of land under the same ownership located in Pulaski County and one or more adjoining counties and operated as a single farm in 1937 shall be regarded as located in the county in which the principal dwelling on such farm is located, or if there is no dwelling on such farm, as located in the county in which the major portion of such farm is located.

(e) Except as provided in subsection (f) below, the land covered by an application for payment shall be the land covered by a single work sheet. The application for payment filed with respect to any land shall show the name and the extent of the interest of each person entitled to share in the payment with respect to such land. The amount of payment to any person with respect to the land covered by the application for payment shall, subject to the provisions of section 33 below, be determined by the performance on such land.

(f) If any person operates more than one farm in the county, such person may, subject to the conditions of this subsection (f), make one application for payment with respect to all such farms or several applications each covering one or more of such farms.

(1) An application for payment covering two or more farms in the county which are operated by the same person may be made only with the consent (indicated by signatures on the application for payment) of all persons who, as owner, share-tenant, or share-cropper, have an interest in the crops (or the proceeds thereof) grown in 1937 on any farm covered by the application; except that the signature of any person shall not be required in order to permit a grouping of such farms if such person would not receive a payment if each such farm were covered by a separate application for payment.

(2) In making determinations with respect to the amount of payment to be made under such application (in accordance with the provisions of this subsection (f)), all farms covered by one application for payment shall be considered as one farm.

SEC. 33. *Multiple Farm Holdings.*—If any person making application for payment in the county has an interest as owner or operator in one or more farms in the county which are not covered by an application for payment under which payment may be made, such person is required to furnish the County Committee a showing as to the acreage of cotton grown in 1937 on each such farm. If the County Committee finds from evidence submitted to it and such measurement of such farms as is deemed necessary that any such person has materially increased the 1937 acreage of cotton above the cotton base on any such farm, performance shall be checked on all such farms. The procedure shall be as follows:

(a) For each such farm multiply the 1937 cotton acreage by the rate per acre (determined pursuant to section 2, part I), and multiply each such result by the percentage (determined pursuant to the provisions of section 3, part I) due such person. Total the results thus obtained.

(b) For each such farm multiply the cotton base by the rate per acre (determined pursuant to section 2, part I) and multiply each such result by the percentage (determined pursuant to the provisions of section 3, part I) due such person. Total the results thus obtained.

(c) If the total obtained under subsection (a) above exceeds the total obtained under subsection (b) above, such excess shall be deducted from any payment which otherwise would be made to such person with respect to farms in the county covered by an application for payment.

(d) The procedure outlined in this section 33 shall at the option of the Secretary be applied to all farms owned or operated by the same person in the State.

SEC. 34. *Appeals.*—Any person who has reason to believe that any recommendation of the County Committee concerning his farm is not equitable may request the County Committee to reconsider its recommendation. If such person fails to agree with the final recommendation of the County Committee, such person may make an appeal, in accordance with the provisions of Amendment 4 to Southern Region Bulletin 101.

SEC. 35. *Deductions for Expenses.*—There shall be deducted pro rata from the payment to any person with respect to a farm or farms all or such part, as the Secretary shall prescribe, of the estimated administrative expenses incurred and to be incurred in the field in carrying out the 1937 program.

There shall be credited for the payment of administrative expenses the sum of $2.00 for each application for a farm on which the total payment (prior to deduction of any administrative expenses) as estimated by the Agricultural Adjustment Administration will be $20.00 or less.

SEC. 36. *Farms Under Other Special Programs.*—On any farm where a program is carried out in cooperation with the Soil Conservation Service or the Resettlement Administration payment will be made only for such diversion and for carrying out such soil-building practices as are approved for the farm by the County Committee prior to performance in accordance with instructions issued by the Secretary.

SEC. 37. *Reckoning Payments Without Regard to Claims.*—Any share of the class I or class II payments shall be computed and paid without regard to questions of title under State law, without deductions of claims for advances, and without regard to any claim or lien against the crop or proceeds thereof in favor of the owner or any other creditor.

SEC. 38. *Changes in Leasing or Cropping Arrangement.*—If the Secretary, upon the basis of an investigation by the State Committee, finds that any person has for 1937 made any change from the 1936 leasing or cropping arrangement for the farm or has adopted any other device for the purpose of, or which would have the effect of, diverting to such person any payment to which tenants or share-croppers would be entitled if the 1936 leasing or cropping arrangement were in effect for 1937, the amount of any payment which otherwise would be made to such person may be withheld in whole or in part.

SEC. 39. *Abandonment, Foreclosure, Death, Etc.*—If prior to harvest a producer voluntarily ceases to cultivate, sells, abandons, or through his own fault or neglect loses control of the cotton crop in connection with which a class I payment may be made, such producer shall not be entitled to such payment or any share therein and whoever succeeds him and as such successor is entitled to such crop or to share in it or its proceeds shall be entitled to such payment or to share therein, as the case may be, provided that by agreement of such producer and such successor person or persons (such agreement to be indicated or confirmed by their signatures on the application for payment) the cotton acreage may be divided between them and such payment may be divided between them accordingly. In no case shall any person who as a result of attachment, foreclosure, or other legal process comes into possession of cotton in connection with which a class I payment may be made or the land on which such crop was planted be entitled to any share in such class I payment if the producer previously entitled to such crop or to share in it or its proceeds did not voluntarily abandon such crop, and the producer so dispossessed shall be entitled to such payment or to share therein, as the case may be. In case of the death or incompetency of a producer occurring during the period of performance under the 1937 program, class I and class II payments shall be made or withheld in accordance with rules to be prescribed by the Secretary.

SEC. 40. *Payments Restricted to Effectuation of Purposes of the Program.*—No person shall be entitled to receive or retain any part of any payment if such person has adopted any practice which the Secretary determines tends to defeat the purposes of the 1937 program.

SEC. 41. *Other Provisions.*—No Community or County Committeeman shall have a voice in designating or approving any acreage or yield for any farm which he owns, operates, or controls; which is owned, operated, or controlled by his brother, sister, parent, child, or other near relative; or upon which he has a loan or other financial interest.

*Part V. Classification of Land Use and Crops*

Farm land when devoted to the crops and uses indicated below shall, except for such additions or modifications as may be approved by the Secretary, be classified as follows:

SEC. 51. *Soil-Depleting.*—Land on which any of the following crops is harvested shall, except as provided in section 53 below, be regarded as devoted to the production of soil-depleting crops for the year in which such crops are harvested.

(a) Corn (field corn, sweet corn, or popcorn).

(b) Cotton.

(c) Potatoes (Irish or sweet).

(d) Truck and vegetable crops, including melons and strawberries.

(e) Peanuts harvested for nuts.

(f) Grain sorghums, sweet sorghums, millets, broomcorn, or Sudan grass, harvested for grain, seed, or forage.

(g) Small grains harvested for grain or hay (wheat, oats, barley, rye, buckwheat, or any mixture of any of these).

SEC. 52. *Soil-Conserving.*—Land devoted to any of the following crops or uses shall be regarded as used for the production of a soil-conserving crop except that any land from which a soil-depleting crop is harvested in the same year shall be regarded as used for the production of a soil-depleting crop in such year, except as provided in section 53 below. Any acre on which two or more soil-conserving crops are grown in the same year shall not be counted as more than one acre of soil-conserving crops, except that any acre that is terraced in 1937 in accordance with approved terracing practices for the land and on which a soil-conserving crop is grown in 1937 may be allowed to count as two acres of soil-conserving crops.

(a) *Legumes*, including vetch, winter peas, clovers, alfalfa, lespedeza, soybeans, velvet beans, crotalaria, and cowpeas.

(b) *Peanuts*, if pastured.

(c) *Grasses*, including Dallis, Natal, rye grass, timothy, orchard, Bermuda, and carpet, or grass mixtures.

(d) *Grain sorghums (seeded solid), sweet sorghums, millets, or Sudan grass*, not harvested for grain, seed, or forage, or grain sorghums planted in rows and plowed under.

(e) *Cover crops*, including rye, barley, oats, wheat, and grain mixtures, not cut for grain or hay, provided a reasonably good growth is left on the land or plowed under.

(f) *Forest trees*, planted on cropland since January 1, 1934.

(g) *Terracing* land in 1937 in accordance with good terracing practices for the land.

SEC. 53. *Soil-Conserving Crops Grown in Combination With or Following Soil-Depleting Crops.*—Land devoted to soil-conserving crops grown in combination with or following soil-depleting crops shall be classified as follows:

(a) All the acreage of soil-depleting row crops interplanted or grown in combination with summer legumes (classified in section 52 above as soil-conserving) shall be classified as soil-depleting, and

(1) One-half (½) of the acreage also shall be classified as soil-conserving, provided the legume occupies at least one-half (½) of the land and attains a reasonably good growth, or

(2) One-third (⅓) of the acreage also shall be classed as soil-conserving, provided the legume occupies at least one-third (⅓) but less than one-half (½) of the land and attains a reasonably good growth.

(b) All the land from which a soil-depleting crop is harvested in 1937 and followed by legumes (classified in sec-

tion 52 above as soil-conserving) or perennial grasses (whether seeded in or following such crop) shall, in addition to being classified as soil-depleting, be classified as soil-conserving.

(c) All land from which a soil-depleting crop is harvested in 1937 and on which terraces are constructed according to good terracing practices for the land shall in addition to being classified as soil-depleting be classified as soil-conserving.

*Part VI. Definitions*

As used herein and in all forms and documents relating to the 1937 Agricultural Conservation Program (herein referred to as the 1937 program) in Pulaski County, the term—

*Secretary* means the Secretary of Agriculture of the United States.

*Southern Region* means the area included in the States of Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, Oklahoma, South Carolina, and Texas.

*Southern Division* means the division of the Agricultural Adjustment Administration in charge of the 1937 program in the Southern Region.

*Pulaski County* means the area in the State of Arkansas embraced in the county of Pulaski. Pulaski County is one of several areas in the Southern Region designated to operate under "Special Programs" as provided for in section 66 of Southern Region Bulletin 101.

*State Agricultural Conservation Committee*, herein referred to as State Committee, means the group of persons designated to assist the Secretary in the administration of the 1937 Program in the State of Arkansas.

*County Agricultural Conservation Association*, hercin referred to as county association, means the association of producers in Pulaski County authorized by the Secretary to assist in the administration of the 1937 program in that county.

*County Agricultural Conservation Committee*, herein referred to as County Committee, means the group of persons designated to assist the Secretary in the administration of the 1937 program in Pulaski County.

*Community Agricultural Conservation Committee*, herein referred to as Community Committee, means the group of persons designated for a community within Pulaski County to assist the Secretary in the administration of the 1937 program in such community.

*Person* means an individual, firm, partnership, association, corporation, estate, or trust, and wherever applicable, a State, a political subdivision of a State or any agency thereof, or any other governmental agency that may be designated by the Secretary.

*Owner* means a person who (1) owns land which is not rented to another for cash or a fixed commodity payment, or (2) rents land from another for cash or a fixed commodity payment, or (3) is purchasing land on installments of cash or one or more commodities.

*Operator* means a person who as owner is operating a farm and is entitled to receive all or a portion of the crops produced thereon or of the proceeds of such crops, or who as share-tenant is operating a whole farm and is entitled under a written or oral lease or agreement to receive a portion of the crops produced thereon or of the proceeds of such crops.

*Share-Tenant* means a person other than an owner or share-cropper who is working a farm in whole or in part and is entitled under a written or oral lease or agreement to receive a portion of the crops produced thereon or of the proceeds of such crops.

*Share-Cropper* means a person who works a producer-unit under the supervision of an operator and is entitled under a written or oral agreement or State law to receive for his labor a share of any or all of the crops produced thereon or of the proceeds of such crops.

*Producer* means an owner, share-tenant, or share-cropper.

*Farm* means *all* land which in 1937 is operated by a person with labor, workstock, and farm machinery substantially separate from that for any other land except that the parts of such land having separate owners shall be considered as separate farms.

*Producer Unit* means any tract of land (whether a whole farm or a subdivision thereof) on which in 1937 one or more crops are planted or grown and which is farmed by (1) an owner with his own or his family's labor or with hired labor other than one or more share-croppers, or (2) a share-tenant with his own or his family's labor or with hired labor other than one or more share-croppers, or (3) a share-cropper.

*Cropland* means all farm land which is tillable and on which at least one crop of any kind other than wild hay was harvested or planted for harvest at some time between January 1, 1930, and January 1, 1937, and all other farm land devoted on January 1, 1937, to bearing or non-bearing orchards or vineyards other than those abandoned.

*Cotton Soil-Depleting Base*, herein referred to as cotton base, means the acreage established for the farm as that normally used thereon for the production of cotton.

*Class I Payment* means the payment under Pulaski Program A for diversion of acreage from the cotton base to the production of soil-conserving crops on cropland or to proper terracing of cropland in 1937.

*Class II Payment* means the payment for carrying out any soil-building practice approved by the Secretary.

*Soil-Building Allowance* for any farm means the largest amount of money that will be paid as a class II payment for the farm.

*Commercial Orchards* means the acreage in tree fruits, cultivated nut trees, vineyards, or bush fruits on the farm on January 1, 1937, from which the principal part of the production is normally sold, including also the acreage of young non-bearing orchards from which the principal part of the production will be sold in 1937 or later.

*Commercial Vegetables* means the acreage of vegetables or truck crops (including Irish potatoes, sweetpotatoes, sweet corn, melons, cantaloupes, and strawberries, but excluding sweet corn for canning and peas for canning) from which the principal part of the production was sold to persons off the farm in 1936.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 7th day of April, 1937.

[SEAL] H. A. WALLACE, *Secretary.*

**FEDERAL COMMUNICATIONS COMMISSION.**

SHIP RADIO TELEGRAPH SAFETY INSTRUCTIONS

MARCH 10, 1937.

The Commission having further considered the radio provisions of the International Convention for the Safety of Life at Sea, London, 1929, in the light of the proceedings in the matter of approval or disapproval of certain automatic alarm devices identified as Model A and Model B, Docket No. 4409, which were conditionally approved by Telegraph Division Order No. 28 of March 10, 1937, today adopted the attached changes and additions to "Ship Radio telegraph Safety Instructions" of October 1, 1936, setting forth the requirements of law as of July 10, 1937, with reference to installation and use of automatic alarm receiving devices on shipboard.

[SEAL] JOHN B. REYNOLDS,
*Acting Secretary.*

---

*To United States Ship Owners, Ship Operating Agencies, Ship Masters, Licensees of Ship Radio Stations, and Others Concerned*

Subject: Change No. 1 to Ship Radiotelegraph Safety Instructions, October 1, 1936.
Effective Date: July 10, 1937.

The Ship Radiotelegraph Safety Instructions of October 1, 1936, are hereby amended as follows:

1. Delete paragraph 17 of the aforementioned Safety Instructions and substitute the following:

17. *Auto Alarm.*—(a) By an auto alarm receiver is meant a device which has been approved by the Commission in accordance with Telegraph Division Order No. 28, being identified as follows: Radiomarine Corporation of America "Model AR–8600 Auto Alarm", and "Mackay Radio and Telegraph Company Auto Alarm Type 101–A manufactured by Federal Telegraph Company."

(b) On Ships in which a watch is kept by means of an automatic alarm receiver, a means of giving an audible warning in the radiotelegraph operating room, in the radio operator's cabin and on the navigating bridge shall be provided, which shall operate continuously after the receipt of an alarm signal or a failure of the auto alarm system, until stopped. Only one switch for stopping the warning shall be provided and this shall be located in the radiotelegraph operating room. In addition, a failure resulting from prolonged static or noise, or both, shall operate a visual indicator on the bridge.

(c) Each auto alarm of the type designated above, when first installed aboard a vessel of the United States, must bear an identifying serial number. Two or more principal components of one complete installation shall bear the same number. After the initial installation, if any principal component is entirely replaced, the substitute unit shall bear the serial number of the initial unit but must be identified in addition as a replacement. For this purpose, the principal components are designated as follows:

*Radiomarine Corporation of America "Model AR–8600 Auto Alarm"*

1 Combined receiver and selector unit, without regard to container.
1 Control and terminal box.

*"Mackay Radio and Telegraph Company Auto Alarm Type 101–A Manufactured by Federal Telegraph Company"*

1 Selector unit, without regard to container.
1 Receiver Unit, without regard to container.

(d) Having regard to paragraph 9 of these instructions, the Commission shall be informed in writing on the prescribed form immediately upon completion of each auto alarm installation aboard any vessel of the United States. Each report shall specify the type and serial number of the alarm, the name of the vessel, the date of completion of installation, the call letters and name of licensee of the ship radio station and the name of the owner and operating company of the vessel.

(e) Upon completion of each auto alarm installation, the electron tubes and dry batteries shall be dated to coincide with the date of completion of the installation. Only new electron tubes and new dry batteries shall be installed. The Commission reserves the right to require the replacement of these electron tubes and dry batteries with new tubes and new batteries if and when such replacement shall be deemed necessary.

(f) Each installation of an auto alarm shall include at least two sets of written instructions for the guidance of the ship station radio operator and ship's officers relative to the auto alarm, which shall include:

1. A general technical description of the auto alarm, including a circuit diagram of the auto alarm receiver and a wiring diagram of its complete installation on shipboard.
2. A general explanation of its principles of operation.
3. A list of faults which may be indicated by the sounding of the audible alarm.
4. Explanation of how to correct faults, remove and replace defective parts and perform limited repairs at sea.
5. Explanation of how to test the alarm and adjust the sensitivity control to the "optimum" setting.
6. Explanation of the effect of various sensitivity control settings upon the operation of the alarm.
7. Description of procedure to be followed with respect to operator making adjustments when alarm bell sounds and also in making log entries.

In addition, the instructions stipulated under items 5 and 6 above shall be summarized upon a card and permanently attached to the front of the alarm in a conspicuous position.

(g) The testing device of each individual auto alarm shall be permanently adjusted upon installation to produce a test signal of the correct value. This adjustment shall be considered satisfactory when it becomes necessary to turn the sensitivity control from its position of lowest sensitivity (zero dial position) to its position of approximately one-third maximum sensitivity before the alarm can be actuated.

(h) While the ship is at sea the auto alarm shall be tested by means of the testing device supplied at least once every twenty-four hours, the timing of the dashes to be made by reference to the sweep seconds hand of the station's clock. A statement that the foregoing has been fulfilled must be inserted in the ship's official deck log and the radio log daily.

(i) Adequate records shall be maintained according to the prescribed forms covering operation of the auto alarm. These forms shall be mailed to the Commission at Washington, D. C., on the first day of each month, covering the month preceding, beginning January 1, 1938. These reports are for the information of the Commission and the contents thereof will not be disclosed.

(j) An entry shall be made in the ship's official log and the radio log when the warning light installed on the bridge to indicate when the alarm becomes inoperative remains lighted for a continuous period of five minutes. A statement shall be included giving particulars as to the time the operator was called to make the necessary repairs or adjustments, the reason for the failure, the names of any parts removed, added or substituted, and the time the alarm was restored to proper working condition.

2. Delete paragraph 19 of the aforementioned Safety Instructions and substitute the following:

19. *Clock.*—(a) Each ship *fitted* with an auto alarm shall be provided with a reliable clock with a sweep seconds hand, securely fastened in such a position that the seconds dial can be easily and accurately read by the operator from his normal receiving position, from the operating position at which he would transmit the auto alarm signal and from the operating position in the radio room used in testing the auto alarm for response to signals from the testing device. The clock shall have an hour dial not less than 5" in diameter and it shall be capable of operation for at least eight days on one winding.

(b) Each ship station *not* fitted with an auto alarm shall be provided with a reliable clock with a seconds hand, preferably a sweep seconds hand, securely fastened in such a position that the seconds dial can be easily and accurately read by the operator from his operating position. It shall have an hour dial not less than 5" in diameter and it shall be capable of operation for at least eight days on one winding.

3. The following shall be added at the end of paragraph 23 of the aforementioned Safety Instructions:

(c) Each installation of an auto alarm shall be provided with sufficient tools and spare parts which will be necessary for the maintenance of the alarm in a normal operating condition. The following items are considered indispensable in the appropriate installation. (The Commission will publish a list of the appropriate items to reach alarm within sixty days of the date hereof).

4. Delete paragraph (e) of paragraph 25 of the aforementioned Safety Instructions and substitute the following:

(e) On a ship fitted with an auto alarm, the auto alarm shall, while the vessel is under way, always be in operation when the operator is not on watch, including periods when the direction finder is in use.

5. The explanatory note at the bottom of page 30 is amended by striking out the last sentence and inserting in lieu thereof:

No auto alarm has been approved for use under the provisions of paragraph 25 (a) (1) above; however, an auto alarm device may be installed on any ship for use in addition to any operator requirements.

## FEDERAL TRADE COMMISSION.

*United States of America—Before Federal Trade Commission*

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 5th day of April, A. D. 1937.

Commissioners: William A. Ayres, Chairman, Garland S. Ferguson, Jr., Charles H. March, Ewin L. Davis, Robert E. Freer.

[Docket No. 2898]

IN THE MATTER OF CALIFORNIA LUMBERMEN'S COUNCIL, COAST COUNTIES LUMBERMEN'S CLUB, CENTRAL VALLEY LUMBERMEN'S CLUB, NORTHERN COUNTIES LUMBERMEN'S CLUB, PENINSULA LUMBERMEN'S CLUB, AND SAN JOAQUIN LUMBERMEN'S CLUB, AND THE OFFICERS, COUNCILMEN, AND MEMBERS OF SAID ORGANIZATIONS AND ASSOCIATIONS

ORDER APPOINTING EXAMINER AND FIXING TIME AND PLACE FOR TAKING TESTIMONY

This matter being at issue and ready for the taking of testimony, and pursuant to authority vested in the Federal Trade Commission, under an Act of Congress (38 Stat. 717; 15 U. S. C. A., Section 41),

It is ordered that Charles F. Diggs, an examiner of this Commission, be and he hereby is designated and appointed to take testimony and receive evidence in this proceeding and to perform all other duties authorized by law;

IN THE MATTER OF THE LIVINGSTON MINING COMPANY

STOP ORDER

This matter coming on to be heard by the Commission on the registration statement, as amended, of The Livingston Mining Company, of Boulder, Colorado, after confirmed telegraphic notice by the Commission to said registrant that it appears that said registration statement as amended includes untrue statements of material facts and omits to state material facts required to be stated therein and omits to state material facts necessary to make the statements therein not misleading, and upon evidence received upon the allegations made in the notice of hearing duly served by the Commission on said registrant, and the Commission having duly considered the matter, and finding that said registration statement, as amended, includes untrue statements of material facts and omits to state material facts required to be stated therein and material facts necessary to make the statements therein not misleading, all as more fully set forth in the Commission's Findings of Fact and Opinion this day issued, and the Commission being now fully advised in the premises,

It is ordered, pursuant to Section 8 (d) of the Securities Act of 1933, as amended, that the effectiveness of the registration statement filed by The Livingston Mining Company, of Boulder, Colorado, be and the same hereby is supended.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE STANOLIND-AMERADA-TRANSWESTERN-SUENRAM FARM, FILED ON APRIL 3, 1937, BY GEO. C. CREAGER, INC., RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)) AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that the date on which the information contained in the offering sheet will be out of date as set forth in Division I, Paragraph 8, is not correct.

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 7th day of May, 1937, that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Robert P. Reeder, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 22nd day of April, 1937, at 3:00 P. M. in the afternoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)) AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that the farm name required to be stated preceding Division I is omitted;

(2) In that the information concerning the taxes, as set forth under Division II, Item 11, is not believed to be wholly correct;

(3) In that it is not stated in Division II, Item 12, to whom the taxes are payable;

(4) In that the name of the horizon and its average depth below the surface is not given, as required under Division II, Item 17 (a), nor is the information required under (c) and (d) of this item given in the proper manner;

(5) In that the smallest fractional interest proposed to be offered, as shown by Exhibit B, is in conflict with the statement made in Division II, Item 1;

(6) In that the correct form for Division III of Schedule A has not been used. (The form as used in this filing was discontinued July 1, 1936.)

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 7th day of May, 1937; that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Robert P. Reeder, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)) AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that the correct farm name required to be stated preceding Division I and under Division II, Item 2 (a), is omitted;

(2) In that the price of oil set forth in Division II, Item 1, may not be correct and does not agree with the price of oil stated in Division II, Item 16 (e);

(3) In that it is stated in Division II, Item 17 (b), that the "Wilkerson #1" was completed January 17, 1937, whereas the plat attached as Exhibit A shows it as still being drilled April 1, 1937. The information disclosed by the plat with reference to said "Wilkerson #1" also disagrees with that given in Division II, Item 18 (a) (v);

(4) In that the legal description disclosed by Exhibit B appears to disagree with description of the tract as shown by Exhibit A;

(5) In that the statement made in Division II, Item 13, is not believed to be correct by reason of the fact that the number of flowing wells may not be correctly given;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 7th day of May, 1937; that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

COUNTERVAILING DUTY—RYE GRAIN FROM THE REPUBLIC OF POLAND

TREASURY DECISION 47944, DATED OCTOBER 22, 1935, DECLARING A BOUNTY ON RYE GRAIN FROM THE REPUBLIC OF POLAND AND INSTRUCTING COLLECTORS OF CUSTOMS TO REQUIRE A DEPOSIT OF ESTIMATED DUTY EQUAL TO SUCH BOUNTY, REVOKED

*To Collectors of Customs and Others Concerned:*

Reference is made to Treasury Decision 47944, dated October 22, 1935, declaring a bounty on rye grain from the Republic of Poland pursuant to the authority contained in section 303 of the Tariff Act of 1930 (U. S. C., title 19, sec. 1303), and instructing collectors of customs to require a deposit of the estimated countervailing duty equal to the net amount of the bounty.

Official information has been received to the effect that the payment of a bounty on rye grain from the Republic of Poland was discontinued effective March 16, 1937.

Therefore, pursuant to the authority contained in section 303 of the Tariff Act of 1930, Treasury Decision 47944 is hereby revoked effective as to shipments of such merchandise exported from the Republic of Poland on or after March 16, 1937.

The farm unit plats referred to above were approved on the date of this order and are on file in the office of the Construction Engineer, Bureau of Reclamation, Boise, Idaho, and in the local land office at The Dalles, Oregon.

2. *Limit of acreage for which entry may be made or water rental secured.*—The limit of area of public land per entry, representing the acreage which, in the opinion of the Secretary of the Interior, may be reasonably required for the support of a family upon such land, is fixed at the amounts shown upon the farm unit plats for the respective farm units and ranges from 9 to 74 acres of irrigable area. The maximum limit of area for which water rental application may be made for lands in private ownership shall be 160 acres of irrigable land for each landowner.

3. *Filing of water-rental applications.*—Water-rental applications for lands in private ownership must be filed in the office of the Construction Engineer and such applications may be made on or after the date of this order. For public lands the water-rental applications must be made in accordance with the conditions hereinafter stated:

4. *Preference rights to soldiers.*—Pursuant to the provisions of joint Public Resolution No. 85, 71st Congress, approved June 12, 1930 (46 Stat., 580), and until July 15, 1937, the farm units described above will be open to entry only by officers, soldiers, sailors, or marines who have served in the Army or Navy of the United States in any war, military occupation, or military expedition, and have been honorably separated or discharged therefrom or placed in the regular Army or Naval Reserve. The same preference rights are applicable to those citizens of the United States who served with the allied armies during the World War and who were honorably discharged, upon their resumption of citizenship in the United States, provided the service with the allied armies was similar to the service with the Army of the United States for which recognition is granted in the aforesaid Public Resolution No. 85: *Provided however*, That they must be qualified to make entry under the homestead laws and also possess the qualifications as to industry, experience, character, and capital required of all applicants under this order.

5. *Applicants must be qualified.*—No entry shall be accepted by the local land office until the applicant therefor has satisfied the Examining Board appointed for the Owyhee project to consider such matters, that he is possessed of such qualifications (in addition to the qualifications required under the homestead laws) as to industry, experience, character, and capital, as in the opinion of the board are necessary to give reasonable assurance of success by the prospective settler.

6. *Requirements as to industry, experience, character, and capital.*—Each applicant must possess good health and have had at least two years' actual experience in farm work. He must have at least $2,000 in money free of liability or the equivalent thereof in livestock, farming equipment, or other assets deemed by the Examining Board to be as useful to the applicant as money. *Provided however*, That for farm units having irrigable areas of not more than twenty acres each applicant must have a net worth of $1,000 or the equivalent thereof.

7. *Examining Board.*—An Examining Board of three members has been appointed by the Secretary of the Interior, to consider the fitness of applicants to undertake the development and operation of a farm on the Owyhee project. Each applicant, except those described in Paragraph 12a, must appear in person before the Examining Board, and the Construction Engineer, who is the member representing the United States, and who will act as secretary of the board, will notify each applicant of the period of time set for his appearance and examination. The members of the board will be available at the project office when the opening is being held, where applicants will be examined. The board will announce such other incidental rules as will necessitate one appearance only by each applicant. Careful investigation shall be made to verify the statements and representations made by applicants, so that there may be no misunderstanding either regarding the applicant's fitness or his appreciation of the problem before him.

8. *Determination of relative standing of applicants.*—The relative standing of the applicants will be based upon a percentage rating with the following weights given to the four prescribed qualifications:

| | Percent |
|---|---|
| Character | 15 |
| Industry | 20 |
| Capital | 30 |
| Farm Experience | 35 |

Applicants will be rated according to the following schedules and no applicants will be considered eligible who fall below the minimum named in any one of the headings of these schedules, or who do not, in the opinion of the board, possess the health and vigor necessary for active farm work;

9. *When and how to apply for a farm unit.*—Any person desiring to acquire any of the said public land must secure from the Construction Engineer, Boise, Idaho, or from the Commissioner, Bureau of Reclamation, Washington, D. C., a farm application blank. A full answer must be made to each question propounded therein. If the applicant claims a preference right on account of military service, he shall attach to his application an affidavit setting forth such military service. The affidavit shall state the applicant's time of service, the unit of which he was a member, the date on which he was honorably discharged, or separated, or transferred to the regular Army or Naval Reserve, and that he did not refuse to wear the uniform of such service or to perform the duties thereof. If the applicant claims a preference right on account of military service with the allied armies during the World War, the affidavit should also state, if true, that the service with the allied armies was similar to the service with the Army of the United States for which recognition was granted in the said joint resolution of June 12, 1930. There shall be attached to said affidavit a copy of such honorable discharge or separation from the service, or the order of transfer to the regular Army or Naval Reserve, as the case may be, which copy shall be certified by a notary public, to be a true copy of the original.

10. *Simultaneous filing of farm applications.*—All applications received on or before April 15, 1937, the date of opening, will be held and treated as simultaneously filed.

11. *Preference rights for ex-service men not filing in accordance with Paragraph 10.*—In order that ex-service men may take advantage of the preference right as provided in Paragraph 4 of this order, in the event that they fail to file on or before April 15, 1937, as set forth in Paragraph 10 above, their applications together with the proof to be furnished by them, must be filed in the Office of the Construction Engineer, Boise, Idaho, on or prior to July 15, 1937, the day upon which the farm units herein described, except those units for which applications of ex-service men have been accepted, become open to entry by the general public. No advantage will accrue to an applicant presenting his application in person rather than by mail. Farm Applications received after April 15, 1937, will be filed and noted in the order of their receipt.

12. *Showing of applicants and selection thereof.*—(a) Where the applicant fails to make a *prima facie* case—that is, where the applicant does not possess good health or does not show at least two years' farm experience, and the assets required in Paragraph 6, the application shall be rejected and the applicant notified thereof by registered mail, and of his right to appeal to the Secretary of the Interior within 10 days from receipt of notice. Like action shall be taken where the evidence of military service is defective or not furnished. All appeals allowed under this order must be filed in the office of the project Construction Engineer at Boise, Idaho, and within 10 days from receipt of notice.

(b) Each applicant who makes a *prima facie* case and has not been previously examined by the board shall be notified by the board, by registered mail, of the time within which he must appear before it. After such personal examinations, and after consideration of the showing made in the application, the board will rate the applicant in accordance with the scale set forth above, and place such rating in red ink, with the initials of each member of the board upon the face of the farm application blank. Should the applicant fail to appear for examination after due notice, his application will receive no further consideration by the board at that time. Should he later appear his application may be considered for any farm then remaining unassigned. The date of receipt of his application shall then be considered as being the day he actually appeared before the board. The rating necessary to establish qualification is the minimum named in Paragraph 8 of this order, and the applications of all who fail to attain this minimum shall be rejected and the applicants notified thereof by registered mail, and of the right of appeal to the Secretary within 10 days from receipt of notice. After the expiration of the appeal period and in the absence of any pending appeals, the board shall select the 33 applicants (there being 33 farm units) with the highest rating, and notify each of the other applicants that since the number of qualified applicants exceeds the number of available farms, it is necessary to reject all applications below the first 33 in qualification ratings. Each rejected applicant may appeal to the Secretary within ten days. In the event that the number of qualified applicants is less than the number of available farm units, and also if in such case there are several applications for the same farm unit, the board shall assign a farm unit to each of such applicants. Whenever practicable, the board shall allow the applicants to exercise a choice of farms; and if it is found practicable to do so, the applicants will be given the right of selection in the order of their ratings. However, the intent of the law is to select the best qualified applicants for the farms available, and the Government reserves the right to assign the farms regardless of individual preferences.

13. *Notification of applicant that he has been selected.*—After the expiration of the appeal periods in all of the contingencies named above, or any other that may arise, and in the absence of pending appeals, the board shall notify each applicant selected for a farm, by registered mail, and enclose a water-rental application for the farm selected, which must be filled in by the applicant and returned to the Construction Engineer, within 10 days from receipt of notice, with payment of the water-rental charges, as specified in Paragraph 20. Upon receipt by the Construction Engineer of the water-rental application executed by the applicant and accompanied by the required payment, the board shall make appropriate notation on a copy of said water-rental application, which will entitle the applicant to file homestead application at the local land office, and the board will return said copy by registered mail to the applicant for that purpose. Such homestead application shall be made within 15 days from the date of receipt of the approved water-rental application. Failure to make homestead entry within the period named will render the application subject to rejection.

14. *Failure of selected applicant to complete transaction.*—If the applicant fails to comply with any of the requirements named above the board will select the next highest in qualification rating, and when the list has been exhausted, and if there still remain lands unallotted, the board will consider applications filed thereafter in the order filed, and such applications will otherwise be handled by the board as prescribed in Paragraph 12.

15. *General entry for land described in Paragraph 1.*—On and after July 15, 1937, any public lands described in Paragraph 1 which remain unentered, shall be subject to entry under this order by any person having the necessary qualifications. If, on July 15, 1937, prior to 2 p. m., the number of applications filed exceeds the number of available farm units, then the right to make entry for any such farm unit shall be determined in accordance with Paragraph 12 of this order.

16. *Warning against unlawful settlements.*—No person shall be permitted to gain or exercise any right under any settlement or occupation of any said public land begun without having at the time a valid approved water-rental application covering the land in question: *Provided, however,* That this shall not affect any valid existing right obtained by settlement or entry while the land was subject thereto.

17. *Owyhee Irrigation District.*—Substantially all of the lands covered by this public order are within the Owyhee Irrigation District organized under the laws of the State of Oregon. For any lands which are not within the district, the water-rental applicant will be required to agree to the inclusion of his land within the district before his application will be allowed.

18. *Contract with Owyhee Irrigation District.*—A contract was entered into October 14, 1926, and a supplementary contract on March 16, 1936, between the United States and the Owyhee Irrigation District, providing for payment of charges and operation of works.

19. *Construction charges.*—The construction cost shall be paid in accordance with the contract dated October 14, 1926, and the supplementary contract dated March 16, 1936, between the United States and the Owyhee Irrigation District, which contracts are on file in the office of the Construction Engineer, Bureau of Reclamation, Boise, Idaho, where they may be examined.

20. *Operation and Maintenance charges.*—Each successful applicant for any of these lands shall, before making homestead entry, pay to the United States one dollar ($1.00) for each irrigable acre in the farm unit chosen, as an advance payment for the rental of water for the season of 1937 and such payment will entitle him to two and six-sevenths (2⅔) acre-feet of water per acre. Additional water may be secured during the same season at the rate of thirty-five cents ($0.35) per acre-foot. If the successful applicant is unable to establish residence and prepare his land for cultivation and irrigation in time to raise a crop in 1937, credit will be given for such water-rental payment on charges for water coming due in the spring of 1938. In addition to such advance payment for rental of water, payment must also be made to the Owyhee Irrigation District of their regular annual assessment for District administration purposes at the same rate as the new lands of the District in private ownership. No water will be delivered to any of these farms unless all operation and maintenance charges then due have been paid.

21. *Reservation of rights of way for county highways.*—Rights of way are reserved for county highways across the farm units shown on said plats along all section lines, said rights of way being 30 feet in width on each side of said lines.

22. *Effect of relinquishment prior to one year's residence.*—In the event that any entry of public land shall be relinquished at any time prior to actual residence upon the land by the entryman for not less than one year, the lands so relinquished shall not be subject to entry for a period of 60 days after the filing and notation of the relinquishment in the local land office. During the 10-day period next succeeding the expiration of such 60-day period, any person having the necessary qualifications may file application for said public land. If, on the tenth day of said 10-day period, prior to 2 p. m., the number of applications filed exceeds the number of available farm units, then the right to make entry for such farm units shall be determined in accordance with the procedure described in Paragraph 12 of this order.

23. *Waiver of mineral rights.*—All homestead entries for any of the above-described land will be subject to the laws of the United States governing mineral land and all applicants under this order must waive the right to the mineral content of the land, if required to do so by the Land Office, otherwise the homestead application will be rejected or the homestead entry cancelled.

T. A. WALTERS,
*First Assistant Secretary.*

## FEDERAL TRADE COMMISSION.

*United States of America—Before Federal Trade Commission*

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 6th day of April, A. D., 1937.

Commissioners: William A. Ayres, Chairman, Garland S. Ferguson, Jr., Charles H. March, Ewin L. Davis, Robert E. Freer.

[File No. 21-298]

IN THE MATTER OF TRADE PRACTICE RULES FOR THE COVERED BUTTON AND BUCKLE MANUFACTURING INDUSTRY

PROMULGATION OF TRADE PRACTICE RULES

Due proceedings having been had under the trade practice conference procedure in pursuance of the Act of Congress approved September 26, 1914 (38 Stat. 717),

It is now ordered that the trade practice rules of Group I which have been approved by the Commission in this proceeding be, and the same are, hereby promulgated for the Covered Button and Buckle Manufacturing Industry, as follows:

### TRADE PRACTICE RULES

COVERED BUTTON AND BUCKLE MANUFACTURING INDUSTRY

These rules promulgated by the Commission are designed to foster and promote fair competitive conditions in the interest of industry and the public. They are not to be used, directly or indirectly, as part of or in connection with any combination or agreement to fix prices, or for the suppression of competition, or otherwise to unreasonably restrain trade.

*Group I*

The unfair trade practices which are embraced in Group I rules are considered to be unfair methods of competition or other illegal practices within the statutes and the decisions of the Federal Trade Commission and the courts; and appropriate proceedings in the public interest will be taken by the Commission to prevent the use of such unlawful practices in or directly affecting interstate commerce.

*Rule 1.*

The practice of selling goods below the seller's cost, with the intent and with the effect of injuring a competitor and where the effect may be to substantially lessen competition or tend to create a monopoly or to unreasonably restrain trade, is an unfair trade practice; all elements recognized by good accounting practice as proper elements of such cost shall be included in determining cost under this rule.

*Rule 2.*

Wilfully enticing away the employees of competitors, with the purpose and effect of unduly hampering, injuring or embarrassing competitors in their businesses, is an unfair trade practice.

*Rule 3.*

The defamation of competitors by falsely imputing to them dishonorable conduct, inability to perform contracts, questionable credit standing, or by other false representations, or the false disparagement of the grade, quality or manufacture of the products of competitors, or of their business methods, selling prices, values, credit terms, policies or services, with the tendency, capacity or effect of misleading or deceiving purchasers, prospective purchasers or the consuming public, is an unfair trade practice.

*Rule 4.*

The imitation of the trade-marks, trade names, brands, labels or other marks of identification of competitors, having the tendency, capacity or effect of misleading or deceiving purchasers, prospective purchasers or the consuming public, is an unfair trade practice.

*Rule 5.*

(a) *Prohibited Discriminatory Differentials, Rebates, Refunds, Discounts, Credits and Other Allowances.*—It is an unfair trade practice for any member of the industry engaged in commerce,[1] in the course of such commerce, to grant or allow, secretly or openly, directly or indirectly, any price differentials, rebates, refunds, discounts, credits or other allowances which effectuate a discrimination in price between different purchasers of goods of like grade and quality where either or any of the purchases involved therein are in commerce[1] and where the effect thereof may be substantially to lessen competition or tend to create a monopoly in any line of commerce[1] or to injure, destroy or prevent competition with any person who either grants or knowingly receives the benefit of such discrimination or with customers of either of them: *Provided, however*—

(1) That the goods involved in any such transaction are sold for use, consumption or resale within any place under the jurisdiction of the United States;

(2) That nothing herein contained shall prevent differentials which make only due allowance for differences in the cost of manufacture, sale, or delivery resulting from the differing methods or quantities in which such commodities are to such purchasers sold or delivered;

(3) That nothing herein contained shall prevent persons engaged in selling goods, wares, or merchandise in commerce[1] from selecting their own customers in bona fide transactions and not in restraint of trade;

(4) That nothing herein contained shall prevent prices changes from time to time where made in response to changing conditions affecting either (a) the market for the goods concerned, or (b) the marketability of the goods, such as, but not limited to, actual or imminent deterioration of perishable goods, obsolescence of seasonal goods, distress sales under court process, or sales in good faith in discontinuance of business in the goods concerned.

(b) *Prohibited Brokerages and Commissions.*—It is an unfair trade practice for any member of the industry engaged in commerce,[1] in the course of such commerce, to pay or grant, or to receive or accept, anything of value as a commission, brokerage, or other compensation, or any allowance or discount in lieu thereof, except for services rendered in connection with the sale or purchase of goods, wares, or merchandise, either to the other party to such transaction or to an agent, representative, or other intermediary therein where such intermediary is acting in fact for or in behalf, or is subject to the direct or indirect control, of any party to such transaction other than the person by whom such compensation is so granted or paid.

(c) *Prohibited Advertising or Promotional Allowances, Etc.* It is an unfair trade practice for any member of the industry engaged in commerce[1] to pay or contract for the payment of advertising or promotion allowances or any other thing of value to or for the benefit of a customer of such member in the course of such commerce as compensation or in consideration for any services or facilities furnished by or through such customer in connection with the processing, handling, sale or offering for sale of any products or commodities manufactured, sold or offered for sale by such member, unless such payment or consideration is available on proportionally equal terms to all other customers competing in the distribution of such products or commodities.

(d) *Prohibited Discriminatory Services or Facilities.* It is an unfair trade practice for any member of the industry engaged in commerce[1] to discriminate in favor of one purchaser against another purchaser or purchasers of a commodity bought for resale, with or without processing, by contracting to furnish or by furnishing, or by contributing to the furnishing of, any services or facilities connected with the processing, handling, sale or offering for sale of

[1] As herein used, the word "commerce" means trade or commerce among the several States and with foreign nations, or between the District of Columbia or any Territory of the United States and any State, Territory, or foreign nation, or between any insular possessions or other places under the jurisdiction of the United States, or between any such possession or place and any State or Territory of the United States or the District of Columbia or any foreign nation, or within the District of Columbia or any Territory or any insular possession or other place under the jurisdiction of the United States: Provided, That this shall not apply to the Philippine Islands.

such commodity so purchased upon terms not accorded to all purchasers on proportionally equal terms.

(e) *Illegal Price Discrimination.* It is an unfair trade practice for any member of the industry or other person engaged in commerce,[1] in the course of such commerce, to discriminate in price in any other respect contrary to Section 2 of the Clayton Act as amended by the Act of Congress, approved June 19, 1936, (Public No. 692, 74th Congress), or knowingly to induce or receive a discrimination in price which is prohibited by such section as amended.

*Rule 6.*

Wilfully inducing or attempting to induce, by any false or deceptive means whatsoever, the breach of any lawful contract or contracts existing between competitors and their customers or their suppliers, or wilfully interfering with or obstructing the performance of any such contractual duties or services, with the purpose and effect of unduly hampering, injuring or embarrassing competitors in their businesses, is an unfair trade practice.

*Rule 7.*

The making, or causing or permitting to be made or published, any false, untrue or deceptive statement or representation, by way of advertisement or otherwise, concerning the grade, quality, quantity, substance, character, nature, origin, size or preparation of any product of the industry, or in any other material respect, with the tendency, capacity or effect of misleading or deceiving purchasers, prospective purchasers or the consuming public, is an unfair trade practice.

*Rule 8.*

The practice of coercing the purchase of one or more products as a prerequisite to the purchase of one or more other products, where the effect may be to substantially lessen competition or tend to create a monopoly or to unreasonably restrain trade, is an unfair trade practice.

*Rule 9.*

Offering merchandise for sale at prices purported to be reduced from what are in fact fictitious prices, or offering merchandise for sale at a purported reduction in price when such purported reduction is in fact fictitious, with the tendency and capacity or effect of misleading or deceiving purchasers, prospective purchasers or the consuming public, is an unfair trade practice.

*Rule 10.*

The use of the word "free" where not properly or fairly qualified when the article is in fact not free, with the tendency or capacity to mislead or deceive purchasers, prospective purchasers or the consuming public, is an unfair trade practice.

*Rule 11.*

The practice of shipping or delivering products which do not conform to the samples submitted or representations made prior to securing the orders, without the consent of the purchasers to such substitutions, and having the tendency, capacity or effect of deceiving or misleading purchasers, prospective purchasers or the consuming public, is an unfair trade practice.

*Rule 12.*

Directly or indirectly to give or permit to be given or offer to give money or anything of value to agents, employees or representatives of customers or prospective customers, or to agents, employees or representatives of competitors' customers or prospective customers, without the knowledge of their employers or principals, as an inducement to influence their employers or principals to purchase or contract to purchase industry products from the maker of such gift or offer, or to influence such employers or principals to refrain from dealing or contracting to deal with competitors, is an unfair trade practice.

*Rule 13.*

Securing information from competitors concerning their businesses by false or misleading statements or representations or by false impersonation of one in authority, and the wrongful use thereof to unduly hinder or stifle the competition of such competitors, is an unfair trade practice.

*Rule 14.*

In connection with the sale or offering for sale of products of the industry, representing through advertising or otherwise that such products conform to any standards recognized in or applicable to the industry when such is not the fact, with the tendency, capacity or effect of misleading or deceiving purchasers, prospective purchasers or the consuming public, is an unfair trade practice.

*Rule 15.*

For any person, firm or corporation to hold himself or itself out to the public as a manufacturer or wholesaler when such is not the fact, or in any other manner to misrepresent the character, extent or type of his or its business, with the tendency or capacity to mislead or deceive purchasers, prospective purchasers or the consuming public, is an unfair trade practice.

*Rule 16.*

The false or deceptive marking or branding of products of the industry for the purpose or with the tendency, capacity or effect of misleading or deceiving purchasers, prospective purchasers or the consuming public with respect to the grade, quality, quantity, use, size, material, content, origin, preparation, manufacture or distribution of such products, or in any other material respect, is an unfair trade practice.

*Rule 17.*

Withholding from or inserting in invoices or sales tickets any statements or information by reason of which omission or insertion a false record is made, wholly or in part, of the transactions represented on the face of such invoices or sales tickets, with the purpose or effect of thereby misleading or deceiving purchasers, prospective purchasers or the consuming public, is an unfair trade practice.

By direction of the Commission.

IN THE MATTER OF CENTRAL OHIO LIGHT & POWER COMPANY

NOTICE OF AND ORDER FOR HEARING

An application having been duly filed with this Commission, by Central Ohio Light & Power Company, a subsidiary of Crescent Public Service Company, a registered holding company, pursuant to Section 6 (b) of the Public Utility Holding Company Act of 1935, for exemption from the provisions of Section 6 (a) of the issue and sale of

(A) $750,000 principal amount of First Mortgage 4¼% Bonds, Series B, due May 1, 1962, and

(B) $240,000 principal amount of 3½% Serial Notes, due $60,000 annually May 1, 1939-1942, and $360,000 principal amount of 4½% Serial Notes, due $60,000 annually May 1, 1943-1946 and $120,000 on May 1, 1947;

the net proceeds from the sale of which securities are to be expended for the construction of a 10,000 kilowatt steam-electric generating plant, including certain transmission lines and appurtenances, and for other construction, extensions or improvements.

It is ordered that a hearing on such matter be held on April 26, 1937, at 2 o'clock in the afternoon of that day at Room 1101, Securities and Exchange Building, 1778 Pennsylvania Avenue NW., Washington, D. C.; and

Notice of such hearing is hereby given to said party and to any interested State, State commission, State securities commission, municipality, and any other political subdivision of a State, and to any representative of interested consumers or security holders, and any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before April 21, 1937.

It is further ordered that Charles S. Moore, an officer of the Commission, be and he hereby is designated to preside at such hearing, and authorized to adjourn said hearing from time to time, to administer oaths and affirmations, subpena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda, contracts, agreements, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

Upon the completion of the taking of testimony in this matter, the officer conducting said hearing is directed to close the hearing and make his report to the Commission.

By the Commission.

## PRESIDENT OF THE UNITED STATES.

### CHILD HEALTH DAY

By the President of the United States of America

A PROCLAMATION

WHEREAS the Congress by joint resolution of May 18, 1928 (45 Stat. 617), has authorized and requested the President of the United States to issue annually a proclamation setting apart May 1 as Child Health Day; and

WHEREAS safeguarding the health of children is protecting the vitality of the Nation; and

WHEREAS during the past year the Federal Government has been cooperating with the State and local governments in extending and improving child-health services:

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, on the twenty-fifth anniversary of the founding of the Children's Bureau of the United States Department of Labor, do hereby designate the first day of May of this year as Child Health Day, and do call upon the people of the United States on that day to consider and appraise child-health conditions and the community organization for child health, and to plan for health protection for every child during the coming year; and I call upon the children to celebrate the gains they have made in health during the year and to lend their aid to the community in its year-round effort to promote the health of the Nation.

IN WITNESS WHEREOF I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington this ninth day of April in the year of our Lord nineteen hundred and thirty-seven, and of the Independence of the United States of America the one hundred and sixty-first.

### Bureau of Agricultural Economics.

ORDER AMENDING THE OFFICIAL GRAIN STANDARDS OF THE UNITED STATES FOR WHEAT

By virtue of the authority vested in the Secretary of Agriculture by the United States Grain Standards Act, approved August 11, 1916 (U. S. Code, Title 7, Ch. 3, Sec. 74), I, Secretary of Agriculture, do hereby fix, establish, promulgate, and give public notice of, the following amendments, which shall become effective on the first day of August 1937, to the official grain standards of the United States for wheat as heretofore promulgated by the Secretary of Agriculture.

In the section entitled "Mixed Wheat (Class VII)", strike out the last three paragraphs and insert in lieu thereof the following:

The grade designation for Mixed Wheat shall be stated as provided in paragraph (a), (b), or (c) of this section:

(a) Except as specified in paragraphs (b) and (c) of this section, the grade designation for Mixed Wheat shall include successively, in the order named, (1) the number of the grade or the words "Sample grade", as the case may be, (2) the words "Mixed Wheat", and (3) the name and approximate percentage of each class of wheat which constitutes more than 10 percent of the mixture in the order of its predominance; but if only one class exceeds 10 percent of the mixture, the name and approximate percentage of that class shall be included in the grade designation, followed by the name and approximate percentage of at least one other class.

(b) *Amber Mixed Durum.*—Amber Mixed Durum shall be Mixed Wheat consisting of a mixture of Durum and other wheats, which contains not more than a total of 15 percent of wheats other than common durum and which contains not less than 60 percent of Durum kernels that are hard and vitreous and of amber color. Amber Mixed Durum may contain not more than 5 percent of red durum, white, and soft red winter wheat, singly or combined.

The grade designation for Amber Mixed Durum shall include successively, in the order named, (1) the number of the grade or the words "Sample grade", as the case may be, and (2) the words "Amber Mixed Durum."

(c) *Mixed Durum.*—Mixed Durum shall be Mixed Wheat consisting of a mixture of Durum and other wheats, which contains not more than a total of 20 percent of wheats other than common durum. Mixed Durum may contain not more than 5 percent of red durum wheat, and may contain not more than 5 percent of white and soft red winter wheat, singly or combined.

The grade designation for Mixed Durum shall include successively, in the order named, (1) the number of the grade or the words "Sample grade", as the case may be, and (2) the words "Mixed Durum."

In testimony whereof I have hereunto set by hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington this 8th day of April 1937.

[Manual Amendment]

PROPERTY MANAGEMENT CHAPTER

Whereas the General Manager and General Counsel were authorized and directed to consolidate and coordinate the State and Regional Manuals by Board Resolution adopted May 25, 1936: Therefore

Be it resolved, That pursuant to the authority vested in the Board by Home Owners' Loan Act of 1933 (48 Stat. 128, 129) as amended by Sections 1 and 13 of the Act of April 27, 1934 (48 Stat. 643–647) and particularly by Sections 4–a and 4–k of said Act as amended, the Property Management Chapter of the Consolidated Manual be numbered 3 and provide as follows:

SEC. 300. The Property Management Division shall be responsible for all matters pertaining to real property securing liens held by the Corporation from the time foreclosure or the acceptance of deed in lieu of foreclosure has been authorized and all matters pertaining to real property acquired by the Corporation, except that the primary responsibility for protecting the Corporation's security from liens resulting from unpaid taxes, assessments, other governmental levies or charges, and ground rents, is placed upon the Legal Department. The efforts of the Legal Department in this direction shall be supplemented by the Property Management Division. Tax information relating to properties under the jurisdiction of the Property Management Division shall be requested from the Regional Counsel as provided in Chapter VI of the Manual of Rules and Regulations. The Division may, at the discretion of the Regional Manager or the General Manager, be given control over any other property, on which the Corporation holds a mortgage or other lien, where it appears to the best interests of the Corporation to transfer the control of such property to the Property Management Division. Its jurisdiction shall include the sale, rental, collection of rents, maintenance, repairs, reconditioning, rehabilitation, rebuilding, enlargement, demolishing, and periodic inspections of such properties. All appraisals in connection with properties under the jurisdiction of the Property Management Division, which that Division may deem to be necessary or advisable and to the best interests of the Corporation, shall be made under the direction of the Appraisal Section. All repairing, reconditioning, rehabilitation, rebuilding, and enlargement or demolishing of properties under the jurisdiction of the Property Management Division which that Division shall deem to be necessary or advisable and to the best interests of the Corporation shall be, according to approved procedure, under the direction and charge of the Reconditioning Section, except maintenance, and the repairs and the purchase of equipment incident to the maintenance of such properties. The Property Management Division may direct any maintenance and the repairs and the purchase of equipment incident to the maintenance of such properties to be accomplished under the direction of the Reconditioning Section. Any maintenance, purchase of equipment, repairs, reconditioning, rehabilitation, rebuilding and enlargement or demolishing authorized by the Property Management Division may be accomplished through Approved Contract Brokers under approved procedure. All such work accomplished through Approved Contract Brokers, except maintenance and the repairs and the purchase of equipment incident to maintenance, shall be under the direction and supervision of the Reconditioning Section.

The Regional or State Manager, with the advice of the Regional or State Counsel, may, in his discretion, bind the Corporation to expend such sums for sidewalks or street improvements or other local improvements affecting Corporation-owned property, or for the general improvement of the neighborhood in which an acquired property is located as may be considered by him to be for the interest of the Corporation, in order to enhance or to prevent the impairment of the value of such acquired property; and may on behalf of the Corporation join in and sign petitions or requests for any such improvements proposed to be made under special improvement laws, or otherwise comply with the provisions of said laws in order that said property may receive the benefits to be provided thereby. This authorization to the Regional or State Manager to bind the Corporation for such improvements shall be subject to the limitations as to amount set forth in Section 313 of this Chapter.

SEC. 301. The Property Management Division shall be under the control of the General Manager. There shall be assigned a Deputy General Manager in Charge of the Division who shall report to and take direction from the General Manager. The Deputy General Manager in Charge shall have all necessary authority to carry out the rules and regulations of the Board, relating to matters within the jurisdiction of the Division.

SEC. 302. There shall be a Property Committee in the Home Office in Washington, to be appointed by the Board of Directors, whose functions shall be:

(a) To review all cases where it is recommended that the property be sold at an amount which represents a loss to the Corporation in excess of 25%, based on ledger value, plus accrued and unpaid charges against the property, the estimated carrying charges for six months in advance and the commission of the broker, and to render a decision as to whether the property is to be offered for immediate sale or rental and set a minimum sales price for each such property.

(b) To review and render decisions with regard to all cases which the Regional Property Committee may deem it advisable to submit or which may be submitted by a Field Representative of the Property Management Division as an appeal from the decision of the Regional Property Committee.

(c) To review and render decisions in all cases where the amount of reconditioning, repairs and/or purchases of equipment and supplies, recommended by the Regional Manager, exceeds 33⅓% of the latest appraised value of the property, appraised in its then condition prior to reconditioning, or $1500.00, provided that the amount exceeds $500.00.

(d) To review and render decisions with regard to all leases other than month to month tenancies, except where the Deputy General Manager in Charge has authorized the Regional Manager to effect leases in behalf of the Corporation, for periods not exceeding two years.

(e) To review and render decisions in all cases where the Regional Manager recommends demolition in whole or in part.

(f) To review and render decisions in all cases where it is recommended by the Regional Manager that an offer be accepted from the owner of a property on which the Corporation holds a mortgage or other approved security instrument, to exchange such property for property acquired by the Corporation.

(g) To review and render decisions with regard to any other matters which the Manual of Rules and Regulations requires to be submitted to the Property Committee.

(h) To review and render decisions with regard to any other matters pertaining to the functions of the Property Management Division which the General Manager or the Deputy General Manager in Charge may deem advisable to submit.

SEC. 303. Each Regional Office shall have an Assistant Regional Manager in Charge of Property Management, who shall be appointed with the approval of the Board and act under the direction of the Regional Manager. All Property Management Forms and other approved Corporation forms used in connection with Property Management activities, which are required to be executed by the Regional Manager, the Assistant Regional Manager in Charge of Property Management, or by both, shall hereafter require one signature only and may be executed by the Regional Manager, or the Assistant Regional Manager in Charge of Property Management, or by a duly authorized deputy of either. The Division in the Regional Office shall, where the volume of work is sufficient to justify it, have four sections: (1) Analysis; (2) Sales; (3) Management; and (4) Records and Files. There shall be a Regional Property Committee whose functions shall be to review all cases where it is recommended that the property be sold at a loss to the Corporation, provided the amount of the loss does not exceed 25%, based on ledger value, plus accrued and unpaid charges against the property, the estimated carrying charges for six months in advance and the commission of the broker and to render a decision as to whether the property is to be offered for immediate sale or rental and set a minimum sales price for each such property. The Regional Property Committee shall consist of three members: the Regional Manager, the Assistant Regional Manager in charge of Property Management, and the Regional Appraiser. The Deputy General Manager in Charge may, at any time, supplement the membership of this Committee by the designation of a Field Representative of the Property Management Division to act as a fourth member of such Committee. The Regional Manager is designated as Chairman, and the Assistant Regional Manager in Charge as Vice Chairman of the Committee. The concurrence of a majority of the members shall be sufficient to decide any question that may me presented. In the event a Field Representative of the Property Management Division is designated to act on the Committee, such Field Representative may appeal to the Property Committee in Washington from any decision of the Regional Property Committee. The Regional Property Committee shall make a monthly report of its activities to the Property Management Division at Washington, D. C. The functions of the Division in the Regional Office and elsewhere within the Regional Area, and the procedure applicable thereto shall be in accordance with provisions of this resolution and as prescribed in the Manual of Rules and Regulations.

SEC. 304. The State Manager, under the immediate direction and control of the Regional Manager, shall be the supervisor for property management within the State. The District Manager shall be the supervisor for property management within the District. The Property Management Division in each of the State and District Offices shall have such office organization for the control of its various functions as may be required by the Regional Manager with the approval of the Deputy General Manager in Charge.

SEC. 305. The Property Management Division in the Home Office in Washington shall conduct its operations through the Assistant General Manager to the Regional Manager. The Regional Manager, in turn, shall control the activities of the Division through the Assistant Regional Manager in Charge of Property Management within the Regional Area. The field activities of the Property Management Division of the Regional Office shall be controlled from that office through the State Manager to the District Offices. All paper work, correspondence and reports shall, however, be sent direct between the Regional Offices and District Offices without the necessity of going through the State Office, but the State Office should be furnished necessary information with reference thereto. In those States where the State Office and any District Office or Offices have been consolidated, the State Office shall perform the functions which otherwise would be delegated to the District Office.

SEC. 306. It is the general policy of the Corporation to endeavor to dispose of, rent and manage its acquired properties through brokers or local representatives in all localities where satisfactory arrangements can be made and maintained for such facilities and where it appears to the best interests of the Corporation to conduct those activities through such agencies. The Regional Manager may also assign any other properties under the jurisdiction of the Property Management Division to brokers or local representatives for sale, rental or management when in his opinion it is advantageous to do so.

Lists of Contract Sales Brokers and Contract Management Brokers are to be prepared in accordance with regulations to be issued by the Deputy General Manager in Charge with the approval of the General Manager and the General Counsel. Such lists shall contain the names of persons, firms, or corporations engaged in the real estate business in the communities where the Corporation holds mortgages or other liens or has acquired real properties. The names which shall be placed upon these lists shall represent the best qualified brokers available in the territory. The individuals, firms and corporations shall be selected upon the basis of the best interests of the Corporation. The Contract Sales Broker shall act as the agent of the Corporation in selling such properties as may be listed with him and performing such other duties in connection therewith as may be required by the terms of the Sales Broker's Agreement entered into between such broker and the Corporation. The listing shall be subject to prior sale and also subject to change at any time and to the right of withdrawal upon written notice. The Contract Management Broker shall act as the agent of the Corporation in the rental and management of such properties as may be listed with him in accordance with the terms and conditions of the Management Broker's Agreement entered into between the broker and the Corporation.

In addition to the list of Contract Sales Brokers in each locality a list of Approved Sales Brokers shall be prepared and maintained. The list shall include the names of those active real estate brokers, in each area where the Corporation holds mortgages or other liens or has acquired real properties, who in the opinion of the Regional Manager or Deputy

General Manager in Charge are reputable and qualified to represent the Corporation in the sale of its properties and who have indicated their willingness to act as a broker on forms furnished by the Corporation for such purpose. As a condition precedent to being placed upon the approved list, brokers may be required to agree to submit any and all disputes and controversies arising out of sales commissions to arbitrators to be selected in accordance with procedure set forth in the Chapter of the Manual of Rules and Regulations relating to Property Management and to abide by the decision rendered by the arbitrators. At the same time that the property is listed with a Contract Sales Broker, the Corporation shall distribute, on its duly authorized forms, listings of any such property to all approved real estate brokers within a reasonably effective area of the property. Such a listing shall not be exclusive and the listing price shall be subject to change and the said price and the listing subject to withdrawal or prior sale of the property, all without notice. Such listing shall also be subject to the right of the Corporation to make a sale to any person upon condition that the Corporation shall not be obligated to pay any commission except in cases where the purchaser was procured by an Approved Broker with whom the property is listed. Approved Sales Brokers, upon receipt of any such listing, shall thereafter conduct all of their negotiations with the Corporation through the Contract Sales Broker designated in the listing.

SEC. 307. The General Manager upon the recommendation of the Regional Manager is authorized to fix the schedule of fees or compensation to be paid to Sales Brokers in each locality within the Regional Area. The going or local real estate board rate shall be used by the General Manager as a guide in fixing the amount of such compensation, provided the General Manager may, in his discretion, authorize a higher or lower compensation than the going rate or the rate fixed by the local real estate board whenever he deems the going rate to be too high or too low to serve the best interests of the Corporation. Sales made by any Contract Sales Broker's own organization will carry compensation at the rate authorized in the schedule fixed by the General Manager for Sales Brokers or such lower rate as may be considered between the broker and the Corporation and approved at the time any specific offer is approved by the Regional Manager or the Property Committee of the Corporation. Where the sale is effected by an Approved Sales Broker or outside broker, the broker making the sale shall be entitled to receive the sales commission and in such cases the compensation to be paid the Contract Sales Broker shall be limited to a 2% over-ride commission with a minimum over-ride of $25.00. The compensation to be paid to Contract Management Brokers for the rental and/or management of properties under the jurisdiction of the Property Management Division and for the collection of rents from such properties shall be in accordance with the Manual of Rules and Regulations.

SEC. 308. Brokers may be required to furnish surety bonds payable to the Corporation containing such terms and in such amounts as may be prescribed by the Manual of Rules and Regulations, which surety bonds shall be approved and accepted as provided in Chapter VI.

SEC. 309. In areas where the services of a satisfactory broker are not available, the Regional Manager may arrange for a representative citizen of the community to act for or represent the Corporation in the sale, rental or management of the properties under the jurisdiction of the Property Management Division. The requirements of this resolution and of the Manual of Rules and Regulations, covering the qualifications of brokers, the furnishing of surety bonds, the amount of compensation, the authorization for payment of compensation to brokers, and all of the procedure applicable to brokers shall apply to such representatives. In any territory or locality where the General Manager deems it to the best interests of the Corporation to set up its own organization for the sale, rental and/or management of properties, and for the carrying out of any of the other functions of the Division, additional personnel may be employed or existing personnel utilized for such purposes, and the provisions of this resolution and of the Manual of Rules and Regulations shall establish the procedure to be followed by the organization in the performance of its functions and duties.

SEC. 310. When properties are offered for sale, the Corporation should always endeavor to obtain the full current market price. In some cases prices may have to be fixed in amounts which will result in losses. Wherever possible prices should be set sufficiently high so that the Corporation may receive the benefit of all reasonable profits.

The Regional Manager or Assistant Regional Manager in Charge of Property Management shall, subject to the control of the Deputy General Manager in Charge, have authority to effect sales of properties under the jurisdiction of the Property Management Division at or above the minimum sales price which shall be fixed as follows: If the minimum sales price which the Regional Manager or Assistant Regional Manager in Charge desires to set is equal to or higher than the ledger value, plus accrued and unpaid charges against the property, the estimated carrying charges on the property for six months in advance and the commission of the broker, it shall be set by the Regional Manager or Assistant Regional Manager in Charge; If the minimum sales price recommended by the Regional Manager or Assistant Regional Manager in Charge is in an amount which would result in a loss to the Corporation of not to exceed 25%, based on ledger value, plus accrued and unpaid charges against the property, the estimated carrying charges for six months in advance and the commission of the broker, the minimum sales price shall be set by the Regional Property Committee; If the minimum sales price recommended by the Regional Manager or Assistant Regional Manager in Charge or by the Regional Property Committee is in an amount which represents a loss in excess of 25%, based on ledger value, plus accrued and unpaid charges against the property, the estimated carrying charges for six months in advance and the commission of the broker, the minimum sales price shall be set by the Property Committee in Washington.

There are three authorized plans for the sale of the properties of the Corporation, as follows:

(a) All cash for which deed will be delivered.

(b) A cash payment of at least 10% of the purchase price with the balance payable over a term of not exceeding fifteen years. In some jurisdictions the payment of 10% cash will not be sufficient to protect the Corporation in the event of foreclosure. In such jurisdictions a cash payment shall be required sufficient to protect the Corporation, from the date of sale to the time of possible reacquisition, in the payment of the broker's compensation, normal foreclosure costs, accrued interest, repairs, taxes, insurance and other usual and customary carrying charges and expenses.

(c) A cash payment of less than 10% of the purchase price with the balance amortized over a term of not exceeding fifteen years, where a sale is made under an installment or land contract or other similar instrument. The minimum cash payment required shall be in such amount as in the discretion of the Regional Manager will adequately protect the Corporation in the event of default and the re-acquisition of the property. In those jurisdictions where the time required to complete foreclosure or regain possession or the expense thereof is greater under an installment or land contract or other similar instrument than that required to foreclose a purchase money mortgage, deed of trust or other similar security instrument, or where the Regional Manager, with the advice of the Regional Counsel, determines that the use of an installment contract or other similar instrument would not be to the best interests of the Corporation, the sale shall not be made under this plan. In such cases a cash payment of at least 10% of the purchase price shall be required and deed shall be delivered and the balance of the purchase price shall be secured by a purchase money mortgage, deed of trust, or other approved security instrument, and shall be payable in accordance with the terms and conditions applicable to Plan "(b)". The terms and conditions applicable to the above plans of sale are as follows:

(a) In the case of a sale for all cash, an approved form of deed shall be delivered together with such other instruments as may be necessary in order to convey a proper title to the purchaser.

(b) In the case of a sale for a cash payment of at least 10% of the purchase price, the Corporation shall deliver a deed and take back a note or bond and approved security instrument for the balance of the purchase price, or enter into an installment or land contract or other similar instrument. Such balance of the purchase price shall bear interest at the rate of 5% per annum and shall be amortized by equal monthly payments over a period of not exceeding 15 years. Such payments shall be applied first to interest and the balance to principal, provided that if at least 33⅓% cash is paid the balance may be amortized, or in the discretion of the Regional Manager, no amortization payments may be required for a period of 5 years, and the full amount may be payable at the end of 5 years, or may be amortized after such 5 years, but within a period of 15 years from the date of the note or bond or installment contract, but in such case, during the period when no amortization payments are being made, interest payments shall be made quarterly or semi-annually. All installment or land contracts or other similar instruments, and all notes or bonds which the Corporation may take back to evidence the payment of a portion of the purchase price shall be on approved forms. Such notes or bonds shall be secured by an approved security instrument.

(c) In the case of a sale for a cash payment of less than 10% of the purchase price with the balance amortized over a term of not exceeding fifteen years and where the sale is made under an installment or land contract or other similar instrument, the balance due the Corporation shall bear interest at the rate of 5% per annum and shall be payable in equal monthly payments at the rate of at least 1% per month of the first balance due the Corporation after the original cash payment has been made, and such payments shall be applied first to interest and the balance to principal. Upon the payment of at least 25% of the purchase price, a deed may be delivered to the purchaser and a note or bond on approved form secured by an approved security instrument taken back for the balance of the purchase price. Such note or bond shall bear interest at the rate of 5% per annum and shall be amortized in even monthly payments and shall be for a term not exceeding fifteen years from the date of the execution of the installment or land contract or other similar instrument. All payments under the note or bond shall be applied first to interest and the balance to principal.

The Corporation shall not sell its acquired property either directly or indirectly to an employee of the Corporation or a spouse of such employee.

SEC. 311. Rental prices and schedules shall, subject to the restrictions set forth in this paragraph, be set by the Regional Manager or Assistant Regional Manager in Charge of Property Management. During the period in which the property is offered for rent, efforts should be directed toward obtaining the maximum amount possible. Month to month tenancies are deemed to be more desirable. All leases other than month to month tenancies shall be submitted to the Property Committee in Washington for approval, except where the Deputy General Manager in Charge authorizes the Regional Manager to effect leases in behalf of the Corporation, for periods not exceeding two years.

The Corporation shall not rent any property under the jurisdiction of the Property Management Division to an employee of the Corporation or to a spouse of such employee either directly or indirectly. This restriction shall not, however, affect tenancies existing on September 2, 1936. The Regional Manager shall have authority to authorize and direct the Regional Accountant to charge off rents payable to the Corporation from former tenants of properties or units "available to yield income" and under the jurisdiction of the Property Management Division. This authority shall not extend to tenants in possession. The Regional Manager is authorized to direct the charging off of such rents whenever, in his opinion, the same are uncollectible or when it appears to his satisfaction that it would not be to the best interests of the Corporation to incur any further expense either by way of suit or otherwise in an effort to enforce or make collections.

SEC. 312. Contracts, deeds, leases, or any instrument necessary or appropriate in connection with the sale or rental of any property under the jurisdiction of the Property Management Division may be executed by such officers as are authorized by resolution of the Board of Directors. Except for the sale of real properties, contracts and other instruments effecting the management of properties may be made on approved forms and executed in behalf of the Corporation under procedure prepared by the Deputy General Manager in Charge and approved by the General Manager and the General Counsel.

SEC. 313. Upon approval by the Regional Manager of any expenses of any nature whatsoever made or incurred in the performance of any of the functions or duties required or authorized to be done by this resolution or by the Manual of Rules and Regulations, proper vouchers shall be submitted to the Auditor or an authorized deputy for certification provided that, if the amount to be expended exceeds 33⅓% of the latest appraised value of the property appraised "as is" prior to reconditioning, or $1500.00, and provided also the amount exceeds $500.00, the approval of the Property Committee in the Home Office shall first be obtained. Payment of certified vouchers shall be made by the Regional Treasurer from the Regional Working Fund in accordance with established procedure. Such expenditures from the Regional Working Fund shall be reimbursed from such source as the Comptroller of the Corporation may determine. The Regional Manager is authorized to determine the necessity for such expenditures and the amounts thereof. Vouchers shall be accompanied by the proper receipts and releases, except as provided elsewhere in the Regulations. This authorization and the authorization to the State and District Managers contained in the next succeeding paragraph shall not extend to payrolls, travel or any other expenditure for which there is an established procedure requiring payment from the Home Office in Washington; nor to any compensation of fee attorneys; expenses for abstracts, surveys, title searches, title certificates, title insurance policies; attorneys' fees for deeds in lieu of foreclosure, foreclosures or other litigation, or expenses of litigation. Any legal fees and expenses shall be incurred, approved and paid in the manner provided in Chapter VI.

The State and District Managers may incur or approve charges in behalf of the Corporation for expenses made or incurred in the performance of any of the functions or duties required or authorized to be done by this Chapter in any case where the amount thereof does not exceed $300.00, provided that where such amount exceeds $300.00 the approval of the Regional Manager shall first be obtained. The State and District Managers are authorized and directed, within the limitations above stated, to determine the necessity for such expenditures and the amounts thereof. Charges and bills incurred or approved by the State or District Manager shall be paid by vouchers through the regular procedure provided therefor except in those cases where disbursements are authorized to be made by brokers out of funds in the possession of the broker received from the income of the particular property. Any authority hereinabove vested in the State Manager and the District Manager may also be exercised by any Assistant to the State Manager in Charge of Property Management, or by any Assistant to the District Manager in Charge of Property Management, or by any District Property Management Supervisor, when duly deputized for such purpose.

At the instance of the Regional, State, or District Manager, the Regional Counsel shall promptly arrange for the furnishing of services of fee attorneys, abstracts, surveys, title searches, title certificates and title insurance policies

obtained in connection with properties under the juridisdiction of the Property Management Division. The Regional Counsel shall promptly arrange for the furnishing of any such service requested by the Regional Manager or the State or District Manager when authorized by the Regional Manager to make such request.

Contract Management Brokers and Contract Sales Brokers may incur charges in behalf of the Corporation, and may expend, out of revenues from properties listed with them, monies for expenses made or incurred in the performance of any of the functions or duties required or authorized to be done by this Resolution or procedure promulgated thereunder, or by the Manual, provided that if the amount to be expended exceeds $25.00 on any particular property containing not more than one unit or $50.00 on any property containing more than one unit during any monthly accounting period, the approval of the State or District Manager shall first be obtained, except in any cases requiring emergency repairs for which the broker may incur charges not exceeding $100.00. In no event, however, shall the Contract Management Broker pay any bills or charges incurred in connection with any particular property which cannot be paid out of funds in possession of the Broker, received from the income of that particular property. If the funds in possession of the broker from any particular property are not of sufficient amount to pay the charges or bills incurred, then same shall be paid only by voucher through the regular procedure provided therefor. An accounting shall be made by such brokers for each and every item of expense incurred hereunder and payment therefor shall be supported by proper receipts and releases, except as provided elsewhere in the regulations. All expenditures authorized hereunder shall be made under such instructions and procedure as the Deputy General Manager in Charge of Property Management, subject to the approval of the General Manager and General Counsel, may from time to time prescribe. (Board Resolution adopted January 22, 1937.)

The authorization for the payment of expenses provided for in this section, shall apply to both recurring and nonrecurring items.

SEC. 314. The General Manager, upon the recommendation of the Regional Manager, may authorize the establishment of compensation of not to exceed two dollars per report to credit agencies for credit reports on individuals, corporations, and firms required by the regulations relating to Property Management, in localities where such reports may not be obtained at a lower cost. The General Manager shall file with the Auditor a schedule of fees in excess of one dollar per report which are authorized for any localities.

SEC. 315. The Deputy General Manager in Charge shall be required to make a report monthly on the operations of the Property Management Division to the General Manager for transmission to the Board. The General Manager shall consider such reports and, from time to time, make recommendations to the Board as to the policies to be followed by the Property Management Division, and the Board will give such direction to the General Manager as may appear to it to be appropriate.

SEC. 316. The advice of the General Counsel or an Associate General Counsel or an Associate Counsel or of the Legal Department shall be secured before action is taken on any matter arising within the Property Management Division which affects the legal position of the Corporation.

Be it further resolved, That the Deputy General Manager in Charge may recommend and the General Manager and the General Counsel are hereby authorized to prescribe procedure necessary to carry out the regulations set out herein or hereafter adopted by the Board; and

Be it further resolved, That all previously issued regulations which are in conflict herewith, or with regulations issued under authority granted herein are hereby superseded and repealed; and

Be it further resolved, That the provisions of this resolution shall become effective forty days after its adoption, Sundays and holidays excluded.

Adopted by the Federal Home Loan Bank Board on January 22, 1937.

## INTERSTATE COMMERCE COMMISSION.

[Ex Parte No. 115]

INCREASES IN FREIGHT RATES AND CHARGES

HEAVY BASIC COMMODITY LIST: AND RELATION OF FIFTH AND SIXTH CLASS RATES IN OFFICIAL TERRITORY

APRIL 9, 1937.

*Notice to All Concerned:*

The above-entitled proceeding is set for further hearing before Commissioner Aitchison at Hotel Morrison, Chicago, Illinois, commencing at ten o'clock a. m., Central Standard Time, Thursday, April 22, 1937, with respect to so much of the issues as relate to (1) general aspects of the case, (2) the so-called Heavy Basic Commodity list, comprising the involved rates on (a) coal and coke; iron ore; (b) articles in the iron and steel list; (c) articles in the lime, cement, and plaster list, concerning which testimony has already been received; (d) petroleum and its products, asphalt and road oil, tar and pitch, benzol, liquefied petroleum gas and lignin liquor and lignin pitch; and also (3) the relation of fifth and sixth classes to first-class rates in official territory. It is desired and expected that (except as hereinafter indicated) the record of testimony as to such issues shall be completed at the hearing in Chicago, including any rebuttal testimony of carriers.

For the purpose of bringing the record upon the foregoing-described issues down to the latest possible date before the submission, and for that purpose only, the proceeding is set down for further hearing before Commissioner Aitchison at the offices of the Commission in Washington, D. C., on Monday, June 14, 1937, at ten o'clock a. m., Eastern Standard Time.

Briefs may be served and filed not later than June 5, 1937. Parties filing briefs are directed to send thirty copies to the Interstate Commerce Commission for its use and for the use of the cooperating committee of state commissioners, and twenty-five copies to R. V. Fletcher, Transportation Building, Washington, D. C., for the use of counsel for the carriers. No other service of briefs will be required, but shippers or others desiring briefs of other shippers may make requests directly on the writer for such briefs. Parties desiring copies of the carriers' brief should make request of R. V. Fletcher at the address above shown. In this manner it is hoped that needless expense on the part of those filing briefs may be avoided. The particular attention of the parties is directed to rule XXI of the Rules of Practice as to the form and style of briefs, and to the requirement in Rule XIV (a) that each brief shall contain an abstract of the evidence relied on, with references to pages of the record or exhibit where the evidence appears. Adequate compliance with the rule as to abstracting testimony will facilitate consideration of the large record herein.

This proceeding is assigned for oral argument upon the issues above indicated, before the Commission, at its office in Washington, D. C., beginning at ten o'clock a. m., Eastern Standard Time, Wednesday, June 16, 1937. Counsel seeking an allotment of time should make written request therefor, addressed to the Commission, which should reach the Commission not later than June 5, 1937. So far as possible to do so, parties having common interests should consolidate their oral arguments and briefs, so as to avoid duplication and the dilution of the time available.

Reply briefs may be filed not later than June 22, 1937, and should be served on counsel whose briefs are thus replied to, and the same number of copies supplied as in the case of original briefs, as hereinbefore indicated.

So much of the Notice to the Public in this proceeding, dated February 6, 1937, as related to hearings to be held at Boston, Mass., Kansas City, Mo., and St. Paul, Minn., is canceled, inasmuch as by the cooperation of interested parties it has been made possible to concentrate the hearings at Washington, Atlanta, Ga., and Chicago.

*Transcontinental-Mountain-Pacific Rates*

The groups of issues in this proceeding for convenience designated as above, being those as to which hearings will commence at San Francisco, Calif., on April 12, 1937, as provided in the Commission's notice dated February 6, 1937, are assigned for further hearing before Commissioner Aitchison at the following places, and commencing at the times shown, viz:

Salt Lake City, Utah, at Hotel Utah, ten o'clock a. m. Mountain Standard Time, May 20, 1937.

Los Angeles, Calif., at the rooms of the Railroad Commission of the State of California, 707 State Building, ten o'clock a. m., Pacific Standard Time, May 24, 1937.

Portland, Oreg., at Hotel Portland, at ten o'clock a. m., Pacific Standard Time, June 2, 1937.

Announcement will be made hereafter as to the date of filing briefs, and for the argument of the Transcontinental-Mountain-Pacific issues.

*Other Issues*

The remaining issues in this proceeding will not be heard prior to the submission of the so-called heavy basic commodity list and fifth and sixth class relation issues, and are reserved for further announcement as to procedure.

*General*

For the convenience and guidance of all concerned the following is reproduced from the Notice to the Public issued by the Commission on February 6, 1937, in this proceeding, which are to be observed as special rules of procedure applicable in this proceeding:

In the preparation of exhibits, Rule XIII of the rules of practice should be followed. A copy of the Rule is attached. All documents submitted by a witness should be embraced in one exhibit, suitably bound together, whenever practicable. In order to supply the State Commissioners, the members of this Commission, and counsel in the proceeding, at least 150 copies of each exhibit should be prepared. As far as can be done, exhibits should be self-explanatory, in order to minimize the amount of time required for oral examination thereon. Witnesses coming with prepared statements of their testimony should have sufficient copies thereof for the use of counsel and the Commission. As the voluminous record already made in this proceeding is available for consideration, reference may be made to any exhibit or testimony already received, without reintroduction thereof. If it is desired to submit verified statements (affidavits) in lieu of personal production of a witness, 10 copies should be transmitted to the Commission, and 75 copies to Mr. R. V. Fletcher, attorney for the applicants, Transportation Building, Washington, D. C., a reasonable time in advance of the time when the same are to be submitted for the record. Copies must be furnished to other interested parties who request them, and the rules of practice as to preparation of exhibits should be followed as to style, mimeographing, printing, etc. These statements must be limited to matters of fact and should avoid argument. Unless these suggestions are followed, the verified statements (affidavits) may be excluded if objection is interposed to their reception.

Persons who desire to be heard at any of these hearings will facilitate the arrangements necessary by sending notice of their intention, stating the commodities involved, the number of witnesses, and the approximate amount of time necessary for presentation of direct testimony.

Correspondence relative to this matter should be addressed to the Commission at Washington, with reference to the Docket number, Ex Parte No. 115.

By the Commission.

[SEAL] W. P. BARTEL, *Secretary.*

RULE XIII, RULES OF PRACTICE (IN PART)

(c) 1. [*Tariffs; offer of matter contained in schedules.*]—In case any matter contained in a tariff schedule on file with the Commission is offered in evidence, such tariff schedule need not be produced or marked for identification, but the matter so offered shall be specified with particularity in such manner as to be readily identified and may be received in evidence subject to check by reference to the original tariff schedules so on file.

2. [*Reference in exhibits to tariff authority, routes, and distances.*]—All exhibits showing rates, fares, charges, or other tariff provisions must, by appropriate Interstate Commerce Commission number reference, indicate the tariff authority therefor, and if distances are shown must also show the authority therefor, and, by lines and junction points, the routes over which the distances are computed; except that the routes over which the distances are computed need not be shown when such distances are specifically published in a tariff schedule lawfully on file with the Commission, or are definitely ascertainable from a tariff schedule on file with the Commission showing rates prescribed by the Commission and based on short line distances, provided the exhibit makes specific reference to such tariff schedule as provided by this rule.

(d) [*Copies of exhibits furnished opposing counsel.*]—When exhibits of a documentary character are to be offered in evidence copies must be furnished to opposing counsel, unless the presiding commissioner or examiner otherwise directs. Whenever practicable, the parties should interchange copies of exhibits before or at the commencement of the hearing.

(e) [*Size, form and identification of exhibits; relevancy, materiality; not argumentative.*]—All exhibits of a documentary character received in evidence are bound with the rest of the record in covers of uniform size. Whenever practicable they should be on one side only of sheets not exceeding 12½ inches from top to bottom by 22 inches in width, and a sufficient margin for binding, preferably 1½ inches, must be left blank on the left side of each sheet. They must be on paper of good quality and so prepared as to be plainly legible and durable, whether printed or typewritten. If typewritten they must in other respects conform to the requirements of Rule XXI (b). Whenever practicable the sheets of each exhibit and the lines of each sheet should be numbered, and, if the exhibit consists of five or more sheets, the first sheet or title-page should be confined to a brief statement of what the exhibit purports to show, with reference by sheet and line to illustrative or typical examples contained in the exhibit and should bear an identifying number, letter, or short title which will readily distinguish the exhibit from the other exhibits of the same party. It is desirable that, whenever practicable, rate comparisons and other evidence should be condensed into tables. Exhibits should be limited to statements of fact relevant and material to the issue, which can be shown in that form better than by oral testimony. They should not be argumentative.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 12th day of April, A. D. 1937.

[File No. 46-39]

IN THE MATTER OF REPUBLIC SERVICE CORPORATION

NOTICE OF AND ORDER FOR HEARING

An application having been duly filed with this Commission, by Republic Service Corporation, a registered holding company, pursuant to Section 10 (a) (1) of the Public Utility Holding Company Act of 1935, for approval of the acquisition by applicant of the Five Year 5% Promissory Note, in the principal amount of $590,000, of Abington Electric Company, its subsidiary company.

It is ordered that a hearing on such matter be held on April 22, 1937, at two o'clock in the afternoon of that day at Room 1101, Securities and Exchange Building, 1778 Pennsylvania Avenue NW., Washington, D. C.; and

Notice of such hearing is hereby given to said party and to any interested State, State commission, State securities commission, municipality, and any other political subdivision of a State, and to any representative of interested consumers or security holders, and any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before April 21, 1937.

It is further ordered that John H. Small, an officer of the Commission, be and he hereby is designated to preside at such hearing, and authorized to adjourn said hearing from time to time, to administer oaths and affirmations, subpena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda, contracts, agreements, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

Upon the completion of the taking of testimony in this matter, the officer conducting said hearing is directed to close the hearing and make his report to the Commission.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE CONTINENTAL-JANSSEN FARM, FILED ON FEBRUARY 19, 1937, BY ARTHUR SORY, RESPONDENT.

ORDER FOR HEARING (UNDER RULE 340 (B)) AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein contains an untrue statement of a material fact, or omits to state a material fact which is required to be stated therein (for the omission of which no sufficient reason is given in the offering sheet) and which is necessary to make the statements therein not misleading, to wit:

In that the information disclosed by Division II, Item 16 (a) (iii) relative to the gross production of water from the tract involved is not believed to be correct;

It is ordered, pursuant to Rule 340 (b) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be misleading, and whether the effectiveness of the filing of the said offering sheet shall be suspended; and

It is further ordered that John H. Small, an officer of the Commission be, and hereby is, designated as Trial Examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 23rd day of April, 1937, at 2:00 o'clock in the afternoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said Examiner may designate.

Upon the completion of testimony in this matter the Examiner is directed to close the hearing and make his report to the Commission.

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)) AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

In that the date upon which the information disclosed by the offering sheet will be out of date does not appear to be correctly set forth in Division I, paragraph 8: (Estimated production figures may not be used for the purpose of extending the effective period of an offering sheet—Division II, Item 16 (a).)

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 9th day of May, 1937, that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that John H. Small, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 23rd day of April, 1937, at 2:30 o'clock in the afternoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)) AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that Division II, Item 10, requires that the names and approximate depths of all horizons represented as possibly oil and/or gas bearing and to possibly underlie the tract, be stated; whereas the answer to this item states that *it is proposed to explore* the horizons named and that by reason of the answer given the information disclosed thereby might prove to be misleading;

(2) In that it is not believed that the information disclosed by Division II, Item 12, is a valid or sufficient reason for claiming that possibly productive horizons underlie the tract involved;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 9th day of May, 1937; that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that John H. Small, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)) AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that the information given in Division II, Item 1, may not be correct by reason of the fact that it is required by the Rules and Regulations of the Commission and the form of offering sheet used that the number of barrels of oil or cubic feet of gas in which the smallest fractional interest proposed to be offered will be entitled to participate shall be stated in the ratio of "one out of ____", whereas the ratio used in the offering sheet in question is "three out of ____";

(2) In that the plat attached to the offering sheet as "Exhibit A" fails to disclose the required information by reason of the fact that the names of the operators of the properties adjacent to the tract involved are not given, nor is any statement made that said adjacent properties are not under lease;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 9th day of May, 1937; that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that John H. IN THE MATTER OF AN OFFERING SHEET OF OVERRIDING PRODUCING ROYALTY INTERESTS IN THE O'DONNELL FARM, FILED ON NOVEMBER 18, 1936, BY JOHN WIGHT, RESPONDENT

PERMANENT SUSPENSION ORDER

The Securities and Exchange Commission initiated this proceeding pursuant to the provisions of Rule 340 of the General Rules and Regulations promulgated by the Commission under the Securities Act of 1933, as amended, to determine whether or not an order should be entered suspending the effectiveness of the filing of an offering sheet of overriding producing royalty interests in the O'Donnell Farm, located in Carbon County, Wyoming, which offering sheet was filed with the Commission on November 18, 1936, by John Wight, of Billings, Montana, the respondent herein.

This matter having come on regularly for hearing before the Commission at Washington, D. C., on February 8, 1937, and due notice thereof having been given to the said respondent, and the said respondent having failed to appear, and documentary evidence having been introduced, and the hearing having been closed, and the Commission having found upon the evidence that said offering sheet is misleading and incomplete and inaccurate in material respects, and omits to state material facts required to be stated therein and fails to comply with certain material requirements of the Rules and Regulations of the Commission, all as set forth in the Findings and Opinion of the Commission filed in this proceeding, and it appearing appropriate in the public interest so to do;

It is ordered, pursuant to Rule 340 (b) of the Commission's General Rules and Regulations promulgated under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be and the same hereby is permanently suspended.

[File No. 20-495A1-1]

IN THE MATTER OF AN OFFERING SHEET OF NON-PRODUCING FREE-WORKING INTERESTS IN THE SMITH-FLEET-BELL-BEAVER BLOCK FARMS, FILED ON OCTOBER 21, 1936, BY A. D. BECK, RESPONDENT

PERMANENT SUSPENSION ORDER

The Securities and Exchange Commission initiated this proceeding pursuant to the provisions of Rule 340 of the General Rules and Regulations promulgated by the Commission under the Securities Act of 1933, as amended, to determine whether or not an order should be entered suspending the effectiveness of the filing of an offering sheet of non-producing free-working interests in the "Smith-Fleet-Bell-

Beaver Block Farms", located in Upshur County, Texas, and Prairie County, Arkansas, which offering sheet was filed with the Commission on October 21, 1936, by A. D. Beck, of Fort Worth, Texas, the respondent herein.

This matter having come on regularly for hearing before the Commission at Washington, D. C., on November 23, 1936, and due notice thereof having been given to the said respondent, and the said respondent having failed to appear, and documentary evidence having been introduced, and the hearing having been closed, and the Commission having found upon the evidence that said offering sheet is incomplete in material respects, and omits to state material facts required to be stated therein, and fails to comply with certain material requirements of the Rules and Regulations of the Commission, all as set forth in the *Findings and Opinion of the Commission* filed in this proceeding, and it appearing appropriate in the public interest so to do;

It is ordered, pursuant to Rule 340 (b) of the Commission's General Rules and Regulations promulgated under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be and the same hereby is permanently suspended.

After appropriate notice, a hearing having been held in this matter on October 19, 1936, at which it was established to the satisfaction of the Commission that said security is duly listed and registered on the New York Stock Exchange a national securities exchange, and that there exists in the vicinity of said applicant exchange sufficiently widespread public distribution of said security and sufficient public trading activity therein to render the extension of unlisted trading privileges on said exchange thereto appropriate in the public interest and for the protection of investors; and

The Commission, based upon the evidence introduced at said hearing, having found that the extension of unlisted trading privileges pursuant to said application is appropriate in the public interest and for the protection of investors;

It is ordered, pursuant to Section 12 (f) of the Securities Exchange Act of 1934, as amended, that said application of the Pittsburgh Stock Exchange for permission to extend unlisted trading privileges to the Common Stock, $12.50 Par Value, of Kaufmann Department Stores, Inc. be and the same is hereby granted.

## PRESIDENT OF THE UNITED STATES.

ORGAN PIPE CACTUS NATIONAL MONUMENT—ARIZONA

By the President of the United States of America

A PROCLAMATION

WHEREAS certain public lands in the State of Arizona contain historic landmarks, and have situated thereon various objects of historic and scientific interest; and

WHEREAS it appears that it would be in the public interest to reserve such lands as a national monument, to be known as the Organ Pipe Cactus National Monument:

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, under and by virtue of the authority vested in me by section 2 of the Act of June 8, 1906 (ch. 3060, 34 Stat. 225; U. S. C. title 16, sec. 431), do proclaim that, subject to existing rights, the following-described lands in Arizona are hereby reserved from all forms of appropriation under the public-land laws and set apart as the Organ Pipe Cactus National Monument:

*Gila and Salt River Meridian*

Beginning at a point on the southern boundary of the Papago Indian Reservation which is the point for the corner of secs. 5, 6, 31, and 32, Tps. 17 and 18 S., R. 3 W.; thence south approximately five and one-half miles to the International Boundary; thence northwesterly along the International Boundary to the intersection with the position for the third meridional section line through unsurveyed T. 17 S., R. 8 W.; thence north on the third meridional section line through Tps. 17, 16, 15 and 14 S., R. 8 W. (unsurveyed), to the point for the corner of secs. 15, 16, 21 and 22; thence east on the third latitudinal section line through T. 14 S., Rs. 8, 7, 6 and 5 W., to the corner of sections 13, 18, 19 and 24, T. 14 S., Rs. 4 and 5 W., on the west boundary of the Papago Indian Reservation; thence southerly and easterly along the west boundary of the Papago Indian Reservation to the point for the corner of secs. 5, 6, 31, and 32, Tps. 17 and 18 S., R. 3 W., which is the point of beginning, containing approximately 330,690 acres.

Warning is hereby expressly given to all unauthorized persons not to appropriate, injure, destroy, or remove any feature of this monument and not to locate or settle upon any of the lands thereof.

The Director of the National Park Service, under the direction of the Secretary of the Interior, shall have the supervision, management, and control of the monument as provided in the act of Congress entitled "An Act To establish a National Park Service, and for other purposes," approved August 25, 1916 (ch. 408, 39 Stat. 535; U. S. C., title 16, secs. 1 and 2), and acts supplementary thereto or amendatory thereof; *Provided*, that the administration of the monument shall be subject to: (1) Right of the Indians of the Papago Reservation to pick the fruits of the organ pipe cactus and other cacti, under such regulations as may be prescribed by the Secretary of the Interior; (2) Proclamation of May 27, 1907 (35 Stat. 2136); (3) Executive Order No. 5462 of October 14, 1930; and (4) Executive Order of November 21, 1923, reserving a 40-acre tract as a public water reserve.

The reservation made by this proclamation supersedes as to any of the above-described lands affected thereby the temporary withdrawal for classification and other purposes made by Executive Order No. 6910 of November 26, 1934, as amended.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States to be affixed.

DONE at the city of Washington this 13 day of April, in the year of our Lord nineteen hundred and thirty-seven and of the Independence of the United States of America the one hundred and sixty-first.

EMERGENCY BOARD, SOUTHERN PACIFIC COMPANY (PACIFIC LINES) AND NORTHWESTERN PACIFIC RAILROAD COMPANY—EMPLOYES

By the President of the United States of America

A PROCLAMATION

WHEREAS the President, having been duly notified by the National Mediation Board that disputes between the Southern Pacific Company (Pacific Lines) and the Northwestern Pacific Railroad Company, carriers, and certain of their employes represented by

Brotherhood of Locomotive Engineers;
Brotherhood of Locomotive Firemen and Enginemen;
Order of Railway Conductors;
Brotherhood of Railroad Trainmen;

which disputes have not been heretofore adjusted under the provisions of the Railway Labor Act, amended, now threaten substantially to interrupt interstate commerce within the states of California, Oregon, Nevada, Arizona, New Mexico and Texas to a degree such as to deprive that section of the country of essential transportation service;

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, by virtue of the power vested in me by the Constitution and laws of the United States, and by virtue of and under the authority in me vested by Section 10 of the Railway Labor Act, amended, do hereby create a board to be composed of three persons not pecuniarily or otherwise interested in any organization of railway employes or any carrier, to investigate the aforementioned disputes and report its findings to me within thirty days from this date.

The members of this board shall be compensated for and on account of such duties in the sum of seventy-five dollars for every day actually employed with or upon account of travel and duties incident to such board. The members will be reimbursed for and they are hereby authorized to make

expenditures for expenses for themselves and of the board, including traveling expenses and in conformity with Public No. 212, 72d Congress, Approved June 30, 1932, 11:30 a. m., not to exceed five ($5.00) dollars per diem for expenses incurred for subsistence.

All expenditures of the board shall be allowed and paid for out of the appropriation "Emergency Boards, Railway Labor Act, May 20, 1926, 1937" on the presentation of itemized vouchers properly approved by the chairman of the board hereby created.

IN TESTIMONY WHEREOF, I have hereunto set my hand and caused the seal of the United States to be affixed.

Done at the City of Washington this 14th day of April in the year of our Lord nineteen hundred and thirty-seven, and of the Independence of the United States of America the one hundred and sixty first.

## FOREIGN-TRADE ZONES BOARD.

[Public Notice No. 2 (S. F.)]

PUBLIC NOTICE

EXAMINERS COMMITTEE, SAN FRANCISCO, CALIFORNIA

MARCH 22, 1937.

*To Whom It May Concern:*

Pursuant to the provisions of the Act approved June 18, 1934, Public No. 397 (48 Stat. 998, 1001), and the Regulations Governing the Establishment, Operation, Maintenance, and Administration of Foreign-Trade Zones in the United States, promulgated in pursuance of said Act, a public hearing will be held by an Examiners Committee, beginning at 10:00 a. m. Pacific Standard Time, on Wednesday, April 28, 1937, in Room 319 Custom House, San Francisco, California.

The subject of the hearing is an application by the Board of State Harbor Commissioners for a grant to establish a foreign-trade zone at San Francisco. General plans, showing the location of the project, may be examined at the office of the Examiners Committee, Room 311 Custom House, San Francisco, California, or at the office of the Executive Secretary of the Foreign-Trade Zones Board, Room 3054, Commerce Building, Washington, D. C. In brief, these contemplate the utilization of Pier 45, San Francisco Waterfront.

This public hearing is solely for the purpose of obtaining, in the most direct manner, the facts useful to the Foreign-Trade Zones Board. The immediate concern of the Examiners Committee is to determine whether or not the proposed plans are suitable for the accomplishment of the purpose of the foreign-trade zone under the Act, and whether or not the facilities and appurtenances which it is proposed to provide are sufficient. Particular attention is called to the fact that the instant application is the only one to be considered at this time. The question of its suitability is up for discussion, not the suitability of some other site.

A "foreign-trade zone" as provided in the act is "an isolated, enclosed, and policed area, under the supervision of a designated board of Federal officials, operated as a public utility by a corporation, in or adjacent to a port of entry, without resident population, furnished with the necessary facilities for lading and unlading, for storing goods, and for reshipping them by land and water; an area into which goods may be brought, stored, and subjected to certain specified manipulation operations. If reshipped to foreign points the goods may leave the restricted trade zone without payment of duties and without the intervention of customs officials, except under certain conditions. Such products cannot, of course, leave the trade zone for domestic use or consumption without full compliance with existing customs laws. * * * Goods may not be manufactured or exhibited in such an area. The area is subject equally with adjacent regions to all the laws relating to public health, vessel inspection, postal service, immigration, and to the supervision of Federal agencies having jurisdiction in ports of entry, including customs, to a limited extent."

All interested parties are invited to be present or represented at the hearing, particularly those who may be affected by the proposed grant. An opportunity to be heard (either in person or by duly appointed representative, either by appearance or by sending a written or telegraphic statement) will be given to persons or groups who have manifested their interest in this application by complying with the following simple requirements:

1. A written or telegraphic request for an opportunity to be heard shall be filed before noon on April 24, 1937, at the office of the Examiners Committee, Room 311 Customs House, San Francisco, California, or at the office of the Executive Secretary of the Foreign-Trade Zones Board, Room 3054, Commerce Building, Washington, D. C., and shall indicate the number of witnesses, the general character of evidence, and the approximate amount of time required.

2. Such request shall include (a) the name of any persons seeking to speak at the hearing, and (b) the persons or groups he represents.

In the discretion of the Examiners Committee, persons who have not complied with the foregoing may be permitted, at any time prior to the closing of the hearing, to file written statements regarding the application under consideration. Such written statements should be condensed as much as possible.

Representation of interested parties by attorneys or others is permissible, but is not to be regarded as necessary. For accuracy of record, and for file with the report and recommendations of the Examiners Committee, all important facts and arguments should be submitted in writing; as these, together with the record, will be forwarded for consideration by the Foreign-Trade Zones Board in Washington.

You are requested to communicate the foregoing to any persons known by you to be interested in the matter who, not being known to this Committee, do not receive a copy of this notice.

*Examiner, Bureau of Foreign and Domestic Commerce.*

CHARLES O. DUNBAR,
*Collector of Customs, San Francisco.*

LT. COL. JAMES A. DORST,
*District Engineer, San Francisco District.*

The foregoing Public Notice is hereby certified to be a true copy of the original.

In Testimony Whereof, I have hereunto set my hand and affixed the Seal of the Foreign-Trade Zones Board, in the City of Washington, this 3rd day of April, One Thousand Nine Hundred and Thirty-Seven.

IN THE MATTER OF ARMSTRONG CORK COMPANY 15-YEAR 4% DEBENTURES DUE JULY 1, 1950

ORDER DENYING APPLICATION TO EXTEND UNLISTED TRADING PRIVILIGES

The Pittsburgh Stock Exchange pursuant to Section 12 (f) of the Securities Exchange Act of 1934, as amended, and Rule JF1 prescribed thereunder, having made application to the Commission for permission to extend unlisted trading privileges to the 15-Year 4% Debentures due July 1, 1950, of Armstrong Cork Company; and

After appropriate notice, a hearing having been held in this matter on October 19th, 1936, at which it was established that said security is duly listed and registered on the New York Stock Exchange, a national securities exchange, and at which it was not established to the satisfaction of the Commission that there exists in the vicinity of said applicant exchange sufficiently widespread public distribution of said security and sufficient public trading activity therein to render the extension of unlisted trading privileges on said exchange thereto necessary or appropriate in the public interest or for the protection of investors; and

The Commission, based upon the evidence introduced at said hearing, not having found that the extension of unlisted trading privileges pursuant to said application is necessary or appropriate in the public interest or for the protection of investors;

It is ordered, pursuant to Section 12 (f) of the Securities Exchange Act of 1934, as amended, that said application of the Pittsburgh Stock Exchange for permission to extend unlisted trading privileges to the 15-Year 4% Debentures due July 1, 1950, of Armstrong Cork Company be and the same is hereby denied.

CUSTOMS REGULATIONS AMENDED—MARKING TO INDICATE COUNTRY OF ORIGIN OF MANIPULATED MERCHANDISE WITHDRAWN FOR CONSUMPTION

ARTICLES 509 AND 945, CUSTOMS REGULATIONS OF 1931, AMENDED TO REQUIRE MARKING TO INDICATE COUNTRY OF ORIGIN OF IMPORTED ARTICLES WHICH HAVE BEEN REPACKED OR MANIPULATED IN WAREHOUSE

*To Collectors of Customs and Others Concerned:*

Pursuant to the authority contained in section 251 of the Revised Statutes and sections 304 and 556 of the Tariff Act of 1930 (U. S. C., title 19, secs. 66, 1304 and 1556), the Customs Regulations of 1931 are hereby amended as follows:

Article 509 is amended by adding a new paragraph to be designated paragraph (f), reading as follows:

(f) No article which has been repacked under article 938 of these regulations or section 562 of the Tariff Act of 1930, or which has been manipulated under that section, shall be withdrawn from warehouse for consumption unless such article (if subject to individual marking when imported) and its immediate container and the package in which it is contained at the time of withdrawal are marked to indicate the country of origin of such article in accordance with the provisions of section 304 of the Tariff Act of 1930. The word "articles" within the meaning of this paragraph includes packages and immediate containers withdrawn for consumption which have been removed from articles repacked or manipulated and not replaced thereon. These regulations shall not be construed to relieve an importer from payment of marking duty if it accrued by reason of the absence at the time of importation of the marking required by section 304, nor to require the further marking of articles, containers, or packages which were marked in accordance with section 304 at the time of importation, when such marking has not been affected by the repacking or manipulation.

Article 945 is amended by adding a new paragraph to be designated paragraph (e), reading as follows:

(e) Articles which have been repacked or manipulated, and their containers and packages, and the packages and containers described as articles in article 509 (f), shall not be withdrawn from warehouse for consumption unless they are marked to indicate the country of origin of the articles, in accordance with the provisions of section 304 of the Tariff Act of 1930 and article 509 (f). The storekeeper shall note the fact of such marking on the back of the permit, customs Form 3499.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 15th day of April, A. D., 1937.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE PHILLIPS-GENERAL "L" COMMUNITY LEASE, FILED ON APRIL 12, 1937, BY A. BEN CHADWELL, RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)) AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that the date upon which the information contained in the offering sheet will be out of date, as set forth in Division I, paragraph 8, is not believed to be correct;

(2) In that the figures set forth in Division II, Item 16 (c), for the months of April, October, November and December, 1936, and January, February and March, 1937, are not correctly calculated;

(3) In that from the legal description of the property disclosed by Exhibit B it cannot be ascertained that the interests to be conveyed by mineral deed will be the same as the smallest fractional interests proposed to be offered, as set forth in Division II, Item 1;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 15th day of May, 1937; that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Charles S. Lobingier, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 30th day of April, 1937, at 11:00 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

By the Commission.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 15th day of April, A. D., 1937.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE MARGAY-BEMIS "A" FARM, FILED ON APRIL 12, 1937, BY HUGH MCCLELLAN, RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)), AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that the information disclosed in Division II, Item 16 (a), is not believed to be correct by reason of the fact that from information given in Division II, Items 14 and 15, it appears that the tract involved has produced oil for a period of time in excess of that set forth in Division II, Item 16 (a);

(2) In that the statement made in Division II, Item 14, does not agree with similar information required to be disclosed in Division II, Items 16 (a) and 17 (b);

(3) In that the statement made in Division II, Item 18 (a) (iv), is inconsistent with the information disclosed by Exhibit A;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 15th day of May, 1937; that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Charles S. Lobingier, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 30th day of April, 1937, at 10:30 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

By the Commission.

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 15th day of April, A. D., 1937.

IN THE MATTER OF AN OFFERING SHEET OF AN OVERRIDING ROYALTY INTEREST IN THE EAGLE ROCK-DARLING-ENGSTROM ET AL FARM, FILED ON APRIL 10, 1937, BY SUPREME OIL INC., RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)) AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that the date upon which the information contained in the offering sheet will be out of date, as set forth in Division I, paragraph 7, is not correctly stated;

(2) In that the information required to be given in Division II, Items 7, 8 and 9, of the offering sheet, is omitted by reason of the fact that an attempt has been made by the offeror to incorporate the required information by reference to the report of John P. Ruggles, which report is deficient in the following particulars:

(a) the information required to be given in Division II, Items 7 and 8, is not disclosed in the report;

(b) the information relative to the person making the report is not in the proper form and is not dated;

(c) the geologist's report, as filed, is not complete;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 15th day of May, 1937; that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Charles S. EXAMINATION OF MERCHANDISE—SPECIAL REGULATION

THE EXAMINATION OF LESS THAN ONE PACKAGE OF EVERY TEN PACKAGES OF CERTAIN MERCHANDISE AUTHORIZED

APRIL 13, 1937.

*To Collectors of Customs and Others Concerned:*

From the character and description of the merchandise named or described hereafter in this special regulation, I am of the opinion that the examination of less than one package of every ten packages of such merchandise covered by one invoice will amply protect the revenue, provided that such merchandise is:

(a) Imported in packages, the contents and values of which are uniform, or

(b) Imported in packages, the contents of which are identical as to character, although differing as to quantity and value per package.

Therefore, by virtue of the authority vested in the Secretary of the Treasury, including that conferred by sections 499 and 624 of the Tariff Act of 1930 (U. S. C., title 19, secs. 1499 and 1624), I do by this special regulation permit and authorize, in the case of merchandise hereinafter named or described which is imported under either of the conditions above stated, a less number of packages than one package of every ten packages, but not less than one package of every invoice, to be examined:

Cloth, cotton (woven fabrics of cotton, in the piece, whether figured, fancy, or plain);
Confectionery;
Felt-base floor covering;
Fish, fresh, dried, or in brine,
Fruits, fresh, dried, canned or otherwise prepared or preserved;
Hoods and hat bodies, of wool, black;
Hosiery, cotton (without embroidery or clocking);
Linoleum;
Oilcloth, floor;
Tea (in containers of five pounds or more);
Vegetables, fresh, dried, canned or otherwise prepared or preserved.

This special regulation shall not be construed to preclude the examination of packages in addition to the minimum number hereby permitted to be examined if the collector or the appraiser shall deem it necessary that a greater number of packages be examined.

The number of this Treasury Decision should be noted as a marginal reference for article 307 of the Customs Regulations of 1931.

METHOD OF PAYMENT OF INTERNAL REVENUE TAX ON DISTILLED SPIRITS FOR SHIPMENT IN TANK CARS

*To Collectors of Internal Revenue, District Supervisors, and Others Concerned:*

Pursuant to Section 13 of Title III of the National Prohibition Act (U. S. C., 1934 ed., title 27, section 83) and Section 308 of the Liquor Tax Administration Act (U. S. C., 1934 ed., Supp. II, title 27, section 74b) the following regulations are hereby prescribed:

PAYMENT OF INTERNAL REVENUE TAX ON DISTILLED SPIRITS FOR SHIPMENT IN TANK CARS

1. Effective June 1, the issuance by Collectors of Internal Revenue of Form 1, "Receipt for Payment of Taxes", as evidence of the payment of internal revenue tax on distilled spirits, including alcohol, to be shipped in tank cars, shall be discontinued. Thereafter, Collectors of Internal Revenue will issue Form 1595, "Collector's Certificate of Tax-Payment of Distilled Spirits for Shipment in Tank Cars", certifying payment of the internal revenue tax on distilled spirits, including alcohol, to be shipped in tank cars.

2. The vendor shall obtain the certificate of tax-payment by filing with the Collector of Internal Revenue in the district in which the vendor is located, Form 1594, "Application for Collector's Certificate of Tax-Payment of Distilled Spirits for Shipment in Tank Cars", accompanied by a remittance in the form of cash, certified check, or Post Office Money Order, and a report of the gauge of the contents of the car as prescribed by regulations.

3. Form 1595, "Collector's Certificate of Tax-Payment of Distilled Spirits for Shipment in Tank Cars", is not negotiable and shall not be used on any tank car other than the one described in the certificate of tax-payment.

4. Existing regulations in conflict herewith are amended accordingly.

APPROVAL OF BONDS

*To District Supervisors:*

Pursuant to the authority conferred by Section 305 of the Liquor Tax Administration Act, (U. S. C., 1934 ed., Supp. II, title 26, sec. 1166 (c)) and Section 5 of the "Liquor Enforcement Act of 1936" (U. S. C., 1934 ed., Supp. II, title 27, sec. 225), the following regulations are prescribed:

1. Effective April 1, 1937, District Supervisors are authorized to approve all bonds (a) respecting the operation of bonded wineries, bonded storerooms, and breweries; (b) relating to the exportation of distilled spirits, including alcohol, fermented malt liquors and wines; (c) relating to the removal of distilled spirits, including alcohol, and wines to customs manufacturing warehouses; (d) relating to dealers in, and users of, specially denatured alcohol; (e) relating to the procurement and use of tax free alcohol; (f) relating to the transportation of specially denatured and tax free alcohol; and (g) relating to the withdrawal of distilled spirits free of tax.

2. All other bonds filed by an individual, firm, partnership, corporation, or association intending to commence or to continue the business of a distiller, rectifier, or as proprietor of an internal revenue bonded warehouse, distillery, denaturing bonded warehouse, or industrial alcohol plant, alcohol bonded warehouse and/or denaturing plant, will be approved by the Commissioner of Internal Revenue.

3. The bonds referred to in Paragraph one hereof shall be prepared and executed in triplicate and submitted to the Supervisor of the district in which the business is located; who will approve the bond if the principal has in all respects complied with the law and regulations.

If the bond is approved, the original copy shall be forwarded to the Commissioner, one copy sent to the principal, and the third copy retained by the District Supervisor.

If the bond is disapproved, all copies shall be returned to the principal and the surety or sureties notified of such disapproval. Appeal from such disapproval may be made to the Commissioner of Internal Revenue.

4. The bonds referred to in Paragraph two hereof shall be prepared and executed in triplicate and submitted to the Supervisor of the district in which the business is located; who will indicate on the bond his recommendation for approval or disapproval, as follows: "Recommended for approval"; or, "Recommended for disapproval". If the recommendation is for disapproval, the District Supervisor shall submit with it a statement setting forth his reasons therefor. The three copies of the bond shall be forwarded to the Commissioner with other qualifying documents required by law and regulations.

If the bond is approved, two copies shall be returned to the District Supervisor who shall forward one copy to the principal with authorization to operate, and retain the other copy for his files.

If the bond is disapproved, all copies shall be returned to the District Supervisor who will return them to the principal and notify the surety or sureties of such disapproval.

5. If the surety or sureties are found not to be acceptable by the Commissioner of Accounts and Deposits, the principal shall be required to file a new and satisfactory bond.

6. Regulations heretofore issued insofar as they are inconsistent herewith are hereby revoked.

## MISSISSIPPI STATE PLANT QUARANTINE

### SWEET POTATO WEEVIL

APRIL 7, 1937.

Under plant quarantines and regulations issued by the State of Mississippi on account of the sweet potato weevil, the shipment into that State of certain plants and plant materials known to be hosts of this pest is subject to certain requirements, or entirely prohibited.

The shipment into Mississippi of *sweet potatoes, sweet potato plants, vines, cuttings, draws and slips, morning glory plants or parts thereof* is entirely prohibited from the *States of Florida and Louisiana; the southern part of Mobile County, Alabama; Camden, Decatur and Glynn Counties, Georgia; and all of the State of Texas except the counties of Cass, Bowie, Morris, Camp, Titus, Red River, Franklin, Hopkins, Delta and Lamar.* The articles named may be accepted at points outside such area for shipment into Mississippi only when accompanied with a permit certificate tag obtained by the shipper from the State Plant Board, State College, Mississippi.

Postmasters are, therefore, requested to observe the foregoing prohibitions and restrictions when such plants and plant materials are presented for mailing and also invite the attention of mailers thereto. This is in accordance with the law embodied in paragraph 2, amended section 596, Postal Laws and Regulations.

Postmasters at places in Mississippi where State inspection of plants and plant products is maintained under the Terminal Inspection Act should take the action prescribed by amended paragraph 4 (b), section 596, Postal Laws and Regulations, if parcels sent to such offices for terminal inspection are found to be in violation of these plant quarantine laws or regulations.

## MONTANA STATE PLANT QUARANTINES

### CHERRY FRUIT FLY AND BLACK LOCUST BORER

APRIL 8, 1937.

Under plant quarantines and regulations issued by the State of Montana, on account of the cherry fruit fly and the black locust borer, the shipment into that State of certain plants and plant materials known to be hosts of these pests is subject to certain requirements, or entirely prohibited.

The shipment into Montana of the fresh fruit of the cherry, and boxes or packages which have contained fresh cherries, is entirely prohibited from the following quarantined areas:

| | |
|---|---|
| In Idaho | The counties of Benewah and Latah. |
| In Oregon | The counties of Benton, Clackamas, Clatsop, Columbia, Lane, Lincoln, Linn, Marion, Multnomah, Polk, Tillamook, Union, Washington, and Yamhill. |
| In Washington | The counties of Clallam, Clark, Cowlitz, Grays Harbor, Island, Jefferson, King, Kitsap, Lewis, Mason, Pacific, Pierce, San Juan, Skagit, Skamania, Snohomish, Thurston, Wahkiakum, Whatcom, and Whitman. |

Fresh fruit of the cherry may be accepted in other counties in the States of Idaho, Oregon, and Washington for shipment into Montana only when accompanied with the prescribed certificate of the State of origin.

The shipment into Montana of black locust plants or untreated black locust products is entirely prohibited from the following quarantined areas:

The State of Washington.
All of the United States east of the eastern boundaries of the States of Montana, Idaho, Utah, and Arizona.

Postmasters are, therefore, requested to observe the foregoing prohibitions and restrictions when such plants and plant materials are presented for mailing, and also invite the attention of mailers thereto. This is in accordance with the law embodied in paragraph 2 (b), amended section 596, Postal Laws and Regulations.

Postmasters at places in Montana where State inspection of plants and plant products is maintained under the Terminal Inspection Act should take the action prescribed by amended paragraph 4 (b), section 596, Postal Laws and Regulations, if parcels sent to such offices for terminal inspection are found to be in violation of these plant quarantine laws or regulations.

## WITHDRAWAL FOR PROPOSED COLORADO GRAZING DISTRICT NO. 5 VACATED IN PART

APRIL 5, 1937.

Under authority of Departmental order of November 16, 1936, pursuant to section 1 of the act of June 28, 1934 (48 Stat. 1269), as amended by the act of June 26, 1936 (49 Stat. 1976), notice was published on December 12, 1936, that a hearing would be held at Salida, Colorado, on January 25, 1937, or at any place or time to which said hearing might be adjourned for the purpose of considering the establishment of Grazing District No. 5 to include the following lands:

COLORADO

*Counties of Fremont, Park, and Saguache*

The publication of such notice had the effect, in accordance with the provisions of aforesaid act of withdrawing all public lands within the entire boundaries of the proposed district from all forms of entry and settlement.

With the exception of that part of the following described land in Saguache County located outside of national forests, it has been determined that the public lands within the area proposed for withdrawal are not appropriate for administration in a grazing district under the Taylor Grazing Act:

COLORADO

*New Mexico Principal Meridian*

Tps. 44 to 46 N., inclusive, R. 4 E.;
T. 42 N., R. 5 E.;
Tps. 44 to 46 N., inclusive, R. 5 E.;

RULES AND REGULATIONS

*Item No. 180—Advancing of Charges*

No advance charges will be paid, except such as are incidental to the transportation of freight (including drayage, wharfage or switching charges), and then only on such freight as in the estimate of the Agent is worth in excess of the freight charges at forced sale. The cost or any part thereof of the articles shipped must not in any case be advanced.

*Item No. 185—Conditions of Bill of Lading*

All property to be transported shall, unless otherwise agreed to in writing, be received, held, carried and delivered, subject to the conditions of the carrier's regular current bill of lading. All freight and other charges payable in United States gold coin or its equivalent.

*Item No. 190—Freight Must Be in Suitable Packages for Shipment*

All freight for shipment must be packed in shape for safe and expeditious handling. When tariff does not specify kind of package, it is understood that bags, barrels, boxes, crates or other suitable packages will be used; and when freight is offered in bulk or in such packages as would endanger contents or other cargo or steamer when handled with ordinary care, it shall be optional with the carrier to refuse to transport it or to accept it with notation on shipping receipt or bill of lading fully releasing the carriers from liability for any and all damage that may occur.

The carrier shall have the right to refuse to carry any freight offered for shipment which is likely to damage other freight or steamer or prove offensive to passengers.

*Item No. 195—Heavy Freight*

Heavy single pieces or packages of machinery, or other commodities weighing over 4,000 lbs. each, will take the Class and Commodity rates shown herein on the total weight plus the following additional rates per ton of 2,000 lbs., to cover extra cost of handling heavy pieces by steamer.

| Pieces or packages weighing | Per ton of 2,000 lbs. |
|---|---|
| Over 4,000 lbs., and not over 10,000 lbs. | $2.00 |
| Over 10,000 lbs., and not over 12,000 lbs. | 2.50 |
| Over 12,000 lbs., and not over 14,000 lbs. | 3.00 |
| Over 14,000 lbs., and not over 16,000 lbs. | 3.50 |
| Over 16,000 lbs., and not over 18,000 lbs. | 4.00 |
| Over 18,000 lbs., and not over 20,000 lbs. | 4.50 |
| Over 20,000 lbs., and not over 22,000 lbs. | 5.00 |
| Over 22,000 lbs., and not over 24,000 lbs. | 6.00 |
| Over 24,000 lbs., and not over 26,000 lbs. | 7.00 |
| Over 26,000 lbs., and not over 28,000 lbs. | 8.00 |
| Over 28,000 lbs., and not over 30,000 lbs. | 9.00 |
| Over 30,000 lbs., and not over 32,000 lbs. | 10.00 |
| Over 32,000 lbs., and not over 34,000 lbs. | 11.00 |
| Over 34,000 lbs., and not over 36,000 lbs. | 12.00 |
| Over 36,000 lbs., and not over 38,000 lbs. | 13.00 |
| Over 38,000 lbs., and not over 40,000 lbs. | 14.00 |

*Item No. 200—Marine Insurance*

Rates named herein do not include marine insurance. All risk of loss and damage incident to transportation of freight by water must be assumed by shippers, owners or consignee, who may protect themselves against such loss by covering their shipments with marine insurance.

*Item No. 205—Marking Freight*

In handling freight by steamer the men loading and discharging freight must be guided wholly by marks on packages. It is therefore of the utmost importance that every package or piece of freight be plainly marked with the full name or initials of consignee and destination in full. In accordance with the provisions of the carrier's bill of lading, the carrier will not be liable for miscarriage of goods that are not properly marked. All old marks must be obliterated.

*Item No. 210—Minimum Charge*

Except as otherwise provided, the minimum charge for a single shipment from one consignor to one consignee on one bill of lading shall be:

(a) If classified 1st class or lower, for one hundred (100) pounds at the class or commodity rate applicable thereto; or

(b) If classified higher than 1st class, for one hundred (100) pounds at the 1st class rate; or

(c) If the shipment contains articles in two or more classes, and no article is classified higher than 1st class for one hundred (100) pounds at the rate applicable to the article taking the highest rate; or if any one of the articles is classified higher than 1st class, the minimum charge shall be for one hundred (100) pounds at the 1st class rate; but

(d) In no case shall the charge on a single shipment be less than two ($2.00) dollars.

*Item No. 215—Maximum Charge*

In no case must the charges on a smaller quantity of freight at a higher rate exceed the charges on a minimum larger quantity at the lower rate.

*Item No. 220—Mixed Carloads of Lumber, Lath and Shingles*

Lumber, common, Lath, wooden, and Shingles, wooden, may be shipped in mixed carloads at the respective Class or Commodity Rates named herein on each, subject to minimum weight of 40,000 lbs.

*Item No. 225—Order Shipments*

When shipments are forwarded consigned to shipper's order or "to order", "notify ------" the name of the person to be notified must appear on the shipping receipt and bill of lading.

Agents and Pursers should see that this rule is carried out and full reference given on manifests or waybills to enable destination agent to advise consignees promptly on arrival of freight and to prevent delays, as all such shipments held account of delays of this character will be subject to storage charges.

Bills of lading for goods consigned "to order" will not be issued to Non-agency stations.

*Item No. 230—Outside Calls*

At Steamship Company's option its steamers will call at wharves other than its regular Seattle and Tacoma wharves (Alaska Steamship Company, Pier 2, Seattle, Wash., or Commercial Dock, Tacoma, Wash.), to there receive and/or deliver freight when the quantity is not less than 100 tons, or 100,000 feet board measure of lumber. The Steamship Company also reserves the right to call at wharves other than its said regular Seattle, Wash., and Tacoma, Wash., wharves to receive or deliver shipments of less than 100 tons of explosives or explosive oils and empty containers in which explosive oils have been shipped, when it is more convenient to the Steamship Company to make such calls than to receive or deliver such shipments over its said regular Seattle, Wash., or Tacoma, Wash., wharves. In any case freight received or delivered at wharves other than the Company's said regular Seattle, Wash., or Tacoma, Wash., wharves will be received or delivered only at ship's tackle, all expenses of moving freight on the wharf to or from ship's tackle to be borne by the shipment or the wharf at which such call is made.

*Item No. 235—Prepayment of Freight Charges*

Household goods, personal effects, samples of ore, perishable freight and other goods of doubtful valuation must be fully prepaid or guaranteed.

*Item No. 240—Perishable Freight*

Shipments of fruit, vegetables, eggs, canned goods, liquids, bulbs, nursery stock and all other commodities subject to deterioration by variation of weather, heat or cold, loss or damage resulting from inherent nature of the goods will only be accepted subject to owner's risk.

On shipments of green fruit and vegetables subject to decrease in weight by evaporation, Agents at destination will collect charges on basis of weight ascertained at point of shipment.

*Item No. 245—Perishable Freight "To Order"*

Perishable freight will not be accepted when consigned "to order."

[1] The rules and regulations, only, of the material listed, are printed herewith. The complete document has been filed with the Division of the Federal Register, The National Archives; copies are available upon application to the Division of Territories and Island Possessions, Department of the Interior.

*Item No. 250—Rail and River Traffic*

Shipments will be accepted by carriers, parties to this tariff during the period of each year:

| From— | To— | For Transportation on the Vessels of the |
|---|---|---|
| April 15 | August 25 | Alaska Railroad. |
| April 15 | August 25 | American Yukon Navigation Company. |

Shipments also will be accepted from the latter date until the date announced by supplements to this tariff, subject to the condition that all freight left on hand at the port of trans-shipment after the closing of navigation for lack of space on vessels sailing after the arrival of such freight, and all freight reaching the port of trans-shipment after the last sailing of each season of navigation, will be stored at the port of trans-shipment and storage charges assessed on such shipments as provided in Tariffs of The Alaska Railroad, lawfully on file with the Interstate Commerce Commission. In such cases shipping receipts, bills of lading and way-bills must bear notation to that effect.

Supplements announcing the final date upon which shipments will be accepted for transportation, under this tariff and effective supplements thereto, will be filed with the Interstate Commerce Commission and posted at points from which the rates apply not less than one day in advance of such date.

NOTE.—In applying the provisions of the preceding paragraph, the date on which final instructions for transportation via the water line are received will be considered the date of acceptance of the shipment.

The rate to be applied will be the rate in effect on the date shipments are received for transportation at points of origin.

Departure from the terms of Rule 12 (b) of Tariff Circular No. 20 is authorized under special permission of the Interstate Commerce Commission No. 104484 of March 24, 1931.

*Item No. 255—Refrigeration, Heater Car Service*

Rates named herein, except as otherwise provided, do not include cold storage or cool room service on steamers of the Alaska Steamship Company. When shippers desire shipments to be handled under refrigeration on this line, arrangements must be made through the Traffic Department of the Steamship Company at Seattle, Wash.

The charge for refrigeration or cool room service on steamers between Seattle, Wash., and Seward, Alaska, will be as follows, in addition to the class or commodity rate provided herein:

$1.00 per 100 lbs., Minimum Charge $1.00

Rates named herein, except as otherwise provided, do not include charge for additional service such as heating, icing, protection of property from frost or freezing, refrigeration, nor any factors entering into the refrigeration service (including the transportation of ice), between Seward, Alaska, and points in Alaska. See EXCEPTION:

Shipments transported under this tariff between Seward, Alaska, and points in Alaska are entitled to such privileges and subject to such charges as are published by The Alaska Railroad, providing for refrigeration or heater car service, lawfully on file with the Interstate Commerce Commission.

Perishable freight from or to points on the Tanana and Yukon rivers in Alaska served by steamer lines of The Alaska Railroad and American Yukon Navigation Company, Index Nos. 152 to 212 inclusive, requiring protection against heat or cold will only be accepted at owner's risk of freezing or other climatic conditions account no facilities available for protection while on such steamer lines.

EXCEPTION.—The less than carload or any quantity ratings set forth in the Western Classification named on Title Page or as provided herein will be applied on shipments transported on rail lines of The Alaska Railroad under refrigeration, in refrigerator cars, lined cars, heated cars, or cars otherwise specifically equipped for protection against heat or cold, as well as on shipments transported in ordinary cars.

*Item No. 260—Service Guarantee of Time*

The carriers, party to this tariff, do not agree to transport freight by any particular steamer or train or within any specified time, and the rates named herein are applicable only when the carriers have a suitable steamer sailing to or from the ports via which rates are named. If at any time, after having made reasonable effort, a steamer is unable to make delivery of a shipment owing to bad weather conditions or for any reason due to perils of the sea, the obligations imposed upon the carriers by the terms of this Tariff shall be considered fulfilled and delivery accomplished and the charges due at rates named herein shall be considered earned, after which the Carrier shall have the privilege of delivering shipment at the nearest accessible port; or returning goods to port of shipment; or making delivery on a subsequent voyage and collecting at tariff rates for such additional service.

*Item No. 265—Terminal and Other Charges, Privileges and Allowances*

Rates named herein do not include charges for storage, wharfage, handling (trucking between wharf and ship's tackle) transfer, loading to or unloading from cars, lighterage or other terminal charges except as specified below.

Rates named herein include wharfage, handling and loading to or unloading from cars at Seward, Alaska.

Rates named herein include wharfage, handling and loading to or unloading from cars at Nenana, Alaska on traffic from or to stations Index Nos. 152 to 212 inclusive.

Rates named herein include handling at stations on the Tanana and Yukon rivers in Alaska, stations Index Nos. 152 to 164 inclusive and stations Index Nos. 178 to 212 inclusive.

Rates named herein to and from Rampart, Alaska, Index No. 166 to Eagle, Alaska, Index No. 176 inclusive, do not include handling charges at points on Yukon River on line of American Yukon Navigation Company. Shipments to and from above points are subject to handling charges named in American Yukon Navigation Company's Tariff G. F. O. 435, I. C. C. No. 23 and successive issues thereof.

Except as otherwise provided herein, shipments transported under this Tariff are entitled to such privileges and subject to such charges as are published by individual lines, parties to this Tariff providing for Allowances, Arbitraries, Car Mileage, Demurrage, Diversions, Re-consignment, Rental of Special Equipment, Storage, Switching, Transfer, and other Transit and Terminal Service, lawfully on file with the Interstate Commerce Commission.

*Item No. 270—Transportation of Explosives*

Powder (except common black powder carried in steamer's magazine), dynamite and high explosives and explosive oils, including Benzine, Benzole, Camphene, Distillate, Gasoline, Naptha and Turpentine and empty carriers in which explosive oils have been shipped, can be carried only by exclusive freight steamers. Nitro-glycerine not taken under any circumstances.

The rates named herein on explosives, inflammables and other dangerous articles are applicable in connection and compliance with the regulations prescribed by the Interstate Commerce Commission for the transportation of explosives, as published in Agent W. S. Topping's Tariff No. 2, I. C. C. No. 2, supplements thereto or successive issues thereof.

*Item No. 275—U. S. Steamboat Inspection Service—Prohibited Commodities*

The transportation of freight by steamer is at all times subject to the rules and regulations prescribed by the United States Department of Commerce, Steamboat Inspection Service. Commodities, the carriage of which by passenger steamers is prohibited by law, and freight too bulky or too heavy to be handled advantageously by passenger steamers, will not be accepted for transportation except for forwarding by exclusive freight steamers at such times as freight steamers capable of handling such shipments may be sailing to the port of destination of such shipments.

*Item No. 280—United States Customs Regulations*

Shipper's Export Declaration in duplicate, in the form required by the United States Department of Customs, must be furnished by shipper with each shipment from a point in the United States to a point in Alaska, and vice versa. Shipments will not be accepted unless all necessary papers are furnished.

*Item No. 285—Valuables*

Bullion, Gold Dust, Jewelry, Jeweler's Sweepings and Tailings, Silver Foil or Leaf, Gold Leaf, Specie, Silverware, Treasure, Precious Stones, Raw Furs, Live Foxes and Valuable Documents must not be carried as freight, but should be shipped by express.

*Item No. 290—Western Classification Rules—Application of—*

The "Rules" published in current Western Classification also govern the application of rates named in this tariff, except as otherwise provided below or in individual items or rules of this tariff.

Exceptions to application of Western Classification rules.

The following rules of the current Western Classification will not apply in connection with this tariff:

Rule No. 10 Mixed carloads.
Rule No. 24 Freight in excess of full carloads.
Rule No. 34 Minimum carload weights.

*Item No. 295—Western Classification—Reference to Specific Items of*

Numerical reference to specific Items or Rules of Western Classification named on Title Page will refer to corresponding Items or Rules under whatever number they may appear, in a supplement to or successive issues of that classification.

*Item No. 300—Western Classification—Application of When Not in Conflict With the Provisions of This Tariff*

The ratings, rules and regulations, estimated and minimum weights, shipping and packing requirements, allowances and privileges, or other provisions or conditions, shown in this Tariff, abrogate and supersede those in Western Classification named on Title Page in conflict.

When the ratings in this Tariff are silent as to rules and regulations, estimated and minimum weights, shipping and packing requirements, allowances and privileges or other provisions or conditions, the ratings which are prescribed in such commodity items shall be subject to the terms, (including estimated and minimum weights, shipping and packing requirements, or other provisions or conditions) prescribed therefor in connection with the ratings in Western Classification referred to above on the same commodity.

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340(A)) AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

In that the information required to be given in Division II, Item 16 (a) (iii), is not properly set forth, nor is the amount of water stated as being produced in the note accompanying this item believed to be correct;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 17th day of May, 1937; that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Charles S. Lobingier, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 30th day of April, 1937, at 11:30 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)) AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that the date upon which the information contained in the offering sheet will be out of date, as set forth in Division I, Paragraph 8, of the offering sheet, is not believed to be correct;

(2) In that the address of one of the operators, required to be given in Division II, Item 2 (d), is omitted;

(3) In that the total production of oil from the tract, as set forth in Division II, Item 15, may not be correct by reason of the fact that the total production figures given do not agree with the total gross production figures stated by months in Division II, Item 16 (a);

(4) In that by reason of the conflicting dates given in Division II, Item 15, it is impossible to determine to which date the total production of oil is computed;

(5) In that the figures set forth for the month of August, 1936, in Division II, Items 16 (c) and (d), may not be correctly figured;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 17th day of May, 1937; that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

NCR-B-1-L

1936 AGRICULTURAL CONSERVATION PROGRAM—NORTH CENTRAL REGION

BULLETIN NO. 1-L

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, North Central Region Bulletin No. 1, Revised, as amended, is hereby amended as follows:

1. Part V, Section 4, is hereby amended to read as follows:

SECTION 4. *Total Amount of Soil-Conserving Payments for Diversion from Crops in the General Soil-Depleting Base Where a Person Owns or Operates More Than One Farm in a County and Makes an Aplication for Payment With Respect to One or More of Such Farms.*

A. If a person owns or operates more than one farm in a county, none of which farms are cotton farms or sharecropper farms, and makes an application for payment with respect to one or more of such farms, the total amount of the soil-conserving payment to such person for diversion from crops in the general soil-depleting base shall, subject to the provisions of Sections 5, 6, 7, 8, 9, and 10 of Part V, be computed as follows:

(1) For each farm owned or operated in the county with respect to which such person makes an application for payment, multiply the computed 1935 general acreage by the rate determined for such farm pursuant to the provisions of Section 2 (a) of Part II and multiply this result by the percentage to which such person is entitled, such percentage to be determined in accordance with Section 3 of Part V.

(2) Add the amounts obtained under item (1) of this paragraph A.

(3) For each farm owned or operated in the county with respect to which such person makes an application for payment, multiply the general soil-depleting base by the rate determined for such farm pursuant to the provisions of Section 2 (a) of Part II and multiply this result by the percentage to which such person is entitled, such percentage to be determined in accordance with Section 3 of Part V.

(4) Add the amounts obtained under item (3) of this paragraph A.

(5) For each farm owned or operated in the county with respect to which such person makes an application for payment, multiply the 1936 general acreage by the rate determined for such farm pursuant to the provisions of Section 2 (a) of Part II and multiply this result by the percentage to which such person is entitled, such percentage to be determined in accordance with Section 3 of Part V.

(6) Add the amounts obtained under item (5) of this paragraph A.

(7) For each farm owned or operated in the county with respect to which such person makes an application for payment, multiply the general soil-depleting base by 85 percent; multiply this result by the rate determined for such farm pursuant to the provisions of Section 2 (a) of Part II, and multiply this result by the percentage to which such person is entitled, such percentage to be determined in accordance with Section 3 of Part V.

(8) Add the amounts obtained under item (7) of this paragraph A.

(9) Ascertain which of the amounts obtained under items (2) and (4) of this paragraph A is the larger.

(10) For each farm owned or operated in the county with respect to which such person makes an application for payment, multiply the maximum general soil-conserving payment by the percentage to which such person is entitled, such percentage to be determined in accordance with Section 3 of Part V.

(11) Add the amounts obtained under item (10) of this paragraph A.

(12) If the amount obtained under item (6) of this paragraph A is less than the amount obtained under item (9) of this paragraph A, subtract the amount obtained under item (6) from the amount obtained under item (9). If the amount obtained under item (6) of this paragraph A is not less than the amount obtained under item (9) of this paragraph A, the calculations outlined in items (13) to (16), inclusive, of this paragraph A need not be made since a deduction must be calculated as hereinafter outlined.

(13) Subtract the amount obtained under item (8) of this paragraph A from the amount obtained under item (9) of this paragraph A.

(14) Multiply the amount obtained under item (12) of this paragraph A by the amount obtained under item (11) of this paragraph A.

(15) Divide the amount obtained under item (14) of this paragraph A by the amount obtained under item (13) of this paragraph A.

(16) Whichever of the amounts obtained under items (15) and (11) of this paragraph A is the smaller shall, subject to the provisions of the first paragraph of this paragraph A, be the amount of the soil-conserving payment for diversion from crops in the general soil-depleting base to such person.

If the amount obtained under item (6) of this paragraph A is greater than the amount obtained under item (9) of this paragraph A, a deduction will be made from any payments which would otherwise be made to such person for performance on farms owned or operated in the county with respect to which he makes an application for payment. The amount of such deduction shall be equal to the result obtained by subtracting the result ascertained under item (9) of this paragraph A from the result ascertained under item (6) of this paragraph A.

B. If a person owns or operates more than one farm in a county, one or more of which farms are cotton farms or sharecropper farms, and makes an application for payment with respect to one or more of such farms, the total amount of the soil-conserving payment to such person for diversion from crops in the general soil-depleting base shall be computed as outlined in paragraph A of this Section 4, except that for any cotton farm or sharecropper farm on which the 1936 general acreage is greater than the larger of the soil-depleting base or the computed 1935 general acreage, the percentage to be used in items (1), (3), (5), (7), and (10) of paragraph A of this Section 4 shall be the ratio determined by dividing the sum of the adjusted Class I payment and the Class II payment for such person for such farm by the sum of the adjusted Class I payment and the Class II payment for such farm. If the sum of the adjusted Class I payment and the Class II payment for such farm is zero, the percentage to be used in items (1), (3), (5), (7), and (10) of paragraph A of this Section 4 shall be such person's percentage of the principal soil-depleting crop on the farm.

2. Part V, Section 5, is hereby amended to read as follows:

SECTION 5. *Total Amount of Cotton and Tobacco Soil-Conserving Payments and Payments with Respect to Sugar Beets and Flax Where a Person Owns or Operates More than One Farm in a County and Makes an Application for Payment with Respect to One or More of Such Farms.*

A. If a person owns or operates more than one farm in a county, none of which farms are cotton farms or sharecropper farms, and makes an application for payment with respect to one or more of such farms, the total amount of the cotton and tobacco soil-conserving payments and payments made with respect to sugar beets and flax to such person shall, subject to the provisions of Sections 4, 7, 8, 9, and 10 of Part V, be computed as follows:

(1) For each farm owned or operated in the county with respect to which such person makes an application for payment: (a) Multiply the number of acres diverted from the cotton soil-depleting base by the rate determined for such farm pursuant to the provisions of Section 2 (b) of Part II and multiply this result by the percentage to which such person is entitled, such percentage to be determined in accordance with Section 3 of Part V; (b) Multiply the number of acres diverted from the soil-depleting base for each kind of tobacco pursuant to the provisions of Section 2 (c) of Part II and multiply this result by the percentage to which such person is entitled, such percentage to be determined in accordance with Section 3 of Part V; (c) Multiply the acreage allotment for sugar beets by the rate per acre determined for such farm pursuant to the provisions

of Section 3 of Part II and multiply this result by the percentage to which such person is entitled, such percentage to be determined in accordance with Section 3 of Part V; (d) Multiply the acreage allotment for flax by the rate per acre determined for such farm pursuant to the provisions of Section 4 of Part II and multiply this result by the percentage to which such person is entitled, such percentage to be determined in accordance with Section 3 of Part V.

(2) For each farm owned or operated in the county with respect to which such person makes an application for payment and on which there has been: (a) An increase in the acreage of cotton over the cotton soil-depleting base, multiply such number of excess acres by the rate determined for such farm pursuant to the provisions of Section 2 (b) of Part II and multiply this result by the percentage to which such person is entitled, such percentage to be determined in accordance with Section 3 of Part V; (b) An increase in the acreage of any kind of tobacco over the soil-depleting base for such kind of tobacco, multiply such number of excess acres by the rate determined for such farm for such kind of tobacco pursuant to the provisions of Section 2 (c) of Part II and multiply this result by the percentage to which such person is entitled, such percentage to be determined in accordance with Section 3 of Part V; (c) An increase in the acreage of sugar beets over the sugar beet soil-depleting base, multiply such number of excess acres by the rate determined for such farm pursuant to the provisions of Section 2 (a) of Part II and multiply this result by the percentage to which such person is entitled, such percentage to be determined in accordance with Section 3 of Part V; (d) An increase in the acreage of flax over the flax soil-depleting base, multiply such number of excess acres by the rate determined for such farm pursuant to the provisions of Section 2 (a) of Part II and multiply this result by the percentage to which such person is entitled, such percentage to be determined in accordance with Section 3 of Part V.

(3) The sum of the amounts obtained under item (2) of this paragraph A for farms with respect to which such person makes an application for payment shall be subtracted from the sum of the amounts obtained under item (1) of this paragraph A for such farms. If the sum obtained under item (2) is greater than the sum obtained under item (1), the amount by which the sum obtained under item (2) exceeds the sum obtained under item (1) shall be deducted from any payments which otherwise would be made to such person for performance on farms owned or operated in the county by such person in 1936 with respect to which he makes an application for payment: Provided, That—

(a) The total amount of the soil-conserving payment to such person for diversion from cotton and tobacco soil-depleting bases, respectively, shall not exceed the sum of his shares (determined in accordance with the provisions of Section 3 of Part V) of the maximum cotton soil-conserving payment and of the maximum tobacco soil-conserving payment, respectively, for each farm in the county with respect to which such person makes an application for payment.

(b) The total amount of the payments to such person with respect to sugar beets and flax, respectively, shall not exceed the sum of his shares (determined in accordance with the provisions of Section 3 of Part V) of the maximum payments with respect to sugar beets and flax, respectively, as specified in Sections 3 and 4, respectively, of Part II, for each farm in the county with respect to which such person makes an application for payment.

B. If a person owns or operates more than one farm in a county, one or more of which farms are cotton farms or sharecropper farms, and makes an application for payment with respect to one or more of such farms, the total amount of the cotton and tobacco soil-conserving payments and payments made with respect to sugar beets and flax to such person shall be computed as outlined in paragraph A of this Section 5, except that—

(1) For a cotton farm or sharecropper farm on which the 1936 acreage of cotton is greater than the cotton soil-depleting base, the percentage to be used in item (2) (a) of paragraph A of this Section 5 shall be the ratio obtained by dividing the sum of the adjusted Class I payment and the Class II payment for such person for such farm by the sum of the adjusted Class I payment and the Class II payment for such farm; if the sum of the adjusted Class I payment and the Class II payment for such farm is zero, the percentage to be used in item (2) (a) of paragraph A of this Section 5 shall be such person's percentage of the principal soil-depleting crop on such farm, and

(2) For a cotton farm or sharecropper farm on which the 1936 acreage of any kind of tobacco is greater than the soil-depleting base for such kind of tobacco, the percentage to be used in item (2) (b) of paragraph A of this Section 5 shall be the ratio obtained by dividing the sum of the adjusted Class I payment and the Class II payment for such person for such farm by the sum of the adjusted Class I payment and the Class II payment for such farm; if the sum of the adjusted Class I payment and the Class II payment for such farm is zero, the percentage to be used in item (2) (b) of paragraph A of this Section 5 shall be such person's percentage of the principal soil-depleting crop on such farm, and

(3) For a cotton farm or sharecropper farm on which the 1936 acreage of sugar beets is greater than the sugar beet soil-depleting base, the percentage to be used in item (2) (c) of paragraph A of this Section 5 shall be the ratio obtained by dividing the sum of the adjusted Class I payment and the Class II payment for such person for such farm by the sum of the adjusted Class I payment and the Class II payment for such farm; if the sum of the adjusted Class I payment and the Class II payment for such farm is zero, the percentage to be used in item (2) (c) of paragraph A of this Section 5 shall be such person's percentage of the principal soil-depleting crop on such farm, and

(4) For any cotton farm or sharecropper farm on which the 1936 acreage of flax is greater than the flax soil-depleting base, the percentage to be used in item (2) (d) of paragraph A of this Section 5 shall be the ratio obtained by dividing the sum of the adjusted Class I payment and the Class II payment for such person for such farm by the sum of the adjusted Class I payment and the Class II payment for such farm; if the sum of the adjusted Class I payment and the Class II payment for such farm is zero, the percentage to be used in item (2) (d) of paragraph A of this Section 5 shall be such person's percentage of the principal soil-depleting crop on such farm.

3. Part V, Section 9, is hereby amended to read as follows:

SECTION 9. *Deduction for Increase of 1936 General Acreage on Farms in a County with Respect to Which no Application for Payment is Made by a Person Who Owns or Operates More Than One Farm in Such County.*

A. If a person owns or operates more than one farm in a county, none of which farms are cotton farms or sharecropper farms, and does not make an application for payment with respect to all such farms and if as a result of:

(1) Multiplying for each farm with respect to which no application for payment is made by such person the computed 1935 general acreage by the rate determined for such farm pursuant to the provisions of Section 2 (a) of Part II and multiplying this result by the percentage to which such person would be entitled, such percentage to be determined in accordance with Section 3 of Part V;

(2) Adding the amounts obtained under item (1) of this paragraph A;

(3) Multiplying for each farm with respect to which no application for payment is made by such person the general soil-depleting base by the rate determined for such farm pursuant to the provisions of Section 2 (a) of Part II and multiplying this result by the percentage to which such person would be entitled, such percentage to be determined in accordance with Section 3 of Part V;

(4) Adding the amounts obtained under item (3) of this paragraph A;

(5) Multiplying for each farm with respect to which no application for payment is made by such person the 1936 general acreage by the rate determined for such farm pursuant to the provisions of Section 2 (a) of Part II and multiplying this result by the percentage to which such person would be entitled, such percentage to be determined in accordance with Section 3 of Part V;

(6) Adding the amounts obtained under item (5) of this paragraph A;

(7) Ascertaining which of the amounts obtained under items (2) and (4) of paragraph A is the larger:

the amount obtained under item (6) of this paragraph A is greater than the amount obtained under item (7) of this paragraph A, a deduction will be made from any payments which would otherwise be made to such person for performance on farms owned or operated by him in the county in 1936 with respect to which he makes an application for payment. The amount of any such deduction shall be equal to the result obtained by subtracting the result obtained under item (7) of this paragraph A, from the amount obtained under item (6) of this paragraph A.

B. If a person owns or operates more than one farm in a county, one or more of which farms are cotton farms or sharecropper farms, and does not make an application for payment with respect to all of such farms, the amount of any deduction for increase of 1936 general acreage shall be computed as outlined in paragraph A of this Section 9, except that for any cotton farm or sharecropper farm on which the 1936 general acreage is greater than the larger of the computed 1935 general acreage and the general soil-depleting base, the percentage to be used in items (1), (3), and (5) of paragraph A of this Section 9 shall be the ratio determined by dividing the sum of the adjusted Class I payment and the Class II payment for such person for such farm, by the sum of the adjusted Class I payment and the Class II payment for such farm; if the sum of the adjusted Class I payment and the Class II payment for such farm is zero, the percentage to be used in items (1), (3), and (5) of paragraph A of this Section 9 shall be such person's percentage of the principal soil-depleting crop on such farm.

4. Part V, Section 10, is hereby amended to read as follows:

SECTION 10. *Deduction for Increase of Cotton, Tobacco, Sugar Beets, and Flax Over the Cotton, Tobacco, Sugar Beet, and Flax Soil-Depleting Bases, Respectively, Where a Person Owns or Operates More Than One Farm in a County and Does Not Make an Application for Payment with Respect to All Such Farms.*

A. If a person owns or operates more than one farm in a county, none of which farms are cotton farms or sharecropper farms, and does not make an application for payment with respect to all such farms, and if the amount obtained by:

(A–1) Multiplying for each farm with respect to which no application for a payment is made by such person the number of acres by which the 1936 acreage of cotton exceeds the cotton soil-depleting base for such farm by the rate determined for such farm pursuant to the provisions of Section 2 (b) of Part II and multiplying this result by the percentage to which such person would be entitled, such percentage to be determined in accordance with Section 3 of Part V;

(A–2) Multiplying for each farm with respect to which no application for payment is made by such person the number of acres by which the 1936 acreage of any kind of tobacco exceeds the soil-depleting base for such kind of tobacco for such farm by the rate determined for such farm for such kind of tobacco pursuant to the provisions of section 2 (c) of Part II and multiplying this result by the percentage to which such person would be entitled, such percentage to be determined in accordance with Section 3 of Part V;

(A–3) Multiplying for each farm with respect to which no application for payment is made by such person the number of acres by which the 1936 acreage of sugar beets exceeds the sugar beet soil-depleting base by the rate determined for such farm pursuant to the provisions of Section 2 (a) of Part II and multiplying this result by the percentage to which such person would be entitled, such percentage to be determined in accordance with Section 3 of Part V;

(A–4) Multiplying for each farm with respect to which no application for payment is made by such person the number of acres by which the 1936 acreage of flax exceeds the flax soil-depleting base by the rate determined for such farm pursuant to the provisions of Section 2 (a) of Part II and multiplying this result by the percentage to which such person would be entitled, such percentage to be determined in accordance with Section 3 of Part V;

(A–5) Adding the amounts obtained under subsections (A–1), (A–2), (A–3), and (A–4) of this paragraph A for all such farms;

is greater than the amount obtained by:

(B–1) Multiplying for each farm with respect to which no application for payment is made by such person the number of acres diverted from the cotton soil-depleting base by the rate determined for such farm pursuant to the provisions of Section 2 (b) and multiplying this result by the percentage to which such person would be entitled, such percentage to be determined in accordance with Section 3 of Part V;

(B–2) Multiplying for each farm with respect to which no application for payment is made by such person the number of acres diverted from the soil-depleting base for each kind of tobacco by the rate determined for such farm for such kind of tobacco pursuant to the provisions of Section 2 (c) and multiplying this result by the percentage to which such person would be entitled, such percentage to be determined in accordance with Section 3 of Part V;

(B–3) Adding the amounts obtained in subsections (B–1) and (B–2) of this paragraph A for all such farms;

there shall be deducted from any payments which would otherwise be made to such person for performance on farms owned or operated by him in the county in 1936 with respect to which he makes an application for payment the amount obtained by subtracting from the amount obtained under subsection (A–5) of this paragraph A the amount obtained under subsection (B–3) of this paragraph A.

B. If a person owns or operates more than one farm in a county, one or more of which farms are cotton farms or sharecropper farms, and does not make an application for payment with respect to all such farms, the amount of any deduction for increase in the acreage of cotton, tobacco, sugar beets, or flax over the cotton, tobacco, sugar beet, or flax soil-depleting base, respectively, shall be computed as outlined in paragraph A of this Section 10, except that

(1) For any cotton farm or sharecropper farm on which the 1936 acreage of cotton exceeds the cotton soil-depleting base and in connection with which no application for payment is made, the percentage to be used in subsection (A–1) of paragraph A of this Section 10 shall be obtained by dividing the sum of the adjusted Class I payment and the Class II payment for such person for such farm by the sum of the adjusted Class I payment and the Class II payment for such farm; if the sum of the adjusted Class I payment and the Class II payment for such farm is zero the percentage to be used in subsection (A–1) of paragraph A of this Section 10 shall be such person's percentage of the principal soil-depleting crop on such farm, and

(2) For any cotton farm or sharecropper farm on which the 1936 acreage of any kind of tobacco exceeds the soil-depleting base for such kind of tobacco and in connection with which no application for payment is made the percentage to be used in subsection (A–2) of paragraph A of this Section 10 shall be obtained by dividing the sum of the adjusted Class I payment and the Class II payment for such person for such farm by the sum of the adjusted Class I payment and the Class II payment for such farm; if the sum of the adjusted Class I payment and the Class II payment for such farm is zero the percentage to be used in subsection (A–2) of paragraph A of this Section 10 shall be such person's percentage of the principal soil-depleting crop on such farm, and

(3) For any cotton farm or sharecropper farm on which the 1936 acreage of sugar beets exceeds the sugar beet soil-depleting base and in connection with which no application for payment is made the percentage to be used in subsection (A–3) of paragraph A of this Section 10 shall be obtained by dividing the sum of the adjusted Class I payment and the Class II payment for such person for such farm by the sum of the adjusted Class I payment and the Class II payment for such farm; if the sum of the adjusted Class I payment and the Class II payment for such farm is zero the percentage to be used in subsection (A–3) of paragraph A of this Section 10 shall be such person's percentage of the principal soil-depleting crop on such farm, and

(4) For any cotton farm or sharecropper farm on which the 1936 acreage of flax exceeds the flax soil-depleting base and in connection with which no application for payment is made the percentage to be used in subsection (A–4) of paragraph A of this Section 10 shall be obtained by dividing the sum of the adjusted Class I payment and the Class II payment for such person for such farm by the sum of the adjusted Class I payment and the Class II payment for such farm; if the sum of the adjusted Class I payment and the Class II payment for such farm is zero the percentage to be used in subsection (A–4) of paragraph A of this Section 10 shall be such person's percentage of the principal soil-depleting crop on such farm.

The provisions of this NCR—B–1–L shall be effective as of October 19, 1937, so as to be included within the conditions mentioned in the *"Order With Respect To Payments Under The 1936 Agricultural Conservation Program—North Central Region"*, issued October 7, 1936, as amended.

In testimony whereof, H. A. Wallace, Secreary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 16th day of April, 1937.

## 1937 AGRICULTURAL CONSERVATION PROGRAM—NORTH CENTRAL REGION

### BULLETIN NO. 101—TAMA COUNTY, IOWA

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, payments will be made, in connection with the effectuation of the purposes of Section 7 (a) of said Act for 1937, in Tama County, Iowa, in accordance with the following provisions of this North Central Region Tama County Bulletin No. 101, and such modifications thereof and such other provisions as may hereafter be made.

The 1937 Agricultural Conservation Program has been developed in accordance with the provisions of Sections 8, 15, and 16 of the Soil Conservation and Domestic Allotment Act, but the payment of any benefits pursuant to the provisions of this bulletin is contingent upon whatever appropriation the Congress of the United States may hereafter make for such purpose and the amounts of such payments will be finally determined by such appropriation and the extent of participation in the program. The rates of payment and the soil-building allowances set forth herein are computed upon the basis of an appropriation of $500,000,000 for the entire United States.

*Part I. Definitions*

As used herein and in all forms and documents relating to the 1937 Agricultural Conservation Program in Tama County, Iowa, the following terms shall have the following meanings:

*Secretary* means the Secretary of Agriculture of the United States.

*North central region* means the area included in the States of Illinois, Indiana, Iowa, Michigan, Minnesota, Missouri, Nebraska, Ohio, South Dakota, and Wisconsin.

*North central division* means the division of the Agricultural Adjustment Administration in charge of the 1937 Agricultural Conservation Program in the North Central Region.

*State committee or State agricultural conservation committee* means the group of persons designated to assist in the

administration of the 1937 Agricultural Conservation Program in the State of Iowa.

*County agricultural conservation association or county association* means the association in Tama County organized to assist in the administration of the 1937 Agricultural Conservation Program in such county.

*County agricultural conservation committee or county committee* means the group of persons designated for Tama County to assist in the administration of the 1937 Agricultural Conservation Program in such county.

*Person* means an individual, firm, partnership, association, corporation, estate, or trust. The term "person" shall also include, wherever applicable, a State, a political subdivision of a State, or any agency thereof, and any Governmental agency that may be designated by the Secretary.

*Operator* means a person who as owner or tenant is operating a farm or a tract and is entitled to receive all or a portion of the crops produced thereon, or the proceeds thereof.

*Owner* means (1) a person who owns a farm which farm is not rented to an operator for cash or for a fixed commodity payment, or (2) a person who owns a farm, all or part of which is field rented to and operated by other persons, or (3) a person who rents a farm from another for cash or for a fixed commodity payment, or (4) a person who is purchasing a farm on installments for cash or for a fixed commodity payment, all of which farm is not rented to an operator for cash or for a fixed commodity payment.

*Tenant* means a person other than an owner who is operating a farm or a tract and is entitled to receive all or a portion of the crops produced thereon, or the proceeds thereof. A person who receives a share of a crop merely for harvesting such crop shall not be considered a tenant.

*Farm* means, except as otherwise provided herein, all contiguous farm land in Tama County under the same ownership and operated by one person. The term "farm" means also all contiguous farm land in Tama County under the same ownership all or part of which is field rented to and operated by other persons. The term "farm" also means contiguous farm land in Tama County operated by one person but owned by either (1) a husband and wife, (2) brothers, (3) sisters, (4) one or more brothers and one or more sisters, (5) parent and one or more children.

*Tract* means such part of a farm in Tama County as is operated by a person who does not operate all of such farm.

*Cropland* means all tillable farm land from which at least one crop other than wild hay or bluegrass seed was harvested or planted for harvest between January 1, 1930, and December 31, 1936, inclusive, but excluding (1) any acreage devoted on January 1, 1937, to orchards, and (2) any acreage which would otherwise be classified as cropland but which because of its topography, soil type, or low fertility, it is impractical to cultivate.

*Noncrop plowable pasture* means any noncrop pasture land which could be brought under cultivation without clearing or draining, except that which, due to topography, soil type, or drainage, would be highly susceptible to erosion or crop failure if cultivated. The term "noncrop plowable pasture" shall include any noncrop land used for the production of wild hay.

*Orchards* means the entire acreage in tree fruits, nut trees, vineyards, bush fruits, and nursery stock on the farm on January 1, 1937, even though such acreage is interplanted with other crops.

*Commercial vegetables* means vegetables and truck crops (including Irish potatoes, sweetpotatoes, tomatoes, green beans, pumpkins, cucumbers, melons, cantaloupes, commercial bulbs and flowers, strawberries, and sweet corn, but excluding peas for canning and sweet corn for canning) of which the principal part is sold to persons not living on the farm.

*Intertilled crop limit* for a farm means the highest acreage which may be planted on such farm to the crops listed in Section 1 of Part III without a deduction being made from any payments which would otherwise be made with respect to such farm.

*Old conserving acreage* on a farm means the acreage upon such farm used in accordance with subsection A of Section 2 of Part III.

*New conserving acreage* on a farm means the acreage upon such farm used in accordance with subsection B of Section 2 of Part III.

*Total conserving acreage* means the sum of the new conserving acreage and the old conserving acreage.

*Soil-conserving goal* for a farm means the acreage established for such farm under Section 3 of Part II.

*Soil-conserving payment* means a payment for the establishment or maintenance of conserving acreage on a farm.

*Soil-building payment* means a payment for the carrying out of an approved soil-building practice.

*Part II. Establishment of Limits, Goals, and Productivity Indexes*

SECTION 1. *County Intertilled Limit and Soil-Conserving Goal.*—The Agricultural Adjustment Administration has established for Tama County (a) a total acreage of intertilled crops which shall be known as the county intertilled limit, and (b) a total acreage of soil-conserving crops which shall be known as the county soil-conserving goal. Such limit and goal are based on the county limits established for Tama County under the 1936 Agricultural Conservation Program, the land measurements obtained pursuant to the 1936 Agricultural Conservation Program, and census reports. Such county intertilled limit is 133,654 acres and such county soil-conserving goal is 115,000 acres. The sum of the individual intertilled crop limits for all farms in Tama County shall not exceed the county intertilled limit and the sum of the individual soil-conserving goals for all farms in Tama County shall equal the county soil-conserving goal.

SECTION 2. *Intertilled Crop Limits.*—There shall be established for each farm in Tama County an intertilled crop limit. The intertilled crop limit for any farm shall represent the highest acreage on a farm which may be devoted to the uses specified in Section 1 of Part III without deduction from any payments which otherwise would be made with respect to such farm and shall be based upon such farm's productivity, topography, type of soil, size, degree of erosion, and ratio of other than conserving acreage planted in 1935 and 1936 to the acreage of cropland. The intertilled crop limit for a farm shall be comparable to the limit established for similar farms in the same community.

SECTION 3. *Soil Conserving Goals.*—There shall be established for each farm in Tama County a soil-conserving goal. The soil-conserving goal for a farm shall represent the acreage on such farm that should, according to good farming practice, be devoted to soil-conserving uses. The soil conserving goal shall be established for such farm on the basis of such farm's productivity, topography, type of soil, size, degree of erosion, and ratio of conserving acreage planted in 1935 and 1936 to the acreage of cropland. The soil-conserving goal for a farm shall be comparable to the goal established for similar farms in the same community.

SECTION 4. *Noncrop Plowable Pasture.*—There shall be established for each farm in Tama County the number of acres of noncrop plowable pasture on such farm. Such acreage shall not exceed the number of acres on noncropland otherwise qualifying as noncrop plowable pasture not used in 1937 as set forth in Sections 1 and 3 of Part III. However, if the sum of such acreages for all farms in Tama County exceeds 20,000 acres, the acreage of noncrop plowable pasture for each farm for which a soil-building allowance will be computed shall be reduced so that the total for all farms does not exceed 20,000 acres.

SECTION 5. *Productivity Indexes.*—There shall be established a productivity index for each farm in Tama County. Such productivity index shall be based upon the normal yield of corn per acre for the farm as compared with the normal yield of corn per acre for Tama County. The normal yield of corn per acre for Tama County shall be 42.7 bushels. Where the corn yield does not accurately reflect the productivity index of a farm, the yield of such other crop as does accurately reflect the productivity of such farm shall be used, provided that the productivity index for such farm shall be adjusted, if necessary, so as to be fair and equitable as compared with the productivity indexes for other farms in the county having similar soils or productive capacities and as contrasted with other farms in the county having different soils and productive capacities.

SECTION 6. *Appeals.*—Any person who has reason to believe that the soil-conserving goal or intertilled crop limit established for such person's farm is not equitable, may request the county committee to reconsider its recommendations. If no agreement is reached between such person and such committee, an appeal may be taken to the State Committee in accordance with the instructions issued by the Director of the North Central Division.

*Part III. Classification of Farm Land*

The use of farm land in Tama County in 1937 shall be classified as either intertilled, soil-conserving, or neutral, as set forth in this Part III. In order for any cropland, other than an entire field or a grassed waterway, to be classified as soil-conserving, such cropland must be in a solid block contiguous to the entire side or end of a field and the line between the cropland, classified as soil-conserving, and the remaining portion of the field must be straight. Any acreage upon which unadapted seed, or mixtures containing any unadapted seed, is planted in 1937 shall be classified as if such unadapted seed, or such mixtures, were not planted.

SECTION 1. *Intertilled.*—Farm land devoted to the following uses or planted in 1937 to the following crops shall be classified as intertilled:

1. Corn of all types.
2. Grain sorghums and sweet sorghums for grain.
3. Sorghums for hay or forage, soybeans, rape, sudan grass, and millet, unless followed in 1937 by a crop listed in subdivision (a) of subsection B of Section 2 of this Part III or by a winter cover crop.
4. Mangels and cow-beets.
5. Truck and vegetable crops.
6. Bulbs and flowers.

SECTION 2. *Soil-Conserving.*—Cropland in 1937 not used as set forth in items 1, 2, 4, 5, and 6 of Section 1 of this Part III and not planted to sorghums for hay or forage, soybeans, rape, sudan grass or millet, and devoted to the crops and uses specified in this Section 2 shall be classified as soil-conserving:

A. *Old Conserving.*—Cropland upon which there was a good stand on or after July 1, 1937, of any of the crops listed in subsection B of this Section 2 seeded before November 1, 1936. Old conserving acreage also includes any acreage of cropland on the farm upon which there was a good stand on or after August 1, 1937, of any of the crops listed in subdivision (a) of subsection B of this Section 2, which was self-seeded in the fall of 1936, and on which land no crop (other than any crop listed in subdivision (a) of subsection B of this Section 2) was planted for harvest as grain or hay in 1937.

B. *New Conserving.*—

(a) Cropland upon which there is, on the date as of which final inspection is made for the purpose of determining performance, a good stand which would normally survive the winter of 1937–38 of any of the crops listed in items 1, 2, 3, 5, and 6 of this subsection (a) seeded with adapted seed between November 1, 1936, and October 31, 1937, inclusive, and cropland upon which there was a good stand on or after September 1, 1936, of annual sweetclover seeded with adapted seed between November 1, 1936, and October 31, 1937; provided, there is evidence that the nurse crop, if any, was seeded at a rate not in excess of one-half the normal rate of seeding alone for grain and was not harvested for grain or hay.

1. Perennial legumes: alfalfa, and white clover.
2. Perennial grasses: bluegrass, timothy, redtop, reed canary grass, orchard grass, Bermuda grass, bromegrass, crested wheat grass, slender wheat grass, western wheat grass, bluestem grasses, perennial ryegrass, meadow fescue.
3. Biennial legumes: sweet, red, alsike, and mammoth clovers.
4. Annual sweetclover.
5. Mixtures of legumes listed under items 1, 3, and 4 of this subdivision (a), or mixtures of such legumes and the grasses listed under item 2 of this subdivision (a).
6. Trees, other than fruit or nut trees, planted since January 1, 1934.

(b) Cropland upon which there has been incorporated into the soil as green manure by plowing or discing of a good green vegetative growth of close-drilled or broadcast soybeans, seeded before July 1, 1937, and followed by a winter cover crop.

SECTION 3. *Neutral.*—Farm land devoted in 1937 to uses other than those specified in Sections 1 and 2 of this Part III shall be classified as neutral.

*Part IV. Rates and Conditions of Payment*

In connection with the utilization in 1937 of farm land in Tama County, payments will be made in the amounts and subject to the conditions hereinafter set forth.

SECTION 1. *Soil-Conserving Payments.*—Soil-conserving payments shall, subject to the provisions of Sections 5, 6, 8, and 9 of this Part IV, be made with respect to each farm as follows:

(a) $5.75 (multiplied by the productivity index for the farm) per acre for the new conserving acreage not in excess of the soil-conserving goal.

(b) $3.70 (multiplied by the productivity index for the farm) per acre for the old conserving acreage not in excess of the difference between the soil-conserving goal and the new conserving acreage for which payment is made.

*Provided, however,* if a crop other than one of the crops specified in Section 2 of Part III is planted on any noncropland on such farm, the amount of payment shall be determined as follows:

(1) A payment of $3.70 per acre (multiplied by the productivity index of the farm) shall be made for an acreage determined by subtracting from the old conserving acreage the acreage of noncropland planted to a crop other than a crop specified in Section 2 of Part III. The number of acres upon which payment may be made shall not exceed the difference obtained by subtracting the new conserving acreage from the soil-conserving goal.

(2) A payment of $5.75 per acre (multiplied by the productivity index for the farm) shall be made for an acreage determined by subtracting from the new conserving acreage the excess of the acreage of noncropland planted to a crop other than a crop specified in Section 2 of Part III over the old conserving acreage. The number of acres upon which payment may be made shall not exceed the soil-conserving goal.

SECTION 2. *Soil-Building Allowance.*—A soil-building allowance shall be established for each farm. This allowance shall be the maximum amount which may be earned in 1937 by the carrying out on a farm of any of the soil-building practices listed in Section 3 of this Part IV. The soil-building allowance for a farm shall be the sum of the following:

(a) One dollar for each acre in the soil-conserving goal for such farm, or one dollar for each acre of cropland on such farm classified as soil-conserving in 1937, whichever is higher.

(b) One dollar for each acre of cropland on such farm on which one or more crops of commercial vegetables were grown in 1936.

(c) Seventy-five cents for each acre of noncrop plowable pasture land on such farm in 1937.

SECTION 3. *Soil-Building Payments.*—Soil-building payments will, subject to the provisions of Sections 5, 6, 8, and 9 of this Part IV, be made not in excess of the soil-building al-

lowance for a farm, for the carrying out in 1937 on such farm under the conditions specified therefor of any of the soil-building practices listed in this Section 3. To be eligible for soil-building payments, the practices listed herein must be carried out by such methods and using such materials and with such kinds and quantities of adapted seed and trees as conform to good farming practice. No soil-building payment will be made with respect to any farm for the seeding of red clover, or any mixtures containing red clover, unless all seedings of red clover and any mixtures containing red clover on such farm in 1937 are made with adapted red clover seed, nor will any soil-building payment be made with respect to any farm for the seeding of alfalfa, or any mixtures containing alfalfa, unless all seedings of alfalfa and any mixtures containing alfalfa on such farm in 1937 are made with adapted alfalfa seed. All practices for which payment is to be made must have been completed prior to November 1, 1937. Proof of performance for any practice shall consist of satisfactory evidence that the practice was completed in accordance with the conditions specified. A soil-building payment for any practice hereinafter set forth will not be made with respect to any acreage on the farm for which all or any portion of the labor, seed, or materials used for any practice is furnished free or paid for by any State or Federal agency, except that in the case of the soil-building practices designated under subsections (c) and (e) hereof, payment will be made at the stipulated rates on an acreage or quantity, which bears the same proportion to the total acreage or quantity with respect to such practice as the quantity of materials used, or the value of the labor and materials furnished by the owner or operator, bears to the total quantity of materials or the total value of labor and materials used in carrying out such practice.

Where several soil-building practices are adopted on the same acreage, payment will not be made for (1) more than one of the practices listed in subsections (c) to (f), inclusive, and (2) more than one practice twice, or any two practices of the eleven soil-building practices listed in subsections (a), (b), (g), and (h).

PRACTICES APPLICABLE TO ALL FARMS

(a) *Seedings of Adapted Legumes:* Seedings of adapted seed of any of the following legumes on farm land:

(1) Alfalfa—$2.50 per acre.

(2) Red Clover, mammoth, and white clover—$2.00 per acre.

(3) Alsike clover—$1.50 per acre.

(4) Legume mixtures or mixtures of legumes and the perennial grasses listed under subsection (b) hereof, which contain at least 50 percent by weight of alfalfa, red clover, white clover, alsike clover, and mammoth clover, or more than one of these legumes—$1.50 per acre.

(5) Biennial or annual sweetclover—$1.00 per acre.

(6) Legume mixtures or mixtures of legumes and the perennial grasses listed under subsection (b) hereof, except those qualifying under (a) (4) of this Section 3, which contain at least 50 percent by weight of alfalfa, red clover, white clover, alsike clover, mammoth clover, biennial sweetclover, and annual sweetclover, or more than one of these legumes—$1.00 per acre.

(b) *Seedings of Adapted Perennial Grasses.*—Seedings of adapted seed of any of the following grasses on farm land:

(1) Bluegrass and bromegrass—$2.00 per acre.

(2) Orchard grass and permanent pasture mixtures of grasses or grasses and legumes containing at least 50 percent by weight of the grasses listed in item (1) of this subsection—$1.50 per acre.

(3) Timothy, redtop, and permanent pasture mixtures of grasses or grasses and legumes containing at least 50 percent by weight of bluegrass, bromegrass, orchard grass, timothy, redtop, or more than one of these grasses, but which do not contain at least 50 percent of bluegrass, bromegrass, and orchard grass—$1.00 per acre.

(c) *Limestone.*—Application on cropland or noncrop pasture land of ground limestone or its equivalent:

(1) Application of ground limestone or its equivalent—$1.25 per ton. (The ground limestone should not be coarser than that obtained by grinding calcareous or dolomitic limestone so that not less than 90 percent with all finer particles obtained in the grinding process included, will pass through a ten-mesh sieve. It must contain calcium and magnesium carbonates equivalent to not less than 80 percent of calcium carbonate. The following quantities of other calcareous substances are equivalent to one ton of ground limestone: 1400 pounds of hydrated lime; 2 cubic yards of water softening process refuse lime.)

(d) *Phosphate.*—Application of the following minimum amounts of phosphate materials per acre on noncrop pasture or on cropland used in 1937 for the growing of a crop, specified in Section 2 of Part III, and on which cropland or noncrop pasture in connection with such application no crop (other than those listed in subdivision (a) of subsection B of this Section 2) was planted in 1937.

(1) One hundred and thirty-three pounds of 20 percent superphosphate or its equivalent—$1.00 per acre. (The 20 percent superphosphate designated in this subsection (d) shall contain 20 percent by weight of available phosphoric acid. Other phosphates may be substituted for 20 percent superphosphate, provided that the quantity of such substitute applied shall contain not less than the quantity by weight of available phosphoric acid contained in the specified quantity of 20 percent superphosphate.)

(e) *Planting and Protection of Trees.*—Planting and protection of forest trees and trees for windbreak or shelterbelt purposes in accordance with good tree culture practices—$7.50 per acre, provided,

(1) in the case of forest planting there is on the date as of which final inspection is made for the purpose of determining performance on the farm, a stand of at least 650 living trees per acre; or if due to uncontrollable natural causes a stand of 650 living trees per acre is not obtained on the date as of which final inspection is made for the purpose of determining performance on the farm, there is satisfactory evidence that such trees were planted in accordance with good tree culture practice and that such trees have been properly protected;

(2) in the case of windbreak or shelterbelt plantings, there is on the date as of which final inspection is made for the purpose of determining performance on the farm, a stand of at least 300 living trees per acre; or if due to uncontrollable natural causes a stand of 300 living trees per acre is not obtained on the date as of which final inspection is made for the purpose of determining performance on the farm, there is satisfactory evidence that such trees were planted in accordance with good tree culture practice and that such trees have been properly protected.

(f) *Terracing.*—Terracing in 1937 of cropland or noncrop pasture land in accordance with good terracing practices—$0.40 per hundred feet, provided, the county committee after inspection has approved and designated in writing the area on which such practice is to be carried out.

PRACTICES APPLICABLE ONLY TO CROPLAND USED FOR GROWING COMMERCIAL VEGETABLES

(g) *Non-Leguminous Green Manure Crop on Vegetable Land.*—Incorporation into the soil as green manure by plowing or discing of the entire vegetative growth of rye, oats, barley, annual grasses, or mixtures of these, grown on land used for the production of vegetable crops in 1936—$1.00 per acre, provided, (1) such green manure crop has attained at least 60 days' growth, and (2) a good vegetative growth of such crop is incorporated into the soil.

(h) *Leguminous Green Manure Crop on Vegetable Land.*—Incorporation into the soil as green manure by plowing or discing of the entire vegetative growth of a legume, or mixture of legumes, grown on land used for the production of vegetable crops in 1936—$2.00 per acre, provided, (1) such green manure crop has attained at least 60 days' growth, and (2) a good vegetative growth of such crop is incorporated into the soil.

SECTION 4. *Division of Payments and Deductions.*—Any payment or deduction computed for any person with respect to any farm in Tama County shall be computed for such person with respect to such farm according to the percentages specified in this Section 4. The calculation of payments for any farm shall be based only on the performance on such farm.

(a) The share of the owner of a farm, who is also the only operator of such farm, of any payment or deduction computed with respect to such farm shall be 100 percent.

(b) The share of the operator of a farm, who rents such farm from another person for cash or a fixed commodity payment, of any payment or deduction computed with respect to such farm shall be 100 percent.

(c) The share of the owner of a farm, who rents such farm to another person on shares, of any payment or deduction computed with respect to such farm shall be 50 percent.

(d) The share of the operator of a farm, who rents such farm from another person on shares, of any payment or deduction computed with respect to such farm shall be 50 percent.

(e) The share of the operator of a tract in a farm of any payment or deduction computed with respect to such farm, shall be 50 percent of the percentage that the cropland in such tract is of the total cropland in such farm.

(f) The share of the owner of a farm, which contains one or more tracts, of any payment or deduction computed with respect to such farm, shall be obtained by subtracting from 100 percent the sum of the percentages obtained, under subsection (e) of this Section 4, for all persons operating tracts in such farm.

SECTION 5. *Deductions.*—

(a) If the 1937 intertilled acreage on any farm with respect to which a person is owner or operator is in excess of the intertilled crop limit for such farm, a deduction will be made from any payment which would otherwise be made to such person with respect to any farms in Tama County. Such deduction shall be computed by multiplying the result obtained by multiplying such number of excess acres by $9.25 (multiplied by the productivity index for such farm) by the percentage determined for such person for such farm under Section 4 of this Part IV.

(b) If the acreage of any noncropland[2] planted to a crop other than a crop listed in subdivision (a) of subsection B of Section 2 of Part III on any farm with respect to which a person is owner or operator, is in excess of the total conserving acreage on such farm, a deduction will be made from any payment which would otherwise be made to such person with respect to any farms in Tama County in an amount computed by multiplying each acre of such excess by $3.70 (multiplied by the productivity index for the farm) and then by multiplying the result so obtained by the percentage determined for such person for such farm under Section 4 of this Part IV.

SECTION 6. *Adjustment in Rates.*—All the rates and allowances specified in this Part IV are based upon an estimate of available funds and an estimate of participation. If participation in the North Central Region exceeds that estimated for such Region, all the rates and allowances specified in this Part IV may be reduced pro rata. If participation in the North Central Region is less than the estimate for such Region, all such rates and allowances may be increased pro rata. In no case will any rates or allowances be increased or decreased by more than 10 percent.

SECTION 7. *Applicability to Farms Under Special Programs.*—On any farm where a program is carried out in cooperation with the Soil Conservation Service or the Resettlement Administration, payment will be made only for such performance as is approved for the farm by the county committee in accordance with instructions issued by the Secretary.

SECTION 8. *Payments Restricted to Effectuation of Purposes.*—All or any part of any payment which otherwise would be made to any person with respect to any farm or farms may be withheld if any rotation, cropping, or other practices are adopted on any farm with respect to which such person is an owner or operator, which practices the Secretary determines tend to defeat the purposes of the 1937 Agricultural Conservation Program. If any person who has made an application for payment with respect to any farm or farms in Tama County has an interest as owner or operator in a farm in another county on which the acreage used for the production of soil-depleting crops in 1937 materially exceeds the acreage normally used for the production of any or all of such crops on such other farm or farms, the amount of any payment which otherwise would be made to such person may, in the discretion of the Secretary, be appropriately reduced.

SECTION 9. *Association Expenses.*—In determining the amount of payments under the 1937 Agricultural Conservation Program, there shall be deducted from any payment computed for any person with respect to any farm or farms in Tama County, all of such person's pro-rata share, or such part thereof as may be determined by the Secretary, of the estimated total administrative expenses incurred and to be incurred by the Association of Tama County in cooperating in carrying out the Soil Conservation and Domestic Allotment Act. Such pro-rata share shall be determined by multiplying the total payments computed for such person with respect to any farm or farms in Tama County by the percentage that the estimated total of administrative expenses of the Association for Tama County, as approved by the North Central Division for 1937, is of the total payments estimated by the North Central Division which will be made with respect to farms in Tama County in 1937. As provided in the Articles of Association, as amended, any person who previously has not become a member of the Association of the county in which his farm or farms are located shall become a member thereof by his signing an application for payment with respect to such farm or farms. There shall be credited for the payment of administrative expenses the sum of $2.00 for each application for payment under which, prior to the deduction of any administrative expenses and as estimated by the Agricultural Adjustment Administration, the total payment will be $20.00 or less or under which there will be no payment.

*Part V. Miscellaneous Provisions*

SECTION 1. *Farm Land Across County Lines.*—Any farm land which under the provisions of North Central Region Bulletin No. 101, As Amended, should be included in an application for payment by an operator in a county other than Tama County, shall not be deemed to be in Tama County. The farm, of which such land would be a part under the definition of a farm for Tama County, shall not be deemed to include such land. Any farm land which properly would be included in an application for payment by an operator in Tama County, if the provisions of NCR Bulletin No. 101, As Amended, were applicable in Tama County, shall be deemed to be in Tama County and shall be deemed to be a Tama County farm.

SECTION 2. *Application and Eligibility for Payment.*—Payments will be made only upon application therefor filed with the county committee. Each person applying for payment will be required to show the extent to which the conditions upon which the payment is to be made have been met. The payment for a person who is owner or operator with respect to one or more farms in Tama County shall, subject to the provisions of Section 8 of Part IV, be determined by taking the sum of such person's shares of the payments on all farms in Tama County with respect to which he is owner or operator, less the sum of his shares of all deductions for all farms in Tama County with respect to which he is owner or operator.

No payment will be made to any person if the total amount of payment computed for such person is less than fifty cents.

In order for any person to be eligible to make an application for payment with respect to a farm under the 1937 Agricultural Conservation Program in Tama County, such person must show that he owned or operated such farm, or operated a tract in such farm on June 30, 1937, and has

been such owner or operator for a period of at least 60 consecutive days, which period must include June 30, 1937. In determining the number of days of ownership or operation, a fraction of a day will be considered as a whole day. In the event that more than one person has owned or operated a farm, or operated a tract in a farm on June 30, 1937, and for 60 consecutive days, the person who has owned or operated such farm or such tract prior to June 30, 1937, shall be regarded as the owner or operator of such farm or operator of such tract.

In the event of death, incompetency, abandonment, or discharge or release from a representative capacity, the period of ownership or operation may, upon recommendation of the county committee and upon approval by the Secretary or his duly authorized representative, be computed as follows:

(a) *In the Event of Death.*—If, because of the death of any party owning or operating a farm, or operating a tract in a farm, the person, whether the deceased, his heir or heirs, or the duly appointed representative, if any, of such decedent's estate, who owns or operates such farm, or operates such tract on June 30, 1937, has not owned or operated such farm, or operated such tract for 60 consecutive days, the period of such person's ownership or operation of such farm or operation of such tract, shall be deemed to include the time of ownership or operation of such farm, or the operation of such tract by the deceased person, his heir or heirs, or the duly appointed representative, if any, of his estate.

(b) *In the Event of Incompetency.*—If, because of the adjudication of incompetency of any person owning or operating a farm, or operating a tract in such farm, the person, whether the person who has been adjudicated incompetent, his relative or relatives, or his duly appointed representative, if any, who owns or operates such farm, or operates such tract on June 30, 1937, has not owned or operated such farm or operated such tract for 60 consecutive days, the period of such person's ownership or operation of such farm, or operation of such tract shall be deemed to include the time of ownership or operation of such farm or operation of such tract by the person who was adjudicated incompetent, his relative or relatives, or his duly appointed representative, if any.

(c) *In the Event of Abandonment.*—If, because of abandonment by any party owning or operating a farm, or operating a tract in a farm, the person, whether the person who has abandoned the farm or tract, his relative or relatives, or his duly appointed representative, if any, who owns or operates such farm, or operates such tract on June 30, 1937, has not owned or operated such farm or operated such tract for 60 consecutive days, the period of such person's ownership or operation of such farm, or operation of such tract, shall be deemed to include the time of ownership or operation of such farm or operation of such tract by the person who has abandoned such farm, his relative or relatives, or his duly appointed representative, if any.

(d) *In the Event of Discharge or Release from Representative Capacity.*—If, because of the discharge or release from a representative or fiduciary capacity of any party owning or operating a farm, or operating a tract in a farm, the person, whether the representative or fiduciary who has been discharged or released from his representative or fiduciary capacity, or the person or persons who succeed such representative as owner or operator, who owns or operates such farm or operates such tract on June 30, 1937, has not owned or operated such farm or operated such tract for 60 consecutive days, the period of such person's ownership or operation of such farm, or operation of such tract shall be deemed to include the time of ownership or operation of such farm or operation of such tract by the representative or fiduciary capacity and the person or persons who succeed such representative or fiduciary as owner or operator of such farm, or operator of such tract.

No soil-building payment will be made to the person who is regarded as the owner or operator of a farm or operator of a tract for any soil-building practices carried out on such farm after he has ceased to own or operate such farm or operate such tract.

SECTION 3. *Persons Eligible to Execute an Application for Payment and Receive Payment Thereunder upon Happening of Certain Contingencies on or after July 1, 1937:*

(a) *In the Event of Death.*—If an owner or operator of a farm, or the operator of a tract in a farm, dies on or after July 1, 1937, and before making an application for payment with respect to such farm, the administrator or executor appointed by a court of competent jurisdiction for such decedent's estate shall be eligible to make an application for payment with respect to such farm, in lieu of such decedent. If an administrator or executor is not appointed for such estate, all the heirs of such decedent will be eligible to make application for payment with respect to such farm. If, prior to his death, the decedent had made an application for payment but did not receive the payment thereunder, such payment will be made to the administrator or executor appointed by a court of competent jurisdiction for such estate. If an administrator or executor is not appointed for such estate, such payment will be made to all the heirs of such decedent.

(b) *In the Event of Incompetency.*—If an owner or operator of a farm, or the operator of a tract in a farm is adjudged incompetent by a court of competent jurisdiction on or after July 1, 1937, and before making an application for payment with respect to such farm, the guardian or committee appointed by a court of competent jurisdiction for such incompetent's estate shall be eligible to make application for payment with respect to such farm in lieu of the incompetent. If the person adjudicated incompetent had, prior to such adjudication, made application for payment but did not receive the payment thereunder, such payment will be made to the guardian or committee appointed by a court of competent jurisdiction for such incompetent's estate.

(c) *In the Event of Abandonment.*—If an owner or operator of a farm, or the operator of a tract in a farm, abandons such farm or such tract on or after July 1, 1937, and before making an application for payment with respect to such farm, the person appointed by a court of competent jurisdiction to control and conserve the assets of the abandoned estate shall be eligible to make an application for payment with respect to such farm in lieu of the person who abandons such farm. If, prior to his abandonment, the person who abandons such farm or such tract had made an application for payment, but did not receive the payment thereunder, such payment will be made to the person appointed by a court of competent jurisdiction to control and conserve the assets of such abandoned estate.

(d) *In the Event of Discharge or Release from Representative Capacity.*—If an administrator, executor, trustee, guardian, committee, receiver, conservator, or other representative or fiduciary who is the owner or operator of a farm, or the operator of a tract in a farm, is discharged or released from such representative or fiduciary position by a court of competent jurisdiction on or after July 1, 1937, and before making an application for payment, the person or persons who succeed such representative or fiduciary as owner or operator of such farm, or as operator of such tract, will be eligible to execute an application for payment with respect to such farm in lieu of the representative or fiduciary who has been discharged or released. If, prior to his discharge or release, the person who has been discharged or released from his representative or fiduciary position, had made an application for payment but did not receive the payment thereunder, such payment will be made to the person or persons who succeed such representative as owner or operator of such farm or as operator of such tract.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 19th day of April, 1937.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

[F. R. Doc. 37-1171; Filed, April 20, 1937; 12:53 p. m.]

WR—B-101—Weber and Davis Counties—Utah Issued April 20, 1937

1937 AGRICULTURAL CONSERVATION PROGRAM—WESTERN REGION

BULLETIN NO. 101—WEBER AND DAVIS COUNTIES—UTAH

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, payments will be made in connection with the effectuation of the purposes of section 7 (a) of the said act in 1937, in accordance with the provisions of this Western Region Bulletin No. 101—Weber and Davis Counties—Utah, and such modifications or other provisions as may hereafter be made.

The 1937 agricultural conservation program has been developed in accordance with the provisions of sections 8, 15, and 16 of the Soil Conservation and Domestic Allotment Act, but the payment of any benefits pursuant to the provisions of this announcement is contingent upon such appropriation, if any, as the Congress of the United States may hereafter make for such purpose, and the amounts of such payments will be finally determined by such appropriation and the extent of participation in the program. The rates of payments, deductions, and allowances herein set out are computed upon the basis of an appropriation of $500,000,000 and 85 percent participation. Such rates of payments, deductions, and allowances may be increased or decreased, depending upon the extent of participation in the Western Region, but such variations will not be in excess of 10 percent.

*Part I. Definitions*

As used herein and in all forms and documents relating to the 1937 agricultural conservation program in Weber and Davis Counties, Utah, the following terms shall have meanings ascribed to them as follows:

*Secretary* means the Secretary of Agriculture of the United States.

*Western region* means the area included in the States of North Dakota, Kansas, Colorado, Wyoming, Montana, New Mexico, Arizona, California, Utah, Nevada, Idaho, Oregon, and Washington.

*Western division* means the division of the Agricultural Adjustment Administration in charge of the 1937 agricultural conservation program in the Western Region.

*State committee* or *State agricultural conservation committee* means the group of individuals designated to assist in the Administration of the 1937 agricultural conservation program in Utah.

*County committee* or *county agricultural conservation committee* means the group of individuals designated for a county to assist in the administration of the 1937 agricultural conservation program in such county.

*Person* means an individual, partnership, association, or corporation, and wherever applicable, a State, a political subdivision of a State or any agency thereof, or any other governmental agency that may be designated by the Secretary.

*Owner* means a person who owns land which is not rented to another for cash, for a fixed commodity payment, or for the crop from a fixed acreage; or who rents land from another for cash, for a fixed commodity payment, or for the crop from a fixed acreage; or who is purchasing land on installments for cash, for a fixed commodity payment, or for the crop from a fixed acreage, or for a share of the crop.

*Operator* means a person who, as owner or share tenant, is operating a farming unit and is entitled to receive all or a portion of the crops produced thereon, or the proceeds thereof.

*Share tenant* means a person other than an owner who is operating a farm and is entitled to receive a portion of the crops produced thereon, or the proceeds thereof. If a share tenant sublets a farm to another person, and both such persons are entitled to share in the crops produced thereon, or the proceeds thereof, both shall be deemed share tenants.

*Farm* means all tracts of farm land in the same county under the same ownership, operated as all or part of a single farming unit by the same operator in 1937.

*Farming unit* means all land which is farmed by an operator in 1937 as a single unit, with work stock, farm machinery, and labor substantially separate from that for any other land.

*Cropland* means all farm land which has been tilled and from which at least one crop, other than wild hay, was harvested or planted for harvest between January 1, 1930, and January 1, 1937, and all other farm land devoted on January 1, 1937, to orchards or vineyards, other than those abandoned.

*Soil-depleting base* means the total number of acres established for the farm as the acreage normally used for the production of soil-depleting crops thereon.

*Soil-conserving base* means the number of acres obtained by subtracting the soil-depleting base from the total number of acres of cropland excluding the acreage devoted to commercial orchards on January 1, 1937.

*Diversion payment* means a payment for the diversion of acreage from any soil-depleting base and may be referred to as a class I payment.

*Sugar beet payment* means a payment made with respect to land on which sugar beets are grown in 1937 and may be referred to as a class I payment.

*Soil-building payment* means a payment for the carrying out of approved soil-building practices and may be referred to as a class II payment.

*Soil-building allowance* means the largest amount for any farm which may be earned as a soil-building payment on such farm.

*Non-crop pasture land* means farm land, other than cropland or range land, fenced, and used exclusively for pasture.

*Range-building payment* means a payment for the carrying out of approved range-building practices.

*Range-building allowance* means the largest amount for any ranching unit which may be earned as a range-building payment on such ranching unit.

*Ranch operator* means a person who as owner, cash tenant, or share tenant, operates, or a person who acts in similar capacity in the operation of, a ranching unit.

*Range land* means any land, other than that owned or controlled by the United States Government, or any agency thereof, in which a ranch operator has such a legal estate or interest as to give him control thereof, which produces forage for range livestock without cultivation or general irrigation, ten acres or more of which are required to graze one animal unit.

*Ranching unit* means all range land which is used by the ranch operator as a single unit in producing range livestock, with farm machinery, work stock, and labor substantially separate from that of any other range land.

*Animal unit* means one cow, one horse, five sheep, five goats, or the equivalent thereof.[1]

*Grazing capacity of range land* means that number of animal units which such land will sustain, on a twelve-month basis, over a period of years without injury to the range, forage, tree growth, or watershed.

*Diversion farm* means any farm with respect to which the soil-depleting base is equal to, or in excess of, both 20 acres and 20 percent of the total cropland on the farm. Upon recommendation of the county committee and the State committee, the Secretary may designate for any county, or other area, a different basis for determining diversion farms.

*Non-diversion farm* means any farm which is not a diversion farm.

*Commercial orchards* means the acreage in tree fruits, planted nut trees, vineyards, hops, or bush fruits on the farm on January 1, 1937, from which the principal part of production is normally sold, including also the acreage of young non-bearing orchards from which the principal part of production will be sold.

*Commercial vegetables* means the acreage of vegetables or truck crops (including potatoes, sweet potatoes and straw-

[1] Two yearlings equal one cow or one horse. A calf or a colt shall be classed as a yearling, and a lamb shall be classed as a mature sheep, after January 1 of the year following its birth.

berries, but excluding sweet corn for canning and peas for canning) from which the principal part of production was sold off the farm.

*Part II. Rates and Conditions of Diversion and Sugar Beet Payments*

Payment will be made in connection with the utilization in 1937 of the land on any farm in Weber and Davis Counties, Utah, at the rates and subject to the conditions set forth herein:

SECTION 1. *Diversion Payments.*—With respect to diversion farms, payment will be made for each acre diverted in 1937 from the soil-depleting base established for the farm, not in excess of fifteen percent of such base, at an average rate for the United States of $6.00 per acre, varying among individual farms as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States.[1]

SEC. 2. *Sugar Beet Payments.*—Payment will be made with respect to the acreage of sugar beets grown on a farm in 1937, not in excess of the sugar beet acreage allotment for the farm, at a rate per acre equal to 12½ cents for each 100 pounds, raw value, of sugar commercially recoverable from the normal yield per acre of sugar beets for the farm; provided, that such practices with relation to sugar beets are carried out on such farm in 1937, as follows:

A. An acreage equal to not less than 40 percent of the 1937 acreage of sugar beets is devoted to soil-conserving crops on the farm in 1937 on land which is customarily used in a rotation with sugar beets; or

B. Both of the following:

1. Sugar beets are grown in 1937 only on land not devoted to sugar beets in more than two of the three years 1934, 1935, and 1936, and

2. An acreage equal to not less than 20 percent of the 1937 acreage of sugar beets is devoted to soil-conserving crops on the farm in 1937 on land which is customarily used in a rotation with sugar beets.

*Provided, however,* that if either 1 or 2 alone is performed, the payment will be one-half of the payment that would otherwise be made;

The acreage allotment with respect to which the sugar beet payment will be made will be the acreage of sugar beets grown on the farm in 1937, unless the estimated total acreage of sugar beets for harvest in the United States in 1937 exceeds the acreage determined by the Agricultural Adjustment Administration to be required with normal yields to produce 1,550,000 short tons, raw value, of sugar. In the event the estimated total acreage of sugar beets planted for harvest in the United States in 1937 exceeds the acreage so determined, the acreage allotment for the farm shall be that percentage of the acreage of sugar beets grown on the farm in 1937 which is computed by dividing the acreage so determined to be required to produce 1,550,000 short tons, raw value, of sugar by the total acreage of sugar beets planted for harvest in the United States in 1937.

PART III. *Rates and Conditions of Soil-Building Payment.*

SEC. 1. *Soil-Building Practices and Rates.*—Payment will be made for carrying out on cropland or on non-crop pasture land in 1937 any of the soil-building practices listed below, provided that the soil-building payment with respect to any farm shall not exceed the soil-building allowance for the farm. The soil-building practices prescribed in this section shall not be eligible for payment unless such practices are carried out in a locality where, in the determination of the State committe, such practices are desirable from the standpoint of agricultural conservation and are carried out in conformity with methods generally recognized as desirable for the locality, and which tend to effectuate the purposes of the 1937 agricultural conservation program. Payments will not be made for more than one practice carried out on the same acreage in 1937, except that payments will be made for the practice prescribed in Item H in addition to any one of the practices prescribed in Items A, B, C, E, and N; and payments will be made for the practice prescribed in Item O, in addition to any of the practices prescribed in Items A, B, C, D, E, H, J, K, and L.

*Practices and Conditions—Rate of Payment*

A. *Perrenial Legumes,* including alfalfa, white clover, and such other perennial legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on cropland in 1937, when good seed of an adapted variety is used, either alone or with a nurse crop which is not harvested for grain or hay: $4.00 per acre.

2. Seeding on cropland in 1937, when good seed of an adapted variety is used under either of the following conditions: $2.50 per acre:

a. Without establishment of a good stand, if seeded alone or with a nurse crop which is not harvested for grain or hay.
b. With or without establishment of a good stand, if seeded with a nurse crop which is harvested for grain or hay.

B. *Biennial Legumes* (except sweet clover), including red clover, alsike clover, and Mammoth clovers, and such other biennial legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on cropland in 1937, when good seed of an adapted variety is used, either alone or with a nurse crop which is not harvested for grain or hay: $3.00 per acre.

2. Seeding on cropland in 1937, when good seed of an adapted variety is used under either of the following conditions: $2.00 per acre:

a. Without establishment of a good stand, if seeded alone or with a nurse crop which is not harvested for grain or hay.
b. With or without establishment of a good stand, if seeded with a nurse crop which is harvested for grain or hay.

C. *Sweet Clover,* and such annual legumes as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on cropland in 1937, either alone or with a nurse crop which is not harvested for grain or hay: $2.00 per acre.

2. Seeding on cropland under either of the following conditions: $1.00 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.
b. With or without establishment of a good stand, if seeded with a nurse crop which is harvested for grain or hay.

D. *Perennial grasses,* including bluegrass, orchard, brome, grama, wheat grasses (except crested wheat grass), rye grasses, Reed's canary grass, timothy, redtop, meadow fescue, and such other perennial grasses as are approved by the Director of the Western Division.

1. Seeding and establishment of a good stand on cropland in 1937, either alone or with a nurse crop which is not harvested for grain or hay: $3.50 per acre.

2. Seeding on cropland in 1937, under either of the following conditions: $2.00 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.
b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

E. Mixtures of Grasses and Legumes recommended by the State Experiment Station and approved by the State committee.

1. Seeding and establishment of a good stand on cropland in 1937, either alone or with a nurse crop which is not harvested for grain or hay: $3.50 per acre.

2. Seeding on cropland in 1937, when seeded under either of the following conditions: $2.00 per acre:

a. Without establishment of a good stand if seeded alone or with a nurse crop which is not harvested for grain or hay.
b. With or without establishment of a good stand if seeded with a nurse crop which is harvested for grain or hay.

F. *Crested Wheat Grass* seeded on cropland in 1937: $3.00 per acre.

G. *Restoration of Land to Native Grasses* on which a crop was harvested or seeded for harvest at least once since January 1, 1930, and which, in accordance with good farming practices should be permanently devoted to grass: Provided, that

1. The operator and owner have designated the acreage and stated his or their intention to restore such acreage to grass; $0.25 per acre;

2. Approval has been obtained from the county committee;

3. Such land is not pastured, cropped or tilled in 1937; and

4. Any volunteer growth containing noxious weeds is clipped before formation of visible seeds.

H. *Application of Soil Amendments.*—Superphosphate applied to cropland seeded to perennial or biennial legumes in 1937, at a rate per acre of not less than 60 pounds of available $P_2O_5$: $2.25 per acre.

I. *Approved Summer Fallow,* embodying seasonal cultivation in 1937 in a manner which will leave a rough and cloddy surface without previous destruction of crop residue, and sufficient subsequent cultivation to prevent vegetative growth, provided no soil-depleting crop is grown for harvest in 1937 on such acreage: $0.50 per acre.

J. *Green Manure Crops.*—

1. Annual legumes including vetches, clovers, beans, peas, and grain and legume mixtures, and such other annual legumes as are approved by the Director of the Western Division, when seeded on irrigated cropland or interplanted in orchards, if turned under in the spring of 1937 after having attained a vigorous vegetative growth, or when seeded in the spring if turned under, after having attained a minimum of two months' unpastured growth: $2.00 per acre.

2. Perennial and biennial legumes including alfalfa and sweet clover and such other legumes as are approved by the Director of the Western Division, when grown on irrigated cropland and a good stand is turned under after having attained a minimum of two months' unpastured growth in 1937: $2.00 per acre.

3. Perennial and biennial legumes including alfalfa and sweet clover, and such other legumes as are approved by the Director of the Western Division, when grown in orchards and full growth of a good stand is mechanically incorporated into the surface soil in 1937 provided no part of the year's growth is removed from the land where grown, either mechanically or by pasture: $1.00 per acre.

4. Small grains, including rye, oats, barley and grain mixtures, and such other small grains as are approved by the Director of the Western Division, when seeded on irrigated cropland or interplanted in orchards if turned under in 1937 during or prior to the blooming stage: $1.00 per acre.

K. *Forest trees.*—

1. When planted on cropland in 1937, for woodlot purpurposes, if not less than 400 trees are planted per acre: $10.00 per acre.

2. When planted on cropland in 1937, for windbreak purposes, when planted in rows at right angles to the direction of the prevailing winds, providing trees are spaced not more than 8 feet apart in rows 6 to 10 feet apart: $0.06¼ per rod-row.

3. Maintaining forest trees planted since January 1, 1934 by cultivation of interspaces and replacement of any dead trees to not less than 200 living trees per acre at the time performance is determined: $4.00 per acre.

L. *Perennial Weed Control.*[2]—

1. Chemical treatment, when after obtaining the prior approval of the county committee, seriously infested areas are controlled by the application of chemicals in accordance with specifications issued by the Director of the Western Division: $10.00 per acre.

2. Periodic cultivation, when after obtaining the prior approval of the county committee, seriously infested areas are controlled by bi-weekly cultivations, in accordance with specifications issued by the Director of the Western Division: $5.00 per acre.

M. *Prevention of Water Erosion.*—When, after prior approval by the county committee of proposed plans submitted by the operator, water erosion control practices are carried out in 1937, as follows:

1. For furrowing on the contour, furrows to be not less than 8 inches in width and 4 inches in depth, dammed at intervals of not more than 100 feet, and constructed at intervals so as to result in vertical distances between the furrows, not to exceed one-foot drop on 2 percent slope, two-foot drop on 4 percent slope, three-foot drop on 8 percent slope, or four-foot drop on 12 percent slope: $0.05 per 100 linear feet of furrowing not to exceed $2.00 per acre.

2. For constructing and maintaining permanent dams for diversion of flood waters, or for filling shallow gullies, not more than four feet deep, when accompanied by the construction of adequate dams to prevent washing out: $0.15 per cubic yard of fill.

N. *Reseeding Non-Crop Pasture Land.*—For reseeding depleted non-crop pasture land with good seed of adapted varieties of perennial grasses or mixtures recommended by the State Experiment Station and approved by the State committee: $0.20 per pound of seed sown, not to exceed $2.00 per acre.

O. *Prevention of soil erosion and leaching of plant food,* from irrigated land by control of the application of irrigation water; provided, (a) the water distribution system and control structures meet specifications recommended by the State committee and approved by the Director of the Western Division and are such as to make possible adequate control of irrigation water applications, (b) the water distribution system and control structures, as well as the number of acres to be irrigated in accordance with this practice, are approved by the county committee prior to the irrigation season, (c) the operator of the farm keeps accurate records of the use of water and crop/s seeded on each field in the area approved for irrigation (these records of water use and crop/s seeded shall be kept on forms to be prescribed by the State committee and approved by the Director of the Western Division, and shall be made available to the county committee for the determination of performance), (d) erosion has not occurred as a result of too frequent application of water on the area approved for irrigation; and further provided that; $2.00 per acre:

1. No single application of water on the area approved for irrigation exceeds six inches in depth; except that if

2. One, but not more than one, application of water on the area approved for irrigation exceeds six inches but does not exceed seven inches, payment will be made at two-thirds of the full rate;

3. One, but not more than one, application of water on the area approved for irrigation exceeds seven inches but does not exceed eight inches, payment will be made at one-third of the full rate.

SEC. 2. *Soil-Building Allowance.*—The soil-building allowance for a farm shall be computed as follows:

A. For a diversion farm, $10.00 or the sum of the following items, whichever is greater:

1. $1.00 for each acre of soil-conserving crops on the farm in 1937 not in excess of the soil-conserving base.

2. $4.00, varying among individual farms as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States,[1] for each acre diverted for payment from the soil-depleting base.

3. Eighty cents, varying among individual farms as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States,[2] for each acre devoted to commercial orchards on the farm.

4. $1.00 for each acre of commercial orchards on the farm.

5. $1.00 for each acre of cropland on which only one crop of commercial vegetables was grown in 1936.

6. $2.00 for each acre of cropland on which two or more crops of commercial vegetables were grown on the same acreage in 1936.

7. Fifty cents for each animal unit, in excess of five, which the non-crop pasture land on the farm will carry during the normal pasture season.

B. For a non-diversion farm, $20.00 or the sum of the following items, whichever is greater:

1. Eighty cents, varying among individual farms as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States, for each acre of cropland on the farm in 1937.[1]

2. $1.00 for each acre of commercial orchards on the farm.

3. $1.00 for each acre of cropland on which only one crop of commercial vegetables was grown in 1936.

4. $2.00 for each acre of cropland on which two or more crops of commercial vegetables were grown on the same acreage in 1936.

5. Fifty cents for each animal unit, in excess of five, which the non-crop pasture land on the farm will carry during the normal pasture season.

*Part IV. Rates and Conditions of Range-Building Payments*

SEC. 1. *Range-Building Practices and Rates.*—Payment will be made for the carrying out on range land in 1937 such of the following range-building practices as are approved by the county committee for the ranching unit, prior to their institution:

[1] The methods to be followed in determining the productivity of the cropland on the farm are contained in Western Region Bulletin No. 102.

[2] Payment for the adoption of perennial weed control practices shall be limited to control of the following noxious weeds: White top, Wild morning glory, Canada thistle, Russian knapweed, and Perennial sow thistle.

[1] See Footnote 2 on Page 730.

*Practices and Conditions—Rate of Payment*

A. *Contouring.*—For furrowing on the contour, furrows to be not less than 8 inches in width and 4 inches in depth, dammed at intervals of not more than 100 feet, and constructed on slopes in excess of 2 percent, with intervals between furrows not more than 25 feet: $0.50 per acre.

B. *Development of springs and seeps.*—For digging out each spring or seep, protecting the source from trampling, and conveying the water in a trough or in a pipe to a tank, watering trough, or reservoir: $50.00 per spring or seep.

C. *Earthen pits or reservoirs for holding run-off and impounding precipitation.*—For constructing earthen pits or reservoirs, with spillways adequate to prevent dams from washing out, in accordance with specifications issued by the Director of the Western Division: $0.15 per cubic yard of fill or excavation.

D. *Wells.*—For drilling or digging of wells, including deepening of existing wells, casing to be not less than 4 inches in diameter, provided a windmill or power pump is installed, and the water is conveyed to a tank or storage reservoir. An artesian well may qualify for payment provided adequate stock water is made available during the grazing season and the water is conveyed to a tank or storage reservoir: $1.00 per linear foot.

E. *Water Spreading to Prevent Soil Washing.*—For construction and maintaining permanent ditching for the diversion of surface water to prevent soil washing, not including any temporary field ditching or any ditching for the purposes of irrigation, subsurface drainage or under-drainage, or primarily for any purpose other than the prevention of soil washing: $0.10 per 100 linear feet of permanent ditching. (See Farmers' Bulletin No. 1606, "Farm Drainage," published by the U. S. Deparment of Agriculture).

F. *Range Fences.*—For building cross fences or drift fences, constructed as follows: (a) not fewer than three tightly stretched wires, attached to posts set not more than 20 feet apart, with corner posts well braced, or (b) not fewer than three poles, or rails, nailed, with nails not smaller than 40-penny spikes, to posts or jacks spaced not more than 18 feet apart; all corner posts, poles, rails, and jacks to be good and sound: $0.30 per rod.

G. *Rodent Control.*—For destroying at least 90 percent of the range-destroying rodents on an infested area as follows:

1. Pocket Gophers: $0.15 per acre.
2. Ground Squirrels: $0.06 per acre.
3. Prairie Dogs: $0.07½ per acre.

H. *Reseeding.*—For reseeding depleted range land in 1937 with good seeds of adapted varieties of perennial grasses approved by the Director of the Western Division: $0.20 per pound of seed sown.

I. *Fireguards.*—For the establishent of fireguards, not less than 4 feet in width, by plowing furrows or otherwise exposing the mineral soil: $0.03 per 100 linear feet.

J. *Natural Reseeding by Deferred Grazing.*—Payment will be made for withholding range land from grazing for the period (from the start of forage growth to seed maturity) established by the State committee, at a rate of 35 cents per full month or such period for each animal unit of that number of animal units, not in excess of 25 percent of the grazing capacity, which is the same percentage of the grazing capacity of the ranching unit as the acreage upon which grazing is deferred is of the total acreage of range land in the ranching unit. Payment will not be made for this practice if, (1) the operator permits the remainder of the range land in the ranching unit to be grazed to an extent that causes deterioration of such range land, or (2) the deferred grazing is carried out on range land in the ranching unit which normally is not used for grazing during such period: $0.35 per animal unit for each full month.

SEC. 2. *Range-Building Allowance.*—The range-building allowance for any ranching unit shall be equal to $1.50 times the grazing capacity of the range land in the ranching unit.

SEC. 3. *Range-Building Payment.*—Payments made for carrying out range-building practices shall not be subject to deductions for increase in the acreage of soil-depleting crops.

SEC. 4. *Eligibility for Payment.*—Application for range-building payment may be made only by ranch operators. In case there are two or more ranch operators, the application must be made by all the ranch operators.

Range-building payments will be made to (1) a sole ranch operator or (2) each ranch operator of a group of two or more ranch operators; Provided, all ranch operators signify in the application for payment a percentum of the total payment under the application for payment to be made to each ranch operator.

*Part V. Division of Payments*

SEC. 1. *Division of Payments Between Owner and Operator.*—

A. All payments, except sugar beet and range-building payments, shall be divided among owners and share-tenants, in the same proportion as the principal crop or the proceeds thereof is divided under their lease or operating agreement. The term "principal crop" as used herein means the soil-depleting crop to which the greatest number of acres on the farm is devoted in 1937; Provided, however, That

1. If there is no soil-depleting crop which has a larger acreage in 1937 than any other soil-depleting crop, the principal crop shall be the soil-depleting crop which is of major importance in terms of acreage in the county in which such farm is located.

2. If there is no soil-depleting crop seeded on the farm for harvest in 1937, the principal crop shall be the soil-conserving crop having the largest 1937 acreage.

Upon recommendation of the State Committee or the Agricultural Adjustment Administration, and approval by the Secretary, a different basis for determining the principal crop may be employed.

B. The sugar beet payments shall be divided among owners and share-tenants in the same proportion as the sugar beet crop, or the proceeds thereof, is divided under their lease or operating agreement.

C. All payments shall be made without regard to questions of title under State law, without deductions of claims for advances, and without regard to any claim or lien against the crop, or proceeds thereof, in favor of the owner or any other creditor.

SEC. 2. *1937 Owner or Operator Entitled to Payments.*—All payments, except sugar beet and range-building payments, shall be made to the 1937 owner or operator who shares in the principal crop on the farm in 1937. However, if the county committee determines that a 1937 operator of a farm, who did not share in such principal crop, did contribute as an operator to performance on the farm qualifying for such payments, such operator shall be entitled to such portion of the operator's share of the payment to be made with respect to the farm as is agreed upon in writing by the operators entitled to share in such payments and is approved by the county committee, or as is determined by the county committee in the absence of such agreement.

*Part VI. General Conditions for Payment*

SEC. 1. *Modifications for Farms under Special Programs.*—On any farm where a program is carried out in cooperation with the Soil Conservation Service or the Resettlement Administration, payment will be made only for such diversion and for carrying out such soil-building practices as are, prior to performance, approved for the farm by the County Committee in accordance with instructions issued by the Secretary.

SEC. 2. *Destruction of Foods, Fibers, and Feed Grains.*—Notwithstanding any of the provisions of Parts II, III, and IV, of this bulletin no payments will be made for changes in the use of land which involve the destruction of foods, fibers, or feed grains.

SEC. 3. *Payments Restricted to Effectuation of Purposes of the Program.*—Notwithstanding any of the provisions of Parts II, III, and IV of this bulletin, payment will be withheld if the Secretary determines that any rotation, cropping, or other practices adopted in 1937 tend to defeat the purposes of the 1937 Agricultural Conservation Program.

SEC. 4. *Deductions for Increase in Acreage of Soil-Depleting Crops.*—If the 1937 acreage of soil-depleting crops on any farm is in excess of the soil-depleting base for the farm, a deduction shall be made from the payment which otherwise would be made with respect to such farm in an amount computed by multiplying the number of such excess acres by the rate per acre determined for the farm under Section 1 of Part II; *Provided, however*, that if the soil-depleting base for the farm is less than 20 acres, such deduction shall be computed only with respect to the 1937 acreage of soil-depleting crops in excess of 20 acres.

SEC. 5. *Change in Lease or Cropping Agreements Affecting Payments to Tenants.*—If the Secretary, upon the basis of an investigation by the State Committee, finds that any person has for 1937 made any change from the 1935 or 1936 leasing or cropping agreement for the farm for the purpose of, or which would have the effect of, diverting to such person any payment to which tenants would be entitled if the 1935 or 1936 leasing or cropping agreement were in effect for 1937, the amount of any payment which otherwise would be made to such person may be withheld, in whole or in part, and payments may be made to, or divided among, such tenants in proportion to the share of the principal crop to which such tenants were entitled under the 1935 or 1936 leasing or cropping agreement.

SEC. 6. *Practices Not Qualifying for Payment.*—

A. No payment will be made with respect to any soil-building or range-building practice unless it is carried out in accordance with the general standards of good farming or good ranching practices.

B. No payment shall be made with respect to any soil-building or range-building practice for which the labor, seed, or materials are furnished by any State or Federal agency.

SEC. 7. *Association Expenses.*—There shall be deducted pro rata from the payments made to members of each County Agricultural Conservation Association all or such part as the Secretary may prescribe, of the estimated administrative expenses incurred or to be incurred by such Association in cooperating in carrying out in such county the purposes of the Soil Conservation and Domestic Allotment Act.

There shall be credited to each County Agricultural Conservation Association for the payment of administrative expenses the amount of $2.00 per farm for that number of farms with respect to which it is estimated by the Agricultural Adjustment Administration the total payment (prior to deduction of any administrative expenses) will be $20.00 or less.

SEC. 8. *Application and Eligibility for Payment.*—

A. Payments will only be made upon application filed with the county committee. Each person applying for a payment will be required to show that work sheets have been executed either in 1936 or 1937 covering all land in the county owned or operated by him, and the extent to which the conditions upon which the payment is to be made have been met in 1937. Any person applying for a payment who owns or operates land in more than one county in the State may be required to file in the office of the State committee a list of all such land.

B. An application for a payment may be made by an owner, share-tenant, ranch operator or such other person as may be designated by the Secretary.

C. A farming or ranching unit located in two or more adjoining counties shall be regarded as located in the county in which the principal dwelling thereon is located, or if there is no such principal dwelling, such farming or ranching unit shall be regarded as located in the county in which the major portion of such farming or ranching unit is located.

SEC. 9. *Land to be Covered by Work Sheet.*—

A. Where one or more farms in the same county are under the same ownership and are operated in 1937 as part or all of a single farming unit by the same operator, such farm or farms shall be covered by one work sheet.

B. Where two or more farms in the same county are under different ownerships, even though they are operated in 1937 as part or all of a single farming unit by the same operator, each separately owned farm shall be covered by a separate work sheet.

C. Where two or more farms in the same county are under the same ownership and are operated in 1937 as separate farming units, each separately operated farm shall be covered by a separate work sheet.

D. Where land comprising part of a farming unit is rented on shares and land comprising part of the same farming unit used for hay, meadow, pasture, or similar uses is rented for cash from the same landlord, it will not be necessary to execute more than one work sheet for both such share-rented and such cash-rented land.

E. Where land comprising part of a farming unit is rented on shares and land comprising part of the same farming unit not used for hay, meadow, pasture, or similar uses, is rented for cash from the same or a different landlord, it will be necessary to execute a work sheet for such share-rented land and a separate work sheet for such cash-rented land.

*Part VII. Establishment of Bases*

SEC. 1. *Soil-Depleting Base.*—There will be established a soil-depleting base for each farm which shall represent the acreage normally used for the production of soil-depleting crops on such farm.

A. On each farm for which a work sheet was executed under the 1936 Agricultural Conservation Program, such soil-depleting base for the farm in 1937 shall be the total soil-depleting base which was established for the farm under the 1936 Agricultural Conservation Program, subject to necessary acreage adjustments based on land measurements made in connection with the 1936 and 1937 Agricultural Conservation Programs, changes in crop classifications, and further adjustments that will result in a soil-depleting base for the farm which is comparable with soil-depleting bases for other farms in the same community which are similar with resepct to size, type of soil, topography, production facilities, type of farming, and farming practices.

B. On farms for which no work sheet was executed under the 1936 Agricultural Conservation Program, the soil-depleting base shall be the acreage of all soil-depleting crops seeded for the 1936 harvest subject to the following adjustments:

1. Where, because of weather conditions, the number of acres of soil-depleting crops seeded for harvest in 1936 was greater or less than the acreage of such crops usually seeded on the farm, such number of acres shall be decreased or increased to an acreage which is comparable to the acreage of such crops seeded on such farm under normal conditions in past years.

2. Where the acreage of soil-depleting crops seeded for harvest in 1936 for any farm, adjusted if necessary as heretofore indicated, is materially greater or less than the acreage of soil-depleting crops seeded for harvest in 1936 on farms in the same community which are similar with respect to size, type of soil, topography, production facilities, and farming practices, such adjustment shall be made as will result in a soil-depleting base for such farm which is equitable, as compared with the soil-depleting bases for such other similar farms.

C. A county limit for the farms participating in the program in each county will be established by the Agricultural Adjustment Administration and the aggregate of the soil-depleting bases established in each county shall not exceed the county limit for such county unless a variance therefrom is recommended by the State committee and approved by the Agricultural Adjustment Administration. In establishing county limits, the Agricultural Adjustment Administration shall consider the ratio of all acreage of soil-depleting crops in the county to all cropland on all farms in the county, the ratio of soil-depleting bases established in the county to the acreage of cropland on all farms for which such bases have been established, and any other pertinent information which is available.

SEC. 2. *Soil-Conserving Base.*—The soil-conserving base shall be equal to the total acreage of cropland less the soil-depleting base and the acreage in commercial orchards on the farm on January 1, 1937.

SEC. 3. *Establishment of Grazing Capacity.*—There will be established a grazing capacity for each ranching unit for which an application for determination of grazing capacity is received. Such grazing capacity shall be based upon the report submitted by the range examiner, who, in examining the range and making his report thereon, will take into consideration the following: (a) composition, palatability, and density of growth; (b) climatic fluctuations; (c) distribution and character of watering facilities; (d) topographic and cultural features; (e) classes of livestock; (f) presence or absence of rodents and poisonous plant infestations; and (g) previous use. The average of the individual grazing capacities established for all ranching units in a county shall

not exceed the county average grazing capacity limit for such land.

*Part VIII. Classification of Land Uses*

Farm land, when devoted to the crops or uses indicated hereinafter, shall be classified as follows, except for such additions or modifications as may be recommended by the State Committee or the Agricultural Adjustment Administration, and approved by the Secretary.

SEC. 1. *Soil-Depleting Crops.*—Land devoted to any of the following uses or crops shall be regarded as used for the production of a soil-depleting crop for the year in which such crop would normally be harvested; except as indicated in sections 2 and 3 of this part VIII.

a. Corn (field, sweet and popcorn).
b. Potatoes.
c. Sugar beets for sugar or seed.
d. Cultivated sunflowers.
e. Annual truck, canning, and vegetable crops, and their seeds.
f. Melons.
g. Sorghums, including grain sorghums, sweet sorghums, and sudan grass for seed, grain, hay, or pasture.
h. Sweet sorghums for syrup.
i. Small grains including flax, for grain or hay, or pasture. (See subsection a of Sec. 2.)
j. Millets. (See subsection b of Sec. 2).
k. Soybeans, field beans, cowpeas, field peas, and seed peas, for grain, hay, pasture or canning purposes. (See subsection f of Sec. 3).
l. Root crops grown for feed or seed.
m. Fiber plants.
n. Annual cut flowers and their seeds.
o. Rape.
p. Cultivated fallow (summer fallow) including approved summer fallow.

SEC. 2. *Soil-Conserving Crops.*—Land devoted to any of the following uses or crops in 1937 shall be regarded as used for the production of a soil-conserving crop:

a. The following grasses and legumes, and such other grasses and legumes as may be approved by the Director of the Western Division, without a nurse crop, or with a nurse crop if such nurse crop is not harvested for grain or hay:

1. Legumes: Alfalfa; sweet, red, alsike, white, strawberry, ladino, Mammoth, crimson, bur, and sour clovers; and mixtures thereof.

2. Grasses: Bluegrass, orchard, wheat grasses, rye grasses, timothy, redtop, bent grasses, fescues, tall oat grass, Reed's canary grass, Dallis, brome, grama, and mixtures thereof.

3. Grass and Legume Mixtures: Mixtures of 1 and 2 above.

b. Cover and green manure crops, including annual, biennial, and perennial legumes; rye, barley, oats, and grain mixtures; vetches; and such other crops as may be approved by the Director of the Western Division; when turned under in 1937, after attaining at least two months' growth; except when followed by summer fallow on non-irrigated cropland.

c. Forest trees when planted on cropland since January 1, 1934.

SEC. 3. *Neutral Uses.*—Land devoted to the following uses or crops shall be regarded as devoted to neutral uses:

a. Orchards, vineyards, tree fruits, nut trees, bush, and small fruits, including strawberries, regardless of the use of the land between the rows.

b. Perennial vegetables, including asparagus, horseradish, and rhubarb.

c. Nursery stocks, including perennial ornamentals and perennial cut flowers, and their seeds.

d. Bulbs.

e. Idle crop land.

f. Any acreage upon which perennial or biennial legumes or perennial grasses are seeded in the fall of 1937 following summer fallow, when no soil-depleting crop is seeded on such land for harvest in 1937.

g. Cropland planted to forest trees between January 1, 1930, and December 31, 1933.

*Part IX. Appeals*

SEC. 1. *Appeals from Determinations of County Committee.*—Any person who has reason to believe that any base, productivity index, grazing capacity, or any division of payment, determined for his farm or ranching unit by the county committee, is not equitable, may request such committee to reconsider its determination. If no agreement is reached between such person and such committee, an appeal may be taken in accordance with such rules as may be prescribed by the Secretary.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the city of Washington, District of Columbia, this 20th day of April, 1937.

RULES AND REGULATIONS OF THE SECRETARY OF AGRICULTURE FOR CARRYING OUT THE PROVISIONS OF THE PERISHABLE AGRICULTURAL COMMODITIES ACT, 1930, AS AMENDED

AMENDMENT TO SERVICE AND REGULATORY ANNOUNCEMENTS NO. 121, REVISED

By virtue of the authority vested in the Secretary of Agriculture by an "Act to suppress unfair and fraudulant practices in the marketing of perishable agricultural commodities in interstate and foreign commerce, approved June 10, 1930 (46 Stat. 531), as amended April 13, 1934 (48 Stat. 584) and June 19, 1936 (49 Stat. 1533)," I, H. A. Wallace, Secretary of Agriculture, do make, prescribe and give public notice of the following amendments to the Rules and Regulations of the Secretary of Agriculture under said Act (Service and Regulatory Announcements No. 121, Revised) approved August 4, 1934.

Amend Regulation 5, section 2, paragraph 5, to read as follows:

PAR. 5. Where the amount of damages claimed does not exceed $500, a hearing need not be held unless deemed necessary or desirable by the Chief of the Bureau or the Solicitor, or granted upon application of complainant or respondent setting forth the peculiar circumstances making such hearing necessary for a proper presentation of the case. Proof in support of the complaint and the answer may be supplied in the form of depositions or verified statements of fact. Complainant's opening statement of facts should be mailed to the Solicitor within fifteen days following receipt of the Solicitor's notice that the case is to be submitted without a formal hearing. Respondent will have fifteen days from receipt of complainant's opening statement in which to furnish an answering statement of facts, and complainant will then have five days from receipt of respondent's answering statement in which to file a reply thereto. All such statements must be furnished in triplicate. Application for the furnishing of proof in deposition form must be promptly made and the information furnished as required by Regulation 5, section 3. Either party failing to furnish proof in the manner and within the time above specified, unless such time has been extended, will be deemed to have waived the furnishing thereof, and the disputed issues of fact and law may, subject to paragraph 7 of this section, be considered and decided upon the pleadings and attached exhibits, together with such proof as the opposing party may furnish.

Amend Regulation 5, section 2, by adding a new paragraph to be numbered 8, reading as follows:

PAR. 8. When a complaint has been regularly served upon the respondent therein named and such respondent thereafter fails or refuses to file an answer thereto, the verified complaint and attached exhibits, if any, may, subject to paragraph 7 of this section, be accepted both as a pleading and as proof.

Amend Regulation 5, section 5, paragraph 3, to read as follows:

PAR. 3. After an order has been issued the Secretary will consider an application for the reconsideration of such order when

a written petition for such proceeding is filed with the Chief of Bureau within fifteen days after such order has been served upon petitioner, provided such petition sets forth, (1) some fact or facts which disclose that the damages awarded are excessive or inadequate, or (2) the discovery of material evidence, together with a statement thereof, which was not available to petitioner prior to the hearing, or (3) the statement of some fact or facts which prima facie show that the proceedings did not conform to the requirements of the law.

Amend Regulation 8, section 1, by adding new paragraphs to be numbered 25, 26, 27, 28 and 29, reading as follows:

PAR. 25. The term "Guaranteed advance", as used in connection with an advance payment on consigned produce, shall be deemed to mean that the party making the advance guarantees that the net proceeds to the consignor shall at least equal the amount so advanced, and in any case where a guaranteed advance is made the consignor cannot be held liable for any deficit resulting from the sale of the produce, if such deficit is not occasioned by or contributed to by some act or acts of the consignor.

PAR. 26. The term "Accommodation advance, or regular advance", as used in connection with an advance of money or credit against anticipated net proceeds to be realized from the sale of consigned produce, shall be deemed to mean that the shipper has received an advance of money or credit and if the consigned produce does not sell for enough to cover the cost of transportation and handling, including customary or agreed commission and the advance made to him, the shipper must return to the one making the advance a sum equal to the deficit sustained.

PAR. 27. The term "Price arrival", in the absence of a contrary specific understanding, shall be deemed to mean that the produce is shipped either direct to the customer or to an agent of the shipper, for the benefit of the customer, the price to be subject to agreement between the customer and the shipper upon the arrival of the goods at the customer's destination and with sufficient time being permitted for inspection.

PAR. 28. The term "F. O. B. inspection and acceptance arrival" shall be deemed to mean that the commodity quoted or sold is to be placed by the seller free on board car or other agency of through transportation at shipping point, the cost of transportation to be borne by the buyer, but the seller to assume all risks of loss and damage in transit not caused by the buyer who has the right to inspect the goods upon arrival and to reject them if upon such inspection they are found not to meet the specifications of the contract of sale at destination. The buyer may not reject without reasonable cause. Such a sale is f. o. b. only as to price and is on a delivered basis as to quality and condition.

PAR. 29. The term "F. O. B. sale at delivered price" shall be deemed to mean the same as f. o. b. except that transportation charges from shipping point to destination shall be borne by the seller, that is, the sale is f. o. b. as to quality and delivered as to price.

In testimony whereof, I have hereunto set my hand and caused the signature of the Secretary of Agriculture to be affixed in the City of Washington, this 16th day of April, 1937.

IN THE MATTER OF AN OFFERING SHEET OF A WORKING INTEREST IN THE COX-MCCLUSKEY FARM, FILED ON APRIL 14, 1937, BY H. J. COX, RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340(A)) AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

In that the date upon which the information contained in the offering sheet will be out of date, as set forth in Division I, paragraph 8, is not correct by reason of the fact that the statement is made in Division II, Item 27, of the offering sheet that the date as of which the information is given is January 12, 1937;

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 19th day of May, 1937; that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that Charles S. Lobingier, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 4th day of May, 1937, at 10:30 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 10th day of April, 1937.

IN THE MATTER PROCEEDING BEFORE THE SECURITIES AND EXCHANGE COMMISSION TO DETERMINE WHETHER DART & COMPANY, ET AL. SHOULD BE SUSPENDED OR EXPELLED FROM MEMBERSHIP ON CERTAIN NATIONAL SECURITIES EXCHANGES, PURSUANT TO SECTION 19 (A) (3) OF THE SECURITIES EXCHANGE ACT OF 1934

ORDER AMENDING ORDER OF FEBRUARY 16, 1937, AND AMENDING CAPTION

Whereas, the Commission by order dated February 16, 1937, directed Dart & Company, a partnership consisting of Harry A. Dart, Meyer Steinberg, Nathan Steinberg, Abraham Koven, Herbert LaVigne and George Blumenthal and Harry A. Dart, Meyer Steinberg, Nathan Steinberg and Abraham Koven as individuals, to appear before an officer of the Commission and show cause why they should not be suspended or expelled from membership on the Detroit Stock Exchange and the Chicago Stock Exchange pursuant to Section 19 (a) (3) of the Securities Exchange Act of 1934; and

Whereas, the Commission by orders dated March 1, 1937, and March 24, 1937, changed the date for the said hearing; and

Whereas, it now appears to the Commission that Herbert LaVigne and George Blumenthal are not now and never have been partners of Dart & Company, a partnership;

It is ordered that the Commission's order dated February 16, 1937, be amended so as to strike therefrom the names of

Herbert LaVigne and George Blumenthal wherever the same may appear, and that the caption of said order and of all other orders entered in said proceedings be amended by striking therefrom the names of Herbert LaVigne and George Blumenthal.

IN THE MATTER OF AN OFFERING SHEET OF NON-PRODUCING LANDOWNER'S ROYALTY INTERESTS IN THE ANDERSON-PRICHARD OIL CORP.-SWISHER LEASE, FILED ON NOVEMBER 21, 1936, BY G. E. FISHER, RESPONDENT

PERMANENT SUSPENSION ORDER

The Securities and Exchange Commission initiated this proceeding pursuant to the provisions of Rule 340 of the General Rules and Regulations promulgated by the Commission under the Securities Act of 1933, as amended, to determine whether or not an order should be entered suspending the effectiveness of the filing of an offering sheet of non-producing landowner's royalty interests in the Anderson-Prichard Oil Corp.-Swisher Lease, located in Oklahoma County, Oklahoma, which offering sheet was filed with the Commission on November 21, 1936, by G. E. Fisher, of Oklahoma City, Oklahoma, the respondent herein.

This matter having come on regularly for hearing before the Commission at Washington, D. C., on December 22, 1936, and due notice thereof having been given to the said respondent, and the said respondent having failed to appear, and evidence both oral and documentary having been introduced, and the hearing having been closed, and the Commission having found upon the evidence that said offering sheet is misleading and incomplete and inaccurate in material respects, and omits to state material facts required to be stated therein and fails to comply with certain material requirements of the Rules and Regulations of the Commission, all as set forth in the *Findings and Opinion of the Commission* filed in this proceeding, and it appearing appropriate in the public interest so to do;

It is ordered, pursuant to Rule 340 (b) of the Commission's General Rules and Regulations promulgated under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be and the same hereby is permanently suspended.

By the Commission.

## DEPARTMENT OF AGRICULTURE.

### Agricultural Adjustment Administration.

### Order Regulating the Handling of Onions Grown in the State of Utah

Whereas, it is provided in Section 8c of the Agricultural Adjustment Act, approved May 12, 1933, as amended (hereinafter called the act), as follows:

(1) The Secretary of Agriculture shall, subject to the provisions of this section, issue, and from time to time amend, orders applicable to processors, associations of producers, and others engaged in the handling of any agricultural commodity or product thereof specified in subsection (2) of this section. Such persons are referred to in this title as "handlers." Such orders shall regulate, in the manner hereinafter in this section provided, only such handling of such agricultural commodity, or product thereof, as is in the current of interstate or foreign commerce, or which directly burdens, obstructs, or affects, interstate or foreign commerce in such commodity or product thereof;

and

Whereas, the Secretary of Agriculture, having reason to believe that the issuance of an order would tend to effectuate the applicable provisions of the declared policy of the act with respect to onions grown in the State of Utah, by establishing and maintaining such marketing conditions for said onions as would reestablish prices to farmers at a level that will give such onions a purchasing power with respect to articles that farmers buy, equivalent to the purchasing power of such onions in the base period, gave notice on the 5th day of November 1936, pursuant to the applicable provisions of the act and the regulations thereunder, of a hearing to be held in Salt Lake City, Utah, on November 14, 1936, on a proposed order regulating the handling of said onions, and upon said date and at said place conducted a public hearing thereon, giving due opportunity to all interested parties to be heard concerning said proposed order; and

Whereas, the Secretary of Agriculture has found and proclaimed that the purchasing power of onions grown in the State of Utah during the base period August 1909–July 1914 cannot be satisfactorily determined from available statistics of the Department of Agriculture, but that the purchasing power of such onions can be satisfactorily determined from available statistics of the Department of Agriculture for the period August 1919–November 1928; and

Whereas, the Secretary of Agriculture finds upon the evidence introduced at said hearing and the record thereof:

1. That customarily more than ninety percent (90%) of all carlot shipments of onions grown in Utah enter into the current of interstate and foreign commerce, and that the handling of said onions is in the current of interstate and foreign commerce and directly burdens, obstructs, and affects interstate and foreign commerce in the said commodity;

2. That for the period August 1929–July 1936 and the period August 1933–July 1936 the average price to farmers for said onions has represented sixty-four percent (64%) and seventy-three and three-tenths percent (73.3%), respectively, of the purchasing power of such onions during the aforesaid base period;

3. That, on the basis of conditions prevailing at the time of the said hearing, in order to give such onions in the 1936–1937 season a purchasing power with respect to articles that farmers buy equivalent to the average purchasing power of such onions in the aforesaid base period, it would have been necessary that the average price to farmers for said onions be approximately one dollar and thirty-two cents ($1.32) per one hundred (100) pounds;

4. That this order is limited in its application to the smallest regional production area that is practicable and consistent to carry out the applicable provisions of the declared policy of title I of the act with respect to establishing and maintaining such marketing conditions for onions grown in the State of Utah as will reestablish prices to growers that will give such onions a purchasing power with respect to articles that farmers buy equivalent to the purchasing power of such onions in the base period, and that the issuance of several orders applicable to any subdivision of the regional area covered by this order would not effectively carry out the said declared policy;

5. That there are no differences in the production and marketing of the principal varieties of said onions in the production area covered by this order that renders necessary different terms applicable to different parts of such area;

6. That the interest of the consumer is protected by reason of the fact that this order is designed to operate so as to bring about that approach to the level of prices which is declared to be the policy of Congress to establish by securing a gradual correction of the current level of prices at as rapid a rate as the Secretary of Agriculture deems to be in the public interest and feasible in view of the current consumptive demand in the domestic and foreign markets, and by reason of the fact that this order authorizes no action which has for its purpose the maintenance of prices to farmers above the level of prices which it is declared to be the policy of Congress to establish in subsection 1 of section 2 of said title 1;

7. That limiting the quantity of certain grades and sizes of such onions that may be shipped in the current of interstate or foreign commerce, as provided herein, will tend to restore prices to producers of onions in the State of Utah to a level having a purchasing power with respect to articles that producers buy equivalent to the purchasing power of said onions in the aforesaid base period;

8. That this order and all the terms and conditions thereof will tend to effectuate the applicable provisions of the declared policy of title I of the act with respect to onions grown in the State of Utah by establishing and maintaining such marketing conditions as will reestablish prices to producers at a level that will give agricultural commodities a purchasing power with respect to articles that producers buy equivalent to the purchasing power of agricultural commodities in the base period, at the same time protecting the interest of the consumer by (a) approaching the level of prices which it is declared to be the policy of Congress to establish in subsection (1) of section 2 of title I of the act by a gradual correction of the current level of prices at as rapid a rate as the Secretary of Agriculture deems to be in the public interest and feasible in view of the current consumptive demand in domestic and foreign markets, and by (b) authorizing no action which has for its purpose the maintenance of prices to producers above the level which it is declared to be the policy of Congress to establish in the said subsection (1) of section 2 of title I of the act; and

Whereas, the Secretary finds:

1. That the marketing agreement regulating the handling of onions grown in Utah, executed by him on the 22nd day of April 1937, upon which a hearing was held on November 14, 1936, was signed by handlers who handled during the 1935–1936 season more than ninety percent (90%) of the volume of said onions which was marketed during the said season in the current of interstate and foreign commerce;

2. That this order regulates the handling of such onions in the same manner as the aforesaid marketing agreement, and is made applicable only to persons in the respective classes of industrial and commercial activities which are specified in the said marketing agreement; and

3. That the issuance of this order is favored by producers who, during the 1935–1936 season, which is hereby determined to be a representative period, have produced within the State of Utah for market at least two-thirds (⅔) of the volume of onions produced in said season within the State of Utah for market.

Now, therefore, it is ordered by the Secretary of Agriculture, acting under the authority vested in him as aforesaid, that the handling of the said onions in the current of interstate and foreign commerce, or so as directly to burden, obstruct, or affect interstate or foreign commerce in such onions, from and after the date herein specified, shall be in conformity to and in compliance with the terms and conditions of this order.

#### ARTICLE I—DEFINITIONS

Section 1. *Definitions.*—As used in this order, the following terms have the following meanings:

1. "Secretary" means the Secretary of Agriculture of the United States.

2. "Act" means the Agricultural Adjustment Act, approved May 12, 1933, as amended.

3. "Person" means an individual, partnership, corporation, association, and any other business unit.

4. "Onions" means and includes all varieties of onions grown in and shipped from the State of Utah.

5. "Variety" means a type of onion having similar characteristics, as for example the yellow Spanish type, the white Spanish type, and the yellow Denvers type.

6. "To handle" or "to ship" means to sell for shipment in, to ship in, or in any other way to put into the channels of trade in the current of interstate or foreign commerce, or so as directly to burden, obstruct, or affect interstate or foreign commerce.

7. "Season" means the twelve-month period beginning August 1 and ending July 31, both inclusive.

8. "Producer" means any person who produces onions in the State of Utah, for sale or shipment in the current of interstate or foreign commerce, or in any manner whereby the same directly burdens, obstructs or affects interstate or foreign commerce.

9. "Handler" means any person who handles onions, including producers who handle onions of their own production or for others.

10. "Control Board" means the control agency selected in accordance with the provisions of article II of this order.

#### ARTICLE II—CONTROL BOARD

Section 1. *Membership and Organization.*—1. A Control Board consisting of seven (7) members is hereby established to assist the Secretary in the administration of this order. Within five (5) days after the effective date of this order, and between the 15th and 31st day of May annually thereafter, there shall be named twelve (12) nominees, and said nominations shall then be certified to the Secretary. The nominations shall be made as follows:

(a) Six (6) nominees shall be chosen in a general election in which all handlers shall be entitled to participate. At any such election each handler shall be entitled to cast but one (1) ballot on behalf of himself, agents, partners, affiliates, subsidiaries and representatives.

(b) Six (6) nominees shall be chosen by producers in the following manner: Two (2) nominees shall be chosen at a general election in which all producers of Utah County shall be entitled to participate; two (2) nominees shall be chosen at a general election in which all producers of Davis and Salt Lake Counties shall be entitled to participate; and two (2) nominees chosen at a general election in which all producers of Weber, Morgan, Cache and Box Elder Counties shall be entitled to participate. At such elections each producer shall be entitled to cast one (1) ballot in behalf of himself, agents, partners, affiliates, subsidiaries and representatives. Each such nominee shall be a producer of onions who during the season preceding his nomination did not ship, consign or otherwise handle onions not produced by himself in excess of ten percent (10%) of the total quantity shipped, consigned or otherwise handled by such nominee.

2. The Secretary shall select from the nominees of the handlers, three (3) handler members and their respective alternates; from the nominees of Utah County, one (1) producer member and his alternate; from the nominees of Davis and Salt Lake Counties, one (1) producer member and his alternate; and from the nominees of Weber, Morgan, Cache and Box Elder Counties, one (1) producer member and his alternate. The six (6) members thus selected by the Secretary shall, at their first meeting, nominate not less than two (2) persons who shall be residents of the State of Utah but shall not be producers or handlers, and from such nominees the Secretary shall select a member and his alternate.

3. Any vacancy on the Control Board caused by death, resignation, removal, or for any other cause, shall be filled by the Secretary from two (2) nominees nominated, in the same manner as was the original member, within ten (10) days after the vacancy occurs; and the nominees shall be producers or handlers or neither, depending upon whether the vacancy was caused by a producer or handler member or a member that was neither a producer nor a handler member.

4. No delay in the nomination or selection of any member, alternate or successor of the Control Board shall be deemed to invalidate any such selection. Any person selected as a member or alternate of the Control Board shall qualify by filing a written acceptance of his appointment with the Secretary or with the Secretary's designated representative.

5. Notwithstanding the other provisions of this section, the Secretary may select as members of the Control Board persons not nominated, provided such persons have the same qualifications for membership as are required of persons nominated.

Sec. 2. *Failure to Select Members.*—If a nomination for any member, alternate or successor is not made within the applicable period specified in this article, the Secretary may select a member, alternate or successor without regard to nominations.

Sec. 3. *Organization.*—1. Upon the selection of five (5) of its members, the Control Board may organize and commence to function: *Provided, however,* That the Control Board shall not perform any of its duties or exercise any authority provided herein while there are more than two (2) vacancies in its membership.

2. In the transaction of all business, each member of the Control Board shall be entitled to cast but one (1) vote.

Sec. 4. *Removal and Disapproval.*—The members of the Control Board (including successors and alternates), and any agents or employees appointed or employed by the Control Board, shall be subject to removal by the Secretary at any time. Each and every order, regulation, decision, determination or other act of the Control Board shall be subject to the continuing right of the Secretary to disapprove of the same at any time, and upon such disapproval shall be deemed null and void, except as to acts done prior to such disapproval and in reliance on, or in compliance with such regulation, determination or other act of the Control Board.

Sec. 5. *Expenses.*—Members of the Control Board shall serve without compensation, but shall be entitled to expenses necessarily incurred in the performance of their powers and duties hereunder.

Sec. 6. *Authority.*—The Control Board is hereby authorized:

1. To administer, as hereinafter specifically provided, the terms and provisions hereof;

2. To make, in accordance with the provisions herein contained, administrative rules and regulations;

3. To receive, investigate, and report to the Secretary of Agriculture complaints of violations of this order; and

4. To recommend to the Secretary of Agriculture amendments to this order.

Sec. 7. *Duties.*—The Control Board shall have the following duties:

1. To act as intermediary between the Secretary and any handler;

2. To keep minute books and records which will clearly reflect all of its acts and transactions, and such minute books and records shall at any time be subject to the examination of the Secretary;

3. To furnish to the Secretary such available information as he may request;

4. To appoint such employees as it may deem necessary and to determine the compensation and define the duties of such employees;

5. To require the posting of a bond by any member of the Control Board, or any person employed under this order, who handles funds. Such bond shall be in an amount not less than the maximum amount of funds that may, at any time, be entrusted to such member or employee under the terms of this order;

6. To consult with any committee established pursuant to any marketing agreement or with any handlers operating under an order of the Secretary with respect to the handling of onions grown in any area covered by such marketing agreement or order, which are handled at the same time or under similar conditions, to the end that this order may be administered, within the terms and conditions hereof, in conjunction with such marketing agreement or order, so as best to effectuate the purposes of the act; and

7. To perform such duties in connection with the administration of Section 32 of the Act to Amend the Agricultural Adjustment Act, and for other purposes, Public No. 320, approved August 24, 1935, as amended, as may from time to time be assigned to it by the Secretary.

SEC. 8. *Procedure.*—All decisions of the Control Board shall be by a majority of the votes of the qualified members. Five (5) members of the Control Board shall constitute a quorum to transact all business.

SEC. 9. *Funds.*—All funds received by the Control Board, pursuant to any provision of this order, shall be used solely for the purpose therein specified and shall be accounted for in the following manner:

1. The Secretary may require the Control Board and its members to account for all receipts and disbursements; and

2. Upon the removal from office or upon the expiration of the term of office of any member of the Control Board, he shall account for all receipts and disbursements, and deliver all property and funds, together with all books and records in his possession, to his successor in office, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in such successor full title to all of the property, funds, and/or claims vested in such member pursuant to this order.

ARTICLE III—GRADE AND SIZE REGULATION

SECTION 1. *Grades and Sizes.*—If the Secretary, upon recommendation of the Control Board or otherwise, finds regulation of shipments will tend to effectuate the purposes of this order, he may limit shipments of any or all varieties of onions produced during any season, for any period of time, by (1) prohibiting handlers from handling any or all varieties of onions of a United States grade or grades other than the grade or grades specified by the Secretary, and/or (2) prohibiting handlers from handling any or all varieties of onions of a size or sizes other than the size or sizes specified by the Secretary: *Provided,* That no such limitation of shipments by grade shall be applicable to any shipment when Federal-State Inspection Service cannot be had for such shipment. The Secretary shall give not less than three (3) days' notice to handlers and producers of any limitation of shipments pursuant to this section, by means of a press release, or by posting notices in such places as the Secretary may determine to be necessary or desirable, or by such other means as the Secretary deems necessary, for the purpose of notifying handlers and producers of the institution of such limitation.

SEC. 2. *Inspection.*—During any period in which the Secretary has limited shipments, as provided in section 1 of this article, no onions shall be handled from the State of Utah unless they have been inspected, and their variety, size, and conformity to the United States grades certified, by an authorized representative of the Federal-State Inspection Service.

SEC. 3. *Exemptions.*—1. Before the institution of any limitation of shipments pursuant to section 1 of this article, the Control Board shall determine the percentage which the total quantity of onions subject to such limitation and permitted to be shipped, is of the total quantity of such onions available for shipment from the State of Utah. The Control Board shall forthwith announce this percentage and the procedure by which exemption certificates may be issued to growers pursuant to this section.

2. Any producer who would, because of such limitation, be unable to dispose of as large a percentage of such onions produced by him as the percentage which the Control Board, pursuant to subsection 1 of this section, has determined can be handled from the State of Utah, may apply to the Control Board for permission to handle such onions of his own production, either himself or through a handler. In such case the Control Board shall issue a certificate granting to such producer permission to handle such onions to the extent necessary for such producer to dispose of a percentage of such onions available for shipment during the limitation period equal to the percentage determined by the Control Board pursuant to subsection 1 of this section The Control Board shall retain a copy of such certificate, together with a statement of the evidence upon which it was granted. If any grower is dissatisfied with the determination of the Control Board with respect to such exemption certificate, he may appeal to the Secretary.

SEC. 4. *Compliance.*—Except as provided in section 1 of article VI, no handler shall ship or contract to ship onions of a size or grade, the shipment of which has been prohibited by the Secretary pursuant to this article.

ARTICLE IV—EXPENSES

SECTION 1. *Expenses.*—Each handler shall pay to the Control Board such handler's pro rata share (as approved by the Secretary) of such expenses, as the Secretary may find will necessarily be incurred by the Control Board during any period specified by the Secretary, for the maintenance and functioning of the Control Board, other than expenses incurred in receiving, handling, holding or disposing of any quantity of onions received, handled, held or disposed of by such Control Board for the benefit or account of persons other than handlers subject to this order.

SEC. 2. *Shipping Permits.*—The Secretary may, in his discretion, for the purpose of collecting money for administrative expenses under this order, require handlers to purchase from the Control Board, for such specified period of time, permits to be affixed to each package or carload of onions before the same shall be handled: *Provided, however,* That any payments received for such permits shall be used for the purposes set forth in section 1 of this article, and shall, in no event, exceed the pro rata share of expenses required to be paid by any handler.

ARTICLE V—LIABILITY OF CONTROL BOARD MEMBERS

SECTION 1. *Liability.*—No member of the Control Board nor any employee thereof shall be held responsible individually in any way whatsoever to any handler or any other person for errors in judgment, mistakes, or other acts, either of commission or omission, of such member or employee, except for dishonesty.

ARTICLE VI—MISCELLANEOUS

SECTION 1. *Charitable Purposes.*—Nothing contained in this order shall be construed to authorize any limitation of the right to ship onions for consumption by charitable institutions or relief agencies. The Control Board may, from time to time, prescribe proper safeguards to prevent onions shipped for such purposes from being introduced into the commercial channels of trade contrary to the provisions of this order.

SEC. 2. *Effect of Termination or Amendment.*—Unless otherwise expressly provided in the notice of termination, or in the amendment of this order, no termination or amendment of this order shall either (a) affect, waive or terminate any right, duty, obligation or liability which shall have arisen or may thereafter arise in connection with any provision of this order, or (b) release or forgive any violation of this order occurring prior to the effective time of such termination or amendment, or (c) affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violation.

SEC. 3. *Continuing Power and Duty.*—If, upon the termination of this order, there are any obligations arising thereunder, the final approval or ascertainment of which requires further acts by any party subject thereto, or by the Control Board, or by any other person, the authority and/or duty to perform such further acts shall continue notwithstanding such termination: *Provided,* That any such acts required under the terms of this order to be performed by the Control Board hereunder shall be performed by the members of such board functioning at the effective time of such termination, or, if the Secretary shall so direct, by such other person, persons or agency as the Secretary may designate.

ARTICLE VII—EFFECTIVE TIME AND TERMINATION

SECTION 1. *Effective Time.*—This order shall become effective at such time as the Secretary may declare above his signature attached hereto, and shall continue in force until terminated as follows:

(1) The Secretary may at any time terminate this order by giving at least one (1) day's notice by means of a press release or in any other manner which he may determine.

(2) This order shall, in any event, terminate whenever the provisions of the act authorizing it ceases to be in effect.

SEC. 2. *Proceedings After Termination.*—Upon the termination of this order, the members of the Control Board then functioning shall continue as joint trustees, for the purposes of this order, of all funds and property then in the possession of or under the control of said board, including claims for any funds unpaid or property not delivered at the time of such termination.

Said trustees (a) shall continue in such capacity until discharged by the Secretary;

(b) shall account, from time to time, for all receipts and disbursements and/or deliver all funds and property on hand, together with all books and records of the Control Board and of the joint trustees, to such person as the Secretary shall direct; and

(c) shall execute, upon the request of the Secretary, such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds and/or claims vested in the Control Board or the joint trustees pursuant to this order. Any funds collected pursuant to article IV, and held by such joint trustees or such person, over and above the amount necessary to meet outstanding obligations and expenses necessarily incurred by the joint trustees or such other person in the performance of their duties hereunder, shall be returned as soon as practicable (after the termination of this order) to the handlers, pro rata, in proportion to their contributions made pursuant to this order.

Any and all persons to whom funds and/or claims have been delivered by the Control Board or its members, pursuant to this section, shall be subject to the same obligations and duties with respect to said funds as are hereinabove imposed upon the members of said board.

ARTICLE VIII—DURATION OF IMMUNITIES

SECTION 1. *Immunities.*—The benefits, privileges, and immunities conferred by virtue of this order, shall cease upon its termination, except with respect to acts done under and during the existence of this order, and the benefits, privileges, and immunities conferred by this order upon any person shall cease upon the termination as to such person, except with respect to acts done under and during the existence of this order.

ARTICLE IX—AGENTS

SECTION 1. *Agents.*—The Secretary may by a designation in writing name any person not subject to this order, including any officer or employee of the Government, or name any Bureau or Division in the Department of Agriculture, or any board or committee created hereunder, to act as his agent or representative in connection with any of the provisions of this order.

ARTICLE X—AMENDMENTS

SECTION 1. *Proposals.*—Amendments to this order may be proposed at any time by any party subject hereto or by the Control Board.

ARTICLE XI—SEPARABILITY

SECTION 1. *Separability.*—If any provision of this order is declared invalid, or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this order and/or the applicability thereof to any other person, circumstance, or thing shall not be affected thereby.

ARTICLE XII—DEROGATION

SECTION 1. *Derogation.*—Nothing contained in this order is or shall be construed to be in derogation or in modification of the rights of the Secretary or of the United States (a) to exercise any powers granted by the act or otherwise, and/or, (b) in accordance with such powers, to act in the premises whenever such action is deemed advisable.

In witness whereof, H. A. Wallace, Secretary of Agriculture, does hereby affix the seal of the Department of Agriculture, execute in duplicate and issue this order in the city of Washington, District of Columbia, on the 22nd day of April 1937, and pursuant to the provisions hereof declare this order to be effective on and after 12:01 A. M., m. s. t., April 26, 1937.

## FEDERAL TRADE COMMISSION.

*United States of America—Before Federal Trade Commission*

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 19th day of April, A. D., 1937.

Commissioners: William A. Ayres, Chairman, Garland S. Ferguson, Jr., Charles H. March, Ewin L. Davis, Robert E. Freer.

[File No. 21-292]

IN THE MATTER OF TRADE PRACTICE RULES FOR THE TUBULAR PIPINGS AND TRIMMINGS MANUFACTURING INDUSTRY

PROMULGATION OF TRADE PRACTICE RULES

Due proceedings having been had under the trade practice conference procedure in pursuance of the Act of Congress approved September 26, 1914 (36 Stat. 717).

It is now ordered that the trade practice rules of Group I which have been approved by the Commission in this proceeding be, and the same are, hereby promulgated for the Tubular Pipings and Trimmings Manufacturing Industry, as follows:

TRADE PRACTICE RULES

TUBULAR PIPINGS AND TRIMMINGS MANUFACTURING INDUSTRY

These rules promulgated by the Commission are designed to foster and promote fair competitive conditions in the interest of industry and the public. They are not to be used, directly or indirectly, as part of or in connection with any combination or agreement to fix prices, or for the suppression of competition, or otherwise to unreasonably restrain trade.

*Group I*

The unfair trade practices which are embraced in Group I rules are considered to be unfair methods of competition or other illegal practices within the statutes and decisions of the Federal Trade Commission and the courts; and appropriate proceedings in the public interest will be taken by the Commission to prevent the use of such unlawful practices in or directly affecting interstate commerce.

*Rule 1.*

The practice of selling goods below the seller's cost, with the intent and with the effect of injuring a competitor and where the effect may be to substantially lessen competition or tend to create a monopoly or unreasonably restrain trade, is an unfair trade practice; all elements recognized by good accounting practice as proper elements of such cost shall be included in determining cost under this rule.

*Rule 2.*

Wilfully inducing or attempting to induce, by any false or deceptive means whatsoever, the breach of any lawful contract or contracts existing between competitors and their customers or their suppliers, or wilfully interfering with or obstructing the performance of any such contractual duties or services, with the purpose and effect of unduly hampering, injuring or embarrassing competitors in their businesses, is an unfair trade practice.

*Rule 3.*

The imitation of the trade-marks, trade names, brands, labels or other marks of identification of competitors, having the tendency, capacity or effect of misleading or deceiving purchasers, prospective purchasers or the consuming public, is an unfair trade practice.

*Rule 4.*

The circulation of threats of suit for infringement of patents or trade-marks among customers or prospective customers of competitors, not made in good faith but for the purpose or with the effect of harassing or intimidating such customers or prospective customers, or of unduly hampering, injuring or prejudicing competitors in their businesses, is an unfair trade practice.

(a) *Prohibited Discriminatory Differentials, Rebates, Refunds, Discounts, Credits and Other Allowances.* It is an unfair trade practice for any member of the industry engaged in commerce,[1] in the course of such commerce, to grant or allow, secretly or openly, directly or indirectly, any price differentials, rebates, refunds, discounts, credits or other allowances which effectuate a discrimination in price between different purchasers of goods of like grade and quality where either or any of the purchases involved therein are in commerce[1] and where the effect thereof may be substantially to lessen competition or tend to create a monopoly in any line of commerce[1] or to injure, destroy or prevent competition with any person who either grants or knowingly receives the benefit of such discrimination or with customers of either of them, *Provided however*—

(1) That the goods involved in any such transaction are sold for use, consumption or resale within any place under the jurisdiction of the United States;

(2) That nothing herein contained shall prevent differentials which make only due allowance for differences in the cost of manufacture, sale or delivery resulting from the differing methods or quantities in which such commodities are to such purchasers sold or delivered;

(3) That nothing herein contained shall prevent persons engaged in selling goods, wares or merchandise in commerce[1] from selecting their own customers in bona fide transactions and not in restraint of trade;

(4) That nothing herein contained shall prevent price changes from time to time where made in response to changing conditions affecting either (a) the market for the goods concerned, or (b) the marketability of the goods, such as, but not limited to, actual or imminent deterioration of perishable goods, obsolescence of seasonal goods, distress sales under court process, or sales in good faith in discontinuance of business in the goods concerned.

(b) *Prohibited Brokerages and Commissions.* It is an unfair trade practice for any member of the industry engaged in commerce,[1] in the course of such commerce, to pay or grant, or to receive or accept, anything of value as a commission, brokerage, or other compensation, or any allowance or discount in lieu thereof, except for services rendered in connection with the sale or purchase of goods, wares, or merchandise, either to the other party to such transaction or to an agent, representative, or other intermediary therein where such intermediary is acting in fact for or in behalf, or is subject to the direct or indirect control, of any party to such transaction other than the person by whom such compensation is so granted or paid.

(c) *Prohibited Advertising or Promotional Allowance, Etc.* It is an unfair trade practice for any member of the industry engaged in commerce[1] to pay or contract for the payment of advertising or promotion allowances or any other thing of value to or for the benefit of a customer of such member in the course of such commerce as compensation or in consideration for any services or facilities furnished by or through such customer in connection with the processing, handling, sale or offering for sale of any products or commodities manufactured, sold or offered for sale by such member, unless such payment or consideration is available on proportionally equal terms to all other customers competing in the distribution of such products or commodities.

(d) *Prohibited Discriminatory Services or Facilities.* It is an unfair trade practice for any member of the industry engaged in commerce[1] to discriminate in favor of one purchaser against another purchaser or purchasers of a commodity bought for resale, with or without processing, by contracting to furnish or by furnishing, or by contributing to the furnishing of, any services or facilities connected with the processing, handling, sale or offering for sale of such commodity so purchased upon terms not accorded to all purchasers on proportionally equal terms.

(e) *Illegal Price Discrimination.* It is an unfair trade practice for any member of the industry or other person engaged in commerce,[1] in the course of such commerce, to discriminate in price in any other respect contrary to Section 2 of the Clayton Act as amended by the Act of Congress, approved June 19, 1936 (Public No. 692, 74th Congress), or knowingly to induce or receive a discrimination in price which is prohibited by such section as amended.

*Rule 6.*

The defamation of competitors by falsely imputing to them dishonorable conduct, inability to perform contracts, questionable credit standing, or by other false representations, or the false disparagement of the grade, quality or manufacture of the products of competitors, or of their business methods, selling prices, values, credit terms, policies or services, with the tendency, capacity or effect of misleading or deceiving purchasers, prospective purchasers or the consuming public, is an unfair trade practice.

*Rule 7.*

The making, or causing or permitting to be made or published, any false, untrue or deceptive statement or representation, by way of advertisement or otherwise, concerning the grade, quality, quantity, substance, character, nature, origin, size or preparation of any product of the industry, or in any other material respect, with the tendency, capacity or effect of misleading or deceiving purchasers, prospective purchasers or the consuming public, is an unfair trade practice.

*Rule 8.*

Wilfully enticing away the employees of competitors, with the purpose and effect of unduly hampering, injuring or embarrassing competitors in their businesses, is an unfair trade practice.

*Rule 9.*

The practice of coercing the purchase of one or more products as a prerequisite to the purchase of one or more other products, where the effect may be to substantially lessen competition or tend to create a monopoly or to unreasonably restrain trade, is an unfair trade practice.

*Rule 10.*

Offering merchandise for sale at prices purported to be reduced from what are in fact fictitious prices, or offering merchandise for sale at a purported reduction in price when such purported reduction is in fact fictitious, with the tendency and capacity or effect of misleading or deceiving purchasers, prospective purchasers or the consuming public, is an unfair trade practice.

*Rule 11.*

The use of the word "free" where not properly or fairly qualified when the article is in fact not free, with the tendency or capacity to mislead or deceive purchasers, prospective purchasers or the consuming public, is an unfair trade practice.

*Rule 12.*

The practice of shipping or delivering products which do not conform to the samples submitted or representations made prior to securing the orders, without the consent of the purchasers to such substitutions, and having the tendency, capacity or effect of deceiving or misleading purchasers, prospective purchasers or the consuming public, is an unfair trade practice.

*Rule 13.*

Directly or indirectly to give or permit to be given or offer to give money or anything of value to agents, employees or representatives of customers or prospective customers, or to agents, employees or representatives of competitors' customers or prospective customers, without the knowledge of their employers or principals, as an inducement to influence their employers or principals to purchase or contract to purchase industry products from the maker of such gift or offer, or to influence such employers or principals to refrain from dealing or contracting to deal with competitors, is an unfair trade practice.

*Rule 14.*

Securing information from competitors concerning their businesses by false or misleading statements or representations or by false impersonation of one in authority, and the wrongful use thereof to unduly hinder or stifle the competition of such competitors, is an unfair trade practice.

*Rule 15.*

In connection with the sale or offering for sale of products of the industry, representing through advertising or otherwise that such products conform to any standards recognized in or applicable to the industry when such is not the fact, with the tendency, capacity or effect of misleading or deceiving purchasers, prospective purchasers or the consuming public, is an unfair trade practice.

*Rule 16.*

For any person, firm or corporation to hold himself or itself out to the public as a manufacturer or wholesaler when such is not the fact, or in any other manner to misrepresent the character, extent or type of his or its business, with the tendency or capacity to mislead or deceive purchasers, prospective purchasers or the consuming public, is an unfair trade practice.

*Rule 17.*

The false or deceptive marking or branding of products of the industry for the purpose or with the tendency, capacity or effect of misleading or deceiving purchasers, prospective purchasers or the consuming public with respect to the grade, quality, quantity, use, size, material, content, origin, preparation, manufacture or distribution of such products, or in any other material respect, is an unfair trade practice.

*Rule 18.*

Withholding from or inserting in invoices or sales tickets any statements or information by reason of which omission or insertion a false record is made, wholly or in part, of the transactions represented on the face of such invoices or sales tickets, with the purpose or effect of thereby misleading or deceiving purchasers, prospective purchasers or the consuming public, is an unfair trade practice.

By direction of the Commission.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE SINCLAIR-PRAIRIE-PEACHES FARM, FILED ON APRIL 13, 1937, BY GEORGE C. CREAGER, INC., RESPONDENT

ORDER FOR HEARING (UNDER RULE 340 (B)) AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein contains an untrue statement of a material fact, or omits to state a material fact which is required to be stated therein (for the omission of which no sufficient reason is given in the offering sheet) and which is necessary to make the statements therein not misleading, to wit:

In that the information disclosed in Division II, Item 16 (a) (iii), of the offering sheet, is not in proper form, and the statement made in the "note" under this item concerning the percentage of water being produced from the tract involved is not believed to be correct;

It is ordered, pursuant to Rule 340 (b) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein, alleged to be misleading, and whether the effectiveness of the filing of the said offering sheet shall be suspended; and

It is further ordered that John H. Small, an officer of the Commission be, and hereby is, designated as Trial Examiner

to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 7th day of May, 1937, at 10:30 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said Examiner may designate.

Upon the completion of testimony in this matter the Examiner is directed to close the hearing and make his report to the Commission.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE PHILLIPS "L" COMMUNITY LEASE, FILED ON APRIL 17, 1937, BY E. T. CHASE, RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)) AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that the present price per barrel for oil required to be given in Division II, Item 1, is omitted;

(2) In that the offering sheet does not contain the original signature of the offeror as required by the Rules and Regulations of the Commission;

(3) In that Division 2, Item 13, requires that the representations made shall be of a factual nature, whereas the last paragraph of this item is not based upon facts, but is solely an expression of opinion.

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 22nd day of May, 1937, that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that John H. Small, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 7th day of May, 1937, at eleven o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that the date upon which the information contained in the offering sheet will be out of date, as stated in Division I, Paragraph 8, is incorrect;

(2) In that the monthly pay-off for the smallest interest proposed to be offered, as stated in Division II, Item 16 (d), for the months of January and February 1937, does not appear to be correct.

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 22nd day of May, 1937, that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that John H. Small, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 7th day of May, 1937, at 11:30 o'clock in the forenoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

By the Commission.

*United States of America—Before the Securities and Exchange Commission*

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 22nd day of April, A. D., 1937.

IN THE MATTER OF AN OFFERING SHEET OF A ROYALTY INTEREST IN THE CAPITOL-MANSION-STATE ET AL. FARM, FILED ON APRIL 17, 1937, BY H. B. SEARS, RESPONDENT

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)) AND ORDER DESIGNATING TRIAL EXAMINER

The Securities and Exchange Commission, having reasonable grounds to believe, and therefore alleging, that the offering sheet described in the title hereof and filed by the respondent named therein is incomplete or inaccurate in the following material respects, to wit:

(1) In that the date upon which the information contained in the offering sheet will be out of date, as set forth in Division I, Paragraph 8, is incorrect;

(2) In that the net production for the smallest interest proposed to be offered for that period from October 1936 to April 1937, inclusive, as set forth in Division II, Item 16 (c), is not believed to be correct;

(3) In that the legend required to be given in Exhibit A is incomplete by reason of the fact that the symbols for an abandoned well and junked well are omitted.

It is ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and hereby is, suspended until the 22nd day of May, 1937, that an opportunity for hearing be given to the said respondent for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension shall be revoked or continued; and

It is further ordered that John H. Small, an officer of the Commission be, and hereby is, designated as trial examiner to preside at such hearing, to continue or adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to said offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered that the taking of testimony in this proceeding commence on the 7th day of May, 1937, at 2:00 o'clock in the afternoon, at the office of the Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said examiner may designate.

Upon the completion of testimony in this matter the examiner is directed to close the hearing and make his report to the Commission.

## PRESIDENT OF THE UNITED STATES.

NATIONAL MARITIME DAY

By the President of the United States of America

A PROCLAMATION

WHEREAS May 22 of each year has been designated as National Maritime Day by Public Resolution 7, Seventy-third Congress, approved May 20, 1933, reading as follows:

"Whereas on May 22, 1819, the steamship The Savannah set sail from Savannah, Georgia, on the first successful transoceanic voyage under steam propulsion, thus making a material contribution to the advancement of ocean transportation: Therefore be it

*Resolved by the Senate and House of Representatives of the United States of America in Congress assembled,* That May 22 of each year shall hereafter be designated and known as National Maritime Day, and the President is authorized and requested annually to issue a proclamation calling upon the people of the United States to observe such National Maritime Day by displaying the flag at their homes or other suitable places and Government officials to display the flag on all Government buildings on May 22 of each year.":

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, do hereby call upon the people of the United States to observe May 22, 1937, as National Maritime Day by displaying the flag at their homes or other suitable places, and do direct Government officials to display the flag on all Government buildings on that day.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington this 22nd day of April in the year of our Lord nineteen hundred and

### Division of Grazing.

SPECIAL RULE FOR IDAHO GRAZING DISTRICT NO. 1[1]

A proper showing having been made and it having been found that the available public land is insufficient in Idaho Grazing District No. 1 to meet the requirements of all in the preferred class and that the general rule set forth in the Amendment to the Rules for Administration of Grazing Districts approved January 28, 1937, is unsuited to local conditions and will not permit an effective and orderly administration of the act in that particular district, the preferred class will be divided for that district into two groups, as follows:

1. Those who have dependent commensurate property which has been used in connection with the public range for two full consecutive grazing seasons immediately preceding passage of the Taylor Grazing Act; provided, however, that if an applicant can show that his failure to use the public range in the required years was due to causes beyond his control and that he has two consecutive full grazing seasons' use within the period from June 28, 1929, to June 28, 1934, then such use shall be considered as equivalent to the two full consecutive seasons' use immediately preceding the passage of the act.

2. Those who do not have such prior use.

GSQR Series 4, No. 2 Issued April 24, 1937

GENERAL SUGAR QUOTA REGULATIONS, SERIES 4, NO. 1, SUPPLEMENT 1

ALLOTMENT OF THE UNALLOTTED RESERVE FOR FOREIGN COUNTRIES OTHER THAN CUBA FOR THE CALENDAR YEAR 1937

By virtue of the authority vested in the Secretary of Agriculture by Public Resolution No. 109, approved June 19, 1936, and by the Agricultural Adjustment Act, approved May 12, 1933, as amended, (hereinafter referred to as the "act"), I, H. A. Wallace, Secretary of Agriculture, in order to regulate commerce with Cuba and other foreign countries, among the several States, with the Territories and possessions of the United States, and with the Commonwealth of the Philippine Islands, with respect to sugar, having due regard to the welfare of domestic producers and to the protection of domestic consumers and to a just relationship between the price received by domestic producers and the price paid by domestic consumers, do hereby make, prescribe, publish and give public notice of these regulations (constituting a supplement to General Sugar Quota Regulations, Series 4, No. 1), which shall have the force and effect of law and shall remain in force and effect until amended or superseded by regulations hereafter made by the Secretary of Agriculture.

1. Out of the unallotted reserve of 1,882.07 short tons of sugar, raw value, established for foreign countries other than Cuba, 1,732.07 short tons, raw value, are hereby made available for allotment to such countries in order of priority of arrival of the sugar in the continental United States.

2. The difference between the 1,882.07 short tons of sugar, raw value, and 1,732.07 short tons, raw value, to wit, 150 short tons, raw value, is hereby set aside as a reserve against polarization adjustments and other such contingencies.

In testimony whereof, I, H. A. Wallace, Secretary of Agriculture, have hereunto set my hand and caused the official seal of the Department of Agriculture to be affixed in the city of Washington, District of Columbia, this 24th day of April 1937.

## INTERSTATE COMMERCE COMMISSION.

ORDER

At a Session of the Interstate Commerce Commission, Division 2, held at its office in Washington, D. C., on the 20th day of April, 1937.

[No. 10122]

STANDARD TIME ZONE INVESTIGATION

*It appearing*, That by report[1] and order dated October 24, 1918, the Commission defined the limits of the various time zones throughout the United States created by the act of Congress entitled "An Act to Save Daylight and to Provide Standard Time," approved March 19, 1918, which limits, as subsequently amended from time to time, were restated and redefined in the sixteenth supplemental report and order in this investigation dated May 19, 1928;

*It further appearing*, That by report and order dated August 14, 1936, as modified by report and order of September 23, 1936, the boundary between United States Standard Eastern and Central Time Zones, as so defined, was modified to include the lower Peninsula of Michigan and the entire State of Ohio within the Eastern Zone;

*And it further appearing*, That the Pennsylvania Railroad Company has filed a petition for modification of the said report and order of August 14, 1936; and that a full investigation of the matters and things involved has been made, and Division 2, on the date hereof, has made and filed its twenty-third supplemental report containing its findings of fact and conclusions thereon, which said report and the reports and orders of October 24, 1918, May 19, 1928, and August 14, and September 23, 1936, are hereby referred to and made parts hereof:

*It is ordered*, That the order entered on October 24, 1918, as subsequently modified and as restated by order of May 19, 1928, as modified by orders of August 14, and September 23, 1936, be, and it is hereby, further modified by making the addition shown in said twenty-third supplemental report; and that this modification shall become effective at 2 o'clock ante meridian, April 25, 1937.

EMERGENCY BOARD, PENNSYLVANIA; LONG ISLAND; BALTIMORE AND OHIO; READING; CENTRAL RAILROAD OF NEW JERSEY; LEHIGH VALLEY; NEW YORK CENTRAL; NEW YORK, NEW HAVEN & HARTFORD; DELAWARE, LACKAWANNA AND WESTERN; AND ERIE RAILROADS—EMPLOYES

By the President of the United States of America

A PROCLAMATION

WHEREAS the President, having been duly notified by the National Mediation Board that disputes between the Pennsylvania; Long Island; Baltimore and Ohio; Reading; Central Railroad of New Jersey; Lehigh Valley; New York Central; New York, New Haven & Hartford; Delaware, Lackawanna & Western; and Erie Railroads, carriers, and certain of their employees represented by

Brotherhood of Railway and Steamship Clerks, Freight Handlers, Express and Station Employees;
International Longshoremen's Association;

which disputes have not heretofore been adjusted under the provisions of the Railway Labor Act, amended, now threaten substantially to interrupt interstate commerce within the state of New York and other states in the eastern part of the country to a degree such as to deprive that section of the country of essential transportation service;

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, by virtue of the power vested in me by the Constitution and laws of the United States, and by virtue of and under the authority in me vested by Section 10 of the Railway Labor Act, amended, do hereby create a board to be composed of three persons not pecuniarily or otherwise interested in any organization of railway employes or any carrier, to investigate the aforementioned disputes and report its findings to me within thirty days from this date.

The members of this board shall be compensated for and on account of such duties in the sum of seventy-five dollars for every day actually employed with or upon account of travel and duties incident to such board. The members will be reimbursed for and they are hereby authorized to make expenditures for expenses for themselves and of the Board, including traveling expenses and in conformity with Public No. 212, 72nd Congress, Approved June 30, 1932, 11:30 a. m., not to exceed five ($5.00) dollars per diem for expenses incurred for subsistence.

All expenditures of the board shall be allowed and paid for out of the appropriation "Emergency Boards, Railway Labor Act, May 20, 1926, 1937" on the presentation of itemized vouchers properly approved by the chairman of the board hereby created.

IN TESTIMONY WHEREOF, I have hereunto set my hand and caused the seal of the United States to be affixed.

## FEDERAL HOME LOAN BANK BOARD.

**Home Owners' Loan Corporation.**

SUBSTITUTION OF TRUSTEE—NORTH CAROLINA

Whereas C. S. Noble has been appointed trustee in many of the deeds of trust accepted by the Corporation in connection with loans in the state of North Carolina; and

Whereas the said C. S. Noble has removed from said State; and

[1] Under the act of June 28, 1934 (48 Stat. 12699) as amended June 26, 1936 (49 Stat. 1976), commonly known as the Taylor Grazing Act.

Whereas for the purpose of executing the powers granted in said trust it has become necessary to remove the said C. S. Noble as trustee and to appoint a substitute trustee in his place and stead: Therefore,

Be it resolved, pursuant to the authority vested in the Board of Directors by Home Owners' Loan Act of 1933 (48 Stat. 128, 129) as amended by Sections 1 and 13 of the Act of April 27, 1934 (48 Stat. 643-647) and particularly by Sections 4 (a), 4 (d) and 4 (k) of said Act as amended, That C. S. Noble is hereby removed as trustee in all deeds of trust in which he was named as trustee held by the Corporation in the State of North Carolina and T. C. Abernathy is hereby named as substitute trustee for any and all of the deeds of trust wherein the said C. S. Noble has been appointed trustee, said removal and substitution to be effective upon the execution and recording of an appropriate instrument for said purposes; and the Chairman of the Board or Vice-Chairman, the General Manager or any Deputy General Manager, the Secretary or any Assistant Secretary, the Treasurer or any Assistant Treasurer, the Regional or Assistant Regional Manager of the Atlanta Regional Office or the Regional or Assistant Regional Treasurer of the Atlanta Regional Office is each hereby authorized to execute, seal with the Corporate Seal, attest, acknowledge on behalf of the Corporation and deliver such instruments as may be necessary and proper to make effective the removal of the said C. S. Noble and the appointment of said T. C. Abernethy as substitute trustee in any or all of such deeds of trust; and

Be it further resolved, That the Secretary or any Assistant Secretary of the Corporation is authorized to certify and furnish such copies of this resolution as may be required and to authenticate, acknowledge and to do any other act necessary to entitle it to be recorded in North Carolina.

Adopted by the Board of Directors of Home Owners' Loan Corporation on April 26, 1937.

[Manual Amendment]

TRANSMITTAL OF DOCUMENTS IN PROPERTY SALES

Be it resolved, That pursuant to the authority vested in the Board by Home Owners' Loan Act of 1933 (48 Stat. 128, 129) as amended by Sections 1 and 13 of the Act of April 27, 1934 (48 Stat. 643-647) and particularly by Sections 4-a and 4-k of said Act as amended, Section 752 of Chapter VII of the Manual is hereby amended by the addition of the following paragraph to be inserted after the second paragraph:

Where the Regional Counsel determines that it is necessary or desirable in connection with a contract of sale of the Corporation's property to deliver for examination or continuation any abstract, title policy or other evidence of title, survey, plat or other documents in the file to the contract purchaser or his attorney, title company or abstract company, he shall obtain such documents from the Regional Treasurer and may deliver the same, or forward the same by registered mail or express to the contract purchaser or his attorney, title company or abstract company. Said transmittal may be through the State or District Office of the Corporation or through a fee attorney, title or abstract company representing the Corporation. Such documents may likewise be forwarded by Regional or State Counsel to a fee attorney, title or abstract company representing or acting for the Corporation for the purpose of examination, continuation or any other purpose in connection with a sale of property. The expenses of any such transmittal and return expenses may be paid by the Corporation as a Corporation expense. Receipts containing an agreement to return as and when required shall be taken.

Adopted by the Federal Home Loan Bank Board on April 26, 1937.

## DEPARTMENT OF THE INTERIOR.

### National Park Service.

RULES AND REGULATIONS

Made, published, and approved by the Secretary of the Interior on the 19th day of April, 1937, and to continue in force and effect until otherwise directed by the said Secretary.

GENERAL PROVISIONS

Pursuant to the authority granted to the Secretary of the Interior by the Act of August 25, 1916 (ch. 408, sec. 3, 39 Stat. 535), as amended, and pursuant to the authority vested in the President under title II, secs. 202 and 209 of the National Industrial Recovery Act (48 Stat. 200, 202, 206), and by the Emergency Relief Appropriation Act of 1935 (49 Stat. 115, 118), and delegated to the Secretary of the Interior by Executive Order No. 7496, November 14, 1936, the following regulations are hereby made and published for the proper use, management, government, and protection of, and maintenance of good order in, all of the Recreational Demonstration Areas which are, or hereafter may be, under the administrative jurisdiction of the National Park Service of the Department of the Interior, except those areas acquired or to be acquired for recreational areas in connection with the Blue Ridge Parkway.

*1. Preservation of Public Property, Natural Features and Curiosities*

The destruction, injury, defacement, removal or disturbance in any way of any public building, sign, equipment, marker, or other structure, or of any tree, flower, vegetation, rock, mineral formation, or of any animal, bird, or other wildlife, or of any ruins or relics, or of any other public property of any kind is prohibited: *Provided*, that flowers may be gathered in small quantities when, in the judgment of the project manager, their removal will not impair the beauty of the area. Before any flowers are picked, permit must be secured from the project manager.

Collections for scientific or educational purposes shall be permitted only in accordance with written permits first had and obtained from the project manager.

*2. Camping*

No camping is permitted outside the specially designated camp sites, except by special permit from the project manager.

Campers shall keep their campgrounds clean. Combustible rubbish shall be burned on camp fires and all other garbage and refuse of all kinds shall be placed in garbage cans provided for the purpose. At new or unfrequented camps, garbage shall be burned or buried.

Campers and others shall not wash clothing or cooking utensils in, or pollute in any other manner, the waters of the recreational demonstration areas.

Only in areas designated by the project manager may campers use any dead or fallen timber for fuel or other purposes.

The installation of permanent camping facilities by visitors is prohibited in all recreational demonstration areas. The digging or leveling of the ground in any camp site without the project manager's permission is prohibited.

Temporary camps must be completely razed and the sites cleaned before the departure of campers. In dismantling camps, all material, such as poles, bark, planks, platforms, etc., used in construction of temporary camps must be removed, and, if combustible, must be piled on the public camp woodpiles.

Campers shall not leave their camps unattended for more than 48 hours without special permission of the project manager, obtained in advance. Camping equipment left unattended in any public camping area for 48 hours or more is subject to removal by order of the project manager, the expense of such removal to be paid by the person or persons leaving such equipment.

No camp may be established in a recreational demonstration area and used as a base for hunting outside such area.

No camp shall be placed within 25 feet of any well-defined water course, water hydrant, or main road.

The project managers may, with the approval of the Director of the National Park Service, establish hours during which quiet must be maintained at any camp, and prohibit the running of motors at or near a camp during such hours.

*3. Bathing*

Bathing in any of the streams or lakes within the recreational demonstration areas is not permitted except at designated bathing places.

*4. Fishing*

Persons desiring to fish in the waters of any recreational demonstration area must secure a sporting fishing license, as required by the laws of the state in which such area is situated. All fishing in such areas must be done in conformity with the laws of the state regarding open seasons, size of fish, and the limit of catch, except as otherwise provided in the following paragraphs.

Fishing with nets, seines, traps, or by the use of drugs or explosives, or for merchandise or profit, or in any other way than with hook and line, the rod or line being held in hand, is prohibited.

Fishing in particular waters may be suspended, or restricted in regard to the use of particular kinds of bait, when the project manager, with the approval of the Director of the National Park Service, shall determine such suspension or restriction necessary and shall post such restrictions or suspensions.

*5. Picnicking*

Picnicking or the eating of lunches is permitted only in areas provided and designated for such use.

*6. Protection of Wildlife*

The recreational demonstration areas are sanctuaries for wildlife of every sort, and all hunting, or the killing, wounding, frightening, capturing or attempting to capture at any time of any wild birds or other animals, except dangerous animals when it is necessary to prevent them from destroying human lives or inflicting personal injury, is prohibited within the limits of the recreational demonstration areas unless specifically authorized by the Director of the National Park Service.

During the hunting season, arrangements must be made at entrance stations to identify and transport through the areas, where necessary, the carcasses of birds or animals legally killed outside the areas. Failure to make such arrangements shall be deemed a violation of this regulation.

*7. Firearms, Etc.*

Firearms, explosives, airguns, sling shots, traps, seines, and nets are prohibited within the areas except upon written permission of the project manager. The project manager may, in his discretion, permit the carrying of firearms by employees under his administrative jurisdiction when such possession is deemed necessary in the performance of official duties.

Visitors entering or traveling through the recreational demonstration areas to places beyond shall, at entrance, report and, if required to do so, surrender all such objects in their possession to the project manager, or his representative, and, in proper cases, may obtain his written permission to carry them through the area sealed. Failure to obtain such written permission shall be deemed a violation of this regulation. The Government assumes no responsibility for the loss of, or damage to, any such objects so surrendered to any project manager, nor are project managers authorized to accept the responsibility or custody of any other property for the convenience of the visitors.

*8. Fires*

Fires shall be lighted only in designated places. On public campgrounds the regular fireplaces constructed for the convenience of visitors must be used.

No lighted cigarette, cigar, pipe heel, match, or other burning material shall be thrown from any vehicle or saddle horse or dropped into any grass, leaves, twigs, tree mold, or other combustible or inflammable material.

Fires shall be lighted only when necessary and, when no longer needed, shall be completely extinguished, and all embers and beds smothered with earth or water, so that there remains no possibility of reignition.

If permission has been granted by the project manager for the lighting of any fire away from designated places, such fires shall not be kindled near trees, dead wood, moss, dry leaves, forest mold, or other vegetable refuse, but in some open space on rocks or mineral soil. Should camp be made in a locality where no such open space exists, the dead wood, moss, dry leaves, etc., shall be scraped away to the rock or mineral soil of an area considerably larger than that required for the fire.

If fires are found, put them out if possible and report your action to the nearest Government officer, or immediately notify the nearest Government officer of the location of the fire.

The use of fireworks or firecrackers in the areas is prohibited, except with the written permission of the project manager.

Permission to burn on any cleanup operation within the recreational demonstration areas must first be obtained in writing from the office of the project manager, and in such cases as it is deemed advisable such burning will be under Government supervision. All costs of suppression and all damage caused by reason of loss of control of such burning operations shall be paid by the person or persons to whom such permit has been granted.

*9. Sanitation*

Garbage, papers, or refuse of any kind shall not be thrown or left on or along roads, in camping or picnic areas, or any other place.

All comfort stations shall be used in a clean and sanitary manner.

Contamination of watersheds, of water supplies, or of any water used for drinking purposes is strictly prohibited.

*10. Gambling*

Gambling in any form, or the operation of gambling devices, whether for merchandise or otherwise, is prohibited. Possession of any implement or device commonly used or intended to be used for gambling purposes within any recreational demonstration area is prohibited.

*11. Disorderly Conduct*

Persons who render themselves obnoxious by disorderly conduct or bad behavior shall be subject to the punishment hereinafter prescribed for violation of these regulations, and may be summarily removed from the recreational demonstration area by the project manager.

*12. Radios*

The use of radios in public camps, hotels, or other buildings, or in automobiles, is prohibited when audible beyond the immediate vicinity of the radio set. Radios shall not be operated to the annoyance of other persons nor so as to disturb the quiet of camps or other public places.

*13. Cameras*

Before still pictures may be taken for commercial purposes and before a motion or sound picture requiring the use of artificial or special settings, or special equipment, or involving the performance of a professional cast, may be filmed in any of the recreational demonstration areas, authority must first be obtained, in writing, from the Secretary of the Interior. Still and motion picture cameras may be freely used by amateurs in the recreational demonstration areas for general scenic purposes.

Project managers may issue permits to take still and motion pictures in the recreational demonstration areas under their supervision without such previous authorization by the Secretary of the Interior, in the following circumstances, and on condition that the permittees shall refrain from offering any gratuity of whatsoever nature to any employee of the Government in connection with the exercise of the privilege herein authorized to be granted:

1. Professional photographers and motion picture cameramen desiring to take scenes of, or events in, the recreational demonstration areas as representatives of news concerns and for bona fide news publication;

2. Professional photographers and motion picture cameramen desiring to take scenes of, or events in, the recreational demonstration areas not for sale or for exhibition when paid admissions are charged, but for the purpose of stimulating the use of recreational demonstration areas;

3. Professional photographers and motion picture cameramen desiring to take scenes of, or events in, the recreational demonstration areas, for nonprofit educational purposes;

4. Professional photographers desiring to take park scenes for general artistic purposes.

*14. Lost Articles*

Persons finding lost articles, should deposit them at the office of the project manager leaving their own names and addresses, so that if the articles are not claimed by the owners within 60 days, they may be turned over to those who found them.

*15. Abandonment of Property*

The abandonment of any personal property in the recreational demonstration areas is prohibited.

*16. Dogs and Cats*

Dogs and cats are prohibited in the areas; provided, however, that employees and others may be authorized by the project manager to keep dogs for official purposes, subject to further conditions as may be determined by the project manager.

Day visitors with the permission of the project manager may bring dogs into the areas, provided they are kept on leash.

Stray dogs or cats running at large in the recreational demonstration areas may be killed to prevent molestation of the wildlife therein.

*17. Travel on Trails*

Persons traveling on the trails of the recreational demonstration areas on saddle animals shall not make short cuts but shall confine themselves to the main trails. Any or all roads and trails in the recreational demonstration areas may be closed to public use by order of the project manager when, in his judgment, conditions make travel thereon hazardous or dangerous, or when such action is necessary to protect the recreational demonstration areas.

Motorcycles shall not be operated upon trails.

*18. Restricted Areas*

All persons are prohibited from entering restricted areas posted as being closed to the public, except upon written permission from the project manager.

*19. Vehicles*

The recreational demonstration areas are open to automobiles operated for pleasure but they may not be operated outside the roads provided for them, and may be parked only in designated areas.

Motorcycles are admitted to the recreational demonstration areas under the same conditions as automobiles and are subject to the same regulations, so far as they are applicable.

Trucking over roads in the recreational demonstration areas which are officially posted indicating no trucking is allowed, shall be a violation of these regulations.

House car trailers are admitted to the recreational demonstration areas under the same conditions as automobiles and they may be parked for camping purposes only in areas designated for that purpose. All drainage or dumping refuse directly from trailers is prohibited.

Automobiles, trucks, and other vehicles permitted in the recreational demonstration areas may enter and leave by such entrances and between such hours as shall be determined by the project manager with the approval of the Director of the National Park Service, and indicated by official signs posted for that purpose. All vehicles shall come to a full stop at entrance stations.

There shall not be operated or moved upon any road within the boundaries of any recreational demonstration area any vehicle of any kind the face of wheels or tracks of which are fitted with flanges, ribs, clamps, cleats, lugs, spikes, or any device which may tend to injure the roadway. This regulation applies to all rings or flanges upon guiding or steering wheels on any such vehicle, but it shall not be construed as preventing the use of ordinary detachable tire or skid chains.

The project manager may, with the approval of the Director of the National Park Service, establish the hours during which any of the roads within the recreational demonstration areas shall be open to the public and the direction of travel thereon. Information regarding such hours and direction of travel may be had upon application at the office of the project manager.

All motor vehicles except motorcycles shall be equipped with two headlights and one or more red taillights, the headlights to be of sufficient brilliancy to insure safety in driving at night, and all lights shall be kept lighted after sunset when the vehicle is on a road, and at all times when passing through unlighted tunnels. Headlights shall be dimmed when meeting other vehicles, riding or driving animals, or pedestrians.

At least one light must be carried on the left front side of all horse-drawn vehicles in a position so as to be visible from both front and rear.

Automobiles and other vehicles shall be so operated as to be under the safe control of the driver at all times. The speed shall be kept within such limits as may be necessary to avoid accidents. Speed of automobiles and other vehicles except ambulances and Government cars on emergency trips is limited to 35 miles per hour on all roads in the recreational demonstration areas unless a different limit be determined by the project manager with the approval of the Director of the National Park Service, and indicated by official signs posted for that purpose.

Any vehicle traveling slowly on any of the roads in the recreational demonstration areas, when overtaken by a faster moving motor vehicle, and upon suitable signal from such overtaking vehicle, shall move to the right to allow a safe passage.

Except in slow-moving traffic, a vehicle shall not follow another vehicle closer than 50 feet, nor closer than 15 feet at any time.

No motor vehicle shall be operated on any highway with clutch disengaged or gear out of mesh except for the purpose of changing or shifting gears or stopping or while being towed, or when such vehicle is equipped with commercial free-wheeling devices.

The horn shall be sounded on approaching sharp curves or other places where the view ahead is obstructed, or before passing other vehicles or pedestrians.

Muffler cut-outs shall be kept closed at all times within the limits of the recreational demonstration areas.

If vehicles stop because of accident or for any other reason, they shall be immediately parked in such a way as not to interfere with travel on the road.

The project manager may limit the time allowed for parking in any parking area upon the posting of signs indicating such limit.

Drivers of all vehicles shall comply with the directions of all official traffic signs posted in the recreational demonstration areas.

No person who is under the influence of intoxicating liquor or narcotic drugs shall operate or drive a motor-driven vehicle of any kind on the roads of the recreational demonstration areas.

*20. Advertisements*

Private notices or advertisements shall not be posted, distributed, or displayed in the recreational demonstration areas, excepting such as the project manager may deem necessary for the convenience and guidance of the public.

*21. Private Operations*

No person, firm, or corporation shall engage in or solicit any business in the recreational demonstration areas, excepting such as the project manager may deem necessary for the convenience and guidance of the public.

All persons, firms, or corporations holding franchises in the recreational demonstration areas shall keep the grounds used by them properly policed and shall maintain the premises in a sanitary condition to the satisfaction of the project manager. No operator shall retain in his employment a person whose presence in the area may be deemed by the project manager subversive to the good order and management of the area.

All operators shall require each of their public contact employees to wear a metal badge with a number thereon, or other mark of identification. The name and number corresponding therewith, or the identification mark, shall be registered in the office of the project manager. These badges must be worn in plain sight.

No person shall reside permanently in a recreational demonstration area, except that former resident owners of land acquired for a recreational demonstration area may in very exceptional cases be permitted to remain upon the land where their presence will not interfere with the development or use of the project.

Permittees shall cultivate only that portion of land heretofore in cultivation and the use of said land shall be consistent with good husbandry practices.

Permittees shall maintain all improvements on the land in a reasonable state of repair and shall not, except with the written consent of the project manager, remove or destroy present improvements or erect new improvements. All such additional improvements shall become the property of the United States.

Permittees shall be entitled to a reasonable quantity of wood for their own domestic purposes only and for such purposes may gather fallen timber and such standing timber as may be designated by the project manager.

Permittees shall burn no brush or conduct any land clearing operations except with the written consent of the project manager. Permittees shall be held responsible for any damage caused by fires resulting directly or indirectly from any lack of care on the part of any person or persons working on the lands under permit.

Permittees shall to the satisfaction of the project manager, provide for the disposal of all refuse, slash, waste, and other debris and for prevention of obstruction, pollution, or deterioration of springs, ponds, lakes, streams, and water courses on or in the vicinity of lands occupied by them.

Permittees shall be entitled to a reasonable amount of coal from the lands occupied by them for their own domestic purposes only, but they shall not extract for sale any minerals, gravel, oil, gas, or other products from below the surface of the land.

Billboards shall not be erected by the permittees or any advertising matter whatever displayed on the lands occupied by them, and no refreshment goods or products whatever shall be offered for sale on said lands without the written consent of the project manager.

Permittees, adjoining landowners, and all others shall provide against trespass by their livestock upon recreational demonstration areas. All trespasses committed will be punished to the fullest extent provided by law.

*22. Motor Boats*

The use of boats powered with either inboard or outboard motors is prohibited within the areas except on the lake of the Ozarks unless such use is specifically approved by the Director of the National Park Service.

LOCAL SUBSIDIARY REGULATIONS

Subsidiary regulations necessary to cover local situations and promulgated under general provisions contained in these regulations will be published in the FEDERAL REGISTER and may be seen at the headquarters of the recreational demonstration areas in which they are operative.

PENALTY

Any person who wilfully violates any of the foregoing rules or regulations is punishable by a fine of not to exceed $1,000.

Approved, April 19, 1937.

AMENDING REGULATIONS RESPECTING GAME ANIMALS, LAND FUR-BEARING ANIMALS, GAME BIRDS, NONGAME BIRDS, AND NESTS AND EGGS OF BIRDS IN ALASKA

Pursuant to the authority and direction contained in section 10 of the Alaska Game Law of January 13, 1925 (43 Stat. 739; U. S. Code, title 48, sec. 198), as amended by act of February 14, 1931 (46 Stat. 1111; U. S. Code, title 48, sec. 198), upon consultation with and recommendation from the Alaska Game Commission, having determined when, to what extent, and by what means game animals, land fur-bearing animals, game birds, nongame birds, and nests and eggs of birds may be taken, possessed, transported, bought, or sold in Alaska, I, Secretary of Agriculture, do hereby adopt and publish the following amendments of regulations 3, 4, 5, 6, 9, 14, 18, 19, and 21 under the Alaska Game Law adopted and published March 9, 1936, effective July 1, 1936, permitting and governing the same, said amendments to be effective July 27, 1937:

REGULATION 3—POSSESSION AND TRANSPORTATION OF GAME ANIMALS AND GAME BIRDS

Game animals (except live animals) in numbers not exceeding the maximum seasonal limits prescribed by regulation 11, the hides, heads, and feet of game animals, articles made from such hides, heads, or feet, grouse and ptarmigan, and the skins and feathers of game birds, legally taken during the open season, may be possessed and transported at any time within the Territory by any person: *Provided*, That until dismembered the carcass of any moose, mountain sheep, and/or deer shall not be so mutilated that the sex of the animal cannot be determined: *And Provided Further*, That any person possessing any game animal, or part thereof, without a valid hunting or trapping license shall furnish on demand to any officer authorized to enforce the Alaska Game Law an affidavit showing the name and license number of the person from whom he received such game animal, or part thereof, together with such other information as the officer may require.

Any person may without a license possess and transport at any time within or out of the Territory the shed antlers of caribou, moose, and deer.

Any person may transport within the Territory during the period constituting the open season therefor migratory game birds legally taken during the open season, and any such migratory game bird or parts thereof in transit during the open season may continue in transit for such additional time immediately succeeding such open season not to exceed 5 days, as may be necessary to deliver the same to their destination and may be possessed within the Territory during the period constituting the open season and for an additional period of 10 days next succeeding such open season, but no person shall possess a greater number of migratory game birds, including ducks, geese, and brant, than is permitted by the regulations of the Secretary of Agriculture under the Migratory Bird Treaty Act.

Any person without a permit or license may possess and transport at any time within or out of the Territory any article manufactured from the skins and feathers of game birds and from the hides or hoofs of caribou, deer, or mountain goats, legally taken.

A nonresident citizen who is the holder of a valid game license, or a nonresident alien who is the holder of an alien special license, may possess and transport at any time within or out of the Territory one moose, three deer, two caribou, excepting if such caribou are from the Alaska Peninsula as particularly described in regulation 11, then only one, two mountain sheep excepting if such sheep are from the Kenai Peninsula as particularly described in regulation 11, then only one, two mountain goats, and two in the aggregate of large brown and grizzly bears, and not to exceed 1 day's bag limit of resident game birds and the maximum possession limit of migratory game birds as prescribed in regulation 13, or any parts of such animals, but no more of any one kind legally taken by him; but before any big-game animal or game bird or part thereof shall be transported out of the Territory, the person desiring to make a shipment shall first make and deliver to the transportation agent at the point of shipment, his affidavit to the effect that he has not violated any of the provisions of the Alaska Game Law or the regulations thereunder; that the big-game animal or game bird or part thereof which he desires to ship has not been purchased or sold and is not being shipped for the purpose of being sold, and that he lawfully killed the animal or game bird and is the owner of it or the part thereof which he desires to ship; and if the shipment consists of a caribou or mountain sheep or part thereof, the statement must show in the case of caribou whether the animal was killed on the Alaska Peninsula, and in the case of mountain sheep whether the animal was killed on the Kenai Peninsula, or elsewhere in the Territory. Such affidavit or affidavits shall accompany the express or freight bills of lading to the port of clearance, there to be taken up by the collector of the port; collectors of customs at ports of clearance shall promptly transmit such affidavits to the Commission.

A resident may export by express, freight, or parcel post for mounting and return to the Territory within 1 year, but not for sale, any game animals, birds, or parts thereof that have been legally acquired by him upon first procuring a resident export license, which license shall ac-

company the bill of lading when shipment is made by freight or express, and if made by parcel post, the license shall be attached securely to the outside of the package in a conspicuous place. On the return of the trophies to the consignor by express or freight, the export license shall accompany the bill of lading, but if returned by parcel post, the export license shall be attached securely to the outside of the package in a conspicuous place, and the collector of customs at the port of entry, or the postmaster through whose office it is received, shall detach the export license, note thereon the contents of the shipment, and promptly return the license to the Commission.

In the discretion of the Commission permits may be issued to residents of the Territory for the export of legally acquired game animals, birds, or parts thereof, for purposes other than sale. Such permits may be obtained from any member of the Commission, game warden, or collector of customs upon payment of the required fees. Such animals, birds, or parts thereof, may be shipped by express or freight, and the permit shall accompany the bill of lading covering any such shipment to the port of clearance from the Territory, where such permit shall be taken up by the collector of customs and returned to the Commission.

REGULATION 4.—POSSESSION AND TRANSPORTATION OF FUR-BEARING ANIMALS

Live land fur-bearing animals legally taken during an open season may be retained after the close of said open season or sold for propagation within the Territory: *Provided*, That persons possessing such animals shall report their possession to the Alaska Game Commission at Juneau and apply for a permit to possess such animals pursuant to regulation 22 hereof within 30 days after the close of said open season.

The skins of land fur-bearing animals for which an open season is provided, or parts thereof, when legally acquired, may be possessed and transported by any person at any time, except as hereinafter provided, but no person who is engaged in fur farming or is a fur dealer or an agent of a fur dealer shall possess or transport any fur-bearing animal or part thereof, unless at the time of such possession or transportation he is in possession of a valid license issued to him pursuant to the provisions of the Alaska Game Law, and no person shall possess or transport any illegal skin at any time. In case shipment is made by express or freight, the shipper shall first deliver to the transportation agent at the point shipment is accepted, or if by parcel post to the postmaster at the point of mailing, a statement correctly showing the number and kinds of skins in each shipment and stating further that no illegal skin or unsealed beaver skin is contained therein. Transportation agents and postmasters shall not knowingly accept shipments containing furs without such statement. If shipment is made by express or freight, such statement shall accompany it to the port of clearance, there to be taken up by the collector of the port, or, if by parcel post, by the postmaster at the office where mailed. In case skins or furs are shipped out of the Territory by means other than express, freight, or parcel post, the person transporting them shall deliver such statement to the collector of customs at the port of clearance. Collectors and postmasters shall promptly transmit such statements to the Commission.

Skins of beavers imported into the Territory shall be sealed with a seal prescribed by the Commission within 30 days after such importation, as hereinafter provided.

Persons importing beaver skins and desiring to have them sealed shall within 30 days present them to a member of the Commission, to a game warden, or to any other officer authorized by the Commission to seal skins, together with such proof of entry or affidavit or affidavits as the Commission or any such officer may require.

Persons having taken the skins of beavers shall, within 90 days after the close of the open season during which they were legally taken, personally present them to a member of the Commission, to a game warden, or to any other officer authorized by the Commission to seal or tag skins, together with an affidavit of lawful taking completed on a form adopted and furnished by the Commission and such other affidavit or affidavits as may be required by any officer authorized to seal such skins: *Provided*, That persons residing in remote localities and finding it impracticable to present such skins to an officer authorized to seal them as hereinbefore prescribed, may present such skins, together with affidavit of lawful taking completed on a form adopted and furnished by the Commission as hereinbefore prescribed, to any individual authorized by the Commission to attach thereto a tag bearing an authorization permitting such skins, if legally taken, to be sold and transported within the Territory, subject to examination and authentication by a representative of the Commission; and such skins so tagged shall be presented by a lawful possessor to a warden or member of the Commission, or to any other officer authorized by the Commission to seal skins, for sealing within 90 days after the close of the open season during which they were taken: *Provided*, That such commissioner, warden, or officer may require further affidavit or affidavits of the person taking the skins at any time before they are accepted and sealed as legal skins. A person having legally taken the skins of beavers during the open seasons may not sell, trade, or otherwise dispose of such skins until they have been sealed or tagged as hereinbefore provided, and no person may purchase or otherwise procure any such untagged or unsealed skins.

Skins of beavers, unless sealed as prescribed by this regulation may not be possessed or transported by any person after the expiration of the time within which they are required by this regulation to be sealed.

No person who is not a bona fide fur dealer shall possess at any time, unless sealed, numbers of skins of beavers in excess of the seasonal bag limits prescribed by regulation.

REGULATION 5.—MARKING SHIPMENTS OF GAME ANIMALS, GAME BIRDS, LAND FUR-BEARING ANIMALS, OR PARTS THEREOF

Each package in which game animals, game birds, land fur-bearing animals, or parts thereof are transported, shall have clearly and conspicuously marked on the outside thereof the names and addresses of the consignor and consignee and an accurate statement of the number of each kind of game animals, game birds, land fur-bearing animals, or parts thereof, contained therein.

REGULATION 6.—SALE OF GAME ANIMALS AND GAME BIRDS IN CERTAIN PLACES, OF FUR-BEARING ANIMALS AND PARTS THEREOF, AND OF FEATHERS OF DUCKS AND GEESE

Nothing in this regulation shall be construed to permit any person to sell any game animal, game bird, or part thereof, except as hereinafter provided.

Except as hereinafter provided in this regulation and in regulation 7, in that portion of Alaska south of the summit of the Alaska Range and Ahklun Mountains a person who has legally killed caribou may sell the meat thereof, but no person to whom such meat is sold shall sell it otherwise than in cooked form and then only at roadhouses having a permit prescribed by the Secretary.

Except as hereinafter provided in this regulation and in regulation 7, in that portion of Alaska north of the Alaska Range and Ahklun Mountains, a person who has legally killed caribou, moose, and nonmigratory game birds may sell the meat thereof, but no person to whom such meat is sold shall resell it otherwise than in cooked form: *Provided*, That a permit, issued at the discretion of the Commission, shall be required for all restaurants, roadhouses, or public or other eating houses within such area, such permit authorizing the purchase and serving of such meats as provided herein, except that such meats shall not be sold or served within 5 miles of the center line of the Alaska Railroad, or within 5 miles of the center line of the Steese Highway from Fairbanks to and including Chatanika.

Nothing in this regulation shall be construed to permit the transportation to, or possession in, any other part of Alaska, of game meats sold under this regulation.

Any person may without a license buy and sell at any time in the Territory the feathers of wild ducks and wild geese, lawfully killed, and feathers of such birds seized and/or condemned by Federal or Territorial authorities, for use in making fishing flies, bed pillows, and mattresses, and for similar commercial purposes, but not for millinery or ornamental purposes; the hides or parts thereof of moose, caribou, deer, and mountain goats, legally taken during the open season; shed antlers of caribou, moose, and deer; and the skins and feathers of eagles, crows, hawks, owls, ravens, and cormorants.

A native-born resident Indian, Eskimo, or half-breed who has not severed his tribal relations by adopting a civilized mode of living or by exercising the right of franchise, and a hunter or trapper, may sell without a license the skins of fur-bearing animals which he has lawfully taken.

A person not engaged or employed in the business of trading in such skins may buy without a license the skins of fur-bearing animals for his own use, but he may not sell the skins so purchased.

Any other person who is in possession of a valid license issued pursuant to the provisions of the Alaska Game Law authorizing him so to do may buy and sell the skins of fur-bearing animals at any time, but each such person shall have his license with him when buying or selling skins, except that a person buying or selling skins at an established place shall have his license posted conspicuously on the promises, and each such licensee shall produce his license for inspection by any game warden or other person requesting to see it.

REGULATION 9—METHODS OF TAKING GAME ANIMALS AND GAME BIRDS

*Except in areas enumerated and defined as closed to hunting under regulation 14* and as otherwise specifically permitted by regulations 22 and 23, game animals and game birds may be taken during the open season in the numbers mentioned in regulations 11 and 13 with a bow and arrow, spear, pistol, rifle, or gun not larger than no. 10 gage, by the use of artificial decoys, and from a blind or floating device (other than an airplane, steam or power launch, or any boat other than one propelled by paddle, oars, or pole); but no person shall take any game animal or game bird from a motor vehicle, airplane, steam or power launch, or any boat other than one propelled by paddle, oars, or pole, nor shall any person take any such game animal or game bird with the aid or use of a set gun of any description, a machine or sub-machine gun, a pit, deadfall, fire, jacklight, searchlight, or other artificial light, or by shooting from, on, or across any public highway, or within 33 feet of the center line of any public highway in the First and Third Judicial Divisions of the Territory; or any game animal with the aid or use of a dog, or while swimming, except that no game birds may be taken with or by means of any automatic-loading or hand-operated repeating shotgun capable of holding more than three shells: *Provided*, That nothing in this regulation shall be construed to permit the hunting of migratory game birds contrary to the Migratory Bird Treaty Act regulations applicable to Alaska.

REGULATION 14.—CONTINUOUS CLOSE SEASON IN CERTAIN AREAS

Nothing in these regulations shall be construed to permit the taking at any time of any game animal, game bird, or fur-bearing animal—

in Mount McKinley National Park,
in Katmai National Monument,
in Glacier Bay National Monument,
on Kruzof and Partofshikof Islands,

in Eyak Lake closed area, including the drainage area of Eyak Lake and Power Creek, north and east of Cordova, more particularly described as follows: Beginning on the north boundary line of the city limits of the town of Cordova, Alaska, at a point where said boundary line is crossed by the divide between Eyak Lake and Power Creek and Orca Inlet and Orca Bay; thence in a general northeasterly direction along said divide to the intersection with parallel 60°40′ north; thence east along said parallel to the intersection with the divide between the watershed of Power Creek and Eyak Lake and the watershed of Ibek Creek; thence in a general southwesterly direction along said divide to the headwaters of Allen Creek; thence southwesterly along the course of Allen Creek to its confluence with Eyak Lake; thence southerly along the shore of Eyak Lake to the northerly side line of the Copper River & Northwestern Railway right of way; thence in a general westerly direction along the northerly side line of said railway right of way to the intersection with the east boundary line of the city limits of the town of Cordova; thence north along said east boundary of Cordova to the northeast corner of the boundary line of said town; thence west along the northern boundary line of said town to the point of beginning; containing approximately 22,000 acres;

in the Ward Lake area, Tongass National Forest, as posted and described by the United States Forest Service;

in the area of Mitkof Island 1 mile wide along the beach from the creek and cove immediately south of Blind Point to the city limits of Petersburg;

on any bird reservation except under permit or regulation by the Secretary of Agriculture;

on any island occupied under lease or permit for fur-farming purposes except by the occupant thereof;

or in any of the following-described areas along the line of the Alaska Railroad:

1. One-half mile in width situated to the eastward of the center line of the Alaska Railroad between mileposts 40.5 and 41.5.

2. One-half mile in width situated to the westward of the center line of the Alaska Railroad between mileposts 176 and 177.

3. One-half mile in width situated to the westward of the center line of the Alaska Railroad between mileposts 181.5 and 182.5.

4. One-half mile in width situated to the westward of the center line of the Alaska Railroad between mileposts 190 and 191.

5. One-half mile in width situated to the westward of the center line of the Alaska Railroad between mileposts 195.5 and 196.5.

6. One mile in width situated one-half mile to the eastward and one-half mile to the westward of the center line of the Alaska Railroad betwen mileposts 234.5 and 236.5.

7. One mile in width situated one-half mile to the westward and one-half mile to the eastward of the center line of the Alaska Railroad between mileposts 242 and 243.

8. One-half mile in width situated to the eastward of the center line of the Alaska Railroad between mileposts 250 and 252.

9. Beginning at a point 6 miles north of the Curry Hotel, thence east 1 mile, thence south 7 miles, thence west 2 miles, thence north 7 miles, thence east 1 mile to the place of beginning.

10. One mile in width on each side of the center line of the Alaska Railroad beginning at milepost 247 and extending to milepost 254.

11. One mile in width situated one-half mile to the northward and one-half mile to the southward of the center line of the Alaska Railroad between mileposts 40 and 52.

12. One thousand feet to the eastward and 1,000 feet to the westward of the center line of the Alaska Railroad between mileposts 282 and 293.

Nothing in these regulations shall be construed to permit the taking at any time except under permit of the Secretary of Agriculture of any—

game animal or game bird in Keystone Canyon closed area, including one-half mile on each side of and paralleling the Richardson Highway from milepost 13 (from Valdez) to milepost 20 (from Valdez);

game animal or game bird in the Big Delta closed area described as follows: Beginning at a point on the south bank of the Tanana River 1 mile east of the ferry at Big

Delta post office, thence south parallel to the Richardson Highway to a point 1 mile east of and opposite milepost 269 (from Valdez), thence westerly across and to a point on the west bank of the Big Delta River due west of aforesaid milepost 269 (from Valdez), thence north along the west bank of the Big Delta River to its junction with the south bank of the Tanana River, thence easterly along the south bank of the Tanana River to the place of beginning;

caribou in Steese Highway closed areas, including one-half mile on either side of and paralleling the center line of the Steese Highway from milepost 85 to milepost 88 (Twelve Mile Summit); and from milepost 106 to milepost 111 (Eagle Summit);

beaver or muskrat on the Kodiak-Afognak Islands group;

mountain goat on Baranof or Chichagof Islands;

moose between Cape Fairweather and Longitude 141°;

deer between Cape Fairweather and Longitude 141°, and in the Kodiak-Afognak Islands group;

buffalo (bison) in any part of Alaska;

musk ox in any part of Alaska;

elk in any part of Alaska;

large brown or grizzly bear in that area of land and water embracing the Glacier Bay National Monument, a part of the Tongass National Forest, and other lands included within the following described boundary: Beginning at the summit of Mount Fairweather, in approximate latitude 58°54′ N. and approximate longitude 137°31′ W., which point is identical with angle point no. 164 on the international boundary between Alaska and British Columbia and common to the most westerly point of the Glacier Bay National Monument, as established February 26, 1925; thence southwesterly, to Cape Fairweather on the Pacific Ocean, at the northwest corner of the Tongass National Forest, as established June 10, 1925; thence southeasterly, along the Pacific coast, including all islands along the coast, to the center channel of Cross Sound at the point of confluence with the Pacific Ocean; thence northeasterly, easterly, and southeasterly through the center channel of Cross Sound, North Inian Pass, North Passage, and Icy Passage to the center channel of Excursion Inlet at the point of Confluence with Icy Passage; thence easterly to a point on the east shore of Excursion Inlet at the foot of the spur ridge, which point is approximately 3 miles northeast of the Porpoise Island; thence northeasterly, following the summit of the spur ridge to the summit of the watershed between Excursion Inlet and Lynn Canal; thence northerly, northwesterly, and westerly, along the summit of the watershed between Excursion Inlet and Lynn Canal to the intersection of the east boundary of the Glacier Bay National Monument of the watershed divide of Excursion Inlet, Endicott River, and Glacier Bay, which point is in approximate latitude 58°42′ N. and approximate longitude 135°41′ W.; thence northwesterly, along the east and north boundary of the Glacier Bay National Monument, as now established, to the most northerly corner of said Glacier Bay National Monument, at a point on the international boundary between Alaska and British Columbia; thence southwesterly, along the international boundary between Alaska and British Columbia, through angle points nos. 157, 158, 159, 160, 161, 162, and 163 to the summit of Mount Fairweather, the point of beginning; excepting and reserving from the above-described area, all surveyed lands within fractional Tps. 39 and 40 S., Rs. 57, 58, and 59 E., Copper River Meridian;

large brown or grizzly bear on Afognak Island;

moose on the Alaska Peninsula south and west of Kvichak River, Iliamna Lake, and the old portage from Kamishak Bay to Kakhonak Bay;

moose on the Kenai Peninsula in the area described as follows: Beginning at the true point for the meander corner of fractional secs. 23 and 26, T. 6 N., R. 12 W., on the east shore of Cook Inlet, at low water; the approximate geographic position is in latitude 60°34′17″ N., and longitude 151°19′36″ W. from Greenwich; thence from said initial point easterly, between secs. 23 and 26 and secs. 24 and 25 to the corner of secs. 19, 24, 25, and 30, T. 6 N., Rs. 11 and 12 W.; thence easterly in T. 6 N., R. 11 W., along the north boundary of secs. 30, 29, and 28, to the NE. corner of sec. 28; thence southerly, along the east boundary of sec. 28 and sec. 33, to the corner of secs. 3, 4, 33, and 34, Tps. 5 and 6 N., R. 11 W.; thence easterly, along the north boundary of secs. 3, 2, and 1, to the NE. corner of T. 5 N., R. 11 W.; thence southerly, along the east boundary of sec. 1 to the meander corner of fractional secs. 1 and 6, on the right bank of the Kenai River; thence up the right bank of the Kenai River, at low water, to the outlet and westerly end of Skilak Lake; thence easterly, along and following the northerly shore of Skilak Lake, at low water, to a point on the northeasterly shore of the said lake at the mouth of the Kenai River; thence northeasterly, up the right bank of the Kenai River, at low water, to a point opposite the mouth of Russian River; this point falls on the west boundary of the Chugach National Forest as defined by Proclamation No. 1307, dated August 2, 1915; thence due north, following the west boundary of the Chugach National Forest as described by Proclamation No. 1741, dated May 29, 1925, to its intersection with Thurman Creek, thence following down the west bank of said creek and the Chickaloon River to Chickaloon Bay on Turnagain Arm of Cook Inlet, at low water; thence westerly and northwesterly, along the shore of Chickaloon Bay, at low water, to Point Possession; thence southwesterly, along the southeast shore of Cook Inlet, at low water, to the true point for the meander corner of fractional secs. 23 and 26, T. 6 N., R. 12 W., the place of beginning;

moose in the drainages of the Chilkoot and the Chilkat Rivers in Southeastern Alaska;

mountain sheep or mountain goat in the eastern part of the Kenai Peninsula east of the center line of the Alaska Railroad;

snowshoe hare on islands of the Kodiak-Afognak Islands group;

raccoon in any part of Alaska;

beaver on Baranof and Chichagof Islands or in the drainage to the Mendenhall Valley east of the main Glacier Highway;

muskrat in the Golovin Bay drainage;

black bear in the drainage to Anan Creek;

large brown or grizzly bear in the following areas on Admiralty Island:

*Thayer Mountain area.*—Beginning at the foot of the waterfall at the mouth of Hasselborg River on Salt Lake, head of Mitchell Bay; thence along the easterly bank of the Hasselborg River to the outlet of Hasselborg Lake; thence along the west shore of said lake to the outlet of the creek flowing into the head of the lake; thence upstream along the east bank of said creek to the trail crossing; thence in a southwesterly direction along the trail to the head of Thayer Lake; thence along the easterly shore of said lake to the extreme southern end of the lake; thence southeasterly approximately 2 miles in a straight line to the west end of Salt Lake at the head of Mitchell Bay; thence along the line of mean high tide of Salt Lake to the foot of the waterfall on Hasselborg River, the place of beginning; containing approximately 60 square miles;

*Pack Creek area.*—The entire watershed of Pack Creek, which empties into Seymour Canal near the north side of the entrance to Windfall Harbor; containing approximately 21 square miles;

mountain sheep or mountain goat in the Girdwood closed area described as follows: Beginning at the center of the bridge of the Crow Creek Road over California Creek, at approximately latitude 60°58′ north and longitude 149°8′ west of Greenwich, as shown on the preliminary topographic map of the Girdwood District, Alaska, 1931, published by the United States Geological Survey; thence on a course bearing due east continuing in a straight line to the west bank of Glacier Creek; thence northeasterly following the west and north bank of said creek and its largest northern tributary to its head; thence along the west side of the glacier it drains to the summit of the divide between Glazier Creek and the drainage to the north at approximately latitude 61°2′30″ north, longitude 149° west; thence westerly and northerly along said divide around the head of Raven Glacier to a point where said divide intersects the western margin of the most northern glacier in Raven Creek basin; thence following northeasterly and westerly along the western and southern margin of Eagle Glacier to its termination; thence westerly in a straight line to the junction of Camp and Raven Creeks; thence southwesterly along the south bank of Camp Creek to its head, at the divide between Camp Creek and the North Fork Ship Creek; thence northwesterly down the valley of the North Fork Ship Creek to a small lake in this valley; thence westerly along the south shore of said lake and continuing westerly along the south bank of North Fork Ship Creek to the junction of said creek with its first large tributary from the south, entering it about 1 mile east of Bird Creek Pass; thence southerly along the west bank of said tributary and its most westerly branch to the divide between North Fork Ship Creek and Bird Creek; thence southwesterly in a straight line to the junction of Bird Creek with its first large tributary from the head entering it from the south; thence southeasterly along the northern and eastern side of the stream bed of said tributary to the summit of the divide between the said tributary and the drainage of California Creek; thence southerly along the divide between California Creek and Bird Creek to a summit marked 4322 on the said preliminary topographic map of Girdwood District, Alaska, said point being in approximately latitude 60°59′ north, longitude 149°11′15″ west; thence southeasterly in a straight line to the point of beginning; containing approximately 77 square miles.

*Regulation 18.—Methods of Taking Land Fur-Bearing Animals and Recapture of Escaped Animals*

*Except in areas enumerated and defined as closed to trapping under regulation 14*, land fur-bearing animals may be taken during the open season in any number and in any manner, except by the aid or use of a set gun of any description a shotgun, fire, jack light, pit lamp, searchlight, or other artificial light, by means of a trap or device known as the "klips", or by means of any steel bear trap or any other trap with jaws having a spread exceeding 9 inches, or by means of strychnine, or other poison: *Provided*, That no dogs shall be used to take any land fur-bearing animal (except polar bears in fur district 8; and wolves and coyotes in fur districts 5, 6, 7, and 8), and no protected fur-bearing animal shall be taken from its home, den, or hole by digging, smoking, or the use of chemicals, and no home, house, den, or runway of a beaver or muskrat shall be injured or destroyed.

Beavers may be taken only by shooting with rifle and by the use of steel traps, but such traps shall not be placed within 25 feet of any beaver house or den. No beaver may be taken by or with the aid of a shotgun.

No fox shall be taken by the use of a trap set within 100 feet of a fox den.

Operators of licensed fur farms from which animals escape from captivity may conduct recapturing operations through the use of legal trapping devices within a period of 30 days after the discovery of escape of the animals. If such operations are conducted during the close season on wild animals of the same species, such operator shall immediately notify the nearest game warden in writing of the numbers and kinds of escaped animals, the kinds of devices being used in recapturing operations, and the locality where such operations are being conducted.

So-called "blackfish traps", commonly used near the Bering Sea coast for the taking of blackfish, shall be properly screened to prevent the capture or killing of land fur-bearing animals.

During the close seasons on land fur-bearing animals in the respective fur districts no person shall set, maintain, or attend traps for wolves, coyotes, or other unprotected animals without first procuring a permit, issuable at the discretion of the Commission, authorizing him to do so. Application for such permit shall be addressed to the Alaska Game Commission, Juneau, Alaska, and shall contain a statement of the nature and extent of the proposed operations of the applicant.

REGULATION 19.—OPEN AND CLOSE SEASON ON LAND FUR-BEARING ANIMALS

*Except in areas enumerated and defined as closed to trapping under regulation 14*, land fur-bearing animals may be taken in the specified districts and not to exceed the number of beavers set forth for the specified districts during the following open seasons:

*Fur District 1*

*Mink, marten, land otter, weasel* (ermine), *fox* (red, cross, and silver), *and lynx.*—December 20 to January 31.

*Muskrat.*—March 1 to April 30.

*Beaver.*—No open season.

*Black bear.*—September 1 to June 20. Bag limit two; *Provided*, That a resident may kill a black bear at any time or place when such animal is about to attack or molest persons or property.

*Wolf, coyote, wolverine, marmot, and ground squirrel* (spermophile).—No close season, may be taken by any person at any time in a lawful manner. (See regulations 2 and 18.)

*Fur District 2*

*Mink, marten, land otter, weasel* (ermine), *fox* (red, cross, and silver), *and lynx.*—December 1 to February 28; except that there shall be no open season in that part of the Kenai Peninsula west of the center line of the Alaska Railroad.

*Muskrat.*—April 1 to May 31; except on Kenai Peninsula where the open season shall be March 1 to April 30.

*Beaver.*—April 10 to May 10. Limit, 10 a season.

*Black bear.*—September 1 to June 20. Bag limit two; *Provided*, That a resident may kill a black bear at any time or place when such animal is about to attack or molest persons or property.

*Wolf, coyote, wolverine, marmot, and ground squirrel* (spermophile).—No close season, may be taken by any person at any time in a lawful manner. (See regulations 2 and 18.)

*Fur District 3*

*Mink, Marten, land otter, weasel* (ermine), *fox* (red, cross, silver, white, and blue), *and lynx.*—December 1 to January 31; except that there shall be no open season for mink, land otter, or weasel (ermine) on Unimak Island.

*Muskrat.*—March 10 to May 10.

*Beaver.*—No open season.

*Wolf, coyote, wolverine, black bear, marmot, and ground squirrel* (spermophile).—No close season, may be taken by any person at any time in a lawful manner. (See regulations 2 and 18.)

*Fur District 4*

*Mink, marten, land otter, weasel* (ermine), *fox* (red, cross, silver, white, and blue), *and lynx.*—December 1 to February 15.

*Muskrat.*—March 10 to May 10.

Beaver.—April 10 to May 10. Limit, 10 a season.

*Wolf, coyote, wolverine, black bear, marmot, and ground squirrel* (spermophile).—No close season, may be taken by any person at any time in a lawful manner. (See regulations 2 and 18.)

*Fur District 5*

*Mink, marten, land otter, weasel* (ermine), *fox* (red, cross, silver, white, and blue), *and lynx.*—November 16 to March 10.

*Muskrat.*—North of the Unalakleet River drainage, except Golovin Bay drainage, April 1 to June 7; south of the Unalakleet River, including its drainage April 1 to May 31.

*Beaver.*—April 25 to May 25. Limit, 10 a season.

*Polar bear, wolf, coyote, wolverine, black bear, marmot, and ground squirrel* (spermophile).—No close season, may be taken by any person at any time in a lawful manner. (See regulations 2 and 18.)

*Fur District 6*

*Mink, marten, land otter, weasel* (ermine), *fox* (red, cross, silver, white, and blue), *and lynx*.—November 16 to February 20.

*Muskrat*.—April 1 to May 31.

*Beaver*.—April 20 to May 20. Limit, 10 a season; except that there shall be no open season in that part of the Tanana River drainage east of the Richardson Highway and east of the divide between the Goodpaster River drainage and the Shaw Creek drainage and the divide between the Goodpaster River drainage and the upper Salcha River drainage.

*Wolf, coyote, wolverine, black bear, marmot, and ground squirrel* (spermophile).—No close season, may be taken by any person at any time in a lawful manner. (See regulations 2 and 18.)

*Fur District 7*

*Mink, marten, land otter, weasel* (ermine), *fox* (red, cross, silver, white, and blue), *and lynx*.—November 6 to February 20.

*Muskrat*.—March 1 to May 31.

*Beaver*.—April 20 to May 20. Limit, 10 a season.

*Wolf, coyote, wolverine, black bear, marmot, and ground squirrel* (spermophile).—No close season, may be taken by any person at any time in a lawful manner. (See regulations 2 and 18.)

SERVICE AND REGULATORY ANNOUNCEMENTS

FOOD AND DRUG NO. 4, THIRD REVISION, SUPPLEMENT NO. 4

Under the authority conferred by the amendment of July 8, 1930, to the Federal Food and Drugs Act (sec. 8, par. 5, in the case of food), there are hereby promulgated, to become effective 90 days from date, a revision of the standard for canned cherries and a standard for canned red sour pitted cherries.

[SEAL] H. A. WALLACE,
*Secretary of Agriculture.*

APRIL 27, 1937.

---

CANNED CHERRIES

STANDARD OF QUALITY AND CONDITION

43. Standard canned cherries are the normally flavored and normally colored canned food consisting of (1) the normal sized, uniform sized, fleshy, mature, unblemished, stemmed, whole fruit of the sweet cherry tree (*Prunus avium*), and (2) sugar solution of sufficient strength so that the liquid portion of the finished product reads not less than 16° Brix (read at the proper temperature for the instrument used).

49 (d). When canned cherries fail to meet the above standard only because of color, but are of a type where the flesh is of some color other than yellowish white, as Bing cherries, black cherries, etc., they shall bear a special statement showing the type to which they belong.

Paragraphs 44 to 49 (c) inclusive remain unchanged.

CANNED RED SOUR PITTED CHERRIES

STANDARD OF QUALITY AND CONDITION

83. Standard canned red sour pitted cherries are the normally flavored and normally colored canned food consisting of (1) the mature, unblemished, stemmed, pitted fruit of the red sour cherry tree (*Prunus cerasus*), and (2) sugar solution of sufficient strength so that the liquid portion of the finished product reads not less than 16° Brix (read at the proper temperature for the instrument used).

MEANING OF TERMS

84. The fruit is "normally colored" if the naturally developed general color of both liquid portion and flesh is red.

85. The fruit is "unblemished" if 85 per cent or more of the units in the container are free from such defects as limb rubs, scars, scabs, wind whips, brown spots, or other unsightly blemishes. Units showing skin discolorations having a total area of a circle 3/16 inch in diameter or less, with no perceptible discoloration of the fruit tissue under the skin, will not be considered as blemished.

86. The fruit is "pitted" when there is present in a can not more than one cherry pit, or its equivalent in broken pieces of shell, per each 20 ounces of net contents.

SUBSTANDARD QUALITY STATEMENT

87. Canned red sour pitted cherries which fail to meet the above standard shall, except as provided in section (a), bear the substandard statement in the form and manner prescribed in paragraph 1. The first line of the legend shall be "Below U. S. Standard"; the explanatory statement, except as provided in section (c) "Good Food—Not High Grade."

(a) When canned red sour pitted cherries fail to meet the above standard only in that they consist of cherries packed in water, they shall bear a special statement showing that fact, such as "Water-pack red sour pitted cherries".

(b) Canned red sour pitted cherries from which only a portion of the pits have been removed, so that there is present more than the amount permitted by paragraph 86, shall bear the statement prescribed in paragraph 87 and also the special statement "Partially pitted cherries."

(c) When canned red sour pitted cherries fail to meet the above standard only in that they are artificially colored, they shall bear the substandard statement in the form and manner prescribed in paragraph 1. The first line of the legend shall be "Below U. S. Standard"; the explanatory statement "Because artificially colored."

STANDARD REQUIREMENT FOR FILL OF CONTAINER

88. Canned red sour pitted cherries are of standard fill with respect to packing medium when the drained weight of cherries equals or exceeds the following amounts:

| Overall Dimensions Sealed Can | | Drained Cherries |
|---|---|---|
| Diameter | Height | |
| *Inches* 3 7/16 6 3/16 | *Inches* 4 9/16 7 | *Ounces* 13.5 74.0 |

To allow for shrinkage where considerable sugar is used a tolerance of 5 per cent below the above weights is allowed in products showing a Brix of 20° or above. Pending the issuance of standard fill requirements for cans of less usual sizes, red sour pitted cherries in cans of a size not mentioned above will be regarded as of standard fill with respect to packing medium when the drained weight of cherries equals or exceeds 1 ounce for each 2.6 cubic inches inside capacity of the container. Drained weight is determined by draining the contents of the container 2 minutes on an 8-mesh sieve. For containers under 3 pounds net weight, sieves 8 inches in diameter are used. For containers 3 pounds or over net weight, sieves 12 inches in diameter are used. The sieve is tilted as much as possible without shifting of the cherries. Excess liquid is removed by wiping the lower portion of the sieve with a cloth, the solids remaining on the sieve transferred to a tared dish and their weight determined.

SUBSTANDARD FILL STATEMENT

89. Canned red sour pitted cherries which contain a lesser proportion of fruit than required by the above standard shall bear the substandard statement in the form and manner prescribed in paragraph 10 (2).

**Home Owners' Loan Corporation.**

[Manual Amendment]

RENUMBERING OF CHAPTERS; AUTHORIZATION OF ADVANCES FOR REPAIRS; EFFECTIVE DATE OF RECONDITIONING CHAPTER

Be it resolved, That pursuant to the authority vested in the Board by Home Owners' Loan Act of 1933 (48 Stat. 128, 129) as amended by Sections 1 and 13 of the Act of April 27, 1934 (48 Stat. 643-647) and particularly by Sections 4-a and 4-k of said Act as amended, the Reconditioning Chapter of the Consolidated Manual is hereby amended in the following respects:

(1) Sections 501 and 502 are combined into one section and numbered 501. The subsequent sections are correspondingly renumbered so that Section 503 shall be changed to 502; Section 504 to 503; Section 505 to 504; and Section 506 to 505.

(2) Section 502, as renumbered, is hereby amended to read as follows:

SEC. 502. The General Manager may authorize advances for the account of borrowers for repairs to protect the Corporation's interest in cases where borrowers are unable or fail to effect such repairs, and also advances for the account of borrowers for income-producing reconditioning as provided in Section 503. He is authorized also to execute on behalf of the Corporation contracts or other instruments relating to such repairs or income-producing reconditioning. The General Manager, except as otherwise expressly provided by the Board, may incur and approve the amount and payment of fees and expenses in connection with any such advances. Legal fees and expenses in connection with any such advances shall be incurred, approved and paid as provided in Chapter VI of the Manual. The authority herein conferred upon the General Manager may be exercised also by Regional, State and District Managers under procedure and limitations prescribed by the General Manager with the approval of the General Counsel. Advances for the account of the borrower made after the loan was closed shall be repaid in such manner, on such terms, and under such conditions and procedure as the General Manager and the General Counsel shall prescribe.

(3) The effective date of the Reconditioning Chapter of the Consolidated Manual (Chapter V) shall be 110 days after the date of its original adoption, January 19, 1937, Sundays and holidays excluded; and a resolution adopted on March 8, 1937 extending the time for the effective date to 80 days after the original adoption of said chapter is hereby amended to conform to the provisions hereof.

Adopted by the Federal Home Loan Bank Board on April 27, 1937.

### Bureau of Internal Revenue.

[Regulations No. 17, Amended, April, 1937]

INFORMATION CONCERNING DISPOSITION OF SUBSTANCES USED IN THE MANUFACTURE OF DISTILLED SPIRITS

*District Supervisors of the Bureau of Internal Revenue and Others Concerned:*

The following regulations are prescribed under the provisions of Joint Resolution No. 373, approved June 18, 1934, entitled "Joint Resolution to protect the revenue by requiring information concerning the disposition of substances used in the manufacture of distilled spirits," which is as follows:

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That every person disposing of any substance of the character used in the manufacture of distilled spirits shall, when required by the Commissioner, render a correct return in such form and manner as the Commissioner, with the approval of the Secretary of the Treasury, may by rules and regulations prescribe, showing the names and addresses of the persons to whom such disposition was made, with such details, as to the quantity so disposed of or other information which the Commissioner may require as to such disposition, as will enable the Commissioner to determine whether all taxes due with respect to any distilled spirits manufactured from such substances have been paid. Any person who willfully violates any provision hereof, or of any such rules or regulations, and any officer, director, or agent of any such person who knowingly participates in such violation, shall upon conviction be fined not more than $500 or be imprisoned for not more than one year, or both. As used in this joint resolution (a) the term "distilled spirits" has the same meaning as that in which it is used in Title II of the Liquor Taxing Act of 1934; (b) the term "person" includes individuals, corporations, partnerships, associations, trusts, and other incorporated and unincorporated organizations; (c) "Commissioner" means the Commissioner of Internal Revenue; and (d) the term "substance of the character used in the manufacture of distilled spirits" includes, but not by way of limitation, molasses, corn sugar, cane sugar, and malt sugar.

ARTICLE I—DEFINITIONS

In these regulations the following words and phrases shall, unless otherwise stated, be considered as having the meaning herein defined:

(a) "Act" shall mean the Joint Resolution of Congress No. 373, approved June 18, 1934, entitled "Joint Resolution to protect the revenue by requiring information concerning the disposition of substances used in the manufacture of distilled spirits."

(b) "Commissioner" shall mean the Commissioner of Internal Revenue.

(c) "Substance" shall mean cane molasses of the grade commonly known as blackstrap molasses; dehydrated molasses; Corn sugar, beet sugar, and cane sugar; hydrol; sugar syrup, i. e. any known corn derivative containing more than 60% reducing sugar calculated as dextrose on a dry basis; yeast; cider; malt; oak chips, charred and not charred; Urea, ammonium phosphate, ammonium carbonate, ammonium sulphate and other yeast foods; corn meal, corn chops, cracked corn, rye chops, middlings, bran and other grain derivatives.

(d) "United States" shall mean the Continental United States and its outlying possessions to which the internal revenue laws apply.

(e) Words in the singular shall include the plural.

ARTICLE II—RETURNS

Every person in the United States who consigns, sells or otherwise disposes of any substance, as defined in paragraph (c) of Article I of these regulations, shall, when required in writing by the Commissioner of Internal Revenue, the Deputy Commissioner in charge of the Alcohol Tax Unit, or a District Supervisor or Acting District Supervisor of the Alcohol Tax Unit for the purpose of determining whether all taxes due with respect to any distilled spirits manufactured from such substances have been paid, render in writing a correct return showing (1) the date of the consignment, sale, or other disposition of the substance; (2) the quantity and kind of the substance consigned, sold, or otherwise disposed of; (3) the name and complete address of the purchaser, or person to whom disposition is made, and if the sale or disposition is made by or through any other person, the name and complete address of such other person; (4) the name and complete address of the consignee; (5) the date and method of shipment or delivery, such as by truck, or other conveyance, and the state or city registration number of such truck, or other conveyance, if any; (6) the name and complete address of the driver of such truck, or other conveyance, as shown by the driver's operator's license, if any, giving the number of the license and the date of issuance; (7) the name and complete address of the person to whom actual delivery has been, or is to be, made; and (8) the exact date of such delivery, or proposed delivery. Where shipment is made by a common carrier, such as a railroad, trucking company, steamboat line, etc., the information required by subdivisions (5) and (6) of this Article need not be reported, but in lieu thereof there shall be furnished the complete routing of the shipment.

Returns shall be filed with the officer or employee of the Bureau of Internal Revenue designated by the Commissioner or the officer requiring returns, not later than ten days after the receipt of the notice requiring the same to be filed, unless that notice shall specify a shorter period of time within which the return is to be made.

ARTICLE III—RECORDS

Every person in the United States who consigns, sells, or otherwise disposes of any substance, as defined in paragraph (c) of Article I of these regulations, shall keep at his place of business such books, records, documents, papers, invoices, bills of lading, etc., relating to or connected with any such consignment, sale, or other disposition, as will enable such person to make the return provided for by Article II of these regulations: Provided, That, unless the Commissioner, Deputy Commissioner, District Supervisor, or Assistant District Supervisor shall, in writing, notify any such person so to do, he shall not be required to keep such books, records, documents, papers, invoices, bills of lading, etc., when the consignment, sale, or other disposition of any such substances at the same time, does not exceed the following: (a) 300 pounds of cane, corn, or beet sugar; (b) 250 gallons of blackstrap molasses, or (c) 5 pounds of yeast when packaged or cartoned in quarter pound, half pound, pound, or larger packages; (d) 100 gallons cider; (e) 250 pounds malt; (f) 300 pounds of dehydrated molasses; (g) 250 gallons of hydrol or sugar syrup; (h) 100 pounds of Urea, ammonium phosphate, ammonium carbonate, ammonium sulphate, or other yeast foods; (i) 300 pounds of corn meal, corn chops, cracked corn, rye chops, middlings, bran, or other grain derivatives. When any person has made a return pursuant to the procedure provided for in Article II of these regulations, such books, records, documents, papers, invoices, bills of lading, etc., shall be kept readily available for, and open to, inspection by any officer or employee of the Alcohol Tax Unit of the Bureau of Internal Revenue during the hours of business of such person.

ARTICLE IV—DELEGATION OF AUTHORITY

The Deputy Commissioner in charge of the Alcohol Tax Unit, Bureau of Internal Revenue, is charged with the administration and enforcement of the Act and these regulations, under the direction of the Commissioner.

These regulations shall become effective immediately.

REGULATIONS PRESCRIBED UNDER PROVISIONS OF TITLE I OF THE LIQUOR LAW REPEAL AND ENFORCEMENT ACT

*To District Supervisors of the Bureau of Internal Revenue and Others Concerned:*

The following regulations are prescribed under the provisions of Title I of the "Liquor Law Repeal and Enforcement Act", approved August 27, 1935.

ARTICLE I—DEFINITIONS

In these regulations the following words shall, unless otherwise stated, be considered as having the meaning herein defined:

(a) "Articles" shall mean denatured alcohol, denatured rum, ethyl acetate and any liquid substance or preparation which contains more than 25 per cent by volume of denatured alcohol or denatured rum;

(b) "Commissioner" shall mean the Commissioner of Internal Revenue;

(c) "Person" shall mean and include natural persons, firms, partnerships, corporations, and associations.

ARTICLE II—RETURNS

Every person in the United States who consigns, sells, or otherwise disposes of, articles as defined in these regulations, shall, when required in writing by the Commissioner of Internal Revenue, the Deputy Commissioner in charge of the Alcohol Tax Unit, or a District Supervisor or Acting District Supervisor of the Alcohol Tax Unit, for the purpose of determining whether such articles are being used for the recovery of alcohol in fraud of the internal revenue tax on such alcohol, render in writing a correct return showing (1) the date of each consignment, sale, or other disposition of, such articles on or after the receipt of the notice requiring such returns; (2) the quantity and kind of the articles consigned, sold, or otherwise disposed of; (3) the name and complete address of the purchaser, or person to whom disposition is made, and if the sale or disposition is made by or through any other person, the name and complete address of such other person; (4) the name and complete address of the consignee; (5) the date and method of shipment or delivery, such as by truck, or other conveyance, and the state or city registration number of such truck or other conveyance, if any; (6) the name and complete address of the driver of such truck, or other conveyance, as shown by the driver's operator's license, if any, giving the number of the license and the date of issuance; (7) the name and complete address of the person to whom actual delivery has been, or is to be, made; and (8) the exact date of such delivery, or proposed delivery. Where shipment is made by a common carrier, such as a railroad, trucking company, steamboat line, etc., the information required by subdivisions (5) and (6) of this Article need not be reported, but in lieu thereof there shall be furnished the complete routing of the shipment.

Returns shall be filed with the officer or employee of the Bureau of Internal Revenue designated by the Commissioner or the officer requiring returns, not later than ten days after the receipt of the notice requiring the same to be filed, unless that notice shall specify a shorter period of time within which the return is to be filed.

ARTICLE III—RECORDS

Every person who consigns, sells, or otherwise disposes of any such articles, as defined in these Regulations, shall, on and after the receipt of a notice in writing requiring returns to be made under Article II of these Regulations, keep at his place of business such books, records, documents, papers, invoices, bills of lading, etc., relating to or connected with every such consignment, sale, or disposition, as will enable such person to make the return provided for by Article II of these regulations.

When any person has made a return pursuant to the procedure provided for in Article II of these regulations, such books, records, documents, papers, invoices, bills of lading, etc., shall be kept readily available for, and open to, inspection by any officer or employee of the Alcohol Tax Unit of the Bureau of Internal Revenue during the hours of business of such person.

ARTICLE IV

These regulations shall be in addition to, and shall not alter, modify or repeal, the provisions of existing regulations relating to denatured alcohol, denatured rum, or products containing such alcohol or rum.

ARTICLE V—DELEGATION OF AUTHORITY

The Deputy Commissioner in charge of the Alcohol Tax Unit, Bureau of Internal Revenue, is charged with the administration and enforcement of the Act and these regulations, under the direction of the Commissioner.

These regulations shall become effective immediately.

## FEDERAL POWER COMMISSION.

Commissioners: Frank R. McNinch, Chairman; Clyde L. Seavey, Vice Chairman; Herbert J. Drane, Claude L. Draper, Basil Manly.

[Docket No. IT-5465]

ORDER POSTPONING HEARING

PUBLIC SERVICE ELECTRIC AND GAS COMPANY AND SOMERSET, UNION AND MIDDLESEX LIGHTING COMPANY

The following order was adopted:

It appearing to the Commission:

(1) Public Service Electric and Gas Company, whose address is 80 Park Place, Newark, New Jersey having filed an application, IT-5465, under Section 203 of the Federal Power Act for approval of the merger of Somerset, Union and Middlesex Lighting Company into said Public Service Electric and Gas Company, and the matter having been set for hearing on April 22, 1937, and thereafter postponed to May 3, 1937, by order of the Commission adopted April 13, 1937, for the reason that certain additional information

to be thereafter furnished by applicant would require additional time for consideration;

(2) That such information not having been furnished by the applicant until April 27, 1937, the time between that date and May 3, 1937, is insufficient for the consideration of the same prior to hearing.

It is ordered:

That said hearing be postponed from May 3, 1937 to May 10, 1937, at 10:00 o'clock a. m., at the Commission's hearing room in Washington, D. C.

Adopted by the Commission on April 27, 1937.

## VETERANS' ADMINISTRATION.

REVISION OF REGULATIONS

INSURANCE

*Determination of Age for Insurance Purposes*

3011. The age of the insured under yearly renewable term insurance and United States Government life insurance, for the purpose of fixing the rate of premium to be charged, will be determined by calculating from the date of birth to the effective date of the insurance, and the age at the nearest birthday will be used. The age of the beneficiary under such insurance for the purpose of continuous life installments with two hundred and forty installments guaranteed, will be determined by calculating from the date of birth to the date of death of the insured and the age as of last birthday will be used. If two or more dates of birth are given, the older age will be used for the insured and the premium rate will be fixed accordingly, but the younger age will be used for the beneficiary and the amount of each monthly installment will be fixed accordingly. In any event, the person in interest is privileged to furnish evidence in conformity with requirements of regulations for the purpose of establishing the date of birth of the insured or of the beneficiary. COUNTERVAILING DUTY—RYE FLOUR FROM THE REPUBLIC OF POLAND

TREASURY DECISION 47943, DATED OCTOBER 22, 1935, REVOKED

*To Collectors of Customs and Others Concerned:*

Reference is made to Treasury Decision 47943, dated October 22, 1935, declaring, pursuant to the authority contained in section 303 of the Tariff Act of 1930 (U. S. C., title 19, sec. 1303), that the Republic of Poland was paying bounties on the exportation of rye flour, and instructing collectors of customs to require a deposit of estimated countervailing duty on such merchandise imported directly or indirectly from that country.

Official information has been received to the effect that the payment of bounties on rye flour from the Republic of Poland was discontinued effective March 16, 1937.

Therefore, pursuant to the authority contained in section 303 of the Tariff Act of 1930, Treasury Decision 47943 is hereby revoked effective as to shipments of such merchandise exported from the Republic of Poland on or after March 16, 1937.

## DEPARTMENT OF AGRICULTURE.

### Agricultural Adjustment Administration.

NER—B–101—Pennsylvania—Supplement (5) Issued April 30, 1937

1937 AGRICULTURAL CONSERVATION PROGRAM—NORTHEAST REGION

BULLETIN NO. 101—PENNSYLVANIA—SUPPLEMENT (5)

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, Bulletin No. 101—Pennsylvania, as amended by Supplements (1), (2), (3), and (4) thereto, is hereby amended as follows:

I

Section 3 of Part VI, which reads as follows:

SECTION 3. *Soil-Conserving Crops Grown on Land Used for the Production of a Soil-Depleting Crop.*—Land devoted to any of the combinations of soil-depleting and soil-conserving crops listed below shall, in addition to being regarded as being used for the production of a soil-depleting crop, also be regarded as being used for the production of a soil-conserving crop as follows:

(a) All the land from which a soil-depleting crop is harvested in 1937 and followed by legumes (classified in section 2 above as soil-conserving) or perennial grasses (whether seeded in or following such crop) shall, in addition to being classified as soil-depleting, be classified as soil-conserving.

(b) All the land on which green-manure crops are seeded following commercial vegetables and plowed under as green-manure after having attained at least two months' or 12 inches' growth shall, in addition to being classified as soil-depleting, be classified as soil-conserving.

is stricken out and in lieu thereof the following is inserted:

SECTION 3. *Soil-Conserving Crops Grown on Land Used for the Production of a Soil-Depleting Crop.*—Land devoted to any combination of soil-depleting and soil-conserving crops shall be regarded for that year as used for the production of a soil-depleting crop only.

II

The definition of "soil-conserving base" in Part IX, "Definitions", which, as amended by Supplement (3), reads as follows:

*Soil-conserving base* means the acreage represented by the difference between (1) the sum of the total crop land (excluding commercial orchards and idle crop land) and the 1936 acreage of soil-conserving crops as described in Part VI, section 3 (legumes or perennial grasses following a soil-depleting crop in 1936, or green-manure crops plowed under in 1936 following commercial vegetables), and (2) the sum of the 1937 tobacco soil-depleting base (if any) and the 1937 general soil-depleting base which is or could be established for the farm.

is stricken out and in lieu thereof the following is inserted:

*Soil-conserving base* means the acreage of soil-conserving crops normally grown on the farm and is computed in the following manner:

1. Add (1) the 1937 tobacco soil-depleting base (if any), (2) the 1937 general soil-depleting base which is or could be established for the farm, and (3) the acreage of neutral land on the farm in 1936.

2. Subtract the sum obtained from the computation under paragraph 1 above from the figure representing the total crop land in the farm.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 30th day of April, 1937.

SR—B-101, Amendment 10

1937 AGRICULTURAL CONSERVATION PROGRAM—SOUTHERN REGION

BULLETIN NO. 101—AMENDMENT 10

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Part IX, Revised, of Southern Region Bulletin 101 is hereby amended as follows:

I

The definition of the wind erosion area is amended to read as follows:

*Wind Erosion Area* means that area comprising the following counties within the wheat and grain sorghum area, except that counties may be added to the following if recommended by the State Committee before May 15, 1937, and approved by the Secretary.

*Texas.*—Andrews, Armstrong, Bailey, Borden, Briscoe, Carson, Castro, Cochran, Crosby, Dallam, Dawson, Deaf Smith, Donley, Ector, Floyd, Gaines, Garza, Glasscock, Gray, Hale, Hansford, Hartley, Hemphill, Hockley, Howard, Hutchinson, Kent, Lamb, Lipscomb, Loving, Lubbock, Lynn, Martin, Midland, Moore, Motley, Ochiltree, Oldham, Parmer, Potter, Randall, Roberts, Sherman, Swisher, Terry, Wheeler, Winkler, and Yoakum.

*Oklahoma.*—Beaver, Cimarron, Ellis, Harper, Roger Mills, Texas, and Woodward.

II

Section 101 is amended by changing Practice No. 27 to read as follows:

*Practice Number—Practices and Conditions—Rate*

27. *Reestablishment of native grasses* by seeding or sodding in 1937, or the establishment in 1937 of permanent pasture of perennial grasses or grass and legume mixtures on cropland, or noncrop open pasture land, which if in the wind erosion area has been contour listed since January 1, 1936, in accordance with the method outlined in practice 21: $2.50 per acre.

III

Section 111 is amended to read as follows:

*Preliminary Payment.*—On a preliminary application made on Form SR–114, any producer whose soil-building allowance has been established in accordance with section 108 may receive preliminary payment for carrying out one or more of the soil-building practices numbered 21, 22, 23, 31, 32, and 33 covered by such application which he has carried out before June 20, 1937, on land of the type described in paragraph (a), section 108. Such payment shall be 85 percent of the amount computed at the respective rate fixed in the statement of the soil-building practices. Only one such preliminary application may be submitted respecting any particular farm. The amount of such payment will be deducted from the total amount computed as due such producer under the complete and final application made by him on Form SR–109 for payment under the provisions of the 1937 Agricultural Conservative Program, which application shall be subject to all of the provisions of this Bulletin 101, and under such application the appropriate deduction shall be made for administrative expenses in connection with the producer's preliminary application.

In testimony whereof, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 30th day of April, 1937.

[Amendment 6 to B. A. I. Order 353]

ORDER TO PREVENT THE INTRODUCTION INTO THE UNITED STATES OF RINDERPEST AND FOOT-AND-MOUTH DISEASE

[Effective April 30, 1937]

APRIL 29, 1937.

Under authority conferred upon the Secretary of Agriculture by Section 306 of the Tariff Act of 1930 (46 Stat. 590, 689), the order to prevent the introduction into the United States of rinderpest or foot-and-mouth disease (B. A. I. Order 353), dated June 1, 1935, and effective August 1, 1935, as amended September 20, 1935, September 24, 1935, April 27, 1936, August 19, 1936 and October 15, 1936, is hereby further amended by striking out the name "Great Britain" from said order, inasmuch as I have determined that neither foot-and-mouth disease nor rinderpest now exists in said foreign country of Great Britain, and I have so officially notified the Secretary of the Treasury.

This amendment, which for the purpose of identification is designated Amendment 6 to B. A. I. Order 353, shall be effective April 30, 1937.

Done at Washington this 29th day of April 1937. Witness my hand and the seal of the Department of Agriculture.

FEDERAL TRADE COMMISSION.

*United States of America—Before Federal Trade Commission*

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 29th day of April, A. D., 1937.

Commissioners: William A. Ayres, Chairman, Garland S. Ferguson, Jr., Charles H. March, Ewin L. Davis, Robert E. Freer.

[File No. 21–302]

IN THE MATTER OF TRADE PRACTICE RULES FOR THE WET GROUND MICA INDUSTRY

PROMULGATION OF TRADE PRACTICE RULES

Due proceedings having been had under the trade practice conference procedure in pursuance of the Act of Congress approved September 26, 1914 (38 Stat. 717),

It is now ordered that the trade practice rules of Group I which have been approved by the Commission in this proceeding and the rules in Group II which have been received by the Commission as expressions of the industry be, and the same are, hereby promulgated for the Wet Ground Mica Industry.

TRADE PRACTICE RULES

WET GROUND MICA INDUSTRY

These rules promulgated by the Commission are designed to foster and promote fair competitive conditions in the interest of the industry and the public. They are not to be used, directly or indirectly, as part of or in connection with any combination or agreement to fix prices, or for the suppression of competition, or otherwise to unreasonably restrain trade.

*Group I*

The unfair trade practices which are embraced in Group I rules are considered to be unfair methods of competition or other illegal practices within the statutes and decisions of the Federal Trade Commission and the courts; and appropriate proceedings in the public interest will be taken by the Commission to prevent the use of such unlawful practices in or directly affecting interstate commerce.

*Rule 1.*

The selling, or offering to sell, Wet Ground Mica below seller's cost, with the intent and with the effect of injuring a competitor and where the effect may be to substantially lessen competition or tend to create a monopoly or unreasonably restrain trade, is an unfair trade practice; all elements recognized by good accounting practice as proper elements of such cost shall be included in determining cost under this rule.

*Rule 2.*

The using of any product of the industry as a "loss leader" to induct the purchase of other merchandise, the sale of which merchandise is used to recoup the loss sustained on the "loss leader" product so sold, with the tendency, capacity or effect of misleading or deceiving purchasers, prospective purchasers or the consuming public, and which unfairly diverts trade from or otherwise injures competitors, is an unfair trade practice.

*Rule 3.*

The publishing or circulating by any member of the industry of false or misleading price quotations, price lists, terms or conditions of sale, or reports as to transportation costs, production or sales, with the purpose and tendency or capacity to mislead or deceive purchasers, prospective purchasers or the consuming public, is an unfair trade practice.

*Rule 4.*

(a) *Prohibited Discriminatory Differentials, Rebates, Refunds, Discounts, Credits and Other Allowances.*—It is an unfair trade practice for any member of the industry engaged in commerce,[1] in the course of such commerce, to grant or allow, secretly or openly, directly or indirectly, any price differentials, rebates, refunds, discounts, credits or other allowances which effectuate a discrimination in price between different purchasers of goods of like grade and quality where either or any of the purchases involved therein are in commerce [1] and where the effect thereof may be substantially to lessen competition or tend to create a monopoly in any line of commerce [1] or to injure, destroy or prevent competition with any person who either grants or knowingly receives the benefit of such discrimination or with customers of either of them: *Provided, however*—

(1) That the goods involved in any such transaction are sold for use, consumption or resale within any place under the jurisdiction of the United States;

(2) That nothing herein contained shall prevent differentials which make only due allowance for differences in the cost of manufacture, sale or delivery resulting from the differing methods or quantities in which such commodities are to such purchasers sold or delivered;

(3) That nothing herein contained shall prevent persons engaged in selling goods, wares or merchandise in commerce [1] from selecting their own customers in bona fide transactions and not in restraint of trade;

(4) That nothing herein contained shall prevent price changes from time to time where made in response to changing conditions affecting either (a) the market for the goods concerned, or (b) the marketability of the goods, such as, but not limited to, actual or imminent deterioration of perishable goods, obsolescense of seasonal goods, distress sales under court process, or sales in good faith in discontinuance of business in the goods concerned.

(b) *Prohibited Brokerages and Commissions.*—It is an unfair trade practice for any member of the industry engaged in commerce,[1] in the course of such commerce, to pay or grant, or to receive or accept, anything of value as a commission, brokerage, or other compensation, or any allowance or discount in lieu thereof, except for services rendered in connection with the sale or purchase of goods, wares, or merchandise, either to the other party to such transaction or to an agent, representative, or other intermediary therein where such intermediary is acting in fact for or in behalf, or is subject to the direct or indirect control, of any party to such transaction other than the person by whom such compensation is so granted or paid.

(c) *Prohibited Advertising or Promotional Allowances, Etc.*—It is an unfair trade practice for any member of the industry engaged in commerce [1] to pay or contract for the payment of advertising or promotion allowances or any other thing of value to or for the benefit of a customer of such member in the course of such commerce as compensation or in consideration for any services or facilities furnished by or through such customer in connection with the processing, handling, sale or offering for sale of any products or commodities manufactured, sold or offered for sale by such member, unless such payment or consideration is available on proportionally equal terms to all other customers competing in the distribution of such products or commodities.

(d) *Prohibited Discriminatory Services or Facilities.*—It is an unfair trade practice for any member of the industry engaged in commerce [1] to discriminate in favor of one purchaser against another purchaser or purchasers of a commodity bought for resale, with or without processing, by contracting to furnish or by furnishing, or by contributing to the furnishing of any services or facilities connected with the processing, handling, sale or offering for sale of such commodity so purchased upon terms not accorded to all purchasers on proportionally equal terms.

(e) *Illegal Price Discrimination.*—It is an unfair trade practice for any member of the industry or other person engaged in commerce,[1] in the course of such commerce, to discriminate in price in any other respect contrary to Section 2 of the Clayton Act as amended by the Act of Congress, approved June 19, 1936 (Public No. 692, 74th Congress), or knowingly to induce or receive a discrimination in price which is prohibited by such section as amended.

*Rule 5.*

Withholding from or inserting in invoices any statements or information by reason of which omission or insertion a false record is made, wholly or in part, of the transactions represented on the face of such invoices, with the purpose or effect of thereby misleading or deceiving purchasers, prospective purchasers, or the consuming public, is an unfair trade practice.

*Rule 6.*

The defamation of competitors by falsely imputing to them dishonorable conduct, inability to perform contracts, questionable credit standing, or by other false representations, or the false disparagement of the grade, quality, or manufacture of the products of competitors, or of their business methods, selling, prices, values, credit terms, policies or services, with the tendency, capacity, or effect, of misleading or deceiving purchasers, prospective purchasers, or the consuming public, is an unfair trade practice.

[1] As herein used, the word "commerce" means trade or commerce among the several States and with foreign nations, or between the District of Columbia or any Territory of the United States and any State, Territory, or foreign nation, or between any insular possessions or other places under the jurisdiction of the United States, or between any such possession or place and any State or Territory of the United States or the District of Columbia or any foreign nation, or within the District of Columbia or any Territory or any insular possession or other place under the jurisdiction of the United States; Provided, That this shall not apply to the Philippine Islands.

*Rule 7.*

Wilfully inducing or attempting to induce the breach of an existing contract or contracts between competitors and their customers or their suppliers by any false or deceptive means whatsoever, or wilfully interfering with or obstructing the performance of any such contractual duties or services by any such means, with the purpose and effect of unduly hampering, injuring, or prejudicing competitors in their businesses, is an unfair trade practice.

*Rule 8.*

The false or deceptive marking or branding of products of the industry, with the tendency, capacity or effect of misleading or deceiving purchasers, prospective purchasers or the consuming public with respect to the grade, quality, quantity, use, size, material, content, origin, preparation, manufacture, or distribution of such products, or in any other material respect, is an unfair trade practice.

*Rule 9.*

The making, or causing or permitting to be made or published, any false, untrue or deceptive statement or representation, by way of advertisement or otherwise, concerning the grade, quality, quantity, use, size, material, content, origin, preparation, manufacture or distribution of any industry products, or in any other material respect, with the tendency, capacity or effect of misleading or deceiving purchasers, prospective purchasers or the consuming public, is an unfair trade practice.

*Rule 10.*

It is an unfair trade practice for a member of the industry directly or indirectly to give or offer to give, or permit or cause to be given, money or anything of value to agents, employees or representatives of customers or prospective customers, or to agents, employees or represenatives of competitors' customers or prospective customers, without the knowledge of their employers or principals, as an inducement to influence their employers or principals to purchase or contract to purchase products manufactured or sold by such industry member or the maker of such gift or offer, or to influence such employers or principals to refrain from dealing in the products of competitors, or from dealing or contracting to deal with competitors.

*Group II*

The trade practices embraced in Group II rules do not, *per se*, constitute violations of law. They are considered by the industry either to be unethical, uneconomical or otherwise objectionable; or to be conducive to sound business methods which the industry desires to encourage and promote. Such rules, when they conform to the above specifications and are not violative of law, will be received by the Commission, but the observance of said rules must depend upon and be accomplished through the cooperation of the members of the industry concerned, exercised in accordance with existing law. Where, however, such practices are used in such manner as to become unfair methods of competition in commerce or a violation of any law over which the Commission has jurisdiction, appropropriate proceedings will be instituted by the Commission as in the case of violation of Group I rules.

*Rule A.*
